## Verse

Where would I be without You  
How could I stand this storm alone  
Where would I be without You  
Out here on my own  
Who would I have to hold me  
Who else can make these mountains move  
Where would I be, where would I be without You

## ½ Chorus

I close my eyes 'cause faith is seeing for me  
I'm out of breath, but You are breathing for me  
I lift my hands, to Jesus be the glory, to Jesus be the glory

## Verse

Where would I be without You  
Facing this fight I'd never choose  
Where would I be without You  
With nothing left to lose  
Who would I have to hold me

Who else can make these mountains move  
Where would I be, where would I be without You
