ROB'S

REACTION

For several years we have been told that homosexuals are born that way. There is no biological basis to think that way. There never has been found a "gay gene." You become a homosexual by choice or by nurture, not by nature. *"Conditioning is the predominant cause of homosexuality....the evidence is overwhelming that genes do not cause homosexuality."* [Bill Flatt, Jack Lewis, Dowell Flatt, Counseling Homosexuals, p.65]

Regardless of how vocal supporters of homosexuality become or how many line the streets saying it is just a different lifestyle, God has spoken on the subject. So, is homosexuality merely a different lifestyle or is it a sinful lifestyle? [Suggested Bible passages to read: Jude 7, Genesis 19, 1 Timothy 1:8-10]

The lifestyle we adhere to comes by a choice we make. Homosexuality is a choice, but it is not God's choice. Because it is a lifestyle of choice, homosexual can change their lifestyle to follow God's choice. This is what happened in 1 Corinthians 6:9-11. When they made the change to God's way of living they were blessed as they followed Jesus, the Son of God and Savior of all those who do what is right (Acts 10:34-35).

The way we live is a choice we all have to make. Do we want the blessings of God or invite the judgment of God? (Romans 6:15-23)
