At the Brattle Theatre, we strive to provide quality showings of films from various cultures. Our selection of films includes both recent releases and classic treasures, ensuring a diverse range of cinematic experiences for our audience.

This week, we have a special premiere of "KILL LIST," directed by Ben Wheatley, which is included in our "Newest From Academically Acclaimed Directors" series. The film explores the psychological impact of war on a veteran, highlighting the challenges of returning to civilian life.

"THE FP" by Craig Cash is another highlight, with its clever blending of science fiction and fantastical elements. This film is sure to captivate audiences with its innovative storytelling and unique aesthetic.

For those interested in the French cinema, "MAY THEY REST IN REVOLT" is a must-see. Directed by Carine May, it delves into the lives of young men living in the Parisian slums, shedding light on their struggles and aspirations.

We also feature "LE PETITE CHAMARRE," a film that explores the complexities of family and identity. This French production is known for its powerful performances and nuanced storytelling.

In addition to these, we have a variety of other films, including documentaries and animated features, ensuring there is something for everyone. Whether you're looking for an intense drama or a light-hearted comedy, the Brattle Theatre has got you covered.

Join us for a week filled with cinematic adventures and discover the diverse world of film through our selection of premieres and special engagements.
