---

On Tuesday, 12/29/2020, APM's Manufacturing Plant in Allensville was lost to fire. The cause of the fire is unknown at this time and is under investigation by the Fire Marshall. APM is moving forward with plans for the future and rebuilding. While there are not specific details on the future plan to offer, current details are:

- APM is committed to fulfilling the orders that have been placed for Trusses and Wall Panels. We are deeply grateful for our business partners who are assisting us with fulfilling these in our time of need. If you have an order placed with us – we will get it filled.
- APM is continuing to move forward with Truss and Wall Panel Sales. We are finalizing details to be able to temporarily build at off site locations until we have rebuilt the plant in Allensville.
- None of APM's Home Centers were affected by this fire. They are open and operating in normal business hours.
- APM continues to be committed to you – the Customer! We will adapt and work through this difficult time, all the while making sure that we are still taking care of your needs. This has not changed and will not change.

Thank you to many of you who have reached out to us with your care and concern! We have been deeply grateful for the support that has been offered to us in this challenging time!
