DURABLE VINYL RESIN CONSTRUCTION

Carved by renowned sculptor Rich Smoker to replicate an adult Tom turkey targeting around 18 lbs. The design behind this was to offer a decoy position that can be used to depict a mature non-intimidating Tom turkey. In a walking position, facing away from the expected approaching gobble, it will seem as though the bird is taking refuge from a dominant bird, giving him the added confidence to charge right into your set.

- Natural active pose
- Grommets in back allow decoy stake to be used to position the bird in running, walking or upright positions
- Aggressive, realistic paint scheme
- Lightweight, collapsible vinyl construction
- Includes universal stake
