Air Emissions

Carbon dioxide (CO₂), nitrogen oxide (NO_x) and sulfur dioxide (SO₂) emissions rates from these sources in the period 10/01/18 –09/30/19 relative to the regional average, and to the emission rates of a new generating unit.

Labor Information

76% of electricity associated with Energy Plus came from power sources with union contracts with their employees. Labor information based on information provided by ISO New England, Inc. for the period Jan. 1, 1998 through December 31, 1998. Information regarding labor disputes is not available.

Notes: 1. See your contract terms and conditions for further information on this label. You may contact Energy Plus toll-free at 1-855-500-8703, the Massachusetts Department of Energy Resources at 617-626-7300 or the Massachusetts Department of Public Utilities at 1-877-886-5066.

2. Electricity customers in New England are served by an integrated power grid, not particular generating units. The above information is based on the most recently available information for the NEPOOL Generation Information System. NRG Home procures its electricity supply through system power contracts, not from specific generating units.
