T740 Overview

- Operators appreciate the Bobcat® T740 compact track loader’s powerful breakout forces, fast cycle times and full-access serviceability for simplified routine maintenance. Hydraulic pumps in Bobcat loaders are matched to cylinder size and loader lift capacity to provide fast cycle times that help you get the job done faster.
- The durable T740 provides leading performance with a Tier 4-compliant 3.4L engine and generous operating capacity.
- The Bobcat® engine meets Tier 4 emissions standards without the need for a Diesel Particulate Filter (DPF), which reduces worktime otherwise lost to DPF regeneration and long-term maintenance costs.
