Published Customer Reviews Reviews Going to Latin Alive! made an amazing difference in my family's life. We love it so much and it's so well put together. -Melissa, homeschool mom I just got my Latin Alive 1 bundle and watched some of the DVD... SO EXCITED!! Thank you for letting me give my daughter a classical home education. -Micki, homeschool mom My son and I are willing to work through Latin Alive! Book. We've already jumped forward to look into the testimony. He absolutely loves the immersion of Roman culture throughout the book. Thanks for the great product. -Melanie, the homeschool mom entry that I received (from my students) was pretty much positive (apart from other texts) about Latin Alive! Book 3. We like that translations are about Roman culture and history, so these topics are easier to weave into the curriculum. The mottos are a huge hit too. I've noticed that when translations are harder to decipher the author keeps them shorter, but lighter ones are longer. I understand that length relative to difficulties to help us in planning time. -Shannon, Legacy Preparatory Academy In Latin Is Alive!, I believe Karen Moore and her esteemed co-author, Gaylan succeeded in high production goal is a truly outstanding tutorial beginning to meet the needs of this new generation generation teachers and students. The text is interesting, with translation passages that represent Roman history in a logical and consistent manner. The explanation of grammar is simple and easy to understand. Illustrations improve text and are not mere distractions. Roman culture is represented in context and amplified in stories. Teachers with a limited Latin background will rejoice in a generous teacher's publication that not only provides the right answers, but delves deeper into deeper explanations and offers routes for further research and research. -Erin Davis-Valdez, MASSACHUSETTS, top school Latin and Greek and classics department, Hill Country Christian School Austin After using a college-level textbook for 5 years to teach my high school homeschool classes, I'm thrilled to have Latin Alive! Books 1 and 2 are available. I no longer have to pull in additional material resources in order to give my students an appreciation of Roman life and history. All is well! Latin is alive! is a

thorough, complex and pedagogical sound. Since I am a self-taught Latin teacher, he even taught me a few concepts of grammar that I missed before! Omnia gloriae Dei! -Linda, Mom at Home I love Latin for kids and Latin live! I teach Latin in our co-op (middle and middle school) and this is, frankly, the first curriculum I didn't have to rewrite (or at least seriously adjust) to teach it. It's all there, well written and fun to use. Kids love it, I love it and I've seen kids grow up understanding and applying language. Thank you CAP! - Jennifer, Latin high school teacher For Kids and Latin Alive! are complex and thorough enough for students, but simple enough for a homeschool mom with no Latin background to implement. I'm seriously thinking about going back to school for a second degree (in the classics) when my days at home are over. -Loretta, homeschool mom After using another program for my 3 oldest, we found Latin for kids. As the mother of a large family (teaching 9 right now), I need something that will walk me through it and become an independent learning student for children. After doing all three, we made the transition to Latin alive, and I rarely needed to help. Translation is great. -Patti, homeschool mom We started reading Aeneid yesterday (in English translation) as part of our Great Research Books. Just for fun, I printed out the first 12 lines in Latin, and we (sons and I) were pleasantly surprised to learn that after two years Latin for kids and a year and a half Latin Alive (we are in the middle of LA2), we could actually glance to read bits and pieces.
