Immunization Health History Form

All Students Must Complete Top Portion

Name: _____
Last First MI

Date of Birth: _____ Phone: (____) _____ Student ID Number: _____
Month/Day/Year

(TO BE COMPLETED BY NEW APPLICANTS ONLY)

The General Assembly of the State of Tennessee mandates that each public or private postsecondary institution in the state provide information concerning measles, mumps, rubella, varicella, and hepatitis B infections to all students matriculating for the first time. Tennessee law requires that such students complete and sign a waiver form provided by the institution that includes detailed information about these diseases. The required information below includes the risk factors and dangers of these diseases as well as information on the availability and effectiveness of vaccines for persons who are at-risk for these diseases. The information concerning each disease is from the Centers for Disease Control and the American College Health Association.

The law does not required that students receive vaccination for enrollment. Furthermore, the institution is not required by law to provide vaccination and/or reimbursement for the vaccine.

Hepatitis B (HBV) Immunization:

Hepatitis B (HBV) is a serious viral infection of the liver that can lead to chronic liver disease, cirrhosis, liver cancer, liver failure, and even death. The disease is transmitted by blood and or body fluids and many people will have no symptoms when they develop the disease. The primary risk factors for Hepatitis B are sexual activity and injecting drug use. This disease is completely preventable. Hepatitis B vaccine is available to all age groups to prevent Hepatitis B viral infection. A series of three (3) doses of vaccine are required for optimal protection. Missed doses may still be sought to complete the series if only one or two have been acquired. The HBV vaccine has a record of safety and is believed to confer lifelong immunity in most cases.

Check only **one**:

☐ I hereby certify that I have read this information and I have had the entire series of the Hepatitis B vaccine.

☐ I hereby certify that I have read this information and I have elected not to receive the Hepatitis B vaccine.

☐ I hereby certify that I have read this information and I have elected to receive the Hepatitis B vaccine and/or I am in the process of receiving the complete three dose series of the Hepatitis B vaccine.

Measles, Mumps, Rubella (MMR) and Varicella Immunizations:

Measles, causes fever, rash, cough, runny nose, and red, watery eyes. Complications can include ear infection, diarrhea, pneumonia, brain damage, and death.

Mumps causes fever, headache, muscle aches, tiredness, loss of appetite, and swollen salivary glands. Complications can include swelling of the testicles or ovaries, deafness, inflammation of the brain and/or tissue covering the brain and spinal cord (encephalitis/meningitis), and, rarely, death.

Rubella causes fever, sore throat, rash, headache, and red, itchy eyes. If a woman gets rubella while she is pregnant, she could have a miscarriage or her baby could be born with serious birth defects.

Varicella (chickenpox) causes blister-like rash, itching, fever, and tiredness. Complications can include severe skin infection, scars, pneumo-nia, brain damage, or death.

You can protect against these diseases with safe, effective vaccination.

Check only **one**:

☐ I hereby certify that I have read this information and I have had the entire series of MMR and Varicella vaccines.

☐ I hereby certify that I have read this information and I have elected not to receive the MMR and Varicella vaccines.

☐ I hereby certify that I have read this information and I have elected to receive the MMR and Varicella vaccines and/or I am in the process of receiving the complete series of MMR and Varicella vaccines.

Signature of Student _____ **Date** _____
(Parent/Guardian must sign if student is under the age of 18)

For more information about these diseases and the vaccine schedules, please contact your local health care provider or consult the Center for Disease Control and Prevention Web site at www.cdc.gov/health/default.htm.
