

See Me Through

Verse

When the worries of the world are on me
Your Spirit breathes and leaves me longing
For your heart, where love has been waiting
The enemy it stands against me
I've tried to run but I'm returning
To your heart, where love has been waiting
Your heart, where love has been waiting

Chorus

You turned my darkness into dancing
You set my feet upon a rock that can't be moved
You have won my heart forever
You brought me here and You will
See me through

Verse

When I doubt that You are for me
Open up my eyes, remind me
Of Your heart, where love has been waiting
Your heart, where love is still waiting

Chorus

Turn (2x)

You'll see me through

Bridge:

Your unfailing love has taken over me
The praise belongs to You forever
Your unfailing love has taken over me
The praise belongs to You forever
Your unfailing love has taken over me
The praise belongs to You forever
Your unfailing love has taken over me
The praise belongs to You forever, forever
