Catalog Scope and Limits
The course offerings and requirements of the college are continually under examination and revision. This catalog presents the offerings and requirements in effect at the time of publication, but there is no guarantee they will not be changed or revoked. However, adequate and reasonable notice will be given to students affected by any changes. This catalog is not intended to state contractual terms and does not constitute a contract between the student and the college.

The college reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students, to be effective whenever determined by the college. The enrollment of all students is subject to these conditions. Current information may be obtained from the following sources: Admission Requirements—Student Services Center, Course Offerings—Department or Division offering the course, Degree Requirements—Records Office, and Tuition—Business Office. Web site: www.nscce.edu

Nashville State Community College provides the opportunity for students to increase their knowledge by providing programs of instruction in the various disciplines through faculty who are qualified for teaching at the college level. The acquisition and retention of knowledge by any student is, however, contingent upon the student’s desire and ability to learn and upon application of appropriate study techniques to any course or program. Thus, Nashville State Community College must necessarily limit representation of student preparedness in any field of study to that competency demonstrated at that specific point in time at which appropriate academic measurements were taken to certify course or program completion.

Policy Statement of Nondiscrimination
Nashville State Community College does not discriminate in any form against students, employees, or applicants on the basis of race, sex, national origin, religion, age, or disability. Nashville State Community College complies with nondiscrimination laws Title VI, Title IX, Section 504, and the ADA. This discriminatory policy and practice extends to cover all educational programs and activities conducted by Nashville State Community College. Procedures for filing grievances can be obtained from the college’s Affirmative Action Officer.

State of Tennessee General Assembly
Chapter No. 661, House Bill 3526
It is a Class A misdemeanor to misrepresent academic credentials. A person commits the offense of misrepresentation of academic credentials who, knowing that the statement is false and with the intent to secure employment at or admission to an institution of higher education in Tennessee, represents, orally or in writing that such person:

1. Has successfully completed the required course work for and has been awarded one (1) or more degrees or diplomas from an accredited institution of higher education;

2. Has successfully completed the required course work for and has been awarded one (1) or more degrees for diplomas from a particular institution of higher education; or

3. Has successfully completed the required course work for and has been awarded one (1) or more degrees or diplomas in a particular field or specialty from an accredited institution of higher education.

The Mission

The mission of Nashville State Technical Community College is to provide comprehensive educational programs and partnerships, exemplary services, an accessible, progressive learning environment, and responsible leadership to improve the quality of life for the community it serves.

History of Nashville State

In 1963, the Tennessee General Assembly passed House Bill No. 633 authorizing the statewide system of regional technical institutes and area vocational-technical schools.

Nashville State opened in 1970 with an enrollment of 398 students. By the Fall of 2000, that number had grown to 7,315, with an enrollment of over 14,000 students during the entire academic year. Nashville State’s initial offering of five Associate’s degree programs has grown to 49 degree programs and 12 certificate programs. In addition, Nashville State offers continuing education courses ranging from technical skills to management training and programs providing training in such areas as computer-aided drafting and office technology.

Nashville State shares a 109 acre campus with the Tennessee Technology Center at Nashville. The Nashville State facilities include 239,000 square feet of space for classrooms, labs, offices, student services, and a library.

Since 1984, Nashville State has been governed by the Tennessee Board of Regents (TBR) of the State University and Community College System. By 2001, TBR began analyzing the lack of a comprehensive community college presence in Cheatham, Davidson, Dickson, Houston, Humphreys, Montgomery, and Stewart counties. After extensive study and consultation, TBR decided to pursue the objective of expanding the mission of Nashville State as a comprehensive community college in order to help Middle Tennesseans by preparing a skilled workforce; attracting high skill, high pay jobs; improving the per capita income rank of 8th among 11 peer cities; easing transfer to baccalaureate programs; and projecting a substantial income lifetime advantage of graduates with A.A.S. degrees.

In the spring of 2002, the decision was approved by the Tennessee General Assembly and the Tennessee State Governor to expand Nashville State to community college status effective on July 1, 2002. Nashville State is authorized to offer the Associate of Applied Science (A.A.S.) degree, as well as technical and academic certificates. The Associate of Arts (A.A.) and Associate of Science (A.S.) degrees are offered for students planning to transfer to universities.

Accreditation and Memberships

Nashville State Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, 1866 South Lane, Decatur, Georgia 30033-4097; Telephone 404-679-4501 to award the Associate of Applied Science (A.A.S.) degree, the Associate of Arts (A.A.) degree, and the Associate of Science (A.S.) degree.

The Business Management, Computer Accounting, and the Office Administration Programs have been given full accreditation by the Association of Collegiate Business Schools and Programs (ACBSP), 7007 College Blvd., Suite 420, Overland Park, Kansas 66211; Telephone 913-339-9356.

The following Engineering Technology Programs have been accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET). 111 Market Place, Suite 1050, Baltimore, Maryland 21202-4012, Telephone 410-347-7700.

• Architectural, Civil and Construction Engineering Technology
• Electrical Engineering Technology

The Occupational Therapy Assistant Technology Program is accredited by the Accreditation Council of Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA).

The Surgical Technology Program has been reviewed by the Accreditation Review Committee on Surgical Technology (ARC-ST), and is accredited by the Committee on Accreditation of Allied Health Education Programs (CAAAEP).

The Culinary Arts degree program is accredited by the Accrediting Commission of the American Culinary Federation Foundation.

Nashville State holds membership in additional professional organizations, including:
American Association of Community Colleges
American Society for Engineering Education
American Society for Training and Development
College & University Professional Association for Human Resources
Cookeville Area-Putnam County Chamber of Commerce
Council for Higher Education Accreditation
Humphreys County Chamber of Commerce
Middle Tennessee Society for Human Resource Management
Nashville Area Chamber of Commerce
Nashville Technology Council
National Association of College & University Business Officers
National Association of Student Financial Aid Administrators
National Coalition of Advanced Technology Centers
Servicemembers Opportunities Colleges
Tennessee Alliance for Continuing Higher Education
Tennessee Association of Colleges and Employers

This list is subject to change at any time prior to or during an academic term.
Investing in Nashville’s Future

Giving to Nashville State Community College

Since 1994, the Nashville State Community College Foundation has been serving Nashville State and its students with the goal of expanding access to higher education and furthering the workforce and economic development of the region.

Each semester, 7,000 individuals earn new skills or find a new life direction through the college’s broad range of learning opportunities.

Nashville State Community College makes a difference for our students and our community. Our students see the college as the key to furthering their education, launching a career, and increasing their marketplace value and productivity. And our college plays a vital role in strengthening the Nashville economy, training the Nashville workforce, and providing access to educational programs that students otherwise could not afford.

Our college trains students in high-demand career fields such as Healthcare, Information Technology, Engineering Technology and Culinary Arts at a fraction of the cost of private, two-year institutions offering similar programs. Private support of this institution is necessary to ensure that we continue providing quality, comprehensive educational programs that meet the need of area employers and also have sufficient scholarship funds available to help our students fund their dream of a college education.

Making a Gift

Every gift, regardless of size, makes a difference for the students at Nashville State. Opportunities to strengthen the college abound at all levels.

For more information on how to make a gift to Nashville State Community College, please contact the Development Office at 615-353-3743 or visit us online at www.nscc.edu/foundation.

Admission to the College

Nashville State Community College
Nashville State Community College provides opportunities for collegiate education to all qualified applicants without regard to their race, color, sex, religion, national origin, age, or disability. Information concerning admission to the college may be obtained from:

Office of Admissions
Nashville State Community College
120 White Bridge Road
Nashville, TN 37209
Phone 615-353-3215
Email: Recruiting@nscc.edu
Web: www.nscc.edu

Campus Visitation
Campus visits may be scheduled by calling the Office of Admissions at 615-353-3057.

Admissions Requirements
NSCC provides two major types of admission: Degree Admissions and Non-Degree Admission, with several subcategories. Each admissions category is designed for a particular purpose and for different populations. Applicants should review the various types and subcategories and select the admissions category that best suits their educational needs and qualifications.

In all cases, qualified students must:
1. Meet entry-level standards for the courses in which they enroll,
2. Be able to complete assignments, and
3. Be able to read and write at the required level.

Future students are urged to submit their applications as early as possible to allow sufficient time for application processing and the timely distribution of registration information.

All admissions documents submitted by the applicant become the property of the college and cannot be forwarded or returned. All correspondence concerning your admissions file should be sent to the address above.

When all admissions requirements have been met, the degree-seeking applicants will receive letters indicating they have been accepted for admission. Otherwise, the applicants will receive letters indicating further action is necessary in order to establish eligibility for admission. Applicants will be advised when to appear for orientation, testing, and/or registration.

The Vice President of Academic Affairs may, upon appeal, waive or modify conditions of admissions for individual applicants.

The following admissions requirements are divided into admissions classifications. Each classification begins with a description. Read each description carefully to determine your admissions requirements.

University Parallel Program
For applicants wishing to enroll in a university parallel program leading to an Associate of Arts or an Associate of Science degree, and eventually a Bachelor's degree, the Tennessee Board of Regents requires the completion of specific high school courses.

Applicants who graduated from high school or home school during or after 1989 must meet the following course requirements in addition to those listed in the applicant's selected program of study. All course requirements must be met prior to the awarding of an Associate's degree in the university parallel program. Applicants who received a GED certificate during 1989 and thereafter as well as students who have an Enhanced ACT composite score of 26 or higher are considered to have met all high school unit requirements except those in foreign language and visual or performing arts. Listed below are the required courses and the required number of courses.

<table>
<thead>
<tr>
<th>Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4</td>
</tr>
<tr>
<td>Algebra I</td>
<td>1</td>
</tr>
<tr>

<td>1</td>
</tr>
</tbody>
</table>

Applicants who are found to be deficient in any of the above courses may be admitted on a provisional basis and will be required to remove any deficiencies prior to being awarded an Associate of Arts or Associate of Science degree. Questions regarding this policy should be forwarded to the Records Office at 615-353-3218.
Removal of High School Unit Deficiencies

After a review of the application, the Office of Admissions will notify the student if he or she has high school unit deficiencies. NSCC encourages students to remove unit deficiencies within the first 30 semester hours of their programs of study to avoid prerequisite problems. Courses used to remove high school unit deficiencies cannot be used to fulfill program requirements, and a grade of “C” or better must be earned in those courses.

* Entrance deficiencies in English, Algebra I and II will be removed through the NSCC mandatory assessment and placement program.

Degree Seeking

First-Time Student

A “First-Time Student” at NSCC is an applicant who has never attended any college before.

These applicants must:

1. Submit a completed Application for Admissions and a $5 non-refundable application fee. All appropriate spaces must be completed on the application. Failure to submit a complete and accurate application will result in a delay in processing your application to the college.

2. Graduate from a state approved high school, home school, or receive a GED high school equivalency diploma and submit to the Office of Admissions an “Official” high school transcript or an “Official” copy of GED scores (An “Official” transcript is one that is mailed directly to the Office of Admissions by the high school guidance counselor, or one that is submitted in an envelope sealed and stamped or initialed by the guidance counselor. An official GED is one mailed directly to the Office of Admissions by the testing agency, or one that is submitted in an envelope sealed and stamped or initialed by the testing agency). Evidence on the “Official” high school transcript indicating a passing Tennessee Comprehensive Assessment Program (TCAP) score is required for graduates of Tennessee public schools. NOTE: The transcript of a home school student should be an official copy from an affiliated organization as defined by state law (T.C.A. 49-50-801). Transcripts from independent home school students must be accompanied by certification of registration with the superintendent of the local education agency that the student would have otherwise attended. Applicants unable to provide a satisfactory secondary school credential may substitute acceptable GED scores. The minimum acceptable score for the GED is 450 with no sub-score less than 350.

3. Show proof of Measles, Mumps, and Rubella (MMR) vaccination if they are full-time entering students born prior to January 1, 1957. By state law (Tenn. Code Annotated § 49-6-5001) immunization is not required if:

   a. It conflicts with the parent’s or guardian’s or individual’s religious tenets and practices.

   b. A qualified physician certifies that administration of such immunization would be in any manner harmful to the individual involved, due to pregnancy, allergy to the vaccine, or other valid medical reasons.

   c. Applicant is a Tennessee graduate from 1999 to present.

Certificate of Immunization forms may be obtained from the Office of Admissions. Official copies of State Health Department or military immunization forms will be accepted in lieu of the certificate.

4. Complete the Hepatitis B Immunization Health History Form.

5. Males applicants between the ages of 18 and 26 must show proof of Selective Service registration. Applicants must meet this requirement prior to registration. Selective Service registration forms may be obtained from the Office of Admissions.
6. Applicants under the age of 21 should submit ACT or SAT scores. ACT or SAT scores are used to determine in which areas the applicant may be required to complete college prep course work. Enhanced ACT or SAT scores must be less than three years old. Information regarding the ACT or SAT may be obtained from your high school guidance counselor, NSCC Testing Center (615-353-3564), or by writing to:
   American College Testing, Inc.
   P.O. Box 168
   Iowa City, Iowa 52242
   NSCC ACT code number is 3983. Please use this number to request scores to be sent to NSCC.
   
a. Applicants who have a valid ACT English sub-score of 27 or higher or a valid SAT critical writing score of 610 or higher may receive credit for English 1010.
   
b. Applicants whose ACT reading sub-test score is less than 19 on the Enhanced ACT or less than 460 critical reading score on the SAT will be required to take college prep course work.
   
c. Applicants whose English sub-test score is less than 19 on the Enhanced ACT or less than 460 critical reading score on the SAT will be required to take college prep course work.
   
d. Applicants whose math sub-test score is less than 19 on the Enhanced ACT or less than 470 math score on the SAT will be required to take college prep course work.

7. Applicants under 21 years of age possessing a GED with acceptable scores as described above are not required to submit ACT or SAT scores. However, they are required to undergo placement assessment.

8. All applicants 21 years of age or older must take the placement assessment. These applicants may choose to take the Enhanced ACT and be assessed according to the above guidelines.

Transfer Student
A degree-seeking applicant who has attended another college or university will be considered a transfer student. For “Transfer” applicants the following will apply:

1. Submit a completed Application for Admissions and a $5 non-refundable application fee. All appropriate spaces must be completed on the application. Failure to submit a complete and accurate application will result in a delay in processing your application.

2. Submit transcripts from all previously attended institutions. Transcripts should be mailed directly to the Office of Admissions from the sending institution. For the convenience of the applicant, the college will accept “official” transcripts hand carried by the applicant, when it is in an envelope sealed by the Records Office of the previous college attended. If the seal has been tampered with in any way, the “official” designation of the transcript will be voided and the applicant will be required to submit another “official” transcript. An initial evaluation of the transcript will be completed. If the applicant has fewer than 60 cumulative semester hours of college level work and is seeking an Associate of Science or Associate of Arts degree under the university parallel program, an “official” high school transcript or GED scores must be submitted.

3. Applicants under the age of 21 should submit ACT or SAT scores. If fewer than 60 semester hours have been attempted, the ACT or SAT scores are used to determine in which areas the applicant may be required to complete college prep course work. Grades received in transfer courses will be considered for proper placement. Enrollment in those courses indicated by the results of the assessment is mandatory.

4. Have their transcripts evaluated for proof of competency in the areas of reading, writing, and mathematics, if they are 21 years of age and older and have fewer than 60 semester hours of completed work. Applicants lacking college level work in these areas will be required to undergo assessment. Enrollment in college prep courses indicated by the results of the assessment is mandatory.

5. College prep course work taken at other TBR institutions will be posted to the applicant’s NSCC record and be considered in the number of attempted hours, but are not counted as hours earned toward the program of study.

6. All transfer applicants with 60 or more semester hours of credit, which must include college-level English and math transfer credit with a grade of “C” or better, will be exempt from placement assessment.

7. Transfer applicants who do not meet the Admissions standards of NSCC or whose last term of enrollment resulted in academic suspension will be admitted on academic probation and may be required to undergo placement assessment. Enrollment in those courses indicated by the results of the assessment is mandatory.

Admission to the College
8. Transfer applicants whose last term of attendance at NSCC resulted in academic suspension and who are currently serving a suspension at another institution must meet with the Dean of Students to begin the academic review process (See Academic Action Appeals, page 41). If admission is recommended by the Academic Review Committee, the applicant may be required to undergo placement assessment as noted in section 3 or 4 above.

Readmitted Student
Any former NSCC student who has not been enrolled for over one year and who wishes to return to the college is considered a readmit student. Students seeking a readmission status must:

1. Submit an application for admission.
2. Submit an official transcript from each college or university attended since leaving NSCC. If it has been more than five (5) years since attending NSCC, all transcripts must be resubmitted. (High School, GED, College, etc.)
3. Be eligible for readmission under the college’s admissions policy.
4. Take the placement assessment if they do not meet one of the following conditions:
   a. Meet ACT requirements as outlined under “Degree Seeking Students”, item 5 on the previous page.
   b. or have previously earned college credit for first-term math or English.

International Student
An applicant who is a citizen or a Permanent Resident of a country other than the United States is classified as an International Student.

It is the responsibility of the international student to be familiar with U.S. Citizenship and Immigration Services (USCIS) regulations and assume responsibility for complying with these regulations.

Important Information for International Students
All international students, regardless of status, are required by USCIS to complete the “Special Registration Alien’s Change of Address Card” within 10 days of such change. This form must be completed upon entering the United States and within 10 days of any change of address during time of stay.

International students may obtain the “Special Registration Alien’s Change of Address Card” from the Information Desk in the Student Services Building. Forms should be mailed to the Department of Justice address located on the form.

F-1 Student Status
NSCC is authorized under federal law to enroll non-immigrant students on F-1 student status in its Associate’s degree programs and English as a Second Language (ESL) classes. Applicants should have the following credentials on file in the Office of Admissions one month prior to the start of the semester in which they wish to enroll:

1. A completed application for admission and a non-refundable $5.00 application fee.
2. Official copies of academic records of attendance from secondary schools, colleges, or universities accompanied by a certified English translation of these documents.
3. Official scores of the Test of English as a Foreign Language (TOEFL). A minimum score of 500 on the paper-based version, a minimum score of 173 on the computer-based version, or a 61 on the Internet-based version is required for admission. Course work completed at another United States college or university or graduation from a United States high school may be used in lieu of TOEFL. Additional institutional placement assessment such as the Michigan Plus Language Proficiency Test and/or the math portion of the compass is required of all international students (See “Degree-Seeking Non-Immigrant Status other than F-1” section that follows). Any academic skills deficiencies must be removed through enrollment in college prep courses. Our TOEFL code number is 1149. ESL students are not required to submit TOEFL scores.
4. Satisfactory evidence of the financial capability to meet the expense involved while studying at NSCC. Applicants on F-1 status must also complete the appropriate form, provided by the college, showing financial capability. Completion of this form includes the student’s intent to attend the college on a full-time basis (12 or more credit hours per semester) and states that no employment will be required to meet expenses. International students will pay out-of-state fees and are not eligible for Title IV funding.
5. A certificate from a licensed physician or other medical authority verifying freedom from tuberculosis. This certificate must be submitted to the Office of Admissions within 30 days from the first day of classes to continue enrollment. If the student either has or potentially has tuberculosis requiring medical treatment, continued enrollment depends upon the decision of a licensed physician that the student's enrollment is not a risk to others and upon the student's compliance with any prescribed medical treatment.
6. All foreign non-immigrant students with F-1 visas must enroll in the TBR Student/Scholar Health & Accident Insurance Plan as a condition of admission and continued enrollment.

Degree-Seeking Non-Immigrant Status other than F-1
Students whose first language is NOT English are protected under Title IV of the Civil Rights Act and are guaranteed language assistance once a language deficiency is documented. These students must:

1. Submit an application for admission and a non-refundable $5.00 application fee.
2. Provide all documentation proving U.S. Immigration and Naturalization Service status.
3. Meet all regular admissions requirements as a degree-seeking student except as described below:
   - Take the Michigan Plus Language Proficiency Test and accept placement in the appropriate course work. Call an ESL testing specialist for details at 615-353-3380.
4. Take the Test of English as a Foreign Language (TOEFL). A minimum score of 500 is required on the paper version, or a minimum score of 173 on the computer-based version, or a 61 on the Internet-based version.
5. Take the math portion of the COMPASS examination.

Permanent Residents and Refugees
Applicants in this category must meet all applicable requirements for regular admissions to the college. Other requirements are as follows:

1. Submit an application for admission and a non-refundable $5.00 application fee.
2. Submit Permanent Resident or I-94 card.
3. A permanent resident whose native language is NOT English must take the Michigan Plus Language Proficiency Test and accept placement in the appropriate course work in lieu of regular placement assessment. Call an ESL testing specialist for details at 615-353-3380.

Technical Certificates
Students enrolled in a technical certificate program are considered non-degree students. Placement assessment is not required for acceptance into these programs with the exception of the Surgical Technology and Surgical Assisting. Please contact the Office of Admissions for details.

For admissions into a technical certificate program, applicants must:

1. Submit an application for admissions with a $5.00 non-refundable application fee.
2. Submit an official copy of high school transcript showing graduation with a regular or honors diploma, GED scores, or a college transcript.

These programs of study are eligible for Title IV assistance.

Special Student
A special student is one who is not enrolled in a degree program. Students in this classification desire to take one or more courses in order to gain employment skills, professional growth, or personal enrichment. In order to apply, special students should:

1. Submit a completed application for admission with a $5.00 non-refundable application fee.
2. Students under 21 years of age must be high school graduates or have the GED equivalent. Documents showing graduation or GED must be submitted to the Office of Admissions. One exception to this requirement is students 18 years of age or older who have not earned a high school diploma, are not enrolled in high school, and are seeking admissions only to pursue study in GED preparatory courses.

There is no limit on the number of hours a special student can pursue. Although special students are not required to complete normal assessment procedures, they should realize that the content of college-level courses assumes mastery of fundamental knowledge, skills, and aptitudes required for the course. Special students may not enroll in a college-level English or mathematics course, or in a course that has an English or mathematics prerequisite, until they have provided evidence of adequate preparation for these courses. This evidence may consist of college transcripts or COMPASS/ACT or SAT examination scores.

If a special student decides to pursue an Associate’s degree, the student must meet all admissions requirements for the degree-seeking student. Credit hours accumulated as a special student are not applicable to the final 24 semester hours required for an Associate’s degree.
**Transient Student**
A regularly enrolled student of another institution who wants to take a limited number of credit hours during a term and who is not presently working towards a degree at NSCC may be admitted as a transient student. Those wishing to enroll as transient students must:

1. Submit an application for admissions with a $5.00 non-refundable application fee.
2. Submit official college transcript(s) or take the placement assessment, if the student wishes to enroll in college level English or math.

**Audit Student**
Students wishing to enroll on a non-credit basis may choose to audit courses at NSCC. To enroll as an audit student:

1. Submit an application for admissions with a non-refundable $5.00 application fee.
2. Enroll in classes on a space available basis the first day of late registration. No late registration fee is assessed and the enrollment in certain classes may be limited or denied based upon space availability.
3. You may NOT change status from credit to audit or audit to credit once officially enrolled.
4. The student is expected to attend class but does not receive a letter grade or credit for the course. “AU” will appear on the student’s record for completion of an audit course. Audit hours are counted in determining a student’s maximum course load, only.
5. The student may NOT audit college prep courses.
6. A state employee may NOT use a fee waiver to audit courses.

**High School Graduate**
An applicant who has earned a regular high school diploma or GED may enroll in any course.

1. Except college-level math, English, or a course that has college-level math or English prerequisites. Any student who plans to enroll in college-level math or English must have the required ACT/SAT scores. For ACT/SAT requirements, refer to “Degree-Seeking, First-Time Student” above.
2. To enroll:
   a. An applicant must submit an application for admissions with a non-refundable $5.00 application fee.
   b. Submit official high school transcripts.

**Student with Previous College Credit**
An applicant who has earned college credit but does not have a degree may enroll after completing the following:

1. Submit an application for admissions and a $5.00 non-refundable application fee.
2. Submit official college transcript(s) or take the Placement assessment, if the student wishes to enroll in college level English or math.

**College Graduate**
Applicants who have earned college degrees may enroll in college-level courses provided the applicants have met the prerequisite requirements for the courses in which they intend to enroll. Applicants must:

1. Submit an application for admissions with a non-refundable $5.00 application fee.
2. Submit official college transcript(s).

**Dual Enrollment Program**
A student in grades 11 or 12 may earn both high school credit and college credit while attending the same class in his/her high school. Students may also attend college classes for dual credit at NSCC. To enroll in the Dual Enrollment program applicants must:

1. Be a junior or senior in high school.
2. Have a minimum sub-score of 19 on the ACT in the specific subject area.
3. Meet all prerequisites of the course or courses in which they wish to enroll.
4. Have written permission from their high school principal and parent or guardian.

For more information on dual credit courses, contact the NSCC Coordinator of K-12 Programs at 615-353-3269.

**Joint Enrollment Program**
A student in grades 11 or 12 may earn college credit while in high school. Classes are held on the NSCC campus with occasional courses offered at the high school. To enroll in the Joint Enrollment Program applicants must:

1. Be in the 11th or 12th grades.
2. Have a minimum sub-score of 19 on the ACT in the specific subject area (i.e., math or English).
3. Meet all prerequisites of the course in which they wish to enroll.
4. Have written approval of parent or guardian.
Academically Talented
A student in grades 9, 10, 11, or 12 who has been classified as “academically gifted” may earn college credit while in high school. Classes are held on the NSCC campus. To enroll as an “academically gifted” student applicants must:

1. Be in the 9th, 10th, 11th, or 12th grades.
2. Have a minimum overall G.P.A. of 3.2 on a 4.0 scale.
3. Have a minimum sub-score of 19 on the ACT in the specific subject area (i.e., math or English).
4. Meet all prerequisites of the course in which they wish to enroll.
5. Have written approval of high school principal and parent or guardian.

Application forms and other admissions information may be obtained from the NSCC Coordinator of K-12 Programs at 615-353-3269. The ACT Residual may be taken at NSCC. ACT Residual means that the scores are used exclusively at NSCC and cannot be used for admissions to another college or university.

Tech Prep
Tech Prep is a program of study that combines, at a minimum, two years of secondary education with two years of postsecondary education. The Tech Prep program constitutes a non-duplicative sequence or course study that integrates academic, vocational and technical instruction and utilizes work-based and worksite learning. Students may earn postsecondary credits for courses completed in high school by meeting all requirements of the Tech Prep Program. To enroll as a Tech Prep student applicants must:

1. Discuss with your high school teachers and counselors the courses eligible for credit at NSCC.
2. Develop your high school four-year or six-year plan, which should be updated each year with your counselor and teachers.
3. Maintain a “B” average or higher in courses eligible for articulation credit.
4. Complete, during your senior year, the application for “Articulation Credit”. This application should be submitted along with your final transcript to NSCC.
5. Submit an application for admissions and a non-refundable $5.00 application fee.

For more information, call 615-353-3728.

Residency Classification
Upon admission to the college, the Office of Admissions classifies each student as a resident or non-resident. Ordinarily it is presumed that a person entering Tennessee from another state or country to attend college does so intending to remain only for the period of attaining his or her educational degree.

All decisions regarding residency classification are made for the purpose of paying fees and tuition, and are based on the Tennessee Board of Regents Policy No. 3:05:01:00. Copies of these policies are available in the Office of Admissions. The College may require proof of relevant facts regarding residency. The responsibility for residency classifications rests with the Director of Admissions, and all documentation should be submitted with an In-State Residency Application to the Office of Admissions. Students who disagree with the final decision may submit an appeal in writing to the Dean of Students. For more information or to receive a Residency Application, stop by or call the Office of Admissions at 615-353-3215.

Selective Service Requirements
1. Pursuant to federal law, every male who is between the ages of 18 and 26, and is a citizen of the United States or a resident of the United States must register with the Selective Service.
2. Notwithstanding the provisions of paragraph 1, the requirements to register shall not apply to any alien lawfully admitted to the United States as a non-immigrant, under Section 101(a)(15) of the Immigration and Nationality Act, as amended, for so long as he continues to maintain a lawful non-immigrant status in the United States.
3. Men who have previously served in the military must also meet this requirement.
4. If a student meeting the above age requirements has not registered for the Selective Service, that student must show proof of said registration by completing the Selective Service Registration Form. Forms may be obtained from the Office of Admissions.

Advanced Standing
Matriculated (enrolled) students at Nashville State Community College may meet some course requirements for graduation through course waivers and substitutions; college transfer credit; credit by examination; the college-level examination program; advanced placement examinations; prior
work experience; high school, career, and vocational education experience; and U.S. Military training and experience. Documentation of any of these alternate methods of meeting requirements must be filed in the Records Office prior to the beginning of the semester in which the student will graduate. If this documentation is not on file, the student’s graduation date may be delayed. (Students who are not enrolled at Nashville State Community College are not eligible for any advanced standing program).

**College Transfer Credit**

Credit may be awarded to transfer students when the following standards are met:

1. Official college or university records are on file in the student’s NSCC academic record.
2. The coursework transferred or accepted for credit must have course content and level of instruction resulting in student competencies at least equivalent to other students enrolled in this institution.
3. Credits earned more than six years prior to enrollment at NSCC may be reviewed and evaluated by the appropriate Dean and transfer credit/graduation analyst.
4. The student matriculates (enrolls) at Nashville State Community College.

If a student has earned credit for a course at a prior institution with fewer than the number of hours required for the equivalent course, credit may be given for that course if the material covered is sufficiently equivalent to the NSCC course. In all cases, a student must have earned a minimum number of semester hours to meet the graduation requirements for degree or certificate. Grades earned at another institution are not used to compute a student’s grade point average at NSCC.

**College Board Advanced Placement Examinations**

Students who complete College Board Advanced Placement Examinations with a score of 3.0 or higher may receive credit toward their program of study. Students take the Advanced Placement exams at their high schools. No fees are charged for awarding this credit. Official College Board AP exam scores should be submitted with the admissions application.

**College-Level Examination Program (CLEP)**

CLEP is a program of “credit by examination” which offers individuals an opportunity to earn college credit without enrolling in specific college courses. College level competencies may have been acquired through personal reading, formal study, job experience, volunteer experience, correspondence courses, military training, or advanced high school courses.

CLEP exams are offered each Thursday morning (excluding holidays) at 9:00 a.m. in the NSCC Testing Center. Appointments should be made in advance.
Total Cost $75 per examination: CLEP charges $60 per exam and prefers it be charged to American Express, MasterCard, or Visa. NSCC charges $15 per exam for test administration and requires it be paid by check or money order.

For additional information, contact the Testing Center at 615-353-3564.

College-Level Examination Professional Certification Exams

Students may receive advanced standing credit by successfully completing recognized professional certification exams. Official examination results should be submitted with the application for admissions or to the Records Office if the exam is completed after the student has been admitted to NSCC.

Equivalencies for the Certified Professional Secretary Exam

After an individual has completed 15 credit hours in the Office Administration program, certain credits are available based on verification of successful
completion of the Certified Professional Secretary examination. The following credits will be awarded:

Course Waivers and Substitutions
An advisor may recommend that a student request a course waiver if the student has had training or experience in a subject area. A course waiver is appropriate if the material has been mastered through means other than formal academic course work or in a course closely related to the course in question. A course substitution is appropriate only if material has been mastered through a similar course within the college or if co-op credit has been earned as defined in the college catalog. There is no fee for course waivers and substitutions. Course waivers may reduce the total credit hours or number of courses required for the degree or certificate, but in no case can the number of credit hours required for the Associate’s degree be fewer than 60.

To process a course waiver or substitution, students should initiate the appropriate substitution form through their academic advisor. The Dean in the academic area in which the course is offered must approve the waiver or substitution and the Records Office will complete the substitution process.

Credit by Examination
Credit by Examination permits students to earn full credit for NSCC college-level courses through successful completion of comprehensive examinations. Program requirements differ. Students should consult the appropriate dean for requirements in their major.

To be eligible for Credit by Examination, a student:
1. Must be currently enrolled in classes at NSCC,
2. Must meet any prerequisite requirement established for the course for which the exam is requested,
3. May not pursue Credit by Examination where credit in an equivalent or more advanced course has been earned, for a course previously audited, or for a course successfully completed,
4. Must apply for and complete the examination within seven calendar days beginning with the first day of class of the current term.

To apply for Credit by Examination, a student must obtain the Request for Credit by Examination form from the Records Office. The student must possess and demonstrate the requisite knowledge and skills for the course being challenged and receive the advisor’s approval to take the exam. The student then submits the form to the Dean responsible for the discipline of the exam requested. Permission to take the challenge examination may be denied if the advisor or Dean determines that the student does not have a valid basis for the request. The decision of the Dean is final.

Upon approval by the Dean, the student must pay the $75.00 examination fee (non-refundable) to the Business Office and present the receipt to the instructor responsible for administering the exam.

For successful completion of Credit by Examination, a student must achieve a minimum of 75% on the examination. The credit will be recorded on the student’s academic transcript as “Advanced Standing – Credit by Examination” and does not affect the student’s GPA.

Students currently enrolled in the course for which they successfully complete Credit by Examination will be dropped from the course and receive full refund of payments related to the course.

Credit by Examination is limited to a maximum of 20 semester hours and does not apply toward residency requirements for graduation. Students intending to transfer should consult with the college or university to which they are applying about the transferability of Credit by Examination hours.

Credit for Prior Work Experience (Portfolio Assessment)
If students pursuing a degree or certificate have work experiences that have provided a background similar to that of a course in their major curriculum, they may request that the department responsible for the course evaluate the work experience for credit purposes. Students should provide the department with evidence of work performed, e.g., copies of drawings, reports, or other documents, which would verify the type of work performed and/or a letter from the employer verifying the time that they were employed and did perform the work. A maximum of 10 hours of credit can be obtained for prior documented work experience. If the work experience is adequate for credit, the Dean will submit the necessary form for approval through the academic division administrator.
High School and Vocational Education Experience

A student who has high school, vocational, or other credit that may relate to the program of study being pursued at NSCC, may be eligible for advanced standing. NSCC has formal articulation agreements with many high schools that outline the possibilities of credit for work at the high school level.

The student must request review by the Dean responsible for the course or courses that relate to the previous educational experience. This educational experience will be evaluated by the Dean to determine if the experience provides mastery of 80 percent of the competencies contained in the course required in the student’s major. The student must provide proper documentation, such as articulation application, high school transcript and/or documentation of the type of work performed in the course.

NSCC also has articulation agreements with the Tennessee Technology Centers. In addition to single course advanced standing, block credit transfer is also available under the General Technology A.A.S. degree program.

The National Program on Noncollegiate Sponsored Instruction (PONSI)

Credit may also be granted for appropriate educational experience listed in the Directory of the National Program on Noncollegiate Sponsored Instruction and in The National Guide to Educational Credit for Training Programs by the American Council on Education. If the educational experience is adequate for credit, the Dean will submit the necessary form for approval through the academic division administrator.

U.S. Military Schools

Nashville State Community College recognizes and awards credit for military service schools in which the student has satisfactorily completed and for which NSCC has an equivalent course. Then training is evaluated using the American Council on Education’s Guide to the Evaluation of Educational Experiences in the Armed Services. If necessary, other recognized publications may be consulted in the evaluation of armed service schools. No more than 50% of the credit hours required to obtain an Associate’s degree or certificate may be earned through military service schools.

The student must provide the Records office the required documentation for the evaluation of military training.

Veterans’ Benefits

Veterans and eligible dependents of veterans who wish to apply for educational benefits from the Veterans Administration (VA) should contact Student Services at 615-353-3211 to complete the necessary forms to receive VA benefits.

Eligibility for Deferment of Payment of Tuition and Fees by Certain Eligible Students Receiving U. S. Department of Veterans Affairs or Other Governmentally Funded Educational Assistance Benefits

Service Members, Veterans, and Dependents of Veterans who are eligible beneficiaries of U.S. Department of Veterans Affairs educational benefits or other governmentally funded educational assistance, subject to the conditions and guidelines set forth in Tennessee Code Annotated 49-7-104 as amended, may elect, upon formal application, to defer payment of required tuition and fees until the final day of the term for which the deferment must be made no later than 14 days after the beginning of term, and the amount of the deferment shall not exceed the total monetary benefits to be received for the term. Students who have been granted deferments are expected to make timely payments on their outstanding tuition and fees balance once education benefits are being delivered, and eligibility for such deferment shall terminate if the student fails to abide by any applicable rule or regulation, or to act in good faith in making timely payments. This notice is published pursuant to Public Chapter 279, Acts of 2003, effective July 1, 2003.
Business Procedures and Financial Aid Information

2007
Nashville State Community College
Nashville State Community College is a state-supported college and, therefore, maintains modest matriculation and incidental fees. Expenses are charged and payable by the semester. Registration is not complete until all required fees have been paid (which means all checks have cleared the bank). Students who have not met their financial obligations will not be admitted to classes. All payments are to be made by cash, check, or credit card (Visa, American Express or MasterCard) to the Business Office. If the student's employer pays the fees, the employer must mail an authorization letter on company letterhead to the Business Office each semester indicating which fees will be paid and dollar limit (if applicable). Any fee waiver or fee discount forms must be turned in at the time of registration. Please refer to the NSCC Web site or schedule of classes for Business Office hours of operation and a listing of current tuition rates and fees.

For additional information, please call 615-353-3310. Tuition and fees are subject to change at any time by policy of the Tennessee Board of Regents. Fee schedules are published as changes occur. Fee increases are enacted by the governing board and are normally implemented for the fall term.

Registration, maintenance, and tuition fees for the summer term will be the same as for the other two semesters. Fees for auditing a course will be the same as the fees paid if taking the course for credit. Enrollment as an audit will be subject to the availability of space in the class being requested. Students are classified as residents or non-residents for the purpose of assessing maintenance and tuition charges. The definition of residency as determined by the Tennessee Board of Regents will apply. Information about residency classification may be obtained from the Admissions or Records offices.

Senior Citizens and Students With Disabilities

For audit courses, no fee is required for persons who are totally disabled or who are 60 years of age or older. Enrollment will be subject to the availability of space in the class requested.

Persons 65 years of age or older who live in Tennessee or totally disabled persons may enroll for credit as special students for a fee of $70 per semester. Enrollment will be subject to the availability of space in the class requested.

An applicant who wishes to be admitted in one of these categories must submit the following:

1. A completed application for admission.
2. A five-dollar ($5) non-refundable application fee.

3. Proof of age or physician's certificate of total disability.

NOTE: Fees for Continuing Education Units (CEUs) are not waived or reduced.

State Employee Fee Waivers

Title 8, Chapter 50, Part 1 in Public Chapter 1047 of the 1990 Public Acts enables full-time employees of the State of Tennessee to be eligible for enrollment in one course per term at any state supported college or university without the payment of tuition charges, maintenance fees, debt service fees, student activity fees, or registration fees.

The following are rules that govern the use of this fee waiver type:

1. Fees are not waived for non-credit, CEU, or correspondence courses, application fees, or parking permits.
2. Enrollment is subject to space availability in the class selected. Registration is permitted only during the late registration process. The course must be taken for college credit; the course cannot be audited.
3. At the time of enrollment, the employee must have a completed state employee fee waiver form signed by his or her employer certifying that the applicant is a full-time employee with at least six months of continuous service.

Deferred Payment Program

All students owing a balance greater than $250 who are in good financial standing and with no outstanding balances from previous terms are eligible to participate in the deferred payment program. This program allows the student to defer payment of up to 50% of the maintenance fee, out-of-state tuition, and technology access fee into two monthly payments during the term. Fees can be deferred during fall and spring semester only. Those who wish to participate must sign a deferred payment contract each semester. A deferral fee of $10 is assessed to defer costs of the program. Deferred payments that become delinquent are assessed a $25 penalty for each late payment, up to $100. If there is a change in the student's schedule that generates a refund due, it will be applied to the student's outstanding balance before a refund check is issued. Refunds are based on total fees assessed, not on the amount paid. Payments are due on the dates stated in the deferred payment contract. There is no grace period for late payments.

For more information, call 615-353-3310.
Refunds

Two changes in a student’s status which may require a refund are: (1) changes in a full-time student’s schedule which result in reclassification to part-time student status; and (2) a change in a part-time student’s schedule which results in a class load of fewer hours. Other situations that may require a refund are dropping a course or courses, withdrawing from school, cancellation of a class by the college, or death of the student.

The following procedures will be followed in regard to refund of maintenance fees:

If Withdrawal Is:........................Refund Will Be:
After pre-registration but before the published first day of class........100%*
For courses cancelled by the college.............100%*
On the first official day of classes through the 14th calendar day from the published first day of classes..............................75%
On the 15th calendar day from the published first day of classes through 25% of the semester calendar days (see school calendar)...........25%
After 25% period .................................................0%

All refund periods will be rounded up or down to the nearest whole day if necessary.

* A 100% refund will be provided on behalf of a student whose death occurs during the semester.
* A 100% refund will be provided to students who are compelled by the college to withdraw when it is determined that through institutional error they were academically ineligible for enrollment or were not properly admitted to enroll for the course(s) being dropped.
* A 100% refund will be provided, upon submission of required forms, to students absent from the college in excess of 30 days while on active military duty.

All refunds will be in the form of a check within three to four weeks after the Records Office has processed a Schedule Change Form. If a student initially pays by credit card the refund will be processed to his/her credit card account. Refunds involving third-party payments will be prorated based on the percentage paid by the student and third party involved, including discounts, waivers, or grants. A refund date will be established for each semester. Summer term refunds will be based on the above procedures with concentrated terms being prorated as a percentage of a regular term. No refunds will be made for Continuing Education Units (CEUs) unless the class is cancelled.

Returned Checks

There is a $30 charge for any check accepted by the college that is returned. When a stop payment is issued or a check is written on a closed account, it shall result in the administrative dismissal of the student. Returned checks that represent 50% down payment on deferred payment contracts will result in administrative dismissal if not redeemed within 10 days. A late fee of $25 will also be assessed for any returned check for registration fees, unless the student registered late initially.

Financial Aid

A variety of federal, state, and local financial aid programs are available to qualified students who might otherwise find it difficult or impossible to attend Nashville State Community College. Fair and equal consideration is given to applicants without regard to race, color, sex, national origin, religion, age, or disability. Students are encouraged to obtain The Student Guide from the Financial Aid Office. This free federal publication provides an excellent overview of federal programs and eligibility requirements. Helpful Web links are provided on the college’s home page at www.nscc.edu Click on Students and then click on Financial Aid. Students may also inquire at the Financial Aid Office regarding individual circumstances that need to be considered when packaging financial aid.

Additional information concerning financial aid is available from:
Financial Aid Office
120 White Bridge Road, Nashville, TN 37209
Phone: 615-353-3250
Fax: 615-353-3202
Email: financial_aid@nscc.edu

Please note that the following information is subject to change and is based on federal regulations and institutional policies and procedures at the time of writing.

Federal/State Assistance

The College has several federal and state programs with a wide range of eligibility requirements available to students. These programs include the Federal Pell Grant, Federal Academic Competitiveness Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study (FWS), Federal Subsidized and Unsubsidized Stafford Loans, Federal Parent Loan for Undergraduate Students (FPLUS), and Tennessee Student Assistance Award (TSAA).
Though eligibility requirements may vary from program to program, there are a number of **general eligibility requirements** common to each.

1. Students must have “financial need” which is determined by subtracting the “expected family contribution” as determined by federal methodology from the “cost of attendance.” Though the Federal Unsubsidized Stafford Loan and FPLUS are non-need-based loans, eligibility for need-based programs must first be determined before students can make application for these programs.

2. Students must be U.S. citizens or eligible non-citizens. Students in the U.S. on an F1 or F2 student visa, J1 or J2 exchange visitor visa, or a G series visa are not eligible for Title IV Programs.

3. Students must have a valid Social Security number.

4. Students must be enrolled as regular students in an eligible program of study.

5. Students must maintain satisfactory academic progress as measured by the Financial Aid Office. A copy of the “Standards of Satisfactory Academic Progress” is available at the Financial Aid Office and is also noted in the proceeding pages of the NSCC catalog.

6. Students must be registered with Selective Service (if applicable).

7. Students must have a high school diploma or GED.

8. Students cannot receive Title IV funds for more than the first 30 credit hours attempted in remedial and developmental classes.

9. Students cannot be in default on a student loan or owe a federal/state grant refund.

**Application Process for Federal/State Programs:**

Students who wish to be considered for federal/state financial aid assistance for the subsequent academic year must complete the Free Application for Federal Student Aid (FAFSA) each year. Students may submit a FAFSA application through the Web at www.fafsa.ed.gov. Completing the FAFSA through the Web will reduce processing time. When submitted on the Web, the FAFSA application is automatically edited, thus reducing mistakes. Students should include Nashville State Community College as a recipient of their information when completing Step 6 of the FAFSA.

**Our institutional code number is 007534.**

Students are encouraged to file their federal tax return prior to completing the FAFSA. Students are encouraged to complete the FAFSA prior to March 1 to increase the possibility of receiving multiple forms of financial aid assistance. Students will receive a Student Aid Report approximately three weeks after mailing a completed FAFSA. It should be reviewed for accuracy and corrections should be made as necessary. Some students may be selected for a process called verification. In such cases, a verification worksheet and applicable tax returns must also be provided. If corrections are needed to the Student Aid Report, the Financial Aid Office can make them electronically.

Information regarding a student’s financial aid history is obtained through the National Student Loan Data System (NSLDS) when the Federal Central Processing System is processing the FAFSA. Financial Aid Office staff also view the NSLDS when processing files. Therefore, it is not necessary for students to obtain financial aid transcripts from prior colleges attended.

Students must also complete the NSCC Financial Aid Application and provide other information as requested by the Financial Aid Office. Failure to submit requested information in a timely manner may delay receipt of financial aid funds and/or preclude students from being considered for some financial aid programs.

We begin sending Financial Aid Award Notifications in May prior to the beginning of the new award year.

**Sources of Federal/State Assistance**

**FEDERAL PELL GRANT:** A need-based non-repayable grant for undergraduate students. Eligibility is based on the student's “expected family contribution (EFC),” “cost of attendance,” “enrollment status,” and whether or not the student attends a full academic year. The maximum annual award for the 2006–07 award year is $4,050. The minimum annual award for the 2006–07 award year is $400. Depending upon the EFC, eligible students may receive this grant if enrolled in one or more credit hours.

**Federal Academic Competitiveness Grant (ACG):** A need-based non-repayable grant awarded to Federal Pell Grant eligible undergraduate students who completed a rigorous high school program and graduated from high school on or after January 1, 2005. Students must be U.S. citizens enrolled full-time in an eligible program of study and meet other general eligibility requirements. The maximum annual award to freshmen for the 2006–07 award year is $750. The annual maximum award to sophomores for the 2006–07 award year is $1,300.
Federal Supplemental Educational Opportunity Grant (FSEOG): A non-repayable grant to students with exceptional financial need. Priority is given to Federal Pell Grant recipients with the lowest “expected family contribution (EFC).” Priority is also given to students who complete the FAFSA prior to March 1 preceding an award year. Average awards are $300 per semester. Funding is limited. Eligible students must be enrolled in one or more credit hours.

Tennessee Student Assistance Award (TSAA): A non-repayable grant to Tennessee residents whose “expected family contribution” is $2,100 or less. Students must be enrolled in at least six credit hours. Priority is given to students whose FAFSA is processed by March 1 prior to the award year. The maximum annual award for the 2006–07 award year is $1,362.

Federal Work-Study: This program provides jobs for students who have financial need. Priority is given to students who complete the FAFSA prior to March 1 preceding an award year and have a minimum financial need of at least $1,000. Students work an average of 15 hours per week at a pay rate of $6.50 per hour. The average annual award for the 2006-07 award year is $5,120. Funding is limited. Though most jobs are on campus, some jobs are available off campus in community service positions. A higher rate of pay is provided to assist with transportation expenses related to off-campus positions. Eligible students must be enrolled in one or more credit hours.

Federal Subsidized Stafford Loan: A need-based low-interest loan for eligible students enrolled in at least six credit hours. To be considered for loans, students must minimally complete the FAFSA, the NSCC Loan Information Worksheet, and the NSCC Financial Aid Application. Students must also provide any additional information as requested by the Financial Aid Office. Students must attend an entrance-loan workshop and sign a promissory note. Both processes can be completed via the Web. Eligibility for a Federal Pell Grant and Subsidized Stafford Loan must first be established. Maximum awards are based on whether the student is classified as a freshman or sophomore and whether the student is classified as dependent or independent. Students are also subject to annual and aggregate limits. Interest accrues while students are in school. Students have the option to make payments on the interest or to allow it to capitalize. Repayment begins six months after students drop below half-time enrollment status. There are a number of deferment and forbearance options available to students. Refer to The Student Guide available in the Financial Aid Office. Students must attend an exit-loan workshop prior to graduation or at which point they otherwise plan to drop below half-time status. Registration and transcript holds are placed on student accounts until this requirement has been satisfied.

Federal Unsubsidized Stafford Loan: A non-need-based low-interest loan for eligible students enrolled in at least six credit hours. To be considered for loans, students must complete the FAFSA, the NSCC Loan Information Worksheet, and NSCC Financial Aid Application. Students must also provide any additional information as requested by the Financial Aid Office. Students must attend an entrance-loan workshop and sign a promissory note. Both processes can be completed via the Web. Eligibility for a Federal Pell Grant and Subsidized Stafford Loan must first be established. Maximum awards are based on whether the student is classified as a freshman or sophomore and whether the student is classified as dependent or independent. Students are also subject to annual and aggregate limits. Interest does not accrue while the student is in school. Repayment begins (as well as interest) six months after the student drops below half-time status. There are a number of deferment and forbearance options available to students. Refer to The Student Guide available in the Financial Aid Office. Students must attend an exit-loan workshop prior to graduation or at which point they otherwise plan to drop below half-time status. Registration and transcript holds are placed on student accounts until this requirement has been satisfied.

Federal Parent Loan for Undergraduate Students: This loan is for parents of dependent students. Students must complete the FAFSA and eligibility for the Federal Pell Grant and Federal Subsidized and Unsubsidized Stafford Loan must first be established. Maximum awards cannot exceed a student’s cost of attendance less other financial aid received. Loan applications may be obtained from the Financial Aid Office or from a bank, credit union, or savings and loan association. Eligible students must be enrolled in at least six credit hours.

Understanding the NSCC Financial Aid Notification

We begin sending Financial Aid Award Notifications in approximately mid-May prior to each award year. The following example illustrates the process of “need analysis” for a dependent student living with parent(s) or relative(s) during the 2006–07 award year. It should be noted that the cost of registration fees during the 2006–07 award year (total for two semesters) for a full-time, in-state student is $2,455 inclusive of the technology access fee. The average allowance for books and supplies for this period is $1,000.
• Cost of Attendance*..............................$7,864
(less)Expected Family Contribution ............$200
Need for Financial Aid .........................$7,664

* The cost of attendance includes an allowance for registration fees, books and supplies, transportation, room and board, and other personal and miscellaneous expenses.

Based on the example, the student might have received the following type of financial assistance:

Federal Pell Grant .........................$3,900
Federal Supplemental Education Grant ....$600
Tennessee Student Assistance Award .....$1,338
Total Award ........................................$5,838

It should be noted that in this example, the student received an amount of financial assistance that exceeded the amount needed for the direct educational cost of registration fees and books and supplies. The balance could be used for other education-related expenses. Based on the student's unmet need of $1,826 ($7,664 "need" less $5,838 total award), the student could receive additional assistance via student loans, scholarships, Federal Work-Study, etc. A letter of explanation will be sent with the Financial Aid Notification, which contains further details regarding awards.

Payment of Registration Fees and Books/Supplies

Students should submit all documents necessary to complete their financial aid file prior to a month before the semester they wish to attend. Otherwise, they should expect a delay in our ability to provide financial aid assistance. In such cases, it may be necessary for students to pay registration fees through their own resources. Once financial aid files are completed, we will provide financial aid assistance based on the student's eligibility for federal/state/institutional funds.

Students are not required to make payment for registration fees at the point of registration if their financial aid files are complete and if their Federal Pell Grant, Federal ACG, Federal SEOG, TSAA, scholarship and student loan awards are sufficient to cover these costs. "Special deferments" for registration fee payment are also available through the Financial Aid Office for students who meet specified requirements. Communicate with the Financial Aid Office for details. Otherwise, unless students have another third-party source of financial assistance such as WIA or Vocational Rehabilitation, they should be prepared to pay their registration fees at the point they register. Students must be prepared to purchase books and supplies.

Disbursement of Federal/State Funds

If Federal Pell Grant, Federal ACG, Federal SEOG, TSAA, and scholarship awards exceed the amount owed for registration fees, students will receive a residual check approximately three weeks into the semester at our cashier's office. Enrollment status (assumed attendance status) at the point payment is authorized by the Financial Aid Office will determine the amount of the award. Example: If a student is enrolled in 12 credit hours on the first day of class but subsequently drops to nine credit hours prior to authorization for payment, the Financial Aid Office will authorize payment based on nine credit hours. If a student totally withdraws from classes prior to picking up the residual check, it will be canceled and refunded back to the appropriate Title IV account(s). A revised residual check will be issued to the student if appropriate.

Student loan proceeds will be disbursed on or after the first day of class each semester. As an exception, federal law specifies that freshman, first-time borrowers cannot receive their first disbursement until after 30 days into the payment period. All loan proceeds are disbursed in at least two payments. Students must be attending at least six credit hours at the time they receive their student loan proceeds. Students who are employed in the Federal Work-Study Program are paid every two weeks. It should be noted that if a student unofficially withdraws from class (quits attending) and it is later discovered that Title IV funds were paid to the student for credit hours the student was not attending at the point Title IV funds were authorized to the student's account, an overpayment may exist. In such cases, the student will be billed for the overpayment.

Overpayments

Overpayments occur for several reasons. In some cases, students receive financial aid assistance in an amount that exceeds their "need" for financial aid. In other cases, students are inadvertently overpaid Federal Pell Grant funds. No matter what the reason, overpayments must be resolved. In some cases, the college is able to resolve overpayments by reducing awards for subsequent semesters during the same award year. The Financial Aid Office will notify the student of an amount that must be repaid to a specific program. If the overpayment cannot be resolved by reducing subsequent awards during the same award year, students will be required to make immediate repayment. If the overpayment is due to student error, and if the student fails to repay the overpayment, the student will be ineligible for future financial aid assistance at all post-secondary institutions.
schools. If the error is a result of fraud, it will be reported to the Office of the Inspector General. If the overpayment is a result of institutional error and if the student fails to make repayment by a specified date, the college will be responsible for making the repayment. In such cases, the college will then bill the student and will place a “hold” on future registration. It should be noted that if a student unenrolls from class (quits attending) and it is later discovered that Title IV funds were paid to the student for credit hours the student was not attending at the point Title IV funds were authorized to the student’s account, an overpayment may exist. In such cases, the student will be billed for the overpayment.

Return of Title IV Funds
Title IV recipients who partially withdraw from classes through the official withdrawal process on or after the first day of class may be eligible for a maintenance fee/tuition refund based on NSCC’s refund policy. Title IV recipients are allowed to receive such refunds except in cases when they totally withdraw (officially or unofficially) from classes.

Effective with the Fall Semester of 2000, NSCC implemented new policy and procedures related to Return of Title IV Funds as required by the Higher Education Amendments of 1998 (34 CFR Part 668.22). This new policy replaced our prior Refund/Repayment Policy. A copy of our new policy and procedure is available in the Financial Aid Office. It should be noted that this new policy is only applicable to Title IV recipients. The NSCC refund policy as stated in the college catalog is applicable to non-Title IV recipients.

In brief, if a Title IV recipient totally withdraws (officially or unofficially) from classes on or before the sixty percent point of the semester based on the calendar days within the semester, a calculation will be performed via our Return of Title IV Funds Policy and Procedure. The calculation will include a determination of the student’s last date of attendance, required registration fees, the total amount of Title IV assistance received, the percentage of Title IV assistance earned, the amount of Title IV assistance earned, the percentage of Title IV assistance that was unearned, and the amount of Title IV assistance that was unearned. The following example is reflective of a student who totally withdrew at the 40% point of the semester.

Institutional Charges: .....................................$700
Title IV aid for the Period: .............................$3,000
*Amount of Title IV applied to account ..........$700
Amount of Title IV refunded to student ..........$2,300
Percentage Earned: .....................................40%
Amount Earned: ..............................................$1,200
Percentage Unearned: .....................................60%
Amount Unearned: ..............................................$1,800

*It is assumed that Title IV assistance paid the student’s account even when institutional charges were paid by cash or another non-Title IV source of assistance.

Using this scenario, the college would be required to refund $420 (60% of $700) back to Title IV programs, first to loans and then to grants (as applicable). The student would be required to repay $1,380 (60% of $2,300) back to Title IV programs. The following qualifiers to the amount the student must repay should be noted. If the amount owed by the student could be applied to the remainder owed to loans disbursed during the period, the student would not be required to make immediate repayment but would follow the normal repayment process related to the loans. If the amount owed by the student is greater than the remainder owed to loans disbursed during the period, the student would be required to make repayment to federal grant programs. However, as related to federal grants, the student is only required to make payment of 50% owed to the federal grant programs. If, in this example, the entire $3,000 of Title IV aid for the Period was through the Federal Pell Grant, the student would only be required to repay 50% of $1,380 ($690) to the Federal Pell Grant. Within 45 days of notice, the student must make full payment of the amount owed to federal grants. Otherwise, the college will report the overpayment to the Department of Education (ED) and the student will be required to make payment arrangements with ED before being eligible to receive future Title IV assistance at any school.
Financial Aid Standards for Satisfactory Academic Progress

Student Requirements:
Federal and state regulations require students to achieve “satisfactory academic progress” in order to maintain eligibility for Title IV financial aid programs. The following “standards” are for financial aid purposes and neither replace or override NSCC academic policies. These standards are effective with measurements made at the end of the Spring Semester of 2006. Students can communicate with the Financial Aid Office regarding prior “standards”. The Financial Aid Office reviews measurements “A”, “B”, and “C” for Title IV recipients at the end of each Spring Semester. Measurement “C” is reviewed prior to the disbursement of financial aid each semester. The following measurements apply, whether or not a student receives financial aid.

Qualitative Measurement:
Students are required to have reached a specific cumulative grade point average upon completion of the following number of credit hours as reviewed at the end of each Spring Semester. Transfer credit hours are not included in this measurement.

<table>
<thead>
<tr>
<th>NSCC UJ Quality Hours:</th>
<th>Cumulative Grade Point Average:</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 14</td>
<td>—</td>
</tr>
<tr>
<td>14.1 – 26</td>
<td>1.0</td>
</tr>
<tr>
<td>26.1 – 40</td>
<td>1.4</td>
</tr>
<tr>
<td>40.1 – 48</td>
<td>1.7</td>
</tr>
<tr>
<td>48.1 – 56</td>
<td>1.9</td>
</tr>
<tr>
<td>56.1 +</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Quantitative Measurement:
Students enrolled during a given Fall/Spring semester must earn a passing grade (A,B,C,D) in a minimum of 9 credit hours if enrolled full-time (12 or more credit hours); 6 credit hours if enrolled three-quarter-time (9-11 credit hours); and 3 credit hours if enrolled half-time (6-8 credit hours). There is no requirement for less-than-half-time enrollment status. Grade values other than a passing grade, such as “W”, “I”, “X”, “F”, “WF” and “AU” count against the student. At the end of each Spring semester, the credit hours attempted/ required during the preceding Fall/Spring semesters will be reviewed.

Example: A student enrolled in 12 credit hours during the Fall semester and 9 credit hours during the Spring semester must earn a passing grade in at least 15 credit hours during the two semesters combined.

Maximum Time Frame:
If enrolled in an Associate’s degree program, students must complete their program of study within 90 credit hours attempted, whether or not financial aid was received for all attempted hours. If enrolled in a certificate program which meets requirements for Title IV assistance, students must complete their program within 150% of published length of program.

An additional 30 attempted credit hours is allowed for remedial/developmental classes. Transfer credit hours that apply to the student’s program of study or to remedial/developmental classes are included in this measurement.

Re-establishing Eligibility for Financial Aid:
Students who do not meet measurements “A” and/or “B” and thus become ineligible for financial aid, may re-establish their eligibility by enrolling in a minimum of six credit hours during a subsequent semester at their own expense and meeting the above standards. Students should contact the Financial Aid Office at which point they meet the above requirements.

Right to Appeal:
Students who become ineligible to receive financial aid due to failure to meet the above measurements may submit a letter of appeal to the Director of Financial Aid if extenuating circumstances precluded them from meeting these standards. Documentation should also be provided to substantiate the reason of appeal.

Special Note:
Scholarships and other third party sources of financial aid may have individual guidelines regarding satisfactory academic progress. Please refer to the guidelines of the particular scholarship or third party source of aid you are receiving.

Scholarships
The information regarding scholarships is presented in a brief manner and is subject to change. Students are encouraged to contact the Financial Aid Office for complete guidelines and applications. The number of awards in each category is contingent upon funding.

Academic Service Scholarship: This scholarship is awarded to Tennessee residents who are classified as full-time students. First-year students must graduate with at least a 2.9 high school grade point average. The priority date to make application is March 1, preceding each award year. Further priority will be made in the following sequence: (a) Renewal applications and incoming high school graduates, and (b) currently enrolled or transfer students not presently receiving this scholarship at NSCC.
After March 1, all eligible applicants will be considered based on the date of application. The amount of the scholarship will be equal to required registration fees (maintenance fee and technology access fee). Recipients are required to work 75 hours per semester on campus.

**Bennie R. Jones Memorial Scholarship:** This is a need-based scholarship in the amount of $500 to be awarded to a deserving student from Warren County, Tennessee.

**Eddie Gentry Memorial Scholarship:** This scholarship is awarded to deserving students who are enrolled in an Associate Program in Computer Information Systems, Computer Technology or Computer Networking Technology. Applicants must have completed at least twelve credit hours at NSCC (inclusive of remedial/developmental courses) maintaining at least a 3.0 cumulative GPA. Applicants must complete the FAFSA and must provide all necessary information needed to complete their financial aid file as requested by the NSCC Financial Aid Office. Applicants wishing to be considered for the scholarship must plan to enroll in at least six credit hours (inclusive of remedial/developmental courses). The award amount for the scholarship is $1,000 per award year ($500 per semester).

**Electronic Data Systems Diversity Scholarship:** Priority for this scholarship will be given to students who graduated from an IT Academy (Stratford High School, Williamson County Middle College High School, etc.). Applicants must be members of one or more of the following groups: female, American Indian, Alaskan Native, Asian or Pacific Islander, African American or Hispanic American. First year students must graduate with at least a 3.0 high school grade point average. Previously enrolled/currently enrolled NSCC students or transfer students must have earned a minimum of twelve credit hours (inclusive of remedial/developmental coursework) with a cumulative college grade point average of 3.0. Applicants must be pursuing an A.A.S. in Computer Information Systems, Computer Networking Technology or Computer Technology or must be pursuing an A.A./A.S. in Computer Science. Applicants must also be enrolled in a minimum of six credit hours in remedial/developmental or college-level courses. The EDS Scholarship recipient(s) will receive an award of $1,000 for the 2007–08 award year ($500 per semester).

**Emma’s Florist Superlative Scholarship:** Applicants must be enrolled in the Horticulture Technical Certificate Program or the Horticulture Associate Degree Program. Applicants must have completed at least one semester at NSCC with a minimum of six credit hours earned in college-level courses.

Applicants must have a minimum cumulative 2.0 grade point average inclusive of remedial/developmental coursework. Applicants wishing to be considered for the scholarship must plan to enroll in at least six credit hours (inclusive of remedial/developmental courses). The award amount for the scholarship is $1,000 per award year ($500 per semester).

**Greater Nashville Business and Professional Women Osta Underwood Scholarship:** Applicants must be female. At the point of application, applicants must be twenty-five years of age or older. Applicants must be a United States citizen or a green-card visa holder and must also have been a resident of the State of Tennessee for a minimum of five years. Applicants must be enrolled in an Associate or Technical Certificate program and must be enrolled in a minimum of six credit hours (inclusive of remedial/developmental courses) at NSCC with a minimum 3.0 cumulative grade point average.

**Ingram Industries Scholarship:** Applicants must be enrolled in an Associate program and must be enrolled in a minimum of twelve credit hours in remedial/developmental or college-level courses. First-year students must graduate with at least a 2.5 high school grade point average. Previously enrolled/currently enrolled NSCC students or transfer students must have earned a minimum of twelve credit hours (inclusive of remedial/developmental coursework) with a cumulative college grade point average of 2.5 or greater. Applicants must complete the 2006–07 Free Application for Federal Student Aid (FAFSA) and provide all necessary information needed to complete their financial aid file as requested by the NSCC Financial Aid Office. Students must have a defined need for financial aid assistance as determined by the Financial Aid Office to be considered for this scholarship. The amount of the scholarship will be equivalent to required full-time in-state registration fees. The additional charge for Regents Online Degree Program classes is not included. Recipients of the Ingram Industries Scholarship must maintain a minimum cumulative grade point average inclusive of remedial/developmental coursework of 2.5 to remain eligible for the second disbursement of the scholarship.

**Lisa Sheucraft and Richard Williams Memorial Scholarship:** Currently being revised.

**Mayfield Scholarship:** Applicants must be residents of Cheatham County, Tennessee. Applicants must be enrolled in an Associate Degree program at NSCC and must be enrolled in a minimum of six credit hours in remedial/developmental or college-level courses.
courses. First-time freshman must have a minimum 2.5 high school grade point average. Previously enrolled/currently enrolled NSCC students or transfer students must have earned a minimum of twelve credit hours (inclusive of remedial/developmental coursework) with a cumulative grade point average of 2.5. Applicants must complete the 2007–08 Free Application for Federal Student Aid (FAFSA). Applicants must also provide all necessary information needed to complete their financial aid file as requested by the NSCC Financial Aid Office. Awards will be contingent upon the determination of financial need. Each recipient will receive a maximum award equal to $400 per semester or $800 per academic year (contingent upon meeting/maintaining the minimum grade point average).

**NASHVILLE STATE ARCHITECTURAL ENGINEERING TECHNOLOGY SCHOLARSHIP:** This scholarship is awarded to a student enrolled in the Architectural Engineering Technology Associate’s degree program. Freshman, entering from high school, must have a minimum 2.75 high school grade point average. Previously enrolled/currently enrolled students must have completed at least one semester at NSCC with a minimum of six credit hours earned in college-level courses. These students must have a cumulative grade point average of 2.75 or better inclusive of remedial/developmental credits. Transfer hours are not included. The priority date to make application is March 1 preceding each award year. One applicant is selected each year to receive $100 during the fall semester.

**NASHVILLE STATE ENVIRONMENTAL SCHOLARSHIP:** The priority date for making application is in March 1 preceding each award year. Applicants must be enrolled at least half-time status in an associate degree program. Depending upon the applicant’s enrollment status, there is an on-campus work obligation ranging from 45 to 75 hours per semester related to an environmental activity. The amount of the scholarship is equivalent to in-state registration fees.

**NASHVILLE STATE COMMUNITY COLLEGE FOUNDATION SCHOLARSHIP:** Applicants must be enrolled at least halftime in an Associate’s degree or technical certificate program. Applicants must have already completed at least six credit hours at NSCC in college-level courses with a minimum 2.0 G.P.A (inclusive of remedial & developmental classes). Applicants must complete the FAFSA and must have an EFC beyond Federal Pell Grant range. Applicants must also have a need for financial aid assistance as measured by the Financial Aid Office. Recipients will receive an award of $800 ($400 per semester). The priority date to make application for the scholarship is March 1 preceding each award year. The NSCC Foundation provides funding for this scholarship. For more information, visit the NSCC Foundation Web site at [www.nscc.edu/foundation](http://www.nscc.edu/foundation).

**NASHVILLE STATE COMMUNITY COLLEGE FOUNDATION CULINARY ARTS SCHOLARSHIP:** Applicants must be enrolled full-time in the Culinary Arts Program at NSCC. Applicants must have completed at least twenty-four credit hours of college coursework with a 2.5 G.P.A. of which at least eleven credit hours must have been completed within the Culinary Arts Program at the college. Applicants must have completed ten or more hours in community service as related to culinary science through a charitable or professional non-profit organization. The scholarship will cover required in-state registration fees. The priority date to make application for the scholarship is March 1 preceding each award year.

**NASHVILLE STATE COMMUNITY COLLEGE FOUNDATION PRESIDENTIAL SCHOLARSHIP:** Applicants must be incoming freshmen from high school and must be enrolled full-time at NSCC in an Associate’s degree program. Applicants must have graduated from high school with a minimal 3.0 G.P.A. and must have a minimal ACT composite of 24 or a minimal SAT combined verbal and math score of 1120. Letters of recommendation and a statement of educational and career goals are also required. The scholarship will cover required in-state registration fees (maintenance fee and technology access fee) and $400 per semester allowance for books/supplies. If recipients maintain eligibility requirements, the scholarship is automatically renewed up to a total of five semesters (excluding summer sessions) or until an Associate’s degree is earned, whichever comes first. The priority date to make application for the scholarship is March 1 preceding each award year. Funding for this scholarship is provided by the NSCC Foundation. For more information, visit the NSCC Foundation Web site at [www.nscc.edu/foundation](http://www.nscc.edu/foundation) or go to the section in this catalog titled “Funding the Future.”

**NASHVILLE STATE COMMUNITY COLLEGE GENERAL FOUNDATION SCHOLARSHIP:** Applicants must be enrolled full time (inclusive of remedial and developmental coursework) in an Associate Degree Program at NSCC. Applicants must complete the 2007–08 Free Application for Federal Student Aid (FAFSA). Applicants must also provide all necessary information needed to complete their financial aid file as requested by the NSCC Financial Aid Office. Students will be considered for this scholarship if they have an Expected Family Contribution (EFC) of $3,851 or greater resulting from the 2007–08 FAFSA. Students must also have a defined need for financial aid assistance as determined by the Financial Aid Office to be considered for this scholarship. Applicants who receive any type of financial assistance that is designated for tuition/fees (regardless of the amount) will not be eligible to receive the NSCC General
Foundation Scholarship. Nashville State Community College (NSCC) General Foundation Scholarships are made possible by contributions from participants of the NSCC Sweethearts for Scholarships Dinner and Auction. The three General Foundation Scholarships will be the Founder, Partner and Friend awards. Founder recipients will receive a maximum award of $3,000 ($1,500 for 2006 Fall Semester and $1,500 for 2007 Spring Semester) during the 2007-08 award year. Partner award recipients will receive a maximum award of $1,500 for one semester only. Friend award recipients will also receive a maximum award of $1,500 for one semester only.

TENNESSEE EDUCATION LOTTERY SCHOLARSHIP PROGRAM (TELS): For information regarding TELS, visit the Tennessee Student Assistance Corporation Web site at www.state.tn.us/tsac.

Business Services

Vehicle Registration and Parking
All privately owned and/or operated vehicles used on campus by students and staff must be registered in the Security Office (Room A-70A) and must bear an official registration decal for which there is an annual charge of $10. The vehicle registration decal may be displayed on a vehicle by the owner or driver in such a manner that it will be clearly visible from the rear of the vehicle. Vehicles so registered must be parked as directed. Students should park in the designated lot and park each vehicle so that it is headed into the parking place with the decal exposed to the traffic lanes. No vehicles are to be parked in the road or on the shoulders of the road. Any vehicle improperly parked may be towed away at the owner's expense. The speed limit on campus is 15 m.p.h. Pedestrians are entitled to the right of way but should exercise caution and courtesy so as not to impede the orderly flow of traffic. Special parking areas are provided for students with disabilities. Disabled parking is governed by the laws of the State of Tennessee. Parking for students enrolled in special courses will be regulated as specified in the course announcement.

Appeal Process
1. Traffic fines:
   a. Traffic fines may be appealed to the Director of Security.
   b. Appeal forms may be obtained from Security in Room A-70A.
   c. For detailed information, refer to the Traffic & Parking Regulations brochure.

2. Other fees, charges, refunds:
   a. Appeals must be in written form and addressed to the Refund Appeals Committee.
   b. Forms are available in the Office of the Vice President of Finance and Administrative Services, room W-35.
   c. The Vice President of Finance and Administrative Services will prepare a written response to the appeal. If the response is negative, the reason will be so stated.

Littering Policy
The college is committed to protecting the environment and maintaining the appearance of campus grounds and buildings. Any student, faculty, or staff member who litters campus property will be issued a citation. Littering includes the improper disposal of small items such as cigarette butts, bottle caps, and candy wrappers, etc. Littering also encompasses larger items of trash such as newspapers, tissues/napkins, food wrappers, cans/bottles, etc. The purpose of the policy is to promote a safe, healthy and clean campus. Ideally, smoking, eating, and drinking would be confined to designated areas. However, inadequate facilities do not allow a universal policy for the behaviors. therefore, the following guidelines will regulate the three functions on the property of the college:

- Smoking: The campus is a smoke-free facility. Smoking is not permitted on campus except in designated, outside areas.
- Eating is not permitted in classrooms or labs.
- Drinking is not permitted in labs and not encouraged in classrooms.
NSCC Bookstore
The Nashville State Community College Bookstore is located in A-47 and is operated under the auspices of the college for the convenience of the students. The Bookstore carries all required textbooks and an assortment of student supplies, health and beauty aids, clothing, general reading materials, and emblematic items.

Textbooks are selected and approved by the teaching staff. Since the cost of books and supplies varies from one program of study to another and from semester to semester, only the average costs can be included in this catalog. The average cost of books and supplies is approximately $400-$600 per semester, depending upon the program of study. The majority of book and supply costs will be incurred during the fall semester. In courses requiring special equipment and supplies, additional costs must be added.

The Bookstore accepts cash, personal checks, or company checks (accompanied by a letter of introduction on company letterhead) made payable to CBA (College Bookstores of America), American Express, VISA, MasterCard, and Discover. There is a $35 charge for any check accepted by the Bookstore that is returned, in addition to the face value of the check. Students with returned checks will not be permitted to make additional purchases and a registration hold will be placed on the student's account until the checks are redeemed.

If a class is cancelled, the full new purchase price of a book is refundable through the first two weeks of classes provided: (1) no markings have been made in the book; and (2) the cancel slip and sales receipt are presented when the refund is requested. (See “Return Policy” below.)

The Bookstore's normal hours of operation are:

- Monday–Thursday: . . . 7:45 a.m.–6:00 p.m.
- Friday: . . . . . . . . . . . . 7:45 a.m.–1:00 p.m.

When students are not present, the hours are:

- Monday–Thursday: . . . 8:00 a.m.–4:00 p.m.
- Friday: . . . . . . . . . . . . 8:00 a.m.–12:00 p.m.

Changes in Bookstore hours will be posted on its door and Web site.

Bookstore Return Policy
The Bookstore's policy on returns includes the following:

1. Only clean, unmarked, and unread books in new condition may be returned for the full price. The Bookstore Manager is the final judge on the condition of a book.

2. Books may be returned for any reason during the academic year for the first 10 days of class upon presentation of the Bookstore cash register receipt. After the first 10 days of classes, all books returned to the Bookstore will be purchased at the Nebraska Book Company's catalog price. During the summer term, because of the shortened term length, books can be returned during the first 5 days of classes upon the presentation of the Bookstore cash register receipt. The Bookstore Manager will be the final judge on any special cases. Refunds are made in cash for returned items originally purchased in cash or by check after ten (10) days. Items purchased by credit card are credited to the credit card account. Items NOT accompanied by a Bookstore cash register receipt are not eligible for refunds.

3. Books that have markings in them, or which show signs of wear or damage, are classified as USED books and will be purchased according to the “Textbook Buy-Back” policy below.

4. Defective textbooks and supplies may be returned for REPLACEMENT upon presentation of the defective item and the cash register receipt.

Textbook Buy-Back Policy
During final exam week of each semester, the Bookstore conducts a textbook buy-back. The Bookstore will pay 50 percent of the retail price of a book if it has been adopted for the following semester, and the Bookstore is not over-stocked on the title. If the book is NOT scheduled for use the following semester, the purchase price will be limited to the wholesale value of the book as listed in the “Nebraska Book Company Wholesale Buying Guide” from NBC Nebraska Book Company (NBC). Books are bought back throughout the year, but at a price considerably lower than the semester's end price cited above, as set by the NBC “Used Book Wholesaler’s Buying Guide.”
Computer Help Desk
The Help Desk will answer questions with any NSCC computer and network account problems. The Help Desk can assist with information about basic trouble regarding a computer that is school related, and with Web-related issues. Visit www.nscc.edu/help_desk/index.html for more information such as hours of operation and specific instructions and troubleshooting help.

Open Lab
The Clement Building Open Lab in Room C-308 was established as an independent study lab in 1984. The Open Lab provides student access to PC and Mac computers, classroom software, Internet access, and academic course-related activities. Current equipment includes twenty-four stations connected to a laser printer. In addition there are two flatbed scanners one Mac and one PC.

Hours of operation vary and are posted online at www.nscc.edu/help_desk/index.html and on the C-308 Open Lab door. Students may call 615-353-3678, or email: ComputerHelpDesk@nscc.edu. The Open Lab is part of the Computer Services Division Help Desk.
Student Records and Registration Procedures

2007

Nashville State Community College
Registration Information
The schedule of courses (printed copy and Web copy via POWER) contains the necessary information for registration. For complete registration information, go to the Records Web site at www.nscc.edu/records.

Official Registration
When students register for a term, the courses are not official until payment of all fees has been received in the Business Office. If fees have not been paid by the official first day of class each term, students are automatically removed from all registered classes for applicable term. The minimum load for a full time student is 12 credit hours.

Official Enrollment
Students are officially enrolled when all assessed fees have been paid.

Course Cancellations
NSCC reserves the right to cancel classes that do not have sufficient enrollment. Refer to www.nscc.edu/records for additional course cancellation information.

Change of Registration Drop/Add
A student desiring to add or drop a course must do so by the drop/add deadlines listed in the Academic Calendar in the front of this catalog and on the records Web page. Courses dropped through the fourteenth calendar day of each semester will not be entered on the student's permanent record. Courses dropped after this period will be entered on the permanent record and assigned a grade of “W”.

If a student stops attending class without officially dropping the class via the Records Office or POWER, the student will receive a failing (nonattendance) grade of “WF”. Drop/Add forms are available in the Records Office and on the Records Departmental Web page, www.nscc.edu/records.

Waiver of Prerequisites
Under special circumstances, a student may be permitted to waive a prerequisite and take a course out of sequence. Approval to waive a prerequisite shall be the responsibility of the faculty advisor or the discipline dean. Students must still complete all courses required in the curriculum.

Withdrawing from the College
The “Drop/Add/Withdrawal Form” is available from the Records Office. The last day to withdraw from the college is listed in the Academic Calendar. Students enrolled in Continuing Education special interest courses that are not in sequence with the academic term will be informed of the established withdrawal date during the first class meeting. A student withdrawing after the official published withdrawal date will receive an F in the course unless there is documented evidence of extreme personal hardship or such mitigating circumstances as the following:

1. Injury or illness as verified by the student’s personal physician.
2. Death in the family or other severe personal hardships as verified by the student’s parents, minister, physician, etc.
3. Change in employment status (work schedule) as verified by the student’s employer, if no other class is available.
4. Job relocation as verified by the student’s employer.

Such exceptions to the withdrawal policy must be approved by the student’s instructor and the Dean of Students.

A student has not officially withdrawn until the student submits the required form to the Records Office. Students utilizing educational benefits from the Department of Veterans’ Affairs are responsible for any overpayment of benefits due to non-attendance of or withdrawal from any and all classes.

Administrative Withdrawal
An administrative withdrawal is a grading standard in which a student may be withdrawn from class by his/her instructor for non-attendance and/or violation of the instructor’s stated attendance policy. Students receive a grade of “WF,” withdrawn failure. A “WF” counts as attempted semester hours and carries zero quality points per semester hour.
Attendance Policy
A student is expected to attend all scheduled classes and laboratories. Students should refer to each course syllabus to obtain the course attendance policies. A student who misses class for two consecutive weeks without contacting the instructor or who violates the instructor's stated attendance policy will be administratively withdrawn from the course and given a grade of “WF”.

Final Exams
Final exams are customarily held in all subjects at the end of each semester. The final exam schedule is posted on the NSCC Web site and/or the Records Web site each term. Absence from an examination without permission from the instructor may result in a failing grade for the course.

Confidentiality of Student Records
Nashville State Community College works in compliance with the Family Educational Rights and Privacy Act of 1974, as amended to protect the confidentiality of personally identifiable educational records of students and former students. Students have the right to inspect and review information contained in their educational records, to challenge the contents of their educational records, to have a hearing if the outcome of the challenge is unsatisfactory, and to submit explanatory statements for inclusion in their files if the decision of the hearing panel is unacceptable.

“Directory information” concerning students is treated as public information and may be released to outside parties unless otherwise requested by the student. A student who desires not to have any or all directory information released must complete the appropriate form within the first 45 days of the semester in the Records Office. The request shall remain in effect unless or until revoked by the student.

“Directory information” includes: Student name, address, telephone number, date of birth, major field of study, e-mail address, participation in recognized activities, dates of attendance, “full time/part time” status, degrees and awards received, and the most recent educational institution attended by the student.

Graduating/transferring students desiring non-disclosure after leaving Nashville State Community College must complete the request prior to the end of their last term. The request for non-disclosure will remain in effect until revoked by the student.

NSCC does not make a practice of supplying student lists to third parties. We reserve the right to limit distribution to on-campus departmental requests.

Students’ rights are outlined in the Nashville State Community College Student Handbook.

Change of Name or Address
The Records Office should be informed of all changes in the student's legal name, place of residence, mailing address, and telephone number. The college is not responsible for a student not receiving official information, if the student failed to notify the college of any of the changes stated above. Change of names require documentation i.e. marriage license, divorce decree, etc.

Campus-Wide ID (CWID) Number
The Student Identification Number is a randomly selected 8-digit number that has been created for students, faculty, and staff to protect an individual’s social security number. The CWID is used by students to log in to POWER (Web for Students) to access grades and to register. A student is still required to disclose their SSN when they apply for admissions on the application form. This SSN is immediately converted to a CWID number for privacy. If, at the time of application, a student wishes not to disclose the SSN, the institution will assign a unique SSN for the student’s use. Please note that if the student expects to receive federal and/or state financial assistance, the student may be required to disclose their SSN.

Personal Identification Number (PIN)
A student’s personal identification number is used for verification purposes. The most common use is for access to the POWER registration system. Other processes require the use of a student’s PIN, such as transcript requests. For more information or assistance using, resetting, or obtaining a PIN, please contact the Records Office at 615-353-3218.

Transcript of Academic Record
The Records Office maintains permanent academic records for each student. All transcript requests must be in writing; therefore, no telephone request will be honored. Faxed requests with required information, student signature, and copy of picture ID are acceptable. Transcript requests received via E-mail/Internet will be honored if the student PIN is included with the request. Official transcripts will be sent directly to another educational institution or business. Unofficial (student) copies are issued to students and advisors. In all cases, obligations to the college must be fulfilled before a transcript will be issued.
Normally, transcripts will be sent within 24–48 hours after receiving the request from a student. Students may obtain up to five free copies of their transcripts. Additional transcripts will cost $3 each. Proper identification will be requested for all transcript requests made in person.

Student records are maintained for academic purposes. The materials therein allow the college to validate a student's academic performance. All requests to review a student's record require the student's written authorization, except as provided by the Family Educational Rights and Privacy Act of 1974, as amended. With the student's permission, copies of student records are available for $1 for the first page and $0.50 for each additional page.

Students will not be able to obtain any official document given to the Records Office since that document becomes the property of NSCC. Once an official document has been given to the Records Office the document is imaged and the original document is destroyed.

**Student Right to Know Policy**

Information about graduation rates of Nashville State Community College students is available from the Office of Institutional Research. The college complies with the Student-Right-to-Know legislation.

**Associate Degrees and Certificate Requirements**

It is the student’s responsibility to ensure that all requirements for graduation are met. Students pursuing an Associate’s degree or technical/academic certificate must satisfy the general and specific requirements as outlined in the current catalog option. No student will be issued a degree or certificate until all debts and obligations to the college have been satisfied.

**CATALOG OPTION:** A student’s program requirements are determined by the catalog in effect the term the student is initially admitted into the degree or certificate program. If a student elects to change programs, or to change to a different area of concentration within a major, the requirements of the catalog currently in effect at the time of the change will apply. Any student may elect to graduate in accordance with the requirements of a catalog published after the student’s initial program catalog. However, the student must declare the option for change of catalog no later than the deadline for filing his/her Intent to Graduate. A student who does not remain active and re-applies for admission into a program will be subject to the catalog in effect at the time of re-application.

**CREDIT HOURS:** A minimum of 750 minutes of classroom instruction (excluding registration and final exams) is required per Student Credit Hour. Non-instruction credit is recorded in continuing education units (CEU’s). One CEU requires 10 contact hours of participation in an organized continuing education experience under qualified instruction.

**CLASSIFICATION OF STUDENTS:** A student who has completed fewer than 30 credit hours shall be classified as a freshman. A sophomore must have completed 30 or more hours of college-level course work or a combination of course work and transfer credit.

**REQUESTS FOR ACADEMIC WAIVER:** Students who wish to request a waiver or exception to any academic regulation or requirement must submit the request in writing to the Vice President of Academic Affairs.

**ACADEMIC FRESH START:** Any person, who has not been enrolled in a college or university for a period of four years and who, upon re-enrolling or transferring to Nashville State Community College, completes 15 semester hours of degree course work, and maintains a minimum 2.0 QPA/GPA, may petition for “Academic Fresh Start” through the Records Office. Steps to begin the Academic Fresh Start process is on [www.nscc.edu/records](http://www.nscc.edu/records).

**Grade Point Average**

The academic standing of a student is expressed in terms of a quality point average (QPA)/grade point average (GPA). When a course is completed, the number of grade points earned is determined by multiplying the credit hours earned for that course by the grade points assigned to the letter grade earned. Examples on calculating a GPA is found on the Records Department Web page.

**Repeating Courses**

For the purpose of raising a grade point average, a student may only repeat a course in which the previous grade earned is “C” or lower. The Vice President of Academic Affairs must approve any exception to this before the student registers to repeat the course. When a course is attempted one or two times, only the last grade earned is used in the calculation of the student’s quality/grade point average. If a student attempts a course more than twice, (three attempts) the grade earned in the third and subsequent attempts will be used in calculating the QPA/GPA. The credit hours earned by repeating a course will be counted only one time in the cumulative total hours earned. In all instances, the last grade earned is used to determine whether the student meets graduation requirements.
Grading System

The following grading system is used at Nashville State Community College:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points/Grade Points Values per Semester Credit Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Superior: 4</td>
</tr>
<tr>
<td>B</td>
<td>Excellent: 3</td>
</tr>
<tr>
<td>C</td>
<td>Average: 2</td>
</tr>
<tr>
<td>D*</td>
<td>Passing, but below average: 1</td>
</tr>
<tr>
<td>F</td>
<td>Failure: 0</td>
</tr>
<tr>
<td>WF</td>
<td>Failure for non-attendance; Administratively withdrawn: 0</td>
</tr>
</tbody>
</table>

A “WF” is a grading standard in which a student may be withdrawn from class by his/her instructor for non-attendance and/or violation of the instructor’s stated attendance policy. A “WF” counts as attempted semester hours and carries zero quality points per semester hour. The following standards will be followed in administering this grade type:

1. Students earn a “WF” grade in one or two ways (a) when a student has missed class for two consecutive weeks without contacting the instructor. The instructor must complete the appropriate form to assign a “WF” and report the non-attendance immediately to the Records Office; (b) when a student has violated the instructor’s stated attendance policy a “WF” will be submitted to the Records Office. This grade may be assigned anytime during the semester once the student has violated a course enrollment policy and applies to both day and evening students.

2. Faculty must also note “last day of attendance” for the student in addition to the “WF” grade assigned on the form prior to forwarding to the Records Office for processing.

* This grade not used for any remedial or developmental course.

Other marks which may appear on the grade report and/or transcripts are as follows:

W Withdrawal – withdrawal from course initiated by the student.

I Incomplete – The “I” indicates that the student has not completed all of the course work due to such extenuating circumstances as personal illness, death in the family, or other justifiable reasons. The “I” must be removed within four weeks from the published date of registration of the following semester or a grade of “F” is entered on the permanent records. The deadlines for removal are in the Records Office and listed on Academic Calendars found in the catalog and all printed schedules.

X Continuation – The “X” indicates the student attempted a remedial or developmental course, but progress was not sufficient to warrant a grade. It carries no connotation of failure. It indicates the student, upon the advice of the instructor, should register for the same course and take more time to earn a grade. The “X” grade is restricted to use in the R/D courses. An overall maximum of 15 semester hours of “X” is allowed. Veterans who are receiving educational benefits cannot be awarded an “X” grade in any course.

AU Audit (see requirements for auditing a course elsewhere in this catalog).

Average by including the number of hours of the course in the hours attempted total and including zero grade points in the grade points earned.

Grades of “W”, “I”, “X”, and “AU” have no grade point value and are not used in computing grade point average.

Grade Appeals

A student who believes that an error has been made in the grade assigned for a given course has 30 days after the end of the semester in which the grade was earned to request a review of the grade in question. A student must first confer with the instructor. If the problem cannot be resolved, the student may initiate the appeal procedure. All appeals should be submitted in writing to the Dean of Students.

Dean’s List

Degree-seeking students who achieve a term QPA/GPA of at least 3.5 during any semester in which they are at least part-time (six hours) will be listed on the Dean’s List based on college-level course work.

Retention Standards

Associate Degree Programs and Academic/Technical Certificate Programs

The minimum quality/grade point average to achieve the Associate Degree or Academic/Technical Certificate is 2.0. To establish a measure of academic standing, a table of minimum retention standards has been established. The following table describes minimum cumulative grade point average required for the credit hours attempted and is designed to serve as a guide to students who fall below the 2.0 cumulative grade point average.
Note: An average 2.0 GPA is needed in courses required for graduation in Academic/Technical certificate programs.

<table>

Academic Probation and Suspension

Academic probation and suspension is based on the college’s retention standards as described previously. The summer term is not counted as a term of suspension.

Upon returning from a suspension, the student will be on probationary status. The student will remain on probationary status until the minimum acceptable cumulative GPA is achieved. The student must receive a 2.0 term GPA or higher for each term while on probation. The student who fails to meet retention standards for a second time will be suspended for one calendar year.

Course Load

A part-time student carries an academic load of fewer than 12 credit hours. Though 16 to 18 hours are considered Academic Full Time, 12 or more credit hours is considered full-time for certification purposes for veterans’ benefits, vocational rehabilitation, and other benefit programs. The maximum load for a student is 21 credit hours. When a student wishes to register for more than 21 credit hours, the approval of the faculty advisor, Division Dean or Director of Records and/or Registration is required.

Academic Action Appeals

A student may appeal an academic action if he/she believes extenuating circumstances or unusual hardship affected his or her ability to achieve the minimum academic standard. A written appeal must be submitted to the Director of Records and Registration 14 days prior to the official first day of class during a term. The appeal must outline the reasons for the request in addition to submitting any supporting documentation. The Academic Review Committee will review the appeal and make a final determination regarding the action. The Director of Records and Registration will notify the student of the Committee’s decision.

Students receiving Veterans Education benefits will not be certified to the Department of Veterans Affairs if enrollment is based on a second consecutive waiver of Academic Suspension.

Course Waivers and Substitutions

When there is sufficient need to change a program of study outlined in the catalog for a student to be able to graduate, a course requirement waiver and/or substitution may be processed. Course waivers and/or substitutions are determined by and require approval by the academic division head.

The completed course waiver or substitution form must be submitted to the Records Office for processing. All approved waivers and/or substitutions will be applied to the student’s academic program of study. There is no fee for course waivers or substitutions.

Graduation Requirements

Residency Requirements

1. Satisfactorily earn at least 25% of credit hours required for the degree through instruction delivered by NSCC.

2. Associate degree students must earn the last 15 hours preceding graduation from NSCC. This does not apply to students who are participating in an approved, articulated program agreement. Any exception to this policy must be approved by the Vice President for Academic Affairs or designee.

3. Students that have the residency requirement waived by the Vice President must take the waived course(s) within one year of the approved waived date.

4. Students must be enrolled at NSCC in order to receive Advanced Standing credit to be used towards graduation requirements.

5. If a student stops attending NSCC and remains inactive for over one year, cannot graduate according to the requirements of a catalog dated prior to the term of readmission.

Graduation Requirements

1. Complete a minimum of 60 semester hours required for the Associate’s degree and the appropriate number of hours required for a certificate. Transfer credit is evaluated and posted on the student’s transcript showing the earned grade, earned hours and computed grade point average (GPA). The College transfers only grades of “C” or better. Credit hours earned in remedial or developmental courses are not counted to satisfy the minimum hour requirement.
2. Earn a minimum GPA of 2.0 (‘C’ average in all collegiate-level courses that count toward the degree.)

3. Satisfactorily earn at least 25% of credit hours required for the degree through instruction delivered by Nashville State Community College.

4. Complete and file an “Intent to Graduate” form by the appropriate deadline posted in the College academic calendar. It is the responsibility of the student to meet the deadline for filing the intent to graduate form and note the semester in which they intend to graduate and what catalog they are using for graduation requirements. Students who do not graduate during the semester that is indicated on the Intent to Graduate form will need to complete an “Update Intent to Graduate” form during the semester in which they intend to graduate. Also, if a student’s Intent to Graduate form is older than 5 years and they have not graduated, a new “Intent to Graduate” form must be completed. Intent to Graduate and Update forms are available in the Records Office or on the Records Web site.

5. Pay a non-refundable $25 graduation fee in the Business Office prior to filing the graduation intent. The fee includes the cost of the diploma, cover, cap and gown.

6. Complete any required exit examinations in General Education, in the major field, and computer competency.

7. A.A.S. degree students must earn the last 15 hours preceding graduation from Nashville State Technical Community College. This does not apply to students who are participating in an approved, articulated program agreement. Any exception to this policy must be approved in advance by the Vice President for Academic Affairs or designee.

Graduation Honors
Candidates for the Associate’s degree or academic/technical certificate who attain a final 3.5–3.74 cumulative grade point average will be graduated with cum laude; candidates who attain a final 3.75–3.89 cumulative grade point average will be graduated with magna cum laude. Candidates who attain a 3.90–4.00 cumulative grade point average will be graduated summa cum laude.

One commencement ceremony per year is held at Nashville State which is at the end of the spring term. Diplomas are mailed to students at the end of the semester they graduate once degree requirements have been checked and students have been cleared for graduation.

Degrees and Concentrations
NSCC students may earn only one A.A. degree, one A.S. Degree and one A.A.S. degree. Students desiring a second degree from NSCC must complete a minimum of 15 additional credit hours beyond the requirements for the first degree. All additional credit hours for the second degree must be completed at NSCC. A $25 graduation fee must be paid for each separate degree, and a diploma will be awarded for the additional degree.

Associate Degree students may complete requirements for more than one concentration of study within the degree program by successfully completing all course requirements in both concentrations. A separate Intent to Graduate must be submitted for each concentration. No additional fee is required and no additional diploma will be awarded.

The Honors Program is open to new and currently enrolled students. First-semester freshmen should have satisfactory ACT/SAT scores. Returning or continuing students must have completed 12 hours with a GPA of 3.5 or higher. A written recommendation by a high school or college teacher or counselor is also acceptable. All applicants must submit an application form including a writing sample and may be asked to participate in an interview with an honors committee representative. For more information and an application form, contact the English department at 615-353-3531.

College Liability
Nashville State Community College is not responsible for bodily harm and/or death to participants in any voluntary organizations or activities, including activities in which risk is incurred. Nashville State Community College, as an agency of the State of Tennessee, is not liable for claims resulting from injury and/or death incurred in such participation. Members of college faculty and staff may not be held liable unless personal negligence occurs.

Rights and Responsibilities of Nashville State Community College
The college shall have such rights and responsibilities as are necessary and desirable for the college to achieve its purposes. The Tennessee Board of Regents specifically confirms the following rights to the college:

1. To establish regulations concerning the use and abuse of college property and to assess students with claims of damage of such abuse.
2. To withhold grades and transcripts of credit until all claims have been paid.

3. To dismiss, in the absence of specific regulations, any student, at any time, for cause deemed by the college to be in the best interest of the student’s emotional or physical safety or the well-being of the college community.

4. To establish standards of conduct and manners on the campus within range of convention of good taste.

5. To establish traffic regulations on campus, provide for registration of all vehicles using the campus, and enforce such regulations as established.

6. To supervise the scheduling of meetings and activities of student organizations.

This list is not all-inclusive and in no way limits the rights, responsibilities, and authority the college now has. It simply describes some of the rights, responsibilities, and authority which have been vested in it.

Security Procedures
Nashville State Community College makes available to all students information relative to the NSCC security policies and procedures. Upon request, crime statistics and policies may be obtained by contacting the Chief of Security. In the event any student should require the services of security personnel, officers are on duty 24 hours a day to ensure the safety and security of both students and campus facilities.

The Security Office is located in A-70A, adjacent to the campus bookstore. Information about on-campus crime rates is available on request from the Security Office.

Student Appeals or Grievances
There is a procedure to handle bona fide student grievances and appeals. Normally, grievances and appeals are appropriate when a student has experienced discrimination, violation of constitutional rights, or violation of policy. Information about the procedure is available in the college Student Handbook or from the Dean of Students at 615-353-3268.

Student Code of Conduct
Nashville State Community College students are citizens of the community and are expected to maintain acceptable standards of conduct. Admission to Nashville State Community College carries with it privileges and responsibilities.

The Tennessee Board of Regents has authorized institutions under its jurisdiction to take action as may be necessary to maintain campus conditions and preserve the integrity of the institution and its educational environment.

In an effort to provide a secure and stimulating atmosphere, Nashville State Community College has developed a Student Code of Conduct which is contained in the Nashville State Community College Student Handbook. The Student Code of Conduct is intended to govern student conduct on the campus of Nashville State Community College.

Additionally, students are subject to all local, state, and national laws and ordinances. Should a student violate such laws or ordinances in a manner which adversely affects the institution’s pursuit of its educational objectives, the college may enforce its own regulations regardless of any proceedings instituted by other authorities. Conversely, violation of any section of the Code of Conduct may subject a student to disciplinary measures by the institution whether or not such conduct is simultaneously a violation of local, state, or national laws.

Generally, through appropriate due process procedures, institutional disciplinary measures shall be imposed for conduct which adversely affects the institution’s pursuit of educational objectives, which violates or exhibits a disregard for the rights of other members of the academic community, or which endangers property or persons on college or college-controlled property.

When students are unable to pursue their academic work effectively, when their behavior is disruptive to the educational process of the college or detrimental to themselves or others, they may voluntarily withdraw, be involuntarily withdrawn, or be temporarily suspended from the college. Disruptive or detrimental behavior may, for example, be due to drug and/or alcohol abuse, apparent physical disturbance, and/or psychological disturbance.

Statement of Values
Policy on Sexual Orientation
It is the policy of Nashville State Community College that neither its students nor its employees shall be discriminated against on the basis of those individuals’ sexual orientation. Such a policy helps ensure that only relevant factors are considered and that equitable and consistent standard of conduct and performance will be applied.

A student who has an academic complaint involving discrimination based on his or her sexual orientation should contact the Office of the Dean of Students. Any individual who has an employment discrimination complaint based upon his or her sexual orientation should contact the College’s EEO/AA Compliance Officer.
Nashville State
Student Services
The purpose of the Student Services division is to provide comprehensive student services that will assist students in achieving educational objectives and enable students in developing relationships and experiences that promote intellectual, social, and emotional growth.

Student Services is organized into departments to serve the needs of students outside the classroom. Students should become familiar with opportunities that these offices provide and should develop an educational plan that includes solid academic preparation, student activities, and social and professional organizations.

Academic Advising Policy
Students must personally assume the responsibility for completing all requirements established by the college for their degrees or certificates. A student's advisor may not assume these responsibilities. Any substitution, waiver, or exemption from any established requirement or academic standard may be accomplished only with appropriate approval.

Faculty advisors are active participants in the academic, career, and life-planning services of the college. Advisors are also available to assist students on an individual basis with problems and challenges that arise while they are enrolled in college. Students are assigned a faculty advisor and should meet with faculty advisors each semester before registering for classes.

Registration Procedures
Students may register for classes by registering online using POWER. To access POWER, go to NSCC’s home page, www.nscc.edu.

Registration periods for fall, spring, and summer semesters are published in the academic calendar located at the front of this catalog. Students are strongly encouraged to register early during registration periods and follow these procedures:

1. All new and re-admit students must complete an Application for Admission or Re-Admission and submit proper credentials. All new students are encouraged to attend an orientation session. Placement testing is required of all new or re-admit degree seeking students. The test is administered by the Testing Center in the Kisber Library Building. Students should contact their faculty advisor prior to registration each term. Registration is not complete until fees have been paid. Deadline dates for paying fees are published in semester schedules.

2. The first day of classes is noted in the Academic Calendar. Students are strongly encouraged to purchase books and materials and be prepared to begin class work on the first day of classes.

New Student Orientation
All new degree-seeking students should attend a New Student Orientation session. Students will be advised, registered and assigned a permanent faculty advisor at this orientation session. Before attending, students must submit an application to attend the college, send required transcripts, complete inoculation requirements and complete any required testing in the Testing Center. Students may register for New Student Orientation on the NSCC Web site.

Developmental Studies Placement
The Tennessee Board of Regents, which governs all the State’s community colleges and its universities except the UT system, requires that students first show that they have high school level skills before enrolling in college-level courses. Placement assessments are administered to entering students to determine whether they need developmental courses. Depending on the student’s placement tests scores, ACT scores, high school courses completed and/or any other relevant information, a student will be placed appropriately. After completing the final developmental studies course, required by the placement assessment, students may proceed to college-level courses.

Developmental Studies courses cover basic skills in reading, writing, and math. Learning Strategies placement is required for students who are placed in two remedial and/or developmental courses. Once enrolled, the student must complete any Developmental Studies course with a “C” or better. Students should refer to course syllabi to review withdrawal policies from any developmental studies course.

Developmental Studies Challenge Testing
Students may challenge their placement into developmental studies courses. Only students who have tested into a DSP course may challenge test placement in a course and may challenge only once per course. Students who attempt a DSP course are no longer eligible to challenge test out of that course.

Challenge tests are offered only at the published dates and times in the schedule. Dates and times for the main campus and off-campus sites appear with the course listings for each campus. Students who arrive after the published start time will not be admitted. There is a fee for the math test, and
free math preparation materials are available at www.act.org/compass and ww2.nscc.edu/dspm. Currently, the reading and writing tests are free of charge, and there are no formal preparation tools. Please check our Web site at www.nscc.edu for any updates about testing, preparation, and procedures. For information about reading or writing challenge testing, please call 615-353-3531. For information about challenge testing in math, please call 615-353-3369.

English as a Second Language (ESL)

Students who speak English as a second language may receive special assistance in the Learning Center and from full-time ESL specialists on staff. Special remedial courses provide non-native speakers with the language skills they need to be successful in college and the workplace.

Student Disability Services (SDS)

Student Disability Services provides assistance to students with documented physical, emotional, or learning disabilities. SDS personnel assist eligible students with academic planning and registration and serve as a liaison between students and faculty. SDS personnel also assist in testing and securing appropriate technology as needed for students. For further information, contact the Disabilities Coordinator, at 615-353-3721 in the Student Services Center.

Kisber Library

(Phone: 615-353-3555)

The Kisber Library facilitates learning and research for Nashville State students, staff, and faculty with an extensive collection of books, periodicals, and audio-visual materials. The Library also provides space for private and group study.

Fully automated, the Library features an online catalog, ebook collections, and periodical databases. By using CWID and pin numbers, students can gain access to electronic databases from off campus. The Library subscribes to databases that cover the social sciences and humanities. The Library also subscribes to databases in the following specific subject areas: business, literature, health sciences, music, art, technology, and Spanish. As well as more than 50,000 books in its on-campus collection, the Library also owns four collections (totaling more than 38,000) of NetLibrary ebooks as well as subscribing to online technical book collections. Electronic reference materials can also be found at the Web page, including English and foreign language dictionaries, thesauruses, quotation books, atlases, and a comprehensive series of subject dictionaries.

The Library also provides interlibrary loan services for student and faculty. Students from Nashville State also may check out a NALA card that will allow them to enter Vanderbilt University and conduct research in any one of the University’s main subject libraries. All Nashville State students may also visit any other TBR library to do research and have some check-out privileges.

There is an orientation at the Library Web site for students who can not come to campus or who need a refresher on library services. There is also an “Ask the Librarian” link on the homepage so that students may send research questions to the library staff; these are answered within 24 hours.

The Library is open to the public, although children must be accompanied by an adult.

Kisber Library hours are as follows during fall and spring semesters:

<table>
<thead>
<tr>
<th>Days</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monday – Thursday</td>
<td>7:45 a.m. – 8 p.m.</td>
</tr>
<tr>
<td>Friday</td>
<td>7:45 a.m. – 4:30 p.m.</td>
</tr>
<tr>
<td>Saturday</td>
<td>9:00 a.m. – 2 p.m.</td>
</tr>
</tbody>
</table>

(During fall and spring break and between semesters, hours are Monday – Friday, 8:00 a.m. – 4:30 p.m.)

The Testing Center

(Phone: 615-353-3564)

Housed in the Library in Room K-158, the Testing Center provides multiple testing services for students, faculty, and staff. The Testing Center supports the Tennessee Board of Regents’ admission requirements by providing assessment testing for students enrolling in college. The following Assessment Placement Tests are administered:

- **ACT Residual** $30.00 Fee
- **ACT Compass** $4.00 Fee

Additionally, the Testing Center administers a variety of exams for different departments on campus. The Testing Center includes classroom make-up exams, web and video exams, end-of-program assessments, independent study tests, and exams for students enrolled in Regents Online Degree Programs (RODP). The CLEP exam is also offered to students who are attempting to substitute lifelong learning skills or professional training for regular credit course work. The Testing Center hours are:

<table>
<thead>
<tr>
<th>Days</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monday – Thursday</td>
<td>8:00 a.m. – 7:30 p.m.</td>
</tr>
<tr>
<td>Friday</td>
<td>8:00 a.m. – 4:30 p.m.</td>
</tr>
<tr>
<td>Saturday</td>
<td>9:00 a.m. – 2:00 p.m.</td>
</tr>
</tbody>
</table>
Saturdays are reserved for Video, Web, Independent Study, and RODP testing only. No classroom make-up tests are permitted on Saturday.

Absolutely no children under 12 years of age are allowed in the Testing Center or Library without adult supervision. Children may not accompany students into testing area. There are absolutely no exceptions.

The Learning Center
(Phone: 615-353-3551)
The Learning Center, located inside the Library, offers all NSCC students free, drop-in academic assistance with courses in which they are currently enrolled at the college. Services include access to computers for research, email, tutorials in course content, and software applications used in classes. In addition, tutors are available to help in many subjects, especially mathematics and writing. Free online tutoring is also available to students.
The Learning Center's hours are as follows during fall and spring semesters:

- Monday – Thursday: 7:45 a.m. – 7:00 p.m.
- Friday: 7:45 a.m. – 4:30 p.m.
- Saturday: 9:00 am. – 12:00 p.m.

Children are not allowed in the Learning Center.

Housing
The college does not have residence halls. Therefore, it is recommended that the student begin efforts to obtain housing at an early date. Any student needing assistance in securing housing may contact the Student Life Coordinator at 615-353-3026.

Student Activities
Nashville State has honor, social, and professional clubs. Students are encouraged to participate in these organizations and activities. Charters of all organizations are on file in the office of the Dean of Students. Any organization not chartered is not recognized as part of the college community.
The organization and administration of student activities is a function of the Dean of Students.

Student Government Association
(Student Participation in Campus Decision-Making)
The Student Government Association represents the student body at Nashville State. The SGA serves the vital role of liaison between the campus administration and the student body. A designated member of the SGA is a member of the Nashville State Executive Committee, which is the policymaking committee of the college.
The SGA is charged with the responsibility of communicating the ideas and opinions of the student body at-large to the administration of the college. Members of the SGA are elected by popular vote and serve for a term of one year. The SGA office is located in the Kisber Library Building, K-101.

All standing committees at the college include a student representative. It is the responsibility of each standing committee chair to appoint, with the President's approval, a student representative to each campus committee.

Student Life Council
The purpose of the Student Life Council is to promote cooperation and communication among student organizations. The Council consists of faculty, staff, and a representative from each active student organization.

Student Publications
*The Falcon*, the college newspaper of Nashville State, is edited and published periodically by students during the year for the purpose of informing students and staff of pertinent upcoming events, to provide students with an expression of opinions and views, and to increase student awareness of campus life. There is a faculty advisor to the college newspaper.
*Tetrahedra* is an independent nonprofit journal published annually by Nashville State. The journal recognizes the artistic talents of the college community through the publication of selected poems, short fiction, and essays and promotes the humanities at the college. Current students, alumni, staff, and faculty are encouraged to submit manuscripts for publication to this journal.

All publications produced by students at Nashville State may serve as forums for expression of ideas concerning issues and events of interest. Views expressed in the publications are not necessarily the views of the student body as a whole, the college, or the Tennessee Board of Regents.

Career Employment Center
The Career Employment Center assists students, graduates, and alumni with their employment needs. Businesses use the Center to locate qualified job applicants from the college. The Center assists with part-time and full-time employment opportunities.

While the Center does not operate as an employment agency nor does it guarantee employment to those individuals utilizing the services provided, the Center provides continuous service in matching the job needs of graduates and employers. Detailed descriptions of available jobs and statistics on graduate employment/salaries are available in the Center.
Employers with job opportunities may list a position with the Center by faxing or e-mailing a job description to the address below:

Career Employment Center (Room W-77)
120 White Bridge Road • Nashville, TN 37209
615-353-3248 Phone • 615-353-3254 FAX
cec@nscc.edu (E-mail)
www.nscc.edu/cec (Web site)

Job Placement Services for A.A.S. and Technical Degree Seeking Students
It is extremely important that our graduates in the A.A.S. degree/technical certificate programs are hired and employed in their chosen fields of study. All graduating seniors are encouraged to register with the Center at the beginning of their final semester. Résumés may be submitted electronically in Microsoft Word format to the Center at Ejobs@nscc.edu or in person by appointment. Center personnel will review and approve all résumés submitted.

Job Placement Services are available to graduates within one year of graduation. Limited services may be available for alumni after that year.

Cooperative Education (Co-op) Program
Cooperative Education is a partnership between the college and the business community that enables students to work in areas related to their major fields of study, earning academic credit as well as a paycheck. Students interested in the co-op program must meet all eligibility requirements.

Co-op requirements and applications area available on line at www.nscc.edu/cec or may be picked up in the Center.

The Career Employment Center will interview and screen co-op applicants. Only students who meet all eligibility requirements as well as those who exhibit sincerity, adequate skills and ability to fill a co-op position will be recommended by the Center to potential employers. All guidelines of the cooperative education program must be followed in order for students to be eligible to participate in the program.

Center for Innovation in Technological Education (CITE)
The Center for Innovation in Technological Education (CITE) in Tennessee is an agent of change and workforce development for Tennessee’s technological workforce. In order to bring about this change CITE has brought together a broad range of stakeholders from the educational, business and civic communities to develop a vision and plans for education reform and to work together to realize these plans. These stakeholders are an integral part of the change process and receive a substantial return on their investment made in the Center.

CITE enhances our technological workforce by
• Providing professional development resources and workshops for educators.
• Implementing models and strategies for high school academies and smaller learning communities.
• Promoting educational opportunities and career development for lifelong learners.
• Providing alternative formal and workplace learning opportunities for learners.

For more information, contact CITE Director David McNeel at 615-353-3070 or cite@nscc.edu

WorkForce and Community Development

Personal Enrichment
WorkForce and Community Development at Nashville State Community College offers a wide spectrum of classes for personal enrichment. Programs are open to anyone in the community. You are sure to find something captivating and educational here such as Finish Carpentry, Floral Design, Home Maintenance, Basics of Cooking, Real Estate, and Retirement Planning.

Professional Advancement
The WorkForce and Community Development Center at Nashville State Community College has been a recognized leader in the community for offering adult students continuing education to re-skill or advance the current workforce. We touch people’s lives by offering the most up-to-date skills training available such as MS Office Suite, Dreamweaver, AutoCAD, Certified Professional Secretary, A+, Network+, and Certified Supply Chain Professional.

Customized Training for your Employees:
The Center provides on-site group training in management, industrial, computer, technical, leadership and skill assessment development training can be tailored to meet specific needs of your industry.

For the full catalog of WorkForce and Community Development courses, see www.workforce.nscc.edu, call 615-353-3456 or 1-800-272-7363 ext. 3456.

Nashville State Community College
Distance Education

Distance Education Programs are learning experiences in which the instructor and students do not share the same physical space. While maintaining the quality of the on-campus offerings, distance education courses provide convenience and flexibility to students as they pursue their educational goals.

Distance Education delivery modes at Nashville State are Video check-out courses, CD-ROM courses, Web courses, and Web-Hybrid courses. These modes are suited for individuals who are unable to travel back and forth to campus on a weekly basis or whose work schedules do not fit the regular schedule of class times.

Both degree and certificate programs as well as general education courses are available through distance education. These courses are listed on the Web site, www.nscc.edu, or can be found in the latest class schedule. Students enrolled in Web-based courses or video-based courses are provided with an Online Web or Video Orientation that explains the Distance Education process. On-ground Orientation sessions are available at the beginning of each semester.

For more information about distance education at Nashville State, please call 615-353-3461.

TBR Campus Collaborative

Tennessee Board of Regents’ (TBR) colleges and universities have joined together to offer the Regents Online Degree Program (RODP). Nashville State awards five RODP degrees: an Associate of Applied Science in Professional Studies with a concentration in Information Technology, an Associate of Arts and an Associate of Science in General Studies, an Associate of Applied Science in Early Childhood Education, and an Associate of Science in General Studies for Teacher Aides and Paraprofessionals. The Regents Online Continuing Education (ROCE) courses are geared toward workforce development and professional enrichment.

Visit www.tn.regentsdegrees.org/campus/nscc or contact the Office of Distance Education at 615-353-3461 for more information about the TBR Campus Collaborative.

Off-Campus Locations

Nashville State has educational sites located throughout Davidson County and the Middle Tennessee area. Each location offers courses and programs to help students meet their educational or professional development goals. There are various education and business sites throughout Nashville, along with the three permanent campuses featured below.

Southeast Center

In an effort to better serve Middle Tennessee, Nashville State Community College established a second permanent facility in Nashville. The Southeast Center provides residents in southeast Davidson County with higher education opportunities at a convenient location. The Center is housed in the former Tennessee Preparatory School and is situated near the Nashville School of the Arts. The Center is conveniently located at 1162 Foster Avenue between Thompson Lane and Murfreesboro Pike and is easily accessed from I-440, I-40, and I-24.

The Southeast Center opened for the Fall 2005 semester with an offering of thirty courses. The response to the new location during that first semester was outstanding; over 100 students took advantage of the convenient location. Each semester the number of students and variety of courses at the Southeast Center increases. Currently, general education courses, degree and technical certificate courses, and English as a Second Language courses are taught at the Center during the day and in the evening. Students also have the option of taking Web and video courses through the Center.

Because students receive the same quality education and helpful student services as on the main campus, student enrollment will continue to grow. Course and programs offered will continue to expand to fulfill the academic goals of the students.

For more information about the Southeast Center, contact 615-353-3030 or visit www.nscc.edu/sec.
Cookeville Campus

Late in the 1980’s when key business and industry leaders called for true technical training in the Upper Cumberland region, the Cookeville Area-Putnam County Chamber of Commerce responded. It was the desire of local civic and industrial leaders to create a college that would supply graduates with the skills suited for this high tech region. A partnership was formed with Nashville State Community College, and a campus was established in Cookeville.

For the first four years that Nashville State served the region, classes were held in the conference room at a Chamber location. The first courses offered were in Electrical Maintenance. As the enrollment increased and the demands of Cookeville’s businesses and industries grew, courses and programs were added and locations changed to keep up with space requirements. A move to 214 Freeze Street was followed by a move to 215 Broad Street. Ground was broken for the new building in 1999, and the campus was opened for the Fall 2002 semester. The campus, a full service training facility, is now located at 1000 Neal Street.

Today there are degree and certificate programs in over 15 areas. Unique to the Cookeville campus are the Industrial Automation technical certificate and the Automated Control Systems concentration of the Electrical Engineering Technology program. These programs meet the specific demands of the region’s workforce needs. The number of courses and programs will continue to grow and evolve as the economy changes, and the needs of the employers and employees are met.

For more information about the Cookeville campus of Nashville State Community College, please call 931-520-0551 or www.nscc.edu/cookeville.

Humphreys County Center for Higher Education

In 1998, the Humphreys County Center for Higher Education opened to provide the citizens of Humphreys, Stewart, and Houston counties with the opportunity to receive quality education close to home. Over $500,000 was pledged in Waverly and Humphreys County for the new facility and a $1.5 million federal grant matched the local funds. Nashville State Community College is the lead institution of the 23,000 square foot facility located at 695 Holly Lane, Waverly, Tennessee.

Both courses and student services at the Humphreys County Center for Higher Education match offerings at the main and other campuses. Students earn degrees and certificates in over 15 areas. As a response to the workforce demands of the area, the Industrial Process Control technology program was established. Working with program partners—businesses such as Dupont, Matheson Gas Products, Erachem Comilog, Chemetall Foote Corporation, Tennessee Valley Authority, and Inland Container Corporation—a curriculum was developed to train students in the areas of Process Control, Instrumentation, and Quality.

The Humphreys County Center for Higher Education will continue to grow through the addition of courses and programs in order to serve the higher education needs of the area.

For more information about the Humphreys County Center, please call 931-296-1739 or visit www.nscc.edu/waverly.
Associate of Applied Science
Technical and Career Degree Programs

Nashville State Community College
Nashville State
Consistent with the mission of the College, the Architectural, Civil and Construction Engineering Technology Program publishes the following broad stated educational objectives or the expected accomplishments from graduates during their first few years after graduation.

The Program Educational Objectives for Architectural, Civil and Construction Engineering Technology, Associate of Applied Science Degree are:

- Using problem solving skills learned, graduates will be able to analyze various architectural and civil/construction problems or situations in an analytical manner applying both the knowledge gained in school and on the job.
- Demonstrating knowledge of the materials and methods along with proper detailing in commercial buildings and structures.
- Communicating verbally and in writing and demonstrate ability to prepare reports and presentations.
- Understanding and applying the fundamental techniques, skills, and computer usage necessary in the industry including word processing, spreadsheets, and CAD.
- Functioning on professional teams, demonstrating leadership and showing passion for their work.
- Possessing an appreciation for diversity, a commitment to the improvement of the quality of life, and the ability and desire to pursue continuing education.

The Architectural, Civil and Construction Engineering Technology degree offers students a broad range of courses in the design and construction of residential, commercial and industrial type buildings as well as heavy construction projects such as highways, water and wastewater systems, storm drainage, general site planning, etc. The student will choose either the Architectural Concentration or the Civil and Construction Concentration.

**Admission Requirements**
Prospective students must have a GED or a high school diploma.

**Tech Prep/Articulation**
Students may qualify for course credit in Engineering Technical Graphics and/or Computer-Aided Drafting if they have met all requirements of the Tech Prep Program in high school.
Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Career Opportunities
- Computer-aided drafter
- Detailer
- Estimator
- Assistant construction superintendent
- Inspector
- Construction materials sales
- Residence designer

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Civil and Construction Engineering Technology Concentration
The Civil and Construction Engineering Technology Concentration prepares students for employment in the fields of structures, surveying, materials testing, water and wastewater systems, hydrology, and environmental technology. The program prepares technicians with a broad background in many different areas of design and construction through coursework in computer-aided-drafting, construction materials, estimating, specifications, surveying, and environmental systems.

Graduates of the Civil and Construction Engineering Technology Concentration should be able to:

- Run a boundary traverse and a level line and adjust and balance both, as well as other basic surveying operations employing team and individual work methods. Have working knowledge of the modern tools of the surveying profession including AutoCAD.
- Perform various soils engineering calculations and working in groups, perform construction testing on soils and concrete. Write formal reports.
- Produce a complete materials take-off for a construction project through the understanding and application of current mathematics, science, engineering and technology.
- Demonstrate an ability to identify, analyze, interpret and communicate both in oral and written mediums in order to solve technical problems and creatively apply experimental results to improve processes, systems or components.
- Conduct themselves as members of the architectural/engineering/construction profession and as world citizens having a broad understanding of the diversity of human culture and behavior, while adhering to ethical standards and meeting contemporary professional and societal responsibilities.
- Conduct their employment in such manner as to demonstrate a commitment to quality, timeliness, and continuous improvement.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Career Opportunities
- Computer-aided drafter
- Surveyor
- Estimator
- Assistant construction superintendent
- Inspector
- Construction materials sales
- Water/wastewater systems designer

Automotive Technology
Associate of Applied Science (A.A.S.)
Accredited by the National Automotive Technicians Education Foundation (NATEF) and approved by the GM Technical College.
Contact Information: Program Office 615-353-3475, E-mail: auto.tech@nscc.edu

The Automotive Technology program prepares students to work in area automotive dealerships or repair shops. There are two different groups of directed electives for the program, depending on the sponsoring dealership or repair shop:

- Automotive Service Educational Program (ASEP) in cooperation with General Motors;
- Automotive Technology Educational Program (ATEP) in cooperation with other local dealerships.

This program alternates periods of formal training with periods of on-the-job experience at participating dealerships. The periods in the dealership are designed to provide practical experience as reinforcement of concepts taught during the school terms. Students must maintain sponsorship with participating dealerships during the entire training period. Nashville State assists students in obtaining dealer sponsorship.

Graduates of the program should be able to:

- Demonstrate the use of diagnostic equipment and special tools used in the service department.
- Build a working relationship with fellow technicians.
- Establish and maintain a training path committed to lifelong learning.
- Be familiar with the dealership operation and procedures in the service department.

Admission Requirements
Prospective students must be at least 18, have a valid driver’s license, a good driving record, pass an interview process and background check for dealership sponsor. Due to the schedule of work at the dealerships, the schedule for this program may be different than that of the college.

General Motors Automotive Service Educational Program (GM ASEP)
GM ASEP prepares students for employment in the field of automotive service and repair in GM dealerships. The program includes theoretical and practical components preparing the student in the development of diagnostic skills needed to repair today’s automobile. The student must be able to pass a hands-on testing procedure required by GM.

The broadest definition of biotechnology is the use of organisms or their products to solve a human problem. This organism can be as simple as the bacteria and fungi that produce antibiotics or as complex as a transgenic plant or animal. Some of the specialty areas of biotechnology involve agriculture, bioremediation, drug discovery and production, forensic analysis, and genetic testing. The courses in this program will give students an intensive hands-on experience with many of the techniques that are critical to biotechnology. In addition, the basic science and general education classes will help to prepare students who decide to continue their training by transferring to a four-year institution.

A graduate of this program will be prepared to be a biological technician. Potential career paths could include work as a laboratory technician in an industry, government, or university laboratory engaged in basic research and development; a testing lab technician responsible for Quality Assurance/Quality Control monitoring; or a production technician involved in pharmaceutical manufacturing processes.

Note: The primary purpose of this degree is to prepare students for employment immediately following graduation from Nashville State. However, some students may wish to continue in a baccalaureate program either immediately or in the future. If you plan to transfer to a four-year program after leaving Nashville State, consult the program coordinator for a specialized program of study. Failure to do so could result in a loss of credits in the transfer process.

Business Management: Financial Services, Marketing, and Small Business Administration

Associate of Applied Science (A.A.S.)

Contact Information: Program Office 615-353-3400, Email: business@nscc.edu

Accredited by the Association of Collegiate Business Schools and Programs (ACBSP)

7007 College Blvd., Suite 420, Overland Park, Kansas 66211.

The primary purpose of this degree is to prepare students for employment immediately following graduation from Nashville State.

Program Mission: The mission of the Business Management program is to provide practical learning opportunities that prepare students to:

- Excel in the business community.
- Effectively adapt to and manage technological change.
- Develop ethical business practices and a sense of personal responsibility.
- Work independently and as part of a team.
- Communicate effectively with written and oral messages.
- Think critically.
- Be creative with business solutions.

The Business Management program prepares students entering the business field with the managerial and technical skills necessary to perform in entry-level management positions in small and large companies.

The Financial Services Concentration provides the student with firm foundations in accounting principles, the U.S. monetary system, and the credit granting process.

The Marketing Concentration directs the student toward understanding the performance of business activities that direct the flow of goods and services from the producer to the consumer or user.

The Small Business Administration Concentration provides knowledge and skills sufficient to allow a person to be employed in a wide variety of service, merchandising, and manufacturing organizations. This program will be helpful to those individuals who wish to own and operate a business.

Graduates of the Business Management program should be able to:

- Understand how to develop and maintain an organization's management program that effectively and efficiently maximizes organizational resources.
- Possess basic business management skills in the areas of accounting, computers, economics, marketing, banking, management, team building, and business law.
- Be able to apply basic business mathematics skills.
- Communicate effectively in written form and orally.
- Seek employment in retail, wholesale, manufacturing, and service industry organizations.

Career Opportunities

Financial Services Concentration

- teller
- broker assistant
- credit investigator
- operations supervisor
- loan and financial processor

Marketing Concentration

- sales manager trainee
- marketing manager trainee
- customer service representative
- marketing associate
- retail sales associate

Small Business Administration Concentration

- product manager
- management trainee
- store/office manager
- director of sales and marketing
- customer service representative

Transfer/Advising

The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.

66
The mission of the Computer Accounting program is to provide quality education in computerized accounting that will enable students to succeed in a career now and in the future.

The Computer Accounting program prepares students for various entry-level positions within the accounting system of a company. The program includes courses that provide the student with a broad core of accounting skills as well as a significant working knowledge of business application software.

Graduates of the program should possess a(n):

- Awareness of personal and social values.
- Capacity for inquiry, abstract logical thinking, inductive and deductive reasoning, and critical analysis.
- Ability to identify ethical issues and apply a value-based reasoning system to ethical questions.
- Ability to interact with culturally and intellectually diverse people, individually and in groups, and to withstand and resolve conflict.
- Ability to present, discuss, and defend views effectively through formal and informal, written and spoken language, and to listen effectively.
- Knowledge of accounting, auditing, and tax.
- Ability to prepare and know purpose and elements of financial statements.
- Ability to gather, summarize, report, and analyze financial data.
- Knowledge of concepts, methods, and processes of control that provide for the accuracy and integrity of financial data and safeguarding of assets.
- Knowledge of the role of accounting information systems.
- Knowledge of local, state, and federal tax laws and reporting.
- Ability to apply knowledge to solve real-world problems.
- Knowledge of business and accounting application software used to solve a wide range of business problems.

### Career Opportunities
- Staff Accountant, Assistant Accountant, or Full-Charge Bookkeeper
- Payroll Accountant
- Accounts Receivable Clerk or Accounts Payable Clerk
- Tax Preparer
- Financial Analyst

### Grading Policy
A grade of “C” or above must be earned in prerequisite courses to meet requirements for enrollment in subsequent courses. A grade of “C” or above in all Computer Accounting curriculum courses must be earned prior to graduation.

### Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Note: Courses should be taken in the sequence indicated in order to ensure graduation on schedule.

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
The Computer Information Systems program prepares students for employment in the Information Technology field. The four concentrations in the CIS program have been developed to map the curriculum to the skill standards that are being used in industry today. The skill standards that the four concentrations are using came from a nationally accredited study on the skill standards for Information Technology. Using these skill standards will ensure that graduates have the basic skills that employers need.

Within a framework that emphasizes the development of teamwork, communication, and critical thinking, graduates of the program will be able to:

- Identify and understand the supporting roles of Information Technology (IT) in organizations.
- Design a plan of academic achievement leading to the completion of the coursework involved in one of the following core concentrations:
  a. Web Developer
  b. Programmer
  c. Database Developer
  d. Systems Analyst
- Articulate an understanding of the synergy that exists among the concentrations.
- Communicate effectively with stakeholders/management and end-users regarding problem requirements, resources, and solutions.
- Demonstrate the ability to analyze, develop and implement various IT processes and applications.

**Grading Policy**
A student majoring in CIS must receive a “C” or above in each course in order to meet prerequisite requirements for subsequent courses.

**Transfer/Advising**
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

**Web Developer Concentration**
This program is designed to introduce the student to the variety of skills necessary to create dynamic Web content and transaction-based Web systems. In the initial courses, the student is introduced to HyperText Markup Language (HTML), Cascading Style Sheets for formatting of Web sites, use of HTML editing and Web site development tools, and the concepts of Web site hosting and domain name registration. The student then progresses to more advanced development courses, covering Web scripting on the Client and on the Server, and developing Web systems that interact with databases. Some of the courses in this program help students prepare for the CIW industry certification exams.

**Programmer Concentration**
This concentration is designed to prepare entry-level computer programmers for employment in the area of business software application development. Graduates of the concentration will have designed, written, tested, and debugged programs in several major programming languages in both individual and team-oriented settings. Both theoretical and practical components are covered throughout the concentration. The concentration will also provide a means for current programmers to upgrade their programming skills by learning new languages.

**Database Developer Concentration**
The database concentration prepares the student for an entry-level position in database development and programming. As relational databases become a critical enterprise resource there is a growing need to be able to store, manage and extract data effectively. A student completing this concentration would have the necessary skills to analyze, design, develop and implement a relational database management system (RDMS). Some of the courses in this program will help the students prepare for the Oracle industry certification exams.

**Systems Analyst Concentration**
The Systems Analyst concentration prepares students to solve computer problems and apply computer technology to meet the needs of their organizations. Today’s environment demands that our graduates be able to function with a variety of stakeholders and end-users. The concentration includes diverse disciplines to enhance the communication, research, business, and technology skills of the student.

**Note**
- “CIS Elective” means that the student may take any course with a CIS prefix listed in this program.
- “CIS Programming Elective” means that the student may take any course listed in the Programmer concentration.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.

---

**Computer Information Systems**
Computer Networking Technology
Associate of Applied Science (A.A.S.)
Contact Information: Program Office 615-353-3771, E-mail network.tech@nscc.edu

Computer Networking Technology prepares students for employment in the Information Technology field in the area of network infrastructure. The program includes theoretical and practical components, preparing entry-level networking technicians to design, install, monitor, maintain, and enhance network infrastructure. Graduates of the program will be able to design and implement an infrastructure consisting of various networking devices and components such as clients, servers, routers, switches, hubs, and cabling systems.

Graduates of this program will be capable of working in entry-level positions of user support, server monitoring, directory services basic administration, network media installation and testing, basic router configuration, subnetting, and network communications protocols.

In addition to technical proficiency, graduates of this program will be knowledgeable in effective communications — both written and verbal. Graduates will be experienced in working in teams and being self-motivated in problem solving scenarios.

Computer Networking Technology graduates should be able to:

- Function competently in entry-level network technician positions.
- Proficiently use various operating system environments including DOS, Windows, Novell, and UNIX/Linux.
- Perform initial installation and setup of various network servers, such as, Novell, Linux, and Windows.
- Perform initial configuration of microcomputers including the installations of workstation software necessary to communicate with network servers.
- Select, install, terminate, and test appropriate network media, including twisted pair, coaxial cable, and fiber. Perform basic configuration of wireless networking components.
- Troubleshoot and analyze network hardware, software, and communications problems.
- Install and implement network monitoring and management tools.
- Communicate successfully in a variety of situations using written and oral communication skills.
- Use concepts taught in the General Education courses that are reinforced in the Computer Networking Technology curriculum.
- Apply critical thinking skills in providing solutions to network infrastructure problems.
- Work effectively as individuals and in a team environment.

After completing the minimum course requirements, graduates are prepared to take the exams for several industry certifications, including A+, Net+, Security+, Novell CNA, and Microsoft MCP. In addition, a rich selection of electives allows students to increase the breadth and depth of their understanding and prepares them for advanced certifications such as Cisco CCNA and CCNP, Novell CNE, Microsoft MCSA and MCSE, and BICSI Installer, Level I.

**Career Opportunities**

Typical positions available to graduates of this program (based upon DOL classifications) are:

- LAN administrator
- Network administrator
- Microcomputer support specialist
- Network technician
- Data communications technician

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
The goal of the Computer Technology (CPT) program is to prepare individuals to function as entry-level computer technicians. Students become proficient in operating systems, installation and maintenance of a variety of computers, and various hardware and networking components. This degree’s objectives parallel and exceed numerous industry-level certifications.

The program emphasizes hardware, software, peripheral devices, telecommunications, operating systems, troubleshooting, PC architecture, and digital interfacing and design. Individual and team-based projects enhance the learning experience and give students vital hands-on job skills. Some of the courses in this program will help the students prepare for the A+ industry certification exam.

Computer Technology program graduates should be able to:

- Install and configure workstation systems and application software.
- Troubleshoot, analyze and repair hardware and software issues.
- Select & install appropriate hardware and software.
- Perform routine upgrade, repair and preventive maintenance on computer system hardware and software.
- Use various operating environments including Windows command line and GUI, and UNIX/Linux.
- Establish and maintain a user support/helpdesk environment.
- Communicate technical and non-technical information clearly in both written and oral format.
- Integrate concepts taught in general education courses and reinforced in the Computer Technology curriculum.
- Function competently in entry-level computer technician positions using critical thinking skills to solve systems challenges.

**Career Opportunities**

- Service technician - configures hardware, software and installs, upgrades and maintains computers and related peripheral equipment
- User support/helpdesk - manages customer problems and requests and provides solutions-oriented support services by telephone, e-mail and/or in person
- Technical sales - analyzes client needs and provides support in choosing the correct information systems solutions for business or personal use
- Engineering aide - works with engineers in the design and development of computer controlled equipment and devices

Second-year students are encouraged to apply for related work assignments through the Career Employment Center. Many co-op opportunities provide relevant work experience and are strongly recommended.

**Transfer/Advising**

The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Culinary Arts
Associate of Applied Science (A.A.S.)
Contact Information: Program Office: 615-353-3783 or 615-353-3419, Email: culinary.arts@nscc.edu
Accredited by the Accrediting Commission of the American Culinary Federation Foundation.

The mission of the Culinary Arts program at Nashville State Community College is to:

- Be Middle Tennessee’s foremost provider of formally trained culinarians.
- Prepare individuals for an immediate positive contribution within the hospitality industry by providing a fundamentally sound, progressive, relevant, and enriched culinary education.

Culinary Arts education prepares students for careers as chefs and culinary professionals in a variety of hospitality businesses. The program includes a core of culinary arts courses which develop cooking skills and provide instruction in purchasing, cost control, sanitation, nutrition, and supervision. In addition, students receive a well-rounded academic experience including business, computer, and liberal arts courses preparing students for a successful career as culinary professionals.

Graduates of the program will be able to demonstrate:

- The ability to think creatively and work effectively in team environments within a kitchen production facility.
- Competency in food production cooking methods including hot and cold foods, baking and pastry, international dishes and contemporary American cuisine.
- A working knowledge of culinary theory and terms, and the ability to operate within a kitchen production facility.
- Knowledge of nutrition principles, menu writing, cost and inventory control, and safety and sanitation principles.

Career Opportunities
- Chef
- Pastry Chef
- Sous-Chef
- Line Cook
- Pastry Cook
- Kitchen Manager
- Assistant Kitchen Manager
- Catering Production and Operations
- Food Sales and Marketing

Related Information
NSCC Culinary Arts program offers courses in Sanitation, Nutrition, and Supervisory Management which meet the American Culinary Federation education requirements for certification in these areas.

Grading Policy
A grade of “C” or above must be earned in all culinary arts courses prior to graduation.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Internship Requirements
Students must complete two 300-hour paid work internships in an approved culinary arts production kitchen prior to completing the requirements for an A.A.S. degree in Culinary Arts.

Early Childhood Education
Associate of Applied Science (A.A.S.)
Contact Information: Program Office 615-353-3020, E-mail: early.childhood@nscc.edu

Early Childhood Education prepares the student for employment in the field of child care and early education. The program includes theoretical and practical components, preparing early education professionals to work effectively with infants, toddlers, preschoolers, and primary age children birth to age nine.

Graduates of the program should be able to:
- Promote child development and learning of young children.
- Build family and community relationships.
- Observe, document, and assess to support young children and families.
- Design, implement, and evaluate experiences that promote positive development and learning for all children.
- Identify and conduct themselves as members of the early childhood profession.

Admission Requirements
Meet regular degree-seeking admission requirements for A.A.S.

Career Opportunities
- Teacher
- Assistant Teacher
- Caregiver
- Administrator

Students may be employed in child care centers, family child care homes, Head Start programs, before and after school programs, pre-k programs, and preschools.

Clinical Practicum Courses I, II, and III
Students who wish to register for any of the three clinical practicum courses (ECED 2130, 2140, or 2150) should contact an advisor for information about clinical requirements prior to enrolling. Before registering for the practicum courses, a student must have:
- Attained a grade of “C” or higher in all ECED courses taken.
- Met all prerequisite requirements.

Grading Policy
A grade of “C” or above must be earned in all early childhood courses prior to graduation. The student majoring in ECED must receive a “C” or above in each course in order to meet prerequisite requirements for subsequent courses.

Background Check for Employment
Students who wish to become employed in child care programs licensed by Department of Human Services, State of Tennessee must undergo a criminal history and abuse registry background check. Tennessee law requires a satisfactory background check prior to employment. This is initiated by the employer.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Part-time Schedule: Many students may wish to enroll in the ECED program on a part-time basis. Students are encouraged to enroll in at least two semester courses each semester (including summer) in order to complete the degree in approximately four years. Courses are offered days, evenings, Saturdays and on-line. A student should be able to complete most requirements for the degree in the evening/weekend program.
Electrical Engineering Technology
Associate of Applied Science (A.A.S.)
Contact Information: Program Office 615-353-3475, E-mail: electric.tech@nscc.edu
Accredited by the Technology Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, Telephone 410-347-7700

The Electrical Engineering Technology program is a comprehensive program with various options. This program offers three concentrations: Electrical Engineering Technology, Electronic Engineering Technology, and Automated Control Systems (offered only at the Cookeville campus and not accredited by the Technology Accreditation Commission of ABET.) See information below for specifics for each option.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Electrical Engineering Technology Concentration Associate of Applied Science (A.A.S.)
The Electrical Engineering Technology concentration emphasizes both theory and practical applications in applied electrical engineering technology. Graduates have a diversified understanding of modern methods and insight in comprehending new and future developments. Applied mathematics, physics, and liberal arts courses support comprehensive electrical technology studies. Laboratory experiments coordinate with classroom theory to provide practical hands-on learning. Students analyze industrial, commercial, and utility electrical power systems and study electrical and automated control systems with application to processing and manufacturing industries.

Graduates are typically employed as electrical engineering technicians - working with engineering teams; planning, specifying, purchasing, installing, testing, operating, and maintaining electrical systems, equipment, and controls in such important activities as: industrial plant engineering; manufacturing methods and quality assurance; automatic control of complex industrial processes; electrical facilities in building construction; operation and maintenance of electrical and associated equipment; electrical design and specifications and drawing development in professional consulting engineering activities; and electrical power company systems and equipment.

### Electronic Engineering Technology Concentration

#### Associate of Applied Science (A.A.S.)

The Electronic Engineering Technology concentration prepares graduates for various types of occupations involving electronics. The program is broad, rigorous, and comprehensive enough to ensure appropriate competencies in mathematics, physics, communication skills, and electronics. It also provides enough technical electives to allow students to tailor, to some degree, the training toward their future or present employment. Typical areas of emphasis are communications, electronic repair, manufacturing, and field service repair. The student receives extensive hands-on experience in all the electronic courses using equipment now available on the job.

Typical jobs for graduates of this program are:
- customer service technician - installs and maintains various types of electronic equipment with service occasionally provided at the customer site; electronic engineering aide - assists engineers in the design, development, and testing of electronic equipment; industrial maintenance technician - works as an electronic repair technician in large industrial sites; and communications technician - installs and maintains various types of telecommunications, broadcasting, cable television equipment, or other data transmission systems.

## Automated Control Systems Concentration

### Associates of Applied Science (A.A.S.)

Some Technical Courses are offered only on the Cookeville Campus.

Program Information: Cookeville Campus, 931-520-0551 x 110, E-mail: automation@nscc.edu

Note: This concentration has not been accredited by TAC/ABET.

The Automated Control systems concentration of the Electrical Engineering Technology degree prepares students for a career in the field of industrial automation. The program includes instruction in the theory and application of automatic control systems as well as numerous hands-on laboratory experiences using off-the-shelf automation equipment as seen in a typical industrial application. Students will gain an in-depth understanding of programmable control systems such as programmable logic controllers (PLC), programmable motion controllers, process controllers, transducers, and human machine interface (HMI) systems.

Graduates of the program should be able to:

- Create original and modify existing programs for PLCs and other programmable control devices.
- Create functional and usable HMIs on Panelview systems.
- Integrate various off-the-shelf automation products to produce a single complete automated manufacturing system.
- Use software application programs such as CAD/CAM, word processors, and spreadsheet to produce technical documents such as operations manuals, electrical schematics, and technical reports.

### Career Opportunities

- Control systems technician
- Industrial maintenance technician
- Process control technician
- Instrumentation technician

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
The General Technology curriculum allows students flexibility to design a technical specialization of their choice. Students occasionally wish to take courses in a broad range of technologies to enhance their employment potential. Because of the requirements of other technical programs, this flexibility is not always available. Through the General Technology curriculum, students may tailor their educational program to meet their own needs or the needs of present or potential employers. This is done by developing a Program of Study with the General Technology coordinator.

Students who declare this major may prepare themselves for employment in many diverse occupations. The Business and Technology concentrations allow flexibility to tailor a course of study adaptable to occupational areas related to business, health care, information technology, and engineering technologies. Immediately upon election of this degree, the student will meet with the General Technology Coordinator to plan an individual course of study that will meet the student’s needs and culminate in an Associate of Applied Science degree.

Credits for technical courses in this program may be obtained in a variety of ways such as the following:

- Transfer of credits obtained in a Technical Certificate program at NSCC or another community college.
- A diploma in an appropriate field obtained at one of the Tennessee Technology Centers can be used to fulfill some of the technical credits required.
- Prior work experience can be assessed and if appropriate, credit may be granted for that experience according to nationally recognized standards.

**Transfer/Advising**

The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

**Electives**

All electives must be approved by the General Technology Coordinator and should include courses selected to meet the specific objective of the student.

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Occupational Therapy Assistant

Associate of Applied Science (A.A.S.)

Contact Information: Donna Whitehouse, MHA, OTR/L 615-353-3708, Office: W-51,
E-mail: donna.whitehouse@nscc.edu

The Occupational Therapy Assistant Program prepares students for a career in Occupational Therapy. The program includes academic and fieldwork training over a two-year course of study. This program trains students to work with persons of varied ages, cultures, and abilities to enable participation in life activities.

Graduates of the program will:

- Work under the supervision of a Registered Occupational therapist to implement intervention plans for persons of varied ages, cultures and abilities, enabling participation in life activities.
- Interact with health care providers and OT clients in a professional and meaningful manner.
- Be eligible for certification through the National Board of Certification for Occupational Therapy.

Admission Requirements:
Prospective students may contact the Occupational Therapy Assistant Program at 615-353-3708 for an application packet and course information. Currently, students are accepted into the program Fall semester of each year.

Note: Prospective students will be required to provide a copy of a background check. NSCC does not use the background check as criteria for admission to the program. Background checks are required by some clinical sites as a condition of participation. Students are required to participate in a variety of clinical experiences to successfully complete the program. If a student has questions regarding the background check, please call 615-353-3708.

Total Required – Associate’s Degree 70

Accredited by:
Accreditation Council for Occupational Therapy Education (ACOTE)
4720 Montgomery Lane, Bethesda, MD 20814
Phone: 301-652-2682, Fax: 301-652-7711, TDD: 800-377-8555
www.aota.org, Email: accred@aota.org

Level II Fieldwork may be in a location outside of Middle Tennessee area, requiring the student to relocate for one (8 weeks) or both (16 weeks) fieldwork experiences.
Office Administration: Administrative and Medical

Associate of Applied Science Degree (A.A.S.)
Contact Information: Program Office 615-353-3400, Email: office.admin@nscc.edu
Accredited by the Association of Collegiate Business Schools and Programs (ACBSP), 7007 College Blvd., Suite 420, Overland Park, Kansas 66211

The mission of the Office Administration program at Nashville State Community College is to better the community by equipping students with the office skills necessary to become productive and responsible leaders in today’s workplace.

The Office Administration program provides skills for students seeking a career as an administrative assistant in an office environment. Two distinct tracks allow future professionals to focus career preparation toward the business office environment or the medical office environment.

The Administrative Concentration of the program builds proficiency with the leading office software packages as well as develops the skills of transcription, business English and communication, and accounting.

The Medical Concentration provides students with clerical and coding skills useful in hospitals, physicians’ offices, nursing homes, and insurance companies.

Graduates of this program should be able to:
• Perform office tasks using the leading office application software for word processing, database, presentations, spreadsheets, desktop publishing, web design, scheduling, and coding.
• Apply time management skills effectively by managing multiple projects and priorities.
• Play a vital role in a successful management team as an administrative assistant.
• Succeed in various positions in today’s multi-demanding and rapidly changing medical environment.
• Efficiently prepare business documents according to commonly accepted grammar and format standards.
• Effectively integrate information from multiple sources that allows for appropriate decision-making.
• Apply basic concepts, demonstrate critical thinking when analyzing problems, develop alternatives, and implement solutions.
• Exhibit responsible behavior and demonstrate an understanding of the principles of ethical behavior.
• Apply information and logical, critical, ethical, and creative processes to identify problems, evaluate alternative solutions, and make decisions.

Career Opportunities

Administrative Concentration
• Transcriptionist
• Receptionist
• Office Manager
• Administrative Assistant

Medical Concentration
• Transcriptionist
• Coding Specialist
• Reimbursement Insurance Specialist
• Administrative Assistant
• Receptionist
• Office Manager

Administrative Concentration
Students may receive credit for the Certified Professional Secretary exam. After an individual has completed 15 credit hours in the Office Administration program, certain credits are available based on verification of successful completion of the Certified Professional Secretary exam. Information and course equivalencies for the Certified Professional Secretary Exam can be found on pages 17–18 of this catalog. For more information on this exam, please visit the International Association of Administrative Professionals (IAAP) Website.

Students who have successfully completed Microsoft® Office Specialist (MOS) tests in the versions of Microsoft® Word, Excel®, PowerPoint®, and Access™ currently being taught may be eligible for credit for these courses. An advisor should be contacted.

Medical Concentration
Many students pursue advanced credentials as Certified Coding Associates, Certified Coding Specialists, Certified Professional Coders, and Certified Medical Transcriptionists. These exams are offered by the American Association for Medical Transcription, American Health Information Association, and American Academy of Professional Coders. NSCC offers assistance to graduates who pursue these credentials. It is recommended that students have at least a 3.0 grade point average before attempting these specialized exams.

The medical concentration has two separate tracks: Coding and Medical Business Technology. Students can choose which track they would like to pursue based upon their career choice within the medical
concentration. A grade of “C” or above must be earned in the following courses: BIOL 1000, BIOL 1004, OAD 2600, OAD 2610, OAD 2620, OAD 2630, OAD 2635, OAD 2645, OAD 2650, and OAD 2660.

For students with keyboarding skills, an examination to receive credit can be taken. If students successfully pass the examination, credit will be given for OAD 1120 Keyboarding/Speedbuilding. To be eligible for Credit by Examination in Office Administration, a student:

- Must be currently enrolled in classes at NSCC.
- Must meet any prerequisite requirement established for the course for which the exam is requested.
- May not pursue Credit by Examination for OAD 1010, 1220, 2230, 2250, 2260; for these courses successful completion of the Microsoft® Office Specialist (MOS) exam will be required in place of the Credit by Examination.
- Must apply for and complete the examination within the period beginning the first day of early registration and ending seven calendar days from the first day of class of the current term; exams will be given by appointment.

**Transfer/Advising**
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Note: Courses should be taken in the sequence indicated in order to ensure graduation on schedule.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.

---

**Nashville State**
The Police Science program prepares individuals for careers in police administration. Graduates of the degree program will have the skills and knowledge to seek employment in the criminal justice field, including law enforcement, private security, and crime scene investigation. The program provides the education and training needed for entry-level personnel and advancement opportunities for those presently employed in the criminal justice field. The Police Science program offers concentrations in Police Administration and Crime Scene Investigation.

Graduates of the program should be able to:

- Function completely as entry-level law enforcement personnel.
- Apply critical thinking skills in solving community problems, generating community-oriented solutions.
- Conduct criminal investigations and apply criminal law and procedures.
- Demonstrate a knowledge of officer survival, defensive tactics and proper use of firearms.

**Career Opportunities**
- Police Officer
- Sheriff's Deputy
- Highway Patrolman
- Private Investigator
- Crime Scene Technician
- Private Security Officer

**Transfer/Advising**
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.
### RECOMMENDED FULL-TIME SCHEDULE

Police Science Academy
Provided by the Law Enforcement Department

This 10-week certificate program fulfills all the training goals of a certified law enforcement academy. Students receive over 400 hours of intense police training. All instruction is provided by current police instructors or experts in the police field. Individuals with ambitions to become a Law Enforcement Officer or anyone currently serving in a security capacity will benefit from the hands-on training.

Successful completion of this program will earn the student 23 semester hours, 21 of which can be applied toward an A.A.S. degree in Police Science. All courses are co requisite. Candidates for the Academy are advised to prepare themselves physically prior to beginning classes. Certain physical standards must be met in order to graduate. A medical evaluation is mandatory prior to entering the program. All instructional and classroom materials are provided. Expenses will include tuition, a mandated uniform, a firearm plus ammunition, and physical training attire.

Sign Language Interpreting
Associate of Applied Science (A.A.S.)
Contact Information: Forest Sponseller 615-353-3033, Office: W-50D, E-mail: forest.sponseller@nscc.edu

American Sign Language interpreting is a complex process in which the primary goal is to provide equal access of information for Deaf, Hard of Hearing, and Non-deaf individuals. Sign language interpreters must be fluent in American Sign Language, English, and English-based signed systems. In addition, interpreters must possess a complete understanding of Deaf Culture, social and psychological dynamics, ethical considerations and effective cross-cultural interpretations in a variety of settings.

Graduates of the program should be able to:

• Demonstrate competencies in American Sign Language and English interpretations and transliterations.

• Understand the Registry of Interpreter for the Deaf Code of Ethics, theories, principles and business practices related to the field of interpreting.

• Display proficiency in the written and practical testing process for certification.

• Seek employment in entry-level positions within the field.

Career Opportunities
Sign Language Interpreting is a rapidly expanding field in which qualified interpreters can work in a variety of settings: education, business, community, medical, social services, mental, health, legal, performing arts, and video relay interpreting.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Social Services
Associate of Applied Science (A.A.S.)
Contact Information: Sheri Lozier-Bentley 615-353-3350, Office: K-108-D, E-mail: sheri.lozier-bentley@nscc.edu

Social Services prepares students to work with human service agencies that serve children and youth, the elderly and disabled, the homeless, families in need, and individuals in crisis situations. The program includes theoretical and practical components that will enable graduates to work in many areas of public and private social welfare agencies.

Graduates of the program should be able to:
• Understand the values of perspectives of Social Work as outlined in the NASW Code of Ethics.
• Recognize and understand the importance of community resources and be able to make appropriate referrals, including follow-up procedures.
• Identify the knowledge, values and skills of a generalist social work practice that are useful in a broad range of Social Work interventions.
• Demonstrate the problem-solving process with diverse populations and populations at risk.

Admission Requirements
Prospective students must meet regular degree-seeking admission requirements for the A.A.S. degree.

Field Practicum: Students who wish to register for the SOCS Field Practicum must contact their advisor for permission to enroll in the course. Before registering in the Field Practicum, students must have completed 30 hours of Major Core Courses.

Grading Policy
A grade of “C” or above must be earned in all Social Services courses prior to graduation.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Part-time Schedule: Many students may wish to enroll in the Social Services program on a part-time basis. Students are encouraged to enroll in at least two semester courses each semester (including summer) in order to complete the degree in approximately four years.

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Mission Statement
The Visual Communications program promotes a creative learning environment where students have access to state of the art equipment, current software, instruction, and strong technical foundations in a variety of visual media fields. They are challenged to expand and refine problem-solving skills while experiencing realistic class projects and job situations in preparation for success in the workforce.

Notice of Right to Retain Student Work
The Visual Communications program reserves the right to retain certain selected examples of student work for teaching purposes, promotional purposes, and as a part of its permanent collection.

Graphic Design Concentration
The Graphic Design Concentration includes theory of traditional design in the evolving computer environment for illustration, image manipulation, and electronic publishing.

Graduates of the program should be able to:
- Demonstrate knowledge of typography and design.
- Apply principles of color and value relationships.
- Convey an intended message through visual means.
- Demonstrate working knowledge of industry standard software.

Career Opportunities
- Production Artist
- Entry-level Graphic Designer
- Printing Customer Service Representative

Special Requirements
Students without basic computer and/or typing skills are encouraged to complete OAD 1120 Keyboarding/Speedbuilding and/or COM 1210 Electronic Media I prior to enrollment in other computer courses.

Grading Policy
A grade of “C” or above must be earned in all courses to meet prerequisite and graduation requirements.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Multimedia Design Concentration

The Multimedia specialization in the Visual Communications degree program prepares students for employment in the field of multimedia development for online and physical media distribution. The program includes fundamental principles of design, production methods in desktop audio and video, post-production, and Web authoring.

Graduates of the program should be able to:
• Effectively communicate design requirements
• Use critical thinking to develop a coherent design approach
• Integrate audio, visual, and programmatic components into a finished presentation
• Output the finished presentations to a variety of file formats for diverse media distribution.

Career Opportunities
• Multimedia Designer/Developer
• Interactive Content Specialist
• Media Specialist

**Web Design Concentration**
The Web Design Concentration prepares students for employment in the field of Web design. The program includes fundamental principles of design, production techniques for Web graphics and Web page content, and strategies for effective site development. Some of the courses in this program help students prepare for CIW industry certification testing. Elective courses allow students to specialize in advanced Web design topics.

Graduates of the program should be able to:

- Think critically to plan the structure and navigation of a Web site.
- Create and employ Web graphics.
- Create Web pages using either HTML or industry Web page software.
- Determine the usability of Web site prototypes through hands-on testing.

**Career Opportunities**
- Web Designer
- Web Developer
- Web Graphics Artist
- Web Production Specialist

**Special Requirements**
Students without basic computer and/or typing skills are encouraged to complete OAD 1120 Keyboarding/Speedbuilding and/or COM 1210 Electronic Media I prior to enrollment in other computer courses.

**Grading Policy**
A grade of “C” or above must be earned in all courses to meet prerequisite and graduation requirements.

**Transfer/Advising**
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

**Notice of Right to Retain Student Work**
The Visual Communications program reserves the right to retain certain selected examples of student work for teaching purposes, promotional purposes, and as a part of its permanent collection.

Nashville State
Community College
Computer-Aided Drafting
Technical Certificate
Contact Information: Program Office 615-353-3475, E-mail: CAD@nscc.edu

Computer-Aided Drafting is used in all technical fields with good pay and a high demand for those individuals with this skill. Nashville State offers a one-year Technical Certificate program in Computer-Aided Drafting, using AutoCAD software.

Career Objective
The Computer-Aided Drafting Technical Certificate is for students who want a technical career but who also want to enter the job market quickly. Students choose the field in which they want to work — Architectural, Civil & Construction Engineering Technology, Electrical & Electronic Engineering Technology, or Horticulture/Landscaping. Then students take the courses listed below, including two courses related to the chosen field. Very quickly students will be ready for Nashville State’s Career Employment Center to help them find jobs in their chosen field. There may even be part-time jobs available after students’ first semester, allowing them to enter the workforce even faster.

Most classes are available either day or evening, and students can choose to attend school, either full or part time. All of the courses in this certificate program apply toward Nashville State’s A.A.S. degrees in General Technology, and are transferable to many other colleges.

Transfer/Advising
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

EETH 1405 Digital Electronics Lab 0 2 1

Horticulture/Landscaping
HORT 1010 Intro to Horticulture 2 2 3
HORT 1110 Landscape Plant Materials I 2 2 3
HORT 1120 Landscape Design 2 2 3
Culinary Arts education prepares students for careers as chefs and culinary professionals in a variety of hospitality businesses. The program includes a core of culinary arts courses which develop cooking skills and provide instruction in purchasing, cost control, sanitation, nutrition, and supervision.

Graduates of the program will be able to demonstrate:

- The ability to think creatively and work effectively in team environments within a kitchen production facility.
- Competency in food production cooking methods including hot and cold foods, and basic baking.
- A working knowledge of culinary theory and terms, and the ability to operate within a kitchen production facility.
- Knowledge of nutrition principles, menu writing, cost and inventory control, and safety and sanitation principles.

Career Opportunities

- Line cook
- Pastry cook
- Prep cook
- Catering cook

Related Information

NSCC Culinary Arts program offers courses in Sanitation, Nutrition, and Supervisory Management which meet the ACF education requirements for certification in these areas.

Grading policy for Culinary Arts Majors

A grade of “C” or above must be earned in all Culinary Arts courses prior to graduation.

Transfer/Advising

This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Internship Requirements

Students must complete one 300-hour paid work internship in an approved culinary arts production kitchen prior to completing the requirements for an A.A.S. degree in Culinary Arts.

Early Childhood Education
Technical Certificate
Contact Information: Program Office 615-353-3020, E-mail: early.childhood@nscc.edu

The Technical Certificate in Early Childhood Education prepares the student for employment in the field of child care and early education. Students who received their CDA (Child Development Associate) Credential through TECTA (Tennessee Early Childhood Training Alliance) are given an opportunity to strengthen their skills and knowledge in curriculum development for young children and receive necessary credits for CDA renewal.

Graduates of the program should be able to:

- Promote child development and learning of young children.
- Build family and community relationships.
- Identify and conduct themselves as members of the early childhood profession.

Admission Requirements
Students must meet regular technical certificate admission requirements.

Career Opportunities
- Teacher
- Caregiver

Clinical Practicum Courses I and II
Students who wish to register for any clinical practicum course should contact their advisor for information about clinical requirements prior to enrolling.

Grading Policy
A grade of “C” or above must be earned in all Early Childhood courses prior to graduation. The student majoring in Early Childhood Education must receive a “C” or above in each course in order to meet prerequisite requirements for subsequent courses.

Transfer/Advising
Most students who have already completed coursework through TECTA support for their CDA have only (9-11) additional credits to complete for the technical certificate. All of the courses in this certificate apply toward Nashville State’s A.A.S. degree in Early Childhood Education.

The Entrepreneurship Certificate is designed to offer students the opportunity to focus on various entrepreneurial aspects of business. Instruction in the areas of planning, managing, marketing, accounting, and supervising are emphasized. The certificate provides students with a basis to enter the small business environment.

Graduates of this certificate program should be able to:

- Demonstrate an understanding of entrepreneurial alternatives such as startup, buyout, and franchising.
- Demonstrate an understanding of the role and activities of entrepreneurship in a global setting.
- Write a business plan.

**Career Opportunities**

- Small business owner
- Small business manager

**Transfer/Advising**

This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.
The Horticulture curriculum prepares students for a variety of employment opportunities in the Green Industry. The program includes technical knowledge and hands-on skills, learning to implement a variety of horticultural tasks, and instruction in high quality service that meets the standard of the industry.

Graduates of the program should be able to:

- Identify and appropriately use landscape materials.
- Design and construct residential, and recreational landscapes.
- Maintain residential, commercial and recreational landscapes.
- Identify and control plant pests and diseases, including the proper use of pesticides.
- Learn management techniques to operate a horticultural business.

**Career Opportunities**

- Landscape Designer
- Landscaper (installation, maintenance)
- Arborist
- Turfgrass Manager
- Nurseryman
- Retail Sales
- Horticultural Consultant
- Pest Control

**Transfer/Advising**

This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Industrial Automation

Technical Certificate (The Automation program is taught primarily on Nashville State’s Cookeville campus)

Contact Information: Sam Garner, 931-520-0551 Ext. 110; E-mail: sam.garner@nscc.edu
Tim Dean, 931-520-0551 Ext. 104, E-mail: tim.dean@nscc.edu

This certificate was designed as an extension of the Industrial Electrical Maintenance Certificate or for industrial electrical technicians who wish to expand their knowledge in the employment and application of the microcomputer in the field of automatic control systems.

This certificate concentrates on the setup and programming of intelligent devices used in servomechanisms and in process controls. The laboratory equipment is industrial grade, and lab experiments are designed to give students a replica of real world projects.

Applicants must have a fundamental knowledge in AC and DC circuits, theory and operation and AC and DC machines, motor controls, and basic PLC programming. Students lacking that knowledge should enroll in one or more of the following courses as coordinated with an advisor:
- IMC 1150 - DC and AC Circuits
- IMC 2100 - Electrical Machine/Controls
- IMC 2150 - Control Applications
- IMC 2200 - Programmable Logic Controllers

All of the courses in this certificate apply toward Nashville State’s A.A.S. degrees in General Technology.

Transfer/Advising

This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
This comprehensive certificate program offers excellent preparation for a career in the maintenance of large electrical and manufacturing systems. It includes an appropriate amount of necessary theory explaining “why” while placing a strong emphasis on the actual equipment and operation of large and critical electrical power systems. The program covers electrical, as well as associated electronic, hydraulic, and pneumatic equipment and applications.

Graduates of this program should be able to:

- Operate and maintain equipment and systems supporting modern manufacturing.
- Effectively troubleshoot and repair industrial electrical equipment and facility systems.
- Effectively work in teams to solve complex electrical system problems.
- Operate programmable logic controller (PLC) systems.

**Career Opportunities**
- Plant maintenance technician
- Power plant operator/maintenance technician
- Plant electrician
- On-call service technician

**Transfer/Advising**
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Music Technology
Technical Certificate
Contact Information: Wayne Neuendorf, 615-353-3653, Office: C-106, E-mail: wayne.neuendorf@nscc.edu
Eric Richardson, 615-353-3467, Office: C-156B, E-mail: eric.richardson@nscc.edu

The mission of the Music Technology program is to provide a well-rounded curriculum of music-related technical, creative, and business courses designed to prepare students for a variety of employment opportunities within the music industry.

The Music Technology Technical Certificate is designed to prepare students for entry-level opportunities in the recording and music industries. The requirements for earning the technical certificate may be fulfilled in one year.

Graduates of the program should possess the ability to:

- Demonstrate proficiency with typical professional recording equipment and computer systems.
- Demonstrate an understanding of the terminology and operations of the music and recording industries.
- Apply critical thinking skills to resolve challenges in the workplace.
- Function competently in entry-level music business and recording/audio positions.
- Work effectively with others in a creative team environment.

Career Opportunities
- Recording Engineer/Studio Operator
- Music Publisher
- Songwriter
- Independent Record Label Operator
- Producer
- Mastering Engineer

Transfer/Advising
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

COURSE REQUIREMENTS
Note: Any 10 Music Technology courses fulfill the required 30 credit hours to earn the Technical Certificate.

Total Certificate Requirements 30

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Photography
Technical Certificate
Contact Information: Program Office 615-353-3390, E-mail: photo.tech@nscc.edu

This technical certificate prepares students for employment in the field of Photography. The program provides students with a basic knowledge of traditional camera and darkroom skills as well as preparing them to work in studio and digital settings.

Graduates in the program should be able to:
• Efficiently operate a 35mm camera
• Function competently in an entry level lab and/or studio position
• Demonstrate working knowledge of digital imaging computer programs
• Approach photographic problem solving in a creative manner

Career Opportunities
• Photographer
• Photographer’s Assistant
• Lab Technician

Grading Policy
A grade of C or above must be earned in all courses to meet prerequisite and graduation requirements.

Transfer/Advising
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Notice of Right to Retain Student Work
The Visual Communications program reserves the right to retain certain selected examples of student work for teaching purposes, promotional purposes, and as a part of its permanent collection.

Note: Part-time students are encouraged to consult with their advisor for a suggested schedule of classes.

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Surgical Assisting
Technical Certificate

Accreditation: Accreditation for Surgical Assisting (SASA) and Commission on Accreditation of Allied Health Education Programs (CAAHEP)

Contact Information: Debbie Bessent 615-353-3331, Department Office: A-67, E-mail: debbie.bessent@nscc.edu

Surgical Assisting education prepares surgical technologists for advanced practice employment in a variety of surgical settings. The program includes two semesters of classroom and one semester of lab work, usually on Saturdays, followed by two or three semesters in the clinical settings mastering the basic skills taught the first semester. In the final semesters, a minimum of 40 cases each of General Surgery, Orthopedic Surgery, and Specialty Surgery must be completed.

Graduates of the program should be able to:

• Demonstrate concern for the patient’s well-being as the highest priority at all times and function as a professional member of the surgical team at all times.

• Demonstrate knowledge of the surgical anatomy, pathophysiology, anesthesia course, pre- and post-operative management, and expected outcomes relevant to a variety of surgical procedures.

• Demonstrate proficiency in patient positioning, providing visualization of the operative site, assist with hemostasis, participate in autotransfusion techniques as appropriate, assist with closure of body planes, select and apply appropriate dressings, and assist in securing drainage systems to tissue.

Admission Requirements

• Must submit a Program Application as well as an Admissions application.

• Must be CST certified or eligible to sit for certification if a Surgical Technologist. If an RN, must have CNOR or be eligible to sit for certification.

• Must submit official transcripts to Admissions department.

• Must establish placement by transfer credit, college entrance exam scores, or campus placement testing.

• Must complete a panel interview.

• Selection will be based on a composite admission score.

Transfer/Advising

This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

NOTE: Students entering the Program will be required to provide a copy of a criminal background check. NSCC does not use the background check as criteria for admission to the program. Background checks are required by some clinical sites as a condition of participation. Students are required to participate in a variety of clinical experiences to successfully complete the program. If a student has questions regarding the criminal background check, please call 615-353-3735.

Surgical Technology

Technical Certificate

Accredited by Accreditation Review Committee on Education in Surgical Technology (ARCST, www.arcst.org, 303-694-9262) and the Commission on Accreditation of Allied Health Education Programs (CAAHEP, www.caahep.org, 727-210-2350)

Contact Information: Van Bates 615-353-3708, Office: A-67, E-mail: van.bates@nscc.edu

Surgical Technology education prepares students for employment a variety of surgical settings. The program includes extensive classroom time as well as practical experience preparing Surgical Technologists for all major specialties in the operating room.

Graduates of the program should be able to:

• Recognize elements of good patient care and prioritize them before less important elements in the operating room.
• Behave professionally in a stressful environment with demanding personalities while remaining calm and focused.
• Accurately plan for and perform duties of a Surgical Technologist in the scrub role in common surgical specialties.

Admission Requirements

• Must submit a Program Application as well as an Admissions application.
• Must have High School Diploma or GED.
• Must submit official transcripts to Admissions department.
• Must establish placement by transfer credit, college entrance exam scores, or campus placement testing.
• Must complete a panel interview.
• Selection will be based on a composite admission score consisting of points from, Panel Interview, GPA, related work experience, courses taken toward program, and Tennessee residency.

All of the courses in this certificate apply toward Nashville State’s A.A.S. degree in General Technology.

Transfer/Advising

This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

NOTE: Prospective students will be required to provide a copy of a background check. NSCC does not use the background check as criteria for admission to the program. Background checks are required by some clinical sites as a condition of participation. Students are required to participate in a variety of clinical experiences to successfully complete the program. For questions regarding the background check, please call 615-353-3708.

</table>
This comprehensive certificate program offers the student the opportunity to develop the skills necessary to begin a career in the Web Development industry. This program is designed to introduce the student to the variety of skills necessary to create dynamic Web content and transaction-based Web systems. In the initial courses, the student is introduced to HyperText Markup Language (HTML), Cascading Style Sheets for formatting of Web sites, use of HTML editing and Web site development tools, and the concepts of Web site hosting and domain name registration. The student then progresses to more advanced development courses, covering Web scripting on the Client and on the Server, and developing Web systems that interact with databases. Some of the courses in this program will help the students prepare for the CIW industry certification exams.

Within a framework that emphasizes the development of teamwork, communication, and critical thinking, the student will be able to:

- Identify and understand the supporting role of Web Development in organizations.
- Communicate effectively with stakeholders/management and end-users regarding problem requirements, resources, and solutions.
- Demonstrate the ability to analyze, develop and implement various web-based processes and applications.
- Create and maintain Web applications through programming, scripting and/or server administration.

**Grading Policy**
A student within this program must receive a “C” or above in each course in order to meet prerequisite requirements for subsequent courses.

**Transfer/Advising**
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Web Page Authoring
Technical Certificate
Contact Information: David Weilmuenster 615-353-3415, E-mail: david.weilmuenster@nscc.edu

Web Page Authoring is a one-year certificate designed to qualify students for an entry-level job in Web Page Authoring. All courses are available via the Web, requiring students to attend campus only occasionally to take proctored exams. If it is not possible for you to travel, you must contact your instructor to make arrangements for proctored exams. Some courses are also available on-site in a traditional classroom.

Online courses offer an asynchronous learning environment; students participate in class activities such as bulletin board discussions at different times of day and different days of the week. However, please note that the courses are not “self-paced.” Weekly participation is required to avoid being dropped from the course.

Graduates of the program should be able to:

• Write HTML code to create a Web page with graphics and styled text.
• Create and incorporate graphics which have been optimized for speedy transmission.
• Design Web pages for ease of use and navigation.
• Upload Web site pages to a server.
• Understand legal issues as they apply to the Web.

Admission Requirements
Web Page Authoring is an online degree program and students must have a computer and Internet access. Students are expected to have a basic familiarity with computers and the Web. Visit http://www.nscc.edu/orient/web.html for additional information about hardware and software standards and to determine whether online learning is right for you.

Career Opportunities
• Web Production Artist
• Web Graphics Artist
• Continuing in the program via the other participating colleges will qualify students for higher-level jobs in the field of Web Design.

Transfer/Continuation
The Technical Certificate in Web Page Authoring at NSCC represents the first year of studies in a four-year program. Students may continue their studies to earn an Associate of Applied Science degree at Pellissippi State Technical Community College and/or a Bachelor's degree through a partnership with Tennessee Technological University. All four years of studies are offered online and allow you to participate from home.

Students who are interested in this field may also wish to consider a Visual Communications Associate's degree from NSCC with a concentration in Web Design. Students may also apply all of the courses in this certificate toward NSCC's A.A.S. degree in General Technology.

Total Certificate Requirements 24

* Students desiring to continue their education are encouraged to take ENGL 1010 English Composition I, MATH 1530 Probability/Statistics, and a Humanities Elective in addition to the required courses listed above.
Associate of Arts and Associate of Science

2007

Nashville State Community College
General Education

Effective Fall Semester 2004, each institution in the State University and Community College System of Tennessee (The Tennessee Board of Regents System) will share a common lower-division general education core curriculum of forty-one (41) semester hours for baccalaureate degrees and the Associate of Arts and the Associate of Science degrees. Lower-division means freshman and sophomore courses. The courses comprising the general education curriculum are contained within the following subject categories:

**Baccalaureate Degrees and Associate of Arts and Associate of Science Degrees**

<table>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>41</strong></td>
</tr>
</tbody>
</table>

* Foreign language courses are an additional requirement for the Associate of Arts (A.A.) and Bachelor of Arts (B.A.) degrees. Six hours of foreign language are required for the A.A. degree and twelve hours are required for the B.A.

** Six hours of English Composition and three hours in English oral presentational communication are required.

*** Students who plan to transfer to Tennessee Board of Regents (TBR) universities should take six hours of United States History (three hours of Tennessee History may substitute). Students who plan to transfer to University of Tennessee System universities or to out-of-state or private universities should check requirements of those institutions and take the appropriate courses.

Although the courses designated by Tennessee Board of Regents (TBR) institutions to fulfill the requirements of the general education subject categories vary, transfer of the courses is assured through the following means:

Upon completion of an A.A or A.S. degree, the requirements of the lower-division general education core will be complete and accepted by a TBR university in the transfer process.

If an A.A. or A.S. is not obtained, transfer of general education courses will be based upon fulfillment of complete subject categories. (Example: If all eight hours in the category of Natural Sciences are complete, then this “block” of the general education core is complete.) When a subject category is incomplete, course-by-course evaluation will be conducted. The provision of block fulfillment pertains also to students who transfer within TBR universities.

Institutional/departmental requirements of the grade of “C” will be honored. Even if credit is granted for a course, any specific requirements for the grade of “C” by the receiving institution will be enforced.

In certain majors, specific courses must be taken also in general education. It is important that students and advisors be aware of any major requirements that must be fulfilled under lower-division general education.

Courses designated to fulfill general education by Nashville State Community College are published on pages 120–121 of this catalog. A complete listing of the courses fulfilling general education requirements for all system institutions is available on the TBR Web site (www.tbr.state.tn.us) under Transfer and Articulation Information.

**General Education Competencies**

These competencies prepare students for success in employment and in pursuit of additional education. The curriculum of all majors will integrate and reinforce the competencies, although specific applications will vary among majors.

Graduates of Nashville State degree programs will be able to:

1. Write clear, well-organized documents;
2. Locate, evaluate, and use multiple sources of information;
3. Prepare and deliver well-organized oral presentations;
4. Participate as team members and team leaders;
5. Apply mathematical concepts to problems and situations;
6. Use critical thinking skills;
7. Use and adapt current technologies;
8. Appreciate cultural diversity and the influence of history and culture; and
9. Apply scientific thought processes to a range of situations.
Nashville State Technical Community College offers the courses listed below as part of the TBR Common General Education Core for A.A. and A.S. degrees. Students who complete the A.S. or A.A. degree can transfer the entire core to a TBR university. However, only these courses apply to the TBR Common General Education core.

**A.A. Additional Requirement =**  
Two semesters of same college-level foreign language

**A.A.S. Additional Requirement =**  
1 additional course from categories of Communications, Humanities/Fine Arts, Social/Behavioral Science, or Natural Science/Mathematics
Students planning to earn a baccalaureate degree at a four-year college or university can complete their first two years at Nashville State Community College and receive an Associate of Science (A.S.) or Associate of Arts (A.A.) degree. The primary goal of these degrees is to prepare students to successfully pursue the baccalaureate degree.

Nashville State Community College develops transfer agreements with area universities, and copies of these agreements are available in the Student Services Building. Tennessee State University has a full-time advisor available in Student Services to help transfer students. An Austin Peay advisor makes regular visits to the Nashville State campus.

**Associate of Science Degree** ..............................
**Associate of Arts Degree** .............................

**Required Hours: 60**

**General Education Requirements:** ..........................41 Hours

- **English Composition:** .................................6 hours
- **English Oral Presentation Communication:** ........3 hours
- **Literature:** .................................................3 hours
- **Humanities and/or Fine Arts:** ..........................6 hours
- **Social/Behavioral Sciences:** ..........................6 hours
- **History:** ....................................................6 hours
- **Natural Sciences lab course:** ...........................8 hours
- **Mathematics:** .............................................3 hours

**Area of Emphasis**

Courses in the intended baccalaureate major: .................................19 hours

Foreign language courses are an additional requirement for the A.A. and B.A. degrees at Tennessee Board of Regents’ Universities.

To maximize transferability, students should identify and consult with the University to which they intend to transfer as early as possible.

**Associate of Science Degree**

**Associate of Arts Degree**

**Areas of Emphasis**

Lists of recommended courses for these university majors are listed on the following pages.

- American Sign Language
- Art (Studio)
- Biology
- Biotechnology
- Business and Information Systems
- Chemistry
- Child Development and Family Relations
- Communication Studies
- Computer Science
- Construction Management
- Criminal Justice
- Early Childhood Education
- Elementary Education
- English
- French (A.A. Only)
- General Studies (RODP)
- Geography
- Health Information Management
- History
- Horticulture
- Mathematics
- Medical Technology
- Music
- Philosophy
- Physical Education
- Physics
- Political Science
- Pre-Engineering
- Pre-Law
- Pre-Nursing
- Psychology
- Secondary Education
- Social Work
- Sociology
- Spanish (A.A. Only)
- Special Education
Areas of Emphasis

The A.A. and A.S. degrees are designed for students who plan to transfer into baccalaureate degrees after graduation from Nashville State. If the transfer institution is known, the student should contact that institution and follow its requirements. If the transfer institution is not known, the Nashville State courses listed below are recommended as part of the 60 credit hours required for graduation. Students should select an area of emphasis in the intended university major. The courses below are suggested and do not represent requirements for any specific university.

American Sign Language

In addition to the General Education Core, these courses are recommended:
- ASL 1002 Fingerspelling (2 hours)
- ASL 1010 Foundations of Deafness (3 hours)
- ASL 1110 American Sign Language I (3 hours)
- ASL 1120 American Sign Language II (3 hours)
- ASL 1130 American Sign Language III (3 hours)
- ASL 2300 American Sign Language IV (3 hours)

Art (Studio)

In addition to the General Education Core, these courses are recommended:
- ART 1121 Drawing I (3 hours)
- ART 1122 Drawing II (3 hours)
- ART 1132 Design (3 hours)
- ART 2221 Painting I (3 hours)
- ART 2131 Art History Survey I (3 hours)
- ART 2132 Art History Survey II (3 hours)
- ART 2222 Painting II (3 hours)

Biology

In addition to the General Education Core, these courses are recommended:
- BIOL 2230 Microbiology (4 hours)
- CHEM 1110 General Chemistry I (4 hours)
- CHEM 1120 General Chemistry II (4 hours)
- Extra hour from General Education Math (0-1 hour*)

Science Electives (choose from below) (6-7 hours)
- CHEM 2010 Organic Chemistry I (4 hours)
- CHEM 2020 Organic Chemistry II (4 hours)
- BIOL 2230 Microbiology (4 hours)
* If the mathematics course for general education is four hours, the extra hour is included in the Area of Emphasis.

Biotechnology

In addition to the General Education Core, these courses are recommended:
- BIOT 1010 Biotechnology Applications (3 hours)
- BIOT 2020 Applied Biochemistry (4 hours)
- BIOT 2050 Industry & Applied Microbiol (4 hours)
- BIOT 2060 Protein Bioseparations (4 hours)
- BIOT 2070 Cell Culturing (4 hours)
- BIOL 1110 General Biology I (4 hours)
- BIOL 1120 General Biology II (4 hours)
- BIOL 2230 Microbiology (4 hours)

Business & Information Systems

In addition to the General Education Core, these courses are recommended:
- ACCT 1104 Principles of Accounting I (3 hours)
- ACCT 1105 Principles of Accounting II (3 hours)
- ECON 1111 Principles of Macroeconomics (3 hours)
- ECON 1121 Principles of Microeconomics (3 hours)
- MATH 1830 Concepts of Calculus (3 hours)

Chemistry

In addition to the General Education Core, these courses are recommended:
- PHYS 2010 Calculus Based Physics I (4 hours)
- PHYS 2020 Calculus Based Physics II (4 hours)
- CHEM 2010 Organic Chemistry I (4 hours)
- CHEM 2020 Organic Chemistry II (4 hours)
- Extra hour from General Education Math (1 hour)

Child Development & Family Relations

In addition to the General Education Core, these courses are recommended:
- ECED 1010 Intro to Early Childhood Educ (2 hours)
- ECED 2010 Safe, Healthy, Learning Env (3 hours)
- ECED 2015 Early Childhood Curriculum (3 hours)
- ECED 2020 Infant, Toddler, Child Dev (3 hours)
- ECED 2030 Infant and Toddler Care (3 hours)
- ECED 2040 Fam Dynamics & Conn Involve (3 hours)
- ECED 2060 Dev of Exceptional Children (3 hours)
- ECED 2070 Development Assessment (3 hours)
- ECED 2090 Creative Development (3 hours)
- ECED 2120 Admin of Child Care Centers (3 hours)

Communication Studies

In addition to the General Education Core, these courses are recommended:
- SPCH 1112 Fundamentals of Speech Comm (3 hours)
- THEA 1020 Introduction to Theater (3 hours)
- SPCH 2111 Interpersonal Skills (3 hours)
- SPCH 2215 Voice and Diction (3 hours)
Computer Science

In addition to the General Education Core, these courses are recommended:
- CS 1170 Computer Science I 3 hours
- CS 2170 Computer Science II 3 hours
- MATH 1910 Calculus & Analytical Geom I 4 hours
- Programming/Science Electives 3 hours
- CIS 1010 Intro Information Technology 3 hours
- CIS 1030 Program Logic and Design 3 hours

Construction Management

In addition to the General Education Core, these courses are recommended:
- CIT 1220 Materials/Methods Construction 3 hours
- CIT 1230 Testing of Materials 2 hours
- CIT 2110 Structural Mechanics 3 hours
- CIT 2131 Surveying I 4 hours
- CIT 2400 Structural Design 3 hours
- MATH 1910 Calculus & Analytical Geom I 4 hours

Criminal Justice

In addition to the General Education Core, these courses are recommended:
- PST 1000 Intro to Criminal Justice 3 hours
- PST 1010 Criminal Law & Procedure 3 hours
- PST 2010 Criminal Investigation 3 hours
- PSCI 1050 Survey of Physical Science 3 hours
- PSYC 1111 Intro to Psychology 3 hours
- POLI 1111 Intro to Political Science 3 hours

Early Childhood Education

In addition to the General Education Core, these courses are recommended:
- ECED 1010 Intro to Early Childhood Educ 2 hours
- ECED 2015 Early Childhood Curriculum 3 hours
- ECED 2020 Infant, Toddler, Child Dev 3 hours
- ECED 2030 Infant and Toddler Care 3 hours
- ECED 2040 Fam Dynamics & Comm Involve 3 hours
- ECED 2060 Dev of Exceptional Children 3 hours
- ECED 2070 Development Assessment 3 hours
- ECED 2090 Creative Development 3 hours
- ECED 2120 Admin of Child Care Centers 3 hours
- PHED Physical Education Activity Course 1 hour

Elementary Education

In addition to the General Education Core, these courses are recommended:
- EDUC 210 Survey of American Lit II 3 hours
- EDUC 2110 Educational Psychology 3 hours
- EDUC 2120 Intro to Special Education 3 hours
- POLI 2100 American National Government 3 hours
- MATH 1410 Math for Elem Education I 3 hours
- MATH 1420 Math for Elem Education II 3 hours
- GEOL 1110 Earth Science 4 hours

English

In addition to the General Education Core, these courses are recommended:
- ENGL 2110 Survey of American Lit I 3 hours
- ENGL 2120 Survey of American Lit II 3 hours
- ENGL 2210 Survey of British Lit I 3 hours
- ENGL 2220 Survey of British Lit II 3 hours
- ENGL 2310 Survey of World Lit I 3 hours
- ENGL 2320 Survey of World Lit II 3 hours
- ENGL 2133 Ethnic Lit: the United States 3 hours
- ENGL 2140 Introduction to Cinema 3 hours

French (A.A. Only)

In addition to the General Education Core, these courses are recommended:
- FREN 1010 French I 3 hours
- FREN 1020 French II 3 hours
- FREN 2010 French III 3 hours
- FREN 2020 French IV 3 hours

General Studies (RODP)

This area of emphasis articulates with the Bachelors of Interdisciplinary Studies at the University level through the Regents Online Degree Program (RODP). Go to www.rodp.org

Geography

In addition to the General Education Core, these courses are recommended:
- GEOG 1020 World Regional Geography II 3 hours
- GEOG 1010 World Regional Geography I 3 hours
- HIST 1120 World Civilization II 3 hours
- HIST 1110 World Civilization I 3 hours
- GEOG 1020 World Regional Geography II 3 hours
- GEOG 1010 World Regional Geography I 3 hours
- are recommended:

Health Information Management

In addition to the General Education Core, these courses are recommended:
- ACCT 1104 Principles of Accounting I 3 hours
- ECON 1121 Principles of Microeconomics 3 hours

History

In addition to the General Education Core, these courses are recommended:
- HIST 1110 World Civilization I 3 hours
- HIST 1120 World Civilization II 3 hours
- HIST 2030 Tennessee History 3 hours
- POLI 1111 Intro to Political Science 3 hours
- GEOG 1010 World Regional Geography I 3 hours
- GEOG 1020 World Regional Geography II 3 hours

Nashville State
Horticulture

In addition to the General Education Core, these courses are recommended:

- HORT 1010 Intro to Horticulture.................................3 hours
- HORT 1110 Landscape Plant Materials I........................3 hours
- HORT 1150 Soils and Fertilizers................................3 hours
- HORT 1120 Landscape Design......................................3 hours
- HORT 1310 Horticultural Pesticides.............................3 hours
- BIOL 2211 General Botany...........................................4 hours

Mathematics

In addition to the General Education Core, these courses are recommended:

- MATH 1920 Calculus & Analytic Geom II......................4 hours
- MATH 2110 Calculus & Analytic Geom III.....................4 hours
- MATH 2120 Differential Equations..............................3 hours

The following course definitely transfers to some universities and may transfer to other universities. It is strongly recommended that students verify transferability with the receiving university:

- MATH 2120 Differential Equations..............................3 hours

Medical Technology

In addition to the General Education Core, these courses are recommended:

- BIOL 1110 General Biology I.....................................4 hours
- BIOL 1120 General Biology II....................................4 hours
- CHEM 1110 General Chemistry I.................................4 hours
- CHEM 1120 General Chemistry II...............................4 hours
- MATH 1720 Trigonometry..........................................3 hours

Music

In addition to the General Education Core, these courses are recommended:

- MUS 1010 Materials of Music.....................................3 hours
- MUS 1014 Class Voice................................................1 hour
- MUS 1020 Freshman Music Theory I............................3 hours
- MUS 1025 Freshman Aural Skills I...............................3 hours
- MUS 1021 Freshman Music Theory II...........................3 hours
- MUS 1026 Freshman Aural Skills II.............................3 hours
- MUS 1040 Class Guitar...............................................1 hour
- MUS 1307 Campus Choir.............................................1 hour
- MUS 2020 Sophomore Music Theory I.........................3 hours
- MUS 2021 Sophomore Music Theory II........................3 hours
- MUS 2025 Sophomore Aural Skills I...........................3 hours
- MUS 2026 Sophomore Aural Skills II...........................3 hours
- MUS 2111 Hist Pop Music for Mus Majors....................3 hours

Philosophy

In addition to the General Education Core, these courses are recommended:

- PHIL 1030 Introduction to Philosophy........................3 hours
- PHIL 1000 Critical Thinking......................................3 hours
- PHIL 1111 Introduction to Ethics.................................3 hours
- PHIL 2300 Ethics in Medicine....................................3 hours
- PHIL 2021 Philosophy in Movies.................................3 hours
- PHIL 2200 World Religions........................................3 hours

Physical Education

In addition to the General Education Core, these courses are recommended:

- PHED 1010 Intro to Health & Wellness.......................3 hours
- PHED 2130 Intro to Physical Education......................3 hours
- PHED 2510 Community Health.................................3 hours
- BIOL 1215 Principles of Nutrition............................3 hours

Physics

In addition to the General Education Core, these courses are recommended:

- MATH 1920 Calculus & Analytic Geom II......................4 hours
- MATH 2110 Calculus & Analytic Geom III.....................4 hours
- MATH 2120 Differential Equations..............................3 hours
- CHEM 1110 General Chemistry II...............................4 hours

* It is recommended that students take MATH 1910, Calculus & Analytic Geom I as their math requirement.

Political Science

In addition to the General Education Core, these courses are recommended:

- POLI 1111 Intro to Political Science...........................3 hours
- POLI 2101 American National Government....................3 hours
- HIST 1110 World Civilization I................................3 hours
- HIST 1120 World Civilization II................................3 hours
- HIST 2030 Tennessee History....................................3 hours
- GEOG 1010 World Regional Geography.......................3 hours

Pre-Engineering

In addition to the General Education Core, these courses are recommended:

- ENGT 1000 Intro to Engr Technology..........................3 hours
- CAD 1200 Computer-Aided Drafting I........................3 hours
- ENGR 2100 Statics....................................................3 hours
- ENGR 2200 Dynamics................................................3 hours
- MATH 1920 Calculus & Analytical Geom II...................4 hours
- MATH 2110 Calculus & Analytical Geom III..................4 hours
- CHEM 1110 General Chemistry I...............................4 hours
- CHEM 1120 General Chemistry II.............................4 hours
- CIT 1220 Materials/Methods Construction....................3 hours
- CIT 1230 Testing of Materials..................................3 hours

Courses should be selected by the student in consultation with advisors at the college or university that they wish to transfer to.

Pre-Law

Association of American Law Schools does not recommend a specific pre-law curriculum.

A.A. and A.S. Degree Areas of Emphasis
Pre-Nursing

In addition to the General Education Core, these courses are recommended:

- PSYC 1111 Intro to Psychology .................................. 3 hours
- PSY 2111 Psy of Human Growth & Dev.......................... 3 hours
- BIOL 2010 Anatomy and Physiology I .......................... 4 hours
- BIOL 2020 Anatomy and Physiology II ........................ 4 hours
- BIOL 2230 Microbiology ............................................. 4 hours

Psychology

In addition to the General Education Core, these courses are recommended:

- PSYC 1111 Intro to Psychology .................................. 3 hours
- PSYC 1115 Psychology of Adjustment ............................ 3 hours
- PSYC 2111 Psy of Human Growth & Dev.......................... 3 hours
- PSYC 2112 Social Psychology ....................................... 3 hours
- PSYC 2120 Child & Adolescent Development ................. 3 hours
- PSYC 2125 Abnormal Psychology ................................... 3 hours
* For additional recommended courses, please see your advisor.

Secondary Education

In addition to the General Education Core, these courses are recommended:

- EDUC 2010 Foundations of Education .......................... 3 hours
- EDUC 2110 Educational Psychology .............................. 3 hours
- EDUC 2120 Intro to Special Education ........................... 3 hours
- PSYC 2111 Psy of Human Growth & Dev.......................... 3 hours
- PSYC 1111 Intro to Psychology .................................. 3 hours
- SOCI 1111 Intro to Sociology ...................................... 3 hours

Choose specific courses in major teaching area. Consult the catalog of the transfer college.

Social Work

In addition to the General Education Core, these courses are recommended:

- SOCS 1010 Intro to Social Work ................................. 3 hours
- SOCS 1020 Human Behavior Social Environ .................. 3 hours
- SOCS 2055 Soc Work Interviewing Skills ...................... 3 hours
- SOCI 1112 Social Problems ........................................... 3 hours
- SOCI 2112 Marriage and Family ................................... 3 hours
- ECON 1111 Principles of Macroeconomics .................... 3 hours

Sociology

In addition to the General Education Core, these courses are recommended:

- SOCI 1111 Intro to Sociology ...................................... 3 hours
- SOCI 1112 Social Problems ........................................... 3 hours
- SOCI 1120 Intro to Cultural Anthropology .................... 3 hours
- SOCI 2112 Marriage and Family ................................... 3 hours
- SOCI 2113 Social Psychology ........................................ 3 hours
- PSYC 2111 Psy of Human Growth & Dev.......................... 3 hours

Spanish (A.A. Only)

In addition to the General Education Core, these courses are recommended:

- SPAN 1010 Spanish I .................................................. 3 hours
- SPAN 1020 Spanish II .................................................. 3 hours
- SPAN 2010 Spanish III ............................................... 3 hours
- SPAN 2020 Spanish IV ............................................... 3 hours
- SPAN 2025 Conversational Spanish ............................... 3 hours

Special Education

In addition to the General Education Core, these courses are recommended:

- EDUC 2010 Foundations of Education .......................... 3 hours
- ECED 2020 Infant, Toddler, Child Dev ........................... 3 hours
- ECED 2110 Educational Psychology .............................. 3 hours
- PHED 1010 Intro to Health & Wellness .......................... 3 hours
- MATH 1410 Math for Elem Education I .......................... 3 hours
- MATH 1420 Math for Elem Education II .......................... 3 hours
- PHED Physical Education Activity Course ..................... 1 hour
- EDUC 2120 Intro to Special Education ........................... 3 hours
  or
- PSYC 2111 Psy of Human Growth & Dev.......................... 3 hours

Nashville State
Elementary Education
Associate of Science in Teaching (A.S.T.) K-6 Curriculum
Contact Information: Program Office 615-353-3020, E-mail: elementary.education@nscc.edu

The Associate of Science in Teaching (A.S.T.) degree is designed as a transfer degree for students who wish to pursue a career in elementary education, teaching children in kindergarten through sixth grade in public and private schools. The graduate with an A.S.T. degree will have completed the first two years of a four-year degree required for teacher certification in elementary education in Tennessee. Students who earn the A.S.T. can transfer to any of the six Tennessee Board of Regents universities for their junior and senior years and are prepared to apply for acceptance into the university’s teacher education program.

Graduates of the program should be able to:

• Transfer to a four-year university to earn a degree in elementary education.
• Meet requirements for admission into teacher education programs for K-6 licensure.

Admission Requirements
Students must meet regular degree-seeking admission requirements for the Associate of Science degree.

Graduation Requirements
To earn the A.S.T. degree, the student must:

• Successfully complete the required course of study as outlined in the catalog.
• Attain a 2.75 cumulative grade point average.
• Successfully complete the Praxis I Exam.
• Receive a satisfactory rating on an index of suitability for the teaching profession.

Transfer/Advising
Students should consult frequently with their advisors to insure completion of all requirements for this degree. Failure to do so could result in a loss of credits in the transfer process.

Nashville State
Community College
Accounting

ACCT 1010
Survey of Accounting
3 Credits 3 Class Hours
A study of accounting meant for persons who intend to own and/or operate their own business. Topics include an emphasis on the use of financial statement information rather than the creation of them and the financial implications of business decisions on a day-to-day basis. While there will be some general accounting information such as debits and credits and preparing financial statements, the majority of this course will focus on understanding accounting information and how it is useful to both internal and external users. Note: This course does not substitute for ACCT 1104.

ACCT 1104
Principles of Accounting I
3 Credits 3 Class Hours
An introduction to basic principles of accounting theory and practice. Topics covered include accrual basis accounting, the accounting cycle, preparation of financial statements for both service and merchandising business enterprises, and internal controls. Other topics include accounting for cash, receivables, payroll, inventories, fixed assets, and current liabilities. Prerequisite: DSPM 0850

ACCT 1105
Principles of Accounting II
3 Credits 3 Class Hours
A continuation of ACCT 1104. Topics include accounting for corporate entities, long-term investments and liabilities, statement of cash flows, financial statement analysis, job order and process cost systems, cost-volume-profit analysis, budgeting and performance analysis. Prerequisite: ACCT 1104 with a grade of “C” or higher

ACCT 2200
Payroll Accounting
4 Credits 4 Class Hours
A course designed to cover the payroll procedures and laws that affect payroll operations and employment practices. Students are required to complete all payroll operations for a business including payroll tax returns. Students will also complete a payroll project using payroll software. Prerequisites: ACCT 1104 and AIS 1181 with a grade of “C” or higher

ACCT 2154
Intermediate Accounting I
4 Credits 4 Class Hours
The course is an in-depth study of the conceptual framework of accounting theory and the preparation of financial statements and financial disclosures. Topics include income measurement and profitability analysis, time value of money, cash and receivables, measurement and valuation of inventory and cost of goods sold. Prerequisites: ACCT 1105 and AIS 1181 with a grade of “C” or higher

ACCT 2164
Intermediate Accounting II
4 Credits 4 Class Hours
A continuation of ACCT 2154. Topics include accounting for debt and equity financing, acquisition, utilization and retirement of non-current assets, investments in debt and equity securities, lease accounting, earnings per share, financial reporting and analysis, and accounting changes and error corrections. Prerequisite: ACCT 2154 with a grade of “C” or higher

ACCT 2350
Taxation
3 Credits 3 Class Hours
An introduction to Federal Income Taxation. Topics include individual and corporate tax law and preparation of returns with emphasis on individual returns. Prerequisite: ACCT 1105 with a grade of “C” or higher

ACCT 2380
Accounting System Applications
3 Credits 2 Class Hours, 2 Lab Hours
A course designed to set up and maintain an accounting system using popular commercial microcomputer accounting software. The steps in the accounting cycle from entering transactions through closing are applied in a computerized environment. Topics include setting up a chart of accounts, sales and purchases transactions, inventory, and payroll transactions. Prerequisites: ACCT 1010 or ACCT 1104 with a grade of “C” or higher and knowledge of basic computer fundamentals

ACCT 2600
Spreadsheet Applications
3 Credits 2 Class Hours, 2 Lab Hours
An overview of spreadsheet applications with emphasis on accounting and business making decisions using a popular spreadsheet package. Topics include creating and developing professional looking worksheets, creating charts, working with lists, integrating spreadsheets with other programs and the World Wide Web, using financial functions, creating data tables, using built-in analysis and decision-making tools, and enhancing the worksheet for ease of use. Prerequisites: ACCT 1105 and AIS 1181 with a grade of “C” or higher

ACCT 2740
Auditing
4 Credits 4 Class Hours
An introduction to auditing. The course emphasizes the traditional role of the attest function and rendering of an opinion on published financial statements. Topics covered include generally accepted auditing standards (GAAS), the auditors report (opinion), professional ethics, audit evidence, planning the audit, use of ratios in detecting fraud or material misstatement, internal control, and audit procedures by specific account. Prerequisite: ACCT 1105 with a grade of “C” or higher

ACCT 2840
Database Applications
4 Credits 4 Class Hours
A course designed to apply the concepts of the accounting information system within a relational database. A popular database program is used to create tables, forms, queries, and reports. Critical thinking and creative design skills are also emphasized. Prerequisites: AIS 1181 and ACCT 1105 with a grade of “C” or higher

ACCT 2900
Accounting Capstone
4 Credits 4 Class Hours
A capstone course required for all accounting majors. Topics include managerial use of financial data, analysis of financial statements, and ethics. An exit exam will be administered as a means of assessing program outcomes and will include topics from courses included in the accounting curriculum. This course should be taken during the last semester before graduation. Prerequisites: ACCT 2154, ACCT 2200, ACCT 2380, ACCT 2740, and ACCT 2600 with a grade of “C” or higher Corequisites: ACCT 2164, ACCT 2350, and ACCT 2840
Architectural, Civil and Construction Engineering Technology

ACT 1161
Residential Drafting and Const
4 Credits 2 Class Hours, 6 Lab Hours
An introductory course in the basics of light construction systems with an emphasis on construction elements, sizes, weights, spacing, function and construction documents. Topics include footings and foundations, material weights, structural elements, platform and balloon frame construction, drilling and notching, stairway design, chimney foundations, lettering sizes, architectural symbols, and dimensioning systems. The student will develop preliminary drawings, prepare construction drawings on AutoCAD and build a study model for a small residence. Prerequisites: CAD 1200 and ENGT 1150 or equivalent skills

ACT 1341
Commercial Drafting and Codes
3 Credits 1 Class Hour, 6 Lab Hours
An intermediate level course continuing elements of ACT 1161 while focusing on building code applications and construction detailing in the design development process through preparation of code-conforming construction drawings. Topics include drawing coordination, symbols, layout, and notations; construction detailing; building area; construction use and type; egress, occupant load and accessibility issues. The student will prepare construction drawings on AutoCAD and construct a study model for a small commercial building. Prerequisites: ACT 1161 and CAD 1301

ACT 1391
History of Architecture
3 Credits 5 Class Hours
An introductory course in the history of current architectural and construction practices. Topics include tracing the development of construction techniques through historical periods, identification features and characteristics of construction during these periods, ancient architecture, the development of western architecture through the Renaissance and Baroque periods, and the Modern and Post-Modern developments in contemporary architecture.

ACT 2123
Architectural Presentations
2 Credits 6 Lab Hours
A graphic presentation course focusing on presentation skills, software and techniques in the Architectural, Civil and Construction fields. Applications are intended to reach the creative abilities of students and equip them with marketable skills currently used in the building design and construction industry. Topics include the principles and tools of architectural presentation graphics, the use of several software packages including AutoCAD®, Adobe Illustrator®, Adobe Photoshop®, Adobe InDesign® and 3D MAX®. Students must have a working knowledge of AutoCAD® and basic computer knowledge to accomplish the goals of this course. Students will make a portfolio of their best work, arranged to demonstrate their skills and talents. Prerequisite: CAD 1301 or CAD 2113

ACT 2160
Building Utilities
3 Credits 3 Class Hours
An advanced level course designed to familiarize the student with elements of the Standard Plumbing Code, Mechanical Codes, and National Electrical Code. Topics include plumbing, mechanical and electrical symbols approved for drawings; definitions; minimum facilities; abbreviations; standard locations and sizes; minimum and maximum requirements; selected proper installations; estimate of loads; and required services. The student solves practical problems in the layout and design of selected utilities for a single- or multi-family dwelling, a commercial location, and an industrial or a specialized location. Prerequisites: ACT 1161 and MATH 1730

ACT 2242
Architectural Design Process
3 Credits 1 Class Hour, 5 Lab Hours
An advanced level course utilizing problem-based case study technique while continuing elements of ACT 1341 and focusing on the architectural design process. Topics include teamwork; architectural programming; adjacency matrices; bubble diagrams; site analysis; schematic design; modeling and presentation procedures. Using current drawing and presentation mediums, students will prepare and formally present a set of deliverables including a program, an adjacency matrix, a bubble diagram, a site analysis, a schematic design, and a model. Prerequisites: ACT 1341

ACT 2440
Specifications & Estimating
3 Credits 2 Class Hours, 2 Lab Hours
An advanced level course that provides instruction in owner/contractor/architect-engineer responsibilities, construction document relationships, the bidding process, contracts, and quantity estimating. Topics include the General Conditions of the Contract for Construction; estimate types; contracts; the CSI format; bonds and insurance; specifications and bidding; estimating procedure, overhead, labor and equipment; and the preparation and calculation of quantity surveys. Prerequisites: CIT 1220 and CIT 2110

Accounting
Information Systems

AIS 1180
Intro to Microcomputing
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to microcomputing tasks and terminology. Topics include input and output, storage, memory, the CPU, and the Windows operating system. Hands-on experience is gained in working with Windows, managing files, managing disks, and exploring the Internet.

AIS 1181
Business Software Applications
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the use of microcomputer software in the business environment. Applications include word processing, spreadsheets, data base, and presentation software. It is recommended that Computer Accounting majors complete AIS 1180 before taking AIS 1181. Prerequisites: DSPR 0800, DSPR 0800

Automotive Technology

AMT 1100
GM Automotive Service
2 Credit Hours 1 Lecture Hour, 2 Lab Hours
An introductory course in shop operations, customer relations, flat rate manuals, safety, organizational design, pay structure, equipment, tools, and basic operational theories as applied to General Motors dealerships. Topics include the proper use of hand tools, measuring instruments, equipment; service procedures for lubrication, batteries, the cooling system, wheels and tires; and new car pre-delivery service. Prerequisite: DSPR 0850 or equivalent skills

</tr>
</tbody>
</table>
AMT 2240
GM Automatic Transmissions II
3 Credit Hours  2 Lecture Hours, 3 Lab Hours
A continuation of AMT 2130. Topics include transmission rebuilding on GM vehicles with emphasis on in-service automobile repair. Prerequisite: AMT 2130

AMT 2245
Automatic Transmissions II
3 Credit Hours  2 Lecture Hours, 3 Lab Hours
A continuation of AMT 2135. Topics include transmission rebuilding with emphasis on in-service automobile repair. Prerequisite: AMT 2135

AMT 2290
GM Automotive Computer Sys.
3 Credits  2 Class Hours, 3 Lab Hours
An introduction to automotive digital systems and microprocessors. Topics include the study of the on-board GM computers used to regulate, monitor, and control various systems of the vehicle. Prerequisite: AMT 1290

AMT 2295
Automotive Computer Sys
3 Credits  2 Class Hours, 3 Lab Hours
An introduction to automotive digital systems and microprocessors. Topics include the study of the on-board computers used to regulate, monitor, and control various systems of the vehicle. Prerequisite: AMT 1295

Art (Studio)

ART 1121
Drawing I
3 Credits  3 Class Hours
An introduction to the basic principles and materials of drawing. Materials include pencil, charcoal, inks, and conte. Topics include a disciplined approach to landscape and figure drawing while exploring realistic and abstract styles, model drawings, landscape drawings, and still life drawings. Note: Students must purchase art supplies.

ART 1122
Drawing II
3 Credits  3 Class Hours
A continuation of Drawing I. Topics include concepts of the drawing media that involve color: soft or oil pastel, colored inks, and colored pencil. Emphasis is placed on the concepts involved in experimental drawing. Note: Students must purchase art supplies. Prerequisite: ART 1121

ART 1132
Design
3 Credits  3 Class Hours
An introduction to a variety of art materials, to basic principles of design (movement, rhythm, and balance), and to the art elements and their uses in art (line, tone, color, space, and texture). Note: Students must purchase art supplies.

ART 2131
Art History Survey I*
(Honors Option Offered)  3 Credits  3 Class Hours
A survey of art history that provides students with the opportunity to see how history and art are interwoven from prehistoric times to the Middle Ages. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills. ART 2131 meets the general education requirement for Humanities. * This course is part of the general education core.

ART 2132
Art History Survey II*
(Honors Option Offered)  3 Credits  3 Class Hours
A continuation of Art History Survey I that provides the opportunity to see how history and art are interwoven from the Renaissance to Modern times. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills. ART 2132 meets the general education requirement for Humanities. * This course is part of the general education core.

ART 2221
Painting I
3 Credits  3 Class Hours
An introduction to the fundamentals in the art of painting. Topics include fundamentals of visual representation with design and the materials involved in the making of paintings. Note: Students must purchase art supplies. Prerequisites: ART 1121 and ART 1132

ART 2222
Painting II
3 Credits  3 Class Hours
A continuation of Art 2221 in which a variety of media is explored: watercolor, gouache, acrylic, oil paint, and mixed media. Fundamental skills are emphasized and used as the foundation for more advanced techniques. Note: Students must purchase art supplies. Prerequisites: ART 1121, ART 1132, ART 2121

Sign Language Interpreting

ASL 1002
Fingerspelling
2 Credits  2 Class Hours
A study of manual dexterity, techniques in expressive lexical output, receptive continuity, the use of ASL number systems, foreign phrases, and topical terminology. Improves both receptive and expressive fingerspelling.

ASL 1003
Introduction to Interpreting
3 Credits  3 Class Hours
An introduction to basic theories, principles and practices of interpreting. Topics include the responsibilities and role of the interpreter, environments in which interpreters will be involved, and assessments within the profession. Emphasizes professionalism in interpreting through the observance of ethical standards.

ASL 1010
Foundations of Deafness
3 Credits  3 Class Hours
An overview of deafness, relevant definitions, etiology, history of deafness and deaf education, and the Deaf community and culture.

ASL 1110
American Sign Language I
3 Credits  3 Class Hours
An introduction to basic vocabulary and grammatical aspects of American Sign Language (ASL). Topics include language development, current research, and resources pertaining to Deaf Culture. Student interaction with Deaf and Hard of Hearing individuals is encouraged.

ASL 1120
American Sign Language II
3 Credits  3 Class Hours
A continuation of ASL 1110 with further vocabulary development and understanding of ASL grammar. Prerequisite: ASL 1110
American Sign Language III
ASL 1130
3 Credits 3 Class Hours
A continuation of ASL 1120 with emphasis on increasing vocabulary and the ability to communicate conversationally. Includes exposure to over 650 additional ASL vocabulary words, formal ASL structure, and conversational interactions. Prerequisites: ASL 1110 and ASL 1120

American Sign Language IV
ASL 2300
3 Credits 3 Class Hours
An overview of specific terminology used in various settings: educational, medical, legal, and performance. In preparation for interpreting and transliterating environments, students utilize advanced receptive and expressive skills. Prerequisites: ASL 1110, ASL 1120, and ASL 1130

Interactive Interpreting I
ASL 2110
3 Credits 1 Class Hour, 2 Lab Hours
An introduction to the development of ASL interpreting. Topics include vocabulary, text analysis, linguistic development, and study of the interpreting process. Prerequisites: ASL 1003, ASL 1010, ASL 1110, ASL 1120, and ASL 1130

Interactive Interpreting II
ASL 2120
3 Credits 1 Class Hour, 2 Lab Hours
A continuation of ASL 2110, with emphasis on advanced techniques and principles for specific interpreting environments. Provides an opportunity for students to increase their ASL expressive skills. Prerequisite: ASL 2110

Contact Signing I
ASL 2210
3 Credits 3 Class Hours
An introduction to various transliterating systems: Pidgin Signed English (PSE), Signing Exact English (SEE), and other coding systems. Students gain the ability to discriminate between ASL interpretations and varying degrees of English transliterations and learn to distinguish the appropriate context for utilizing each signed system. Prerequisites: ASL 1003, ASL 1010, ASL 1110, ASL 1120, and ASL 1130

Contact Signing II
ASL 2220
3 Credits 3 Class Hours
A continuation of ASL 2210, this course furthers vocabulary and skill development in Contact Signing for various settings: educational, legal, medical, and performance. Emphasis on transliterating skills in preparation for the Registry of Interpreters for the Deaf: Certificate of Transliteration exam. Prerequisite: ASL 2210

Sign-to-Voice I
ASL 2310
3 Credits 3 Class Hours
An introduction to consecutive sign language interpreting (sign-to-voice, voice-to-sign). Topics include a theoretical analysis of the interpreting process, reinforcement of prerequisite language, and development of the higher level of skills. Prerequisites: ASL 1110 and ASL 1120

Sign-to-Voice II
ASL 2320
3 Credits 3 Class Hours
A continuation of ASL 2310 with emphasis on advanced skill development and knowledge of simultaneous interpreting and transliterating skills. Prerequisite: ASL 1003, ASL 1010, ASL 1110, ASL 1120, and ASL 1130

Working with the Deaf-Blind
ASL 2400
3 Credits 3 Class Hours
Introduces students to the various aspects of the Deaf-Blind community. Students will develop an understanding of cultural norms and various communication modes exhibited within the community. The role of the Service Support Provider (SSP) and techniques of Deaf-Blind interpreting will be studied and practiced via community involvement with instructor guidance.

Interpreting Practicum
ASL 2500
4 Credits 4 Class Hours
An opportunity to observe the interpreting process in various professional work situations in order to gain awareness of community agencies and resources. Students will schedule regular observation hours; practicum experiences take place during school/ work hours and require a minimum of four hours per week. Prerequisites: ASL 1002, ASL 1003, ASL 1010, ASL 1110, ASL 1120, and ASL 1130

Interpreting Internship
ASL 2600
4 Credits 4 Class Hours
An opportunity for advanced level interpreting students to gain work experience, practical application of the role of professional service providers, and an introduction to the duties and responsibilities of interpreters in the community. The internship will be under the observation and supervision of experienced professional interpreters and addresses specific vocabulary and ethical factors in a variety of interpreting settings. Prerequisite: ASL 2500

Solar System Astronomy*
ASTR 1010
4 Credits 3 Class Hours, 3 Lab Hours
An introductory course in the astronomy of our Solar System. Topics include the history of astronomy, astronomical coordinates, Newton’s Laws, gravitation, properties of light, kinds of telescopes and their uses, the Sun, planets, asteroids, comets, and other interplanetary objects. Prerequisites: DSPR 0800 and DSPI 0800. * This course is part of the general education core.

Stellar and Galactic Astronomy*
ASTR 1020
4 Credits 3 Class Hours, 3 Lab Hours
An introductory course in the astronomy of stars and galaxies. Topics include the history of astronomy, astronomical coordinates, Newton’s Laws, gravitation, properties of light, kinds of telescopes and their uses, the Sun, stars, and stellar properties, nebulae, star clusters, galaxies and galactic distributions, pulsars, quasars, neutron stars, black holes, and cosmology. Prerequisites: DSPR 0800 and DSPI 0800. * This course is part of the general education core.

Medical Terminology
BIOL 1000
5 Credits 3 Class Hours
Medical terms, abbreviations and definitions with associated anatomy. Topics include roots, prefixes, and suffixes commonly used in the medical field and terminology related to body systems and disorders.

Basic Anatomy/Physiology
BIOL 1004
5 Credits 3 Class Hours
An introduction to human anatomy and physiology. Topics include the cell, and organ systems including integumentary, skeletal, muscular, nervous endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive.
BIOL 1006
First Aid and CPR
3 Credits 3 Class Hours
Cardiopulmonary resuscitation and first aid including the use of an Automatic External Defibrillator (AED). Topics include adult and infant CPR (both one-man and two-man), basic first aid and AED use.

BIOL 1010
Intro to Biology I*
(non-science majors only)
4 Credits 3 Class Hours, 3 Lab Hours
An introduction to biology course. Topics include cell structure and function, organic molecules and energy pathways, genetics, evolution, and the principles of ecology. This course does not fulfill the science requirement for biology majors. Prerequisite: DSPR 0800.
* This course is part of the general education core.

BIOL 1020
Intro to Biology II*
(non-science majors only)
4 Credits 3 Class Hours, 3 Lab Hours
A continuation of Intro to Biology I, this course surveys the Kingdoms of life, with particular attention to the animal and plant kingdoms. In the animal kingdom, there is an emphasis on the human organism and its organ systems. In the plant kingdom, there is an emphasis on structure, nutrition, and reproduction. It is strongly recommended that one successfully complete Intro to Biology I (BIOL 1010) before taking this course. This course does not fulfill the science requirement for biology majors. Prerequisite: DSPR 0800.
* This course is part of the general education core.

BIOL 1100
General Biology I*
(science majors only)
4 Credits 3 Class Hours, 3 Lab Hours
A comprehensive course suitable for biology majors and minors. Fulfills the science requirement for pre-medicine, pre-pharmacy, pre-medical technology, pre-dentistry programs. Topics include the unifying principles found in all organisms, their molecular and cellular basis, the mechanisms of heredity, the interrelationships of organisms, and their evolution. Prerequisite: DSPR 0800.
* This course is part of the general education core.

BIOL 1120
General Biology II*
(science majors only)
4 Credits 3 Class Hours, 3 Lab Hours
A continuation of General Biology I and is suitable for biology majors and minors. Fulfills the science requirement for pre-medicine, pre-pharmacy, pre-medical technology, pre-dentistry medicine, and pre-dentistry programs. The Kingdoms of life and representative organisms are discussed, with particular attention to the Kingdoms Animalia and Plantae. Emphasis is placed on the tissues, organs, and physiology of representative members. Prerequisite: BIOL 1110.
* This course is part of the general education core.

BIOL 1215
Principles of Nutrition
4 Credits 3 Class Hours, 3 Lab Hours
A course in human nutrition with emphasis on scientific principles, metabolism, and requirements for nutrients. Topics of interest to those in health care and related professions are stressed. Prerequisite: DSPR 0800 and DSPM 0800.

BIOL 2010
Anatomy and Physiology I*
4 Credits 3 Class Hours, 3 Lab Hours
An intensive course for students interested in health-related fields that will count as a biology elective. Topics include: the skeletal, articular, muscular, nervous, and integumentary systems; cellular chemistry and structure; and histology. Prerequisite: DSPR 0800.
* This course is part of the general education core.

BIOL 2020
Anatomy and Physiology II*
4 Credits 3 Class Hours, 3 Lab Hours
A continuation of BIOL 2010 designed primarily for students interested in health-related fields that will count as a biology elective. Topics include: the cardiac, vascular, hematologic, respiratory, immune, urinary, digestive, reproductive, and endocrine systems. Prerequisite: DSPR 0800 and BIOL 2010.
* This course is part of the general education core.

BIOL 2211
General Botany*
4 Credits 3 Class Hours, 3 Lab Hours
A course in the anatomy, physiology, reproduction and taxonomy of lower to higher plants. Topics include organization of plant cells and tissue systems, morphology, respiration and photosynthesis, genetics, growth and development, environmental factors, nutrition, ecology, and mechanisms of evolution. Prerequisite: DSPR 0800.
* This course is part of the general education core.

BIOL 2230
Microbiology
4 Credits 3 Class Hours, 3 Lab Hours
This is a comprehensive course that stresses applied microbiology and the roles of microbes in health and disease. Topics include microbial structure, growth, metabolism, genetics, ecology, and systematics with emphasis on the pathologies of bacteria, viruses, fungi, and protozoa. Prerequisite: DSPR 0800.

Biotechnology

BIOT 1010
Biotechnology Applications
3 Credits 3 Class Hours
Introduces biotechnology including the scientific basis and historical development and current applications. Quality regulations and standards and the role of the technician in producing quality results are emphasized. Topics include potential hazards and safety procedures associated with biohazards. Prerequisites: DSPR 0800 and DSPM 0700.

BIOT 2020
Applied Biochemistry
4 Credits 3 Class Hours, 3 Laboratory Hours
Introduction to biochemical processes relating to biomolecules that are critical to biology biotechnology. Focuses on nucleic acid metabolism including biosynthesis of nucleotides, chemistry and enzymology of DNA, RNA, and regulatory circuits. Prerequisites: BIOT 1010.

BIOT 2050
Industrial & Applied Microbiol
4 Credits 3 Class Hours, 3 Laboratory Hours
Focuses on the use of microorganisms for commercial processes. Includes: 1) microbial physiology, 2) bioprocessing, and 3) industrial processes. Prerequisites: BIOT 1010.

BIOT 2060
Protein Bioseparations Methods
4 Credits 3 Class Hours, 3 Laboratory Hours
Continuation of BIOT 2020 with emphasis on proteins. Regulation of metabolic processes at the level of amino acid synthesis, protein translation, post-translational modifications and protein stability will be explored. Prerequisites: BIOT 1010.
BIOT 2070
Cell Culturing
4 Credits 1 Class Hour, 6 Laboratory Hours
Provides a basic understanding of the growth requirements and methodologies associated with the propagation of organisms important to the field of biotechnology. Includes basic principles for cultivation of plant and animal cells in the laboratory. **Prerequisite: BIOT 1010**

**Banking**

BNK 1110
Principles of Banking
3 Credits 3 Class Hours
An introduction to banking services and functions, including loans, investments, and trust operations. Topics include basic principles of banking transactions and item processing, focusing on deposit and payment functions of banking, procedures and forms relative to opening accounts, cash and collection item processing, proof operations, paying and returning checks, and bookkeeping functions, internal controls and external regulations. **Prerequisite: DSPR 0800**

BNK 1210
Consumer Lending
3 Credits 3 Class Hours
An introduction to the fundamental principles of extending consumer credit. Topics include studying and practicing taking loan applications, verifying credit histories, evaluating credit reports, making credit decisions, processing and disbursing the loan, and recognizing the importance of collateral, exercises in computing interest charges and rebates, insurance of consumer credit, pricing of loans, collections, and consumer compliance. **Prerequisites: DSPR 0800 and DSPM 0700**

BNK 1215
Commercial Bank Management
3 Credits 3 Class Hours
An introduction to the study and application of principles of bank management. Topics include objectives, planning, structure, control, and the interrelationship of various bank departments, trends that have emerged in philosophy and practice of bank management, and case studies stressing current bank problems. **Prerequisite: DSPR 0800**

BNK 2110
Money and Banking
3 Credits 3 Class Hours
An introduction to basic economic principles most closely related to the subject of money and banking. Topics include the application of the economics of money and banking in the individual bank and in the banking system; the nature and functions of money and the money supply; financial intermediation and the various financial markets; the Federal Reserve System, its policies and operation. **Prerequisites: DSPR 0800 and DSPM 0700**

BNK 2230
Investment Basics
3 Credits 3 Class Hours
Studies basic information on investments in securities, options, commodities, tax shelters, art, and more. Topics include traditional and modern methods of analyzing investment opportunities for the beginning investor, trading in the securities market (using real prices and making their own decisions) by using a special microcomputer software package. **Prerequisites: DSPR 0800 and DSPM 0700 or equivalent skills**

**Business**

BUS 1050
Legal Issues for the Web
3 Credits 3 Class Hours
Studies Internet law and guidelines for putting existing material online. Topics include creating material specifically for the Internet, using material found on the Internet, e-commerce, and educational aspects of the Internet, and the rules that affect business. **Prerequisites: DSPR 0800 and DSPW 0700**

BUS 1113
Intro to Business
3 Credits 3 Class Hours
An introduction to the private enterprise system. Topics covered include forms of business organizations, business finance, human resource management, production, entrepreneurship, business ethics, marketing, and the changing business environment. **Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills**

BUS 1262
Business Insurance
3 Credits 3 Class Hours
Studies the fundamental principles of risk and risk management as they apply to small business. Topics include the nature of risk and risk bearing, how insurance handles risk, and risk management. Course content includes liability, transportation, workman’s compensation, life and health, bonds, fire and marine, and employee benefit plans.

BUS 2111
Organizational Behavior
3 Credits 3 Class Hours
Studies the importance of understanding human relations in the workplace and how interpersonal relationships have evolved in this century from an emphasis on production to an emphasis on developing and utilizing the whole person. Topics include communication, conflict, motivation, power, decision making, and self-esteem. **Prerequisites: DSPR 0800 and DSPW 0700**

BUS 2240
Personal Money Management
3 Credits 3 Class Hours
An introduction to planning personal financial objectives. Topics covered include budgeting, consumer borrowing, renting and buying, insurance, taxation, investing, and planning for retirement. **Prerequisites: DSPR 0800 and DSPM 0700**

BUS 2250
Human Resource Management
3 Credits 3 Class Hours
Studies basic principles of managing human resources. Topics include laws that relate to all aspects of HR function, planning, job analysis, job specifications, employee selection, training and development, performance evaluations, salary determination, benefits, labor relations, and current techniques used to improve productivity and morale. **Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills**

BUS 2310
Business Ethics
3 Credits 3 Class Hours
An introduction to basic ethical theories and value systems. Topics include application of these perspectives including moral issues, problems, and situations which arise within the business environment. Topics include codes of ethics, conflict of interest, social responsibility, the work ethic, and fiduciary responsibilities. **Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills**

BUS 2311
Leadership
3 Credits 3 Class Hours
Studies the nature and attributes of leadership through case studies and biographies. Topics include the difference between leadership ability and management skills as well as identifying traits and abilities which have distinguished effective leaders from ineffective ones. **Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills**

Course Descriptions
BUS 2315
Business Statistics
3 Credits 3 Class Hours
Studies statistical methodology and techniques used to describe, interpret and evaluate statistical data in business. Topics include calculating the principal measures of central tendency and dispersion, probability relationships and distribution, sampling procedures, tests for significance of sampling inferences, and correlation and regression analysis. Computer applications are emphasized. Prerequisite: DSPM 0850

BUS 2400
Principles of Management
3 Credits 3 Class Hours
Studies how a business organization works and the relationships of the people within the organization. Topics include managerial functions, motivation of employees, the decision-making process, communication, responsibility, authority, and personnel management through class discussion and case studies. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 2600
Business Law: Contracts
3 Credits 3 Class Hours
An introduction to the study of law in relation to the proper conduct of business. Topics include the nature and source of law, courts and courtroom procedure, contracts, and sales. There is an emphasis on the elements of contract law including offer, acceptance, consideration and legality. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 2610
Business Law: Property
3 Credits 3 Class Hours
An introduction to the study of law in relation to the proper conduct of business. Topics include debtor-creditor relations, forms of business organization, franchising, securities regulation, property, wills and estates, trusts, international business, and intellectual property. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 2650
Legal Environment of Business
3 Credits 3 Class Hours
An introduction to the legal rights and liabilities of businesses. Topics include the legal environment of business; development and nature of the legal system; ownership, torts and contracts; crimes, torts and product liability, agency and labor laws, consumer protection statutes, regulatory powers, and legislative, judicial, and administrative controls. Prerequisites: DSPR 0800 and DSPW 0700

BUS 2900
Management Applications
3 Credits 3 Class Hours
Integrates the student’s knowledge of the basic functional areas of business into a general strategic perspective for managing the entire organization. Topics include case studies and secondary research sources that will be utilized to analyze a broad range of business problems and managerial decision making. Required: A student must be completing the last semester of studies at Nashville State to enroll in this course. Program Coordinator approval required.

Computer-Aided Drafting

CAD 1200
Computer-Aided Drafting I
3 Credits 1 Class Hour, 4 Lab Hours
An introductory course using the AutoCAD software. Topics include basic elements of computer-aided drafting as it is used in professional practice. The student gains hands-on experience at the computer while working on a variety of drafting exercises in various disciplines. Students will complete this class with entry level computer-aided drafting skills.

CAD 1250
AutoCAD for Industry
3 Credits 1 Class Hour, 4 Lab Hours
An introductory course using the AutoCAD software. Topics include familiarization with computers and the basic elements of computer-aided drafting as it is used in professional practice. The student gains hands-on experience at the computer while working on a variety of drafting exercises in various disciplines. Students will complete this class with entry level computer-aided drafting skills.

CAD 1301
Computer-Aided Drafting II
3 Credits 6 Lab Hours
An intermediate level CAD class designed to follow CAD 1200 with more in-depth drafting exercises using computer-aided drafting software. Topics include advanced features and productivity enhancing techniques. Students will also be introduced to three-dimensional drawing techniques. After completing this class, students will have a more in-depth knowledge of CAD and the techniques used to enhance speed and accuracy, as well as a better understanding of various drafting disciplines. Prerequisite: CAD 1200

CAD 1510
CAD Final Project
2 Credits 2 Class Hours
Final class for a Computer-Aided Drafting Certificate. Students will utilize information obtained from previous classes to present a project of their choice. This project will be a set of commercial grade drawings to be used as a portfolio.

CAD 1600
3D Design/Modeling SolidWorks
3 Credits 4 Class Hours
A “hands-on” learning experience in the methods and use of 3D design using SolidWorks. The students will learn the methods and practices of designing individual components as well as entire assemblies. Modeling, editing, and presentation practices are integral parts of the learning experience along with real world lessons involving the theory and techniques outlined in this class. Prerequisite: CAD 1200 or permission of instructor

CAD 2113
3-D AutoCAD & Solid Modeling
3 Credits 2 Class Hours, 2 Lab Hours
An advanced level course using the AutoCAD software. 3-D drafting techniques are used in all fields of design, and this course provides the student with a very desirable skill. Topics include learning to think in three dimensions, the creation of 3-D objects, as well as standard drafting versus 3-D techniques. Students will complete this course with the ability to design and create 3-D objects, then present them as picture images and design prints. Prerequisite: CAD 1200

Chemistry

CHEM 1010
Intro to Chemistry
3 Credits 3 Class Hours
An introduction to chemical principles and concepts. Topics include properties of matter, elements and compounds, atomic structure, periodic properties, chemical bonding and reactivity, energy relations, organic chemicals and polymers, toxic substances, and environmental chemistry. Prerequisite: DSPM 0800
CHEM 1030
Fundamentals of Chemistry*
4 Credits 3 Class Hours, 3 Lab Hours
An introduction to the fundamental concepts of General, Organic and Biological Chemistry. Topics include measurements, energy and matter, atoms and elements, compounds and their bonds, chemical reactions and quantities, gases, solutions, acids and bases, saturated and unsaturated hydrocarbons, organic compounds, carbohydrates, lipids, amino acids, proteins and enzymes, and metabolic and energy pathways. Prerequisite: DSPM 0800
* This course is part of the general education core.

CHEM 1110
General Chemistry I*
4 Credits 3 Class Hours, 3 Lab Hours
An in-depth study of the fundamental concepts of chemistry. Topics include matter and measurement, atomic and molecular structure, nomenclature, formulas and equations, stoichiometry, aqueous reactions, thermochemistry, periodic trends, molecular geometry, and chemical bonding. Prerequisite: DSPM 0800 (MATH 1130 College Algebra highly recommended)
* This course is part of the general education core.

CHEM 1120
General Chemistry II*
4 Credits 3 Class Hours, 3 Lab Hours
A continuation of CHEM 1110. Topics include gases, solutions, acids and bases, chemical equilibrium, thermodynamics, kinetics, electrochemistry, oxidation and reduction reactions, and an introduction to organic chemistry. Prerequisite: CHEM 1110
* This course is part of the general education core.

CHEM 2010
Organic Chemistry I
4 Credits 3 Class Hours, 3 Lab Hours
A study of carbon compounds, their preparations, structures, nomenclature, properties, and reactions. Topics include alkanes, alkenes, alkynes, cyclo-alkanes, alkyl halides, aromatics, and stereo-chemistry. The lab component stresses skills in synthesis, extraction, purification, separation, and characterization of organic compounds. Prerequisites: CHEM 1120

CHEM 2020
Organic Chemistry II
4 Credits 3 Class Hours, 3 Lab Hours
A continuation of CHEM 2010. Topics include spectroscopy, alcohols, ethers, aldehydes, ketones, carboxylic acids, and amines. The lab component stresses skills in synthesis, extraction, purification, separation, and characterization of organic compounds. Prerequisite: CHEM 2010

Computer Information Systems

CIS 1010
Intro Information Technology
3 Credits 3 Class Hours
An introduction to Information Technology. Topics include historical development, number systems, data representation, hardware, software, computer concepts, networks, databases, the internet, and types of programming languages. Prerequisite: DSPR 0700

CIS 1030
Program Logic and Design
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the basic logic necessary in business applications programming. Topics include logic analysis, techniques of structured design, flowcharting, and a hands-on tool for implementing programming techniques. Prerequisite: DSPR 0800, DSPM 0800

CIS 1040
Business for Information Tech.
3 Credits 2 Class Hours, 2 Lab Hours
Fundamental principles and issues of information technology as an organizational resource. The primary purpose is to provide an awareness of the role of information technology in providing computer-based solutions to business problems. Business process as well as evaluation, selection and acquisition of information technologies will be explored through case studies. Prerequisites: DSPW 0800, DSPR 0800

CIS 1050
Internet Business Foundations
3 Credits 2 Class Hours, 2 Lab Hours
Overview of the theoretical and practical aspects of business on the internet. Topics include job roles, connection methods and protocols, DNS, cookies, and plug-ins. Browsers will be used to download and manage files, defining databases, distinguishing among Web search engines, and conducting basic and advanced Web searches. Students learn to configure e-mail clients and use e-mail and various Internet services and tools, communicate effectively over the Internet, identify Internet security measures, and apply project management concepts and skills to various IT job roles. Corequisites: COM 1000, CNT 1005

CIS 1055
Introduction to Computer Crime
3 Credits 2 Class Hours, 2 Lab Hours
Provides an overview of criminal acts that can be committed with the use of a computer and the Internet, how computer related crimes are committed and how computer related crimes are investigated. The legal issues involved in the prosecution of computer related crimes will also be explored. Prerequisites: DSPW 0800, DSPM 0800, AIS 1180 (with min. grade of C) or permission of the instructor

CIS 1060
Project Management
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to traditional, adaptive, and extreme project management. Topics include: developing project overview statements, work breakdown structures, Gantt charts and project network diagrams. Microsoft Project will be used in applying project management techniques. Case study will reinforce theory and application. Prerequisites: DSPW 0800, DSPR 0800, DSPM 0800

CIS 1070
IT Support Skills
3 Credits 2 Class Hours, 2 Lab Hours
Introduces the students to the basics of delivering support within an organization. The student will learn how to efficiently prepare, accomplish, document, evaluate, and present the research to the customer. Special emphasis is given to customer service soft skills. Prerequisites: DSPW 0800, DSPR 0800, DSPM 0800

CIS 2060
Advanced Project Management
3 Credits 2 Class Hours, 2 Lab Hours
Overview of the theoretical and practical aspects of managing information system projects. Topics include project integration, scope, time, cost, quality, human resource, communication, risk and procurement. Microsoft Project will be used in applying project management techniques. Case study will reinforce theory and application. Prerequisites: CIS 1060 (With a minimum grade of C)
CIS 2180
Adobe Application Development
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the creation of dynamic, database-driven Web applications. Includes Dreamweaver, a Web authoring product to create robust pages, and develop dynamic applications using ColdFusion. Topics include site management, libraries, snippets, extensions, CSS, behaviors, CFML, scope, and charting. Prior knowledge of SQL required. Prerequisite: CIS 2230 (With a minimum grade of C) and [COM 1000 (With a minimum grade of C) or CIS 2170 (With a minimum grade of C)]

CIS 2190
ASP.Net Applications Dev.
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to Web server application programming techniques using Microsoft’s Active Server Page (ASP) .Net technology and the Visual Basic.Net language. Topics include: ASP and IIS concepts, CSS, Web Forms, HTML server controls, ASP WebForm controls, validation, XML control, database stored procedures, bound data controls, database application coding, Web services and mobile applications. Prerequisite: COM 1000 (With a minimum grade of C)

CIS 2215
Basic Programming for Eng Tech
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the Basic programming language. Topics include syntax of the Basic language, flowcharting and pseudocode, logical solutions, documenting solutions, output formatting and simple plotting techniques. Prerequisite: DSPM 0800

CIS 2216
C Language for Eng. Tech.
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the C programming language. Topics include syntax of the C language, flow of control, input and output, arithmetic operations, function definitions and calls, flowcharting, and pseudocode. Prerequisite: DSPM 0800

CIS 2217
Visual Basic.Net
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the Visual Basic.Net programming language. Topics include basic concepts of programming, problem solving, and programming logic, and design techniques of an object-oriented language. Also includes business applications design and implementation, creating graphical user interfaces, objects, properties, values, events, object-oriented design concepts, class modules and database access. Prerequisite: CIS 2270 (With a minimum grade of C)

CIS 2218
Advanced Visual Basic.Net
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of CIS 217. Delves deeper into the object-oriented approach to programming by creating and manipulating class objects and database manipulation using ADO.Net and web design using ASP.Net. Prerequisite: CIS 2217 (With a minimum grade of C)

CIS 2220
Intro to C++ Programming
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the various programming concepts of the C++ language using the Microsoft Visual C++. Net integrated development environment. Includes the basic syntax of the language and object-oriented programming properties such as encapsulation, inheritance, and polymorphism. Hands-on exercises will illustrate the above properties through the design and creation of C++ classes. Prerequisite: CIS 2270 (With a minimum grade of C)

CIS 2230
Database Concepts
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the concepts and syntax of relational database management systems for microcomputers. Topics include data modeling, database design concepts including normalization, and their application through the creation of tables, queries using both QBE and SQL, forms and reports using the tools provided in a relational DBMS. Prerequisite: CIS 1030 (With a minimum grade of C)

CIS 2235
Advanced Database Concepts
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of CIS 2230. Focuses on developing a complete application. Topics include rapid prototyping, building a user interface, advanced SQL queries and stored procedures, database security and accessing a database over the Web. Prerequisites: CIS 2230 (With a minimum grade of C)

CIS 2240
Systems Analysis and Design
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the concepts of Systems Analysis and Design. Topics include designing and prototyping a computerized business solution for the microcomputer platform, system development life cycle, and detailed systems specifications. Time outside of class for team projects will be required. Prerequisites: CIS 2270 (With a minimum grade of C)

CIS 2270
Java Application Development
3 Credits 2 Class Hours, 2 Lab Hours
Introduces the programming concepts of the Java application development language. Topics include Java compilers and interpreters, application development concepts, class methods, inheritance, objects, events, error handling, applets, database manipulation, and other concepts related to developing Java applications. Prerequisite: CIS 1030 (With a minimum grade of C)

CIS 2275
JavaScript Fundamentals
3 Credits 2 Class Hours, 2 Lab Hours
Teaches developers how to use the features of the JavaScript language to design client-side, platform-independent solutions. Students learn how to write JavaScript programs, script the JavaScript object model, control program flow, validate forms, animate images, target frames, and create cookies. Also covers the most popular applications of JavaScript. Prerequisite: CIS 1030 (With a minimum grade of C), COM 1000 (With a minimum grade of C)

CIS 2300
XML Document Design
3 Credits 2 Class Hours, 2 Lab Hours
XML Document Design is a course that teaches developers how to create intelligent structured documents using the Extensible Markup Language (XML). Students will study the functions and relationships between XML and other members of the XML family of technologies, including Extensible HyperText Markup Language (XHTML), Extensible Stylesheet Language (XSL), XPath, XLink, namespaces, schemas, and Extensible Stylesheet Language Transformation (XSLT). Students will create and apply styling to XML documents in a series of hands-on labs that focus on the development of coding conventions and compliance with the rules for well-formed XML. Prerequisite: CNT 1005

CIS 2320
Intro to C#
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to C#. Topics include fundamentals of Microsoft’s Visual C# .NET. Exercises will build console-based and Windows applications. Illustrates use of the .NET predefined types, their member methods, data fields, and properties using an object oriented
approach to application development. Covers techniques used to create user-defined classes and stand alone class libraries. Prerequisite: CIS 2217 (With a minimum grade of C)

CIS 2330
Oracle Database 10g SQL
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the Oracle Database 10g relational database concepts and the powerful SQL programming language. Topics include essential SQL skills of querying the database, the metadata and creating database objects. In addition, the course also delves into the advanced querying and reporting techniques, data warehousing concepts and manipulating large data sets in different time zones. Prerequisite: CIS 2230 (With a minimum grade of C)

CIS 2340
Oracle Database 10g PL/SQL
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to Oracle PL/SQL. Topics include benefits of this powerful programming language. Students learn to create anonymous PL/SQL blocks, stored procedures, and functions. Students also develop stored procedures, functions, packages and database triggers. Prerequisite: CIS 2330 (With a minimum grade of C)

CIS 2350
SQL Server
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the Microsoft SQL Server relational database concepts plus the powerful SQL and Transact-SQL programming language. Topics include relational database architecture, database design techniques, and simple and complex query skills. Structured Query Language (Transact-SQL) in the Microsoft SQL Server environment, DTS packages and transformations; transact SQL queries; creating views; creating and tuning indexes; building transactions & triggers and creating stored procedures. Prerequisites: CIS 2330 (With a minimum grade of C) or CIS 2235 (With a minimum grade of C)

CIS 2370
Advanced Java
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the Java 2 Enterprise Edition (J2EE) architecture and its Web services technology. Topics covered will consist of database concepts and the Java data object (JDBC/OC4J), Java and XML, Java ServerPages (JSP), and Enterprise JavaBeans (EJB). Oracle's JDeveloper integrated development environment will be used to create applications using the above topics as well as its Business Components for Java (BC4J) features. Prerequisite: CIS 2270 (with minimum grade of C)

Civil and Construction Engineering Technology

CIT 1220
Materials/Methods Construction
3 Credits 3 Class Hours
An introduction to construction materials and procedures. Topics include responsibilities of the contract parties, the subsurface report, excavating, dewatering, earthworks, foundations, walls, and frames. Materials discussed include concrete, steel, masonry, timber, copper, aluminum, and glass. Corequisite: ENGL 1010

CIT 1230
Testing of Materials
2 Credits 1 Class Hour, 3 Lab Hours
An introduction to the standard tests used on construction sites. Topics include methods of testing soils and concrete and evaluation of test results. Tests include mechanical analysis, moisture content, Atterberg Limits, hydrometer analysis, unconfined compression, compaction, field density, concrete slump and cylinder. Corequisite: DSPM 0850 or equivalent skills

CIT 2100
Structural Mechanics
3 Credits 3 Class Hours
An introductory course on structural analysis to acquaint the student with the forces and loads acting on structures and how they are resisted by the structural system. Topics include components and resultants of forces; equilibrium equations; reactions for beams, frames, and trusses; centroids; moments of inertia; shear and moment diagrams; and analysis of trusses. Students analyze structures with both calculators and computers. Prerequisite: MATH 1730

CIT 2110
Concrete Mechanics
3 Credits 3 Class Hours
A comprehensive course designed to familiarize the students with all aspects of a light or heavy construction project. Topics include responsibility and authority, construction documents, contracts, construction law, safety, planning and scheduling, materials and workmanship, and change orders. Prerequisite: CIT 1220

CIT 2131
Surveying I
4 Credits 3 Class Hours, 3 Lab Hours
An introductory course in land surveying. Emphasis is on the basics of field and office work. Topics include errors and accuracy, bearings, azimuths, leveling, coordinate geometry, traverses, topographic mapping, area, volume, construction surveys, radial surveys and introduction to use of data collectors. Laboratory exercises explore the use of the steel tape, automatic level, transit, theodolite, and electronic distance measuring devices. Prerequisite: MATH 1730

CIT 2200
Hydraulics and Water Systems
4 Credits 4 Class Hours
An introductory course in water flow and Environmental Engineering Technology. Topics include pressure and gravity flow in pipes; sources, treatment, storage, and delivery of potable water; sewer lines and collection of wastewater; and treatment and disposal of wastewater and sludge. Prerequisite: MATH 1730

CIT 2301
Hydrology and Site Design
3 Credits 1 Class Hour, 4 Lab Hours
An advanced course designed to use students’ prior knowledge of drafting, surveying, and hydraulics in the subdivision and development of property. Topics include storm water runoff and storm sewer systems, street pattern variables and intersections, site planning, utilities, and earthwork calculations. Students will be required to present work using AutoCAD. Prerequisite: CAD 1200 and MATH 1730

CIT 2311
Surveying II
4 Credits 3 Class Hours, 3 Lab Hours
A continuation of CIT 2131. Topics include horizontal circular curves, spiral curves, vertical curves, boundary surveys, construction surveys, slope stakes, celestial observations, state plane coordinates, triangulation, and resection. Laboratory exercises are on the layout of horizontal curves, slope stakes, celestial observations and introduction to GPS. Prerequisite: CIT 2131
CIT 2400
Structural Design
3 Credits 4 Class Hours
A continuation of CIT 2110. Emphasis is placed on the design of wood structural elements, structural steel elements according to the AISC Code and reinforced concrete buildings according to the ACI Code. Topics include the design of wood beams and columns, steel members, trusses, connections and splice concrete beams, columns, walls, slabs, foundations, and the detailing of steel members and reinforcing bars. Prerequisite: CIT 2110

Computer Networking Technology

CNT 1005
Intro. to Computer Networks
3 Credits 4 Class Hours
A broad-based course that providing an overview of computer networking. Topics include services, networks, voice and data communications, and equipment. Prerequisites: DSPR 0800, DSPW 0800

CNT 1010
Survey of Computer Networking
4 Credits 4 Class Hours
An introduction to Computer Networking Technology. Topics include clients, servers, communications media, networking operating systems, communication protocols, bridges, routers, repeaters, hubs, wireless, and other networking components and procedures. Prerequisites: DSPR 0800, DSPM 0700

CNT 1050
NetWare Administration
4 Credits 4 Class Hours
An introduction to Novell NetWare. Topics include client configuration, server configuration, NDS, network printing, user administration, and security. Restricted enrollment: Degree seeking students only. Prerequisites: CNT 1010, CPT 1510, CNT 1170

CNT 1060
Cisco Routers I
4 Credits 4 Class Hours
CCNA 1: Networking Basics is the first of four courses leading to the Cisco Certified Network Associate (CCNA) designation. Introduces Cisco Networking Academy Program students to the networking field. Topics include: Network terminology, Network protocols, Local-area networks (LANs), Wide-area networks (WANs), Open System Interconnection (OSI) model, Cabling, Routers, Router programming, Ethernet Internet Protocol (IP) addressing, Network standards. Prerequisites: DSPR 0800, DSPM 0700

CNT 1160
Cisco Routers II
4 Credits 4 Class Hours
CCNA 2: Routers and Routing Basics is the second of four CCNA courses leading to the Cisco Certified Network Associate (CCNA) designation. Focuses on initial router configuration, Cisco IOS Software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Students will develop skills on how to configure a router, manage Cisco IOS Software, configure routing protocol on routers, and set the access lists to control the access to routers. Prerequisite: CNT 1060

CNT 1170
Microsoft Professional OS
4 Credits 4 Class Hours
An introduction to Microsoft Windows XP Professional. Topics include operating system installation and configuration, network administration tasks, user profiles, shared resources, network planning and implementation, and security. Prerequisites: DSPR 0800, DSPM 0700

CNT 2050
NetWare Advanced Admin.
4 Credits 4 Class Hours
A continuation of CNT 1050. Topics include advanced administration concepts, NetWare networks, upgrading from a NetWare 4 or 5 environments, executing Java-based utilities, network backup and configuring NetWare 6 for remote access. Restricted enrollment: Degree seeking students only. Prerequisites: CNT 1050

CNT 2120
Network Cabling Installation
4 Credits 4 Class Hours
This course covers the installation of a structured cabling system. Topics covered include horizontal and vertical cable installation and termination, proper design and setup of Main and Intermediate Distribution Facilities, cable way design and installation. Uses approved BICSI installation standards and provides a thorough knowledge of EIA/TIA standards. Prerequisites: CNT 1010

CNT 2130
Applied Networking
5 Credits 5 Class Hours
A capstone course in Computer Networking Technology. Topics include Novell servers, Windows servers, UNIX servers, all media types, switches, routers, hub, bridges, gateways, and network security. Prerequisites: CNT 1050, CNT 1160, CNT 2350, CPT 2425 Corequisite: CNT 2450

CNT 2280
Network Infrastructure Design
4 Credits 4 Class Hours
An introduction to Windows Networking Infrastructure. Topics include networking services infrastructure design, domain, DHCP, Internet Protocol (IP) address configuration support, Open Shortest Path First (OSPF), Routing Information Protocol (RIP), and Internet Group Management Protocol (IGMP), and IP routing scheme. Prerequisite: CNT 2350

CNT 2350
Windows Server Administration
4 Credits 4 Class Hours
An introduction to Microsoft Windows Server. Topics include operating system installation and configuration, network configuration, shared resources, network security, and network domains. Prerequisite: CNT 1010, CNT 1170, CPT 1510

CNT 2360
Windows Active Directory
4 Credits 4 Class Hours
A study of Microsoft Windows Active Directory. Topics include administrative tasks required to centrally manage large numbers of users and computers, multiple domains, and active directory. Prerequisite: CNT 2350

CNT 2410
Cisco Routers III
4 Credits 4 Class Hours
CCNA 3: Switching Basics and Intermediate Routing is the third of four courses leading to the Cisco Certified Network Associate (CCNA) designation. Focuses on advanced IP addressing techniques: Variable Length Subnet Masking (VLSM); Intermediate routing protocols such as RIP v2, single-area OSPF, and EIGRP; Command-line interface configuration of switches, Ethernet switching, Virtual LANs (VLANs), Spanning Tree Protocol (STP), VLAN Trunking Protocol (VTP), Students will be required to apply lessons from CCNA 1 and 2 to a network and should be able to explain how and why a particular strategy is used. Prerequisite: CNT 1160
Cisco Routers IV  
**CNT 2420**  
**4 Credits 4 Class Hours**  
CCNA 4: WAN Technologies is the last of four courses leading to the Cisco Certified Network Associate (CCNA) designation. The course focuses on the following topics: Advanced IP addressing techniques, Network Address Translation (NAT), Port Address Translation (PAT), Dynamic Host Configuration Protocol (DHCP), WAN technology and terminology, PPP, ISDN, DDR, Frame Relay, and Network management. Students will be required to apply information from CCNA 1, CCNA 2, and CCNA 3 to a network and should be able to explain how and why a particular strategy is used. This course will also help students prepare for the CCNA exam.  
**Prerequisite: CNT 2410**

Cisco Routers V  
**CNT 2430**  
**4 Credits 4 Class Hours**  
CCNP 1: Advanced Routing is the first of four courses leading to the Cisco Certified Network Professional (CCNP) designation. Introduces Cisco Networking Academy Program students to scaling IP networks. Students learn to use VLSM, private addressing, and NAT optimize IP address utilization. The majority of the course content related to learning how to implement the RIPv2, EIGRP, OSPF, IS-IS, and BGP routing protocols. Details the important techniques used for route filtering and route redistribution.  
**Prerequisite: CNT 2420 or CCNA certification**

Cisco Routers VI  
**CNT 2440**  
**4 Credits 4 Class Hours**  
CCNP 2: Remote Access is the second of four courses leading to the Cisco Certified Network Professional (CCNP) designation. Introduces student to the implementation of Cisco routers in WAN applications. The course focuses on the selection and implementation of the appropriate Cisco IOS services required to build intranet remote access links. Students will develop skills with the specific WAN technologies of analog dialup, ISDN BRI and PRI, Frame Relay, broadband, and VPN. Stresses the design, implementation, operation, and level 1 troubleshooting of common WAN connectivity options.  
**Prerequisite: CNT 2420 or CCNA certification**

Cisco Routers VII  
**CNT 2450**  
**Network Security 4 Credits 4 Class Hours**  
An introduction to network security concepts and application. Topics include securing a single computer, peer-to-peer networks, and worldwide client/server networks.  
**Prerequisites: CNT 2350**

**CNT 2500**  
**Graduation Evaluation 1 Credit 1 Class Hour**  
Capstone course for the Computer Networking Technologies program. Evaluation based on knowledge and skills learned throughout the program. Presents a real world business problem, requires a business oriented oral and written presentation. Work in self-directed teams to complete the assigned project. Includes the program exit examination.  
**Corequisite: CNT 2130** (This course will be offered for the last time in the spring of 2007)

Cisco Routers VIII  
**CNT 2540**  
**4 Credits 4 Class Hours**  
CCNP 4: Network Troubleshooting is the last of four courses leading to the Cisco Certified Network Professional (CCNP) certification. CCNP 4 includes troubleshooting network problems and focuses on documenting and baselining a network, troubleshooting methodologies and tools, and Layers 1 to 7 troubleshooting.  
**Prerequisite: CNT 2430, CNT 2440, CNT 2530**

Fund. of Network Security I  
**CNT 2550**  
**4 Credits 4 Class Hours**  
Focuses on security policy design and management; security technologies, products and solutions, installation, configuration and maintenance of a secured Cisco router environment. Security features such as AAA, IDS, NAT, and VPN will be implemented on a router.  
**Prerequisite: CNT 2420 or CCNA certification**

Fund. of Network Security II  
**CNT 2560**  
**4 Credits 4 Class Hours**  
Focuses on security policy design and management; security technologies, products and solutions, installation, configuration and maintenance of a secured Cisco PIX firewall environment. Other features such as AAA, IDS, NAT, and VPN will be implemented within the firewall arena.  
**Prerequisite: CNT 2420 or CCNA certification**

Visual Communications  
**COM 1000**  
**Beginning HTML 3 Credits 3 Class Hours**  
A beginning course in HTML, providing instruction in creating Web pages. Students will learn to write HTML code by hand using a basic text editor. Topics include using HTML tags to format headings and text, to display images, and to create lists, links, tables, frames, and forms.  
**Prerequisites: DSPR 0700, DSPW 0700, and basic computer and Web navigation skills**

**COM 1010**  
**Basic Web Design 3 Credits 3 Class Hours**  
A course based on student requirements. Focuses on design, implementation, and user interface. Provides students with the ability to design and create functional Web sites using HTML and CSS.  
**Prerequisite: DSPR 0700, DSPW 0700, basic computer and Web navigation skills**
COM 1020  
Basic Web Graphics  
3 Credits  3 Class Hours  
An introductory class using a graphics program, scanner, and other digital devices to create and edit graphic images for Web pages. Projects will be included to allow students to demonstrate mastery of the use of a graphics program. This course is taught using Photoshop®.  
Prerequisite: COM 1000  

COM 1030  
Overview of Web Tools  
5 Credits  5 Class Hours  
This course is designed to introduce students to a variety of software packages for creating Web pages. Students will survey the basics of software packages such as Dreamweaver®, GoLive®, Flash® and others. Prerequisites: COM 1000 and COM 1010  

COM 1040  
Presentation Media  
3 Credits  3 Class Hours  
An introduction to the development of effective visual presentations and slide shows in the digital environment using PowerPoint® and other applications. Prerequisites: DSPW 0700 and DSPR 0700, Basic computer skills (see special requirements)  

COM 1111  
Graphic Processes  
3 Credits  2 Class Hours, 2 Lab Hours  
Acquaints the beginning student with graphic arts processes, techniques, and terminology. Topics in color, paper stocks, production workflows, printing operations, safety, and bindery systems are presented. Projects acquaint students with the use of design tools and techniques. Prerequisites: DSPW 0700 and DSPR 0700  

COM 1120  
Visual Communications Business  
3 Credits  3 Class Hours  
Explores the relevant ethical and legal implications of the normal activities and transactions in the visual communications workplace. Specific topics include organizational structures, careers, job sheets, time sheets, estimates, usage agreements, and copyright. Prerequisites: DSPW 0700 and DSPR 0700  

COM 1140  
Design Fundamentals  
3 Credits  3 Class Hours  
Topics include the principles and elements of design, basic drawing and media techniques and the design/creative processes for visual communications.  

COM 1150  
Type Concepts  
3 Credits  3 Class Hours  
Topics include typetstyles, terminology, type specifications, measurement, and type as a design element for visual communications. Prerequisites: DSPW 0700 and DSPR 0700  

COM 1170  
Imaging Technologies  
3 Credits  3 Class Hours  
A course that introduces students to current industry standards of digital file preparation for reproduction. Topics include terminology, digital fonts, file formats, scanning, and desktop systems. Prerequisites: DSPW 0700 and DSPR 0700, Basic computer skills (see special requirements)  

COM 1190  
Basic Digital Photography  
3 Credits  3 Class Hours  
An introduction to basic digital photography focusing on skills useful for a graphic designer. Topics include basic operation of a digital camera, composition, camera controls, exposure, and basic image enhancement for creative use.  

COM 1210  
Electronic Media I  
3 Credits  3 Class Hours  
An introduction to the Macintosh® computer environment and operating system for desktop publishing. Topics include the use of word processing, database, spreadsheet, drawing, and painting components of an office software package. Prerequisite: Basic typing skills (see special requirements)  

COM 1220  
Graphic Design II  
3 Credits  2 Class Hours, 2 Lab Hours  
Topics include the creative aspects of the design and production of applied art for visual communications, stressing the importance of concept, type, and graphics in practical project applications. Prerequisites: COM 1140, COM 2120, COM 1230 and COM 2210  

COM 1230  
Digital Imaging I  
3 Credits  2 Class Hours, 2 Lab Hours  
An introduction to basic digital imaging using Adobe Photoshop®. Topics include navigation of the interface, the tools, using layers, adjustment layers, layer styles, filters, creating and manipulating selections, masking principles, cropping, image size and resolution, and image compositing of raster images. Prerequisite: Basic computer skills (see special requirements)  

COM 1300  
Site Building I - Dreamweaver®  
3 Credits  3 Class Hours  
An introduction to Adobe DreamWeaver® software as a tool for the construction and maintenance of Web sites. Prerequisite: COM 1000  

COM 1305  
Multimedia I - Flash®  
3 Credits  3 Class Hours  
An introduction to Adobe Flash® software. Topics include the integration of graphics, text, audio and video into animated and interactive Web presentations. Prerequisites: COM 1000, COM 1170  

COM 2010  
Digital Video Editing I  
3 Credits  3 Class Hours  
An introduction to Apple Final Cut Pro® software. Teaches digital video techniques for post-production. Emphasis on editing and integrating special effects for video, CD-ROM and the Web. Prerequisites: COM 1140, Basic computer skills (see special requirements)  

COM 2020  
Storyboarding/Script Writing  
3 Credits  3 Class Hours  
Introduction to basic terminology, tools and media. Teaches the development of thumbnails, storyboards, scripts, and other conceptual presentation processes used in pre-production. Prerequisite: ENGL 1010  

COM 2030  
Digital Video Editing II  
3 Credits  3 Class Hours  
Continuation of digital video techniques for post-production using Apple Final Cut Pro® software. Emphasis on integration of special effects for video, CD-ROM and the Web. Prerequisite: COM 2010  

Nashville State
COM 2120
Electronic Publishing I
3 Credits 3 Class Hours
An introduction to page layout software using QuarkXPress®. Topics include: page set-up, the use of text boxes, manipulation of text using basic typographic etiquette, and the use of picture boxes in a variety of print documents. Prerequisites: Basic computer skills (see special requirements)

COM 2130
Electronic Publishing II
3 Credits 3 Class Hours
A continuation of COM 2120. Topics include: use of styles sheets and master pages, manipulation of text and images, and production of various print materials including a newsletter. Prerequisite: COM 2120

COM 2170
Portfolio
3 Credits 2 Class Hours, 2 Lab Hours
Topics include portfolio preparation, resumé development, job interview skills, and portfolio review by industry professionals. Prerequisites: COM 1170, COM 1220, COM 1230, COM 2130, and COM 2210

COM 2210
Electronic Illustration I
3 Credits 3 Class Hours
An introduction to executing vector-based illustrations using Adobe Illustrator®. Topics include navigation of the interface, the tools, drawing and manipulating basic objects, creating and manipulating type, drawing with the pen tool, applying color, using layers, and transformation and pathfinder techniques. Prerequisite: Basic computer skills (see special requirements)

COM 2220
Practicum
3 Credits 2 Class Hours, 2 Lab Hours
Topics include the design and execution of a variety of electronic publishing projects utilizing graphic design, computer-based drawing, digital imaging techniques, working with a client, and job-based work production skills. Prerequisite: COM 1170, COM 1220, COM 1230, and COM 2130

COM 2240
Digital Imaging II-Photography
3 Credits 3 Class Hours
A continuation of COM 1230 using Adobe Photoshop®. Topics include manipulation of photographic images in a digital format, digital asset management, digital workflow, cropping, tone and color correction, selection techniques, masking, colorization, image enhancement, and sharpening techniques. Prerequisite: COM 1230 or program permission

COM 2250
Digital Imaging II-Design
3 Credits 3 Class Hours
A continuation of COM 1230 using Adobe Photoshop®. Topics include drawing with shape layers, creating custom brushes and patterns, advanced selecting and masking techniques, learning and utilizing photographic and illustrative techniques to execute projects appropriate for the graphic design industry. Prerequisite: COM 1230 or program permission

COM 2270
Electronic Illustration II
3 Credits 3 Class Hours
A continuation of COM 2210 using Adobe Illustrator®. Topics include logo re-creation, perspective and dimensional techniques, creating custom brushes, patterns, fills, the execution of complex vector objects, and the execution of a variety of design projects utilizing these techniques. Prerequisite: COM 2210 or program permission

COM 2280
Illustration with Painter®
3 Credits 3 Class Hours
An introduction to digital illustration and painting techniques using Corel Painter®. Topics include navigation of the interface, the tools, using brushes, and layers. Different styles of illustration and turning photographs into art are covered. Prerequisite: COM 1230

COM 2300
Site Building II-Dreamweaver®
3 Credits 3 Class Hours
Advanced topics in using Adobe Dreamweaver® software as a tool for the construction and maintenance of Web sites. Prerequisite: COM 1300

COM 2305
Multimedia II - Flash®
3 Credits 3 Class Hours
Advanced topics in creating interactive Web presentations. Topics include the creation of user interfaces, using external data sources, and advanced ActionScript using Adobe Flash® software. Prerequisite: COM 1305

COM 2310
E-Commerce (CIW)
3 Credits 3 Class Hours
Designed to help students prepare for the CIW certification exam on this topic. Explores the similarities and differences between traditional commerce and e-commerce. Emphasis on managing the technical issues and technologies associated with constructing an e-commerce Web site and conducting business online. Prerequisites: DSPW 0700 and DSPR 0700, Basic computer skills (see special requirements)

COM 2320
Design Methodology (CIW)
3 Credits 3 Class Hours
Designed to help students prepare for the CIW Site Designer certification exam. Provides hands-on experience in applying user-centered design principles to the construction of Web sites. Includes topics in various Web design tools, incompatibility issues surrounding these tools, and the functionality of current Web browsers. Prerequisites: DSPW 0700 and DSPR 0700, Basic computer skills (see special requirements)
Computer Technology

CPT 1000
Operating Systems
3 Credits 3 Class Hours
Develops a foundation of technical support for diverse operating systems to include Windows, Linux, and Novell client. Technicians will install, upgrade, troubleshoot, tweak and optimize the performance of these software systems. Exposure to the Mac OS will develop understanding of a complex IT workforce environment, and allow a comparison and assessment of several operating system functions and features. Prerequisites: DSPR 0800 & DSPW 0800 or equivalent skills

CPT 1010
User Support/Help Desk
3 Credits 3 Class Hours
An introduction to the role of computer technology in support of business processes and procedures. Concepts include computer user support, customer service skills, troubleshooting skills, common support problems, help desk operation and management, common helpdesk tools and procedures, and basic hardware and software installation and maintenance. Prerequisites: DSPR 0800 & DSPW 0800 or equivalent skills

CPT 1400
Digital Systems Interfacing
3 Credits 2 Class Hours, 2 Lab Hours
An introduction of concepts for digital technology leading to microprocessor interfacing. Incorporated topics consist of AC/DC electronic concepts, digital number systems, Boolean expressions, and integrated circuits. Technicians discover algorithm/flowcharting, Assembly language concepts, debugging, creating .com files, output port decoding of PCs, and basic parallel interfacing. Prerequisites: DSPR 0800, DSPW 0800 & DSPM 0800 or equivalent skills

CPT 1500
Microprocessor Sys. Principles
3 Credits 3 Class Hours
An introduction to the architecture of a microprocessor and computer based system. Develops Assembly language instructions to manipulate a device’s input/output ports and design various programs ranging from industrial applications to games. Focuses on team building, strengthens written and oral communication, and engages critical thinking through project based tasks. It is highly recommended that this course be taken immediately following CPT 1400. Prerequisites: CPT 1400

CPT 1510
A+ Computer Hardware
4 Credits 4 Class Hours
An introduction to basics of computer hardware in today’s technical society. Exercises highlight identification and installation of internal components, disk configuration, ports, cables, peripherals and networking concepts and connections. Hands-on and demonstrations allow technicians to delve into building, repairing and preventive maintenance. (This course replaces or substitutes for CPT 2410 Computer Peripherals and CNT 1015 Computer Hardware Fundamentals). Prerequisites: DSPR 0800, DSPW 0800 & DSPM 0850 or equivalent skills

CPT 2320
Telecommunications
4 Credits 4 Class Hours
An introduction to communications techniques and systems used for analog signals and digital data transfer. Topics include knowledge of digital transmission, various modulation techniques, error detection, data compression, encryption, protocols, ISDN and ISO standards. Presents telephone networks and characteristics, satellite communications, transmission media including copper, fiber, microwave, lightwave and the full range of electromagnetic spectrum of wireless technologies. Prerequisites: CPT 1010, CPT 1500

CPT 2425
UNIX/Linux
4 Credits 4 Class Hours
Integrates practical skills within the Linux environment. Analysis of open source software creates proficiency with utilities, applications and file system manipulation in both command line and graphical X Window environments. Technicians will utilize varied shells, design, compose and edit script files relating to startup configuration and perform administrative tasks such as process management, partition monitoring, command scheduling, permission assignment and user/group modification. Prerequisites: CPT 1000, DSPW 0800 or equivalent skills

CPT 2430
Systems Troubleshooting
4 Credits 4 Class Hours
 Elevates computer system skills in areas of error detection, issue identification, technical research, solution development, and problem resolution. Develop an authentic perspective as an industry professional, interviews, simulations, checklists, community contacts, on-site visits and other interactions often occur to supplement class labs and group discussions. Prerequisites: CPT 1500, CPT 1510

CPT 2460
Advanced UNIX/Linux
4 Credits 4 Class Hours
Compares numerous Linux and UNIX distributions. Emphasis on configuring boot loaders and environmental variables, designing effective decision constructs in shell scripts, selecting window managers, and analyzing log files. Information regarding Linux installation, networking and hardware manipulation is detailed as well as kernel modules, troubleshooting, power tools, security, performance tuning and current industry trends within the open source community. Prerequisite: CPT 2425

CPT 2460
Advanced Topics
3 Credits 3 Class Hours
Investigates computer concepts and addresses emerging trends in computer technology. Stresses the latest computer security methods and procedures for maintaining a secure personal or business computing environment for both wireless and wired networks. Team-based projects research and design networks that meet government standards, including servers, firewalls and protecting connected communications nodes from intrusion. (Experienced industry professionals may be enrolled without prerequisites pending permission by CPT faculty.) Prerequisite: CPT 1510 or CPT 2410, CPT 2320

CPT 2500
Computer Technology Capstone
1 Credit 1 Class Hour
Course is taken during the final semester. A case study-based project will investigate and define the problematic situation in detail and evaluate and present possible solutions. Prerequisite: CPT 1000, CPT 1010, CPT 1400, CPT 1500, and CPT 1510

Computer Science

CS 1170
Computer Science I
4 Credits 4 Class Hours
This is the first of a two-semester sequence using the high-level language C. The emphasis is on problem solving using the language and principles of structured software development. The topics covered (including the language syntax) are, simple data structures such as arrays and strings, pointers, pointer arithmetic, arrays and pointers, functions, function overloading, function parameters, return types, structures and unions, and C based I/O.
CS 2170
Computer Science II
4 Credits 4 Class Hours
This course is a continuation of CS 1170. The topics include introductory object-oriented programming techniques using the C++ language, operator and function overloading, software engineering principles, records, pointers, inheritance, other data structures such as stacks, queues, and linked lists, and the C++ 1/O system. Prerequisites: CS 1170 Computer Science I

Culinary

CUL 1010
Hospitality Management
3 Credits 3 Class Hours
An introduction to the hospitality industry and the chef as supervisor and manager. Topics include the organization of industry segments, services provided by the lodging, food and beverage industry, career opportunities, principles of supervision, communication, motivation, total quality, leadership, training, and team performance.

CUL 1015
Sanitation & Safety
2 Credits 2 Class Hours
An introduction to the sanitation and safety issues and practices involved in the food preparation process. Prevention of all types of food contamination and the Hazard Analysis Critical Control Point (HACCP) food safety system is emphasized. This course presents a manager's perspective on food safety, cleanliness standards, and work safety. This course is a pre/corequisite for the culinary food production classes.

CUL 1020
Baking Skills
3 Credits 1 Class Hour, 4 Lab Hours
An introductory course in the principles of baking, with emphasis on bakeshop ingredients, their function, measurement, and scaling. Scratch baked items to include quick breads and muffins, yeast breads, cookies, Danish pastries, and assorted pies. Prerequisite: CUL 1040

CUL 1040
Culinary I
3 Credits 2 Class Hours, 2 Lab Hours
The introductory food production class for culinary students. Topics include the theories and methods of cooking, vocabulary, and the development of safe and sanitary kitchen practices. Production items will include vegetable and starch preparation, stocks and soups, and egg cookery. Corequisite: CUL 1015

CUL 1045
Culinary II
3 Credits 1 Class Hour, 4 Lab Hours
A continuation of CUL 1040 Culinary I. Topics include stocks, soups, sauces, beef, pork and poultry items, vegetables and starches. Utilizing recipes and techniques as presented in class, students will prepare a number of buffets. Prerequisite: CUL 1040

CUL 1050
Nutrition & Menu Planning
3 Credits 3 Class Hours
An introduction to the basic nutritional principles and guidelines. Topics include nutrients, carbohydrates, lipids, proteins, minerals and vitamins. Students plan meals and menus based on the above principles using nutritional guidelines as the primary basis.

CUL 2010
Purchasing & Cost Control
3 Credits 3 Class Hours
An introduction to the food distribution system and purchasing procedures. Topics include, the function of the purchasing agent, product selection, purchasing procedures, inventory control, menu pricing, food cost, sales, inventory levels, spoilage, waste inventory values and menu analysis.

CUL 2020
Advanced Baking & Pastry
3 Credits 1 Class Hour, 4 Lab Hours
A continuation of CUL 1020. Topic include, tarts, cakes, and restaurant-style desserts, production and use of sauces and plate presentations, Students will be required to create a dessert menu and demonstrate baking proficiency through production of selected menu items. Prerequisite: CUL 1020

CUL 2030
Garde Manger & Catering
3 Credits 1 Class Hour, 4 Lab Hours
This course focuses on cold food preparation and presentation in buffet and catering applications, including appetizers, hors d'oeuvres, canapés, pates, sausages, terrines, and buffet salads, buffet design, layout and execution, and menu planning. Prerequisite: CUL 2050

CUL 2035
Table & Beverage Service
2 Credits 2 Class Hours
An introduction to the various styles of table service and service standards required of professional wait personnel. Guest relations, order taking, and organization of the dining room will be studied. Students will gain experience through practice within a simulated service environment. Beverage management issues include inventory & purchasing, proper use of glassware, types of wine and wine regions, and the pairing of wine with food.

CUL 2050
Culinary III
3 Credits 1 Class Hour, 4 Lab Hours
An advanced food production class. Production topics will include principles of plate presentation, entree, starch, vegetables, seafood, veal and lamb cookery. Additional topics will include menu construction, pricing and production. Prerequisite: CUL 1045

CUL 2055
International Cuisine
3 Credits 1 Class Hour, 4 Lab Hours
A continuation of CUL 2050. Production will include French, Italian, Asian and other ethnic and regional cuisines. Discussion topics will include indigenous ingredients, flavors, cooking methods and techniques. Prerequisite: CUL 2050

CUL 2220
Internship II
1 Credit 300 Contact Hours
A 300-hour paid work internship in a food production environment. Students will prepare a report detailing their experience. Students are required to have the internship approved by the program coordinator. Prerequisite: CUL 2210

Developmental Mathematics

DSPM 0700
Basic Mathematics
3 Credits 3 Class Hours
An introduction to basic mathematics principles. Topics include whole numbers, fractions, decimals, ratio and proportion, percents, and topics in algebra that include signed numbers, exponents, algebraic expressions with sums and differences, and solving simple algebraic equations.
DSPM 0800
Elementary Algebra
3 Credits 3 Class Hours
An introduction to algebra course. Topics include the fundamental operations of real numbers, polynomials, exponents, factoring, ratio, proportion, linear equations and applications, single variable inequalities, evaluating algebraic expressions, solving quadratic equations by factoring, and introduction to graphing. Prerequisite: DSPM 0800 or equivalent skills.

DSPM 0850
Intermediate Algebra
3 Credits 3 Class Hours
A continuation course in algebra. Topics include fundamental operations of algebraic factoring, solving quadratic equations, writing equations of lines, stated problems, rational expressions and equations, exponents and radicals, linear inequalities, linear systems, and graphing linear and quadratic equations. Prerequisite: DSPM 0800 or equivalent skills.

Developmental Reading
DSPR 0700
Basic Reading
3 Credits 3 Class Hours (ESL Sections Offered)
A course in the fundamentals of reading comprehension. Topics include vocabulary improvement, literal reading comprehension (recalling story detail, recognizing sequence, identifying main ideas, and identifying major and minor support), and inferential reading comprehension (drawing conclusions, making inferences, and recognizing implied main ideas).

DSPR 0800
Developmental Reading
3 Credits 5 Class Hours (ESL Sections Offered)
A course designed to develop necessary literal and critical comprehension skills for reading textbook passages ranging from paragraphs to chapters and to enhance vocabulary skills. Prerequisite: DSPR 0700 or demonstrated equivalent skills.

Learning Strategies
DSPS 0800
Learning Strategies
3 Credits 3 Class Hours (ESL Sections Offered)
A course on how to succeed in college. Topics include managing time and environment, analyzing and mastering the content of lectures and textbook chapters, preparing for tests, taking tests, setting goals, making career and academic decisions, utilizing resources, and coping with anxiety.

Developmental Writing
DSPW 0700
Basic Writing
3 Credits 3 Class Hours (ESL Sections Offered)
A study of grammar and sentence skills, effective paragraphs, and essay organization. Computer-assisted laboratory may be used.

DSPW 0800
Developmental Writing
3 Credits 3 Class Hours (ESL Sections Offered)
A course in writing, research, and reasoning skills using narration, description, comparison and contrast, cause and effect, and persuasion. Topics include research methodology, paragraphing, and writing short essays based on observation, interviews, and written materials. Prerequisite: DSPW 0700 or demonstrated equivalent skills.

Early Childhood Education
ECED 1010
Intro to Early Childhood Educ
2 Credits
An introduction to the early childhood profession with an emphasis on professionalism and developmentally appropriate practice. Topics include an overview of history of early education, theoretical program models, different types of early childhood programs, community resources, professional organizations, and contemporary trends and issues in programs for children ages birth to nine. Field experiences required.

ECED 2010
Safe, Healthy, Learning Env
3 Credits
A study of the basic principles and practices of safety, health and nutrition as they relate to the early childhood setting, home, and community for children ages birth to nine. Includes a study of the principles of creating appropriate learning environments for young children. Field experiences required.

ECED 2015
Early Childhood Curriculum
3 Credits
A study of developmentally appropriate practices and the teacher's role in supporting development of young children ages birth to nine. Emphasizes curriculum planning including goals, environment, roles of teachers and parents, materials, and settings. Field experiences required.

ECED 2020
Infant, Toddler, Child Dev
3 Credits
An overview of the physical, cognitive, social, and emotional aspects of young children and their application to the care, guidance, and development of the child, birth to nine. Laboratory observation and interaction. Prerequisite: DSPW 0800 and DSPR 0800 or Department Approval.

ECED 2030
Infant and Toddler Care
3 Credits
A study of the care and education of infants and toddlers, birth to age three in group settings (i.e. child care centers, family child care homes, Early Head Start). Topics include rationales and strategies for supporting the whole child including cognitive, language, social-emotional, and physical development in a safe, responsive environment. Emphasizes relationship-based care and education with special attention to the unique environmental aspects of programs for the child under three. Prerequisite: None.

ECED 2040
Fam Dynamics & Comm Involve
3 Credits
An overview of the role of the family, community and the physical, cognitive, social, and emotional growth of the child in a diverse society. Includes benefits of and strategies for developing positive, reciprocal relationships with families in an early childhood setting ages birth to age nine. Field experiences required. Prerequisite: ECED 2015 or Department Approval.
ECED 2060  
Dev of Exceptional Children  
3 Credits  
A study of the practices that early childhood professionals can apply to develop a more inclusive and accessible environment for all children ages birth to nine. Provides students with skills to include children of all abilities through appropriate arrangement of the environment. Includes strategies for developing strong relationships with families and other community agencies. Field experiences required. Prerequisite: ECED 2020 or Department Approval.

ECED 2070  
Developmental Assessment  
3 Credits  
A study of assessment for children from birth to nine years of age. Both formal and informal instruments will be discussed with an emphasis on tools that can be used by teachers of young children. Considerations in choosing, administering, and reporting results of assessments will also be addressed. Field experiences required. Prerequisite: ECED 2020 or Department Approval.

ECED 2080  
Language & Literacy in ECE  
3 Credits  
A study of the research-based principles and practices for providing young children, birth to nine, with a strong foundation in language and literacy within a developmentally appropriate approach. Field experiences required. Prerequisite: ECED 2015 or Department Approval.

ECED 2085  
Math and Science in ECE  
3 Credits  
A study of the standards, principles, and practices in teaching mathematics and science to young children, birth to nine. Emphasis on development of an integrated math and science curriculum that includes appropriate content, processes, environment and materials, and child-centered choices. Field experiences required. Prerequisite: ECED 2015 or Department Approval.

ECED 2090  
Creative Development  
3 Credits  
A study of the strategies for promoting creative development of the child ages birth to nine. Topics include the concept of creativity: what it is, why it is important, and how the development of creativity in young children can be encouraged. Emphasizes the development of creativity in relation to art, music, language, movement, and dramatic arts. Field experiences required. Prerequisite: ECED 2015 or Department Approval.

ECED 2120  
Admin of Child Care Centers  
3 Credits  
A study of organization and administration practices applicable to the child care center. Topics include leadership, enrollment and public relations, staff-management, financial management, facilities, regulations, parent relations, and program development. Field experiences required.

ECED 2130  
Clinical Practicum I  
2 Credits  
1 Class Hour, 1 Lab Hour  
A supervised practicum with a minimum of 15 clock hours in seminar and 45 clock hours in early childhood practical experiences. Course includes a study of the physical and human qualities that combine to create an environment that is safe and healthy, and promotes optimum learning for young children ages birth to nine. Prerequisite or corequisite: ECED 2010 or Department Approval.

ECED 2140  
Clinical Practicum II  
2 Credits  
1 Class Hour, 1 Lab Hour  
A supervised clinical experience with a minimum of 15 clock hours in seminar and 45 clock hours in an approved Clinical Site (NAEYC, NAFFC or NSACA accredited agency or Dept.-approved site). Emphasis on using reflective practice to examine components of quality, set goals, and design a plan for professional growth for the early childhood educator of children ages birth to nine. Prerequisite: ECED 2010, 2015, 2040, 2130 or Department Approval.

ECED 2150  
Clinical Practicum III  
2 Credits  
1 Class Hour, 1 Lab Hour  
A supervised practicum experience with a minimum of 15 clock hours in seminar and 45 clock hours of approved early childhood practical experiences. Focuses on the student’s demonstration of competencies that produce positive developmental outcomes for young children ages birth to nine. Prerequisite: ECED 2130, 2140 or Department Approval.

ECON 1111  
Principles of Macroeconomics*  
3 Credits  
3 Class Hours  
This course introduces and explores a variety of macroeconomic topics, including: aggregate supply and demand, market equilibrium, Gross Domestic Product, employment, income, prices, major schools of economic thought, fluctuations, growth, monetary policy, fiscal policy, the national debt, international trade, and international finance. ECON 1111 meets the General Education requirement for Social Sciences. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills  
*This course is part of the general education core.

ECON 1121  
Principles of Microeconomics*  
3 Credits  
3 Class Hours  
This course introduces and explores a variety of microeconomic topics, including: supply and demand, market equilibrium, elasticity, decision making by producers and consumers, production cost, market structures, public policy, the labor market, distribution of income, environmental policy, market efficiency and government intervention. ECON 1121 meets the General Education requirement for Social Sciences. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills  
*This course is part of the general education core.

EDUC 2110  
Educational Psychology  
3 Credits  
3 Class Hours  
A study and application of the principles of growth and development, learning theory, and assessment techniques in the classroom setting. Motivating and facilitating learning processes in school settings will be emphasized. Field experiences in an approved classroom are required. (This course is the same as PSYC 2110.) Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.
EDUC 2120
Intro to Special Education
3 Credits 3 Class Hours
A study of the characteristics and needs of children with special needs and/or disabilities with an emphasis on legislation, programs, services, and best practices in the educational setting. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills

Electrical-Electronic Engineering Technology

EETH 1110
Electric Circuits
4 Credits 4 Class Hours
An introductory course for all Electrical Engineering Technology concentrations. Topics include voltage, current, resistance, and power in DC and AC circuits, series, parallel, and more complex circuits using Kirchhoff's laws and selected network theorems, capacitance and inductance, resonance, transformers and polyphase concepts. Prerequisite: DSPM 0850 or equivalent skills

EETH 1115
Electric Circuits Lab
1 Credit 2 Lab Hours
A laboratory course that parallels the EETH 1110 lecture course. Lab exercises include building, measurement and analysis of DC and AC circuits containing resistance, inductance and capacitance. Corequisite: EETH 1110

EETH 1210
Electronic Circuits
4 Credits 4 Class Hours
A continuation of EETH 1110. Topics include solid state electronics as circuit elements, including diodes, bipolar transistors, rectifier circuits, Zener diode regulators, power supplies, power amplification, junction and MOSFETs, applications in selected linear circuits and operational amplifiers in various feedback configurations. Prerequisite: EETH 1110

EETH 1215
Electronic Circuits Lab
1 Credit 2 Lab Hours
Parallels EETH 1210 lecture course. Includes constructing and analyzing discrete and integrated analog transistor circuits. Corequisite: EETH 1210

EETH 1220
Transformers/Rotating Machines
2 Credits 2 Class Hours
A continuation of EETH 1110 and 1115. Topics include transformer theory and application, single-phase and three-phase connections, auto-transformers, special instrument transformers, the development of horsepower, torque, efficiency as related to the operation of D.C. motors and generators, single-phase and three-phase motors, alternators, step-motors, resolvers, synchrons, and comparisons in the performance of machines. Prerequisite: EETH 1110 and EETH 1115

EETH 1225
Transformers/Rotat. Mach. Lab
1 Credit 2 Lab Hours
Parallels the EETH 1220 lecture course. Topics include construction of common single phase and three phase DC and AC motor, generator and transformer systems. Corequisite: EETH 1220

EETH 1260
Electrical Technology
3 Credits 3 Class Hours
An introduction to the basics of electrical power for non-electrical students. Topics include DC and AC circuits, transformers, rotating machinery, electrical and electronic controls, and electrical energy. Prerequisite: DXPM 0850 or equivalent skills

EETH 2010
Industrial Elec. Controls Lab
1 Credit 2 Lab Hours
Parallels the EETH 2010 lecture course. Lab exercises include construction, measurement and analysis of control circuits. Corequisite: EETH 2010

EETH 2210
Circuit Analysis
2 Credits 1 Class Hour, 2 Lab Hours
A continuation of EETH 1210. Topics include application of previous training to troubleshoot solid-state electronic circuits and systems using basic tools and a review of two-port networks, filters, and transfer functions. Prerequisite: EETH 1210

EETH 2220
Electronic Communications
2 Credits 2 Class Hours
An introductory course in electronic communications. Topics covered will include signal generation, amplitude modulation, transmission and reception, single sideband systems, angle modulation transmission, angle modulation receivers, FM stereo and two-way FM, television, transmission lines, electro magnetic wave propagation, antennas and waveguides, microwave communications, and satellite communications. Prerequisite: EETH 1210
EETH 2225
Electronic Communications Lab
1 Credit 2 Lab Hours
Parallels the EETH 2250 lecture course. Lab exercises include construction, analysis and troubleshoot- ing of communications systems. Corequisite: EETH 2220

EETH 2230
Digital Communications
2 Credits 2 Class Hours
Advanced level communications course. Topics include optical fiber communication, digital communications, digital transmission, digital line encoding, multiplexing, high definition television, satellite multiple-access, mobile telephone service and digital radio. Prerequisite: EETH 1210

EETH 2235
Digital Communications Lab
1 Credit 2 Lab Hours
Parallels the EETH 2230 lecture course. Lab exercises include construction, analysis and troubleshooting digital communications systems. Corequisite: EETH 2230

EETH 2240
Instrumentation
2 Credits 2 Class Hours
Advanced course in the industrial transducer devices most commonly used by industry in Automated Process Control Systems. Topics include electrical and mechanical transducers applied in the measurement of temperature, pressure, flow and position, and exercises using computers and computer interfacing to give a realistic approach to the industrial application of these devices. Prerequisite: EETH 1210

EETH 2245
Instrumentation Lab
1 Credit 2 Lab Hours
Parallels the EETH 2240 lecture course. Lab exercises include building bridges, and work with transducers and computer interfaces. Corequisite: EETH 2240

EETH 2250
Intro to Fiber Optics
2 Credits 2 Class Hours
An introduction to optical fiber as another medium in which information can be transmitted, received, multiplexed, demultiplexed, and distributed. Topics include light sources, detectors, splices and connectors, coupler, fiber-optic systems, and installation and field types of fiber-optic equipment. Prerequisite: EETH 1210

EETH 2255
Intro to Fiber Optics Lab
1 Credit 2 Lab Hours
Parallels the EETH 2250 lecture course. Lab exercises include construction, installation, analysis and troubleshooting of fiber optic systems. Corequisite: EETH 2250

EETH 2330
Advanced PLC Programming
4 Credits 3 Class Hours, 3 Lab Hours
Advanced PLC instruction. Topics include shift register, bit and file manipulation, advanced logic and math instructions, remote I/Os, indirect addressing, communication to intelligent modules and developing diagnostic programs. Processor to processor communication is included. Prerequisite: EETH 2600 or IMC 2200

EETH 2340
Programmable Motion Contr
4 Credits 3 Class Hours, 3 Lab Hours
Advanced course in solid-state controls for rotating machinery. Topics include programmable AC, DC drives, single and multi axis controllers, and stepping motor controllers. Topics include the control of pick and place, continuous path robots, G-codes for programming of CNC equipment, encoders, resolvers, tachometers, synchros, accelerometers and motion transducers. Prerequisite: EETH 1110

EETH 2350
Graphical Machine Interfaces
3 Credits 2 Class Hours, 2 Lab Hours
Advanced course in graphical user interface as used in the industrial control applications. Topics include the creation and configuration of graphical operator interface panels using the Allen-Bradley Panel View and Microsoft Visual Basic programming language, and simple graphical pushbuttons up to the use of multiple screen graphic interfaces with data monitoring and analysis options. Prerequisite: EETH 2600 or IMC 2200

EETH 2360
Industrial Communications
3 Credits 2 Class Hours, 2 Lab Hours
An introductory course in data communication as used in the industrial environment. Topics will include the theoretical aspects of data communication such as bandwidth, channel capacities, error detection/correction, etc., setting up and configuring different types of networks, RS-232, RS485, Ethernet, fiber optics, wireless networks, and several proprietary industrial networks. Prerequisite: EETH 1110

EETH 2370
Programmable Process Contr.
3 Credits 2 Class Hours, 2 Lab Hours
An advanced course in closed-loop control systems and instrumentation. Topics include the modes of control and on the programming of intelligent controllers, PLC, application software used in the industrial environment for process control, and various process transducers for measurements of temperature, level, flow, etc. Prerequisite: EETH 1110

EETH 2380
Computer Integrated Lab
3 Credits 2 Class Hours, 3 Lab Hours
A continuation of EETH 2360 covering the integration of intelligent controllers and devices into the manufacturing system. Topics will include PLC, robots, CNC machinery, intelligent motion controllers, and troubleshooting techniques. Prerequisite: EETH 2600 and EETH 2340

EETH 2390
Robotics
4 Credits 3 Class Hours, 3 Lab Hours
An introductory application of robotics in the industrial environment. Adept AIM and V+ software will be used for the control of SCARA robots. Prerequisite: EETH 2600 and EETH 2340

EETH 2600
Automatic Control Systems
4 Credits 3 Class Hours, 2 Lab Hours
An introduction to a wide range of industrial automatic controls. The programmable logic controller is the base of study with the emphasis on programming. Included are the various types of transducers common to the industrial environment and the interfacing of I/O devices to the PLC. Modes of controls, process response, and the final correcting devices are discussed. Prerequisite: EETH 1210

EETH 2640
Power Distribution
4 Credits 3 Class Hours, 2 Lab Hours
An introductory course in electrical power distribution systems with a focus on the design of electrical distribution systems for industrial and commercial buildings. Topics include services, transformers, unit substations, switchboards, distribution circuit components, and fault, voltage, and power factor studies. Prerequisite: EETH 1110
ENGL 1010
English Composition I*
3 Credits (Honors Option Offered)
3 Class Hours
A study of style, syntax, and basic organizational patterns. Topics include various rhetorical patterns, audience, purpose, diverse perspectives, writing, revising, and editing. Research paper required. Prerequisites: DSPR 0800, DSPW 0800 or equivalent skills
* This course is part of the general education core.

ENGL 1020
English Composition II*
3 Credits (Honors Option Offered)
3 Class Hours
A study of argumentative and analytical writing. Topics include advanced methods of composition, analysis and explication of literature/essays, elements of persuasion, use of evidence, and advanced methods of research. Prerequisite: ENGL 1010
* This course is part of the general education core.

ENGL 1110
Writing with Research
1 Credit
1 Class Hour
A process approach to writing research projects in any content-area course. Topics include writing effective research papers using a step-by-step process approach; selecting and narrowing topics; writing thesis statements; outlining; locating and documenting sources; taking notes; writing introductions, body paragraphs, and conclusions; and writing rough and final drafts. Prerequisites: DSPR 0800 and DSPW 0800, or equivalent skills

ENGL 2010
Literature: Fiction*
3 Credits (Honors Option Offered)
3 Class Hours
An introduction to stories and novels. Topics include major literary themes, historical/social events that influenced the writers, literary terminology, characteristics of literature, interpretation of literature, and analysis of composition and style. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2010 meets the requirement for a Humanities elective.
* This course is part of the general education core.

ENGL 2020
Literature: Poetry and Drama*
3 Credits (Honors Option Offered)
3 Class Hours
An introduction to the works of major poets and dramatists. Topics include major literary themes, historical/social events that influenced the writers, literary terminology, characteristics of literature, interpretation of literature, and analysis of composition and major literary themes. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2020 meets the requirement for a Humanities elective.
* This course is part of the general education core.

ENGL 2030
Themes in Literature & Culture*
3 Credits (Honors Option Offered)
3 Class Hours
An analysis of significant primary texts as forms of cultural and creative expression. Specific topics are determined by the instructor and may include Gender, the Supernatural, Film, Comedy, Greek and Roman literature, mythology, Native American literature, and Southern literature. Students may register for this course multiple times as topics vary each semester. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2030 meets the requirement for a Humanities elective.
* This course is part of the general education core.

ENGL 2110
Survey of American Lit I*
3 Credits (Honors Option Offered)
3 Class Hours
A survey of American literature from the time of Colonial expansion through the Civil War period. Topics include works of significant writers of fiction, poetry, prose, and/or drama, and the relevant historical context. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2110 meets the requirement for a Humanities elective.
* This course is part of the general education core.

ENGL 2112
Communication
3 Credits
3 Class Hours
An introduction to the basic principles of effective report writing. Topics include organization, the gathering and synthesis of information, and oral presentations. Prerequisite: ENGL 1010. Note: ENGL 2112 does not meet the requirement for a general education core course.

ENGL 2115
Introduction to Journalism
3 Credits
3 Class Hours
An introduction to writing for print media. Topics include basic newsgathering techniques; interviewing; writing feature articles, press releases, and news stories for newspapers and other publications; and journalistic format according to Associated Press Stylebook & Libel Manual. Prerequisite: ENGL 1010

ENGL 2116
Writing for the Web
3 Credits
3 Class Hours
The development of comprehensible and useful content for the Web. Topics include critiques of the writing style of current Web pages, the design of online documentation, and the development of appropriate online copy. Prerequisite: ENGL 1010

ENGL 2118
Creative Writing
3 Credits
3 Class Hours
An introduction to the process of imaginative writing. Topics include evaluation of model stories, poems, and personal essays, genres of fiction, poetry, and creative non-fiction; and critical analysis of writing process and final work. Prerequisite: ENGL 1010

ENGL 2120
Survey of American Lit II*
3 Credits (Honors Option Offered)
3 Class Hours
A survey of American literature from the period of post Civil War regionalism through the present. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history which influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2120 meets the requirement for a Humanities elective.
* This course is part of the general education core.

ENGL 2133
Ethnic Lit: the United States*
3 Credits
3 Class Hours
A survey of American authors and poets of various ethnic backgrounds. Topics include biography, essays, poetry, and short fiction by African Americans, Asian Americans, Hispanic Americans, and Native Americans. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2133 meets the requirement for a Humanities elective.
* This course is part of the general education core.
ENGL 2140
Introduction to Cinema
3 Credits 3 Class Hours
An introduction to the basic elements of cinema. Topics include elements of classic films, techniques of analysis, and cinematic production techniques. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2140 meets the requirement for a Humanities elective.
* This course is part of the general education core.

ENGL 2210
Survey of British Lit I
3 Credits 3 Class Hours
A survey of British literature from Beowulf through Restoration and the Eighteenth Century. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history that influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2210 meets the requirement for a Humanities elective.
* This course is part of the general education core.

ENGL 2220
Survey of British Lit II
3 Credits 3 Class Hours
A survey of British literature from the period of Romanticism to the present. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history that influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2220 meets the requirement for a Humanities elective.
* This course is part of the general education core.

ENGL 2260
Elementary Children's Lit
3 Credits 3 Class Hours
An overview of age-appropriate children's literature. Topics include nine major genres of literature. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills

ENGL 2310
Survey of World Lit I
3 Credits 3 Class Hours
A survey of world literature from the ancient world through the Renaissance. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history that influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2310 meets the requirement for a Humanities elective.
* This course is part of the general education core.

ENGL 2320
Survey of World Lit II
3 Credits 3 Class Hours
A survey of world literature from the Age of Enlightenment to the present. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history that influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2320 meets the requirement for a Humanities elective.
* This course is part of the general education core.

Pre-Engineering

ENGR 2100
Statics
3 Credits 3 Class Hours
An introductory, calculus-based mechanics class. Topics include vector algebra, resultants, equilibrium, friction, centroids, moment of inertia, trusses, machines and frames, beam shear and moments. Prerequisite: MATH 1920

ENGR 2200
Dynamics
3 Credits 3 Class Hours
An advanced, calculus-based mechanics class. Topics include particle kinematics; relative motion; kinetics, applications of Newton's Laws, work-energy principle, impulse-momentum principle, and mechanical vibrations. Prerequisite: ENGR 2100

ENGR 2300
Thermodynamics
3 Credits 3 Class Hours
An introduction to thermodynamics. Topics cover concepts, models and laws; energy and the first law; properties and state; energy analysis of thermodynamics systems; entropy and the second law; conventional power and refrigeration cycles. Prerequisite: PHYS 2110

Engineering Technology

ENGR 1000
Intro to Engr Technology
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to any engineering technology discipline. Emphasizes the type of work done in the various engineering technology disciplines and how the disciplines relate to each other. Topics include basic computer usage, internet use, word processing, and spreadsheets, and presentation of findings and teamwork.

Entrepreneurship

ENTR 1600
Entrepreneurship
3 Credits 3 Class Hours
An introduction to entrepreneurship. Topics include economic, social and political climate; demographic, technological and social changes; skills, challenges, and rewards of entrepreneurship.

ENTR 1700
Business Financial Management
3 Credits 3 Class Hours
An introduction to the sources for funding a small business. Topics include terminology, financial statements, loan proposals, working capital, cash management, financing needs, credit policies, and sales forecasts. Prerequisite or corequisite: ENTR 1600

ENTR 2200
Business Plan Fundamentals
3 Credits 3 Class Hours
An introduction to business planning. The students will assess business strengths and weaknesses; collect and organize market data; develop a business plan, marketing plan, and the financial plan. Prerequisites: ENTR 1600 and ENTR 1700
English as a Second Language

ESOL 0121
Conversation I
3 Credits 3 Class Hours
This course is for high beginning students. Students will learn to talk about common topics, make simple conversation and engage in basic discussions.

ESOL 0122
Conversation II
3 Credits 3 Class Hours
This course is for low intermediate students. Students will discuss and react to listennings on American culture topics. Prerequisite: ESOL 0121 or equivalent skills

ESOL 0123
Conversation III
3 Credits 3 Class Hours
This course is for high intermediate students. Students will converse in more depth on social and academic topics and participate in academic discussions. Prerequisite: ESOL 0122 or equivalent skills

ESOL 0124
Communication Skills
3 Credits 3 Class Hours
This course is at the advanced level. Students will listen to and take notes on academic lectures as well as learn basic public speaking skills. Prerequisite: ESOL 0123 or equivalent skills

ESOL 0131
Literacy I
3 Credits 3 Class Hours
This course is for high beginners. Students will learn to write basic sentences and read paragraphs and short stories.

ESOL 0132
Literacy II
3 Credits 3 Class Hours
This course is for low intermediate students. Students will learn to write grammatically correct sentences and basic paragraphs, read and understand simple paragraphs, and respond to the readings in writing. Prerequisite: ESOL 0131 or equivalent skills

ESOL 0133
Literacy III
3 Credits 3 Class Hours
This course is for high intermediate students. Students will learn basic paragraph form, basic summarizing skills, and increase vocabulary and reading abilities. Students will read abridged novels and academic texts. Prerequisite: ESOL 0132 or equivalent skills

ESOL 0141
Spelling and Vocabulary
3 Credits 3 Class Hours
A study of English spelling rules and the Latin and Greek roots, prefixes, and suffixes which make up professional English lexicons. Corequisite: ESOL 0133 or equivalent skills

ESOL 0151
Grammar I
3 Credits 3 Class Hours
This course is for high beginners. Students will learn to form simple statements and questions.

ESOL 0152
Grammar II
3 Credits 3 Class Hours
This course is for low intermediate students. Students will focus on more complex grammar topics and apply them to speaking and writing. Prerequisite: ESOL 0151 or equivalent skills

ESOL 0153
Grammar III
3 Credits 3 Class Hours
This course is for high intermediate students. Students will study grammar topics that will provide a foundation for advanced grammar study. Prerequisite: ESOL 0152 or equivalent skills

ESOL 0154
Grammar IV
3 Credits 3 Class Hours
This course is an advanced grammar course that will complement higher level reading and writing courses such as DSPR and DSPW. Prerequisite: ESOL 0153 or equivalent skills

ESOL 0163
Intro to Amer Academic Culture
3 Credits 3 Class Hours
A beginning study of American culture and its effects on education.

ESOL 0121
Conversation I
3 Credits 3 Class Hours
This course is for high beginning students. Students will learn to talk about common topics, make simple conversation and engage in basic discussions.

ESOL 0122
Conversation II
3 Credits 3 Class Hours
This course is for low intermediate students. Students will discuss and react to listennings on American culture topics. Prerequisite: ESOL 0121 or equivalent skills

ESOL 0123
Conversation III
3 Credits 3 Class Hours
This course is for high intermediate students. Students will converse in more depth on social and academic topics and participate in academic discussions. Prerequisite: ESOL 0122 or equivalent skills

ESOL 0124
Communication Skills
3 Credits 3 Class Hours
This course is at the advanced level. Students will listen to and take notes on academic lectures as well as learn basic public speaking skills. Prerequisite: ESOL 0123 or equivalent skills

ESOL 0131
Literacy I
3 Credits 3 Class Hours
This course is for high beginners. Students will learn to write basic sentences and read paragraphs and short stories.

ESOL 0132
Literacy II
3 Credits 3 Class Hours
This course is for low intermediate students. Students will learn to write grammatically correct sentences and basic paragraphs, read and understand simple paragraphs, and respond to the readings in writing. Prerequisite: ESOL 0131 or equivalent skills

ESOL 0133
Literacy III
3 Credits 3 Class Hours
This course is for high intermediate students. Students will learn basic paragraph form, basic summarizing skills, and increase vocabulary and reading abilities. Students will read abridged novels and academic texts. Prerequisite: ESOL 0132 or equivalent skills

ESOL 0141
Spelling and Vocabulary
3 Credits 3 Class Hours
A study of English spelling rules and the Latin and Greek roots, prefixes, and suffixes which make up professional English lexicons. Corequisite: ESOL 0133 or equivalent skills

ESOL 0151
Grammar I
3 Credits 3 Class Hours
This course is for high beginners. Students will learn to form simple statements and questions.

ESOL 0152
Grammar II
3 Credits 3 Class Hours
This course is for low intermediate students. Students will focus on more complex grammar topics and apply them to speaking and writing. Prerequisite: ESOL 0151 or equivalent skills

ESOL 0153
Grammar III
3 Credits 3 Class Hours
This course is for high intermediate students. Students will study grammar topics that will provide a foundation for advanced grammar study. Prerequisite: ESOL 0152 or equivalent skills

ESOL 0154
Grammar IV
3 Credits 3 Class Hours
This course is an advanced grammar course that will complement higher level reading and writing courses such as DSPR and DSPW. Prerequisite: ESOL 0153 or equivalent skills

ESOL 0163
Intro to Amer Academic Culture
3 Credits 3 Class Hours
A beginning study of American culture and its effects on education.

French

FREN 1010
French I
3 Credits 3 Class Hours
An introduction to the French language. Provides a foundation in reading, writing, speaking, and aural comprehension. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills

FREN 1020
French II
3 Credits 3 Class Hours
A continuation of the reading, writing, speaking, and aural skills mastered in FREN 1010. Prerequisite: FREN 1010 or permission of instructor

FREN 2010
French III
3 Credits 3 Class Hours
A continuation of the development of the student's knowledge of French. Builds aural comprehension, speaking, and composition skills. Includes study of French literature and culture. Prerequisite: FREN 1020 or permission of instructor

FREN 2020
French IV
3 Credits 3 Class Hours
A continuation of the development of the student's knowledge of French. Students build aural comprehension, speaking ability, and composition skills. Broadens study of French literature. Prerequisite: FREN 2010 or permission of instructor

Geography

GEOG 1010
World Regional Geography I*
3 Credits 3 Class Hours
A survey of the geographic regions of the world, including studies of the physical character of the land, resources, economics, and cultures. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills. Note: GEOG 1010 meets the requirement for a Social Science elective.

GEOG 1020
World Regional Geography II*
3 Credits 3 Class Hours
A continuation of GEOG 1010. Selected topics and world regions, especially those with problems or situations of contemporary interest, to illustrate geographical points of view. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills. Note: GEOG 1020 meets the requirement for a Social Science elective.
Geology

GEOL 1040
Physical Geology*
4 Credits 3 Class Hours, 3 Lab Hours
This course is an introduction to the principles of modern Geology, emphasizing the origin, composition, and evolution of the solid earth. Rock-forming minerals, igneous, sedimentary, and metamorphic rocks, rock and hydrologic cycles, plate tectonics, earthquakes, landform development and geologic times are covered. The course includes identification and description of minerals and rock samples, and use of topographic and geological maps. Prerequisite: DSPM 0800 and DSPR 0800 or equivalent skills.

GEOL 1110
Earth Science*
4 Credits 3 Class Hours, 3 Lab Hours
This course provides a background in the physical, chemical, and biological principles that shape our planet. Topics covered are geology, astronomy, meteorology, oceanography, energy, the environment, and basic chemical and biological processes. Prerequisite: DSPM 0800 and DSPR 0800 or equivalent skills.

*This course is part of the general education core.

History

HIST 1110
World Civilization I
3 Credits 3 Class Hours
A study of social, cultural, economic, and political aspects of significant civilizations from the period of unwritten history through the seventeenth century. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.

HIST 1120
World Civilization II
3 Credits 3 Class Hours
A study of the social, cultural, economic, and political aspects of significant civilizations from the 17th century to the present. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills.

HIST 2020
American People Since 1877
3 Credits 3 Class Hours
A study of the social, cultural, economic, and political aspects of American life from the Reconstruction period to the present. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.

HIST 2030
Tennessee History
3 Credits 3 Class Hours
A study of the history of Tennessee from the neolithic era to the present. Course themes include social, cultural, economic, and political activities throughout the state’s history. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.

Horticulture

HORT 1010
Intro to Horticulture
3 Credits 3 Class Hours, 0 Lab Hours
A study of the principles of plant science and practices underlying occupations in horticulture. Emphasizes cultural methods affecting plant growth and provides a broad perspective of the horticultural industry.

HORT 1110
Landscape Plant Materials I
3 Credits 3 Class Hours, 0 Lab Hours
A study of identification, culture, characteristics and use of plants. Topics include nomenclature, identification, growth and cultural requirements, soil preferences, and landscape applications are emphasized. Students acquire knowledge in proper selection and utilization of plant materials.

HORT 1120
Landscape Design
3 Credits 3 Class Hours, 0 Lab Hours
An introduction to landscape design principles and practices for residential sites. Topics include drafting, site analysis and common elements of good design, plant material selection, proper plant utilization, and design implementation. Students learn to read, plan, draft, and implement a landscape design.

HORT 1140
Landscape Construction
3 Credits 3 Class Hours, 0 Lab Hours
An introduction to hardscape structures in the landscape. Topics include material selection, construction techniques, and fabrication. Students learn to design and construct common hardscape features such as walkways, walls, and decks.

HORT 1210
Turfgrass Management
3 Credits 3 Class Hours, 0 Lab Hours
A detailed study of turf grass. Topics include seeding, reproduction, growth and development, species characteristics, fertilization practices, pest and disease control, maintenance of golf courses, and athletic and recreational lawns. Students learn how to establish and maintain a high quality turf-grass area.

HORT 1310
Horticultural Pesticides
3 Credits 3 Class Hours, 0 Lab Hours
A study of the identification and control of plant pests including insects, diseases, and weeds. Topics include pest identification and chemical regulation, pesticide application, and safety. Course work will satisfy re-certification point requirements and prepare students to take the Tennessee Commercial Pesticide Applicators License test and the test for certification in Ornamental and Turf (C03).

HORT 1410
Arboriculture
3 Credits 3 Class Hours, 0 Lab Hours
A study of the identification, culture, and maintenance of landscape trees and shrubs. Topics include installation, fertilization, pruning, disease and insect control, and physiological problems. Students acquire knowledge in proper arboriculture practices.

HORT 1510
Principles of Mgmt/Horticulture
3 Credits 3 Class Hours, 0 Lab Hours
An introduction to a variety of topics from the areas of business management, customer service, and human resource management as they apply to the horticulture industry.
ORT 2010
Internship I
1 credit
An internship that provides on-the-job experience and demonstrates mastery of horticulture skills through placement with an established business in middle Tennessee. Students will work with the program coordinator to establish a work career experience with a business best suited to their interests and career goals. Internships include the areas of landscape contracting and maintenance, plant retail/wholesale, garden center/nursery, turf management, irrigation, pest control and others.

HORT 2020
Internship II
1 credit
An internship that provides on-the-job experience and demonstrates mastery of horticulture skills through placement with an established business in middle Tennessee. Students will work with the program coordinator to establish a work career experience with a business best suited to their interests and career goals. Internships include the areas of landscape contracting and maintenance, plant retail/wholesale, garden center/nursery, turf management, irrigation, pest control and others.

HORT 2110
Landscape Plant Materials II
3 Credits 3 Class Hours, 0 Lab Hours
A continuation of HORT 1110 and study of additional plants. Students acquire knowledge in the proper selection and utilization of plant materials.

HORT 2120
Advanced Landscape Design
3 Credits 3 Class Hours, 0 Lab Hours
A study of residential and commercial landscape design, cost analysis, and installation. Topics include blueprint analysis, pricing, design implementation, and special projects.

Industrial Electrical Maintenance

IMC 1010
Blueprint Reading for Industry
2 Credits 4 Lab Hours
Designed to develop the necessary skills needed in interpreting industrial engineering drawings. Topics include the essential concepts of lines, geometric constructions, multi-view projection techniques, units of measurement, fits, dimensions, machining symbols, sections, tolerances, and many other topics related to the drawings used in industry.

IMC 1100
Electrical Maintenance Orient.
4 Credits 3 Class Hours, 3 Lab Hours
This is an introductory course in electricity that includes the basics of physics and mathematics while developing structured problem-solving techniques along with basic computer skills. The primary focus is to prepare the student for following electrical maintenance courses. Topics include laws of motion, simple machines, basic thermodynamics, and the behavior of matter while reviewing algebra, simple geometry, and right angle trigonometry.

IMC 1110
Machine Tool I
4 Credits 3 Class Hours, 3 Lab Hours
This is a course which presents various machines and methods used to make parts from stock materials. Topics include all standard types of machines used for metal removal including their various accessories and cutters, the selection of proper cutting tools and speeds/feeds for use on mills, lathes, saws and drill presses, and methods of layout, inspection, measurement, and gauging.

IMC 1150
DC and AC Circuits
4 Credits 2 Class Hours, 6 Lab Hours
This is a course in the basic principles of electricity. Topics include voltage, current, resistance, power, Ohm's Law, Kirchhoff's Law, and how they relate to DC and AC series, parallel and combination circuits, power factor, metering, and an introduction to transformers.

IMC 1200
Digital Principles
4 Credits 3 Class Hours, 3 Lab Hours
An introduction to components and systems used in modern electronic equipment. Topics include digital logic, integrated circuits and components, applications, and system design fundamentals along with selected topics in diodes, transistors, and thyristors. Prerequisite: IMC 1150

IMC 1210
CNC Machining I
4 Credits 3 Class Hours, 3 Lab Hours
This is a beginning course in CNC machining. Topics include the various CNC machines with emphasis on lathes and machining centers, the history and future of CNC machining, the methods of program planning and writing, using right angle trigonometry to locate points in part programs, the Cartesian Coordinate System, the different machining cycles and methods from a program writing perspective, and some machine operation.

IMC 1310
Machine Tool II
4 Credits 3 Class Hours, 3 Lab Hours
This is a continuation of IMC 1110. Topics include grinding machines, heat treatment processes, methods and procedures used in more complex machining operations, the use of several different machine tools, and planning the procedures step by step to complete individual projects. Prerequisite: IMC 1110

IMC 1410
CNC Machining II
4 Credits 3 Class Hours, 3 Lab Hours
This is a continuation of IMC 1210. Topics include using the program writing skills achieved in CNC Machining I to make parts and projects, and CAD/CAM procedures of generating NC code for part programs. Prerequisite: IMC 1210

IMC 2015
Hydraulics and Pneumatics
4 Credits 3 Class Hours, 3 Lab Hours
This course covers fluid mechanics with emphasis on the use of hydraulics and pneumatics for power transmission and control purposes. Basic theory and application covers the relationship between fluid flow and pressure, accumulators, actuators and the control of both fluid and air.

IMC 2100
Electrical Machine/Controls
4 Credits 2 Class Hours, 6 Lab Hours
This is an introductory course in electrical machines and transformers. Topics include DC motors and generators; single- and three-phase AC motors, alternators and synchronous motors; single- and three-phase transformers; instrument transformers and auto-transformers and their associated terminology and applications. Prerequisite: IMC 1150

IMC 2150
Control Applications
4 Credits 3 Class Hours, 3 Lab Hours
This is an introduction to various means of controlling A.C. and D.C. machinery through the use of relays and NEMA logic. Topics also include reading electrical drawings, troubleshooting circuits and interfacing programmable controllers with relay logic. Corequisites: IMC 2100 and IMC 2100
IMC 2200
Programmable Logic Controllers
5 Credits 3 Class Hours, 4 Lab Hours
This is a continuation of IMC 2150. Topics include programmable controller history, application, memory organization, I/O configuration and programming, times, counter, storage registers, data transfer, data comparison, and maintenance procedures along with conversion of ladder diagrams to PLC programming. Prerequisite: IMC 2150 or consent of instructor

IMC 2250
Interpreting Tech Information
3 Credits 2 Class Hours, 3 Lab Hours
A comprehensive course in solving calculations as specified by the National Electrical Code (N.E.C.). Includes load calculations, service equipment, disconnect means, circuit protection, sizing of conductors, over current protection, feeder bus systems, panel boards, branch circuit design and calculations. Prerequisite: IMC 2150 or consent of instructor

Mathematics

MATH 0990
Geometry
3 Credits 3 Class Hours
An introduction to geometry meeting A-89 requirements. Topics include a study of two-dimensional and three-dimensional symmetric figures, similarity, congruence, basic geometrical constructions, properties and relationships of the right triangle, measurement and calculation of areas and volumes, and the use of logic and geometrical thought to solve common application problems.

MATH 1010
Math for Liberal Arts*
3 Credits 3 Class Hours
An introductory mathematics course for non-science majors emphasizing applications. Topics include problem solving, sets, logic, algebra, probability, statistics, consumer mathematics, and finance. Prerequisite: DSPM 0850
* This course is part of the general education core.

MATH 1075
Business Mathematics
3 Credits 3 Class Hours
An introduction to business mathematics applications presented with an algebraic base. Topics include discounts, taxes, logarithms, simple and compound interest, annuities, loans and investments, and descriptive statistics. Prerequisite: DSPM 0850

MATH 1130
College Algebra*
3 Credits 3 Class Hours
A traditional college algebra course for non-science majors. Topics include rational and exponential expressions, the concept of functions and their inverses, linear functions and equations including equations with radicals and absolute values, quadratic functions and equations, exponential and logarithmic functions and equations, graphs of basic functions, systems of equations, and inequalities. Prerequisite: DSPM 0850
* This course is part of the general education core.

MATH 1410
Math for Elem Education I*
3 Credits 3 Class Hours
An introductory first course in math for elementary education which is restricted to students majoring in Elementary or Early Childhood Education. Topics include tools for problem solving, sets and operations on sets, functions, logic, number system, algebra-based study of properties of and operations with whole numbers, integers, rational numbers, and real numbers. Prerequisite: DSPM 0850
* This course is part of the general education core.

MATH 1420
Math for Elem Education II*
3 Credits 3 Class Hours
A continuation of MATH 1410 and the second course in math for elementary education which is restricted to students majoring in Elementary or Early Childhood Education. Topics include introductory elements of probability and statistics and the basic concepts of Euclidean geometry and coordinate geometry including congruence, similarity, measurements, areas, and volumes. Prerequisite: MATH 1410
* This course is part of the general education core.

MATH 1530
Probability/Statistics*
(Formerly MATH 1510)
3 Credits 3 Class Hours
A traditional college trigonometry or first course in precalculus. Topics include functions/inverses and their graphs, inequalities, linear equations and functions, quadratic equations and functions, radical expressions and equations, polynomial functions, rational expressions and functions including complex and partial fractions, exponential and logarithmic functions, complex numbers, matrices, determinants, systems of equations, sequences and series, and applications. Prerequisite: DSPM 0850
* This course is part of the general education core.

MATH 1570
Precalculus II*
3 Credits 3 Class Hours
A traditional college trigonometry or second course in precalculus. Topics include the trigonometric functions of the general and acute angles, right and oblique triangles, related angles, degree/radian measure, trigonometric equations, inverse trigonometric functions, graphs of the trigonometric functions, identities, vectors, complex numbers in polar form, the polar coordinate system, conic sections, parametric equations, and applications. Prerequisite: MATH 1710
* This course is part of the general education core.
MATH 1730
Precalculus* (formerly MATH 1085)
5 Credits 5 Class Hours
A single introductory course for the preparation for calculus. Topics include an overview of elementary algebra, elementary geometry, introduction to trigonometric functions and inverses, vectors, introduction to complex numbers, exponential and logarithmic functions and equations, solving various types of equalities and inequalities, quadratic equations and functions, systems of linear and nonlinear equations, systems of linear equations, and determinants. Prerequisite: DSPM 0850
* This course is part of the general education core.

MATH 1830
Concepts of Calculus* (formerly Calculus for Business/Biology)
3 Credits 3 Class Hours
An introduction to calculus without a requirement for trigonometry with applications from business, economics, life sciences, and health sciences. Topics include a survey of limits, continuity, differentiation, integration, related rates, maximum-minimum problems, and exponential growth and decay. Prerequisite: MATH 1710 or MATH 1130
* This course is part of the general education core.

MATH 1840
Calculus for Technology (formerly MATH 1095)
3 Credits 3 Class Hours
An introductory calculus course requiring some trigonometry and emphasizing technical applications. Topics include a survey of limits, continuity, differentiation, integration, related rates, maximum-minimum problems, and exponential growth and decay. Prerequisite: MATH 1720 or MATH 1730

MATH 1910
Calculus & Analytic Geom I*
4 Credits 4 Class Hours
An introductory first course in the traditional three-course calculus sequence. Topics include plane analytical geometry, function theory including limits and continuity, the differential and integral calculus of algebraic and trigonometric functions of one independent variable, curve sketching, maxima and minima, related rates, areas under and between curves, and volume. Prerequisites: MATH 1720 or MATH 1730
* This course is part of the general education core.

MATH 1920
Calculus & Analytic Geom II
4 Credits 4 Class Hours
A continuation of MATH 1910 and the second course in the traditional three-course calculus sequence. Topics include study of the differential and integral calculus of exponential and logarithmic functions of one independent variable, further exploration of the trigonometric functions, further applications of the definite integral, integration techniques, infinite series, parametric equations, and polar coordinates. Prerequisite: MATH 1910

MATH 2110
Calculus & Analytic Geom III
4 Credits 4 Class Hours
A continuation of MATH 1920 and the third course in the traditional three-course calculus sequence. Topics include solid analytical geometry, the calculus of more than one independent variable, surfaces and curves in space, cylindrical and spherical coordinate systems, vectors and vector-valued functions, partial derivatives, multiple integrals, and applications. Prerequisite: MATH 1920

MATH 2120
Differential Equations
3 Credits 3 Class Hours
An introductory first course in differential equations. Topics include linear first-order differential equations, applications, homogeneous linear differential equations, second-order linear equations, systems of differential equations, and the Laplace Transform method. Prerequisite: MATH 1920

MKT 1400
Customer Service & Sales
3 Credits 3 Class Hours
An introduction to the fundamentals of customer service and selling. Topics include developing and conveying a positive attitude, identifying buying motives and customer needs, developing and delivering a sales presentation, customer approaches, sales strategies, and cultivating repeat business through service. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

MKT 2220
Marketing
3 Credits 3 Class Hours
A study which presents information concerning the practices and basic principles of marketing from origin to the ultimate consumer. Topics include the marketing mix, buyer behavior, organization and planning, channels of distribution, and promotion. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

MKT 2221
Consumer Behavior
3 Credits 3 Class Hours
A study of how consumer behavior influences the marketing manager’s decisions. Topics include the social, physiological, psychological, and environmental factors. Decision-making processes that have an effect on the purchasing and use of goods and services by individuals and households are included. Prerequisites: DSPR 0800, DSPW 0700 or equivalent skills, MKT 2220

Music Technology

MST 1110
Fundamentals of Music
3 Credits 3 Class Hours
An introduction to reading and writing music. Topics include key and time signatures, song form, melody, harmony, chords, and the Nashville number system.

MST 1120
Mastering
3 Credits 2 Class Hours, 2 Lab Hours
Mastering is the final creative step in music production, before the manufacturing process. Topics include how mastering has evolved, the relationship of mixing and mastering, business responsibilities, and modern techniques and equipment. Prerequisite: MST 1240

MST 1130
Intro to Studio Recording
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the recording studio. Topics include microphones, analog and digital recorders, the recording console, signal processing, and recording techniques.

MST 1140
Intro to MIDI
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to basic MIDI (Musical Instrument Digital Interface) concepts and techniques. Topics include keyboard programming, sound modules, sequencing, and electronic music production.
MST 1210
The Business of Music
3 Credits 3 Class Hours
An introduction to the music business. Topics include record companies, management, promotion, publicity, and radio. Career opportunities are discussed.

MST 1220
Songwriting
3 Credits 3 Class Hours
An introduction to basic songwriting. Topics include lyric and melody construction, working with music publishers and performance rights organizations. Professionally written songs and students' songs are analyzed in class.

MST 1230
Advanced Studio Recording
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of MST 1130. Topics include digital audio, tape machine alignment, mixing, stereo microphone techniques, and the creative use of signal processors. Prerequisite: MST 1130

MST 1240
Desktop Digital Audio
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the use of computers in recording, editing, and mixing digital audio. Topics include software based music production, sound design, looping, and mastering.

MST 1260
Advanced MIDI
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of MST 1140. Topics include computer based sequencing, editing, and advanced electronic music production techniques. Prerequisite: MST 1140

MST 1300
Songwriting
3 Credits 3 Class Hours
An introduction to the music business. Topics include co-writing, demo production and writing for specialty markets. Prerequisite: MST 1220

MST 1340
Music Publishing
3 Credits 3 Class Hours
An introduction to the music publishing industry. Topics include self-publishing vs. professional publishing, starting your own publishing company, song plugging, and performance rights organizations.

MST 1360
Advanced Desktop Digital Audio
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of MST 1240. Topics include advanced recording, editing and mixing techniques, plug-ins, tuning, synchronization and audio for video. Prerequisite: MST 1240

MST 1410
Advanced Music Publishing
3 Credits 3 Class Hours
A continuation of MST 1340. Topics include getting songs to the right people, indie markets and foreign markets. Students write and issue licenses and agreements, and acquire new copyrights. Prerequisite: MST 1340

MUS 1025
Freshman Aural Skills I
1 Credit 1 Class Hour
A lab developing ear-training skills, including sight-singing and music dictation. Prerequisites: MUS 1010 or permission of instructor. Corequisite: MUS 1020

MUS 1026
Freshman Aural Skills II
1 Credit 1 Class Hour
A continuation of the ear-training skills acquired in Aural Skills I. Prerequisites: MUS 1025 and MUS 1020. Corequisite: MUS 1021

MUS 1030
Music Appreciation*
3 Credits 3 Class Hours
A survey of music from the Middle Ages, the Renaissance, the 18th and 19th centuries, and modern times. Topics include folk music, popular music, world music, music theory, and cultural and historical influences. Prerequisites: DSPW 0800 and DSPR 0800 or demonstrated equivalent skills. MUS 1030 meets the general education requirement for Humanities.

* This course is part of the general education core.

MUS 1040
Class Guitar
1 Credit 3 Class Hours
Basic instruction in guitar with emphasis on classical and popular guitar techniques and reading standard music notation and chord charts. Ownership or rental of a guitar is required.

MUS 1307
College Choir
1 Credit 3 Class Hours
The college choir is a mixed ensemble performing in a variety of musical genres.

MUS 1010
Materials of Music
3 Credits 3 Class Hours
An introduction to music notation and the basics of music theory. Topics include keys, scales, simple chords, and practice in listening skills.

MUS 1014
Class Voice
1 Credit 1 Class Hour
An introduction to basic vocal skills, such as breath control and tone production.

MUS 1020
Freshman Music Theory I
5 Credits 3 Class Hours
A survey of the grammar of music with emphasis on diatonic harmony, including the major and minor chords and their inversions and part-writing. Prerequisites: MUS 1010 or permission of instructor. Corequisite: MUS 1025

MUS 1021
Freshman Music Theory II
5 Credits 3 Class Hours
A continuation of MUS 1020. Prerequisite: MUS 1020 Corequisite: MUS 1026

Course Descriptions
OAD 1000
Basic Keyboarding
1 Credit 1 Class Hour
A beginning keyboarding course with an emphasis on the development of speed and accuracy using the touch typing system. Topics include the alphabetic, numeric, and symbol keys.

OAD 1010
Databases Using Access™
4 Credits 4 Class Hours
An introductory database course that provides experience using the basic functions of Microsoft® Access™. Topics include creating tables, queries, forms, and reports. Students will design and create an original database for the office.

OAD 1015
Business English/Communication
4 Credits 4 Class Hours
A course focusing on the importance of developing good oral and written communication skills. Topics include verbal vs. nonverbal communication, cultural impact on communication, the writing process and techniques, writing effective correspondence, and formal reports with assignments to help improve writing, listening, nonverbal, and speaking skills. An emphasis will be placed on grammar, proofreading, and formatting documents.

OAD 1040
Keyboarding/Speedbuilding
3 Credits 3 Class Hours
An introductory keyboarding course using computers with emphasis on technique, mastery of the keyboard, and speedbuilding. Students are guided through touch-typing and speedbuilding exercises with software that immediately calculates speed and accuracy. Also includes formatting of basic business documents. Note: For students with keyboarding skills, a credit by examination can be taken.

OAD 1050
FrontPage® Web Projects
3 Credits 3 Class Hours
A Web site development course using FrontPage®. Topics include principles of Web design and layout, formatting, creating hyperlinks, bookmarks, tables, frames, shared borders and themes, assigning styles, and publishing.

OAD 1180
Beginning Word
4 Credits 4 Class Hours
An introductory course designed to present the basic functions of Microsoft® Word. Topics include such features as creating, printing, managing files, tabs, manipulating text, formatting, sections, headers and footers, and endnotes. Prerequisites: OAD 1120 and DSPR 0800

OAD 1185
Advanced Word
4 Credits 4 Class Hours
A continuation of OAD 120. Topics include such features as merge, tables, borders, images, drawing objects, WordArt, charts, macros, styles, sorting and selecting, forms, tracking, and table of contents and indexes.

OAD 1220
Presentations With PowerPoint®
3 Credits 3 Class Hours
An electronic presentations course using PowerPoint®. Topics include creating slide shows with features such as transitions, animations, charts, Clip Art, and WordArt. Students will develop and present an original slide show for the office.

OAD 1260
Spreadsheets Using Excel®
3 Credits 3 Class Hours
An introductory course providing instruction in the basic features of Excel® that the student will use in both personal and office applications. Topics include editing and formatting tools; working with cells, columns, rows, and sheets; using simple, logical, and advanced formulas and functions; building charts and adding design elements; and working with ranges, templates, and macros.

OAD 2400
Office Accounting
4 Credits 4 Class Hours
An introduction to basic accounting procedures for the office. Topics include analyzing, journalizing, and posting transactions, recording adjusting and closing entries, preparing financial statements, recording payroll data, and reconciling bank statements. Students complete a practice set and computerized accounting exercises.

Prerequisite: DSPM 0850
OAD 2600  
**Medical Transcription I**  
3 Credits  3 Class Hours  
An introductory medical transcription course introducing students to the interesting and challenging world of medical transcription. Topics include medical terminology, reinforcement of English language skills, appropriate format, and production of medical documents, including history and physical, x-ray, operative, consult, autopsy, and other medical reports. Prerequisites: BIOL 1000 with a grade of “C” or higher and OAD 1115 and OAD 1220.

OAD 2610  
**Medical Transcription II**  
3 Credits  3 Class Hours  
A continuation of medical transcription course with continued emphasis on medical terminology and the production of medical reports dictated from actual medical cases with real-life situations, i.e., background noise, foreign dictators, and newly-developed procedures. Topics include 15 medical specialties in a hospital or clinical setting. Prerequisite: OAD 2600 with a grade of “C” or higher.

OAD 2620  
**Medical Office Management**  
3 Credits  3 Class Hours  
A study of the responsibilities encountered by medical office personnel. Topics include organization and function, layout and equipment, and selection, training, and supervision of personnel. This course instructs the student in the proper preparation of medical and financial records, filing, billing, scheduling, and handling mail and telephones. Confidentiality and release of information will be studied. Prerequisite: OAD 1120.

OAD 2630  
**ICD-CM Coding**  
3 Credits  3 Class Hours  
A study of the coding and classification of diseases, symptoms, operations, and procedures according to the International Classification of Diseases, Clinical Modification (ICD-9-CM). Topics include assignment of diagnosis and procedure codes utilizing proper coding guidelines. Prerequisites: BIOL 1000 and BIOL 1004 with a grade of “C” or higher. OAD 2630 and OAD 2635 cannot be taken at the same time.

OAD 2635  
**CPT Coding**  
3 Credits  3 Class Hours  
A study of the descriptive terms and identifying codes for reporting medical services and procedures according to the latest edition of Physicians’ Current Procedural Terminology (CPT). Topics include CPT coding format and conventions, applying coding guidelines to ensure accurate code assignment, complexities of assigning evaluation and management codes, and the format and usage of HCPCS National Codes and modifiers. Prerequisites: BIOL 1000 and BIOL 1004 with a grade of “C” or higher. OAD 2630 and OAD 2635 cannot be taken at the same time.

OAD 2645  
**Coding Capstone**  
3 Credits  3 Class Hours  
A second year advanced course that applies coding knowledge learned from preceding courses. Required for all coding students. Topics include ICD and CPT code assignments, application of coding guidelines to ensure accurate code assignment and correct code sequencing. Preparation for coding certification will be emphasized. Prerequisites: OAD 2630 and OAD 2635 with a grade of “C” or higher.

OAD 2650  
**Medical Insurance**  
3 Credits  3 Class Hours  
A study of insurance billing procedures. Topics include instruction for completing pertinent forms for third-party payers. Reimbursement methods for billing and reporting are discussed. Prerequisite or corequisite: OAD 2635.

OAD 2660  
**Pharmacology**  
3 Credits  3 Class Hours  
An introduction to generic and product names of a variety of medications, drug classifications, and general therapeutic applications. Topics include history of drugs, the drug approval process, applicable prescription and over-the-counter drugs for every body system. Prerequisite: BIOL 1000 with a grade of “C” or higher.

OAD 2700  
**Administrative Transcription**  
3 Credits  3 Class Hours  
An introductory machine transcription course that gives practical experience in transcribing and formatting a variety of business documents. Topics include a continued emphasis on the importance of producing mailable documents by strengthening proofreading, editing, and formatting skills. Prerequisites: OAD 1115 and OAD 1220.

OAD 2820  
**Desktop Publishing/Web Design**  
4 Credits  4 Class Hours  
A study of desktop publishing focusing on the practical application of concepts and terminology with an introduction of Web design. Topics include planning, designing, and evaluating both personal and business documents, as well as planning and designing a Web page. Documents covered will include letterhead, business cards, brochures, calendars, newsletters, flyers, invitations, and postcards. Corequisite: OAD 2230.

OAD 2830  
**Office Management**  
3 Credits  3 Class Hours  
A study of the importance of the soft skills such as critical thinking, teamwork, interpersonal, and leadership skills that today’s administrative professional must possess to succeed. Topics include preparing and giving presentations, planning meetings, handling mail, filing, and writing business correspondence. Office management topics include time and project management, office organization, career planning, business ethics, and the selection, training, and supervision of personnel. Prerequisites: OAD 2230, OAD 2250, and OAD 2260.

OAD 2900  
**Integrated Software Projects**  
3 Credits  3 Class Hours  
A second-year advanced course that emphasizes the integration of software skills. Topics include office-related assignments using word processing, database, spreadsheet, and presentation software, as well as email management and calendar scheduling. A comprehensive exam will be given at the end of the semester covering software applications. Prerequisites: OAD 1010, OAD 2230, OAD 2250, and OAD 2260.

OTA 1110  
**Occupational Human Development**  
3 Credits  2 Lecture Hours, 3 Lab Hours  
A study of performance and growth in areas of occupation (social participation, ADL, education, work, play and leisure) in normal development from conception to death. Topics include developmental milestones in performance skills through the lifespan.

OTA 1120  
**Exploring Occupations**  
3 Credits  2 Lecture Hours, 3 Lab Hours  
A study of the concept of occupation across cultures and lifespan. Topics include occupational analysis and selection, adaptation and sequencing of purposeful/meaningful activities.
OTA 1130  Foundations of OT  
3 Credits  
3 Lecture Hours  
A study of the basic tenets of occupational therapy. Topics include the history and the role of occupation to health and human diversity, philosophy of occupational therapy, theories, ethics, standards of practice and professional associations.

OTA 1140  OT Doc with FW A  
2 Credits  
1 Lecture Hour, 3 Lab Hours  
A study of the documentation of the OT treatment process and a Level 1 Fieldwork. Prerequisite or corequisite: Composition I ENGL 1010

OTA 1150  Med Term for OT  
1 Credit  
1 Web-Based Lecture Hour  
Web-based course introducing the OTA student to the terminology used in the medical profession.

OTA 1210  Group Process & Dynamics  
3 Credits  
2 Lecture Hours, 3 Lab Hours  
A study of client-practitioner interactions. Topics include professional behaviors, therapeutic use of self, and group process & dynamics.

OTA 1220  Challenges to Mental Health  
3 Credits  
2 Lecture Hours, 3 Lab Hours  
A study of individuals who are limited in their ability to engage in life activities due to challenges to their mental health. Topics include major DSM IV diagnoses with emphasis on symptoms, behaviors, cultural influences, and medical and social supports related to those diagnoses, OT evaluations and treatment planning for the mental health population are practiced. Prerequisite: Intro to Psychology PSYC 1111

OTA 1230  Challenges to Physical Health  
3 Credits  
2 Lecture Hours, 3 Lab Hours  
A study of individuals who are limited in their ability to engage in daily life activities due to challenges to their physical health. Topics include major medical, orthopedic, and neurological diagnoses, with emphasis on symptoms, physical conditions, and medical and social supports related to those diagnoses. OT evaluations and treatment planning for the physical health population are practiced.

OTA 1240  Human Movement for Occupation  
3 Credits  
2 Lecture Hours, 3 Lab Hours  
A study of kinetics of human motion of the musculoskeletal system. Topics include evaluation procedures for range of motion, functional muscle strength and coordination testing, principles and techniques of body mechanics, transfers, and positioning, and neuromotor and myofascial treatment concepts.

OTA 1250  AT and Env Adaptation  
3 Credits  
1 Lecture Hour, 6 Lab Hours  
A study of adapting, altering or designing environments that support participation and facilitate engagement in social, family and community activities. All levels of assistive technology will be reviewed and discussed. Topics include but are not limited to home modifications, driving evaluations, communication devices and community mobility. Students will evaluate participation limitations and facilitators for individuals and communities.

OTA 1260  FW B  
1 Credit  
Opportunity for the OTA student to apply academic knowledge of occupational therapy to practice through a Level 1 Fieldwork experience. Prerequisites: Fieldwork A

OTA 2110  OT Int and Tx: Peds  
2 Credits  
1 Lecture Hour, 3 Lab Hours  
A study of limitations and obstacles to occupational engagement (self-care, play, school) for persons from birth to age 22. Topics include Common diagnoses, evaluation methods and treatment environments and treatment for areas of occupation. (ADL, IADL, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and mental health well-being. Prerequisites: OTA 1110, OTA 1120, OTA 1130, OTA 1140, OTA 1210, OTA 1220, OTA 1230, OTA 1240, OTA 1250, BIOL 2010

OTA 2120  OT Int and Tx: Mental Health  
3 Credits  
2 Lecture Hours, 3 Lab Hours  
A study of mental health limitations and obstacles to occupational engagement for individuals and populations. Topics include common diagnoses and treatment environments, treatment for areas of occupation. (ADL, IADL, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and mental health well-being. Prerequisites: OTA 1110, OTA 1120, OTA 1130, OTA 1140, OTA 1210, OTA 1220, OTA 1230, OTA 1240, OTA 1250BIOL 2010

OTA 2130  OT Int and Tx: Adult  
3 Credits  
2 Lecture Hours, 3 Lab Hours  
A study of physical health limitations and obstacles to occupational engagement for individuals and populations. Topics include common diagnoses and treatment environments, treatment for areas of occupation. (ADL, IADL, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and physical well-being. Prerequisites: OTA 1110, OTA 1120, OTA 1130, OTA 1140, OTA 1210, OTA 1220, OTA 1230, OTA 1240, OTA 1250, BIOL 2010

OTA 2140  OT Int and Tx: Geriatric  
2 Credits  
1 Lecture Hour, 3 Lab Hours  
A study of physical and mental health limitations and obstacles to occupational engagement for individuals and populations. Topics include common diagnoses and treatment environments, treatment for areas of occupation. (ADL, IADL, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and mental health and physical well-being. Prerequisites: OTA 1110, OTA 1120, OTA 1130, OTA 1140, OTA 1210, OTA 1220, OTA 1230, OTA 1240, OTA 1250BIOL 2010

OTA 2150  Mngmt Skills for the OTA  
2 Credits  
2 Lecture Hours  
A study of management skills with an emphasis on organization and professional communication skills necessary for team building, leadership and collaboration. Topics include program planning, marketing, advocacy and program quality improvement. Documentation, reimbursement, ethical and legislative issues will be addressed. This class will review requirements for Level II Fieldwork, certification and licensure. Students will prepare for future employment through resume and portfolio development. Prerequisite: OTA 1110, OTA 1120, OTA 1130, OTA 1140, OTA 1210, OTA 1220, OTA 1230, OTA 1240, OTA 1250

---

Nashville State
OTA 2160
FW C
1 Credit
Opportunity for the OTA student to apply academic knowledge of occupational therapy to practice through a Level I Fieldwork experience. Prerequisites: Fieldwork A & B

OTA 2220
Level II: Medical
6 Credits
Opportunity for the OTA student to apply didactic learning and theory of occupational therapy in a clinical, inpatient, or hospital setting under the supervision of an OTR or COTA. Academic and clinical educators collaborate on fieldwork objectives and experiences to ensure that the role and functions of an entry-level occupational therapy assistant are reinforced. Prerequisites: All academic course work and program director approval are required before undertaking Level II Fieldwork. Students must receive a C in all OTA and required General Education courses and receive a satisfactory rating on the Professional Behaviors Evaluation before being approved for Level II Fieldwork placement.

OTA 2220
Level II Fieldwork: Community
6 Credits
Opportunity for the OTA to apply didactic learning and theory of occupational therapy to community setting under the supervision of an OTR or COTA. Academic and clinical educators collaborate on fieldwork objectives and experiences to ensure that the roles and functions of an entry-level occupational therapy assistant are reinforced. Prerequisites: All academic course work and program director approval are required before undertaking Level II Fieldwork. Students must receive a C in all OTA and required General Education courses and receive a satisfactory rating on the Professional Behaviors Evaluation before being approved for Level II Fieldwork placement. LEVEL II FIELDWORK MAY BE IN A LOCATION OUTSIDE OF THE MIDDLE TENNESSEE AREA REQUIRING THE STUDENT TO RELOCATE FOR ONE (8 WEEKS) OR BOTH (16 WEEKS) ASSIGNMENT.

Health & Wellness

PHED 1010
Intro to Health and Wellness
3 Credits 3 Class Hours
An introduction to concepts and practices for developing and maintaining healthy lifestyles in order to achieve a balance for lifelong wellness including physiological, biologica, and psychological processes. Students participate in health, nutrition, and fitness evaluations as well as identifying general individual risk factors leading to an individualized wellness plan.

PHED 1030
Walking
1 Credit 2 Class Hours
A study of and practice in maintaining physical fitness through walking. Studies the effects of walking on the body.

PHED 1060
Weight Training
1 Credit 2 Class Hours
An introduction to training programs with an emphasis on warm-ups, stretching, individual exercises, running, and the use of weight machines. Encourages the continuation and self-discipline of exercise.

PHED 1100
Karate
1 Credit 2 Class Hours
A study in the fundamental techniques of Isshinryu Karate as well as beginning katas, sparring, and self-defense.

PHED 1210
Physical Conditioning
1 Credit 2 Class Hours
A study and practice in maintaining personal physical fitness through strenuous exercise and aerobic activities. Studies effects of exercise on the body.

PHED 1340
Beginning Yoga
1 Credit 2 Class Hours
Teaches students the basics of hatha yoga. Instruction emphasizes the basic knowledge and skills related to yoga postures.

PHIL 1000
Critical Thinking
3 Credits 3 Class Hours
An introduction to the elements of critical thinking as a cognitive process. Topics cover thinking abilities and problem-solving related to issues and concepts drawn from academics, current events, and life experiences. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills
PHIL 1030
Introduction to Philosophy*
3 Credits 3 Class Hours
An introduction to the historical roots and basic problems of philosophy. Topics include metaphysics, epistemology, and value theory (ethics, aesthetics, social/ political philosophy) along with the major figures of Western philosophy. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. PHIL 1030 meets the general education requirement for Humanities.
* This course is part of the general education core.

PHIL 1111
Introduction to Ethics*
3 Credits 3 Class Hours
An introduction to the study of moral reasoning and judgment. Topics include the meaning and importance of individual and social morality in human life, the major systems of ethical theory (ethics of virtue, ethics of duty) as they apply to the study of such moral problems as sexual morality, pornography, abortion, euthanasia, capital punishment, and job discrimination. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. PHIL 1111 meets the general education requirement for Humanities.
* This course is part of the general education core.

PHIL 2021
Philosophy in Movies
3 Credits 3 Class Hours
An exploration of philosophical themes in movies. Topics include philosophical issues underlying the dramatic action in films and a deeper philosophical understanding and intellectual appreciation for philosophy and film. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills

PHIL 2200
World Religions*
3 Credits 3 Class Hours
An introduction to the academic study of comparative religion. Topics include basic elements of religion and strategies for recognizing patterns of similarity and divergence among different religions, and the origins, development, and fundamental beliefs and practices of Hinduism, Taoism, Buddhism, Confucianism, Jainism, Sikhism, Shinto, Judaism, Christianity, and Islam, among others. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills
* This course is part of the general education core.

PHIL 2300
Ethics in Medicine
3 Credits 3 Class Hours
An exploration of particular moral and conceptual issues suffusing the practice of health care professionals. Topics include representative instances of actual clinical situations that generate moral concerns and ways to address these dilemmas with the assistance of philosophical reflection. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills

PHO 1110
Basic Photography
3 Credits 3 Class Hours
An introduction to the use of 35mm cameras and shooting color slide film. Topics include camera controls, films, lenses, flash, exposure, light metering, and composition. An SLR camera is required.

PHO 1115
History of Photography
3 Credits 3 Class Hours
An introduction to the history of photography and critiquing photographs. Topics include new and old imaging techniques, visual literacy, and uses of photography in media, and advertising. Prerequisites: DSPW 0800

PHO 1170
Business of Photography
3 Credits 3 Class Hours
An introduction to creating a business in photography. Topics include business licensing, marketing, estimating and invoicing jobs, copyrighting, tax laws and deductions, stock photography, location scouting, and props.

PHO 1210
Black & White Photography I
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to basic black-and-white photography. Topics include exposure, film processing, printing, composition, and the study of black-and-white photography as an art form. Prerequisite: PHO 1110

PHO 1230
Color Lab Techniques I
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the color darkroom. Students learn to color correct and print using both traditional and digital darkrooms. Prerequisites: PHO 1210, COM 1230, and COM 1170

PHO 1240
Lighting I
3 Credits 2 Class Hours, 2 Lab Hours
An introductory lighting course. Topics include lighting, with student’s battery powered strobes, the use of light meters, stands, and umbrellas both on location and in the studio. A removable flash is required. Prerequisite: PHO 1110

PHO 1270
Portfolio Practicum
3 Credits 2 Class Hours, 2 Lab Hours
An advanced class providing instruction in the process of how to develop a professional portfolio. Topics include portfolio design, presentation, and self promotion. Prerequisites: PHO 1110, PHO 1210, PHO 1230, PHO 1240, and PHO 1490

PHO 1310
Black & White Photography II
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of the skills learned in PHO 1210. Students explore more advanced exposure methods, processing, and printing techniques as well as such topics as archival printing, toning, alternative printing processes, and print presentation. Prerequisite: PHO 1210

PHO 1320
Color Lab Techniques II
3 Credits 2 Class Hours, 2 Lab Hours
Students use both traditional and digital labs to further explore the creative processes involved in color photography. Prerequisites: PHO 1230, COM 2240

PHO 1330
Alternative Photo Processes
3 Credits 2 Class Hours, 2 Lab Hours
Students study and work with methods that pre-date silver-gelatin photography. The course is an intensive introduction to hand-applied emulsions onto various types of art papers. Prerequisite: PHO 1210

PHO 1350
Lighting II
3 Credits 2 Class Hours, 2 Lab Hours
An in-depth study of studio lighting with an emphasis on 35mm and large format cameras. Topics include tungsten lighting and studio flash, camera movements, lenses, exposure calculations, and commercial applications. Prerequisite: PHO 1240

PHO 1410
Nature Photography
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to field techniques in nature photography. Topics include natural light, composition, close-up photography, and critiquing images
created for class. Weather permitting, each meeting consists of a field session and a classroom session. **Prerequisite:** PHO 1110

**PHO 1430 Portrait Techniques**
3 Credits 3 Class Hours
An introduction to portrait techniques. Topics include equipment, outdoor and studio lighting, client relationships, and business aspects of portrait photography. **Prerequisite:** PHO 1110

**PHO 1450 Individual Study**
3 Credits 1 Class Hour, 6 Lab Hours
An in-depth exploration of still photography for the advanced student. **Prerequisites:** All 1100 and 1200 level Photography courses and approval of instructor

**PHO 1470 Photojournalism**
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to photojournalism. This class covers techniques and equipment needed when shooting for publication and places an emphasis on producing digital images. **Prerequisites:** PHO 1110, PHO 1230, and COM 1230

**PHO 1490 Digital Photography**
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to capturing and processing digital images. Topics include white balance, digital files, lenses, transferring images to a computer, working with a desktop darkroom, burning CD's, scanning, and printing on inkjet and RGB printers. **Prerequisites:** PHO 1110, COM 1230, and COM 1170

**PHO 2190 Advanced Digital Printmaking**
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of PHO 1490 and COM 2240 using Adobe Photoshop. Topics include advanced color management, advanced digital manipulation of images, problem solving, and various printmaking techniques. **Prerequisites:** PHO 1230, PHO 1490, COM 2240, and approval of instructor

**PHO 2200 Digital Color Management**
3 Credits 3 Class Hours
Principles of digital image color management. Emphasis on creating a color management (CMS) for use in commercial and fine art applications. This includes intermediate to advanced techniques in color management applications as well as Adobe Photoshop. **Prerequisites:** PHO 1230, PHO 1490

**Physics**

**PHYS 1115 Basic Physics**
3 Credits 3 Class Hours
An introductory course for students having little or no background in physics. Students are introduced to a variety of topics including motion, energy, fluids, electric circuits, optics, and waves. Intended to prepare engineering technology students to be successful in PHYS 2010 and 2020 and to provide a physical science elective without a lab for all students. Course does not transfer. **Prerequisite:** Two years of high school algebra

**PHYS 2010 Non-Calculus Physics I**
4 Credits 3 Class Hours, 3 Lab Hours
An algebra/trigonometry-based course in the concepts and principles of mechanics, fluids, heat, and thermodynamics. **Prerequisite:** MATH 1730 or MATH 1710-1720
*This course is part of the general education core.*

**PHYS 2020 Non-Calculus Physics II**
4 Credits 3 Class Hours, 3 Lab Hours
An algebra/trigonometry-based course in the concepts and principles of wave motion, sound, electricity and magnetism, light and optics, and elements of modern physics. **Prerequisite:** PHYS 2010
*This course is part of the general education core.*

**PHYS 2110 Calculus Based Physics I**
4 Credits 3 Class Hours, 3 Lab Hours
A calculus-based course in the concepts and principles of mechanics, fluids, heat, and thermodynamics. This course is intended to serve students who plan to major in science or engineering at the four-year college level. **Prerequisite:** MATH 1910
*This course is part of the general education core.*

**PHYS 2120 Calculus Based Physics II**
4 Credits 3 Class Hours, 3 Lab Hours
A calculus-based course in the concepts and principles of wave motion, sound, electricity and magnetism, light and optics, and the elements of modern physics. This course is intended to serve students who plan to major in science or engineering at the four-year college level. **Prerequisite:** PHYS 2110
*This course is part of the general education core.*

**Political Science**

**POLI 1111 Intro to Political Science**
3 Credits 3 Class Hours
An introduction to classic thinkers in political science, as well as essential concepts in Western political thought; topics include democracy, rights, sovereignty, republicanism, majorities and minorities. **Prerequisites:** DSPW 0800 and DSPR 0800 or equivalent skills. Note: POLI 1111 meets the requirement for a Social Science elective.

**POLI 2010 American National Government**
3 Credits 3 Class Hours
An introduction to foundations and principles of American national government; Constitutional principles, functions, and administration of American national government, Congress, the Presidency, the Supreme Court, and the U.S. political system. **Prerequisites:** DSPW 0800 and DSPR 0800 or equivalent skills. Note: POLI 1111 meets the requirement for a Social Science elective.

**Physical Sciences**

**PSCI 1030 Survey of Physical Science**
4 Credits 3 Class Hours, 3 Lab Hours
This course is a conceptual introduction to physical science using a minimum of mathematics. Topics discussed include Newtonian mechanics, gravitation, waves, sound, electricity, magnetism, heat and optics, and an introduction to modern physics. **Prerequisites:** DSPW 0800 and DSPR 0800
*This course is part of the general education core.*

**Police Science/ Law Enforcement**

**PST 1000 Intro To Criminal Justice**
3 Credits 3 Class Hours
A study of the administration of criminal justice and its purposes, goals, and functions. Topics include evaluation of law enforcement responsibilities, techniques, and methods of how police patrol is conducted. Provides a basic understanding of the criminal justice components, including history of law enforcement; DUI enforcement; officer survival; police corruption; sects, cults, and deviant movements; police administration; firearms; and defensive tactics.
PST 1005 Intro To Criminology  
3 Credits  3 Class Hours  
A study of societal problems including deviant behavior, its causes, patterns, treatment, and prevention.

PST 1010 Criminal Law & Procedure  
5 Credits  5 Class Hours  
A study of trial procedures, history of constitutional rights, rules of evidence admissibility, types of evidence, and laws of arrest, search, and seizure.

PST 1020 Police Administration  
5 Credits  5 Class Hours  
A study of the principles of personnel management functions and organization of the police agency. Topics include policy procedures, evaluation of the research, planning, and development processes, and operational duties and commands.

PST 1030 Criminal Evidence  
3 Credits  3 Class Hours  
A study of the types, proper treatment, and disposition of criminal evidence. Examines the problems of admissibility in court proceedings. Other topics include types of evidence, rules for obtaining the evidence, principles of exclusion, evaluation and examination of the evidence, proof, competence of witnesses, hearsay rule, opinion, pre-trial discovery, and testimony in court.

PST 1035 Report Writ for Law Enforce  
3 Credits  3 Class Hours  
A study of the objectives of effective police report preparation as it specifically pertains to law enforcement. Emphasizes how to present information in an organized, clear and chronological manner. Topics include the three categories of law enforcement documents, incident, administrative, and affidavit.

PST 1040 Defensive Tactics  
3 Credits  3 Class Hours  
An introduction to basic police defensive tactics system through physical practice of uncomplicated movements and control of distance. Basic defensive tactics include hand and foot strikes, pressure points, control tactics, impact weapons, handcuffing techniques and use-of-force plans to include various policies on deadly force. Studies mental conditioning for survival and use-of-force continuum.

PST 1043 Investigative Photography  
3 Credits  3 Class Hours  
A study of the basic concepts of photography through an understanding of aperture, shutter speed, and film speed. Emphasizes principles of the 35 mm camera and digital cameras and their application of recording and reconstructing crime scenes. Also prepares the student for the Evidence Photography that takes photography into the laboratory.  
Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills

PST 1050 Tactical Shotgun  
3 Credits  3 Class Hours  
A study of operating skills for “tactical response shotgun.” Special emphasis on safety, gun handling, ammo selection, position shooting, marksmanship, and tactical movement. Upon completion, the student will be able to explain and demonstrate the safe and proper use of the “tactical shotgun” and have a working knowledge of weapon function, ammunition selection, shotgun wounding characteristics, various applied shotgun techniques, and basic mechanical troubleshooting for the shotgun.

PST 1055 Intro to Computer Crime  
3 Credits  3 Class Hours  
Provides an overview of criminal acts that can be committed with the use of a computer and the Internet, how computer related crimes are committed and how computer related crimes are investigated. The legal issues involved in the prosecution of computer related crimes will also be explored.

PST 1060 Basic Surveillance Techniques  
3 Credits  3 Class Hours  
An examination of basic police surveillance and counter-surveillance procedures and methods, including foot and vehicle; one-, two- and three-person or ABC surveillance; aerial platform; and electronic and stationary surveillance operations. Hands on training includes topics: definition and history of surveillance, four basic methods of surveillance, foot surveillance operations, vehicle surveillance procedures, stationary surveillance methods, aerial platform surveillance, counter-surveillance operations, detecting and eluding surveillance operatives, and presentation of surveillance evidence in court.

PST 1070 Officer Survival  
3 Credits  3 Class Hours  
A study of the basics of police work needed to survive both mentally and physically. Topics include basic officer survival tactics and techniques, proper survival techniques used during field interviews, unknown risk calls, and traffic stops. Provides a working knowledge of survival skills used during domestic calls, crimes in progress, and high risk traffic stops.

PST 1080 Interv/Interrog Techniques  
3 Credits  3 Class Hours  
A study of the techniques utilized in interviewing victims, witnesses, and subjects of interrogations. Topics include preparation and strategy, legal aspects, interpretation of verbal and physical behavior, causes of denial, interviewing, establishing credibility, reducing resistance, obtaining the admission, and the use of video equipment.

PST 1085 Basic Fingerprint/Pattern ID  
3 Credits  3 Class Hours  
A study of ridge pattern identification and the physical aspects of fingerprints. Provides the basis for developing techniques for the taking of presentable and classifiable inked impressions. Emphasizes hands-on application of these techniques.

PST 1086 Latent Fingerprint Development  
3 Credits  3 Class Hours  
A study of the fundamentals of fingerprint development from the history of fingerprints to the most advanced techniques of modern day technology. Other topics include the use of Automated Fingerprint Identification System (AFIS).  
Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills

PST 1087 Basic Crime Scene Invest  
3 Credits  3 Class Hours  
A study of the principles of crime scene investigation. Topics include scene assessment, photography, diagramming, evidence collection, processing of evidence, crime scene preservation, and the presentation of the evidence into a court of law.  
Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills
PST 1090  Traffic Accident Investigation  
3 Credits  3 Class Hours  
A study of traffic collisions using scientific methods of vehicle speed calculation, timed distance speed, report writing, and diagramming. Explores the legal, statistical, and professional aspects of this interesting field. Includes dynamic vehicle experiments and practical exercises in gathering facts for traffic investigators.

PST 1095  Tactical Talk  
3 Credits  3 Class Hours  
An interpersonal communications course for police officers. Provides officers the necessary tools to diffuse verbal confrontations as well as persuade contacts to obey legal and lawful orders. Topics include the goals, objectives, and visions of law enforcement and field interviewing techniques and neurolinguistics.

PST 1097  Surface Skel & Buried Bodies  
3 Credits  3 Class Hours  
A study of techniques in locating clandestine bodies and graves. Topics include visual search indicators of burials, disturbances in nature, soil compaction, soil gas detection, cadaver dogs, and scavenging patterns. Also includes many hands-on exercises. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills, PST 1087

PST 2000  Drug Identification & Effects  
3 Credits  3 Class Hours  
A study of the fundamentals needed for identifying both the appearance and effects of controlled substances. Students receive guides to controlled substances: their color, trade names, and drug codes. Topics include a critical examination of the physiological, sociological, psychological, and legal aspects of drug abuse and many complexities that have developed as a direct or indirect result of their abuse in society.

PST 2014  Advanced Crime Scene Techn  
3 Credits  3 Class Hours  
A study of crime scene techniques that takes the student beyond the classroom and into the field. Students will work mock crime scenes and apply all the skills acquired from previous studies. Simulates reality for the students and requires the student to photograph, diagram, and preserve crime scene evidence. Other topics include casting techniques and blood presumptive applications. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills, PST 1086 and PST 1087

PST 2020  Police Firearms  
3 Credits  3 Class Hours  
An introduction to police combat firearms training, firearms tactics, deadly force policies and shoot/don’t shoot decisions. Emphasizes practical, safe operation and firing of handguns. Students learn how to safely operate and fire a handgun and make use-of-force decisions in firearms. Students must furnish weapons and ammunition.

PST 2023  Advanced Fingerprint Techn  
3 Credits  3 Class Hours  
A study of the comprehensive application of development of enhancement techniques for physical evidence using forensic chemicals to develop latent fingerprints from crime scene evidence. Utilizes a forensic laboratory using ninhydrin, cyanacrylate, chemical powders, and many other forensic chemicals. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills, PST 1086

PST 2030  Seminar In Police Science  
3 Credits  3 Class Hours  
An opportunity for Police Science students to study the role of law enforcement and corrections in a seminar setting. Also includes off-campus experiences, which involve supervised field activities, field site visits, and extensive research activities.

PST 2031  Seminar in CSI  
4 Credits  4 Class Hours  
An opportunity for the CSI student to study the role of the crime scene technician in the crime lab work setting. Includes off campus experiences involving supervised activities within local police departments, field site visits, and extensive research activities. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills, PST 1086, 1087, 2014, 2023

PST 2035  Juvenile Procedures  
3 Credits  3 Class Hours  
An introduction to the concepts of youth crimes and techniques practiced by police and courts in prevention and control. Topics include the development and trends in juvenile court procedures.

PST 2045  Intro To Criminalistics  
3 Credits  3 Class Hours  
A study of the scientific evaluation of physical evidence in the crime lab; firearms examination, comparative micrography, toxicology, serology, polygraph, and microanalysis of hair, fiber, paint, and glass; and legal photography applications.

PST 2050  Police Tact Training (SWAT)  
3 Credits  3 Class Hours  
An overview of the historical development of special weapons and tactical teams. Studies the techniques of urban and rural movements, breaching techniques and forced entry methods. Methods of surreptitious and dynamic entry and clearing and hostage rescue are practiced with tactical diagramming and aid planning.

PST 2055  Gangs Cults & Deviant Movement  
3 Credits  3 Class Hours  
An examination of gang problems in the United States. Topics include precepts and current philosophies of Paganism, Neo-Paganism, Witchcraft, Satanism, Santeria, and Brujeria. Examines ceremonial and magical rituals, signs, symbols, secret alphabets, ritualized abuse, and Cult-Occult crime investigation. Explores psychological and sociological effects of media on adolescents.

PST 2060  Evidence Photography  
3 Credits  3 Class Hours  
A study of the photographic aspects used in criminal investigation with emphasis on types of cameras and lighting for purpose of recording evidence.
This course is part of the general education core. Note: PSYC 2120 meets the requirement for a Social Science elective.

Psychology of Adjustment
PSYC 2115
3 Credits 3 Class Hours
A study of personal and social adjustment in modern society. Topics include maturing self-concept, healthy interpersonal relationships, constructive management of emotion and stress, and prevention of maladjustment.
Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills
Note: PSYC 2115 meets the requirement for a Social Science elective.

Psychology of Human Growth & Dev*
PSYC 2111
3 Credits (Honors Option Offered) 3 Class Hours
A survey of the biological and environmental factors influencing the physical, intellectual, social, emotional, and language development from birth until death. Explores causes and results of interruption in or interference with the developmental process. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills
Note: PSYC 2111 meets the requirement for a Social Science elective.
* This course is part of the general education core.

Abnormal Psychology
PSYC 2125
3 Credits 3 Class Hours
A study of major patterns of abnormal behavior and their description and diagnosis, interpretation, treatment and prevention. Prerequisites: PSYC 1111, DSPW 0800 and DSPR 0800 or equivalent skills.

Industrial Process Control Technology

Technical Chemistry
PTEC 1010
3 Credits 2 Class hours, 2 Lab hours
Technical Chemistry utilizes basic chemistry concepts and equipment to instruct prospective process control technicians and chemical operators in proper sampling methods, laboratory techniques, and process monitoring. This is an applications based course that emphasizes hands-on, practical exercises and experiences both in the laboratory and in an industrial environment. Prerequisites: DSPM 0850, CHEM 1030 and permission of instructor

Orientation to Industrial Safety
PTEC 1020
1 Credit 1 Class Hour
An introduction to the field of Safety, Health and Environment within the PTEC Industry. Topics include types of plant hazards, safety and environmental systems and equipment, and regulations which govern plants.

Intro to Process Technology
PTEC 1050
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to PTEC Operations within the PTEC Industry. Topics include the roles and responsibilities of PTEC Technicians, the environment in which they work, and the equipment and systems in which they operate.
PTEC 1060
Process Technology I: Equipment
4 Credits 3 Class Hours, 2 Lab Hours
An introduction to PT I: Equipment within the PTEC industry. Topics include PTEC industry-related equipment concepts including purpose, components, operation, and the PTEC Technician's role for operating and troubleshooting the equipment.
Prerequisite: PTEC 1020, PTEC 1050

PTEC 1070
Process Technology II: Systems
4 Credits 3 Class Hours, 2 Lab Hours
Study of the interrelation of PTEC equipment and PTEC systems. Students will arrange PTEC equipment into basic systems; describe the purpose and the function of specific PTEC systems; explain how factors affecting PTEC systems are controlled under normal conditions; and recognize abnormal PTEC conditions. Introduces the concept of system and plant economics. Prerequisite: PTEC 1060

PTEC 1080
Process Technology III: Operations
4 Credits 3 Class Hours, 2 Lab Hours
An introduction to operations within the PTEC industry. Students use existing knowledge of equipment, systems, and instrumentation to understand the operation of an entire unit. Study of concepts related to commissioning, normal startup, normal operations, normal shutdown, turnarounds, and abnormal situations, as well as the PTEC Technician's role in performing the tasks associated with these concepts. Prerequisite: PTEC 1070

PTEC 2020
Quality
3 Credits 2 Class Hours, 2 Lab Hours
Helps students understand customer expectations in a manufacturing system and continuous improvement methodology. Demonstrates procedures and policies to ensure operating consistency, reduce variability in the process, reduce waste, and prevent safety incidents. Students use Quality Tools and team problem solving techniques.

PTEC 2050
Instrumentation I
4 Credits 3 Class Hours, 2 Lab Hours
Topics include PTEC variables and the various instruments used to sense, measure, transmit and control these variables. Introduces the student to control loops and the elements that are found in different types of loops, such as controllers, regulators and final control elements. Concludes with a study of instrumentation drawings and diagrams and a unit on troubleshooting instrumentation.
Prerequisite: PTEC 1060, EETH 1110, EETH 1115

PTEC 2060
Instrumentation II
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to switches, relays and annunciator systems and moves on to discuss signal conversion and transmission. Controllers, control schemes and advanced control schemes. Covers digital control, programmable logic control and distributed control systems, instrumentation power supplies, emergency shutdown systems, and instrumentation malfunctions. Prerequisite: PTEC 2050

Sociology

SOCI 1111
Introduction To Sociology*
3 Credits 3 Class Hours (Honors Option Offered)
An introduction to the study of society, social groups, and social interaction. Topics include culture and society, socialization, social stratification, minorities, education, religion, and social change. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.
Note: SOCI 1111 meets the requirement for a Social Sciences elective.
* This course is part of the general education core.

SOCI 1112
Social Problems*
3 Credits 3 Class Hours
A study of issues and topics identified as social problems in American society, such as crime, drug and alcohol abuse, environment, changing family and gender relationships, poverty, and violence. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.
SOCI 1111 is suggested as a prerequisite.
Note: SOCI 1112 meets the requirement for a Social Sciences elective.
* This course is part of the general education core.

SOCI 2112
Marriage And Family*
3 Credits 3 Class Hours
A study of the social, cultural, and personal factors relating to mate selection and family life. Assists students in understanding the values, marriages, and families of contemporary America. Topics include human intimacy, family relations through the life cycle, kinship, child rearing, sources of strain and violence, and sources of bonding in family life. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.
Note: SOCI 2112 meets the requirement for a Social Sciences elective.
* This course is part of the general education core.

SOCI 2113
Social Psychology
3 Credits 3 Class Hours
A study of the individual in society. Topics include social behavior, socialization, perception, interaction, ethnicity and prejudice, attitude formation, altruism, aggression, effects of media and mass communication. The methodologies of social psychology are also studied. (This course is the same as PSYC 2113.)
Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. Note: SOCI 2113 meets the requirement for a Social Sciences elective.

Social Services/Social Work

SOCS 1010
Intro to Social Work
3 Credits 3 Class Hours
An introduction and orientation to the field of social work. Topics include professional values and ethics, diverse population groups served, and the historical development and present structure of social services.

SOCS 1020
Human Behavior Social Environ
3 Credits 3 Class Hours
A study of human motivation and the impact of the social environment on human behavior. Topics include development of socialization skills and coping mechanisms necessary for effectively functioning in social contexts.
SOCS 2010
Soc Svs for Children & Youth
3 Credits 3 Class Hours
A study of the special needs of children and youth. Topics include the social services that are available to meet those needs.

SOCS 2020
Theories/Methods Soc Svc Prac
3 Credits 3 Class Hours
A study of the theories, methods, and skills of professional practice, including adversarial, conciliatory, developmental, and restorative processes. Emphasis on the team approach and techniques of casework with individuals and groups. Prerequisite: SOCS 1010

SOCS 2025
Survey of Counseling Theories
3 Credits 3 Class Hours
A comparative analysis of the major theoretical approaches to the practice of counseling and psychotherapy. Topics include psychodynamic, behavioral, cognitive behavioral, gestalt, transactional analysis, and rational emotive and family systems therapy.

SOCS 2035
Alcohol & Drug Abuse
3 Credits 3 Class Hours
A study of the social issues involved in alcohol and drug abuse and the assessment of sociological theories of alcohol and drug abuse, its prevention, and remediation.

SOCS 2045
Family Systems
3 Credits 3 Class Hours
An examination of the interpersonal interaction patterns existing in families and of the problems experienced by families in contemporary American society. Topics include the examination of emotional and physical abuse, drug and alcohol addiction, alternative life styles, and changing gender roles.

SOCS 2055
Soc Work Interviewing Skills
3 Credits 3 Class Hours
An introduction to interviewing skills and techniques in Social Work. Course content focuses on accommodating the cultural and psychological needs of a diverse client population. Prerequisites: SOCS 1010

SOCS 2060
Field Practicum
5 Credits 5 Class Hours
An opportunity for the student to have direct professional experience in the field of social services. Students complete a minimum of 150 clock hours of field work in a social service agency approved by the Department and will be supervised by both an on-site mentor and a college practicum supervisor. Students are also required to attend all scheduled seminar meetings. Prerequisites: Completion of 30 hours of major core courses or permission of instructor

Spanish
SPAN 1010
Spanish I
3 Credits 3 Class Hours
An introduction to the learning and usage of Spanish. Students acquire proficiency in hearing, speaking, reading, and writing elementary Spanish. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills

SPAN 1020
Spanish II
3 Credits 3 Class Hours
A continuation of learning and using Spanish. Students improve proficiency in hearing, speaking, reading, and writing elementary Spanish. Prerequisite: SPAN 1010 or permission of instructor

SPAN 2010
Spanish III
3 Credits 3 Class Hours
A continuation of the development of the student's knowledge of Spanish. Students build aural comprehension skills and speaking ability, write compositions, and study Spanish literature and Hispanic culture. Prerequisite: SPAN 1020 or permission of instructor

SPAN 2020
Spanish IV
3 Credits 3 Class Hours
A continuation of the development of the student's knowledge of Spanish. Students increase aural comprehension skills and speaking ability, expand their compositions, and broaden their study of Hispanic literature. Prerequisite: SPAN 2010 or permission of instructor

SPAN 2025
Conversational Spanish
3 Credits 3 Class Hours
A study of grammar and vocabulary acquired in previous Spanish courses by focusing on listening and speaking skills. Students will be able to discuss a variety of cultural, social and academic subjects. Incorporates a range of practical activities to help students gain proficiency in expressing and defending their opinions/positions. Prerequisites: SPAN 2020 or permission of instructor

Communication Studies

SPCH 1010
Speech*
3 Credits 3 Class Hours
An introduction to the fundamentals of public speaking. Emphasis is on preparing and delivering informative and persuasive speeches. Prerequisite: ENGL 1010

* This course is part of the general education core.

SPCH 1112
Fundamentals of Speech Comm
3 Credits 3 Class Hours
An exploration and practical application of communication theory in various contexts: interpersonal, small group, and public speaking. Prerequisite: ENGL 1010

SPCH 2111
Interpersonal Skills
3 Credits 3 Class Hours
A study of interpersonal communication behaviors. Topics include interpersonal communication principles and theories, self in interpersonal communication, culture, and conflict resolution. Prerequisite: ENGL 1010

SPCH 2215
Voice and Diction
3 Credits 3 Class Hours
A detailed study of individual speech patterns. Topics include developing self-confidence, articulate speech, and effective voice quality through knowledge of the vocal mechanism. This course is designed to improve speech patterns through applications of vocal mechanics and diction techniques. Prerequisite: ENGL 1010

Surgical Technology

SURG 1001
Intro to Surgical Technology
3 Credits 3 Class Hours, 3 Lab Hours
An introduction to principles, techniques and issues in the operating room environment. Topics include patient care concepts, equipment and instrumentation, job responsibilities, sterile technique, professional management and self-management. Prerequisite: Program Application, interview and instructor permission, completed health and program documentation including Background Check
SURG 1002  
Basic Skills  
1 Credit  3 Lab Hours  
A study of Sterile Technique and basic techniques necessary to function as a Surgical Technologist in the Scrub Role. Topics include principles of sterile technique, surgical scrub, gowning and gloving self and others, case setup, medication handling, counts, draping and proper instrument handling.  
Prerequisite: Program Application, interview and instructor permission, completed health program documentation including Background Check. Corequisites: SURG 1003, SURG 1004

SURG 1003  
Intro to Clinical Experience  
2 Credits  1 Class Hour, 3 Lab Hours  
An introduction to the operating room environment. Topics include patient care concepts, equipment and instrumentation, job responsibilities, sterile technique, professional and self-management and visits to the operating room. Prerequisite: Program Application, interview and instructor permission, completed health and program documentation including Background Check. Corequisites: SURG 1002, SURG 1004

SURG 1004  
Advanced Skills Lab  
1 Credit  3 Lab Hours  
A study of advanced sterile technique and basic techniques necessary to function as a Surgical Technologist in the Scrub Role. Topics include principles of sterile technique, surgical scrub, gowning and gloving self and others, case setup, medication handling, counts, draping and proper instrument handling. Prerequisite: Program Application, interview and instructor permission, completed health and program documentation including Background Check. Corequisites: SURG 1002, SURG 1003

SURG 1005  
Microbiology for Surgical Tech  
2 Credits  2 Class Hours  
An introduction to basic microbiology, immunology and disease processes with emphasis on antimicrobial techniques used in the operating room. Topics include historical microbiology, pathogenicity, the immune response, sterilization, and antiseptic and disinfection techniques, wound healing and wound classification.

SURG 1006  
Basic Chemistry/Pharmacology  
2 Credits  2 Class Hours  
An introduction to basic chemistry and pharmacology with emphasis on drugs and techniques used in the operating room. Topics include medication measurement and delivery, types and actions of medications, routes of administration and medications used in surgery. Prerequisite: DSPM 0700

SURG 1010  
Surgical Procedures  
6 Credits  6 Class Hours  
An overview of the relevant anatomy, pathophysiology, preparations, instrumentation, purpose, and expected outcome for surgical procedures covered in the course. Topics include procedures in General, Gynecologic, ENT, Orthopaedic, Urologic surgery, as well as procedures in other common specialties. Prerequisites: Program Application, interview and instructor permission, completed health and program documentation including Background Check. Also BIOL 1000, BIOL 1004, SURG 1001, SURG 1002, SURG 1003, SURG 1004, SURG 1005, and SURG 1006. Corequisites: SURG 1011, SURG 1012

SURG 1011  
Clinical Practicum I  
5 Credits  5 Lab Hours  
Course consists of one eight-week supervised clinical rotation (33.5 hr/week) during which students will practice the skills necessary to perform the duties of a surgical technologist in the scrub role, develop professional behaviors while in the operating room environment, and learn to adequately document their experiences in their Practica.  
Prerequisites: Program Application, interview and instructor permission, completed health and program documentation including Background Check. Also BIOL 1000, BIOL 1004, SURG 1001, SURG 1002, SURG 1003, SURG 1004, SURG 1005, and SURG 1006. Corequisites: SURG 1010, SURG 1011

Surgical Assisting

SURG 1012  
Clinical Practicum II  
4 Credits  4 Lab Hours  
Course consists of one eight-week supervised clinical rotation (33.5 hr/week) during which students will practice the skills necessary to perform the duties of a surgical technologist in the scrub role, develop professional behaviors while in the operating room environment, and learn to adequately document their experiences in their Practica.  
Prerequisites: Program Application, interview and instructor permission, completed health and program documentation including Background Check. Also BIOL 1000, BIOL 1004, SURG 1001, SURG 1002, SURG 1003, SURG 1004, SURG 1005, and SURG 1006. Corequisites: SURG 1010, SURG 1011

Surgical Assisting

SURG 2012  
Perioperative Bioscience  
5 Credits  5 Class Hours  
An introduction to perioperative bioscience. Pharmacology will cover standard perioperative drugs, such as pre-op medications, antibiotics, and other blocking agents, alternate methods of anesthesia and complications of above.

SURG 2014  
Principles of SA  
1 Credit  3 Class Hours  
An introduction to the principles of surgical assisting. Is designed to teach the hands on techniques used in perioperative patient care. Perioperative skills involve bladder catherization; tourniquet placement, positioning, prepping and draping. Interoperative skills are learned, such as: knot tying, suturing techniques, stapling techniques, and wound exposure. Proper use of electrocauterizing is also taught.
SURG 2016
Applied Bioscience
5 Credits 5 Class Hours
An introduction to applied bioscience. The course is designed to provide the student with the understanding of diagnostic testing including lab tests, patient monitoring, use of blood replacement, and the proper care of surgical specimens. It will discuss disorders in tissue growth (cancer) and the methods of treating, such as: surgery, chemotherapy, and radiation. It will also cover lasers and laser safety and orthopaedic power equipment.

SURG 2026
General Surg Class/Clinical
4 Credits 4 Class/Clinical Hours
4 Mandatory Class Sessions
An introduction to general surgery. The course will consist of assigned clinical experiences as a surgical first assistant in General Surgery a verbal Grand Rounds presentation, and a written independent study or attendance at a Grand Rounds presentation at a local hospital. The class will meet for four on-campus class sessions.

SURG 2032
Ortho Surg Class/Clinical
4 Credits 4 Class/Clinical Hours
4 Mandatory Class Sessions
An introduction to orthopaedic surgery. The course will consist of assigned clinical experiences as a surgical first assistant in Orthopaedic Surgery; a verbal Grand Rounds presentation, and a written independent study or attendance at a Grand Rounds presentation at a local hospital. The class will meet for four on-campus class sessions.

SURG 2035
Specialty Surgery Practicum
4 Credits
An introduction to specialty surgery. Assigned clinical experiences as a surgical first assistant in Specialty Surgery to establish competencies in such topics as patient positioning, wound visualization, wound healing, wound closure, wound drainage and wound dressing. Prerequisites: Surgical First Assisting lectures and labs, instructor permission, completed Clinical Preceptor Agreement Form, all health, CPR, professional liability insurance, and background check documentation

Theater

THEA 1030
Introduction to Theater*
3 Credits 3 Class Hours
An introduction to the basic artistic, social, and technical elements of theater. Topics include contemporary and classical styles of presentation and dramatic structure, and contributions of the playwrights, designers, directors, actors, and audience to the theatrical process. (THEA 1030 is a humanities elective.) Prerequisites: DSPR 0800 and DSPW 0800 or demonstrated skills

* This course is part of the general education core.
Administration, Faculty, and Staff
ADMINISTRATIVE, PROFESSIONAL AND SUPPORT STAFF

George H. Van Allen, President
B.S., Appalachian State University, 1970
M.A., Appalachian State University, 1971
Ed.D., North Carolina State University, 1981

Rebecca A. Abu-Orf, Manager,
Payroll Services

John E. Adamson, Computer Operations
Specialist, Computer Services
B.S., University of Tennessee, 1971
A.S., Nashville State Technical Institute, 1984

George E. Aldridge, Security Guard,
Safety and Security

Ayman M. Al-Qudsi, Assistant Director,
Computer Services
B.S., Tennessee State University, 1996
M.B.A., Washington International University, 2005

Matthew O. Appleton, Technical Systems
Specialist, Computer Services

Bill Archer, Laboratory Technician/Technology
A.A.S., Nashville State Community College, 2005

Joyce M. Baker, Secretary II, Admissions

Laura L. Barnes, Systems Analyst,
Computer Services
B.S., Western Kentucky University, 2000

Bernice G. Batchelor, Account Clerk
Supervisor, Accounting
B.S., Lane College, 1973

Suzanne S. Belcher, Receptionist

Valerie S. Belew, Dean,
English, Humanities and Arts
B.A., Union University, 1982
M.A., Tennessee Technological University, 1985

Z. Dianne Blankenship, Account Clerk
Supervisor-Cashiering and Registration,
Bursar’s Office

Jason M. Bond, Maintenance Worker,
Operations and Maintenance

J. Larry Brown, VA Coordinator
A.A.S., Nashville State Technical Institute, 1994
A.A.S., Nashville State Technical Institute, 1999

Betty P. Broz, Coordinator, Community Education
Certified Professional Secretary, 1994

James W. Bryant, A/C Heating Mechanic III,
Operations and Maintenance
Certificate, HVAC, Tennessee Technology Center, 1973

Melanie J. Buchanan, Budget, Travel and
Special Contracts Manager
B.A., Trevecca Nazarene University, 1997

Villa Ann Buckingham, Grants Fiscal
Clerk, Accounting

Barbara Carr, Custodian,
Operations and Maintenance

Donna Joan Christopher, Assistant
Director, Cookeville Campus
B.A., Oachita Baptist University, 1966
M.S., Vanderbilt University, 1978

Judith I. Cook, Administrative Secretary,
President’s Office
Certified Professional Secretary, 2004

Eileen Crane, Assistant to the President
B.A., Trevecca Nazarene University

Brenda S. Davis, Maintenance Worker

M. Elaine Davis, Controller, Accounting
B.S., Belmont University, 1972
A.S., Nashville State Technical Institute, 1983

James T. Dawson, Director,
Operations and Maintenance

Janet S. Dennis, Personnel Assistant,
Human Resources

Fernando Diggs, Lead Cashier,
Bursar’s Office

Christina Dismore, Secretary III, Social and Life Sciences
A.S.S., Nashville State Community College, 2004

Edward G. Dubell, Graphic Arts
Technician, Creative Services
A.A.S., Nashville State Technical Institute, 1997
B.F.A., Middle Tennessee State University, 1999

Julie H. Duel, Graduation Analyst I/Lead Worker, Records

Carl G. Dury, Director, Computer Services
B.A., Rhodes College, 1972
M.S., Virginia Polytechnic Institute and State University, 1975
Ph.D., Virginia Polytechnic Institute and State University, 1977

Sharon R. Dyer, Secretary II, Cookeville Campus

Kathy S. Emery, Director,
Extended Programs
B.S., St. Mary’s University, 1968
M.S., East Texas State University, 1969
Post Graduate, University of Memphis, 1983

Susan E. Fanning, Secretary I, Admissions

Mark T. Farmer, Security Guard I, Safety and Security

Deborah A. Finney-Webb, Library
Assistant II, Learning Resource Center
Certificate of Career Advancement,
Nashville State Technical Institute, 1981
A.S., Nashville State Technical Institute, 1986

Kathy G. Ford, Testing Technician I,
Testing Center

Michael A. Franklin, Lab Technician,
Cookeville Campus

Carolyn O. Frye, Office Supervisor,
Learning Center
B.S., University of Tennessee at Nashville, 1979
M.S., University of Tennessee at Knoxville, 2002

Pamela R. Gadd, Testing Technician I,
Testing Center

Brenda S. Brown, Maintenance Worker,
Humphreys County Center

Carol A. Golden, Programmer Analyst I,
Computer Services
A.S., Nashville State Technical Institute, 1983

Adriane D. Gordon, Admissions
Supervisor, Admissions
A.S., Nashville State Technical Institute, 1997
Certificate of Career Advancement,
Accounting Clerk, 2002
Certificate of Career Advancement,
Microcomputer Application Specialist, 2002

Delphia L. Green, Admissions and
Records Clerk, Southeast Center,
Certificate of Career Advancement,
Nashville State Technical Institute, 1999
A.A.S., Nashville State Technical Community College, 2003

Ruth L. Green, Secretary II,
Business and Applied Arts
Evelyn T. Hadley, Director,
Special Projects
B.A., Trevecca Nazarene University, 1996
M.S., Tennessee State University, 2005

Kay Hall, Secretary III, Mathematics and Sciences
V. Nichole Halliburton, Records Clerk, Records

Elvis E. Hamrick, Security Guard I

Robert Hankins, Jr., Internal Auditor
B.S., Middle Tennessee State University, 1968
C.P.A., 1976

Brenda K. Harriford, Technical Clerk,
Operations and Maintenance
A.A., Western Kentucky University, 1976

Brandi Hill, Admissions and Records Clerk,
Cookeville Campus
A.A.S., Nashville State Community College, 2005

Janice M. Hines, Security Dispatcher,
Safety and Security

S. Lee Housley, Electrician,
Operations and Maintenance

Phillip E. Howse, Systems Specialist,
Computer Services

M. Wylie Hudson, Security Guard I,
Safety and Security

Mary N. Hufnies, Secretary II,
Health Sciences

Certified Professional Secretary, 1985

Herbert E. Hunt, Manager, Property Management, Purchasing, Shipping and Receiving
A.S., Draughons Junior College, 1972

Robin D. Huntsman, Technical Clerk,
Finance and Administration
A.A.S., Volunteer State Community College, 2004

Cecil H. Ivy, Jr., Clerk,
Shipping and Receiving

Deanna M. Jackson, Secretary II,
Applied Arts
A.S., Nashville State Community College, 2006

Doug C. Jameson, Coordinator,
Distance Education
A.A.S., Nashville State Technical Institute, 1996
B.A., Trevecca Nazarene University, 1998
M.S., Cumberland University, 2004

Carolyn S. Jeans, Personnel Assistant III,
Human Resources
A.A.S., Nashville State Community College, 2003
Certified Professional Secretary, 2005

James H. Jenkins, Jr., Custodian,
Operations and Maintenance

Delisa C. Johnson, Financial Aid Clerk,
Financial Aid

James R. Johnson, Dean,
Information and Engineering Technologies
B.S., Wisconsin State University-River Falls, 1965
M.S., University of Wisconsin, Milwaukee, 1969
Ed.D., Baylor University, 2000

Malcolm H. Johnson, Computer Lab
Technician, Computer Services
A.E., Nashville State Technical Institute, 1982

Wilma R. Johnson, Secretary III,
Computer Services
A.A.S., Nashville State Community College, 2005
Certified Professional Secretary, 2004

Margaret F. Jones, Dean of Learning Resources
M.A., University of Alabama, 1981
M.A., University of Alabama, 1985
M.A., Tennessee State University, 1992
Ph.D., Indiana University of Pennsylvania, 2003

River Jordan, Grants Coordinator,
Development

Paul A. Kaminsky, Manager of
Administrative Application Services,
Computer Services
B.Sc, Hunter College, 1974
M.B.A., New York University, 1998

Administration, Faculty, and Staff
David C. McNeel, Director, Center for Information Technology Education
B.S., Rhodes College, 1970
M.S., Vanderbilt University, 1977
Marian M. McNeill, Administrative Secretary, Academic Affairs
Certified Professional Secretary, 2003
Misti D. Meeks, Records Clerk, Records
A.A., Lincoln Christian College, 2004
Thomas L. Melton, Coordinator, Video Productions
A.S., Jackson State Community College, 1981
Certificate in Audio Visual Technology, Nashville State Technical Institute, 1982
A.S., Dyersburg State Community College, 1997
Vicki R. Mendenhall, Computer Lab Technician, Computer Services
A.A.S., Nashville State Technical Institute, 1998
Marilynn L. Miller, Technical Clerk, Cookeville Campus
J. Joshua Moran, Financial Aid Counselor
B.S., University of Tennessee, Martin, 1999
Pamela C. Munz, Dean of Health & Social Sciences, Languages, Law Enforcement and Social Sciences
B.A., Murray State University, 1966
M.A., Murray State University, 1969
Ed.D., University of Tennessee, 1982
Jeffrey L. Myers, Security Guard II, Safety and Security
A.S., Aquinas Junior College, 1982
Nakita L. Nation, Cashier, Bursar’s Office
Sandra R. O’Donnell, Library Assistant III, Learning Resource Center
John P. Oakley, Senior Technical Systems Specialist, Computer Services
EvaLeane G. Owens, Security Guard Supervisor, Safety and Security
Melissa K. Pauley, Records Clerk/Optidoc Specialist, Records
B.S., Jackson State University, 1991
Gail Phillips, Director, Workforce and Community Development
Certified Microsoft Office User Specialist, 2002
VUE Test Administrator Certification Exam, 2003
Will B. Plunk, Information Research Technician, Computer Services
Sharon M. Pointdexter, Secretary III, Information & Engineering Technologies
Laura L. Potter, Director of Admissions
B.S., Lipscomb University, 2003
Vicki H. Preston, Assistant Director, Financial Aid
B.S., Eastern Kentucky University, 1981
Laurie W. Rhoton, Accountant, Accounting
A.S., Nashville State Technical Institute, 1983
A.A.S., Nashville State Technical Institute, 1996
Certified Professional Secretary, 1987
Kimberly D. Roberts, Admissions Clerk
Leah A. Roberts, Scholarship Coordinator, Financial Aid
Sally A. Robertson, Librarian, Learning Resource Center
B.S., Belmont University, 1978
M.L.S., Peabody College of Vanderbilt University, 1979
Summer Binkley-Scafidi, Admissions Clerk, Admissions
A.A.S., Nashville State Community College, 2005
Candice R. Schutt, Account Clerk II, Bursar’s Office
DeAnna C. Shaw, Technical Clerk, Budget, Travel and Special Contracts
Alhassan N. Sherrif, Programmer Analyst II
G. Derrek Sheeuff, Director, Safety and Security
Richard H. Shores, Computer Lab Technician, Computer Services
A.A.S., Nashville State Technical Institute, 2000
Apple Certified Desktop Technician, 2004
Microsoft MVP, 2005
James M. Shrum, Computer Lab Technician
Miriam L. Sibrel, Secretary II, Engineering Technologies
A.S., Nashville State Technical Institute, 1979
Debra Simpkins-Bauer, Vice President, Finance and Administrative Services
B.S., University of Tennessee at Martin, 1977
Judy A. Smith, Systems Specialist, Computer Services
A.S., Nashville State Technical Institute, 1983
Karen Jo Smith, Coordinator, Purchasing
Susan Parker Smith, Records Clerk, Records
Steven A. Solomon, Printing Estimator
B.F.A., University of Chicago, 1968
Computer Electronics Diploma, Nashville Area Vocational-Technical School, 1986
TEFL Certification, Winfield College, 2001
Gloria D. Spears, Technical Clerk, Financial Aid
Annette Starrett, Secretary II, Occupational Therapy and Surgical Technology
Marc Starrett, Assistant Director, Workforce and Community Development
Karen L. Stevenson, Dean, Business and Applied Arts
B.S., Ohio State University, 1980
M.A., Ohio State University, 1987
Tiffany N. M. Stevenson, Secretary II, Student Services
A.A.S., Nashville State Technical Institute, 2000
Certified Professional Secretary, 2004
Jennie L. Stribling, Director, Humphreys County Center
B.B.A., Austin Peay State University, 1982
M.Ed., Austin Peay State University, 2002
Billie J. Sullivan, Secretary I, Career Employment Center/Extended Programs
Donna M. Svolto, Evening Secretary, Clement Building
B.S., Tennessee Tech University, 1978
Dennis D. Tannant, Director, Cookeville Center
B.S., Tennessee Technological University, 1996
B.S., Tennessee Technological University, 1998
M.A., Tennessee Technological University, 2003
Educational Specialist, Instructional Leadership, 2004
Mary V. Thomas, Secretary II, Social and Life Sciences
Yawana L. Thomas, Admissions Clerk, Admissions
John W. Thompson, Custodial Lead Worker, Operations and Maintenance
Ronnie L. Thompson, Custodian, Operations and Maintenance
Tamla D. Thompson, Secretary II, Early Childhood and Law Enforcement
Priscilla D. Tibbs-Moody, Assistant to Director, Student Services
B.S., Tennessee State University, 1987
M.S., Tennessee State University, 1995
Paralegal Certificate, 2000
Susan L. Tucker, Secretary III, English, Humanities and Arts
D. Keith Turner, Financial Aid Counselor  
B.S., University of Tennessee, Martin, 1995

Troy L. Valentine, Academic Systems  
Specialist, Computer Services

Edna F. Vaughn, Microcomputer Lab Technician, Learning Resource Center  
A.S., Nashville State Technical Institute, 1985

David M. Wallace, Security Guard I  
B.S., University of Tennessee-Martin

Ted M. Washington, Associate Vice President, Planning and Assessment  
A.S., Nashville State Technical Institute, 1977  
A.S., Nashville State Technical Institute, 1980  
B.B.A., Belmont University, 1987  
M.B.A., Tennessee State University, 1993

A.J. Watson, Web Developer, Creative Services  
A.A.S., Nashville State Community College, 2005

Clifton Dwight Watson, Programmer  
Analyst I, Computer Services  
A.A.S., Nashville State Technical Institute, 1995

Katherine Watts, ESL Testing  
Specialist/Advisor, Student Services  
B.A., Furman University, 1993  
M.A., Northern Arizona University, 1996

Ken R. Waugh, Computer Operations  
Specialist, Computer Services

Ellen J. Weed, Vice President, Academic Affairs  
B.A., University of Michigan, 1963  
M.A., University of Michigan, 1971  
Ph.D., University of Michigan, 1973

James D. Wharton, Custodial Supervisor, Operations and Maintenance

Stephen F. White, Director, Financial Aid  
B.A., Campbellsville College, 1980  
M.Div., Southern Baptist Theological Seminary, 1983

Evelyn S. Wilkerson, Office Supervisor, Technical Support, Financial Aid  
A.A.S., Columbia University Presbyterian Hospital, 1985

Jennifer C. Anderson, Instructor, Mathematics and Sciences  
B.A., Knox College, 1998  
M.S., Southern Illinois University, 2000

Barbara E. Baker, Associate Professor, Social Sciences  
B.S., Tennessee State University, 1981  
M.Ed., Vanderbilt University, 1989  
Ed.D., Vanderbilt University, 1990

Paul H. Balch, Instructor, Surgical Technology  
A.A.S., Columbus State University Presbyterian Hospital, 1985

T. Van Bates, Instructor, Surgical Technology  
B.A., David Lipscomb University, 1990  
Certified Surgical Technologist (CST)

Debra A. Bessent, Program Coordinator/Instructor, Surgical Assisting  
S.T., Glendale Career College, 1992  
R.C.S.T., Azusa Community College, 1997  
Certified Surgical Technology Instructor, 2002

Karen E. Bourg, Associate Professor, Social Sciences  
B.A., Emmanuel College, 1964  
M.A., Northeastern University, 1966

Beverly E. Bradley, Instructor, Computer Information Systems  
A.A.S., Nashville State Technical Institute, 1992  
B.M., Middle Tennessee State University, 1977  
M.B.A., University of Phoenix, 2006

Donnett E. Bullard, Instructor, Vistavon Nashville Glass Plant's Skills Enhancement Program  
B.S., Valdosta State College, 1986  
M.S., Valdosta State College, 1993  
Certificate, Georgia Energy Technology Institute for Teachers, Certificate, Professional Career Development Institute

Michael L. Christensen, Instructor, Mathematics and Sciences  
B.A., William Jewell College, 1979  
M.S., Kearney State College, 1982

B. Alice Church, Associate Professor, English, Humanities and Arts  
B.A., University of Tennessee, 1972  
M.A., Vanderbilt University, 1973  
Phi Theta Kappa Leadership Instructor Certification, 1998

Anthony P. Cicirello, Assistant Professor, Computer Networking Technology  
B.S., Valdosta State University, 1988  
M.P.A., Valdosta State University, 1990  

Leslie M. Clarke, Associate Professor, Computer Information Systems  
B.A., Nashville State Technical Institute, 1973  
B.B.A., Belmont University, 1978

Elvy B. Cleary, Instructor, Architectural Engineering Technology

Laura N. Connor, Instructor, Mathematics and Sciences

Yvonne Cornelius-Thompson, Assistant Professor, Social Science  
B.A., Belmont University  
M.L.A., Vanderbilt University

Nanci S. Cross, Instructor, Office Administration  
A.A.S., Volunteer State Community College, 1994  
B.A., Trevecca University, 1996  
M.Ed., Tennessee State University, 2005  
RHI, 2001

Brian K. Curtis, Instructor, English, Humphreys County Center  
B.A., Austin Peay State University  
M.A., Texas Tech University

Timothy C. Dean, Associate Professor, Electrical Engineering Technology

Koos K. Dhuan, Associate Professor, Computer Information Systems  
B.S., Tennessee State University, 1999  
M.S., Tennessee State University, 2001

Joseph W. Dolan, Associate Professor/Coordinator, Biotechnology Program  
B.S., Ohio State University, 1981  
Ph.D., Indiana University, 1986

G. Howard Doty, Professor, Business Management  
B.S., Tennessee Technological University, 1969  
J.D., University of Tennessee School of Law, 1970

Hamid Doust, Associate Professor, Mathematics and Sciences  
B.S., School of Banking, Iran, 1976  
M.S., Middle Tennessee State University, 1981

Nicole Driggins, Instructor, Mathematics and Sciences

Diane M. Eagle, Associate Professor, English as a Second Language  
B.A., University of Illinois, 1983  
M.A., University of Illinois, 1989

Katherine R. Echegaray, Assistant Professor, Mathematics and Sciences  
B.S., University of Central Arkansas, 1977  
M.S., University of Houston-Clear Lake, 1991  
Secondary Educator Certification-Texas, 1998  
Secondary Educator Certification-Florida, 2001

Kelvin L. Elston, Assistant Professor, Business Management  
A.S., Cleveland State Community College, 1984  
B.S., Birmingham Southern College, 1986  
M.S., Cumberland University, 1999  
Certified as Achieve Global Trainer, 2002

Bryan L. Evans, Instructor, Engineering Technologies  
A.S., Nashville State Technical Institute, 1994

Patricia A. Feller, Instructor, Accounting  
B.A., University of South Florida, 1977  
M.Acc., University of South Florida, 1980  
Certified Public Accountant, 1987  
Certified Internal Auditor, 2004  
Certified Fraud Examiner, 2006  
Forensic Certified Public Accountant, 2006

John L. Feuerbacher, Instructor, Mathematics and Sciences  
B.A., University of Tennessee, 1972  
Registered Professional Architect, 1978  
M.S., University of Tennessee, 1995

177
David C. Finney, Associate Professor, Electrical Engineering Technology  
B.S., Middle Tennessee State University, 1974  
First Class Radio-Telephone License, 1976,  
FCC Certified Electrical Contractor,  
GM Professional Instructor  
M.S., University of Tennessee, 1995  
M.S., East Tennessee State University, 1999  
Mira R. Fleischman  
B.S., Murray State University, 1973  
M.A., Western Kentucky University, 1978  
Connie L. Flood, Instructor, English as a Second Language  
B.A., Vanderbilt University, 1997  
M.A., Ohio University, 2002  
Kwaku Foruku-Sekeyere, Associate Professor, Mathematics and Sciences  
B.S., Manchester College, 1981  
M.S., University of Tennessee, 1982

Valerie J. Stroop, Associate Professor, Business Management
B.S., David Lipscomb University, 1981
M.B.A., Tennessee State University, 1994

Laurie Lea Swanson, Assistant Professor, Computer Accounting
B.S., Tennessee Technological University, 1986
M.B.A., Tennessee Technological University, 1988
Certified Public Accountant, 2005

Beth Trabue, Assistant Professor/Program Coordinator, Photography
B.F.A., University of Georgia, 1994

Donald L. Turner, Instructor, English, Humanities and Arts
B.A., The University of the South—Sewanee, 1993
M.S., University of Tennessee-Knoxville, 1995
Ph.D., University of Denver, 2005

Ford J. Turrell, Instructor, English, Humanities and Arts
B.A., Aquinas College, 1998
M.A., Antioch University, 2001

Innocent I. Usoh, Professor, Electrical Engineering Technology
B.S.E.E., Mississippi State University, 1980
M.S.E.E., Tuskegee University, 1982
Ed.D., Tennessee State University, 2003

Arthur J. Ward, Professor, Mathematics and Sciences
B.S., Texas Western College, 1964
M.S., Vanderbilt University, 1978

Mary M. Warner, Instructor, English, Humanities and Arts

David M. Weilmuenster, Assistant Professor, Visual Communications
B.F.A., Middle Tennessee State University, 1993

Bridgette E. Weir, Instructor, English, Humanities and Arts
B.A., Middle Tennessee State University
M.A., Southern Methodist University, 1998

David Welch, IT Program Coordinator/Associate Professor, Computer Information Systems
A.A.S., Nashville State Technical Institute, 1996
B.S., Middle Tennessee State University, 1983
Microsoft Certified Professional, 1998

William Claude Whitaker, Instructor, Automotive Services Technology
A.A.S., Nashville State Technical Institute, 1988

Donna G. Whitehouse, Assistant Professor/Program Coordinator, Health Sciences
MHA, OTRL B.S., University of Tennessee at Memphis, 1990
M.H.A., University of Missouri-Columbia, 1996

Jack L. Williams, Associate Professor, Mathematics and Sciences
B.S., University of Tennessee, 1971 M.S., University of Tennessee, 1988
Registered Professional Engineer, 1979
Certified Quality Engineer, 2002

Michael A. Wright, Assistant Professor/Program Coordinator, Law Enforcement
A.A.S., Austin Peay State University, 1981
B.S., Columbia Southern University, 2002
POST Certified Police Officer, State of Tennessee Police Instructor Certification, States of Tennessee and Florida, Advanced Tactical Certificate, Austin Peay State University

LaDonna Yarborough, Instructor, Mathematics and Sciences
B.S., Trevecca Nazarene University, 1978

FACULTY EMERITUS

Louis J. Blecha, Professor Emeritus
B.A., Bethany College, 1958
M.A., University of Kansas, 1967

Lillian Dibblee, Associate Professor, Mathematics and Sciences
B.S., Missouri Valley College, 1965
M.A., Purdue University, 1971

Samuel C. Gant, Professor Emeritus
B.A., David Lipscomb University, 1961
M.A., Peabody College of Vanderbilt University, 1963
Ph.D., Peabody College of Vanderbilt University, 1971

Robert McDow, Professor Emeritus
B.S., Memphis State University, 1965
M.A., Vanderbilt University, 1970
Ph.D., Vanderbilt University, 1971

Charles E. McSurdy, Professor Emeritus
B.S., Virginia Polytechnic Institute and State University, 1964
M.S., Radford University, 1967
Ed.D., University of Virginia, 1975

Arlene Pelton, Professor Emeritus
B.S., Belmont University, 1974

Ursula Roden, Professor Emeritus
M.A., University of Texas

Joe R. Taylor, Professor Emeritus
A.S., Martin College, 1960
B.S., Belmont University, 1962
Certificate in Data Processing, 1973 Institute for Certification of Computer Professionals

Gwyn Tilley, Professor Emeritus
B.S., David Lipscomb University, 1964
M.A., Peabody College of Vanderbilt University, 1968

Wallace Wilson, Professor Emeritus
B.E., Vanderbilt University, 1957
M.S., Lehigh University, 1958
Ph.D., Georgia Institute of Technology, 1967
Registered Professional Engineer, 1967

LaDonna Yarborough, Instructor, Mathematics and Sciences
B.S., Trevecca Nazarene University, 1978

Application for Admissions

Please send application and official transcript(s) to: Office of Admissions
120 White Bridge Road
Nashville, TN 37209-4515

Applicants must complete every item on this form, sign and date, and return it with a $5 non-refundable fee, unless previously paid. All credentials provided to the college become the property of the college and cannot be forwarded or returned. All credentials will be maintained in an active status for a period of 12 months. After this period, if you do not register for classes, all credentials will be relocated to an inactive status and must be submitted again before an admissions decision will be made. Application must be submitted in blue or black ink.

Student Social Security Number:

If U.S. social security number is unavailable, a student identification number will be assigned. The applicant must retain this number for access to his/her file.

Full Legal Name:

Last, First, Middle

Permanent Home Address:

Number Street/Apt. # P.O. Box

City State Zip Code County Country (if not U.S. Citizen)

Email address Telephone number (please include area code)

Local Home Address (If different from Permanent Address):

Number Street/Apt. # P.O. Box Telephone Number

City State Zip Code County Country (if not U.S. Citizen)

Date of Birth:

Month Day Year

Place of Birth:

City State Country

Emergency Contact Information:

Name Relationship

Address Telephone Number

We request your completion of the following for reporting purposes only. This information will not be used to discriminate against any applicant in the admissions decision: ☐ Male ☐ Female

Check One: ☐ Asian or Pacific Islander ☐ American Indian ☐ Hispanic ☐ Alaskan Native

☐ African American, not of Hispanic Origin ☐ White, not of Hispanic Origin ☐ Other

All male U.S. citizens and non-citizens who take up residency in the United States of America before their 26th birthday must register with Selective Service prior to registering for classes at NSCC. This requirement does not apply to veterans and others exempt by federal law.

Indicate whether or not you have registered for the United States Selective Service:

☐ Yes ☐ No ☐ Exempt Military Veteran: ☐ Yes ☐ No

Check One: ☐ U.S. Citizen ☐ Foreign Citizen, non-immigrant ☐ Foreign Citizen, permanent U.S. resident

If non-U.S. resident, in what country do you hold citizenship? ____________________________ Visa Number__________________

What type of visa do you hold? ____________________________ What is your native language? ____________________________
No student will be classified as an in-state resident at NSCC by his/her mere presence as a student in the state of Tennessee.

Have you lived in Tennessee continuously since birth?  □ Yes  □ No
If no, when and why did you move to Tennessee?  

Employment (for resident classification purposes only):
Are you currently employed?  □ Yes (____Full-time, ____Part-time)  □ Currently not employed

Please indicate the semester and year you plan to attend NSCC:
Fall/Year_________ Spring/Year_________ Summer/Year_________
Have you previously applied for admission?  □ Yes _______ □ No

Please indicate your primary campus:
□ Main Campus/Nashville  □ Humphreys Co./Waverly
□ Southeast/Nashville  □ Cookeville  □ Dickson

Under which classification do you wish to enroll? Check one:

Degree/Certificate Student:
□ First Time College Student
(no prior college attendance)
□ Re-Admit (previously attended NSCC)
□ Transfer [previously attended college(s)]
□ Certificate Program

Non-Degree Student:
□ Transient (transferring courses back to another institution)
□ Seeking College Level Courses
  □ Math  □ English  □ Other
□ Continuing Education (CED)
  (Workforce and Community Development Courses Only)
□ ESL Courses Only

Present High School Students Only:
Applications should be submitted to the office of Extended Programs located in W 62.
□ Dual Enrollment
□ Joint Enrollment
*Dual and Joint Enrollment refer to present high schools students who are taking college level courses. Prior approval by the Office of Extended Programs is required.

Intended Major: Please check degree or certificate you plan to receive from NSCC. Omit this section if you checked any box under the Non-Degree Student column. Refer to Degree insert for a list of possible degree programs and concentrations.

Degree Student:  □ Associate of Arts (AA)  □ Associate of Science (AS)  □ Associate of Science in Teaching (AST)
□ Associate of Applied Science (AAS)

  Degree Program  Concentration (Only for AAS Degrees)

Certificate Student:  □ Technical Certificate

High School Attended:
High School Address:__________
City  State  Zip Code  County  Country
Print your name as it appears on your high school transcript:__________
High School Graduation Date:__________

If you are not a high school graduate, have you earned the GED equivalency diploma?  □ Yes  □ No
Indicate date GED received:__________
Official scores must be sent to the Office of Admissions.

List all colleges/universities attended (including NSCC if you are re-enrolling). Official transcripts from ALL previous institutions must be sent directly to the Office of Admissions. It is the student’s responsibility to obtain official transcripts.

**Please see Hepatitis B Waiver Form on back.**

Nashville State
APPLICATION INSTRUCTIONS:

First-time College Student
(No prior college attendance)
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Submit Official ACT Report (Not required if 21 years of age or older. Applicants 21 or older will be required to take the COMPASS Test). Official ACT report can be requested by writing to American College Testing Program, PO BOX 414, Iowa City, Iowa 52240. ACT scores on official high school transcripts are acceptable, as are SAT scores.
4. Students will be placed in Developmental Courses based on sub-scores of 18 or below on the Math, English, or Reading section of the ACT, or below 450 on the Critical Reading or Math portion of the SAT.
5. Request high school to forward official transcript to Office of Admissions.
6. If eligible by GED, have official copy sent directly from reporting Institution to Office of Admissions,
7. Complete Hepatitis B Waiver Form and Proof of Measles, Mumps, and Rubella Immunization.

Re-Admit
(Previously attended NSCC)
1. Complete Application for Admissions.
2. Applicants who have attended other institutions since attending NSCC must have an official transcript forwarded from each institution.

Transfer
(Previously attended college(s])
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Request an official transcript be forwarded directly to NSCC from each college, business, or technical school attended.
4. Transfer students without previous English or Math course work will be required to take the appropriate portion of the COMPASS placement test prior to registration. Students who took the placement test at another Tennessee Board of Regents institution should have COMPASS scores sent to the Office of Admissions.
5. Complete Hepatitis B Waiver Form and Proof of Measles, Mumps, and Rubella Immunization.

Transient Student
(Transferring courses back to another institution)
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Submit an official transcript from each institution attended.

Non-Degree Seeking
College Student (Not pursuing a degree, but taking college level courses)
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Submit an official transcript from each college attended.

Continuing Education (CED) (Special interest and ESL Courses)
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Applicants under the age of 21 must submit official high school or GED transcript.

Community Education (CEU) (General Interest Courses)
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Complete Hepatitis B Waiver Form and Proof of Measles, Mumps, and Rubella Immunization.

College Credit for ACT English Subscore/ SAT Critical Reading Score
Applicants who have a valid ACT English subscore of 27 or higher or a valid SAT Critical Reading score of 610 or higher may receive credit for English 1010. ACT/SAT scores must be less than three years old to be considered valid.

Dual Enrollment and
High School Programs
The office of K-12 programs handles application procedures for all Dual-Enrollment students. For questions regarding Dual Enrollment, please call 615-353-3299.

Regents Online Degree Program
(RODP)
Go to www.tn.regentsdegrees.org for instructions. Complete the student profile and follow application instructions for First Time College Student or Transfer Student. For questions regarding RODP, please call 615-353-3461.

International Student
The Office of Admissions handles application procedures for all International Students. International students with questions should call 615-353-3219.

Information for Students with Disabilities
If you have a learning or physical disability and want information on the types of services that are available, please call 615-353-3992.
Degree and Certificate Programs

Please refer to this page when filling out the Intended Major portion of the Application.

Associate of Science (AS), Associate of Arts (AA) Degrees, Associate of Science in Teaching (AST)

University Parallel Degrees

Students planning to earn a baccalaureate degree at a four-year college of university can complete their first two years at Nashville State Community College and receive an Associate of Science (AS), Associate of Arts (AA) or AST degree. The primary goal of these degrees is to prepare students to successfully pursue the baccalaureate degree.

Revised 2-6-08 cbd
Hepatitis B Immunization Health History Form
(TO BE COMPLETED BY NEW APPLICANTS ONLY)

Name: ________________________________

Last    First    MI

Date of Birth: ________________________

Month/Day/Year

Social Security Number*: ____________

Phone: (____) ________

The General Assembly of the State of Tennessee mandates that each public or private postsecondary institution in the state provide information concerning hepatitis B infection to all students matriculating for the first time. Tennessee law requires that such students complete and sign a waiver form provided by the institution that includes detailed information about the disease. The required information below includes the risk factors and dangers of the disease as well as information on the availability and effectiveness of the vaccine for persons who are at risk for the disease. The information concerning this disease is from the Centers for Disease Control and the American College Health Association.

The law does not require that students receive vaccination for enrollment. Furthermore, the institution is not required by law to provide vaccination and/or reimbursement for the vaccine.

Hepatitis B (HBV) Immunization
(TO BE COMPLETED BY ALL NEW STUDENTS)

Hepatitis B (HBV) is a serious viral infection of the liver that can lead to chronic liver disease, cirrhosis, liver cancer, liver failure, and even death. The disease is transmitted by blood and or body fluids and many people will have no symptoms when they develop the disease. The primary risk factors for Hepatitis B are sexual activity and injecting drug use. This disease is completely preventable. Hepatitis B vaccine is available to all age groups to prevent Hepatitis B viral infection. A series of three (3) doses of vaccine are required for optimal protection. Missed doses may still be sought to complete the series if only one or two have been acquired. The HBV vaccine has a record of safety and is believed to confer lifelong immunity in most cases.

I hereby certify that I have read this information and I have had the entire series of the Hepatitis B vaccine.

I hereby certify that I have read this information and I have elected not to receive the Hepatitis B vaccine.

I hereby certify that I have read this information and I have elected to receive the Hepatitis B vaccine and/or I am in the process of receiving the complete three dose series of the Hepatitis B vaccine.

Signature of Student or Parent/Guardian (If student is under 18): ____________________________ Date: ____________

For more information about the Hepatitis B disease and its vaccine, please contact your local health care provider or consult the Center for Disease Control and Prevention Web site at [www.cdc.gov/heathinformation.htm].

In accordance with the Privacy Act of 1974, please be advised that the requested disclosure of your Social Security Number is voluntary and optional. Your Social Security Number will not be disclosed to individuals or agencies outside the institution except in accordance with the institutional policy on student records.

120 White Bridge Road  *  Nashville, TN 37203  *  615-369-3333  *  1-800-272-7363  *  www.nyscc.edu  *  A Tennessee Board of Regents College

Application Agreement, Signature, and Disclaimer (Please sign in blue or black ink).

If you are accepted as a student at this institution, there are certain performance tests you will be required to take during your academic career. It is a requirement of admission that

you agree to take any tests deemed necessary by the institution. In those instances where tests are administered by an external entity, you hereby agree for the result of such tests to be released to this institution. The purpose of this agreement and requirement is to comply with the legislature's expressed intent that institutions regularly evaluate and improve instruction at all levels. Any test scores obtained under this agreement by Nashville State Community College will be treated with the strictest confidentiality as required by law.

The federal campus sex crimes prevention act and the Tennessee College and University Campus Sex Crimes Prevention Act of 2002 require that whenever a sex offender becomes employed, enrolls as a student or volunteers at an institution of higher education in the state of Tennessee, he or she must complete an update the Tennessee Bureau of investigation (TBI) sexual offender registration monitoring form and deliver it to TBI headquarters in Nashville. Students may obtain Tennessee Bureau of Investigation (TBI) Sexual Offender of Safety Officer Registration/Monitoring Forms in the Office of Safety and Security, Office A-704.

I understand that withholding information on this application or giving false information may make me ineligible for admission to, or continuation in, Nashville State Community College. Accordingly, I certify that all of the information and statements provided by me on this application are correct and complete. Further, if I am admitted to Nashville State Community College I agree to abide by the rules and regulations of the institution.

Signature: ____________________________ Date: ____________

In accordance with the Family Educational Rights and Privacy Act of 1974, as amended, applicants for admission and enrolled students are advised that the requested disclosure of their Social Security number to the Admissions Office is voluntary. Students who do not provide a Social Security number will be assigned a special nine-digit number. This special number or the Social Security number are used (a) to identify such student records as applications for admission, registration and course enrollment documents, grade reports, transcript requests, certification requests, and permanent academic records and (b) to determine eligibility, verify school attendance, and report student status. Students are notified, however, that only the Social Security number may be used as an identifier for grant, loan, and other financial aid programs according to federal regulations. The student Social Security number will not be disclosed to individuals or agencies outside Nashville State Community College except in accordance with the institutional policy on student records.

Nashville State Community College is a Tennessee Board of Regents institution and complies with nondiscrimination laws Title VI, Section 504 and the ADA, NSCC-12-06 Revised: 4/17/16 3rd
