Disclaimer

CollegeSource® digital catalogs are converted from either the original printed catalog or electronic media supplied by each school. Although every attempt is made to ensure accurate conversion of data, CollegeSource®, Inc. and Career Guidance Foundation and the schools which provide the data do not guarantee that this information is accurate or correct. The information provided should be used only as reference and planning tools. Final decisions should be based and confirmed on data received directly from each school.

*Because foreign-language data are subjected to a more limited quality control, CollegeSource® accepts no liability for the content of non-English materials.
Catalog Scope and Limits
The course offerings and requirements of the college are continually under examination and revision. This catalog presents the offerings and requirements in effect at the time of publication, but there is no guarantee they will not be changed or revoked. However, adequate and reasonable notice will be given to students affected by any changes. This catalog is not intended to state contractual terms and does not constitute a contract between the student and the college.

The college reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students, to be effective whenever determined by the college. The enrollment of all students is subject to these conditions. Current information may be obtained from the following sources: Admission Requirements–Student Services Center, Course Offerings–Department or Division offering the course, Degree Requirements–Records Office, and Tuition–Business Office. Web site: www.nscc.edu

Nashville State Community College provides the opportunity for students to increase their knowledge by providing programs of instruction in the various disciplines through faculty who are qualified for teaching at the college level. The acquisition and retention of knowledge by any student is, however, contingent upon the student's desire and ability to learn and upon application of appropriate study techniques to any course or program. Thus, Nashville State Community College must necessarily limit representation of student preparedness in any field of study to that competency demonstrated at that specific point in time at which appropriate academic measurements were taken to certify course or program completion.

Policy Statement of Nondiscrimination
Nashville State Community College does not discriminate in any form against students, employees, or applicants on the basis of race, sex, national origin, religion, age, or disability. Nashville State Community College complies with nondiscrimination laws Title VI, Title IX, Section 504, and the ADA. This discriminatory policy and practice extends to cover all educational programs and activities conducted by Nashville State Community College. Procedures for filing grievances can be obtained from the college’s Affirmative Action Officer.

State of Tennessee General Assembly
Chapter No. 661, House Bill 3526
It is a Class A misdemeanor to misrepresent academic credentials. A person commits the offense of misrepresentation of academic credentials who, knowing that the statement is false and with the intent to secure employment at or admission to an institution of higher education in Tennessee, represents, orally or in writing that such person:

(1) Has successfully completed the required course work for and has been awarded one (1) or more degrees or diplomas from an accredited institution of higher education;

(2) Has successfully completed the required course work for and has been awarded one (1) or more degrees for diplomas from a particular institution of higher education; or

(3) Has successfully completed the required course work for and has been awarded one (1) or more degrees or diplomas in a particular field or specialty from an accredited institution of higher education.

Accreditation and Memberships
Nashville State Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools. Contact the Commission on Colleges, 1866 Southern Lane, Decatur, Georgia 30033–4097; Telephone 404-679-4501 for questions about the accreditation of Nashville State Technical Community College. The Commission should be contacted only if there is evidence supporting significant non-compliance by the college with the commission requirements and standards. Other questions such as inquiries about admissions or graduation requirements, or academic programs should be directed to the college.

The Business Management, Computer Accounting, and Office Administration Programs have been given full accreditation by the Association of Collegiate Business Schools and Programs (ACBSP). 7007 College Blvd., Suite 420, Overland Park, Kansas 66211; Telephone 913-339-9356.

The following Engineering Technology Programs have been accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET), 111 Market Place, Suite 1050, Baltimore, Maryland 21202-4012, Telephone: 410-347-7700.

• Architectural, Civil and Construction Engineering Technology
• Electrical Engineering Technology

The Occupational Therapy Assistant Technology Program is accredited by the Accreditation Council of Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA).

The Surgical Technology Program has been reviewed by the Accreditation Review Committee on Surgical Technology (ARC-ST), and is accredited by the Committee on Accreditation of Allied Health Education Programs (CAAHEP).

The Culinary Arts degree program is accredited by the Accrediting Commission of the American Culinary Federation Foundation.

Nashville State holds membership in additional professional organizations, including:

American Association of Community Colleges
American Society for Engineering Education
American Society for Training and Development
College & University Professional Association for Human Resources
Cookeville Area-Putnam County Chamber of Commerce
Council for Higher Education Accreditation
Humphreys County Chamber of Commerce
Middle Tennessee Society for Human Resource Management
Nashville Area Chamber of Commerce
Nashville Technology Council
National Association of College & University Business Officers
National Association of Student Financial Aid Administrators
National Coalition of Advanced Technology Centers
Servicemembers Opportunities Colleges
Tennessee Alliance for Continuing Higher Education
Tennessee Association of Colleges and Employers

This list is subject to change at any time prior to or during an academic term.

The Mission

The mission of Nashville State Technical Community College is to provide comprehensive educational programs and partnerships, exemplary services, an accessible, progressive learning environment, and responsible leadership to improve the quality of life for the community it serves. The college serves a broad geographic area comprised of Davidson, Cheatham, Dickson, Houston, Humphreys, Montgomery, and Stewart Counties, and the Upper Cumberland region.

Nashville State offers associate degrees and certificates that prepare students to think and perform well whether entering the workforce or transferring to a university upon graduation.

Quality Enhancement Plan

Building Critical Thinkers Responsible for Life-Long Learning

As part of a five-year Quality Enhancement Plan, Nashville State seeks to develop and reinforce students’ critical thinking skills throughout their college experience so that Nashville State students are better able to make confident, sound decisions in their courses, about their education, and throughout their lives.

History of Nashville State

Our Past: Building a Solid Reputation

Since it first opened in 1970, Nashville State Community College has been a vital part of Nashville. Initially named Nashville State Technical Institute, the college had 398 students, and offered only five Associate’s degrees. Graduation was held in the parking lot. White Bridge Road, where the main campus is still located, had only two lanes and very few businesses.

As the White Bridge Road area grew over the years, so did the college. In 1984, Nashville State joined the Tennessee Board of Regents (TBR) system of state universities and community colleges. In the spring of 2002, the decision to expand the mission of Nashville State Technical Institute to community college was approved by the Tennessee General Assembly and the Tennessee State Governor. On July 1, 2002, it became official.

As a community college, Nashville State continues to offer the Associate of Applied Science technical and career degrees. With the mission expansion, new degrees have been added for students planning to transfer their credits to universities: the Associate of Arts, the Associate of Science, and the Associate of Science in Teaching.

Our Present: Bringing Higher Education to Middle Tennessee

In order to better serve middle Tennessee, additional sites of learning have been established. In Waverly, the Humphreys County Center of Higher Education serves students in Stewart, Houston, and Humphreys counties. In Putnam County, the Cookeville campus of Nashville State is in the heart of the upper Cumberland region. In Nashville, the Southeast Center provides learning opportunities for all of southeast Davidson county. In Dickson, students can take classes at the Dickson County Higher Education Center.

Our Progress: Growing with a New Student Services Building

Progress is currently underway on the main campus is Nashville State’s new Student Services facility. The two-story, 60,000 square foot building, will be home to the Admissions, Financial Aid, Records and Student Life departments, as well as the Bursar’s office, Testing Center, and Bookstore. There will also be a food court and student lounge. Additionally, the new building will include five new classrooms.

Our Future: Continuing to Serve Our Students

In the future, Nashville State will continue to build on its solid reputation as a technical college. It will stay in step with the educational needs and work force demands of Nashville and the surrounding middle Tennessee area.
About Nashville State Community College Foundation

The foundation is a non-profit, tax-exempt 501(c)(3) corporation that was established in 1994. It is designated to receive gifts for the college from individuals, corporations and foundations.

Mission

The Nashville State Community College Foundation operates for the support and benefit of Nashville State Technical Community College. The Foundation, with utmost integrity and respect works to expand access to higher education and further regional workforce and economic development by:

- Raising funds to provide scholarships to students as well as to enhance programs at the college
- Advocating for the welfare of the college
- Engaging in other activities to benefit the college

Investing in Nashville's Future

Nashville State Community College makes a difference for students and the communities it serves. Each semester, over 7,000 individuals learn new skills or find a new life direction through the college's broad range of learning opportunities. However, the increased cost of higher education makes it difficult for many individuals to afford college tuition and fees. Private support of this institution ensures that sufficient scholarship funds are available to help students fund their dream of a college education.

Making a Gift

Every gift, regardless of size, makes a difference for the students at Nashville State. Opportunities to strengthen the college abound at all levels. For more information on how to make a gift to Nashville State Community College, please contact the Foundation and Development Office at 615-353-3743 or visit us online at www.nscc.edu/foundation.

Nashville State
ADMISSION TO THE COLLEGE
Nashville State Community College provides opportunities for collegiate education to all qualified applicants without regard to their race, color, sex, religion, national origin, age, or disability. Information concerning admission to the college may be obtained from:

Office of Admissions
Nashville State Community College
120 White Bridge Road
Nashville, TN 37209
Phone 615-353-3215
Email: Recruiting@nscc.edu
Web: www.nscc.edu

Campus Visitation
Campus visits may be scheduled by calling the Office of Admissions at 615-353-3057.

Admissions Requirements
NSCC provides two major types of admission: Degree Admissions and Non-Degree Admission, with several subcategories. Each admissions category is designed for a particular purpose and for different populations. Applicants should review the various types and subcategories and select the admissions category that best suits their educational needs and qualifications.

In all cases, qualified students must:
1. Meet entry-level standards for the courses in which they enroll,
2. Be able to complete assignments, and
3. Be able to read and write at the required level.

Future students are urged to submit their applications as early as possible to allow sufficient time for application processing and the timely distribution of registration information.

All admissions documents submitted by the applicant become the property of the college and cannot be forwarded or returned. All correspondence concerning your admissions file should be sent to the address above.

When all admissions requirements have been met, the degree-seeking applicants will receive letters indicating they have been accepted for admission or indicating further action is necessary in order to establish eligibility for admission. Applicants will be advised when to appear for orientation, testing, and/or registration.

The Vice President of Academic Affairs may, upon appeal, waive or modify conditions of admissions for individual applicants.

The following admissions requirements are divided into admissions classifications. Each classification begins with a description. Read each description carefully to determine your admissions requirements.

University Parallel Program
For applicants wishing to enroll in a university parallel program leading to an Associate of Arts or an Associate of Science degree, and eventually a Bachelor’s degree, the Tennessee Board of Regents requires the completion of specific high school courses.

Applicants who graduated from high school or home school during or after 1989 must meet the following course requirements in addition to those listed in the applicant’s selected program of study. All course requirements must be met prior to the awarding of an Associate’s degree in the university parallel program. Applicants who received a GED certificate during 1989 and thereafter as well as students who have an Enhanced ACT composite score of 26 or higher are considered to have met all high school unit requirements except those in foreign language and visual or performing arts. Listed below are the required courses and the required number of courses.

<table>
<thead>
<tr>
<th>Courses</th>

</tr>
</tbody>
</table>

Applicants who are deficient in any of the above courses may be admitted on a provisional basis and will be required to remove any deficiencies prior to being awarded an Associate of Arts or an Associate of Science degree. Questions regarding this policy should be forwarded to the Records Office at 615-353-3218.
Removal of High School Unit Deficiencies

After a review of the high school transcript, the Office of Admissions will notify the student if he or she has high school unit deficiencies. NSCC encourages students to remove unit deficiencies within the first 30 semester hours of their programs of study to avoid prerequisite problems. Courses used to remove high school unit deficiencies can be used to fulfill program requirements, and a grade of “C” or better must be earned in those courses.

* Entrance deficiencies in English, Algebra I and II will be removed through the NSCC mandatory assessment and placement program.

Degree Seeking

First-Time Student

A “First-Time Student” at NSCC is an applicant who has never attended any college before.

These applicants must:

1. Submit a completed Application for Admission and a $5 non-refundable application fee. Applications for Fall 2008 will have a $15 non-refundable application fee. All information must be completed on the application. Failure to submit a complete and accurate application delays processing your application.

2. Graduate from a state approved high school, home school, or receive a GED high school equivalency diploma and submit to the Office of Admissions an “Official” high school transcript or an “Official” copy of GED scores. An “Official” transcript is one that is mailed directly to the Office of Admissions by the high school guidance counselor or one that is submitted in an envelope sealed and stamped or initialed by the guidance counselor. An official GED is one mailed directly to the Office of Admissions by the testing agency or one that is submitted in an envelope sealed and stamped or initialed by the testing agency. Evidence on the “Official” high school transcript indicating a passing Tennessee Comprehensive Assessment Program (TCAP) score is required for graduates of Tennessee public schools. NOTE: The transcript of a home-schooled student should be an official copy from an affiliated organization as defined by state law (T.C.A. 49-50-801). Transcripts from independent home-schooled students must be accompanied by certification of registration with the superintendent of the local education agency that the student would have otherwise attended. Applicants unable to provide a satisfactory secondary school credential may substitute acceptable GED scores. The minimum acceptable score for the GED is 450 with no sub-score less than 350.

3. Show proof of Measles, Mumps, and Rubella (MMR) vaccination if they are full-time entering students born prior to January 1, 1957. By state law (Tenn. Code Annotated § 49-6-5001) immunization is not required if:
   a. It conflicts with the parent’s or guardian’s or individual’s religious tenets and practices,
   b. A qualified physician certifies that administration of such immunization would be in any manner harmful to the individual involved due to pregnancy, allergy to the vaccine, or other valid medical reasons, or
   c. Applicant is a Tennessee graduate from 1999 to present.

4. Complete the Hepatitis B Immunization Health History Form.

Certificate of Immunization forms may be obtained from the Office of Admissions. Official copies of State Health Department or military immunization forms will be accepted in lieu of the certificate.

5. Males applicants between the ages of 18 and 26 must show proof of Selective Service registration. Applicants must meet this
requirement prior to registration. Selective Service registration forms may be obtained from the Office of Admissions.

6. Applicants under the age of 21 should submit ACT or SAT scores. ACT or SAT scores are used to determine in which areas the applicant may be required to complete college prep course work. Enhanced ACT or SAT scores must be less than three years old. Information regarding the ACT or SAT may be obtained from your high school guidance counselor, NSCC Testing Center (615-353-3564) or by writing to:
   American College Testing, Inc.
   P.O. Box 168
   Iowa City, Iowa 52242
   NSCC ACT code number is 3983. Please use this number to request scores be sent to NSCC.
   a. Applicants who have a valid ACT English sub-score of 27 or higher or a valid SAT critical writing score of 610 or higher may receive credit for English 1010.
   b. Applicants whose ACT reading sub-test score is less than 19 on the Enhanced ACT or less than 460 critical reading score on the SAT will be required to take college prep course work.
   c. Applicants whose English sub-test score is less than 19 on the Enhanced ACT or less than 460 critical reading score on the SAT will be required to take college prep course work.
   d. Applicants whose math sub-test score is less than 19 on the Enhanced ACT or less than 470 math score on the SAT will be required to take college prep course work.

7. Applicants under 21 years of age possessing a GED with acceptable scores as described above are not required to submit ACT or SAT scores. However, they are required to undergo placement assessment.

8. All applicants 21 years of age or older must undergo the placement assessment. Enrollment in college prep courses indicated by the results of the assessment is mandatory.

2. Submit transcripts from all previously attended institutions. Transcripts should be mailed directly to the Office of Admissions from the sending institution. For the convenience of the applicant, the college will accept “official” transcripts hand carried by the applicant, when it is in an envelope sealed by the Records Office of the previous college attended. If the seal has been tampered with in any way, the “official” designation of the transcript will be voided and the applicant will be required to submit another “official” transcript. An initial evaluation of the transcript will be completed. If the applicant has fewer than 60 semester hours of college level work and is seeking an Associate of Science or Associate of Arts degree under the university parallel program, an “official” high school transcript or GED scores must be submitted.

3. Applicants under the age of 21 should submit ACT or SAT scores. If fewer than 60 semester hours have been attempted, the ACT or SAT scores are used to determine in which areas the applicant may be required to complete college prep course work. Grades received in transfer courses will be considered for proper placement. Enrollment in those courses indicated by the results of the assessment is mandatory.

4. Have their transcripts evaluated for proof of competency in the areas of reading, writing, and mathematics, if they are 21 years of age and older and have fewer than 60 semester hours of completed work. Applicants lacking college level work in these areas will be required to undergo assessment. Enrollment in college prep courses indicated by the results of the assessment is mandatory.

5. College prep course work taken at other TBR institutions will be posted to the applicant’s NSCC record and be considered in the number of attempted hours, but are not counted as hours earned toward the program of study.

6. All transfer applicants with 60 or more semester hours of credit, which must include college-level English and math transfer credit with a grade of “C” or better, will be exempt from placement assessment.

7. Transfer applicants who do not meet the Admissions standards of NSCC or whose last term of enrollment resulted in academic
suspension will be admitted on academic probation and may be required to undergo placement assessment. Enrollment in those courses indicated by the results of the assessment is mandatory.

8. Transfer applicants whose last term of attendance at NSCC resulted in academic suspension and who are currently serving a suspension at another institution must meet with the Dean of Students to begin the academic review process (See Academic Action Appeals, page 41). If admission is recommended by the Academic Review Committee, the applicant may be required to undergo placement assessment as noted in section 3 or 4 above.

Readmitted Student
Any former NSCC student who has not been enrolled for over one year and who wishes to return to the college is considered a readmit student. Students seeking a readmission status must:

1. Submit an application for admission.
2. Submit an official transcript from each college or university attended since leaving NSCC. If it has been more than five (5) years since attending NSCC, all transcripts must be resubmitted. (High School, GED, College, etc.)
3. Be eligible for readmission under the college’s admissions policy.
4. Take the placement assessment if they do not meet one of the following conditions:
   a. Meet ACT requirements as outlined under “Degree Seeking Students”, item 6 on the previous page.
   b. Have previously earned college credit for first-term math or English.

International Student
An applicant who is a citizen or a Permanent Resident of a country other than the United States is classified as an International Student.

It is the responsibility of the International Student to be familiar with U.S. Citizenship and Immigration Services (USCIS) regulations and assume responsibility for complying with these regulations.

Important Information for International Students
All International Students, regardless of status, are required by USCIS to complete the “Special Registration Alien’s Change of Address Card” within 10 days of such change. This form must be completed upon entering the United States and within 10 days of any change of address during time of stay.

International Students may obtain the “Special Registration Alien’s Change of Address Card” from the Information Desk in the Student Services Building. Forms should be mailed to the Department of Justice address located on the form.

F-1 Student Status
NSCC is authorized under federal law to enroll non-immigrant students on F-1 student status in its Associate’s degree programs and English as a Second Language (ESL) classes. Applicants should have the following credentials on file in the Office of Admissions one month prior to the start of the semester in which they wish to enroll:

1. A completed application for admission and a non-refundable $5.00 application fee. Applications for Fall 2008 will have a $15 non-refundable application fee.
2. Official copies of academic records of attendance from secondary schools, colleges, or universities accompanied by a certified English translation of these documents.
3. Official scores of the Test of English as a Foreign Language (TOEFL). A minimum score of 500 on the paper-based version, a minimum score of 173 on the computer-based version, or a 61 on the Internet-based version is required for admission. Course work completed at another United States college or university or graduation from a United States high school may be used in lieu of TOEFL. Additional institutional placement assessment such as the Michigan Plus Language Proficiency Test and/or the math portion of the compass is required of all international students (See “Degree-Seeking Non-Immigrant Status other than F-1” section that follows). Any academic skills deficiencies must be removed through enrollment in college prep courses. Our TOEFL code number is 1149. ESL students are not required to submit TOEFL scores.
4. Satisfactory evidence of the financial capability to meet the expense involved while studying at NSCC. Applicants on F-1 status must also complete the appropriate form, provided by the college, showing financial capability. Completion of this form includes the student’s intent to attend the college on a full-time basis (12 or more credit hours per semester) and states that no employment will be required to meet expenses. International students will pay out-of-state fees and are not eligible for Title IV funding.
5. A certificate from a licensed physician or other medical authority verifying freedom from tuberculosis. This certificate must be
submitted to the Office of Admissions within 30 days from the first day of classes to continue enrollment. If the student either has or potentially has tuberculosis requiring medical treatment, continued enrollment depends upon the decision of a licensed physician that the student's enrollment is not a risk to others and upon the student's compliance with any prescribed medical treatment.

6. All foreign non-immigrant students with F-1 visas must enroll in the TBR Student/Scholar Health & Accident Insurance Plan as a condition of admission and continued enrollment.

**Degree-Seeking Non-Immigrant Status other than F-1**

Students whose first language is NOT English are protected under Title IV of the Civil Rights Act and are guaranteed language assistance once a language deficiency is documented. These students must:

1. Submit an application for admission and a non-refundable $5.00 application fee. Applications for Fall 2008 will have a $15 non-refundable application fee.
2. Provide all documentation proving U.S. Immigration and Naturalization Service status.
3. Meet all regular admission requirements as a degree-seeking student except as described below:
   - Take the Michigan Plus Language Proficiency Test and accept placement in the appropriate course work. Call an ESL testing specialist for details at 615-353-3380.
4. Take the Test of English as a Foreign Language (TOEFL). A minimum score of 500 is required on the paper version, or a minimum score of 173 on the computer-based version, or a 61 on the Internet-based version.
5. Take the math portion of the COMPASS examination.

**Permanent Residents and Refugees**

Applicants in this category must meet all applicable requirements for regular admissions to the college. Other requirements are as follows:

1. Submit an application for admission and a non-refundable $5.00 application fee. Applications for Fall 2008 will have a $15 non-refundable application fee.
2. Submit Permanent Resident or I-94 card.
3. A permanent resident whose native language is NOT English must take the Michigan Plus Language Proficiency Test and accept placement in the appropriate course work in lieu of regular placement assessment. Call an ESL testing specialist for details at 615-353-3380.

**Technical Certificates**

Students enrolled in technical certificate programs are considered non-degree students. Placement assessment is not required for acceptance into these programs, with the exception of the Surgical Technology, Surgical Assisting, and Computer-Aided Drafting. Please contact the Office of Admissions for details.

For admissions into a technical certificate program, applicants must:

1. Submit an application for admission with a $5.00 non-refundable application fee. Applications for Fall 2008 will have a $15 non-refundable application fee.
2. Submit an official copy of high school transcript showing graduation with a regular or honors diploma, GED scores, or a college transcript.

These programs of study are eligible for Title IV assistance.

**Special Student**

A special student is one who is not enrolled in a degree program. Students in this classification desire to take one or more courses in order to gain employment skills, professional growth, or personal enrichment. In order to apply, special students should:

1. Submit a completed application for admission with a $5.00 non-refundable application fee. Applications for Fall 2008 will have a $15 non-refundable application fee.
2. Students under 21 years of age must be high school graduates or have the GED equivalent. Documents showing graduation or GED must be submitted to the Office of Admissions. One exception to this requirement is students 18 years of age or older who have not earned a high school diploma, are not enrolled in high school, and are seeking admissions only to pursue study in GED preparatory courses.

There is no limit on the number of hours a special student can pursue. Although special students are not required to complete normal assessment procedures, they should realize that the content of college-level courses assumes mastery of fundamental knowledge, skills, and aptitudes required for the course. **Special students may not enroll in a college-level English or mathematics course, or in a course that has an English or mathematics prerequisite, until they have**
High School Graduate
An applicant who has earned a regular high school diploma or GED may enroll in any course, except college-level math, English, or a course that has college-level math or English prerequisites. Any student who plans to enroll in college-level math or English must have the required ACT/SAT scores. For ACT/SAT requirements, refer to “Degree-Seeking, First-Time Student” above.

To enroll applicants must:

1. Submit an application for admissions with a non-refundable $5.00 application fee.
   Applications for Fall 2008 will have a $15 non-refundable application fee.
2. Submit official high school transcripts.

Student with Previous College Credit
An applicant who has earned college credit but does not have a degree may enroll after completing the following:

1. Submit an application for admission and a non-refundable $5.00 application fee.
   Applications for Fall 2008 will have a $15 non-refundable application fee.
2. Submit official college transcript(s) or take the Placement assessment if the student wishes to enroll in college-level English or math.

Dual Enrollment Program
A student in grades 11 or 12 may earn both high school credit and college credit while attending the same class in his/her high school. Students may also attend college classes for dual credit at NSCC.

To enroll in the Dual Enrollment program applicants must:

1. Be a junior or senior in high school,
2. Have a minimum sub-score of 19 on the ACT in the specific subject area,
3. Meet all prerequisites of the course or courses in which they wish to enroll, and
4. Have written permission from their high school principals and parents or guardians.

For more information on dual credit courses, contact the NSCC Director of High School Programs at 615-353-3269.

**Joint Enrollment Program**

A student in grades 11 or 12 may earn college credit while in high school. Classes are held on the NSCC campus with occasional courses offered at the high school. To enroll in the Joint Enrollment Program applicants must:

1. Be in the 11th or 12th grades.
2. Have a minimum sub-score of 19 on the ACT in the specific subject area (i.e., math or English).
3. Meet all prerequisites of the course in which they wish to enroll.
4. Have written approval of parent or guardian.

**Academically Talented**

A student in grades 9, 10, 11, or 12 who has been classified as “academically gifted” may earn college credit while in high school. Classes are held on the NSCC campus. To enroll as an “academically gifted” student applicants must:

1. Be in the 9th, 10th, 11th, or 12th grades.
2. Have a minimum overall G.P.A. of 3.2 on a 4.0 scale.
3. Have a minimum sub-score of 19 on the ACT in the specific subject area (i.e., math or English).
4. Meet all prerequisites of the course in which they wish to enroll.
5. Have written approval of high school principal and parent or guardian.

Application forms and other admission information may be obtained from the NSCC Director of High School Programs at 615-353-3269.

**Tech Prep**

Tech Prep is a program of study that combines, at a minimum, two years of secondary education with two years of postsecondary education. The Tech Prep program constitutes a non-duplicative sequence or course study that integrates academic, vocational and technical instruction and utilizes work-based and worksite learning. Students may earn postsecondary credits for courses completed in high school by meeting all requirements of the Tech Prep Program. To enroll as a Tech Prep student applicants must:

1. Discuss with your high school teachers and counselors the courses eligible for credit at NSCC.
2. Develop your high school four-year or six-year plan, which should be updated each year with your counselor and teachers.
3. Maintain a “B” average or higher in courses eligible for articulation credit.
4. Complete, during your senior year, the application for “Articulation Credit”. This application should be submitted along with your final transcript to NSCC.
5. Submit an application for admissions and a non-refundable $15.00 application fee.

For more information, call 615-353-3269.

**Residency Classification**

Upon admission to the college, the Office of Admissions classifies each student as a resident or non-resident. Ordinarily it is presumed that a person entering Tennessee from another state or country to attend college does so intending to remain only for the period of attaining his or her educational degree.

All decisions regarding residency classification are made for the purpose of paying fees and tuition, and are based on the Tennessee Board of Regents Policy No. 3:05:01:00. Copies of these policies are available in the Office of Admissions. The College may require proof of relevant facts regarding residency. The responsibility for residency classifications rests with the Director of Admissions, and all documentation should be submitted with an In-State Residency Application to the Office of Admissions. Students who disagree with the final decision may submit an appeal in writing to the Dean of Students. For more information or to receive a Residency Application, stop by or call the Office of Admissions at 615-353-3215.

**Selective Service Requirements**

1. Pursuant to federal law, every male who is between the ages of 18 and 26, and is a citizen of the United States or a resident of the United States must register with the Selective Service.
2. Notwithstanding the provisions of paragraph 1, the requirements to register shall not apply to any alien lawfully admitted to the United States as a non-immigrant, under Section 101(a)(15) of the Immigration and Nationality Act, as amended, for so long as he continues...
to maintain a lawful non-immigrant status in the United States.

3. Men who have previously served in the military must also meet this requirement.

4. If a student meeting the above age requirements has not registered for the Selective Service, that student must show proof of said registration by completing the Selective Service Registration Form. Forms may be obtained from the Office of Admissions or online at www.sss.gov.
BUSINESS PROCEDURES AND
FINANCIAL AID INFORMATION
Nashville State Community College is a state-supported college and, therefore, maintains modest matriculation and incidental fees. Expenses are charged and payable by the semester. Registration is not complete until all required fees have been paid (which means all checks have cleared the bank). Students who have not met their financial obligations will not be admitted to classes. All payments are to be made by cash, check, or credit card (Visa, American Express or MasterCard) to the Bursar’s Office. If the student’s employer pays the fees, the employer must mail an authorization letter on company letterhead to the Bursar’s Office at least two weeks prior to the beginning of each semester indicating which fees will be paid and dollar limit (if applicable). Any fee waiver or fee discount forms must be submitted to the Bursar’s Office prior to or at the time of registration. Please refer to the NSCC Web site or schedule of classes for Bursar’s Office hours of operation and a listing of current tuition rates and fees.

For additional information, please call 615-353-3310.

Tuition and fees are subject to change at any time by policy of the Tennessee Board of Regents. Fee schedules are published as changes occur. Fee increases are enacted by the governing board and are normally implemented for the fall term.

Registration, maintenance, and tuition fees for the summer term will be the same as for the other two semesters. Fees for auditing a course will be the same as the fees paid if taking the course for credit. Enrollment as an audit will be subject to the availability of space in the class being requested. Students are classified as residents or non-residents for the purpose of assessing maintenance and tuition charges. The definition of residency as determined by the Tennessee Board of Regents will apply. Information about residency classification may be obtained from the Admissions or Records Offices.

Senior Citizens and Students With Disabilities

For audit courses, no fee is required for persons who are totally disabled or who are 60 years of age or older. Enrollment will be subject to the availability of space in the class requested.

Persons 65 years of age or older who live in Tennessee or totally disabled persons may enroll for credit as special students for a fee of $70 per semester. Enrollment will be subject to the availability of space in the class requested.

An applicant who wishes to be admitted in one of these categories must submit the following:

1. A completed application for admission.
2. A fifteen-dollar ($15) non-refundable application fee.
3. Proof of age or physician’s certificate of total disability.

NOTE: Fees for Continuing Education Units (CEUs) are not waived or reduced.

State Employee Fee Waivers

Title 8, Chapter 50, Part 1 in Public Chapter 1047 of the 1990 Public Acts enables full-time employees of the State of Tennessee to be eligible for enrollment in one course per term at any state-supported college or university without the payment of tuition charges, maintenance fees, debt service fees, student activity fees, or registration fees.

The following are rules that govern the use of this fee waiver type:

1. Fees are not waived for non-credit, CEU, or correspondence courses, application fees, or parking permits.
2. Enrollment is subject to space availability in the class selected. Registration is permitted only during the late registration process. The course must be taken for college credit; the course cannot be audited.
3. At the time of enrollment, the employee must have a completed state employee fee waiver form signed by his or her employer certifying that the applicant is a full-time employee with at least six months of continuous service.

Deferred Payment Program

All students owing a balance greater than $250 who are in good financial standing and with no outstanding balances from previous terms are eligible to participate in the deferred payment program. This program allows the student to defer payment of up to 50% of the maintenance fee, out-of-state tuition, and technology access fee into two monthly payments during the term. Fees can be deferred during fall and spring semester only. Those who wish to participate must sign a deferred payment contract each semester. A deferral fee of $10 is assessed to defer costs of the program. Deferred payments that become delinquent are assessed monthly a $25 penalty for each late payment, up to $100. If there is a change in the student’s schedule that generates a credit due, it will be applied to the student’s outstanding balance before a refund check is issued. Credits or refunds are based on total fees assessed, not on the amount paid. Payments are
due on the dates stated in the deferred payment contract. There is no grace period for late payments. For more information, call 615-353-3310.

Fee Assessments and Refunds
Two changes in a student's status which may require a fee adjustment are: (1) changes in a full-time student's schedule which result in reclassification to part-time student status; and (2) a change in a part-time student's schedule which results in a class load of fewer hours. Other situations that may require a fee adjustment are dropping a course or courses, withdrawing from school, cancellation of a class by the college, or death of the student.

The following procedures will be followed in regard to the calculation of maintenance fees:

**If Withdrawal Is:.................Refund Will Be:**

<table>
<thead>
<tr>
<th>After pre-registration but before the published first day of class</th>
<th>100%*</th>
</tr>
</thead>
</table>

For courses cancelled by the college ........................100%*

On the first official day of classes through the 14th calendar day from the published first day of classes.................................................................100%* or refunds will be made for Continuing Education units (CEUs) unless the class is cancelled.

On the 15th calendar day from the published first day of classes through 25% of the semester calendar days (see school calendar).............................25%

After 25% period ......................................................0%

All refund periods will be rounded up or down to the nearest whole day if necessary.

* A 100% fee adjustment and/or refund will be provided on behalf of a student whose death occurs during the semester.

* A 100% fee adjustment and/or refund will be provided to students who are compelled by the college to withdraw when it is determined that through institutional error they were academically ineligible for enrollment or were not properly admitted to enroll for the course(s) being dropped.

* A 100% fee adjustment and/or refund will be provided, upon submission of required forms, to students absent from the college in excess of 30 days while on active military duty.

** The Tennessee Board of Regents revised the refund policy effective Fall Semester 2007. These changes impact students who are enrolled in classes full-time and drop to less than 12 credit hours of classes.

Under the revised guidelines, undergraduate students who register for more than 12 hours and subsequently drop to less than 12 hours or withdraw from the college during a fee adjustment period will be assessed a prorated fee for the dropped hours. For example, consider a student who originally registered for 15 hours and then dropped to 9 hours during the 75% fee adjustment period. The adjusted student fee assessment before any refund will be 9 hours at the full rate per hour and 6 hours at 25% of the per hour rate. The difference in this calculated assessment and the original tuition and fee amounts capped at 12 hours would be the refund to the student. It is possible that certain adjustments in hours will not result in a refund to the student after the fee adjustment calculation.

The following calculation shows the effect for an in-state student who is enrolled in 15 hours and drops to 9 hours during the 75% refund period:

1) Fee Assessment on 6 dropped hours..$166.50
2) Fee Assessment on 9 enrolled hours ..$999.00
3) Total New Fee Assessment (=1+2) ....$1165.50
4) Amount Previously Paid by Student..$1294.50
5) Refund Due Student (=4-3) .............$129.00

The following calculation shows the effect for an in-state student who is enrolled in 15 hours and drops to 9 hours during the 25% refund period:

1) Fee Assessment on 6 dropped hours..$499.50
2) Fee Assessment on 9 enrolled hours ..$999.00
3) Total New Fee Assessment (=1+2) ....$1498.50
4) Maximum Fee Cap Applied if > $1294.50
   ..............................................................................$1294.50
5) Amount Previously Paid by Student..$1294.50
6) Refund Due Student (=5-4) .............$0.00

All refunds will be in the form of a check within three to four weeks after the Records Office has processed a Schedule Change Form. If a student initially pays by credit card any refund will be processed to his/her credit card account. Fee adjustments and/or refunds involving third-party payments will be prorated based on the percentage paid by the student and third party involved, including discounts, waivers, or grants. Fee adjustment and refund dates will be established for each semester. Summer term fee adjustments and/or refunds will be based on the above procedures with concentrated terms being prorated as a percentage of a regular term. No fee adjustments or refunds will be made for Continuing Education Units (CEUs) unless the class is cancelled.
Returned Checks

There is a $30 charge for any check or electronic transaction accepted by the college that is returned. When a stop payment is issued or a check is written on a closed account, it shall result in the administrative dismissal of the student. Returned checks that represent 50% deposit on deferred payment contracts will result in administrative dismissal if not redeemed within 10 days. A late fee of $25 will also be assessed for any returned check for registration fees, unless the student registered late initially. This also applies to transactions processed electronically by the college. Students who have two or more returned checks or have stopped payment on checks and/or written checks on closed accounts will not be allowed to pay by check. In addition, if checks are not redeemed promptly, a registration hold will be placed on the account until the balance is paid. No grades or transcripts will be issued and the account is subject to being sent to a collection agency.

Financial Aid

A variety of federal, state, and local financial aid programs are available to qualified students who might otherwise find it difficult or impossible to attend Nashville State Community College. Fair and equal consideration is given to applicants without regard to race, color, sex, national origin, religion, age, or disability. Students are encouraged to obtain The Student Guide from the Financial Aid Office. This free federal publication provides an excellent overview of federal programs and eligibility requirements. Helpful Web links are provided on the college’s home page at www.nscc.edu Click on Students and then click on Financial Aid. Students may also inquire at the Financial Aid Office regarding individual circumstances that need to be considered when packaging financial aid.

Additional information concerning financial aid is available from:

Financial Aid Office
120 White Bridge Road, Nashville, TN 37209
Phone: 615-353-3250
Fax: 615-353-3202
Email: financial_aid@nscc.edu

Please note that the following information is subject to change and is based on federal regulations and institutional policies and procedures at the time of writing.

Federal/State Assistance

The College has several federal and state programs with a wide range of eligibility requirements available to students. These programs include the Federal Pell Grant, Federal Academic Competitiveness Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study (FWS), Federal Subsidized and Unsubsidized Stafford Loans, Federal Parent Loan for Undergraduate Students (FPLUS), and Tennessee Student Assistance Award (TSAA). Though eligibility requirements may vary from program to program, there are a number of general eligibility requirements common to each.

1. Students must have “financial need” which is determined by subtracting the “expected family contribution” as determined by federal methodology from the “cost of attendance.” Though the Federal Unsubsidized Stafford Loan and FPLUS are non-need-based loans, eligibility for need-based programs must first be determined before students can make application for these programs.

2. Students must be U.S. citizens or eligible non-citizens. Students in the U.S. on an F1 or F2 student visa, J1 or J2 exchange visitor visa, or a G series visa are not eligible for Title IV Programs.

3. Students must have a valid Social Security number.

4. Students must be enrolled as regular students in an eligible program of study.

5. Students must maintain satisfactory academic progress as measured by the Financial Aid Office. A copy of the “Standards of Satisfactory Academic Progress” is available at the Financial Aid Office and is also noted in the proceeding pages of the NSCC catalog.

6. Students must be registered with Selective Service (if applicable).

7. Students must have a high school diploma or GED.

8. Students cannot receive Title IV funds for more than the first 30 credit hours attempted in remedial and developmental classes.

9. Students cannot be in default on a student loan or owe a federal/state grant refund.
Application Process for Federal/State Programs:

Students who wish to be considered for federal/state financial aid assistance must complete the Free Application for Federal Student Aid (FAFSA) each year. Students may submit a FAFSA application through the Web at www.fafsa.ed.gov. Completing the FAFSA through the Web will reduce processing time. When submitted on the Web, the FAFSA application is automatically edited, thus reducing mistakes. Students should include Nashville State Community College as a recipient of their information when completing Step 6 of the FAFSA. **Our institutional code number is 007534.**

Students are encouraged to file their federal tax return prior to completing the FAFSA. Students are encouraged to complete the FAFSA prior to March 1 to increase the possibility of receiving multiple forms of financial aid assistance. Students will receive a Student Aid Report from the Federal Central Processing Servicer once the FAFSA has been processed. It should be reviewed for accuracy and corrections should be made as necessary. Some students may be selected for a process called verification. In such cases, a verification worksheet and applicable tax returns must also be provided to our Financial Aid Office. If corrections are needed to the Student Aid Report, the Financial Aid Office can make them electronically.

Information regarding a student’s financial aid history is obtained through the National Student Loan Data System (NSLDS) when the Federal Central Processing System is processing the FAFSA. Financial Aid Office staff also view the NSLDS when processing files. Therefore, it is not necessary for students to obtain financial aid transcripts from prior colleges attended.

Students must also complete the NSCC Financial Aid Application and provide other information as requested by the Financial Aid Office. Failure to submit requested information in a timely manner may delay receipt of financial aid funds and/or preclude students from being considered for some financial aid programs.

We begin sending Financial Aid Award Notifications in May prior to the beginning of the new award year.

Sources of Federal/State Assistance

**FEDERAL PELL GRANT:** A need-based non-repayable grant for undergraduate students. Eligibility is based on the student’s “expected family contribution (EFC),” “cost of attendance,” “enrollment status,” and whether or not the student attends a full academic year. The maximum annual award for the 2007-08 award year is $4,310. The minimum annual award for the 2007-08 award year is $400. Depending upon the EFC, eligible students may receive this grant if enrolled in one or more credit hours.

**FEDERAL ACADEMIC COMPETITIVENESS GRANT (ACG):** A need-based non-repayable grant awarded to Federal Pell Grant eligible undergraduate students who completed a rigorous high school program and graduated from high school on or after January 1, 2005. Students must be U.S. citizens enrolled full-time in an eligible program of study and meet other general eligibility requirements. The maximum annual award to freshmen for the 2007-08 award year is $750. The annual maximum award to sophomores for the 2007-08 award year is $1,300.

**FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (FSEOG):** A non-repayable grant to students with exceptional financial need. Priority is given to Federal Pell Grant recipients with the lowest “expected family contribution (EFC).” Priority is also given to students who complete the FAFSA prior to March 1 preceding an award year. Average awards are $300 per semester. Funding is limited. Eligible students must be enrolled in one or more credit hours.

**TENNESSEE STUDENT ASSISTANCE AWARD (TSAA):** A non-repayable grant to Tennessee residents whose “expected family contribution” is $2,100 or less. Students must be enrolled in at least six credit hours. Priority is given to students whose FAFSA is processed by March 1 prior to the award year. The maximum annual award for the 2007-08 award year is $1,410.

**FEDERAL WORK-STUDY:** This program provides jobs for students who have financial need. Priority is given to students who complete the FAFSA prior to March 1 preceding an award year and have a minimum financial need of at least $1,000. Students work an average of 15 hours per week at a pay rate of $7.50 per hour. The average annual award for the 2007-08 award year is $3,600. Funding is limited. Though most jobs are on campus, some jobs are available off campus in community service positions. A higher rate of pay is provided to assist with transportation expenses related to off-campus positions. Eligible students must be enrolled in one or more credit hours.

**FEDERAL SUBSIDIZED STAFFORD LOAN:** A need-based low-interest loan for eligible students enrolled in at least six credit hours. To be considered for loans, students must minimally complete the FAFSA, the NSCC Loan Information Worksheet, and the NSCC Financial Aid Application. Students must also provide any additional information as requested by the Financial Aid Office. Students must attend an “entrance-loan” workshop and sign a Promissory
Note. Both processes can be completed via the Web. Eligibility for a Federal Pell Grant must first be established. Maximum awards are based on financial need and whether the student is classified as a freshman or sophomore and whether a student is classified as dependent or independent. Students are also subject to annual and aggregate limits. Interest does not accrue while the student is in school. Repayment begins (as well as interest) six months after the student drops below half-time status. There are a number of deferment and forbearance options available to students. Refer to The Student Guide available in the Financial Aid Office. Students must attend an exit-loan workshop prior to graduation or at which point they otherwise plan to drop below half-time status. Registration and transcript holds are placed on student accounts until this requirement has been satisfied.

**Federal Unsubsidized Stafford Loan:** A non-need-based low-interest loan for eligible students enrolled in at least six credit hours. To be considered for loans, students must minimally complete the FAFSA, the NSCC Loan Information Worksheet, and NSCC Financial Aid Application. Students must also provide any additional information as requested by the Financial Aid Office. Students must attend an entrance-loan workshop and sign a promissory note. Both processes can be completed via the Web. Eligibility for a Federal Pell Grant and Subsidized Stafford Loan must first be established. Maximum awards are based on whether the student is classified as a freshman or sophomore and whether the student is classified as dependent or independent. Students are also subject to annual and aggregate limits. Interest accrues while students are in school. Students have the option to make payments on the interest or to allow it to capitalize. Repayment begins six months after students drop below half-time enrollment status. There are a number of deferment and forbearance options available to students. Refer to The Student Guide available in the Financial Aid Office. Students must attend an exit-loan workshop prior to graduation or at which point they otherwise plan to drop below half-time status. Registration and transcript holds are placed on student accounts until this requirement has been satisfied.

**Federal Parent Loan for Undergraduate Students:** This loan is for parents of dependent students. Students must minimally complete the FAFSA and NSCC Financial Aid Application. Students must also provide any additional information as requested by the Financial Aid Office. Eligibility for the Federal Pell Grant and Federal Subsidized and Unsubsidized Stafford Loan must first be established before we can determine the amount of PLUS eligibility. Maximum awards cannot exceed a student’s cost of attendance less other financial aid received. PLUS Applications may be obtained from the Financial Aid Office or from a bank, credit union, or savings and loan association. Eligible students must be enrolled in at least six credit hours.

### Understanding the NSCC Financial Aid Notification

We begin sending Financial Aid Award Notifications in approximately mid-May prior to each award year. The following example illustrates the process of “need analysis” for a dependent student living with parent(s) or relative(s) during the 2007-08 award year. It should be noted that the cost of registration fees during the 2007-08 award year (total for two semesters) for a full-time, in-state student is $2,589 inclusive of the technology access fee. The average allowance for books and supplies for this period is $1,000.

- Cost of Attendance* ...............................$8,151
  (less) Expected Family Contribution ...........$200

Need for Financial Aid .............................$7,951

* The cost of attendance includes an allowance for registration fees, books and supplies, transportation, room and board, and other personal and miscellaneous expenses.

Based on the example, the student might have received the following type of financial assistance:

- Federal Pell Grant .................................$4,160
- Federal Supplemental Education Grant ......$600
- Tennessee Student Assistance Award ......$1,386
- Total Award .......................................$6,146

It should be noted that in this example, the student received an amount of financial assistance that exceeded the amount needed for the direct educational cost of registration fees and books and supplies. The balance could be used for other education related expenses. Based on the student’s unmet need of $1,805 ($7,951 “need” less $6,146 total award), the student could receive additional assistance via student loans, scholarships, Federal Work-Study, etc. A letter of explanation will be sent with the Financial Aid Notification, which contains further details regarding awards.

### Payment of Registration Fees and Books/Supplies

Students should submit all documents necessary to complete their financial aid file prior to a month before the semester they wish to attend. Otherwise, they should expect a delay in our ability to provide financial aid assistance. In such cases, it may be

Business Procedures and Financial Aid Information
necessary for students to pay registration fees through their own resources. Once financial aid files are complete, we will provide financial aid assistance based on the student's eligibility for federal/state/institutional funds.

Students are not required to make payment for registration fees at the point of registration if their financial aid files are complete and if their Federal Pell Grant, Federal ACG, Federal SEOG, TSAA, scholarship and student loan awards are sufficient to cover these costs. “Special deferments” for registration fee payment are also available through the Financial Aid Office for students who meet specified requirements. Communicate with the Financial Aid Office for details. Otherwise, unless students have another third-party source of financial assistance such as WIA or Vocational Rehabilitation, they should be prepared to pay their registration fees in full or complete a Deferred Payment Plan with the Business Office by the point fees are due. **Students must be prepared to purchase books and supplies.**

### Disbursement of Federal/State Funds

If Federal Pell Grant, Federal ACG, Federal SEOG, TSAA, and scholarship awards exceed the amount owed for registration fees, students will receive a residual check approximately three weeks into the semester at our cashier's office. Enrollment status (assumed attendance status) at the point payment is authorized by the Financial Aid Office will determine the amount of the award. Example: If a student is enrolled in 12 credit hours on the first day of class but subsequently drops to nine credit hours prior to authorization for payment, the Financial Aid Office will authorize payment based on nine credit hours. If a student totally withdraws from classes prior to picking up the residual check, it will be canceled and refunded back to the appropriate Title IV account(s). A revised residual check will be issued to the student if appropriate.

Student loan proceeds will be disbursed on or after the first day of class each semester. As an exception, federal law specifies that freshmen, first-time borrowers cannot receive their first disbursement until after 30 days into the payment period. All loan proceeds are disbursed in at least two payments. Students must be attending at least six credit hours at the time they receive their student loan proceeds. Students who are employed in the Federal Work-Study Program are paid every two weeks. It should be noted that if a student unofficially withdraws from class (quits attending) and it is later discovered that Title IV funds were paid to the student for credit hours the student was not attending at the point Title IV funds were authorized to the student's account, an overpayment may exist. In such cases, the student will be billed for the overpayment.

### Overpayments

Overpayments occur for several reasons. In some cases, students receive financial aid assistance in an amount that exceeds their “need” for financial aid. In other cases, students are inadvertently overpaid Federal Pell Grant funds. No matter what the reason, overpayments must be resolved. In some cases, the college is able to resolve overpayments by reducing awards for subsequent semesters during the same award year. The Financial Aid Office will notify the student of an amount that must be repaid to a specific program. If the overpayment cannot be resolved by reducing subsequent awards during the same award year, students will be required to make immediate repayment. If the overpayment is due to student error, and if the student fails to repay the overpayment, the student will be ineligible for future financial aid assistance at all post-secondary schools. If the error is a result of fraud, it will be reported to the Office of the Inspector General.

If the overpayment is a result of institutional error and if the student fails to make repayment by a specified date, the college will be responsible for making the repayment. In such cases, the college will then bill the student and will place a “hold” on future registration. It should be noted that if a student unofficially withdraws from class (quits attending) and it is later discovered that Title IV funds were paid to the student for credit hours the student was not attending at the point Title IV funds were authorized to the student’s account, an overpayment may exist. In such cases, the student will be billed for the overpayment.

### Return of Title IV Funds

Title IV recipients who partially withdraw from classes through the official withdrawal process on or after the first day of class may be eligible for a maintenance fee/tuition refund based on NSCC's refund policy. Title IV recipients are allowed to receive such refunds except in cases when they totally withdraw (officially or unofficially) from classes.

Effective with the Fall Semester of 2000, NSCC implemented new policy and procedures related to Return of Title IV Funds as required by the Higher Education Amendments of 1998 (34 CFR Part 668.22). This new policy replaced our prior Refund/Repayment Policy. A copy of our new policy and procedure is available in the Financial Aid Office. It should be noted that this new policy
is only applicable to Title IV recipients. The NSCC refund policy as stated in the college catalog is applicable to non-Title IV recipients.

In brief, if a Title IV recipient totally withdraws (officially or unofficially) from classes on or before the sixty percent point of the semester based on the calendar days within the semester, a calculation will be performed via our Return of Title IV Funds Policy and Procedure. The calculation will include a determination of the student’s last date of attendance, required registration fees, the total amount of Title IV assistance received, the percentage of Title IV assistance earned, the amount of Title IV assistance earned, the percentage of Title IV assistance that was unearned, and the amount of Title IV assistance that was unearned. The following example is reflective of a student who totally withdrew at the 40% point of the semester.

Institutional Charges: ......................................$700
Title IV aid for the Period: ....................................$3,000
*Amount of Title IV applied to account ............$2,300
Amount of Title IV refunded to student ...........$2,300
Percentage Earned: ...........................................40%
Amount Earned: ..............................................$1,200
Percentage Unearned: .......................................60%
Amount Unearned: ...........................................$1,800

*It is assumed that Title IV assistance paid the student’s account even when institutional charges were paid by cash or another non-Title IV source of assistance.

Using this scenario, the college would be required to refund $420 (60% of $700) back to Title IV programs, first to loans and then to grants (as applicable). The student would be required to repay $1,380 (60% of $2,300) back to Title IV programs. The following qualifiers to the amount the student must repay should be noted. If the amount owed by the student could be applied to the remainder owed to loans disbursed during the period, the student would not be required to make immediate repayment but would follow the normal repayment process related to the loans. If the amount owed by the student is greater than the remainder owed to loans disbursed during the period, the student would be required to make repayment to federal grant programs. However, as related to federal grants, the student is only required to make payment of 50% owed to the federal grant programs. If, in this example, the entire $3,000 of Title IV aid for the Period was through the Federal Pell Grant, the student would only be required to repay 50% of $1,380 ($690) to the Federal Pell Grant. Within 45 days of notice, the student must make full payment of the amount owed to federal grants. Otherwise, the college will report the overpayment to the Department of Education (ED) and the student will be required to make payment arrangements with ED before being eligible to receive future Title IV assistance at any school.

Financial Aid Standards for Satisfactory Academic Progress

Student Requirements:
Federal and state regulations require students to achieve “satisfactory academic progress” in order to maintain eligibility for Title IV financial aid programs. The following “standards” are for financial aid purposes and neither replace or override NSCC academic policies. These standards are effective with measurements made at the end of the Spring Semester of 2006 and forward. Students can communicate with the Financial Aid Office regarding prior “standards”. The Financial Aid Office reviews measurements “A”, “B”, and “C” for Title IV recipients at the end of each Spring Semester. Measurement “C” is reviewed prior to the disbursement of financial aid each semester. The following measurements apply, whether or not a student receives financial aid.

Qualitative Measurement:
Students are required to have reached a specific cumulative grade point average upon completion of the following number of credit hours as reviewed at the end of each Spring Semester. Transfer credit hours are not included in this measurement.

<table>
<thead>
<tr>
<th>NSCC UJ Quality Hours:</th>
<th>Cumulative Grade Point Average:</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - 14</td>
<td>—</td>
</tr>
<tr>
<td>14.1 - 26</td>
<td>1.0</td>
</tr>
<tr>
<td>26.1 - 40</td>
<td>1.4</td>
</tr>
<tr>
<td>40.1 - 48</td>
<td>1.7</td>
</tr>
<tr>
<td>48.1 - 56</td>
<td>1.9</td>
</tr>
<tr>
<td>56.1 +</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Quantitative Measurement:
Students enrolled during a given Fall/Spring semester must earn a passing grade (A,B,C,D) in a minimum of 9 credit hours if enrolled full-time (12 or more credit hours); 6 credit hours if enrolled three-quarter-time (9-11 credit hours); and 3 credit hours if enrolled half-time (6-8 credit hours). There is no requirement for less-than-half-time enrollment status. Grade values other than a passing grade, such as “W”, “I”, “X”, “F”, “WF” and “AU” count against
the student. At the end of each Spring semester, the credit hours attempted/required during the preceding Fall/Spring semesters will be reviewed.

Example: A student enrolled in 12 credit hours during the Fall semester and 9 credit hours during the Spring semester must earn a passing grade in at least 15 credit hours during the two semesters combined.

Maximum Time Frame:
If enrolled in an Associate’s degree program, students must complete their program of study within 90 credit hours attempted, whether or not financial aid was received for all attempted hours. If enrolled in a certificate program which meets requirements for Title IV assistance, students must complete their program within 150% of published length of program.

An additional 30 attempted credit hours is allowed for remedial/developmental classes. Transfer credit hours that apply to the student’s program of study or to remedial/developmental classes are included in this measurement.

Re-establishing Eligibility for Financial Aid:
Students who do not meet measurements “A” and/or “B” and thus become ineligible for financial aid, may re-establish their eligibility by enrolling in a minimum of six credit hours during a subsequent semester at their own expense and meeting the above standards. Students should contact the Financial Aid Office at which point they meet the above requirements.

Right to Appeal:
Students who become ineligible to receive financial aid due to failure to meet the above measurements may submit a letter of appeal to the Director of Financial Aid if extenuating circumstances precluded them from meeting these standards. Documentation should also be provided to substantiate the reason of appeal.

Special Note:
Scholarships and other third party sources of financial aid may have individual guidelines regarding satisfactory academic progress. Please refer to the guidelines of the particular scholarship or third party source of aid you are receiving.

Scholarships
The information regarding scholarships is presented in a brief manner and is subject to change. Students are encouraged to contact the Financial Aid Office for complete guidelines and applications. The number of awards in each category is contingent upon funding.

Academic Service Scholarship: This scholarship is awarded to Tennessee residents who are classified as full-time students. First-year students must graduate with at least a 2.9 high school grade point average. The priority date to make application is March 1, preceding each award year. Further priority will be made in the following sequence: (a) Renewal applications and incoming high school graduates, and (b) currently enrolled or transfer students not presently receiving this scholarship at NSCC.

After March 1, all eligible applicants will be considered based on the date of application. The amount of the scholarship will be equal to required registration fees (maintenance fee and technology access fee). Recipients are required to work 75 hours per semester on campus.

Bennie R. Jones Memorial Scholarship: This is a need-based scholarship in the amount of $500 to be awarded to a deserving student from Warren County, Tennessee.

Cathy O’Bryant Memorial Scholarship: Applicants must be pursuing an Associate Degree in Visual Communication. To be considered for the scholarship, applicants must have completed at least one semester at NSCC with a minimum of twelve credit hours earned in college-level courses of which a minimum of six credit hours must have been completed within their concentration in Photography. A minimum cumulative grade point average of 3.25 in college-level coursework is required. Applicants must submit a 200 word essay and a portfolio including at least five images. Recipients will receive an award for the 2007-08 award year of $800.00. (The award will be split $400.00 for each semester.) The priority date to make application for this scholarship is March 1 preceding each award year. Final selection for the scholarship will be made by the members of the Cathy O’Bryant Scholarship Committee.

Eddie Gentry Memorial Scholarship: This scholarship is awarded to deserving students who are enrolled in an Associate Program in Computer Information Systems, Computer Technology or Computer Networking Technology. Applicants must have completed at least twelve credit hours at NSCC (inclusive of remedial/developmental courses) maintaining at least a 3.0 cumulative GPA. Applicants must complete the FAFS and must provide all necessary information needed to complete their financial aid file as requested by the NSCC Financial Aid Office. Applicants wishing to be considered for the scholarship must plan to enroll in at least six credit hours (inclusive of remedial/developmental courses). The award amount for the scholarship is $1,000 per award year ($500 per semester).
**Edscholar Scholarship:** The Edscholar Scholarship is sponsored jointly by Edsouth and EdFinancial. The priority date to make application for the scholarship is March 1 preceding each award year. Applicants must be graduating from high school in May of 2008. They must be residents of Tennessee with a minimum high school grade point average of 3.25. Applicants must also have an ACT composite of 23 or an SAT of 1070. Two letters of recommendation and a 250 word essay are required. Students must complete the Free Application for Federal Student Aid (FAFSA) to be considered for the scholarship. The Edscholar award is a two year commitment of $3,000.00 per year.

**Electronic Data Systems Diversity Scholarship:** Priority for this scholarship will be given to students who graduated from an IT Academy (Stratford High School, Williamson County Middle College High School, etc.). Applicants must be members of one or more of the following groups: female, American Indian, Alaskan Native, Asian or Pacific Islander, African American or Hispanic American. First year students must graduate with at least a 3.0 high school grade point average. Previously enrolled/currently enrolled NSCC students or transfer students must have earned a minimum of twelve credit hours (inclusive of remedial/developmental coursework) with a cumulative college grade point average of 3.0. Applicants must be pursuing an A.A.S in Computer Information Systems, Computer Networking Technology or Computer Technology or must be pursuing an A.A./A.S in Computer Science. Applicants must also be enrolled in a minimum of six credit hours in remedial/developmental or college-level courses. The EDS Scholarship recipient(s) will receive an award of $1,000 for the 2007–08 award year ($500 per semester).

**Greater Nashville Business and Professional Women Ostia Underwood Scholarship:** Applicants must be female. At the point of application, applicants must be twenty-five years of age or older. Applicants must be a United States citizen or a green-card visa holder and must also have been a resident of the State of Tennessee for a minimum of five years. Applicants must be enrolled in an Associate or Technical Certificate program and must be enrolled in a minimum of six credit hours (inclusive of remedial/developmental courses) during the semester(s) the award is received. Applicants must have completed at least twelve credit hours (inclusive of remedial/developmental courses) at NSCC with a minimum 3.0 cumulative grade point average.

**Ingram Industries Scholarship:** Applicants must be enrolled in an Associate program and must be enrolled in a minimum of twelve credit hours in remedial/developmental or college-level courses. First-year students must graduate with at least a 2.5 high school grade point average. Previously enrolled/currently enrolled NSCC students or transfer students must have earned a minimum of twelve credit hours (inclusive of remedial/developmental coursework) with a cumulative college grade point average of 2.5 or greater. Applicants must complete the Free Application for Federal Student Aid (FAFSA) and provide all necessary information needed to complete their financial aid file as requested by the NSCC Financial Aid Office. Students must have a defined need for financial aid assistance as determined by the Financial Aid Office to be considered for this scholarship. The amount of the scholarship will be equivalent to required full-time in-state registration fees. The additional charge for Regents Online Degree Program classes is not included. Recipients of the Ingram Industries Scholarship must maintain a minimum cumulative grade point average inclusive of remedial/developmental coursework of 2.5 to remain eligible for the second disbursement of the scholarship.

**Lisa Sheucraft and Richard Williams Memorial Scholarship:** Currently being revised.

**Mayfield Scholarship:** Applicants must be residents of Cheatham County, Tennessee. Applicants must be enrolled in an Associate Degree program at NSCC and must be enrolled in a minimum of six credit hours in remedial/developmental or college-level courses. First-time freshman must have a minimum 2.5 high school grade point average. Previously enrolled/currently enrolled NSCC students or transfer students must have earned a minimum of twelve credit hours (inclusive of remedial/developmental coursework) with a cumulative grade point average of 2.5. Applicants must complete the Free Application for Federal Student Aid (FAFSA). Applicants must also provide all necessary information needed to complete their financial aid file as requested by the NSCC Financial Aid Office. Awards will be contingent upon the determination of financial need. Each recipient will receive a maximum award equal to $400 per semester or $800 per academic year (contingent upon meeting/ maintaining the minimum grade point average).

**Nashville State Architectural Engineering Technology Scholarship:** This scholarship is awarded to a student enrolled in the Architectural Engineering Technology Associate's degree program. Freshman, entering from high school, must have a minimum 2.75 high school grade point average. Previously enrolled/currently enrolled students must have completed at least one semester at NSCC with a minimum of six credit hours earned in college-level courses. These students must have a cumulative grade point average of 2.75 or better inclusive of remedial/developmental credits.
Nashville State

Culinary Arts Scholarship: The priority date to make application is March 1 preceding each award year. One applicant is selected each year to receive $100 during the fall semester.

Nashville State Diversity Scholarship: The Diversity Scholarship is limited to first-time freshmen. Applicants must be U.S. citizens, enroll within twelve months of graduation from high school, and must be first-generation college students (neither parent attended college). Applicants must be enrolled in an associate’s degree program or eligible technical certificate program (as determined for Title IV programs) at NSCC. Applicants must complete the Free Application for Federal Student Aid (FAFSA) and provide all necessary information needed to complete their financial aid file as requested by the NSCC Financial Aid Office. They must also have a defined need for financial assistance. The amount of the scholarship will be registration fees based on the student’s enrollment status at the rate of in-state assessment. The additional charge for Regents Online Degree Program classes is not included.

Nashville State Environmental Scholarship: The priority date for making application is March 1 preceding each award year. Applicants must be enrolled at least half-time status in an associate degree program. Depending upon the applicant’s enrollment status, there is an on-campus work obligation ranging from 45 to 75 hours per semester related to an environmental activity. The amount of the scholarship is equivalent to in-state registration fees.

Nashville State Community College Foundation Scholarship: Applicants must be enrolled at least halftime in an Associate’s degree or technical certificate program. Applicants must have already completed at least six credit hours at NSCC in college-level courses with a minimum 2.0 G.P.A (inclusive of remedial & developmental classes). Applicants must complete the FAFSA and must have an EFC beyond Federal Pell Grant range. Applicants must also have a need for financial aid assistance as measured by the Financial Aid Office. Recipients will receive an award of $800 ($400 per semester). The priority date to make application for the scholarship is March 1 preceding each award year.

Business Services

Vehicle Registration and Parking

All privately owned and/or operated vehicles used on campus by students and staff must be registered in the Security Office (Room A-70A) and must bear an official registration decal for which there is a charge of $10. Decals are valid from each Fall semester through the end of the following Summer semester. The vehicle registration decal must be displayed on a vehicle by the owner or driver in such a manner that it will be clearly visible from the rear of the vehicle. Vehicles so registered must be parked as directed. Students should park in the designated lot and park each vehicle so that it is headed into the parking place with the decal exposed to the traffic lanes. No vehicles are to be parked in the road or on the shoulders of the road. Any vehicle improperly parked may be towed away at the owner’s expense. The speed limit on campus is 15 m.p.h. Pedestrians are entitled to the right of way but should exercise caution and courtesy so as not to impede the orderly flow of traffic. Special parking areas are provided for students with disabilities. Disabled parking is governed by the laws of the State of Tennessee. Parking for students enrolled in special courses will be regulated as specified in the course announcement.

Appeal Process

1. Traffic fines:
   a. Traffic fines may be appealed to the Director of Security.
   b. Appeal forms may be obtained from Security in Room A-70A.
   c. For detailed information, refer to the Traffic & Parking Regulations brochure.
2. Other fees, charges, refunds:
   a. Appeals must be in written form and addressed to the Refund Appeals Committee.
   b. Forms are available in the Office of the Vice President of Finance and Administrative Services, room W-35.
   c. The Vice President of Finance and Administrative Services will prepare a written response to the appeal. If the response is negative, the reason will be so stated.

Littering Policy
The college is committed to protecting the environment and maintaining the appearance of campus grounds and buildings. Any student, faculty, or staff member who litters campus property will be issued a citation. Please refer to the current Student Handbook for a listing of the applicable fines. Littering includes the improper disposal of small items such as cigarette butts, bottle caps, and candy wrappers, etc. Littering also encompasses larger items of trash such as newspapers, tissues/napkins, food wrappers, cans/bottles, etc.

The purpose of the policy is to promote a safe, healthy and clean campus. Ideally, smoking, eating, and drinking would be confined to designated areas. However, inadequate facilities do not allow a universal policy for the behaviors. therefore, the following guidelines will regulate the three functions on the property of the college:

- Smoking: The campus is a smoke-free facility. Smoking is not permitted on campus except in designated, outside areas.
- Eating is not permitted in classrooms or labs.
- Drinking is not permitted in labs and not encouraged in classrooms.

NSCC Bookstore
The Nashville State Community College Bookstore is located in A-47 and is operated under the auspices of the college for the convenience of the students. The Bookstore carries all required textbooks and an assortment of student supplies, health and beauty aids, clothing, general reading materials, and emblematic items.

Textbooks are selected and approved by the teaching staff. Since the cost of books and supplies varies from one program of study to another and from semester to semester, only the average costs can be included in this catalog. The average cost of books and supplies is approximately $400-$600 per semester, depending upon the program of study. The majority of book and supply costs will be incurred during the fall semester. In courses requiring special equipment and supplies, additional costs must be added.

The Bookstore accepts cash, personal checks, or company checks (accompanied by a letter of introduction on company letterhead) made payable to CBA (College Bookstores of America), American Express, VISA, MasterCard, and Discover. There is a $35 charge for any check accepted by the Bookstore that is returned, in addition to the face value of the check. Students with returned checks will not be permitted to make additional purchases and a registration hold will be placed on the student’s account until the checks are redeemed.

If a class is cancelled, the full new purchase price of a book is refundable through the first two weeks of classes provided: (1) no markings have been made in the book; and (2) the cancel slip and sales receipt are presented when the refund is requested. (See “Return Policy” below.)

The Bookstore’s normal hours of operation are:

Monday–Thursday: . . . 7:45 a.m.–6:00 p.m.
Friday: . . . . . . . . . . . 7:45 a.m.–1:00 p.m.

When students are not present, the hours are:

Monday–Thursday: . . . 8:00 a.m.–4:00 p.m.
Friday: . . . . . . . . . . . 8:00 a.m.–12:00 p.m.

Changes in Bookstore hours will be posted on its door and Web site.

Bookstore Return Policy
The Bookstore’s policy on returns includes the following:

1. Only clean, unmarked, and unread books in new condition may be returned for the full price. The Bookstore Manager is the final judge on the condition of a book.

2. Books may be returned for any reason during the academic year for the first 10 days of class upon presentation of the Bookstore cash register receipt. After the first 10 days of classes, all books returned to the Bookstore will be purchased at the Nebraska Book Company’s catalog price. During the summer term, because of the shortened term length, books can be returned during the first 5 days of classes upon the presentation of the Bookstore cash register receipt. The Bookstore Manager will be the final judge on any special cases. Refunds are made in cash for returned items originally purchased in cash or by check after ten (10) days. Items...
purchased by credit card are credited to the credit card account. Items NOT accompanied by a Bookstore cash register receipt are not eligible for refunds.

3. Books that have markings in them, or which show signs of wear or damage, are classified as USED books and will be purchased according to the “Textbook Buy-Back” policy below.

4. Defective textbooks and supplies may be returned for REPLACEMENT upon presentation of the defective item and the cash register receipt.

**Textbook Buy-Back Policy**

During final exam week of each semester, the Bookstore conducts a textbook buy-back. The Bookstore will pay 50 percent of the retail price of a book if it has been adopted for the following semester, and the Bookstore is not over-stocked on the title. If the book is NOT scheduled for use the following semester, the purchase price will be limited to the wholesale value of the book as listed in the “Nebraska Book Company Wholesale Buying Guide” from NBC Nebraska Book Company (NBC). Books are bought back throughout the year, but at a price considerably lower than the semester’s end price cited above, as set by the NBC “Used Book Wholesaler’s Buying Guide.”

**Computer Help Desk**

The Help Desk will answer questions with any NSCC computer and network account problems. The Help Desk can assist with information about basic trouble regarding a computer that is school related, and with Web-related issues. Visit www.nscc.edu/help_desk/index.html for more information such as hours of operation and specific instructions and troubleshooting help.

**Open Lab**

The Clement Building Open Lab in Room C-308 was established as an independent study lab in 1984. The Open Lab provides student access to PC and Mac computers, classroom software, Internet access, and academic course-related activities. Current equipment includes twenty-four stations connected to a laser printer. In addition there are two flatbed scanners one Mac and one PC.

Hours of operation vary and are posted online at www.nscc.edu/help_desk/index.html and on the C-308 Open Lab door. Students may call 615-353-3678, or email: ComputerHelpDesk@nscc.edu. The Open Lab is part of the Computer Services Division Help Desk.
STUDENT RECORDS AND REGISTRATION PROCEDURES
Registration Information

The schedule of courses (printed copy and Web copy via MyNSCC) contains the necessary information for registration. For complete registration information, go to the Records Web site at www.nscc.edu/records.

Official Registration

When students register for a term, the courses are not official until payment of all fees has been received in the Business Office. If fees have not been paid by the designated dates, students are automatically removed from all registered classes for the applicable term. The minimum load for a full-time student is 12 credit hours.

Official Enrollment

Students are officially enrolled when all assessed fees have been paid.

Course Cancellations

NSCC reserves the right to cancel classes that do not have sufficient enrollment. Refer to www.nscc.edu/records for additional course cancellation information.

Change of Registration Drop/Add

A student desiring to add or drop a course must do so by the drop/add deadlines listed in the Academic Calendar in the front of this catalog and on the Records Web page. Courses dropped through the fourteenth calendar day of each semester will not be entered on the student’s permanent record. Courses dropped after this period will be entered on the permanent record and assigned a grade of “W”.

If a student stops attending class without officially dropping the class via the Records Office or MyNSCC, the student will receive a failing (nonattendance) grade of “WF”. Drop/Add forms are available in the Records Office and on the Records Departmental Web page, www.nscc.edu/records.

Waiver of Prerequisites

Under special circumstances, a student may be permitted to waive a prerequisite and take a course out of sequence. Approval to waive a prerequisite shall be the responsibility of the faculty advisor and the discipline dean. Students must still complete all courses required in the curriculum and meet minimum hours for graduation.

Withdrawing from the College

The “Drop/Add/Withdrawal Form” is available from the Records Office. The last day to withdraw from the college is listed in the Academic Calendar. Students enrolled in Continuing Education special interest courses that are not in sequence with the academic term will be informed of the established withdrawal date during the first class meeting. A student withdrawing after the official published withdrawal date will receive an “F” in the course unless there is documented evidence of extreme personal hardship or such mitigating circumstances as the following:

1. Injury or illness as verified by the student’s personal physician;
2. Death in the family or other severe personal hardships as verified by the student’s parents, minister, physician, etc;
3. Change in employment status (work schedule) as verified by the student’s employer, if no other class is available; or
4. Job relocation as verified by the student’s employer.

Such exceptions to the withdrawal policy must be approved by the student’s instructor and the Dean of Students.

A student has not officially withdrawn until the student submits the required form to the Records Office or officially withdraws from the course via MyNSCC. Students utilizing educational benefits from the Department of Veterans’ Affairs are responsible for any overpayment of benefits due to non-attendance of or withdrawal from any and all classes.

Administrative Withdrawal

An administrative withdrawal is a grading standard in which a student may be withdrawn from class by his/her instructor for non-attendance and/or violation of the instructor’s stated attendance policy. Students receive a grade of “WF,” withdrawn failure. A “WF” counts as attempted semester hours and carries zero quality points per semester hour.

Attendance Policy

A student is expected to attend all scheduled classes and laboratories. Students should refer to each course syllabus to obtain the course attendance policies. A student who misses class for two consecutive weeks without contacting the instructor or who violates the instructor’s stated attendance policy will be administratively withdrawn from the course and given a grade of “WF”.

Student Records and Registration Procedures
Final Exams
Final exams are customarily held in all subjects at the end of each semester. The final exam schedule is posted on the NSCC Web site and/or the Records Web site each term. Absence from an examination without permission from the instructor may result in a failing grade for the course.

Confidentiality of Student Records
Nashville State Community College works in compliance with the Family Educational Rights and Privacy Act of 1974, as amended to protect the confidentiality of personally identifiable educational records of students and former students. Students have the right to inspect and review information contained in their educational records, to challenge the contents of their educational records, to have a hearing if the outcome of the challenge is unsatisfactory, and to submit explanatory statements for inclusion in their files if the decision of the hearing panel is unacceptable.

“Directory information” concerning students is treated as public information and may be released to outside parties unless otherwise requested by the student. A student who desires not to have any or all directory information released must complete the appropriate form in the Records Office. The request shall remain in effect unless or until revoked by the student.

“Directory information” includes: Student name, address, telephone number, date of birth, major field of study, e-mail address, participation in recognized activities, dates of attendance, “full time/part time” status, degrees and awards received, and the most recent educational institution attended by the student.

Graduating/transferring students desiring non-disclosure after leaving Nashville State Community College must complete the request prior to the end of their last terms. The request for non-disclosure will remain in effect until revoked by the student.

NSCC does not make a practice of supplying student lists to third parties. We reserve the right to limit distribution to on-campus departmental requests.

Students' rights are outlined in the Nashville State Community College Student Handbook.

Change of Name or Address
The Records Office should be informed of all changes in the student's legal name, place of residence, mailing address, and telephone number. The college is not responsible for a student not receiving official information, if the student failed to notify the college of any of the changes stated above. Change of names requires documentation i.e. marriage license, divorce decree, etc.

Student ID (“A” Number)
The Student Identification Number is a randomly selected 8-digit number beginning with the letter “A” that has been created for students, faculty, and staff to protect an individual’s social security number. The “A” number is used by students to log in to MyNSCC (Web for Students) to access grades, register, view holds, etc. Students are still required to disclose their SSN when they apply for admissions on the application form. This SSN is immediately converted to an “A” number for privacy. If a student wishes to not disclose his/her SSN, they should be aware that this could affect federal and/or state financial assistance.

Personal Identification Number (PIN)
A student’s personal identification number is used for verification purposes. The most common use is for access to the MyNSCC registration system. For more information or assistance using, resetting, or obtaining a PIN, please contact the Records Office at 615-353-3218 or the Computer Services Help Desk at 615-353-3678.

Transcript of Academic Record
The Records Office maintains permanent academic records for each student. All transcript requests must be in writing; therefore, no telephone requests will be honored. Faxed requests with required information, student signature, and copy of picture ID are acceptable. Official transcripts will be sent directly to another educational institution or business. Unofficial (student) copies are issued to students and advisors. In all cases, obligations to the college must be fulfilled before a transcript will be issued.

Normally, transcripts will be sent within 48-72 hours after receiving the request from a student. Students may obtain up to five free printed copies of their transcripts from the Records Office. Additional printed transcripts will cost $3 each. Unofficial student transcripts can be accessed via MyNSCC. Proper identification will be required for all transcript requests made in person.

Student records are maintained for academic purposes. The materials therein allow the college to validate a student’s academic performance. All requests to review a student’s record require the student’s written authorization, except as provided by the Family Educational Rights and Privacy Act of 1974, as amended.
Students will not be able to obtain any official, original documents given to the Records Office since that document becomes the property of NSCC. Once an official document has been given to the Records Office, the document is imaged and the original document is destroyed.

**Associate Degrees and Certificate Requirements**

It is the student's responsibility to insure that all requirements for graduation are met. Students pursuing an Associate's degree or technical certificate must satisfy the general and specific requirements as outlined in the current catalog option. No student will be issued a degree or certificate until all debts and obligations to the college have been satisfied.

**Catalog Option:** A student's program requirements are determined by the catalog in effect the term the student is initially admitted into the degree or certificate program. If a student elects to change programs or to change to a different area of concentration within a major, the requirements of the catalog currently in effect at the time of the change will apply. Any student may elect to graduate in accordance with the requirements of a catalog published after the student's initial program catalog. However, the student must declare the option for change of catalog no later than the deadline for filing his/her Intent to Graduate. A student who does not remain active and re-applies for admission into a program will be subject to the catalog in effect at the time of re-application.

**Credit Hours:** A minimum of 750 minutes of classroom instruction (excluding registration and final exams) is required per Student Credit Hour. Non-instruction credit is recorded in continuing education units (CEU's). One CEU requires 10 contact hours of participation in an organized continuing education experience under qualified instruction.

**Classification of Students:** A student who has completed fewer than 30 credit hours shall be classified as a freshman. A sophomore must have completed 30 or more hours of college-level course work or a combination of course work and transfer credit.

**Requests for Academic Waiver:** Students who wish to request waivers or exceptions to any academic regulation or requirement must submit requests in writing to the Vice President of Academic Affairs.

**Academic Fresh Start:** Any person, who has not been enrolled in a college or university for a period of four years and who, upon re-enrolling or transferring to Nashville State Community College completes 15 semester hours of degree course work and maintains a minimum 2.0 QPA/GPA, may petition for “Academic Fresh Start” through the Records Office. Steps to begin the Academic Fresh Start process are on www.nscc.edu/records.

**Grade Point Average**

The academic standing of a student is expressed in terms of a quality point average (QPA)/grade point average (GPA). When a course is completed, the number of grade points earned is determined by multiplying the credit hours earned for that course by the grade points assigned to the letter grade earned. Examples on calculating a GPA are found on the Records Department Web page.

**Repeating Courses**

For the purpose of raising a grade point average, a student may only repeat a course in which the previous grade earned is “C” or lower. The Vice President of Academic Affairs must approve any exception to this before the student registers to repeat the course. When a course is attempted one or two times, only the last grade earned is used in the calculation of the student’s quality/grade point average. If a student attempts a course more than twice (three attempts), the grade earned in the third and subsequent attempts will be used in calculating the QPA/GPA. The credit hours earned by repeating a course will be counted only one time in the cumulative total hours earned. In all instances, the last grade earned is used to determine whether the student meets graduation requirements.

**Grading System**

The following grading system is used at Nashville State Community College:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points/Grade Points Values per Semester Credit Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Superior 4</td>
</tr>
<tr>
<td>B</td>
<td>Excellent 3</td>
</tr>
<tr>
<td>C</td>
<td>Average 2</td>
</tr>
<tr>
<td>D*</td>
<td>Passing, but below average 1</td>
</tr>
<tr>
<td>F</td>
<td>Failure 0</td>
</tr>
</tbody>
</table>

* This grade is not used for any remedial or developmental course.

WF Failure for non-attendance; Administratively withdrawn 0

A “WF” is a grading standard in which a student may be withdrawn from class by his/her instructor for
non-attendance and/or violation of the instructor's stated attendance policy. A "WF" counts as attempted semester hours and carries zero quality points per semester hour. The following standards will be followed in administering this grade type:

1. Students earn a “WF” grade in one or two ways (a) when a student has missed class for two consecutive weeks without contacting the instructor. The instructor must complete the appropriate form to assign a “WF” and report the non-attendance immediately to the Records Office; (b) when a student has violated the instructor’s stated attendance policy, a “WF” will be submitted to the Records Office. This grade may be assigned anytime during the semester once the student has violated a course enrollment policy and applies to both day and evening students.

2. Faculty must include a “last day of attendance” on the “WF” form before submitting it to the Records Office for processing.

Other marks which may appear on the grade report and/or transcripts are as follows:

W Withdrawal – withdrawal from course initiated by the student.

I Incomplete – The "I" indicates that the student has not completed all of the course work due to such extenuating circumstances as personal illness, death in the family, or other justifiable reasons. The "I" must be removed within four weeks from the first day of class of the following semester or a grade of "F" is entered on the permanent records. The deadlines for removal are in the Records Office and listed on Academic Calendars found in the catalog and all printed schedules.

X Continuation – The “X” indicates the student attempted a remedial or developmental course, but progress was not sufficient to warrant a grade. It carries no connotation of failure. It indicates the student, upon the advice of the instructor, should register for the same course and takes more time to earn a grade. The “X” grade is restricted to use in the R/D courses. An overall maximum of 15 semester hours of “X” is allowed. Veterans who are receiving educational benefits cannot be awarded an “X” grade in any course.

AU Audit (see requirements for auditing a course elsewhere in this catalog).

Grades of "W", "I", "X", and "AU" have no grade point value and are not used in computing grade point average.

Grade Appeals
A student who believes that an error has been made in the grade assigned for a given course has through the end of the following term in which the grade was earned to request a review of the grade in question. A student must first confer with the instructor. If the problem cannot be resolved, the student may initiate the appeal procedure. All appeals should be submitted in writing to the Dean responsible for the class in which the grade is being appealed or the Dean for Student Services.

Dean’s List
Degree-seeking students who achieve a term QPA/GPA of at least 3.5 during any semester in which they are at least part-time (six hours) will be listed on the Dean’s List based on college-level course work.

Retention Standards

Associate Degree Programs and Technical Certificate Programs
The minimum quality/grade point average to achieve the Associate Degree or Technical Certificate is 2.0. To establish a measure of academic standing, a table of minimum retention standards has been established. The following table describes minimum cumulative grade point average required for the credit hours attempted and is designed to serve as a guide to students who fall below the 2.0 cumulative grade point average.

<table>
<thead>
<tr>
<th>Semester Hours Attempted</th>
<th>Minimum Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 14</td>
<td>—</td>
</tr>
<tr>
<td>14.1 - 26</td>
<td>1.0</td>
</tr>
<tr>
<td>26.1 - 40</td>
<td>1.4</td>
</tr>
<tr>
<td>40.1 - 48</td>
<td>1.7</td>
</tr>
<tr>
<td>48.1 - 56</td>
<td>1.9</td>
</tr>
<tr>
<td>56.1 and above</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Academic Probation and Suspension
Academic probation and suspension is based on the college’s retention standards as described previously. The summer term is not counted as a term of suspension.

Upon returning from a suspension, the student will be on probationary status. The student will remain on probationary status until the minimum acceptable cumulative GPA is achieved. The student must receive a 2.0 term GPA or higher for each term while on probation. The student who fails to meet retention standards for a second time will be suspended for one calendar year.

Nashville State
Course Load
A part-time student carries an academic load of fewer than 12 credit hours. The maximum load for a student is 21 credit hours. A full-time student carries an academic load of 12 hours or more. When a student wishes to register for more than 21 credit hours, Dean for Student Services, Division Dean, or Director of Records and Registration approval is required.

Academic Action Appeals
A student may appeal an academic action if he/she believes extenuating circumstances or unusual hardship affected his or her ability to achieve the minimum academic standard. A written appeal must be submitted to the Director of Records and Registration 14 days prior to the official first day of class during a term. The appeal must outline the reasons for the request in addition to submitting any supporting documentation. The Academic Appeals Committee will review and make a final determination regarding the action; notification will be sent to the student regarding the decision.

Students receiving Veterans Education benefits will not be certified to the Department of Veterans Affairs if enrollment is based on a second consecutive waiver of Academic Suspension.

Course Waivers and Substitutions
When there is sufficient need to change a program of study outlined in the catalog for a student to be able to graduate, a course requirement waiver and/or substitution may be processed. Course waivers and/or substitutions are determined by and require approval by the academic division Dean.

The completed course waiver or substitution form must be submitted to the Records Office for processing. All approved waivers and/or substitutions will be applied to the student’s academic program of study. There is no fee for course waivers or substitutions.

Graduation Requirements

Residency Requirements
1. Satisfactorily earn at least 25% of credit hours required for the degree through instruction delivered by NSCC.

2. Associate degree students must earn the last 15 hours preceding graduation from NSCC. This does not apply to students who are participating in an approved, articulated program agreement. Any exception to this policy must be approved by the Vice President for Academic Affairs or designee.

3. Students that have the residency requirement waived by the Vice President must take the waived course(s) within one year of the approved waived date.

4. Students must be enrolled at NSCC in order to receive Advanced Standing credit to be used towards graduation requirements.

Graduation Requirements
1. Complete a minimum of 60 semester hours required for the Associate’s degree and the appropriate number of hours required for a certificate. The College transfers only grades of “C” or better. Credit hours earned in remedial or developmental courses are not counted to satisfy the minimum hour requirement for graduation.

2. Earn a minimum GPA of 2.0 (“C” average in all collegiate-level courses that count toward the degree.)

3. Satisfactorily earn at least 25% of credit hours required for the degree through instruction delivered by NSCC.

4. Complete and file an “Intent to Graduate” form by the appropriate deadline posted in the College academic calendar. It is the responsibility of students to meet the deadline for filing the Intent to Graduate form and note the semester in which they intend to graduate and what catalog they are using for graduation requirements. Students who do not graduate during the semester that is indicated on the Intent to Graduate form will need to complete an “Update Intent to Graduate” form during the semester in which they intend to graduate. Intent to Graduate and Update forms are available in the Records Office or on the Records Web site.

5. Pay a non-refundable $25 graduation fee in the Business Office prior to filing the graduation intent. The fee includes the cost of the diploma, cover, cap, and gown. This fee is required regardless of the student’s participation in the graduation ceremony.

6. Complete any required exit examinations in General Education, in the major field, and demonstrate satisfaction of the college computer literacy requirement for degree-seeking students either by:
   a. Completing a program that includes the required skills
   b. Pass the Computer Literacy Exam in the Testing Center with a score of 75% or higher. $10 fee required.
   c. Pass CIS 1000 (1 SCH) with a grade of C or better
d. Documenting prior learning experience, transfer credit, etc. (see your advisor)

For more information, go to www.nscc.edu

7. A.A.S. degree students must earn the last 15 hours preceding graduation from Nashville State Community College. This does not apply to students who are participating in an approved articulated program agreement. Any exception to this policy must be approved in advance by the Vice President for Academic Affairs or designee.

Graduation Honors
Candidates for the Associate’s degree or technical certificate who attain a final 3.5–3.74 cumulative grade point average will be graduated cum laude; candidates who attain a final 3.75–3.89 cumulative grade point average will be graduated magna cum laude. Candidates who attain a 3.90–4.00 cumulative grade point average will be graduated summa cum laude.

Nashville State holds one commencement ceremony per year. This ceremony is held at the end of each spring term. Diplomas are mailed to students at the end of the semester they graduate once degree requirements have been confirmed.

Degrees and Concentrations
NSCC students may earn only one A.A. degree, one A.S. Degree, and one A.A.S. degree. Students desiring a second degree from NSCC must complete a minimum of 15 additional credit hours beyond the requirements for the first degree. All additional credit hours for the second degree must be completed at NSCC. A $25 graduation fee must be paid for each separate degree, and a diploma will be awarded for the additional degree.

Associate of Applied Science Degree students may complete requirements for more than one concentration of study within the degree program by successfully completing all course requirements in both concentrations. A “Completion of a Second Major” form must be submitted for each concentration. No additional fee is required, and no additional diploma will be awarded. “Completion of a Second Major” will be denoted on the student’s academic transcript.

The Honors College is open to new and currently enrolled students. First-semester freshmen should have satisfactory ACT/SAT scores. Returning or continuing students must have completed 12 hours with a GPA of 3.5 or higher. All applicants must submit an application form including a writing sample and may be asked to participate in an interview with an honors committee representative. For more information and an application form, contact the English, Humanities, and Arts division at 615-353-3531.

Advanced Standing
Matriculated (enrolled) students at Nashville State Community College may meet some course requirements for graduation through course waivers and substitutions; college transfer credit; credit by examination; the college-level examination program; advanced placement examinations; prior work experience; high school, career, and vocational education experience; and U.S. Military training and experience. Documentation of any of these alternate methods of meeting requirements must be filed in the Records Office prior to the beginning of the semester in which the student will graduate. If this documentation is not on file, the student’s graduation date may be delayed. (Students who are not enrolled at Nashville State Community College are not eligible for any advanced standing program).

College Transfer Credit
Credit may be awarded to transfer students when the following standards are met:

1. Official college or university records are on file in the student’s NSCC academic record.

2. Credits earned more than six years prior to enrollment at NSCC may be reviewed and evaluated by the appropriate Dean or Coordinator.

3. The student matriculates (enrolls) at Nashville State Community College.

If a student has earned credit for a course at a prior institution with fewer than the number of hours required for the equivalent course, credit may be given for that course if the material covered is sufficiently equivalent to the NSCC course. In all cases, a student must have earned a minimum number of semester hours to meet the graduation requirements for degree or certificate. Grades earned at another institution are not used to compute a student’s grade point average at NSCC.
College Board Advanced Placement Examinations

NSCC will award advanced standing credit to entering students based upon Advanced Placement Examination results. Scores ranging from 3 to 5 will be awarded appropriate credit. Students take the Advanced Placement exams at their high schools. No fees are charged for awarding this credit. Official College Board AP exam scores should be submitted to the Records Office for processing.

CLEP exams are offered each Tuesday and Thursday morning (excluding holidays) at 9:00 a.m. in the NSCC Testing Center. Appointments should be made in advance.

The total cost is $80 per examination: CLEP charges $65 per exam and prefers it be charged to American Express, MasterCard, or Visa. NSCC charges $15 per exam for test administration and requires it be paid by check or money order.

For additional information about the NSCC CLEP test, contact the Testing Center at 615-353-3564. For information regarding obtaining CLEP Scores, please contact CLEP at 1-800-257-9558 or visit their Web site at www.collegeboard.com/clep.

Student Records and Registration Procedures
### Course Waivers and Substitutions

An advisor may recommend that a student request a course waiver if the student has had training or experience in a subject area. A course waiver is appropriate if the material has been mastered through means other than formal academic course work or in a course closely related to the course in question. A course substitution is appropriate only if material has been mastered through a similar course within the college or if co-op credit has been earned as defined in the college catalog. There is no fee for course waivers and substitutions. Course waivers may reduce the total credit hours or number of courses required for the degree or certificate, but in no case can the number of credit hours required for the Associate's degree be fewer than 60.

To process a course waiver or substitution, students should initiate the appropriate substitution form through their academic advisors. The Dean in the academic area in which the course is offered must approve the waiver or substitution, and the Records Office will complete the substitution process.

### Credit by Examination

Credit by Examination permits students to earn full credit for NSCC college-level courses through successful completion of comprehensive examinations. Program requirements differ. Students should consult the appropriate dean for requirements in their major.

To be eligible for Credit by Examination, a student:

1. Must be currently enrolled in classes at NSCC;
2. Must meet any prerequisite requirement established for the course for which the exam is requested;
3. May not pursue Credit by Examination where credit in an equivalent or more advanced course has been earned, or a course successfully completed, including audited courses, and
4. Must apply for and complete the examination within seven calendar days beginning with the first day of class of the current term.
To apply for Credit by Examination, a student must obtain the Request for Credit by Examination form from the Records Office. The student must possess and demonstrate the requisite knowledge and skills for the course being challenged and receive the advisor's approval to take the exam. The student then submits the form to the Dean responsible for the discipline of the exam requested. Permission to take the challenge examination may be denied if the advisor or Dean determines that the student does not have a valid basis for the request. The decision of the Dean is final.

Upon approval by the Dean, the student must pay the $75.00 examination fee (non-refundable) to the Business Office and present the receipt to the instructor responsible for administering the exam.

For successful completion of Credit by Examination, a student must achieve a minimum of 75% on the examination. The credit will be recorded on the student's academic transcript as “Advanced Standing – Credit by Examination” and does not affect the student's GPA.

Students currently enrolled in the course for which they successfully complete Credit by Examination will be dropped from the course and receive full refund of payments related to the course.

Credit by Examination is limited to a maximum of 20 semester hours and does not apply toward residency requirements for graduation. Students intending to transfer should consult with the college or university to which they are applying about the transferability of Credit by Examination hours.

Credit for Prior Work Experience
(Portfolio Assessment)

If students pursuing a degree or certificate have work experiences that has provided a background similar to that of a course in their major curriculum, they may request that the department responsible for the course evaluate the work experience for credit purposes. Students should provide the department with evidence of work performed, e.g., copies of drawings, reports, or other documents; which will verify the type of work performed and/or a letter from the employer verifying the time that they were employed and did perform the work. A maximum of 10 hours of credit can be obtained for prior documented work experience. If the work experience is adequate for credit, the Dean will submit the necessary form to the Records Office for processing.

High School and Vocational Education Experience

A student who has high school, vocational, or other credit that may relate to the program of study being pursued at NSCC, may be eligible for advanced standing credit. NSCC has formal articulation agreements with many high schools that outline the possibilities of credit for work at the high school level.

The student must request review by the Dean responsible for the course or courses that relate to the previous educational experience. This educational experience will be evaluated by the Dean to determine if the experience provides mastery of 80 percent of the competencies contained in the course required in the student's major. The student must provide an articulation application, high school transcript, and/or documentation of the type of work performed in the course.

NSCC has articulation agreements with the Tennessee Technology Centers. In addition to single course advanced standing, block transfer credit is also available under the General Technology A.A.S. degree program.

The National Program on Noncollegiate Sponsored Instruction (PONSI)

Credit may also be granted for appropriate educational experience listed in the Directory of the National Program on Noncollegiate Sponsored Instruction and in The National Guide to Educational Credit for Training Programs by the American Council on Education. If the educational experience is adequate for credit, the Dean will submit the necessary form to the Records Office for processing.

U.S. Military Schools

Nashville State Community College recognizes and awards credit for military service schools in which the student has satisfactorily completed a course and for which NSCC has an equivalent course. Then training is evaluated using the American Council on Education’s Guide to the Evaluation of Educational Experiences in the Armed Services.

If necessary, other recognized publications may be consulted in the evaluation of armed service schools. No more than 50% of the credit hours required to obtain an Associate's degree or certificate may be earned through military service schools.
The student must provide the Records office the required documentation for the evaluation of military training.

Veterans’ Benefits
Veterans and eligible dependents of veterans who wish to apply for educational benefits from the Veterans Administration (VA) should contact the Coordinator of Veterans’ Services at 615-353-3211 to complete the necessary forms.

Eligibility for Deferment of Payment of Tuition and Fees by Certain Eligible Students Receiving U.S. Department of Veterans Affairs or Other Governmentally Funded Educational Assistance Benefits
Service Members, Veterans, and Dependents of Veterans who are eligible beneficiaries of U.S. Department of Veterans Affairs educational benefits or other governmentally-funded educational assistance, subject to the conditions and guidelines set forth in Tennessee Code Annotated 49-7-104 as amended, may elect, upon formal application, to defer payment of required tuition and fees until the final day of the term for which the deferment must be made no later than 14 days after the beginning of term. The amount of the deferment shall not exceed the total monetary benefits to be received for the term. Students who have been granted deferments are expected to make timely payments on their outstanding tuition and fees balance once education benefits are being delivered. Eligibility for such deferment shall terminate if the student fails to abide by any applicable rule or regulation, or to act in good faith in making timely payments. This notice is published pursuant to Public Chapter 279, Acts of 2003, effective July 1, 2003. To apply for deferment, contact the Coordinator of Veterans’ Services at 615-353-3211.

Nashville State
STUDENT SERVICES
Student Services

The purpose of the Student Services division is to provide comprehensive student services that will assist students in achieving educational objectives and enable students in developing relationships and experiences that promote intellectual, social, and emotional growth.

Student Services is organized into departments to serve the needs of students outside the classroom. Students should become familiar with opportunities that these offices provide and should develop an educational plan that includes solid academic preparation, student activities, and social and professional organizations.

Academic Advising Policy

Students must personally assume the responsibility for completing all requirements established by the college for their degrees or certificates. A student’s advisor may not assume these responsibilities. Any substitution, waiver, or exemption from any established requirement or academic standard may be accomplished only with appropriate approval.

Faculty advisors are active participants in the academic, career, and life-planning services of the college. Advisors are also available to assist students on an individual basis with problems and challenges that arise while they are enrolled in college. Students are assigned faculty advisors and should meet with faculty advisors each semester before registering for classes.

Registration Procedures

Students may register for classes by registering online using myNSCC. To access myNSCC, go to NSCC’s home page, www.nscc.edu.

Registration periods for fall, spring, and summer semesters are published in the academic calendar located at the front of this catalog. Students are strongly encouraged to register early during registration periods and follow these procedures:

1. All new and re-admit students must complete an Application for Admission or Re-Admission and submit proper credentials. All new students are encouraged to attend an orientation session. Placement testing is required of all new or re-admit degree seeking students. The test is administered by the Testing Center in the Kisber Library Building. Students should contact their faculty advisor prior to registration each term. Registration is not complete until fees have been paid. Deadline dates for paying fees are published in semester schedules.

2. The first day of classes is noted in the Academic Calendar. Students are strongly encouraged to purchase books and materials and be prepared to begin class work on the first day of classes.

New Student Orientation

All new degree-seeking students should attend a New Student Orientation session. Students will be advised, registered, and assigned a permanent faculty advisor at this orientation session. Before attending, students should submit an application to attend the college, send required transcripts, complete inoculation requirements and complete any required testing in the Testing Center. Students whose applications are incomplete will not be able to register for classes at the orientation session. Students may register for New Student Orientation on the NSCC Web site. Students whose applications are not complete will not be able to register for classes at the orientation.

Developmental Studies Placement

The Tennessee Board of Regents, which governs all the State's community colleges and its universities except the UT system, requires that students first show that they have high school level skills before enrolling in college-level courses. Placement assessments are administered to entering students to determine whether they need developmental courses. Depending on the student’s placement test scores, ACT scores, high school courses completed and/or any other relevant information, a student will be placed appropriately. After completing the final developmental studies course required by the placement assessment, students may enroll in college-level courses.

Developmental Studies courses cover basic skills in reading, writing, and math. Learning Strategies placement is required for students who are placed in two remedial and/or developmental courses.

Once enrolled, the student must complete any Developmental Studies course with a “C” or better. Students should refer to course syllabi to review withdrawal policies from developmental studies courses.

Developmental Studies Challenge Testing

Students who have tested into a DSP course(s) may challenge test placement in a course and may challenge only once per course. Students who attempt a DSP course are no longer eligible to challenge test out of that course.

Challenge tests are offered only at the published dates and times in the schedule. Dates and times for the main campus and off-campus sites appear
with the course listings for each campus. Students who arrive after the published start time will not be admitted. There is a fee for the math test, and free math preparation materials are available at www.act.org/compass and www2.nscc.edu/dspm. Currently, the reading and writing tests are free of charge, and there are no formal preparation tools. Please check our Web site at www.nscc.edu for any updates about testing, preparation, and procedures. For information about reading or writing challenge testing, please call 615-353-3531. For information about challenge testing in math, please call 615-353-3369.

English as a Second Language (ESL)

Students who speak English as a second language may receive special assistance in the Learning Center and from full-time ESL specialists on staff. Special remedial courses provide non-native speakers with the language skills they need to be successful in college and in the workplace. For further information, please contact the ESL Testing and Advising Coordinator at 615-353-3380.

Student Disability Services (SDS)

Student Disability Services provides assistance to students with documented physical, emotional, and/or learning disabilities. SDS personnel assist eligible students with academic planning and registration and serve as a liaison between students and faculty. SDS personnel also assist in testing and securing appropriate technology as needed for students. A minimum of two weeks is usually required to arrange classroom accommodations. For further information, contact the Disabilities Coordinator at 615-353-3721 in the Student Services Center.

Housing

The college does not have residence halls. Therefore, students should begin efforts to obtain housing at an early date. Any student needing assistance in securing housing may contact the Student Life Representative at 615-353-3026.

Student Activities

Nashville State has honor, social, and professional clubs. Charters of all organizations are on file in the office of the Dean of Students. Any organization not chartered is not recognized as part of the college community.

The organization and administration of student activities is a function of the Dean of Students.

Student Government Association

(Student Participation in Campus Decision-Making)

The Student Government Association represents the student body at Nashville State. The SGA serves the vital role of liaison between the campus administration and the student body. A designated member of the SGA is a member of the Nashville State Executive Committee, which is the policy-making committee of the college.

The SGA is charged with the responsibility of communicating the ideas and opinions of the student body at-large to the administration of the college. Members of the SGA are elected by popular vote and serve for a term of one year. The SGA office is located in the Student Services Building, D-13.

All standing committees at the college include a student representative. It is the responsibility of each standing committee chair to appoint, with the President’s approval, a student representative to each campus committee.

Student Life Council

The purpose of the Student Life Council is to promote cooperation and communication among student organizations. The Council consists of faculty, staff, and a representative from each active student organization.

Student Publications

The Falcon, the college newspaper of Nashville State, is edited and published periodically by students during the year for the purpose of informing students and staff of pertinent upcoming events, to provide students with an expression of opinions and views, and to increase student awareness of campus life. There is a faculty advisor to the college newspaper.

Tetrahedra is an independent, nonprofit journal published annually by Nashville State. The journal recognizes the artistic talents of the college community through the publication of selected poems, short fiction, and essays, promoting the humanities at the college. Current students, alumni, staff, and faculty are encouraged to submit manuscripts/artwork for publication in this journal.

All publications produced by students at Nashville State may serve as forums for expression of ideas concerning issues and events of interest. Views expressed in the publications are not necessarily the views of the student body as a whole, the college, or the Tennessee Board of Regents.
Student Right to Know Policy
Information about graduation rates of Nashville State Community College students is available from the Office of Institutional Research. The college complies with the Student-Right-to-Know legislation.

College Liability
Nashville State Community College is not responsible for bodily harm and/or death to participants in any voluntary organizations or activities, including activities in which risk is incurred. Nashville State Community College, as an agency of the State of Tennessee, is not liable for claims resulting from injury and/or death incurred in such participation. Members of college faculty and staff may not be held liable unless personal negligence occurs.

Rights and Responsibilities of Nashville State Community College
The college shall have such rights and responsibilities as are necessary and desirable for the college to achieve its purposes. The Tennessee Board of Regents specifically confirms the following rights to the college:

1. To establish regulations concerning the use and abuse of college property and to assess students with claims of damage of such abuse.
2. To withhold grades and transcripts of credit until all claims have been paid.
3. To dismiss, in the absence of specific regulations, any student, at any time, for cause deemed by the college to be in the best interest of the student’s emotional or physical safety or the well-being of the college community.
4. To establish standards of conduct and manners on the campus within range of convention of good taste.
5. To establish traffic regulations on campus, provide for registration of all vehicles using the campus, and enforce such regulations as established.
6. To supervise the scheduling of meetings and activities of student organizations.

This list is not all-inclusive and in no way limits the rights, responsibilities, and authority the college now has. It simply describes some of the rights, responsibilities, and authority which have been vested in it.

Security Procedures
Nashville State Community College makes available to all students information relative to the NSCC security policies and procedures. Upon request, crime statistics and policies may be obtained by contacting the Chief of Security. In the event any student should require the services of security personnel, officers are on duty 24 hours a day to ensure the safety and security of both students and campus facilities.

The Security Office is located in A-70A, adjacent to the campus bookstore. Information about on-campus crime rates is available on request from the Security Office.

Student Appeals or Grievances
There is a procedure to handle bona fide student grievances and appeals. Normally, grievances and appeals are appropriate when a student has experienced discrimination, violation of constitutional rights, or violation of policy. Information about the procedure is available in the college Student Handbook or from the Dean of Students at 615-353-3268.

Student Code of Conduct
Nashville State Community College students are citizens of the community and are expected to maintain acceptable standards of conduct. Admission to Nashville State Community College carries with it privileges and responsibilities.

The Tennessee Board of Regents has authorized institutions under its jurisdiction to take action as may be necessary to maintain campus conditions and preserve the integrity of the institution and its educational environment.

In an effort to provide a secure and stimulating atmosphere, Nashville State Community College has developed a Student Code of Conduct which is contained in the Nashville State Community College Student Handbook. The Student Code of Conduct is intended to govern student conduct on the campus of Nashville State Community College.

Additionally, students are subject to all local, state, and national laws and ordinances. Should a student violate such laws or ordinances in a manner which adversely affects the institution’s pursuit of its educational objectives, the college may enforce its own regulations regardless of any proceedings instituted by other authorities. Conversely, violation of any section of the Code of Conduct may subject a student to disciplinary measures by the institution whether or not such conduct is simultaneously a violation of local, state, or national laws.
Generally, through appropriate due process procedures, institutional disciplinary measures shall be imposed for conduct which adversely affects the institution’s pursuit of educational objectives, which violates or exhibits a disregard for the rights of other members of the academic community, or which endangers property or persons on college or college-controlled property.

When students are unable to pursue their academic work effectively, when their behavior is disruptive to the educational process of the college or detrimental to themselves or others, they may voluntarily withdraw, be involuntarily withdrawn, or be temporarily suspended from the college. Disruptive or detrimental behavior may, for example, be due to drug and/or alcohol abuse, apparent physical disturbance, and/or psychological disturbance.

Statement of Values

Policy on Sexual Orientation
It is the policy of Nashville State Community College that neither its students nor its employees shall be discriminated against on the basis of those individuals’ sexual orientation. Such a policy helps ensure that only relevant factors are considered and that equitable and consistent standard of conduct and performance will be applied.

A student who has an academic complaint involving discrimination based on his or her sexual orientation should contact the Office of the Dean of Students. Any individual who has an employment discrimination complaint based upon his or her sexual orientation should contact the College’s EEO/AA Compliance Officer.

Kisber Library

(Phone: 615-353-3555)
The Kisber Library facilitates learning and research for Nashville State students, staff, and faculty with an extensive collection of books, periodicals, and audio-visual materials. The Library also provides space for private and group study.

Fully automated, the Library features an online catalog, ebook collections, and periodical databases. By using their A# and pin number, students can gain access to electronic databases from off campus. The Library subscribes to databases that cover the social sciences and humanities. The Library also subscribes to databases in the following specific subject areas: business, literature, health sciences, music, art, technology, and Spanish. As well as more than 50,000 books in its on-campus collection, the Library owns more than 38,000 NetLibrary ebooks as well as subscribing to Safari, an online technical book collection. Electronic reference materials can also be found at the Web page, including English and foreign language dictionaries, thesauruses, quotation books, atlases, and a comprehensive series of subject dictionaries.

The Library also provides interlibrary loan services for student and faculty. Students from Nashville State also may check out a NALA card that will allow them to enter Vanderbilt University and conduct research in any one of the University’s main subject libraries. All Nashville State students may also visit any other TBR library to do research with limited check-out privileges.

There is an orientation at the Library Web site for students who can not come to campus or who need a refresher on library services. There is also an “Ask the Librarian” link on the homepage so that students may send research questions to the library staff; these are answered within 24 hours.

The Library is open to the public, although children must be accompanied by an adult. All patrons must observe library guidelines available at the circulation desk.

Kisber Library hours are as follows during fall and spring semesters:

- Monday – Thursday: 7:45 a.m. – 8 p.m.
- Friday: 7:45 a.m. – 4:30 p.m.
- Saturday: 9:00 a.m. – 2 p.m.

(During fall and spring break and between semesters, hours are Monday – Friday, 8:00 a.m. – 4:30 p.m.)

The Testing Center

(Phone: 615-353-3564)
Housed in the Library in Room K-158, the Testing Center provides multiple testing services for students, faculty, and staff. The Testing Center supports the Tennessee Board of Regents’ admission requirements by providing assessment testing for students enrolling in college. The following Assessment Placement Tests are administered:

- ACT Compass $4.00 Fee

Additionally, the Testing Center administers a variety of exams for different departments on campus. The Testing Center includes classroom make-up exams, Web and video exams, end-of-program assessments, independent study tests, and exams for students enrolled in Regents Online Degree Programs (RODP). The CLEP exam is also offered to students who are attempting to substitute lifelong learning skills or professional training for regular credit course work. The Testing Center hours are:

- Monday – Thursday: 8:00 a.m. – 7:30 p.m.
- Friday: 8:00 a.m. – 4:30 p.m.
- Saturday: 9:00 a.m. – 2:00 p.m.
The Testing Center will be closed the first Monday of each month from 2:00–3:00 p.m.

**Saturdays are reserved for Video, Web, Independent Study, and RODP testing only. No classroom make-up tests are permitted on Saturday.**

**Absolutely no children under 12 years of age are allowed in the Testing Center or Library without adult supervision. Children may not accompany students into testing area. There are absolutely no exceptions.**

The **Learning Center**

*(Phone: 615-353-3551)*

The Learning Center, located inside the Library, offers all NSCC students free, drop-in academic assistance with courses in which they are currently enrolled at the college. Services include access to computers for research, email, tutorials in course content, and software applications used in classes. In addition, tutors are available to help in many subjects, especially mathematics and writing. Free online tutoring is also available to students.

The Learning Center’s hours are as follows during fall and spring semesters:

- **Monday – Thursday**: 7:45 a.m. – 7:00 p.m.
- **Friday**: 7:45 a.m. – 4:30 p.m.
- **Saturday**: 9:00 a.m. – 12:00 p.m.

Children are **not allowed** in the Learning Center.

**Career Employment Center**

The Career Employment Center assists students, graduates, and alumni with their employment needs. Businesses use the Center to locate qualified job applicants from the college. The Center assists with part-time and full-time employment opportunities.

While the Center does not operate as an employment agency nor does it guarantee employment to those individuals utilizing the services provided, the Center provides continuous service in matching the job needs of graduates and employers. Detailed descriptions of available jobs and statistics on graduate employment/salaries are available in the Center.

Employers with job opportunities may list a position with the Center by e-mailing a job description to the address below:

Career Employment Center (Room W-77)
120 White Bridge Road • Nashville, TN 37209
615-353-3248 Phone • 615-353-3254 FAX
cec@nscc.edu (E-mail)
www.nscc.edu/cec (Web site)

**Job Placement Services for A.A.S. and Technical Degree Seeking Students**

It is extremely important that our graduates in the A.A.S. degree/technical certificate programs are hired and employed in their chosen fields of study. All graduating seniors are encouraged to register with the Center at the beginning of their final semester. Résumés may be submitted electronically in Microsoft Word format to the Center at Ejobs@nscc.edu or in person by appointment. Center personnel will review and approve all résumés submitted.

Job Placement Services are available to graduates within one year of graduation. Limited services may be available for alumni after that year.

**Cooperative Education (Co-op) Program**

Cooperative Education is a partnership between the college and the business community that enables students to work in areas related to their major fields of study, earning academic credit as well as a paycheck. Students interested in the co-op program must meet all eligibility requirements.

Co-op requirements and applications are available online at [www.nscc.edu/cec](http://www.nscc.edu/cec) or may be picked up in the Center.

The Career Employment Center will interview and screen co-op applicants. Only students who meet all eligibility requirements as well as those who exhibit sincerity, adequate skills and ability to fill a co-op position will be recommended by the Center to potential employers. All guidelines of the cooperative education program must be followed in order for students to be eligible to participate in the program.
Center for Innovation in Technological Education (CITE)

The Center for Innovation in Technological Education (CITE) in Tennessee is an agent of change and workforce development for Tennessee’s technological workforce. In order to bring about this change CITE has brought together a broad range of stakeholders from the educational, business and civic communities to develop a vision and plans for education reform and to work together to realize these plans. These stakeholders are an integral part of the change process and receive a substantial return on their investment made in the Center.

CITE enhances our technological workforce by

- Providing professional development resources and workshops for educators.
- Implementing models and strategies for high school academies and smaller learning communities.
- Promoting educational opportunities and career development for lifelong learners.
- Providing alternative formal and workplace learning opportunities for learners.

For more information, contact CITE Director David McNeel at 615-353-3070 or cite@nscc.edu

WorkForce and Community Development

Personal Enrichment

WorkForce and Community Development at Nashville State Community College offer a wide spectrum of classes for personal enrichment. Programs are open to anyone in the community. You are sure to find something captivating and educational here such as Finish Carpentry, Floral Design, Home Maintenance, a variety of cooking classes, Real Estate, and Retirement Planning.

Career Advancement

The WorkForce and Community Development Center at Nashville State Community College has been a recognized leader in the community for offering adult students continuing education to re-skill or advance the current workforce. We help advance careers by offering the most up-to-date skills training available such as MS Office Suite, CISCO boot camp, Certified Professional Secretary, A+, Network+, Certified Supply Chain Professional. The Center also offers certificate programs for supervisors, new managers, sales professionals, and the retail industry.

Business & Industry Training:

The Center provides on-site, group training in management, industrial, computer, technical, leadership and skill assessment development. Training can be tailored to meet specific needs of your industry.

For the full catalog of WorkForce and Community Development courses, see www.workforce.nscc.edu, call 615-353-3456 or 1-800-272-7363 ext. 3456.
Distance Education

Distance Learning is the acquisition of knowledge and skills through mediated information and instruction, encompassing all technologies and other forms of learning at a distance, according to the United States Distance Learning Association. The majority of the instruction occurs at a distance when instructor and student are not sharing the same space. While maintaining the quality of the on-campus offerings, distance education courses provide convenience and flexibility to students as they pursue their educational goals.

Distance Education delivery modes at Nashville State continue to expand. Currently NSCC offers Web and Web hybrid courses. These modes are suited for individuals who are unable to travel back and forth to campus on a weekly basis or whose work schedules do not fit the regular schedule of class times.

Both degree and certificate programs as well as general education courses are available through distance education. These courses are listed on the Web site, www.nscc.edu, or can be found in the latest class schedule. Students enrolled in Web-based courses are provided with an Online Web Orientation that explains the Distance Education learning process. On-ground Orientation sessions are available at the beginning of each semester.

For more information about distance education at Nashville State, please call 615-353-3401.

TBR Campus Collaborative

Tennessee Board of Regents’ (TBR) colleges and universities have joined together to offer the Regents Online Degree Program (RODP). Nashville State awards five RODP degrees: an Associate of Applied Science in Professional Studies with a concentration in Information Technology, an Associate of Arts and an Associate of Science in General Studies, an Associate of Applied Science in Early Childhood Education, an Associate of Science in General Studies for Teacher Aides and Paraprofessionals, an Associate of Applied Science in Web Technology, and a Web Page Authoring Technical Certificate. The Regents Online Continuing Education (ROCE) courses are geared toward workforce development and professional enrichment.

Visit www.tn.regentsdegrees.org/campus/nscc or contact the Office of Distance Education at 615-353-3461 for more information about the TBR Campus Collaborative.

Off-Campus Locations

Nashville State has educational sites located throughout Davidson County and the Middle Tennessee area. Each location offers courses and programs to help students meet their educational or professional development goals. In addition to offering classes at various education and business sites throughout Nashville, the college has four permanent off-site campuses featured below.

Southeast Center

Since 2005, Nashville State has had two permanent facilities in Nashville: The main campus on White Bridge Road and the Southeast Center on Foster Avenue. The Southeast Center provides residents in southeast Davidson County with a variety of higher education opportunities at a convenient location. The Center is located on the campus of the former Tennessee Preparatory School at 1162 Foster Avenue, between Thompson Lane and Murfreesboro Pike, and is easily accessed from I-440, I-40, and I-24.

The Southeast Center opened for the Fall 2005 semester with an offering of thirty courses. The response to the new location that first semester was outstanding; over 100 students took advantage of the opportunity to take college classes close to home. In the two years since, student enrollment has increased more than 50% each year. Fall 2007 saw the beginning of a cooperative program with Nashville School of the Arts to offer dual enrollment classes for local high school students. Currently courses are offered for English as a Second Language, Career Advancement and Technical Certificates, General Education courses and Degree courses during the day and in the evening. Students also have the option of taking Community Education and online courses through the Center. Because students receive the same quality education and helpful student services as on the main campus, student enrollment will continue to grow. Courses and programs offered will expand each semester to fulfill the academic goals of a dynamic and diverse student population.

For more information about the Southeast Center, contact 615-780-2760 or visit www.nscc.edu/sec.

Cookeville Campus

In the late 1980's when key business and industry leaders called for true technical training in the Upper Cumberland region, the Cookeville Area-Putnam County Chamber of Commerce responded. It was the desire of local civic and industrial leaders to create a college that would supply graduates with the skills suited for this high tech region. A partnership was formed with Nashville State Community College, and a campus was established in Cookeville.
For the first four years that Nashville State served the region, classes were held in the conference room at a Chamber location. The first courses offered were in Electrical Maintenance. As enrollment increased and the demands of Cookeville's businesses and industries grew, courses and programs were added and locations changed to keep up with space requirements. Ground was broken in 1999 for a permanent location at 1000 Neal Street. The resulting Nashville State Cookeville campus, a full service higher education facility, opened for the Fall 2002 semester.

Today there are degrees and certificate programs in 14 areas including Business Management, Computer Technology, Medical Coding, Police Science, and Social Science, along with general education courses that easily transfer to four-year colleges. Unique to the Cookeville campus is the Automated Control Systems concentration of the Electrical Engineering Technology program. These programs meet the specific demands of the region's workforce needs. The number of courses and programs will continue to evolve as the economy changes, and the needs of the employers and employees are met.

For more information about the Cookeville campus of Nashville State Community College, please call 931-520-0551 or visit www.nscc.edu/cookeville.

Humphreys County Center for Higher Education

In 1999, the Humphreys County Center for Higher Education opened to provide the citizens of Humphreys, Stewart, and Houston counties with the opportunity to receive quality higher education close to home. Over $500,000 was pledged in Waverly and Humphreys County for the new facility and a $1.5 million federal grant matched the local funds. This vibrant local-state-federal partnership has made the Humphreys County center a model for off-site campus expansion statewide. Nashville State Community College became lead institution for the 23,000 square foot facility located at 695 Holly Lane, in Waverly in 2002.

Both courses and student services at the Humphreys County Center for Higher Education match offerings at Nashville State’s main and other campuses. Students earn degrees and certificates in over 15 areas. As a response to the workforce demands of the area, the Industrial Process Control Technology program was established. Working with program partners—businesses such as Dupont, Matheson Gas Products, Erachem Comilog, Chemetall Foote Corporation, Tennessee Valley Authority, and Temple-Inland Container Corporation—a curriculum was developed to train students in the areas of Process Control, Instrumentation, and Quality.

The Humphreys County Center for Higher Education will continue to grow through the addition of courses and programs in order to serve the higher education needs of the area.

For more information about the Humphreys County Center, please call 931-296-1739 or visit www.nscc.edu/waverly.

Dickson County Higher Education Center

Nashville State has offered classes in Dickson for many years. The Fall 2007 semester marked an expanded and more permanent presence for the college in Dickson County. This expansion resulted when Dickson County civic leaders formed a higher education committee and extended the invitation to Nashville State to become the county's new higher education center. The Center’s inaugural location, at 222 McLemore Street adjacent to the county adult learning program, provides a central setting for area students to take college classes.

Nashville State is partnering with Austin Peay State University and other four-year colleges to bring a full array of courses to Dickson. As lead institution, Nashville State provides general education courses that may be applied to associate or bachelor's degrees. Programs of study include Business and Applied Arts, English and Humanities, Social Sciences, and Math & Science, as well as developmental classes to prepare students for college-level work. Students also have the option of taking Community Education and online courses through the center.

For more information about the Dickson site of Nashville State Community College, please call 615-740-5998 or visit www.nscc.edu/dickson.

Nashville State
Architectural, Civil and Construction Engineering Technology

Associate of Applied Science (A.A.S.)

Contact Information: Program Office 615-353-3475, E-mail: architecture.civil@nscc.edu

Accredited by the Technology Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, Telephone 410-347-7700

Consistent with the mission of the College, the Architectural, Civil and Construction Engineering Technology Program publishes the following broad stated educational objectives or the expected accomplishments from graduates during their first few years after graduation.

The Program Educational Objectives for Architectural, Civil and Construction Engineering Technology, Associate of Applied Science Degree are:

• Using problem solving skills learned, graduates will be able to analyze various architectural and civil/construction problems or situations in an analytical manner applying both the knowledge gained in school and on the job.

• Demonstrating knowledge of the materials and methods along with proper detailing in commercial buildings and structures.

• Communicating verbally and in writing and demonstrate ability to prepare reports and presentations.

• Understanding and applying the fundamental techniques, skills, and computer usage necessary in the industry including word processing, spreadsheets, and CAD.

• Functioning on professional teams, demonstrating leadership and showing passion for their work.

• Possessing an appreciation for diversity, a commitment to the improvement of the quality of life, and the ability and desire to pursue continuing education.

The Architectural, Civil and Construction Engineering Technology degree offers students a broad range of courses in the design and construction of residential, commercial and industrial type buildings as well as heavy construction projects such as highways, water and wastewater systems, storm drainage, general site planning, etc. The student will choose either the Architectural Concentration or the Civil and Construction Concentration.

Architectural Engineering Technology Concentration

The Architectural Engineering Technology Concentration prepares students for employment in the fields of architecture, engineering, and construction. The program prepares technicians with a broad background in many different areas of applied architecture and construction through coursework in design, presentation, estimating, specifications, construction materials and systems (electrical, mechanical, plumbing and structural) allowing for a thorough contact with the entire industry from design through completed construction.

Graduates of the Architectural Engineering Technology Concentration should be able to:

• Produce a complete set of residential or commercial architectural construction drawings complete with model using the knowledge, techniques, skills, and modern tools of professional architects while employing team and independent work methods.

• Design a light-frame construction project, using creative understanding, employing team and individual work methods, and presentation skills while meeting program requirements.

• Produce a complete materials take-off for a construction project through the understanding and application of current mathematics, science, engineering and technology.

• Demonstrate an ability to identify, analyze, interpret and communicate both in oral and written mediums in order to solve technical problems and creatively apply experimental results to improve processes, systems or components.

• Conduct themselves as members of the architectural/engineering/construction profession and as world citizens having a broad understanding of the diversity of human culture and behavior, while adhering to ethical standards and meeting contemporary professional and societal responsibilities.

• Conduct their employment in such manner as to demonstrate a commitment to quality, timeliness, and continuous improvement.

Admission Requirements

Prospective students must have a GED or a high school diploma.

Tech Prep/Articulation

Students may qualify for course credit in Engineering Technical Graphics and/or Computer-Aided Drafting if they have met all requirements of the Tech Prep Program in high school.
Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Career Opportunities
• Computer-aided drafter
• Detailer
• Estimator
• Assistant construction superintendent
• Inspector
• Construction materials sales
• Residence designer

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Civil and Construction Engineering Technology Concentration

The Civil and Construction Engineering Technology Concentration prepares students for employment in the fields of structures, surveying, materials testing, water and wastewater systems, hydrology, and environmental technology. The program prepares technicians with a broad background in many different areas of design and construction through coursework in computer-aided-drafting, construction materials, estimating, specifications, surveying, and environmental systems.

Graduates of the Civil and Construction Engineering Technology Concentration should be able to:

- Run a boundary traverse and a level line and adjust and balance both, as well as other basic surveying operations employing team and individual work methods. Have working knowledge of the modern tools of the surveying profession including AutoCAD.
- Perform various soils engineering calculations and working in groups, perform construction testing on soils and concrete. Write formal reports.
- Produce a complete materials take-off for a construction project through the understanding and application of current mathematics, science, engineering and technology.
- Demonstrate an ability to identify, analyze, interpret and communicate both in oral and written mediums in order to solve technical problems and creatively apply experimental results to improve processes, systems or components.
- Conduct themselves as members of the architectural/engineering/construction profession and as world citizens having a broad understanding of the diversity of human culture and behavior, while adhering to ethical standards and meeting contemporary professional and societal responsibilities.
- Conduct their employment in such manner as to demonstrate a commitment to quality, timeliness, and continuous improvement.

Transfer/Advising

The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Automotive Technology

Associate of Applied Science (A.A.S.)
Accredited by the National Automotive Technicians Education Foundation (NATEF) and approved by the GM Technical College.
Contact Information: Program Office 615-353-3475, E-mail: auto.tech@nscc.edu

The Automotive Technology program prepares students to work in area automotive dealerships or repair shops. There are two different groups of directed electives for the program, depending on the sponsoring dealership or repair shop:

- **Automotive Service Educational Program (ASEP)** in cooperation with General Motors;
- **Automotive Training Educational Program (ATEP)** in cooperation with other local dealerships.

This program alternates periods of formal training with periods of on-the-job experience at participating dealerships. The periods in the dealership are designed to provide practical experience as reinforcement of concepts taught during the school terms. Students must maintain sponsorship with participating dealerships during the entire training period. Nashville State assists students in obtaining dealer sponsorship.

Graduates of the program should be able to:

- Demonstrate the use of diagnostic equipment and special tools used in the service department.
- Build a working relationship with fellow technicians.
- Establish and maintain a training path committed to lifelong learning.
- Be familiar with the dealership operation and procedures in the service department.

Admission Requirements
Prospective students must be at least 18, have a valid driver's license, a good driving record, pass an interview process and background check for dealership sponsor. Due to the schedule of work at the dealerships, the schedule for this program may be different than that of the college.

General Motors Automotive Service Educational Program (GM ASEP)
GM ASEP prepares students for employment in the field of automotive service and repair in GM dealerships. The program includes theoretical and practical components preparing the student in the development of diagnostic skills needed to repair today's automobile. The student must be able to pass a hands-on testing procedure required by GM.

Automotive Training Educational Program (ATEP)

ATEP prepares students for employment in the field of automotive service and repair in a variety of dealerships or repair shops. The program includes theoretical and practical components preparing the student in the development of diagnostic skills needed to repair today's automobile. The student must be able to pass testing procedures as required by sponsoring dealerships or repair shops.

Biotechnology
Associate of Applied Science (A.A.S.)
Contact Information: Program Office 615-353-3297, E-mail: biotech@nscc.edu

The broadest definition of biotechnology is the use of organisms or their products to solve a human problem. This organism can be as simple as the bacteria and fungi that produce antibiotics or as complex as a transgenic plant or animal. Some of the specialty areas of biotechnology involve agriculture, bioremediation, drug discovery and production, forensic analysis, and genetic testing. The courses in this program will give students an intensive hands-on experience with many of the techniques that are critical to biotechnology. In addition, the basic science and general education classes will help to prepare students who decide to continue their training by transferring to a four-year institution.

A graduate of this program will be prepared to be a biological technician. Potential career paths could include work as a laboratory technician in an industry, government, or university laboratory engaged in basic research and development; a testing lab technician responsible for Quality Assurance/Quality Control monitoring; or a production technician involved in pharmaceutical manufacturing processes.

Note: The primary purpose of this degree is to prepare students for employment immediately following graduation from Nashville State. However, some students may wish to continue in a baccalaureate program either immediately or in the future. If you plan to transfer to a four-year program after leaving Nashville State, consult the program coordinator for a specialized program of study. Failure to do so could result in a loss of credits in the transfer process.

Biotechnology
Business Management: Financial Services, Marketing, and Small Business Administration

Associate of Applied Science (A.A.S.)
Contact Information: Program Office 615-353-3400, Email: business@nscc.edu
Accredited by the Association of Collegiate Business Schools and Programs (ACBSP)
7007 College Blvd., Suite 420, Overland Park, Kansas 66211.

The primary purpose of this degree is to prepare students for employment immediately following graduation from Nashville State.

Program Mission: The mission of the Business Management program is to provide practical learning opportunities that prepare students to:

- Excel in the business community.
- Effectively adapt to and manage technological change.
- Develop ethical business practices and a sense of personal responsibility.
- Work independently and as part of a team.
- Communicate effectively with written and oral messages.
- Think critically.
- Be creative with business solutions.

The Business Management program prepares students entering the business field with the managerial and technical skills necessary to perform in entry-level management positions in small and large companies.

The Financial Services Concentration provides the student with firm foundations in accounting principles, the U.S. monetary system, and the credit granting process.

The Marketing Concentration directs the student toward understanding the performance of business activities that direct the flow of goods and services from the producer to the consumer or user.

The Small Business Administration Concentration provides knowledge and skills sufficient to allow a person to be employed in a wide variety of service, merchandising, and manufacturing organizations. This program will be helpful to those individuals who wish to own and operate a business.

Graduates of the Business Management program should be able to:

- Communicate effectively in written form and orally.
- Seek employment in retail, wholesale, manufacturing, and service industry organizations.

**Career Opportunities**
Financial Services Concentration
- teller
- broker assistant
- credit investigator
- operations supervisor
- loan and financial processor
Marketing Concentration
- sales manager trainee
- marketing manager trainee
- customer service representative
- marketing associate
- retail sales associate
Small Business Administration Concentration
- product manager
- management trainee
- store/office manager
- director of sales and marketing
- customer service representative

**Transfer/Advising**
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Computer Accounting
Associate of Applied Science (A.A.S)
Contact Information: Program Office 615-353-3400, Email: computer.accounting@nscc.edu
Accredited by Association of Collegiate Business Schools and Programs (ACBSP)
7007 College Blvd., Suite 420, Overland Park, Kansas 66211.

The mission of the Computer Accounting program is to provide quality education in computerized accounting that will enable students to succeed in a career now and in the future.

The Computer Accounting program prepares students for various entry-level positions within the accounting system of a company. The program includes courses that provide the student with a broad core of accounting skills as well as a significant working knowledge of business application software.

Graduates of the program should possess a(n):

- Awareness of personal and social values.
- Capacity for inquiry, abstract logical thinking, inductive and deductive reasoning, and critical analysis.
- Ability to identify ethical issues and apply a value-based reasoning system to ethical questions.
- Ability to interact with culturally and intellectually diverse people, individually and in groups, and to withstand and resolve conflict.
- Ability to present, discuss, and defend views effectively through formal and informal, written and spoken language, and to listen effectively.
- Knowledge of accounting, auditing, and tax.
- Ability to prepare and know purpose and elements of financial statements.
- Ability to gather, summarize, report, and analyze financial data.
- Knowledge of concepts, methods, and processes of control that provide for the accuracy and integrity of financial data and safeguarding of assets.
- Knowledge of the role of accounting information systems.
- Knowledge of local, state, and federal tax laws and reporting.
- Ability to apply knowledge to solve real-world problems.
- Knowledge of business and accounting application software used to solve a wide range of business problems.

Career Opportunities
- Staff Accountant, Assistant Accountant, or Full-Charge Bookkeeper
- Payroll Accountant
- Accounts Receivable Clerk or Accounts Payable Clerk
- Tax Preparer
- Financial Analyst

Grading Policy
A grade of “C” or above must be earned in prerequisite courses to meet requirements for enrollment in subsequent courses. A grade of “C” or above in all Computer Accounting curriculum courses must be earned prior to graduation.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Note: Courses should be taken in the sequence indicated in order to ensure graduation on schedule.

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Computer Information Systems
Associate of Applied Science (A.A.S.)
Contact Information: Program Office 615-353-3771, E-mail: Information.Systems@nscc.edu

The Computer Information Systems program prepares students for employment in the Information Technology field. The four concentrations in the CIS program have been developed to map the curriculum to the skill standards that are being used in industry today. The skill standards that the four concentrations are using came from a nationally accredited study on the skill standards for Information Technology. Using these skill standards will ensure that graduates have the basic skills that employers need.

Within a framework that emphasizes the development of teamwork, communication, and critical thinking, graduates of the program will be able to:

- Identify and understand the supporting roles of Information Technology (IT) in organizations.
- Design a plan of academic achievement leading to the completion of the coursework involved in one of the following core concentrations:
  a. Web Developer
  b. Programmer
  c. Database Developer
  d. Systems Analyst
- Articulate an understanding of the synergy that exists among the concentrations.
- Communicate effectively with stakeholders/management and end-users regarding problem requirements, resources, and solutions.
- Demonstrate the ability to analyze, develop and implement various IT processes and applications

Grading Policy
A student majoring in CIS must receive a “C” or above in each course in order to meet prerequisite requirements for subsequent courses.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Web Developer Concentration
This program is designed to introduce the student to the variety of skills necessary to create dynamic Web content and transaction-based Web systems. In the initial courses, the student is introduced to HyperText Markup Language (HTML), Cascading Style Sheets for formatting of Web sites, use of HTML editing and Web site development tools, and the concepts of Web site hosting and domain name registration. The student then progresses to more advanced development courses, covering Web scripting on the Client and on the Server, and developing Web systems that interact with databases. Some of the courses in this program help students prepare for the CIW industry certification exams.

Programmer Concentration
This concentration is designed to prepare entry-level computer programmers for employment in the area of business software application development. Graduates of the concentration will have designed, written, tested, and debugged programs in several major programming languages in both individual and team-oriented settings. Both theoretical and practical components are covered throughout the concentration. The concentration will also provide a means for current programmers to upgrade their programming skills by learning new languages.

Database Developer Concentration
The database concentration prepares the student for an entry-level position in database development and programming. As relational databases become a critical enterprise resource there is a growing need to be able to store, manage and extract data effectively. A student completing this concentration would have the necessary skills to analyze, design, develop and implement a relational database management system (RDMS). Some of the courses in this program will help the students prepare for the Oracle industry certification exams.

Systems Analyst Concentration
The Systems Analyst concentration prepares students to solve computer problems and apply computer technology to meet the needs of their organizations. Today’s environment demands that our graduates be able to function with a variety of stakeholders and end-users. The concentration includes diverse disciplines to enhance the communication, research, business, and technology skills of the student.

Note
- “CIS Elective” means that the student may take any course with a CIS prefix listed in this program except for CIS 1000.
- “CIS Programming Elective” means that the student may take any course listed in the Programmer concentration.

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Computer Networking Technology
Associate of Applied Science (A.A.S.)
Contact Information: Program Office 615-353-3771, E-mail network.tech@nscc.edu

Computer Networking Technology prepares students for employment in the Information Technology field in the area of network infrastructure. The program includes theoretical and practical components, preparing entry-level networking technicians to design, install, monitor, maintain, and enhance network infrastructure. Graduates of the program will be able to design and implement an infrastructure consisting of various networking devices and components such as clients, servers, routers, switches, hubs, and cabling systems.

Graduates of this program will be capable of working in entry-level positions of user support, server monitoring, directory services basic administration, network media installation and testing, basic router configuration, subnetting, and network communications protocols.

In addition to technical proficiency, graduates of this program will be knowledgeable in effective communications — both written and verbal. Graduates will be experienced in working in teams and being self-motivated in problem solving scenarios.

Computer Networking Technology graduates should be able to:

- Function competently in entry-level network technician positions.
- Proficiently use various operating system environments including DOS, Windows, Novell, and UNIX/Linux.
- Perform initial installation and setup of various network servers, such as, Novell, Linux, and Windows.
- Perform initial configuration of microcomputers including the installations of workstation software necessary to communicate with network servers.
- Select, install, terminate, and test appropriate network media, including twisted pair, coaxial cable, and fiber. Perform basic configuration of wireless networking components.
- Troubleshoot and analyze network hardware, software, and communications problems.
- Install and implement network monitoring and management tools.
- Communicate successfully in a variety of situations using written and oral communication skills.
- Use concepts taught in the General Education courses that are reinforced in the Computer Networking Technology curriculum.
- Apply critical thinking skills in providing solutions to network infrastructure problems.
- Work effectively as individuals and in a team environment.

After completing the minimum course requirements, graduates are prepared to take the exams for several industry certifications, including A+, Net+, Security+, Novell CNA, and Microsoft MCP. In addition, a rich selection of electives allows students to increase the breadth and depth of their understanding and prepares them for advanced certifications such as Cisco CCNA and CCNP, Novell CNE, Microsoft MCSA and MCSE, and BICSI Installer, Level I.

Career Opportunities
Typical positions available to graduates of this program (based upon DOL classifications) are:

- LAN administrator
- Network administrator
- Microcomputer support specialist
- Network technician
- Data communications technician

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
The goal of the Computer Technology (CPT) program is to prepare individuals to function as entry-level computer technicians. Students become proficient in operating systems, installation and maintenance of a variety of computers, and various hardware and networking components. This degree’s objectives parallel and exceed numerous industry-level certifications.

The program emphasizes hardware, software, peripheral devices, telecommunications, operating systems, troubleshooting, PC architecture, and digital interfacing and design. Individual and team-based projects enhance the learning experience and give students vital hands-on job skills. Some of the courses in this program will help the students prepare for the A+ industry certification exam.

Computer Technology program graduates should be able to:

- Install and configure workstation systems and application software.
- Troubleshoot, analyze and repair hardware and software issues.
- Select & install appropriate hardware and software.
- Perform routine upgrade, repair and preventive maintenance on computer system hardware and software.
- Use various operating environments including Windows command line and GUI, and UNIX/Linux.
- Establish and maintain a user support/helpdesk environment.
- Communicate technical and non-technical information clearly in both written and oral format.
- Integrate concepts taught in general education courses and reinforced in the Computer Technology curriculum.
- Function competently in entry-level computer technician positions using critical thinking skills to solve systems challenges.

**Career Opportunities**

- Service technician - configures hardware, software and installs, upgrades and maintains computers and related peripheral equipment
- User support/helpdesk - manages customer problems and requests and provides solutions-oriented support services by telephone, e-mail and/or in person
- Technical sales - analyzes client needs and provides support in choosing the correct information systems solutions for business or personal use
- Engineering aide - works with engineers in the design and development of computer controlled equipment and devices

Second-year students are encouraged to apply for related work assignments through the Career Employment Center. Many co-op opportunities provide relevant work experience and are strongly recommended.

**Transfer/Advising**

The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Culinary Arts
Associate of Applied Science (A.A.S.)
Contact Information: Program Office: 615-353-3783 or 615-353-3419, Email: culinary.arts@nscc.edu
Accredited by the Accrediting Commission of the American Culinary Federation Foundation.

The mission of the Culinary Arts program at Nashville State Community College is to:

- Be Middle Tennessee’s foremost provider of formally trained culinarians.
- Prepare individuals for an immediate positive contribution within the hospitality industry by providing a fundamentally sound, progressive, relevant, and enriched culinary education.

Culinary Arts education prepares students for careers as chefs and culinary professionals in a variety of hospitality businesses. The program includes a core of culinary arts courses which develop cooking skills and provide instruction in purchasing, cost control, sanitation, nutrition, and supervision. In addition, students receive a well-rounded academic experience including business, computer, and liberal arts courses preparing students for a successful career as culinary professionals.

Graduates of the program will be able to demonstrate:

- The ability to think creatively and work effectively in team environments within a kitchen production facility.
- Competency in food production cooking methods including hot and cold foods, baking and pastry, international dishes and contemporary American cuisine.
- A working knowledge of culinary theory and terms, and the ability to operate within a kitchen production facility.
- Knowledge of nutrition principles, menu writing, cost and inventory control, and safety and sanitation principles.

Career Opportunities
- Chef
- Pastry Chef
- Sous-Chef
- Line Cook
- Pastry Cook
- Kitchen Manager
- Assistant Kitchen Manager
- Catering Production and Operations
- Food Sales and Marketing

Related Information
NSCC Culinary Arts program offers courses in Sanitation, Nutrition, and Supervisory Management which meet the American Culinary Federation education requirements for certification in these areas.

Grading Policy
A grade of “C” or above must be earned in all culinary arts courses prior to graduation.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Internship Requirements
Students must complete two 300-hour paid work internships in an approved culinary arts production kitchen prior to completing the requirements for an A.A.S. degree in Culinary Arts.

Early Childhood Education
Associate of Applied Science (A.A.S.)
Contact Information: Program Office 615-353-3020, E-mail: early.childhood@nscc.edu

Early Childhood Education prepares the student for employment in the field of child care and early education. The program includes theoretical and practical components, preparing early education professionals to work effectively with infants, toddlers, preschoolers, and primary age children birth to age nine.

Graduates of the program should be able to:
• Promote child development and learning of young children.
• Build family and community relationships.
• Observe, document, and assess to support young children and families.
• Design, implement, and evaluate experiences that promote positive development and learning for all children.
• Identify and conduct themselves as members of the early childhood profession.

Admission Requirements
Meet regular degree-seeking admission requirements for A.A.S.

Career Opportunities
• Teacher
• Assistant Teacher
• Caregiver
• Administrator

Students may be employed in child care centers, family child care homes, Head Start programs, before and after school programs, pre-k programs, and preschools.

Clinical Practicum Courses I, II, and III
Students who wish to register for any of the three clinical practicum courses (ECED 2130, 2140, or 2150) should contact an advisor for information about clinical requirements prior to enrolling. Before registering for the practicum courses, a student must have:
• Attained a grade of “C” or higher in all ECED courses taken.
• Met all prerequisite requirements.

Grading Policy
A grade of “C” or above must be earned in all early childhood courses prior to graduation. The student majoring in ECED must receive a “C” or above in each course in order to meet prerequisite requirements for subsequent courses.

Background Check for Employment
Students who wish to become employed in child care programs licensed by Department of Human Services, State of Tennessee must undergo a criminal history and abuse registry background check. Tennessee law requires a satisfactory background check prior to employment. This is initiated by the employer.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

### Part-time Schedule:

Many students may wish to enroll in the ECED program on a part-time basis. Students are encouraged to enroll in at least two semester courses each semester (including summer) in order to complete the degree in approximately four years. Courses are offered days, evenings, Saturdays and on-line. A student should be able to complete most requirements for the degree in the evening/weekend program.
Electrical Engineering Technology
Associate of Applied Science (A.A.S.)
Contact Information: Program Office 615-353-3475, E-mail: electric.tech@nscc.edu
Accredited by the Technology Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, Telephone 410-347-7700

The Electrical Engineering Technology program is a comprehensive program with various options. This program offers three concentrations: Electrical Engineering Technology, Electronic Engineering Technology, and Automated Control Systems (offered only at the Cookeville campus and not accredited by the Technology Accreditation Commission of ABET.) See information below for specifics for each option.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Electrical Engineering Technology Concentration
Associate of Applied Science (A.A.S.)
The Electrical Engineering Technology concentration emphasizes both theory and practical applications in applied electrical engineering technology. Graduates have a diversified understanding of modern methods and insight in comprehending new and future developments. Applied mathematics, physics, and liberal arts courses support comprehensive electrical technology studies. Laboratory experiments coordinate with classroom theory to provide practical hands-on learning. Students analyze industrial, commercial, and utility electrical power systems and study electrical and automated control systems with application to processing and manufacturing industries.

Graduates are typically employed as electrical engineering technicians - working with engineering teams; planning, specifying, purchasing, installing, testing, operating, and maintaining electrical systems, equipment, and controls in such important activities as: industrial plant engineering; manufacturing methods and quality assurance; automatic control of complex industrial processes; electrical facilities in building construction; operation and maintenance of electrical and associated equipment; electrical design and specifications and drawing development in professional consulting engineering activities; and electrical power company systems and equipment.

Electronic Engineering Technology Concentration

Associate of Applied Science (A.A.S.)

The Electronic Engineering Technology concentration prepares graduates for various types of occupations involving electronics. The program is broad, rigorous, and comprehensive enough to ensure appropriate competencies in mathematics, physics, communication skills, and electronics. It also provides enough technical electives to allow students to tailor, to some degree, the training toward their future or present employment. Typical areas of emphasis are communications, electronic repair, manufacturing, and field service repair. The student receives extensive hands-on experience in all the electronic courses using equipment now available on the job.

Typical jobs for graduates of this program are: customer service technician - installs and maintains various types of electronic equipment with service occasionally provided at the customer site; electronic engineering aide - assists engineers in the design, development, and testing of electronic equipment; industrial maintenance technician - works as an electronic repair technician in large industrial sites; and communications technician - installs and maintains various types of telecommunications, broadcasting, cable television equipment, or other data transmission systems.

## Automated Control Systems Concentration

**Associates of Applied Science (A.A.S.)**

*Some Technical Courses are offered only on the Cookeville Campus.*

Program Information: Cookeville Campus, 931-520-0551 x 110, E-mail: automation@nscc.edu

**Note:** This concentration has not been accredited by TAC/ABET.

The Automated Control systems concentration of the Electrical Engineering Technology degree prepares students for a career in the field of industrial automation. The program includes instruction in the theory and application of automatic control systems as well as numerous hands-on laboratory experiences using off-the-shelf automation equipment as seen in a typical industrial application. Students will gain an in-depth understanding of programmable control systems such as programmable logic controllers (PLC), programmable motion controllers, process controllers, transducers, and human machine interface (HMI) systems.

Graduates of the program should be able to:

- Create original and modify existing programs for PLCs and other programmable control devices.
- Create functional and usable HMIs on Panelview systems.
- Integrate various off-the-shelf automation products to produce a single complete automated manufacturing system.
- Use software application programs such as CAD/CAM, word processors, and spreadsheet to produce technical documents such as operations manuals, electrical schematics, and technical reports.

## Career Opportunities

- Control systems technician
- Industrial maintenance technician
- Process control technician
- Instrumentation technician

Co-operative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
General Technology  
Associate of Applied Science (A.A.S.)  
Contact Information: Program Office 615-353-3412, E-mail: Gen.Tech@nscc.edu

The General Technology curriculum allows students flexibility to design a technical specialization of their choice in a broad range of technologies to enhance their employment potential. Through the General Technology curriculum, students may tailor their educational program to meet their own needs or the needs of present or potential employers. Immediately upon election of this degree, students develop an individualized Program of Study with the assistance of the General Technology coordinator.

Students who declare this major may prepare themselves for employment in many diverse occupations. The Business and Technology concentrations allow a focus adaptable to occupational areas related to business, health care, information technology, and engineering technologies.

All college-level courses required for technical certificates and career advancement certificates from NSCC are applicable to the degree in General Technology. Specific certificates that feed to this A.A.S. degree include Computer-Aided Drafting, Horticulture, Industrial Electrical Maintenance, Music Technology, and Surgical Technology.

Students with a diploma from the Tennessee Technology Center receive 30 hours credit toward the General Technology degree.

After careful evaluation, students may receive credit for approved training programs as well as for applicable work experience.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Industrial Process Control Technology

Associate of Applied Science (A.A.S)

Contact Information: Program Office 931-296-1739, Waverly Campus. Email: joey.leonard@nscc.edu

The Industrial Process Control Technology program is designed to provide skills for those who are interested in a career as a process control technician. The program trains students to work as a key member of a team of people responsible for planning, analyzing and controlling the production of products – from acquisition of raw materials through the production and distribution of products to customers in a variety of industries. These industries include, but are not limited to, chemical, food and beverage, pharmaceutical, power generation, pulp and paper, refining, and waste water treatment.

Process Technician jobs for well-trained individuals in Tennessee include opportunities in the middle Tennessee area with some of our program partners — businesses such as DuPont, Matheson Tri-Gas, Erachem Comilog, Chemetall Foote Corporation, Tennessee Valley Authority, and Inland Container Corporation.

Industrial Process Control Technology graduates should be able to:

- Feed raw material and processing agents into plant machinery.
- Prepare and measure raw material.
- Set controls and operate machinery.
- Check instruments and equipment to make sure of correct operation, and be aware of any abnormal operating conditions.
- Take samples for testing, test products and record process data.
- Repair and Calibrate field instrumentation.
- Have an understanding of DCS systems.
- Possess the ability to program Primary Logic Controllers.
- Possess a knowledge of primary plant equipment from conceptual understanding to basic operations.
- Perform common lab functions as found in industry.
- Obtain valuable troubleshooting skills needed in the process control arena.

Industrial Process Control Technology
Occupational Therapy Assistant
Associate of Applied Science (A.A.S.)
Contact Information: Donna Whitehouse, MHA, OTR/L 615-353-3708, Office: W-51,
E-mail: donna.whitehouse@nscc.edu Program Web site: www.nscc.edu/depart/ot/index.html

The Occupational Therapy Assistant Program prepares students for a career in Occupational Therapy. The program includes academic and fieldwork training over a two-year course of study. This program trains students to work with persons of varied ages, cultures, and abilities to enable participation in life activities.

Graduates of the program will:

- Work under the supervision of a Registered Occupational therapist to implement intervention plans for persons of varied ages, cultures and abilities, enabling participation in life activities.
- Interact with health care providers and OT clients in a professional and meaningful manner.
- Be eligible for certification through the National Board of Certification for Occupational Therapy.

Applications for the Occupational Therapy Assistant program are accepted in the spring semester for the program beginning the next fall.

Students are encouraged to complete all General Education courses prior to beginning the Occupational Therapy Assistant program.

Admission Requirements:
Prospective students may contact the Occupational Therapy Assistant program at 615-353-3708 for an application packet and course information. Currently, students are accepted into the program Fall semester of each year.

Note: Prospective students will be required to provide a copy of a background check. NSCC does not use the background check as criteria for admission to the program. Background checks are required by some clinical sites as a condition of participation. Students are required to participate in a variety of clinical experiences to successfully complete the program. If a student has questions regarding the background check, please call 615-353-3708.

Office Administration: Business Office Professional and Medical Office Professional

Associate of Applied Science Degree (A.A.S.)
Contact Information: Program Office 615-353-3400, Email: office.admin@nscc.edu
Accredited by the Association of Collegiate Business Schools and Programs (ACBSP), 7007 College Blvd., Suite 420, Overland Park, Kansas 66211

The mission of the Office Administration program at Nashville State Community College is to better the community by equipping students with the office and management skills necessary to become productive and responsible leaders in today's workplace.

The Office Administration program provides skills for students seeking a career as an administrative assistant in an office environment. Two distinct tracks allow future professionals to focus career preparation toward the business office environment or the medical office environment.

Graduates of this program should be able to:

- Perform office tasks using the leading office application software.
- Apply time management skills effectively by managing multiple projects and priorities.
- Play a vital role in a successful management team as an administrative assistant.
- Succeed in various positions in today's multi-demanding and rapidly changing medical environment.
- Efficiently prepare business documents according to commonly accepted grammar and format standards.
- Effectively integrate information from multiple sources that allows for appropriate decision-making.
- Demonstrate critical thinking and problem-solving skills.
- Exhibit responsible behavior and demonstrate an understanding of the principles of ethical behavior.

Career Opportunities

Business Office Professional Concentration
- Receptionist
- Office Manager
- Administrative Assistant

Medical Office Professional Concentration
- Transcriptionist
- Coding Specialist
- Reimbursement Insurance Specialist
- Administrative Assistant
- Receptionist
- Office Manager

Business Office Professional Concentration

Students may receive credit for the Certified Professional Secretary exam. After an individual has completed 15 credit hours in the Office Administration program, certain credits are available based on verification of successful completion of the Certified Professional Secretary exam. Information and course equivalencies for the Certified Professional Secretary Exam can be found on pages xx-xx of this catalog. For more information on this exam, please visit the International Association of Administrative Professionals (IAAP) Website.

Medical Office Professional Concentration

Many students pursue advanced credentials as Certified Coding Associates, Certified Coding Specialists, Certified Professional Coders, and Certified Medical Transcriptionists. These exams are offered by the American Association for Medical Transcription, American Health Information Management Association, and American Academy of Professional Coders. It is recommended that students have at least a 3.0 grade point average before attempting these specialized exams.

The Medical Office Professional concentration has an additional Coding track that students can choose. Students can choose the track they would like to pursue based upon their career choice within the Medical Office Professional concentration. A grade of "C" or above must be earned in the following courses: BIOL 1000, BIOL 1004, OAD 2600, OAD 2610, OAD 2630, OAD 2635, OAD 2645, OAD 2650, and OAD 2660.

For students with keyboarding skills, an examination to receive credit can be taken. Credit will be given for OAD 1100 Keyboarding/Formatting to students who pass a timed test and have satisfactory work experience.

To be eligible for Credit by Examination in Office Administration, a student:

- Must be currently enrolled in classes at NSCC.
- Must meet any prerequisite requirement established for the course for which the exam is requested.
- Must apply for and complete the examination within the period beginning the first day of early registration and ending seven calendar days from the first day of class of the current term; exams will be given by appointment.
Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Note: Courses should be taken in the sequence indicated in order to ensure graduation on schedule.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Police Science
Associate of Applied Science (A.A.S.)
Contact Information: Michael Wright 615-353-3717, Office: M-2B, E-mail: michael.wright@nscc.edu

The Police Science program prepares individuals for careers in police administration. Graduates of the degree program will have the skills and knowledge to seek employment in the criminal justice field, including law enforcement, private security, and crime scene investigation. The program provides the education and training needed for entry-level personnel and advancement opportunities for those presently employed in the criminal justice field. The Police Science program offers concentrations in Police Administration and Crime Scene Investigation.

Graduates of the program should be able to:

- Function completely as entry-level law enforcement personnel.
- Apply critical thinking skills in solving community problems, generating community-oriented solutions.
- Conduct criminal investigations and apply criminal law and procedures.
- Demonstrate a knowledge of officer survival, defensive tactics and proper use of firearms.

Career Opportunities
- Police Officer
- Sheriff’s Deputy
- Highway Patrolman
- Private Investigator
- Crime Scene Technician
- Private Security Officer

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

## Nashville State
Police Science Academy
Provided by the Law Enforcement Department

This 10-week certificate program fulfills all the training goals of a certified law enforcement academy. Students receive over 400 hours of intense police training. All instruction is provided by current police instructors or experts in the police field. Individuals with ambitions to become a Law Enforcement Officer or anyone currently serving in a security capacity will benefit from the hands-on training.

Successful completion of this program will earn the student 23 semester hours, 21 of which can be applied toward an A.A.S. degree in Police Science. All courses are corequisite. Candidates for the Academy are advised to prepare themselves physically prior to beginning classes. Certain physical standards must be met in order to graduate. A medical evaluation is mandatory prior to entering the program. All instructional and classroom materials are provided. Expenses will include tuition, a mandated uniform, a firearm plus ammunition, and physical training attire.

Sign Language Interpreting
Associate of Applied Science (A.A.S.)
Contact Information: Forest Sponseller 615-353-3033, Office: W-50D, E-mail: forest.sponseller@nscc.edu
Program Web site: www.nscc.edu/ depart/asl/index.html

American Sign Language interpreting is a complex process in which the primary goal is to provide equal access of information for Deaf, Hard of Hearing, and Non-deaf individuals. Sign language interpreters must be fluent in American Sign Language, English, and English-based signed systems. In addition, interpreters must possess a complete understanding of Deaf Culture, social and psychological dynamics, ethical considerations and effective cross-cultural interpretations in a variety of settings.

Graduates of the program should be able to:

- Demonstrate competencies in American Sign Language and English interpretations and transliterations.
- Understand the Registry of Interpreter for the Deaf Code of Ethics, theories, principles and business practices related to the field of interpreting.
- Display proficiency in the written and practical testing process for certification.
- Seek employment in entry-level positions within the field.

Career Opportunities
Sign Language Interpreting is a rapidly expanding field in which qualified interpreters can work in a variety of settings: education, business, community, medical, social services, mental, health, legal, performing arts, and video relay interpreting.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Social Services
Associate of Applied Science (A.A.S.)
Contact Information: Sheri Lozier-Bentley 615-353-3350, Office: K-129, E-mail: sheri.lozier-bentley@nscc.edu

Social Services prepares students to work with human service agencies that serve children and youth, the elderly and disabled, the homeless, families in need, and individuals in crisis situations. The program includes theoretical and practical components that will enable graduates to work in many areas of public and private social welfare agencies.

Graduates of the program should be able to:

• Understand the values of perspectives of Social Work as outlined in the NASW Code of Ethics.
• Recognize and understand the importance of community resources and be able to make appropriate referrals, including follow-up procedures.
• Identify the knowledge, values and skills of a generalist social work practice that are useful in a broad range of social work interventions.
• Demonstrate the problem-solving process with diverse populations and populations at risk.

Admission Requirements
Prospective students must meet regular degree-seeking admission requirements for the A.A.S. degree.

Field Practicum: Students who wish to register for the SOCS Field Practicum must contact their advisor for permission to enroll in the course. Before registering in the Field Practicum, students must have completed 30 hours of Major Core Courses.

Grading Policy
A grade of “C” or above must be earned in all Social Services courses prior to graduation.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.

Part-time Schedule: Many students may wish to enroll in the Social Services program on a part-time basis. Students are encouraged to enroll in at least two semester courses each semester (including summer) in order to complete the degree in approximately four years.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Visual Communications: Graphic Design, Multimedia Design, Photography, Web Design
Associate of Applied Science Degree (A.A.S.)
Contact Information: Program Office 615-353-3390, E-mail: vis.com@nscc.edu

Mission Statement
The Visual Communications program provides a strong technical foundation to prepare students for visual media careers.

The Visual Communications program fosters a creative learning environment where students have access to state of the art equipment, current software, instruction, and strong technical foundations in a variety of visual media fields. They are challenged to expand and refine problem-solving skills while experiencing realistic class projects and job situations in preparation for success in the workforce.

Students learn design principles, current imaging technology, business practices, and portfolio development. The specific concentrations prepare students for careers in photography, print, web, or multimedia industries.

Graduates of the program should be able to:
• Demonstrate academic knowledge required of all Nashville State Community College students including competency in writing, information literacy, verbal and visual communications, and quantitative and critical thinking.
• Identify career options and assume a professional role in the workplace.
• Exercise professional and ethical standards in the workplace and community.
• Communicate effectively with clients, vendors, management, and team members.
• Demonstrate technical proficiency of hardware and software applications related to discipline.
• Exhibit creative and conceptual visual skills and craft through creative problem solving.
• Demonstrate time management skills by meeting deadlines.
• Identify current issues and trends and emerging technologies.
• Assess and develop one’s own strengths, abilities and potential.
• Compile a portfolio of finished work that is displayed in a professional manner.

Notice of Right to Retain Student Work
The Visual Communications program reserves the right to retain copies of selected examples of student work for teaching purposes, promotional purposes, and as a part of its permanent collection.

Special Requirements
Our courses are designed with the expectation that entering students possess fundamental computer skills, including the ability to:
• Save files to specific destinations.
• Navigate drive directories.
• Write to a hard drive, CD, or flash drive.
• Type effectively.
• Edit text in a word processing program.
• Send email with attachments.

Notice of Right to Retain Student Work
The Visual Communications program reserves the right to retain copies of selected examples of student work for teaching purposes, promotional purposes, and as a part of its permanent collection.

Students without typing skills are encouraged to complete OAD 1100 Keyboarding/Formatting and those lacking the computer skills listed above should enroll in COM 1210 Electronic Media I prior to taking other computer courses.

Grading Policy
A grade of “C” or above must be earned in all courses to meet prerequisite and graduation requirements.

Transfer/Advising
The A.A.S. degree is designed to prepare a student for employment upon graduation. Some universities, at their discretion, accept some technical courses for transfer. A student who plans to transfer to a university should consult his/her advisor and the receiving university about transfer and articulation policies. Failure to do so could result in loss of transfer credits.
Graphic Design Concentration
The Graphic Design Concentration includes theory of traditional design in the evolving computer environment for illustration, image manipulation, and electronic publishing.

Graduates of the program should be able to:

• Demonstrate knowledge of typography and design.
• Apply principles of color and value relationships.
• Convey an intended message through visual means.
• Demonstrate working knowledge of industry standard software.

Career Opportunities
• Production Artist
• Entry-level Graphic Designer
• Printing Customer Service Representative

Note: Part-time students are encouraged to consult with their advisor for a suggested schedule of classes.

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.

### Multimedia Design Concentration
The Multimedia concentration in the Visual Communications degree program prepares students for employment in the field of multimedia development. The program includes fundamental principles of design, desktop audio and video editing, pre- and post-production, and Web authoring.

Graduates of the program should be able to:

• Effectively communicate design requirements.
• Use critical thinking to develop a coherent design approach.
• Integrate audio, visual, and programmatic components into a finished presentation.
• Output the finished presentations to a variety of file formats.

**Career Opportunities**
• Multimedia Designer/Developer
• Interactive Content Specialist
• Media Specialist

Photography Concentration
The Photography Concentration includes traditional and digital components, preparing photographers to work effectively in darkroom, studio and digital environments.

Graduates of the program should be able to:
- Convey an intended message photographically.
- Efficiently operate a 35mm SLR, digital SLR, and large format camera.
- Work comfortably with digital imaging computer programs.
- Function competently in a photography lab.
- Efficiently operate professional studio lighting equipment.
- Approach photographic problem-solving in a creative manner.
- Produce and present a professional quality portfolio.

Career Opportunities
- Photographer
- Photographer’s Assistant
- Lab Technician

### Web Design Concentration

The Web Design Concentration prepares students for employment in the field of Web design. The program includes fundamental principles of design, production techniques for Web graphics and Web page content, and strategies for effective site development using W3C standards. Elective courses allow students to specialize in advanced Web design topics.

Graduates of the program should be able to:
- Think critically to plan the structure, usability, accessibility, and navigation of a Web site.
- Create and employ Web graphics.
- Create Web pages using HTML, CSS, and industry-standard Web authoring software.
- Determine the usability of Web site prototypes through hands-on testing.

Career Opportunities
- Web Designer
- Web Developer
- Web Graphics Artist
- Web Production Specialist

TECHNICAL CERTIFICATES
Computer-Aided Drafting is used in all technical fields with good pay and a high demand for those individuals with this skill. Nashville State offers a one-year Technical Certificate program in Computer-Aided Drafting, using AutoCAD software.

**Career Objective**
The Computer-Aided Drafting Technical Certificate is for students who want a technical career but who also want to enter the job market quickly. Students choose the field in which they want to work — Architectural, Civil & Construction Engineering Technology, Electrical & Electronic Engineering Technology, or Horticulture/Landscaping. Then students take the courses listed below, including two courses related to the chosen field. Very quickly students will be ready for Nashville State’s Career Employment Center to help them find jobs in their chosen field. There may even be part-time jobs available after students’ first semester, allowing them to enter the workforce even faster.

Most classes are available either day or evening, and students can choose to attend school, either full or part time. All of the courses in this certificate program apply toward Nashville State’s A.A.S. degrees in General Technology, and are transferable to many other colleges.

**Transfer/Advising**
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Culinary Arts
Technical Certificate
Contact Information: Program Office 615-353-3783 or 615-353-3419, Email: culinary.arts@nscc.edu

Culinary Arts education prepares students for careers as chefs and culinary professionals in a variety of hospitality businesses. The program includes a core of culinary arts courses which develop cooking skills and provide instruction in purchasing, cost control, sanitation, nutrition, and supervision.

Graduates of the program will be able to demonstrate:

• The ability to think creatively and work effectively in team environments within a kitchen production facility.

• Competency in food production cooking methods including hot and cold foods, and basic baking.

• A working knowledge of culinary theory and terms, and the ability to operate within a kitchen production facility.

• Knowledge of nutrition principles, menu writing, cost and inventory control, and safety and sanitation principles.

Career Opportunities
• Line cook
• Pastry cook
• Prep cook
• Catering cook

Related Information
NSCC Culinary Arts program offers courses in Sanitation, Nutrition, and Supervisory Management which meet the ACF education requirements for certification in these areas.

Grading policy for Culinary Arts Majors
A grade of “C” or above must be earned in all Culinary Arts courses prior to graduation.

Transfer/Advising
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Internship Requirements
Students must complete one 300-hour paid work internship in an approved culinary arts production kitchen prior to completing the requirements for an A.A.S. degree in Culinary Arts.

Early Childhood Education
Technical Certificate
Contact Information: Program Office 615-353-3020, E-mail: early.childhood@nscc.edu

The Technical Certificate in Early Childhood Education prepares the student for employment in the field of child care and early education. Students who received their CDA (Child Development Associate) Credential through TECTA (Tennessee Early Childhood Training Alliance) are given an opportunity to strengthen their skills and knowledge in curriculum development for young children and receive necessary credits for CDA renewal.

Graduates of the program should be able to:
- Promote child development and learning of young children.
- Build family and community relationships.
- Identify and conduct themselves as members of the early childhood profession.

**Admission Requirements**
Students must meet regular technical certificate admission requirements.

**Career Opportunities**
- Teacher or Assistant Teacher
- Caregiver

**Clinical Practicum Courses I and II**
Students who wish to register for any clinical practicum course should contact their advisor for information about clinical requirements prior to enrolling.

**Grading Policy**
A grade of “C” or above must be earned in all Early Childhood courses prior to graduation. The student majoring in Early Childhood Education must receive a “C” or above in each course in order to meet prerequisite requirements for subsequent courses.

**Transfer/Advising**
Most students who have already completed coursework through TECTA support for their CDA have only (9-11) additional credits to complete for the technical certificate. All of the courses in this certificate apply toward Nashville State’s A.A.S. degree in Early Childhood Education.

Entrepreneurship  
Technical Certificate  
Contact Information: Program Office 615-353-3400, Office: C-258, E-mail: business@nscc.edu

The Entrepreneurship Certificate is designed to offer students the opportunity to focus on various entrepreneurial aspects of business. Instruction in the areas of planning, managing, marketing, accounting, and supervising are emphasized. The certificate provides students with a basis to enter the small business environment.

Graduates of this certificate program should be able to:

• Demonstrate an understanding of entrepreneurial alternatives such as startup, buyout, and franchising.
• Demonstrate an understanding of the role and activities of entrepreneurship in a global setting.
• Write a business plan.

Career Opportunities

• Small business owner
• Small business manager

Transfer/Advising

Total Certificate Requirements 30

Cooperative work experience can be an important addition to a student’s formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
The Horticulture curriculum prepares students for a variety of employment opportunities in the Green Industry. The program includes technical knowledge and hands-on skills, learning to implement a variety of horticultural tasks, and instruction in high quality service that meets the standard of the industry.

Graduates of the program should be able to:

- Identify and appropriately use landscape materials.
- Design and construct residential, and recreational landscapes.
- Maintain residential, commercial and recreational landscapes.
- Identify and control plant pests and diseases, including the proper use of pesticides.
- Learn management techniques to operate a horticultural business.

**Career Opportunities**

- Landscape Designer
- Landscaper (installation, maintenance)
- Arborist
- Turfgrass Manager
- Nurseryman
- Retail Sales
- Horticultural Consultant
- Pest Control

**Transfer/Advising**

This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Industrial Electrical Maintenance
Technical Certificate
Contact Information: Program Office 615-353-3475, E-mail: industrial.maint@nscc.edu

This comprehensive certificate program offers excellent preparation for a career in the maintenance of large electrical and manufacturing systems. It includes an appropriate amount of necessary theory explaining “why” while placing a strong emphasis on the actual equipment and operation of large and critical electrical power systems. The program covers electrical, as well as associated electronic, hydraulic, and pneumatic equipment and applications.

Graduates of this program should be able to:
• Operate and maintain equipment and systems supporting modern manufacturing.
• Effectively troubleshoot and repair industrial electrical equipment and facility systems.
• Effectively work in teams to solve complex electrical system problems.
• Operate programmable logic controller (PLC) systems.

Career Opportunities
• Plant maintenance technician
• Power plant operator/maintenance technician
• Plant electrician
• On-call service technician

Transfer/Advising
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Music Technology
Technical Certificate
Contact Information: Wayne Neuendorf, 615-353-3653, Office: C-106, E-mail wayne.neuendorf@nscc.edu
Eric Richardson, 615-353-3467, Office: C-156B, E-mail eric.richardson@nscc.edu

The mission of the Music Technology program is to provide a well-rounded curriculum of music-related technical, creative, and business courses designed to prepare students for a variety of employment opportunities within the music industry.

The Music Technology Technical Certificate is designed to prepare students for entry-level opportunities in the recording and music industries. The requirements for earning the technical certificate may be fulfilled in one year.

Graduates of the program should possess the ability to:

- Demonstrate proficiency with typical professional recording equipment and computer systems.
- Demonstrate an understanding of the terminology and operations of the music and recording industries.
- Apply critical thinking skills to resolve challenges in the workplace.
- Function competently in entry-level music business and recording/audio positions.
- Work effectively with others in a creative team environment.

Career Opportunities
- Recording Engineer/Studio Operator
- Music Publisher
- Songwriter
- Independent Record Label Operator
- Producer
- Mastering Engineer

Transfer/Advising
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

COURSE REQUIREMENTS
Note: Any 10 Music Technology courses fulfill the required 30 credit hours to earn the Technical Certificate.

Total Certificate Requirements 30

Cooperative work experience can be an important addition to a student's formal classroom work. Co-op courses may substitute for technical courses with the prior approval of the Program Coordinator. The Career Employment Center will provide the correct course numbers.
Photography
Technical Certificate
Contact Information: Program Office 615-353-3390, E-mail: photo.tech@nscc.edu

This technical certificate prepares students for employment in the field of Photography. The program provides students with a basic knowledge of traditional camera and darkroom skills as well as preparing them to work in studio and digital settings.

Graduates in the program should be able to:

- Efficiently operate 35mm film and digital SLR cameras.
- Function competently in an entry level lab and/or studio position.
- Demonstrate working knowledge of digital imaging computer programs.
- Approach photographic problem solving in a creative manner.

Career Opportunities
- Photographer
- Photographer’s Assistant
- Lab Technician

Grading Policy
A grade of C or above must be earned in all courses to meet prerequisite and graduation requirements.

Transfer/Advising
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

Notice of Right to Retain Student Work
The Visual Communications program reserves the right to retain certain selected examples of student work for teaching purposes, promotional purposes, and as a part of its permanent collection.

Surgical Assisting
Technical Certificate
Accreditation: Accreditation for Surgical Assisting (SASA) and Commission on Accreditation of Allied Health Education Programs (CAAHEP)

Contact Information: Debbie Bessent 615-353-3708,
Department Office: W-51, E-mail: debbie.bessent@nscc.edu

Surgical Assisting education prepares students for advanced practice employment in a variety of surgical settings. The program includes two semesters of classroom and one semester of lab work, usually on Saturdays, followed by two or three semesters in the clinical settings mastering the basic skills taught the first semester. In the final semesters, a minimum of 40 cases each of General Surgery, Orthopedic Surgery, and Specialty Surgery must be completed.

Graduates of the program should be able to:
• Demonstrate concern for the patient’s well-being as the highest priority at all times and function as a professional member of the surgical team at all times.
• Demonstrate knowledge of the surgical anatomy, pathophysiology, anesthesia course, pre- and post-operative management, and expected outcomes relevant to a variety of surgical procedures.
• Demonstrate proficiency in patient positioning, providing visualization of the operative site, assist with hemostasis, participate in autotransfusion techniques as appropriate, assist with closure of body planes, select and apply appropriate dressings, and assist in securing drainage systems to tissue.

Admission Requirements
• Must submit documentation of a minimum of two years of proficient experience in the operating room working in the scrub role within the last three years.
• Must submit a Program Application as well as an Admissions application.
• Must be CST certified or eligible to sit for certification if a Surgical Technologist.
• If an RN, must have CNOR or be eligible to sit for certification.
• Must submit official transcripts to Nashville State Admissions department.
• Must establish placement by transfer credit, college entrance exam scores, or campus placement testing.
• Must complete a panel interview.

• Selection will be based on a composite admission score.

Transfer/Advising
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

NOTE: Students entering the Program will be required to provide a copy of a criminal background check. NSCC does not use the background check as criteria for admission to the program. Background checks are required by some clinical sites as a condition of participation. Students are required to participate in a variety of clinical experiences to successfully complete the program. If a student has questions regarding the criminal background check, please call 615-353-3708.

Surgical Technology
Technical Certificate
Accredited by Accreditation Review Committee on Education in Surgical Technology (ARCST, www.arcst.org, 303-694-9262) and the Commission on Accreditation of Allied Health Education Programs (CAAHEP, www.caahep.org, 727-210-2350)
Contact Information: Van Bates 615-353-3708, Office: A-67, E-mail van.bates@nscc.edu

Surgical Technology education prepares students for employment in a variety of surgical settings. The program includes extensive classroom time as well as practical experience preparing Surgical Technologists for all major specialties in the operating room.

Graduates of the program should be able to:
- Recognize elements of good patient care and prioritize them before less important elements in the operating room.
- Behave professionally in a stressful environment with demanding personalities while remaining calm and focused.
- Accurately plan for and perform duties of a Surgical Technologist in the scrub role in common surgical specialties.

Admission Requirements
- Must submit a Program Application as well as an Admissions application.
- Must have High School Diploma or GED.
- Must submit official transcripts to Admissions department.
- Must establish placement by transfer credit, college entrance exam scores, or campus placement testing.
- Must complete a panel interview.
- Selection will be based on a composite admission score consisting of points from, Panel Interview, GPA, related work experience, courses taken toward program, and Tennessee residency.

All of the courses in this certificate apply toward Nashville State’s A.A.S. degree in General Technology.

Transfer/Advising
This certificate is designed so that a student can apply all of the required courses toward a Nashville State A.A.S. degree. A student who plans to apply the certificate toward an A.A.S. degree should consult his/her advisor about articulation options.

NOTE: Prospective students will be required to provide a copy of a background check. NSCC does not use the background check as a criteria for admission to the program. Background checks are required by some clinical sites as a condition of participation. Students are required to participate in a variety of clinical experiences to successfully complete the program. For questions regarding the background check, please call 615-353-3708.

Total Certificate Requirements 32
Web Page Authoring
Technical Certificate
Contact Information: David Weilmuenster 615-353-3415, E-mail: david.weilmuenster@nscc.edu

Web Page Authoring is a one-year certificate designed to qualify students for an entry-level job in Web Page Authoring. All courses are available via the Web, requiring students to attend campus only occasionally to take proctored exams. If it is not possible for you to travel, you must contact your instructor to make arrangements for proctored exams. Some courses are also available on-site in a traditional classroom.

Online courses offer an asynchronous learning environment; students participate in class activities such as bulletin board discussions at different times of day and different days of the week. However, please note that the courses are not “self-paced.” Weekly participation is required to avoid being dropped from the course.

Graduates of the program should be able to:
- Write HTML code to create a Web page with graphics and styled text.
- Create and incorporate graphics which have been optimized for speedy transmission.
- Design Web pages for ease of use and navigation.
- Upload Web site pages to a server.
- Understand legal issues as they apply to the Web.

Admission Requirements
Web Page Authoring is an online degree program and students must have a computer and Internet access. Students are expected to have a basic familiarity with computers and the Web.

Visit http://www.nscc.edu/orient/web.html for additional information about hardware and software standards and to determine whether online learning is right for you.

Career Opportunities
- Web Production Artist
- Web Graphics Artist
- Continuing in the program via the other participating colleges will qualify students for higher-level jobs in the field of Web Design.

Transfer/Continuation
Students who are interested in this field may wish to consider a Visual Communications Associate’s degree from NSCC with a concentration in Web Design. Students may also apply all of the courses in this certificate toward NSCC’s A.A.S. degree in General Technology.

Total Certificate Requirements 24

* Students desiring to continue their education are encouraged to take ENGL 1010 English Composition I, MATH 1530 Probability/Statistics, and a Humanities Elective in addition to the required courses listed above.
ASSOCIATE OF ARTS AND ASSOCIATE OF SCIENCE
General Education

Effective Fall Semester 2004, each institution in the State University and Community College System of Tennessee (The Tennessee Board of Regents System) will share a common lower-division general education core curriculum of forty-one (41) semester hours for baccalaureate degrees and the Associate of Arts and the Associate of Science degrees. Lower-division means freshman and sophomore courses. The courses comprising the general education curriculum are contained within the following subject categories:

**Baccalaureate Degrees and Associate of Arts and Associate of Science Degrees**

Communication .......................... 9 hours**

Humanities and/or Fine Arts
(At least one course must be in literature.) 9 hours

Social/Behavioral Sciences ............... 6 hours

History ........................................ 6 hours***

Natural Sciences ......................... 8 hours

Mathematics ................................. 3 hours

Total ........................................ 41 hours

* Foreign language courses are an additional requirement for the Associate of Arts (A.A.) and Bachelor of Arts (B.A.) degrees. Six hours of foreign language are required for the A.A. degree and twelve hours are required for the B.A.

** Six hours of English Composition and three hours in English oral presentational communication are required.

*** Students who plan to transfer to Tennessee Board of Regents (TBR) universities should take six hours of United States History (three hours of Tennessee History may substitute). Students who plan to transfer to University of Tennessee System universities or to out-of-state or private universities should check requirements of those institutions and take the appropriate courses.

Although the courses designated by Tennessee Board of Regents (TBR) institutions to fulfill the requirements of the general education subject categories vary, transfer of the courses is assured through the following means:

Upon completion of an A.A or A.S. degree, the requirements of the lower-division general education core will be complete and accepted by a TBR university in the transfer process.

If an A.A. or A.S. is not obtained, transfer of general education courses will be based upon fulfillment of complete subject categories. (Example: If all eight hours in the category of Natural Sciences are complete, then this “block” of the general education core is complete.) When a subject category is incomplete, course-by-course evaluation will be conducted. The provision of block fulfillment pertains also to students who transfer within TBR universities.

Institutional/departamental requirements of the grade of “C” will be honored. Even if credit is granted for a course, any specific requirements for the grade of “C” by the receiving institution will be enforced.

In certain majors, specific courses must be taken also in general education. It is important that students and advisors be aware of any major requirements that must be fulfilled under lower-division general education.

Courses designated to fulfill general education by Nashville State Community College are published on pages 120–121 of this catalog. A complete listing of the courses fulfilling general education requirements for all system institutions is available on the TBR Web site (www.tbr.state.tn.us) under Transfer and Articulation Information.

**General Education Competencies**

These competencies prepare students for success in employment and in pursuit of additional education. The curriculum of all majors will integrate and reinforce the competencies, although specific applications will vary among majors.

Graduates of Nashville State degree programs will be able to:

1. Write clear, well-organized documents;
2. Locate, evaluate, and use multiple sources of information;
3. Prepare and deliver well-organized oral presentations;
4. Participate as team members and team leaders;
5. Apply mathematical concepts to problems and situations;
6. Use critical thinking skills;
7. Use and adapt current technologies;
8. Appreciate cultural diversity and the influence of history and culture; and
9. Apply scientific thought processes to a range of situations.
Nashville State Technical Community College offers the courses listed below as part of the TBR Common General Education Core for A.A. and A.S. degrees. Students who complete the A.S. or A.A. degree can transfer the entire core to a TBR university. However, only these courses apply to the TBR Common General Education core.

**A.A. Additional Requirement =**  
**A.A.S. Additional Requirement = 1**

*Two semesters of same college-level foreign language*  
*additional course from categories of Communications, Humanities/Fine Arts, Social/Behavioral Science, or Natural Science/Mathematics*
Associate of Arts and Associate of Science Degrees

Students planning to earn a baccalaureate degree at a four-year college or university can complete their first two years at Nashville State Community College and receive an Associate of Science (A.S.) or Associate of Arts (A.A.) degree. The primary goal of these degrees is to prepare students to successfully pursue the baccalaureate degree.

Nashville State Community College develops transfer agreements with area universities, and copies of these agreements are available in the Student Services Building. Tennessee State University has a full-time advisor available in Student Services to help transfer students. An Austin Peay advisor makes regular visits to the Nashville State campus.

**Associate of Science Degree** ..............................
**Associate of Arts Degree** ..............................

**Required Hours: 60**

- General Education Requirements: ..........41 Hours
- English Composition .................................6 hours
- English Oral Presentation Communication...3 hours
- Literature ................................................3 hours
- Humanities and/or Fine Arts ......................6 hours
- Social/Behavioral Sciences .......................6 hours
- History ..................................................6 hours
- Natural Sciences lab course ....................8 hours
- Mathematics .........................................3 hours

**Area of Emphasis**

Courses in the intended baccalaureate major: .....................19 hours

Foreign language courses are an additional requirement for the A.A. and B.A. degrees at Tennessee Board of Regents’ Universities.

To maximize transferability, students should identify and consult with the University to which they intend to transfer as early as possible.

**Associate of Science Degree Areas of Emphasis**

Lists of recommended courses for these university majors are listed on the following pages.

- American Sign Language
- Art (Studio)
- Biology
- Biotechnology
- Business and Information Systems
- Chemistry
- Child Development and Family Relations
- Communication Studies
- Computer Science
- Construction Management
- Criminal Justice
- Early Childhood Education
- Elementary Education
- English
- French (A.A. Only)
- General Studies (RODP)
- Geography
- Health Information Management
- History
- Horticulture
- Mathematics
- Medical Technology
- Music
- Philosophy
- Physical Education
- Physics
- Political Science
- Pre-Engineering
- Pre-Law
- Pre-Nursing
- Psychology
- Secondary Education
- Social Work
- Sociology
- Spanish (A.A. Only)
- Special Education
Areas of Emphasis

The A.A. and A.S. degrees are designed for students who plan to transfer into baccalaureate degrees after graduation from Nashville State. If the transfer institution is known, the student should consult that institution and follow its requirements. If the transfer institution is not known, the Nashville State courses listed below are recommended as part of the 60 credit hours required for graduation.

Students should select an area of emphasis in the intended university major. The courses below are suggested and do not represent requirements for any specific university.

American Sign Language

In addition to the General Education Core, these courses are recommended:

- ASL 1002 Fingerspelling 2 hours
- ASL 1010 Foundations of Deafness 3 hours
- ASL 1110 American Sign Language I 3 hours
- ASL 1120 American Sign Language II 3 hours
- ASL 1130 American Sign Language III 3 hours
- ASL 2300 American Sign Language IV 3 hours

Art (Studio)

In addition to the General Education Core, these courses are recommended:

- ART 1121 Drawing I 3 hours
- ART 1122 Drawing II 3 hours
- ART 1132 Design 3 hours
- ART 2221 Painting I 3 hours
- ART 2131 Art History Survey I 3 hours
- ART 2132 Art History Survey II 3 hours
- ART 2222 Painting II 3 hours

Biology

In addition to the General Education Core, these courses are recommended:

- BIOL 2230 Microbiology 4 hours
- CHEM 1110 General Chemistry I 4 hours
- CHEM 1120 General Chemistry II 4 hours
- Extra hour from General Education Math 0-1 hour*

Science Electives (choose from below) 6-7 hours

- CHEM 2010 Organic Chemistry I 4 hours
- CHEM 2020 Organic Chemistry II 4 hours
- BIOL 2230 Microbiology 4 hours

* If the mathematics course for general education is four hours, the extra hour is included in the Area of Emphasis.

Biotechnology

In addition to the General Education Core, these courses are recommended:

- BIOT 1010 Biotechnology Applications 3 hours
- BIOT 2020 Genetic Analysis/Manipulation 4 hours
- BIOT 2050 Industry & Applied Microbiol 4 hours
- BIOT 2060 Protein Bioseparations 4 hours
- BIOT 2070 Cell Culturing 4 hours
- BIOL 1110 General Biology I 4 hours
- BIOL 1120 General Biology II 4 hours
- BIOL 2230 Microbiology 4 hours

Business and Information Systems

In addition to the General Education Core, these courses are recommended:

- ACCT 1104 Principles of Accounting I 3 hours
- ACCT 1105 Principles of Accounting II 3 hours
- AIS 1181 Business Software Applications 3 hours
- BUS 2315 Business Statistics 3 hours
- ECON 1111 Principles of Macroeconomics 3 hours
- ECON 1121 Principles of Microeconomics 3 hours
- MATH 1830 Concepts of Calculus 3 hours

Chemistry

In addition to the General Education Core, these courses are recommended:

- PHYS 2010 Calculus Based Physics I 4 hours
- PHYS 2020 Calculus Based Physics II 4 hours
- CHEM 2010 Organic Chemistry I 4 hours
- CHEM 2020 Organic Chemistry II 4 hours
- Extra hour from General Education Math 1 hour

Child Development & Family Relations

In addition to the General Education Core, these courses are recommended:

- ECED 1010 Intro to Early Childhood Educ 2 hours
- ECED 2010 Safe, Healthy, Learning Env 3 hours
- ECED 2015 Early Childhood Curriculum 3 hours
- ECED 2020 Infant, Toddler, Child Dev 3 hours
- ECED 2030 Infant and Toddler Care 3 hours
- ECED 2040 Fam Dynamics & Comm Involve 3 hours
- ECED 2060 Dev of Exceptional Children 3 hours
- ECED 2070 Development Assessment 3 hours
- ECED 2090 Creative Development 3 hours
- ECED 2120 Admin of Child Care Centers 3 hours
### Communication Studies

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>

<tr>
<td>ECED 2070</td>
<td>Development Assessment</td>
<td>3 hours</td>
</tr>
<tr>
<td>ECED 2090</td>
<td>Creative Development</td>
<td>3 hours</td>
</tr>
<tr>
<td>ECED 2120</td>
<td>Admin of Child Care Centers</td>
<td>3 hours</td>
</tr>
</tbody>
</table>

### Elementary Education

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC 2010</td>
<td>Foundations of Education</td>
<td>3 hours</td>
</tr>
<tr>
<td>EDUC 2110</td>
<td>Educational Psychology</td>
<td>3 hours</td>
</tr>
<tr>
<td>EDUC 2120</td>
<td>Intro to Special Education</td>
<td>3 hours</td>
</tr>
<tr>
<td>MATH 1410</td>
<td>Math for Elem Education I</td>
<td>3 hours</td>
</tr>
<tr>
<td>MATH 1420</td>
<td>Math for Elem Education II</td>
<td>3 hours</td>
</tr>
<tr>
<td>GEOL 1110</td>
<td>Earth Science</td>
<td>4 hours</td>
</tr>
</tbody>
</table>

### English

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 2030</td>
<td>Themes in Literature &amp; Culture</td>
<td>3 hours</td>
</tr>
<tr>
<td>ENGL 2110</td>
<td>Survey of American Lit I</td>
<td>3 hours</td>
</tr>
<tr>
<td>ENGL 2120</td>
<td>Survey of American Lit II</td>
<td>3 hours</td>
</tr>
<tr>
<td>ENGL 2210</td>
<td>Survey of British Lit I</td>
<td>3 hours</td>
</tr>
<tr>
<td>ENGL 2220</td>
<td>Survey of British Lit II</td>
<td>3 hours</td>
</tr>
<tr>
<td>ENGL 2310</td>
<td>Survey of World Lit I</td>
<td>3 hours</td>
</tr>
<tr>
<td>ENGL 2320</td>
<td>Survey of World Lit II</td>
<td>3 hours</td>
</tr>
<tr>
<td>ENGL 2333</td>
<td>Multicultural Literature</td>
<td>3 hours</td>
</tr>
<tr>
<td>ENGL 2140</td>
<td>Introduction to Cinema</td>
<td>3 hours</td>
</tr>
</tbody>
</table>

### French (A.A. Only)

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN 1010</td>
<td>Beginning French I</td>
<td>3 hours</td>
</tr>
<tr>
<td>FREN 1020</td>
<td>Beginning French II</td>
<td>3 hours</td>
</tr>
<tr>
<td>FREN 2010</td>
<td>Intermediate French I</td>
<td>3 hours</td>
</tr>
<tr>
<td>FREN 2020</td>
<td>Intermediate French II</td>
<td>3 hours</td>
</tr>
</tbody>
</table>

### General Studies (RODP)

This area of emphasis articulates with the Bachelors of Interdisciplinary Studies at the University level through the Regents Online Degree Program (RODP). Go to [www.rodp.org](http://www.rodp.org)

### Geography

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG 1010</td>
<td>World Regional Geography I</td>
<td>3 hours</td>
</tr>
<tr>
<td>GEOG 1020</td>
<td>World Regional Geography II</td>
<td>3 hours</td>
</tr>
<tr>
<td>HIST 1110</td>
<td>World Civilization I</td>
<td>3 hours</td>
</tr>
<tr>
<td>HIST 1120</td>
<td>World Civilization II</td>
<td>3 hours</td>
</tr>
<tr>
<td>POLI 1111</td>
<td>Intro to Political Science</td>
<td>3 hours</td>
</tr>
<tr>
<td>SOCI 1111</td>
<td>Intro to Sociology</td>
<td>3 hours</td>
</tr>
</tbody>
</table>

### Health Information Management

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCT 1104</td>
<td>Principles of Accounting I</td>
<td>3 hours</td>
</tr>
<tr>
<td>ECON 1121</td>
<td>Principles of Microeconomics</td>
<td>3 hours</td>
</tr>
</tbody>
</table>
History

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 1110</td>
<td>World Civilization I</td>
<td>3</td>
</tr>
<tr>
<td>HIST 1120</td>
<td>World Civilization II</td>
<td>3</td>
</tr>
<tr>
<td>HIST 2030</td>
<td>Tennessee History</td>
<td>3</td>
</tr>
<tr>
<td>POLI 1111</td>

</tr>
<tr>
<td>HORT 1310</td>
<td>Horticultural Design</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 2211</td>
<td>General Botany</td>
<td>4</td>
</tr>
</tbody>
</table>

Mathematics

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1920</td>
<td>Calculus &amp; Analytic Geom II</td>
<td>4</td>
</tr>
<tr>
<td>MATH 2110</td>
<td>Calculus &amp; Analytic Geom III</td>
<td>4</td>
</tr>
</tbody>
</table>

The following course definitely transfers to some universities and may transfer to some other universities. It is strongly recommended that students verify transferability with the receiving university.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2120</td>
<td>Differential Equations</td>
<td>3</td>
</tr>
</tbody>
</table>

Medical Technology

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 1110</td>
<td>General Biology I</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 1120</td>

<td>3</td>
</tr>
<tr>
<td>PHIL 1111</td>
<td>Introduction to Ethics</td>
<td>3</td>
</tr>
<tr>
<td>PHIL 2300</td>
<td>Ethics in Medicine</td>
<td>3</td>
</tr>
<tr>
<td>PHIL 2021</td>
<td>Philosophy in Movies</td>
<td>3</td>
</tr>
<tr>
<td>PHIL 2200</td>
<td>World Religions</td>
<td>3</td>
</tr>
</tbody>
</table>

Physical Education

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHED 1010</td>
<td>Intro to Health &amp; Wellness</td>
<td>3</td>
</tr>
<tr>
<td>PHED 2130</td>
<td>Intro to Physical Education</td>
<td>3</td>
</tr>
<tr>
<td>PHED 2310</td>
<td>Community Health</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 1215</td>
<td>Principles of Nutrition</td>
<td>3</td>
</tr>
</tbody>
</table>

Physics

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1920</td>
<td>Calculus &amp; Analytic Geom II</td>
<td>4</td>
</tr>
<tr>
<td>MATH 2110</td>
<td>Calculus &amp; Analytic Geom III</td>
<td>4</td>
</tr>
<tr>
<td>MATH 2120</td>
<td>Differential Equations</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 1110</td>
<td>General Chemistry I</td>
<td>4</td>
</tr>
</tbody>
</table>

* It is recommended that students take MATH 1910, Calculus & Analytic Geom I as their math requirement.

Political Science

In addition to the General Education Core, these courses are recommended:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLI 1111</td>
<td>Intro to Political Science</td>
<td>3</td>
</tr>
<tr>
<td>POLI 2010</td>
<td>American National Government</td>
<td>3</td>
</tr>
<tr>
<td>HIST 1110</td>
<td>World Civilization I</td>
<td>3</td>
</tr>
<tr>
<td>HIST 1120</td>
<td>World Civilization II</td>
<td>3</td>
</tr>
<tr>
<td>HIST 2030</td>
<td>Tennessee History</td>
<td>3</td>
</tr>
<tr>
<td>GEOG 1010</td>
<td>World Regional Geography I</td>
<td>3</td>
</tr>
<tr>
<td>GEOG 1020</td>
<td>World Regional Geography II</td>
<td>3</td>
</tr>
</tbody>
</table>
Pre-Engineering

In addition to the General Education Core, these courses are recommended:

- ENGT 1000 Intro to Engr Technology ........................................ 3 hours
- CAD 1200 Computer-Aided Drafting I ...................................... 3 hours
- ENGR 2100 Statics ............................................................. 3 hours
- ENGR 2200 Dynamics ......................................................... 3 hours
- MATH 1920 Calculus & Analytical Geom II ............................ 4 hours
- MATH 2110 Calculus & Analytical Geom III ............................ 4 hours
- CHEM 1110 General Chemistry I .......................................... 4 hours
- CHEM 1120 General Chemistry II ......................................... 4 hours
- CIT 1220 Materials/Methods Construction ............................ 3 hours
- CIT 1230 Testing of Materials ............................................. 2 hours

Courses should be selected by the student in consultation with advisors at the college or university that they wish to transfer to.

Pre-Law

Association of American Law Schools does not recommend a specific pre-law curriculum.

Pre-Nursing

In addition to the General Education Core, these courses are recommended:

- PSYC 1111 Intro to Psychology ............................................. 3 hours
- PSYC 2111 Psy of Human Growth & Dev .................................. 3 hours
- BIOL 2010 Anatomy and Physiology I .................................... 4 hours
- BIOL 2020 Anatomy and Physiology II .................................. 4 hours
- BIOL 2250 Microbiology ..................................................... 4 hours

Psychology

In addition to the General Education Core, these courses are recommended:

- PSYC 1111 Intro to Psychology ............................................. 3 hours
- PSYC 1115 Psychology of Adjustment ................................... 3 hours
- PSYC 2111 Psy of Human Growth & Dev ................................ 3 hours
- PSYC 2112 Social Psychology ............................................. 3 hours
- PSYC 2120 Child & Adolescent Development ......................... 3 hours
- PSYC 2125 Abnormal Psychology ....................................... 3 hours

* For additional recommended courses, please see your advisor.

Secondary Education

In addition to the General Education Core, these courses are recommended:

- EDUC 2100 Foundations of Education ................................ 3 hours
- EDUC 2110 Educational Psychology ..................................... 3 hours
- EDUC 2120 Intro to Special Education .................................. 3 hours
- PSYC 2111 Psy of Human Growth & Dev .............................. 3 hours
- PSYC 1111 Intro to Psychology ........................................... 3 hours
- SOCI 1111 Intro to Sociology ............................................... 3 hours

Choose specific courses in major teaching area. Consult the catalog of the transfer college.

Social Work

In addition to the General Education Core, these courses are recommended:

- SOCS 1010 Intro to Social Work ........................................... 3 hours
- SOCS 1020 Human Behavior Social Environ ........................ 3 hours
- SOCS 2055 Soc Work Interviewing Skills ............................... 3 hours
- SOCI 1112 Social Problems ................................................ 3 hours
- SOCI 2112 Marriage and Family .......................................... 3 hours
- ECON 1111 Principles of Macroeconomics ............................ 3 hours

Sociology

In addition to the General Education Core, these courses are recommended:

- SOCI 1111 Intro to Sociology ............................................... 3 hours
- SOCI 1112 Social Problems ................................................ 3 hours
- SOCI 1120 Intro to Cultural Anthropology ............................. 3 hours
- SOCI 2112 Marriage and Family .......................................... 3 hours
- SOCI 2113 Social Psychology ............................................. 3 hours

Spanish (A.A. Only)

In addition to the General Education Core, these courses are recommended:

- SPAN 1010 Beginning Spanish I ........................................... 3 hours
- SPAN 1020 Beginning Spanish II ......................................... 3 hours
- SPAN 2010 Intermediate Spanish I ....................................... 3 hours
- SPAN 2020 Intermediate Spanish II ..................................... 3 hours
- SPAN 2025 Conversational Spanish ..................................... 3 hours

Special Education

In addition to the General Education Core, these courses are recommended:

- EDUC 2100 Foundations of Education ................................ 3 hours
- ECED 2110 Educational Psychology ..................................... 3 hours
- GEOL 1110 Earth Science .................................................. 4 hours
- MATH 1410 Math for Elem Education I ................................. 3 hours
- MATH 1420 Math for Elem Education II ................................. 3 hours
- EDUC 2120 Intro to Special Education .................................. 3 hours

Nashville State
Elementary Education
Associate of Science in Teaching (A.S.T.) K-6 Curriculum
Contact Information: Program Office 615-353-3020, E-mail: elementary.education@nscc.edu

The Associate of Science in Teaching (A.S.T.) Degree is designed as a transfer degree for students who wish to pursue a career in elementary education, teaching children in kindergarten through sixth grade in public and private schools. The graduate with an A.S.T. degree will have completed the first two years of a four-year degree required for teacher certification in elementary education in Tennessee. Students who earn the A.S.T. can transfer to any of the six Tennessee Board of Regents universities for their junior and senior years and are prepared to apply for acceptance into the university’s teacher education program.

Graduates of the program should be able to:

- Transfer to a four-year university to earn a degree in elementary education.
- Meet requirements for admission into teacher education programs for K-6 licensure.

Admission Requirements
Students must meet regular degree-seeking admission requirements for the Associate of Science degree.

Graduation Requirements
To earn the AST degree, the student must:

- Successfully complete the required course of study as outlined in the catalog.
- Attain a 2.75 cumulative grade point average.
- Successfully complete the Praxis I Exam or have a 22 on the ACT.
- Receive a satisfactory rating on an index of suitability for the teaching profession.

Transfer/Advising
Students should consult frequently with their advisors to insure completion of all requirements for this degree. Failure to do so could result in a loss of credits in the transfer process.

Course Descriptions
### Accounting

**ACCT 1010**  
**Survey of Accounting**  
3 Credits  
3 Class Hours  
A study of accounting meant for persons who intend to own and/or operate their own business. Topics include an emphasis on the use of financial statement information rather than the creation of them and the financial implications of business decisions on a day-to-day basis. While there will be some general accounting information such as debits and credits and preparing financial statements, the majority of this course will focus on understanding accounting information and how it is useful to both internal and external users. Office Administration and Entrepreneurship students may choose between ACCT 1010 or ACCT 1104. *Note: This course does not substitute for ACCT 1104.*

**ACCT 1104**  
**Principles of Accounting I**  
3 Credits  
3 Class Hours  
An introduction to basic principles of accounting theory and practice. Topics covered include accrual basis accounting, the accounting cycle, preparation of financial statements for both service and merchandising business enterprises, internal controls, accounting for cash, receivables, payroll, inventories, fixed assets, and current liabilities. *Prerequisite: DSPM 0850*

**ACCT 1105**  
**Principles of Accounting II**  
3 Credits  
3 Class Hours  
A continuation of ACCT 1104. Topics include accounting for corporate entities, long-term investments and liabilities, statement of cash flows, financial statement analysis, job order and process cost systems, cost-volume-profit analysis, budgeting, and performance analysis. *Prerequisite: ACCT 1104 with a grade of "C" or higher*

**ACCT 2200**  
**Payroll Accounting**  
4 Credits  
4 Class Hours  
A course designed to cover the payroll procedures and laws that affect payroll operations and employment practices. Students are required to complete all payroll operations for a business including payroll tax returns. Students will also complete a payroll project using payroll software. *Prerequisites: ACCT 1104 and AIS 1181 with a grade of "C" or higher*

**ACCT 2154**  
**Intermediate Accounting I**  
4 Credits  
4 Class Hours  
The course is an in-depth study of the conceptual framework of accounting theory and the preparation of financial statements and financial disclosures. Topics include income measurement and profitability analysis, time value of money, cash and receivables, measurement and valuation of inventory and cost of goods sold. *Prerequisites: ACCT 1105 and AIS 1181 with a grade of "C" or higher*

**ACCT 2164**  
**Intermediate Accounting II**  
4 Credits  
4 Class Hours  
A continuation of ACCT 2154. Topics include accounting for debt and equity financing, acquisition, utilization and retirement of non-current assets, investments in debt and equity securities, lease accounting, earnings per share, financial reporting and analysis, and accounting changes and error corrections. *Prerequisite: ACCT 2154 with a grade of "C" or higher*

**ACCT 2350**  
**Taxation**  
3 Credits  
3 Class Hours  
An introduction to Federal Income Taxation. Topics include individual and corporate tax law and preparation of returns with emphasis on individual returns. *Prerequisite: ACCT 1105 with a grade of "C" or higher*

**ACCT 2380**  
**Accounting System Applications**  
3 Credits  
2 Class Hours, 2 Lab Hours  
A course designed to apply the concepts of the accounting information system within a relational database. A popular database program is used to create tables, forms, queries, and reports. Critical thinking and creative design skills are also emphasized. *Prerequisites: AIS 1181 and ACCT 1105 with a grade of "C" or higher*

**ACCT 2900**  
**Accounting Capstone**  
4 Credits  
4 Class Hours  
A capstone course required for all accounting majors. Topics include managerial use of financial data, analysis of financial statements, and ethics. An exit exam will be administered as a means of assessing program outcomes and will include topics from courses included in the accounting curriculum. This course should be taken during the last semester before graduation. *Prerequisites: ACCT 2154, ACCT 2200, ACCT 2380, ACCT 2740, and ACCT 2600 with a grade of "C" or higher*  
Corequisites: ACCT 2164, ACCT 2350, and ACCT 2840

**ACCT 2840**  
**Database Applications**  
4 Credits  
4 Class Hours  
A course designed to apply the concepts of the accounting information system within a relational database. A popular database program is used to create tables, forms, queries, and reports. Critical thinking and creative design skills are also emphasized. *Prerequisites: AIS 1181 and ACCT 1105 with a grade of "C" or higher*

**Course Descriptions**
Architectural, Civil and Construction Engineering Technology

ACT 1391
History of Architecture
3 Credits 1 Class Hour, 6 Lab Hours
An introductory course in the history of architectural and construction practices. Topics include tracing the development of construction techniques through historical periods, identification features and characteristics of construction during these periods, ancient architecture, the development of western architecture through the Renaissance and Baroque periods, and the Modern and Post-Modern developments in contemporary architecture.

ACT 1161
Residential Drafting and Const
4 Credits 2 Class Hours, 6 Lab Hours
An introductory course in the basics of light construction systems with an emphasis on construction elements, sizes, weights, spacing, function and construction documents. Topics include footings and foundations, material weights, structural elements, platform and balloon frame construction, drilling and notching, stairway design, chimney foundations, lettering sizes, architectural symbols, and dimensioning systems. The student will develop preliminary drawings, prepare construction drawings on AutoCAD and build a study model for a small residence. Prerequisites: CAD 1200 and ENGT 1150 or equivalent skills

ACT 1341
Commercial Drafting and Codes
3 Credits 1 Class Hour, 6 Lab Hours
An intermediate level course continuing elements of ACT 1161 while focusing on building code applications and construction detailing in the design development process through preparation of code-conforming construction drawings. Topics include drawing coordination, symbols, layout, and notations; construction detailing; building area; construction use and type; egress, occupant load and accessibility issues. The student will prepare construction drawings on AutoCAD and construct a study model for a small commercial building. Prerequisites: ACT 1161 and CAD 1301

ACT 2123
Architectural Presentations
3 Credits 1 class hour, 6 Lab Hours
A graphic presentation course focusing on presentation skills, software and techniques in the Architectural, Civil and Construction fields. Applications are intended to reach the creative abilities of students and equip them with marketable skills currently used in the building design and construction industry. Topics include the principles and tools of architectural presentation graphics, the use of several software packages including AutoCAD®, Adobe Illustrator®, Adobe Photoshop®, Adobe InDesign® and 3D MAX®. Students must have a working knowledge of AutoCAD and basic computer knowledge to accomplish the goals of this course. Students will make a portfolio of their best work, arranged to demonstrate their skills and talents. Prerequisite: CAD 1301 or CAD 2113

ACT 2160
Building Utilities
3 Credits 2 Class Hours
An advanced level course designed to familiarize the student with elements of the Standard Plumbing Code, Mechanical Codes, and National Electrical Code. Topics include plumbing, mechanical and electrical symbols approved for drawings; definitions; minimum facilities; abbreviations; standard locations and sizes; minimum and maximum requirements; selected proper installations; estimate of loads; and required services. The student solves practical problems in the layout and design of selected utilities for a single- or multi-family dwelling, a commercial location, and an industrial or a specialized location. Prerequisites: ACT 1161 and MATH 1730

ACT 2242
Architectural Design Process
3 Credits 1 Class Hour, 5 Lab Hours
An advanced level course utilizing problem-based case study technique while continuing elements of ACT 1341 and focusing on the architectural design process. Topics include teamwork; architectural programming; adjacency matrices; bubble diagrams; site analysis; schematic design; modeling and presentation procedures. Using current drawing and presentation mediums, students will prepare and formally present a set of deliverables including a program, an adjacency matrix, a bubble diagram, a site analysis, a schematic design, and a model. Prerequisites: ACT 1341

ACT 2440
Specifications & Estimating
3 Credits 2 Class Hours, 2 Lab Hours
An advanced level course that provides instruction in owner/contractor/architect-engineer responsibilities, construction document relationships, the bidding process, contracts, and quantity estimating. Topics include the General Conditions of the Contract for Construction; estimate types; contracts; the CSI format; bonds and insurance; specifications and bidding; estimating procedure, overhead, labor and equipment; and the preparation and calculation of quantity surveys. Prerequisites: CIT 1220 and CIT 2110

Accounting Information Systems

AIS 1180
Intro to Microcomputing
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to microcomputing tasks and terminology. Topics include input and output, storage, memory, the CPU, and the Windows operating system. Hands-on experience is gained in working with Windows, managing files, managing disks, and exploring the Internet.

AIS 1181
Business Software Applications
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the use of microcomputer software in the business environment. Applications include word processing, spreadsheets, database, and presentation software. It is recommended that Computer Accounting majors complete AIS 1180 before taking AIS 1181. Prerequisites: DSPR 0800, DSPM 0800

Automotive Technology

AMT 1100
GM Automotive Service
2 Credit Hours 1 Lecture Hour, 2 Lab Hours
An introductory course in shop operations, customer relations, flat rate manuals, safety, organizational design, pay structure, equipment, tools, and basic operational theories as applied to General Motors dealerships. Topics include the proper use of hand tools, measuring instruments, equipment; service procedures for lubrication, batteries, the cooling system, wheels and tires; and new car pre-delivery service. Prerequisite: DSPM 0850 or equivalent skills
AMT 1105
Automotive Service
2 Credits 1 Class Hour, 3 Lab Hours
An introductory course in shop operations, customer relations, flat rate manuals, safety, organizational design, pay structure, equipment, tools, and basic operational theories. Topics include the proper use of hand tools, measuring instruments, equipment; service procedures for lubrication, batteries, the cooling system, wheels and tires; and new car pre-delivery service. Prerequisite: DSPM 0850 or equivalent skills

AMT 1120
GM Automotive Brakes
3 Credit Hours 2 Lecture Hours, 2 Lab Hours
A comprehensive course in types of braking systems and their service requirements for General Motors vehicles. Topics include machine turning of brake drums and rotors, system operation, diagnosis, adjustment, testing, replacement, and repair procedures. Prerequisite: AMT 1190

AMT 1125
Automotive Brakes
3 Credit Hours 2 Lecture Hours, 2 Lab Hours
A comprehensive course in types of braking systems and their service requirements. Topics include machine turning of brake drums and rotors, system operation, diagnosis, adjustment, testing, replacement, and repair procedures. Prerequisite: AMT 1195

AMT 1130
GM Suspension and Steering
3 Credit Hours 2 Lecture Hours, 2 Lab Hours
A comprehensive study of General Motors suspension systems with emphasis on wheel alignment and suspension rebuilding. Prerequisite: AMT 1190

AMT 1135
Suspension and Steering
3 Credit Hours 2 Lecture Hours, 2 Lab Hours
A comprehensive study of suspension systems with emphasis on wheel alignment and suspension rebuilding. Prerequisite: AMT 1195

AMT 1190
GM Automotive Electricity
4 Credits 3 Class Hours, 3 Lab Hours
An introductory course in the basic concepts in D.C. and A.C. automotive electricity. Topics include Ohm’s Law, series and parallel circuits, Kirchhoff’s Voltage and Current Laws, Thévenin’s equivalent circuits, A.C. power generation, semiconductor devices with emphasis on the junction diode, the bipolar transistor, and the field effect transistor. Prerequisite: DSPM 0850 or equivalent skills

AMT 1195
Automotive Electricity
4 Credits 3 Class Hours, 3 Lab Hours
An introductory course in the basic concepts in D.C. and A.C. automotive electricity. Topics include Ohm’s Law, series and parallel circuits, Kirchhoff’s Voltage and Current Laws, Thévenin’s equivalent circuits, A.C. power generation, semiconductor devices with emphasis on the junction diode, the bipolar transistor, and the field effect transistor. Prerequisite: DSPM 0850 or equivalent skills

AMT 1230
GM Climate Control
3 Credit Hours 2 Lecture Hours, 2 Lab Hours
A comprehensive course on the principles of operation and service techniques applied to General Motors automotive heating and air conditioning systems. Topics include components, testing, diagnosing, charting, and repair practices. Prerequisite: AMT 1190

AMT 1235
Climate Control
3 Credit Hours 2 Lecture Hours, 2 Lab Hours
A comprehensive course on the principles of operation and service techniques applied to automobile heating and air conditioning systems. Topics include components, testing, diagnosing, charting, and repair practices. Prerequisite: AMT 1195

AMT 1290
GM Automotive Electronics
3 Credits 2 Class Hours, 3 Lab Hours
A continuation of AMT 1190. Topics include semiconductor devices with emphasis on the junction diode, the bipolar transistor, and the field effect transistor; electro-mechanical devices, specifically the operation and fault diagnosis and repair of self-rectifying D.C. generators; cranking motors; mechanical and electrical testing equipment used to diagnose malfunctions of the ignition systems and to determine the general condition of the engine for GM vehicles. Prerequisite: AMT 1190

AMT 1295
Automotive Electronics
3 Credit Hours 2 Class Hours, 3 Lab Hours
A continuation of AMT 1195. Topics include semiconductor devices with emphasis on the junction diode, the bipolar transistor, and the field effect transistor; electro-mechanical devices, specifically the operation and fault diagnosis and repair of self-rectifying D.C. generators; cranking motors; mechanical and electrical testing equipment used to diagnose malfunctions of the ignition systems and to determine the general condition of the engine. Prerequisite: AMT 1195

AMT 2130
GM Automatic Transmissions I
3 Credit Hours 2 Lecture Hours, 3 Lab Hours
An introductory course in GM automatic transmissions. Topics include the theory, operation, and diagnosis of automatic transmissions and the rebuilding of automatic transmissions. Corequisite: AMT 2140

AMT 2135
Automatic Transmissions I
3 Credit Hours 2 Lecture Hours, 3 Lab Hours
An introductory course in automatic transmissions. Topics include the theory, operation, and diagnosis of automatic transmissions and the rebuilding of automatic transmissions. Corequisite: AMT 2145

AMT 2140
GM Standard Trans/Drives/Diffs
3 Credit Hours 2 Lecture Hours, 2 Lab Hours
A comprehensive course on standard transmissions, drive lines and differentials. Topics include automotive drive shafts, universal joints, axles, differentials, bearings and deals, and standard shift transmissions on General Motors vehicles. Prerequisite: AMT 1190

AMT 2145
Standard Trans/Drives/Diffs
3 Credit Hours 2 Lecture Hours, 2 Lab Hours
A comprehensive course on standard transmissions, drive lines and differentials. Topics include automotive drive shafts, universal joints, axles, differentials, bearings and deals, and standard shift transmissions. Prerequisite: AMT 1195

AMT 2230
GM Automotive Engines
3 Credits 2 Class Hours, 3 Lab Hours
A comprehensive course in the operational theory of the internal combustion engines currently in use in General Motors vehicles. Topics include engine rebuilding, mechanical diagnosis, and failure analysis. Prerequisite: AMT 1100

AMT 2235
Automotive Engines
3 Credits 2 Class Hours, 3 Lab Hours
A comprehensive course in the operational theory of the internal combustion engines. Topics include engine rebuilding, mechanical diagnosis, and failure analysis. Prerequisite: AMT 1105
AMT 2240
GM Automatic Transmissions II
3 Credit Hours  2 Lecture Hours, 3 Lab Hours
A continuation of AMT 2130. Topics include transmission rebuilding on GM vehicles with emphasis on in-service automobile repair. Prerequisite: AMT 2130

AMT 2245
Automotive Transmissions II
3 Credit Hours  2 Lecture Hours, 3 Lab Hours
A continuation of AMT 2135. Topics include transmission rebuilding with emphasis on in-service automobile repair. Prerequisite: AMT 2135

AMT 2290
GM Automotive Computer Sys.
3 Credits  2 Class Hours, 3 Lab Hours
An introduction to automotive digital systems and microprocessors. Topics include the study of the on-board GM computers used to regulate, monitor, and control various systems of the vehicle. Prerequisite: AMT 1290

ART 1122
Drawing II
3 Credits  3 Class Hours
A continuation of Drawing I. Topics include concepts of the drawing media that involve color: soft or oil pastel, colored inks, and colored pencil. Emphasis is placed on the concepts involved in experimental drawing. Note: Students must purchase art supplies. Prerequisite: ART 1121

ART 1132
Design
3 Credits  3 Class Hours
An introduction to a variety of art materials, to basic principles of design (movement, rhythm, and balance), and to the art elements and their uses in art (line, tone, color, space, and texture). Note: Students must purchase art supplies.

ART 2131
Art History Survey I*
(Honors Option Offered)
3 Credits  3 Class Hours
A survey of art history that provides students with the opportunity to see how history and art are intertwined from prehistoric times to the Middle Ages. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills. ART 2131 meets the general education requirement for Humanities. *This course is part of the general education core.

ART 2132
Art History Survey II*
(Honors Option Offered)
3 Credits  3 Class Hours
A continuation of Art History Survey I that provides students with the opportunity to see how history and art are intertwined from the Renaissance to Modern times. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills. ART 2132 meets the general education requirement for Humanities. *This course is part of the general education core.

ART 2221
Painting I
3 Credits  3 Class Hours
An introduction to the fundamentals in the art of painting. Topics include fundamentals of visual representation with design and the materials involved in the making of paintings. Note: Students must purchase art supplies. Prerequisites: ART 1121 and ART 1132

ART 2222
Painting II
3 Credits  3 Class Hours
A continuation of Art 2221 in which a variety of media is explored: watercolor, gouache, acrylic, oil paint, and mixed media. Fundamental skills are emphasized and used as the foundation for more advanced techniques. Note: Students must purchase art supplies. Prerequisites: ART 1121, ART 1132, ART 2121

Sign Language Interpreting

ASL 1002
Fingerspelling
2 Credits  2 Class Hours
A study of manual dexterity, techniques in expressive lexical output, receptive continuity, the use of ASL number systems, foreign phrases, and topical terminology. Improves both receptive and expressive fingerspelling.

ASL 1003
Introduction to Interpreting
3 Credits  3 Class Hours
An introduction to basic theories, principles and practices of interpreting. Topics include the responsibilities and role of the interpreter, environments in which interpreters will be involved, and assessments within the profession. Emphasizes professionalism in interpreting through the observance of ethical standards.

ASL 1010
Foundations of Deafness
3 Credits  3 Class Hours
An overview of deafness, relevant definitions, etiology, history of deafness and deaf education, and the Deaf community and culture.

ASL 1110
American Sign Language I
3 Credits  3 Class Hours
An introduction to basic vocabulary and grammatical aspects of American Sign Language (ASL). Topics include language development, current research, and resources pertaining to Deaf culture. Student interaction with Deaf and Hard of Hearing individuals is encouraged.

ASL 1120
American Sign Language II
3 Credits  3 Class Hours
A continuation of ASL 1110 with further vocabulary development and understanding of ASL grammar. Prerequisite: ASL 1110

ASL 1130
American Sign Language III
3 Credits  3 Class Hours
A continuation of ASL 1120 with emphasis on increasing vocabulary and the ability to communicate conversationally. Includes exposure
to over 650 additional ASL vocabulary words, formal ASL structure, and conversational interactions.

**Prerequisites:** ASL 1110 and ASL 1120

**ASL 2300**  
**American Sign Language IV**  
*3 Credits*  
*3 Class Hours*

An overview of specific terminology used in various settings: educational, medical, legal, and performance. In preparation for interpreting and transliterating environments, students utilize advanced receptive and expressive skills. **Prerequisites:** ASL 1110, ASL 1112, and ASL 1130

**ASL 2110**  
**Interactive Interpreting I**  
*3 Credits*  
*1 Class Hour, 2 Lab Hours*

An introduction to the development of ASL interpreting. Topics include vocabulary, text analysis, linguistic development, and study of the interpreting process. **Prerequisites:** ASL 1003, ASL 1010, ASL 1110, ASL 1120, and ASL 1130

**ASL 2120**  
**Interactive Interpreting II**  
*3 Credits*  
*1 Class Hour, 2 Lab Hours*

A continuation of ASL 2110, with emphasis on advanced techniques and principles for specific interpreting environments. Provides an opportunity for students to increase their ASL expressive skills. **Prerequisite:** ASL 2110

**ASL 2210**  
**Contact Signing I**  
*3 Credits*  
*3 Class Hours*

An introduction to various transliterating systems: Pidgin Signed English (PSE), Signing Exact English (SEE), and other coding systems. Students gain the ability to discriminate between ASL interpretations and varying degrees of English transliterations and learn to distinguish the appropriate context for utilizing each signed system. **Prerequisites:** ASL 1003, ASL 1010, ASL 1110, ASL 1120, and ASL 1130

**ASL 2220**  
**Contact Signing II**  
*3 Credits*  
*3 Class Hours*

A continuation of ASL 2210, this course furthers vocabulary and skill development in Contact Signing for various settings: educational, legal, medical, and performance. Emphasis on transliterating skills in preparation for the Registry of Interpreters for the Deaf: Certificate of Transliteration exam. **Prerequisite:** ASL 2210

**ASL 2310**  
**Sign-to-Voice I**  
*3 Credits*  
*3 Class Hours*

An introduction to consecutive sign language interpreting (sign-to-voice, voice-to-sign). Topics include a theoretical analysis of the interpreting process, reinforcement of prerequisite language, and development of the higher level of skills. **Prerequisites:** ASL 1110 and ASL 1120

**ASL 2320**  
**Sign-to-Voice II**  
*3 Credits*  
*3 Class Hours*

A continuation of ASL 2310 with emphasis on advanced skill development and knowledge of simultaneous interpreting and transliterating skills. **Prerequisite:** ASL 1003, ASL 1010, ASL 1110, ASL 1120, and ASL 1130

**ASL 2400**  
**Working with the Deaf-Blind**  
*3 Credits*  
*3 Class Hours*

Introduces students to the various aspects of the Deaf-Blind community. Students will develop an understanding of cultural norms and various communication modes exhibited within the community. The role of the Service Support Provider (SSP) and techniques of Deaf-Blind interpreting will be studied and practiced via community involvement with instructor guidance.

**ASL 2500**  
**Interpreting Practicum**  
*4 Credits*  
*4 Class Hours*

An opportunity to observe the interpreting process in various professional work situations in order to gain awareness of community agencies and resources. Students will schedule regular observation hours; practicum experiences take place during school/work hours and require a minimum of four hours per week. **Prerequisites:** ASL 1002, ASL 1003, ASL 1010, ASL 1110, ASL 1120, and ASL 1130

**ASL 2600**  
**Interpreting Internship**  
*4 Credits*  
*4 Class Hours*

An opportunity for advanced level interpreting students to gain work experience, practical application of the role of professional service providers, and an introduction to the duties and responsibilities of interpreters in the community. The internship will be under the observation and supervision of experienced professional interpreters and addresses specific vocabulary and ethical factors in a variety of interpreting settings. **Prerequisite:** ASL 2500

**ASTR 1010**  
**Solar System Astronomy**  
*4 Credits*  
*3 Class Hours, 3 Lab Hours*

An introductory course in the astronomy of our Solar System. Topics include the history of astronomy, astronomical coordinates, Newton’s Laws, gravitation, properties of light, kinds of telescopes and their uses, the Moon, eclipses, the Sun and its planets, asteroids, comets, and other interplanetary objects. **Prerequisites:** DSPR 0800 and DSPM 0800

*This course is part of the general education core.*

**ASTR 1020**  
**Stellar and Galactic Astronomy**  
*4 Credits*  
*3 Class Hours, 3 Lab Hours*

An introductory course in the astronomy of stars and galaxies. Topics include the history of astronomy, astronomical coordinates, Newton’s Laws, gravitation, properties of light, kinds of telescopes and their uses, the Sun, stars, and stellar properties, nebulae, star clusters, galaxies and galactic distributions, pulsars, quasars, neutron stars, black holes, and cosmology. **Prerequisites:** DSPR 0800 and DSPM 0800

*This course is part of the general education core.*

**BIOL 1000**  
**Medical Terminology**  
*3 Credits*  
*3 Class Hours*

Medical terms, abbreviations and definitions with associated anatomy. Topics include roots, prefixes, and suffixes commonly used in the medical field and terminology related to body systems and disorders.

**BIOL 1004**  
**Basic Anatomy/Physiology**  
*3 Credits*  
*3 Class Hours*

An introduction to human anatomy and physiology. Topics include the cell, and organ systems including integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive.

**BIOL 1006**  
**First Aid and CPR**  
*3 Credits*  
*3 Class Hours*

Cardiopulmonary resuscitation and first aid including the use of an Automatic External Defibrillator (AED). Topics include adult and infant CPR (both one-man and two-man), basic first aid and AED use.

Course Descriptions
**BIOL 1010**  
Intro to Biology I*  
(non-science majors only)

<table>

A continuation of Intro to Biology I, this course surveys the kingdoms of life, with particular attention to the animal and plant kingdoms. In the animal kingdom, there is an emphasis on the human organism and its organ systems. In the plant kingdom, there is an emphasis on structure, nutrition, and reproduction. It is strongly recommended that one successfully complete Intro to Biology I (BIOL 1010) before taking this course. This course does not fulfill the science requirement for biology majors. *Prerequisite: DSPR 0800*  

* This course is part of the general education core.

**BIOL 1110**  
General Biology I*  
(science majors only)

A comprehensive course suitable for biology majors and minors. Fulfills the science requirement for pre-medicine, pharmacy, pre-medical technology, pre-veterinary medicine, and pre-dentistry programs. Topics include the unifying principles found in all organisms, their molecular and cellular basis, the mechanisms of heredity, the interrelationships of organisms, and their evolution. *Prerequisite: DSPR 0800*  

* This course is part of the general education core.

**BIOL 1120**  
General Biology II*  
(science majors only)

A continuation of General Biology I and is suitable for biology majors and minors. Fulfills the science requirement for pre-medicine, pharmacy, pre-medical technology, pre-veterinary medicine, and pre-dentistry programs. The kingdoms of life and representative organisms are discussed, with particular attention to the Kingdoms Animalia and Plantae. Emphasis is placed on the tissues, organs, and physiology of representative members. *Prerequisite: BIOL 1110*  

* This course is part of the general education core.

**BIOL 1215**  
Principles of Nutrition

<table>
<thead>
<tr>
<th>Credits</th>
<th>Class Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>3</td>
</tr>
</tbody>
</table>

A course in human nutrition with emphasis on scientific principles, metabolism, and requirements for nutrients. Topics of interest to those in health care and related professions are stressed. *Prerequisite: DSPR 0800 and DSPM 0800*  

**BIOL 2000**  
Independent Research

1-4 Credits

This is a general elective science course intended for students majoring in the sciences. This course is designed to introduce students to the basic principles of conducting scientific research. Students will be taught experimental design and allowed to conduct independent research in conjunction with a class project. Students will be responsible for collecting, analysing and interpreting their own data; and incorporating their results into the larger framework of the class project. In addition, students will be required to write a scientific paper following appropriate format and present their findings to an open forum. Research projects will be under the supervision of faculty. *Prerequisite: Instructor permission*

**BIOL 2010**  
Anatomy and Physiology I*

<table>
<thead>
<tr>

A continuation of BIOL 2010 designed primarily for students interested in health-related fields that will count as a biology elective. Topics include the cardiovascular, respiratory, immune, urinary, digestive, reproductive, and endocrine systems. *Prerequisite: DSPR 0800 and BIOL 2010*  

* This course is part of the general education core.

**BIOL 2211**  
General Botany*

4 Credits  
3 Class Hours, 3 Lab Hours

A course in the anatomy, physiology, reproduction and taxonomy of lower to higher plants. Topics include organization of plant cells and tissue systems, morphology, respiration and photosynthesis, genetics, growth and development, environmental factors, nutrition, ecology, and mechanisms of evolution. *Prerequisite: DSPR 0800.*  

* This course is part of the general education core.

**BIOL 2230**  
Microbiology

4 Credits  
3 Class Hours, 3 Lab Hours

This is a comprehensive course that stresses applied microbiology and the roles of microbes in health and disease. Topics include microbial structure, growth, metabolism, genetics, ecology, and systematics with emphasis on the pathology of bacteria, viruses, fungi, and protozoa. *Prerequisite: DSPR 0800*
Banking

BNK 2110 Principles of Banking
3 Credits 3 Class Hours
An introduction to banking services and functions, including loans, investments, and trust operations. Topics include basic principles of banking transactions and item processing, focusing on deposit and payment functions of banking, procedures and forms relative to opening accounts, cash and collection item processing, proof operations, paying and returning checks, and bookkeeping functions, internal controls and external regulations. Prerequisite: DSPR 0800

BNK 2115 Consumer Lending
3 Credits 3 Class Hours
An introduction to the fundamental principles of extending consumer credit. Topics include studying and practicing taking loan applications, verifying credit histories, evaluating credit reports, making credit decisions, processing and disbursing the loan, and recognizing the importance of collateral, exercises in computing interest charges and rebates, insurance of consumer credit, pricing of loans, collections, and consumer compliance. Prerequisites: DSPR 0800 and DSPM 0700

BNK 1215 Commercial Bank Management
3 Credits 3 Class Hours
An introduction to the study and application of principles of bank management. Topics include objectives, planning, structure, control, and the interrelationship of various bank departments, trends that have emerged in philosophy and practice of bank management, and case studies stressing current bank problems. Prerequisite: DSPR 0800

BNK 2110 Money and Banking
3 Credits 3 Class Hours
An introduction to basic economic principles most closely related to the subject of money and banking. Topics include the application of the economics of money and banking in the individual bank and in the banking system; the nature and functions of money and the money supply; financial intermediation and the various financial markets; the Federal Reserve System, its policies and operation. Prerequisites: DSPR 0800 and DSPM 0700

BNK 2230 Investment Basics
3 Credits 3 Class Hours
Studies basic information on investments in securities, options, commodities, tax shelters, art, and more. Topics include traditional and modern methods of analyzing investment opportunities for the beginning investor, trading in the securities market (using real prices and making their own decisions) by using a special microcomputer software package. Prerequisites: DSPR 0800 and DSPM 0700 or equivalent skills

Business

BUS 1050 Legal Issues for the Web
3 Credits 3 Class Hours
Studies Internet law and guidelines for putting existing material online. Topics include creating material specifically for the Internet, using material found on the Internet, e-commerce, and educational aspects of the Internet, and the rules that affect business. Prerequisites: DSPR 0800 and DSPW 0700

BUS 1113 Intro to Business
3 Credits 3 Class Hours
An introduction to the private enterprise system. Topics covered include forms of business organizations, business finance, human resource management, production, entrepreneurship, business ethics, marketing, and the changing business environment. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 1262 Business Insurance
3 Credits 3 Class Hours
Studies the fundamental principles of risk and risk management as they apply to small business. Topics include the nature of risk and risk bearing, how insurance handles risk, and risk management. Course content includes liability, transportation, workman’s compensation, life and health, bonds, fire and marine, and employee benefit plans.

BUS 2111 Organizational Behavior
3 Credits 3 Class Hours
Studies the importance of understanding human relations in the workplace and how interpersonal relationships have evolved in this century from an emphasis on production to an emphasis on developing and utilizing the whole person. Topics include communication, conflict, motivation, power, decision making, and self-esteem. Prerequisites: DSPR 0800 and DSPW 0700

BUS 2240 Personal Money Management
3 Credits 3 Class Hours
An introduction to planning personal financial objectives. Topics covered include budgeting, consumer borrowing, renting and buying, insurance, taxation, investing, and planning for retirement. Prerequisites: DSPR 0800 and DSPM 0700
BUS 2250  
Human Resource Management  
3 Credits 3 Class Hours  
Studies basic principles of managing human resources. Topics include laws that relate to all aspects of HR function, planning, job analysis, job specifications, employee selection, training and development, performance evaluations, salary determination, benefits, labor relations, and current techniques used to improve productivity and morale. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 2310  
Business Ethics  
3 Credits 3 Class Hours  
An introduction to basic ethical theories and value systems. Topics include application of these perspectives including moral issues, problems, and situations which arise within the business environment. Topics include codes of ethics, conflict of interest, social responsibility, the work ethic, and fiduciary responsibilities. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 2311  
Leadership  
3 Credits 3 Class Hours  
Studies the nature and attributes of leadership through case studies and biographies. Topics include the difference between leadership ability and management skills as well as identifying traits and abilities which have distinguished effective leaders from ineffective ones. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 2315  
Business Statistics  
3 Credits 3 Class Hours  
Studies statistical methodology and techniques used to describe, interpret and evaluate statistical data in business. Topics include calculating the principal measures of central tendency and dispersion, probability relationships and distribution, sampling procedures, tests for significance of sampling inferences, and correlation and regression analysis. Computer applications are emphasized. Prerequisite: DSPM 0850

BUS 2400  
Principles of Management  
3 Credits 3 Class Hours  
Studies how a business organization works and the relationships of the people within the organization. Topics include managerial functions, motivation of employees, the decision-making process, communication, responsibility, authority, and personnel management through class discussion and case studies. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 2600  
Business Law: Contracts  
3 Credits 3 Class Hours  
An introduction to the study of law in relation to the proper conduct of business. Topics include the nature and source of law, courts and courtroom procedure, contracts, and sales. There is an emphasis on the elements of contract law including offer, acceptance, consideration and legality. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 2610  
Business Law: Property  
3 Credits 3 Class Hours  
An introduction to the study of law in relation to the proper conduct of business. Topics include debtor-creditor relations, forms of business organization, franchising, securities regulation, property, wills and estates, trusts, international business, and intellectual property. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

BUS 2650  
Legal Environment of Business  
3 Credits 3 Class Hours  
An introduction to the legal rights and liabilities of businesses. Topics include the legal environment of business; development and nature of the legal system; ownership, torts and contracts; crimes, torts and product liability, agency and labor laws, consumer protection statutes, regulatory powers, and legislative, judicial, and administrative controls. Prerequisites: DSPR 0800 and DSPW 0700

BUS 2900  
Management Applications  
3 Credits 3 Class Hours  
Integrates the student’s knowledge of the basic functional areas of business into a general strategic perspective for managing the entire organization. Topics include case studies and secondary research sources that will be utilized to analyze a broad range of business problems and managerial decision making. Required: A student must be completing the last semester of studies at Nashville State to enroll in this course. Program Coordinator approval required.

Computer-Aided Drafting

CAD 1200  
Computer-Aided Drafting I  
3 Credits 1 Class Hour, 4 Lab Hours  
An introductory course using the AutoCAD software. Topics include familiarization with computers and the basic elements of computer-aided drafting as it is used in professional practice. The student gains hands-on experience at the computer while working on a variety of drafting exercises in various disciplines. Students will complete this class with entry-level computer-aided drafting skills.

CAD 1301  
Computer-Aided Drafting II  
2 Credits 6 Lab Hours  
An intermediate level CAD class designed to follow CAD 1200 with more in-depth drafting exercises using computer-aided drafting software. Topics include advanced features and productivity enhancing techniques. Students will also be introduced to three-dimensional drawing techniques. After completing this class, students will have a more in-depth knowledge of CAD and the techniques used to enhance speed and accuracy, as well as a better understanding of various drafting disciplines. Prerequisite: CAD 1200

CAD 1510  
CAD Final Project  
2 Credits 2 Class Hours  
Final class for a Computer-Aided Drafting Certificate. Students will utilize information obtained from previous classes to present a project of their choice. This project will be a set of commercial grade drawings to be used as a portfolio.

CAD 1600  
3D Design/Modeling SolidWorks  
3 Credits 4 Class Hours  
A “hands-on” learning experience in the methods and use of 3D design using SolidWorks. The students will learn the methods and practices of designing individual components as well as entire assemblies. Modeling, editing, and presentation practices are integral parts of the learning experience along with real world lessons involving the theory and techniques outlined in this class. Prerequisite: CAD 1200 or instructor permission

Nashville State
**Chemistry**

**CHEM 1010**
Intro to Chemistry
3 Credits 3 Class Hours
An introduction to chemical principles and concepts. Topics include properties of matter, elements and compounds, atomic structure, periodic properties, chemical bonding and reactivity, energy relations, organic chemicals and polymers, toxic substances, and environmental chemistry. Prerequisite: DSPM 0800

**CHEM 1030**
Fundamentals of Chemistry*
4 Credits 3 Class Hours
An introduction to the fundamental concepts of General, Organic and Biological Chemistry. Topics include measurements, energy and matter, atoms and elements, compounds and their bonds, chemical reactions and quantities, gases, solutions, acids and bases, saturated and unsaturated hydrocarbons, organic compounds, carbohydrates, lipids, amino acids, proteins and enzymes, and metabolic and energy pathways. Prerequisite: DSPM 0800
* This course is part of the general education core

**CHEM 1110**
General Chemistry I*
4 Credits 3 Class Hours, 3 Lab Hours
An in-depth study of the fundamental concepts of chemistry. Topics include matter and measurement, atomic and molecular structure, nomenclature, formulas and equations, stoichiometry, aqueous reactions, thermochemistry, periodic trends, molecular geometry, and chemical bonding. Prerequisite: DSPM 0850 (MATH 1130 College Algebra highly recommended)
* This course is part of the general education core.

**CHEM 1120**
General Chemistry II*
4 Credits 3 Class Hours, 3 Lab Hours
A continuation of CHEM 1110. Topics include gases, solutions, acids and bases, chemical equilibrium, thermodynamics, kinetics, electrochemistry, oxidation and reduction reactions, and an introduction to organic chemistry. Prerequisite: CHEM 1110
* This course is part of the general education core.

**CHEM 2010**
Organic Chemistry I
4 Credits 3 Class Hours, 3 Lab Hours
A study of carbon compounds, their preparations, structures, nomenclature, properties, and reactions. Topics include alkanes, alkenes, alkynes, cyclo-alkanes, alkyl halides, aromatics, and stereo-chemistry. The lab component stresses skills in synthesis, extraction, purification, separation, and characterization of organic compounds. Prerequisites: CHEM 1120

**CHEM 2020**
Organic Chemistry II
4 Credits 3 Class Hours, 3 Lab Hours
A continuation of CHEM 2010. Topics include spectroscopy, alcohols, ethers, aldehydes, ketones, carboxylic acids, and amines. The lab component stresses skills in synthesis, extraction, purification, separation, and characterization of organic compounds. Prerequisite: CHEM 2010

**Computer Information Systems**

**CIS 1000**
Computer Literacy
1 Credit 1 Class Hours
An introduction to microcomputers and application software used in today's society. Students will gain familiarity with basic file management, word processing, spreadsheets, course management, presentation software and the Internet. The course provides hands-on experience. Note: For majors that require a specific course to fulfill the computer competency requirement, CIS 1000 may not be used in place of the designated course.

**CIS 1010**
Intro Information Technology
3 Credits 3 Class Hours
This course is designed to provide the student with an useful and updated introduction to information technology. Topics will include computer hardware, the internet, application software, system software, networking and security, and mobile computing. In addition, students will work together in teams and also learn how to create PowerPoint presentations. Prerequisite: DSPR 0700

**CIS 1030**
Program Logic and Design
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the basic logic necessary in business applications programming. Topics include logic analysis, techniques of structured design, flowcharting, and a hands-on tool for implementing programming techniques. Prerequisite: DSPR 0800, DSPM 0800

**CIS 1040**
Business for Information Tech.
3 Credits 2 Class Hours, 2 Lab Hours
Fundamental principles and issues of information technology as an organizational resource. The primary purpose is to provide an awareness of the role of information technology in providing computer-based solutions to business problems. Business process as well as evaluation, selection and acquisition of information technologies will be explored through case studies. Prerequisites: DSPW 0800, DSPR 0800

Note: For majors that require a specific course to fulfill the computer competency requirement, CIS 1000 may not be used in place of the designated course.
CIS 1050
Internet Business Foundations
3 Credits 2 Class Hours, 2 Lab Hours
Overview of the theoretical and practical aspects of business on the Internet. Topics include job roles, connection methods and protocols, DNS, cookies, and plug-ins. Browsers will be used to download and manage files, defining databases, distinguishing among Web search engines, and conducting basic and advanced Web searches. Students learn to configure e-mail clients and use e-mail and various Internet services and tools, communicate effectively over the Internet, identify Internet security measures, and apply project management concepts and skills to various IT job roles.
Corequisites: COM 1000, CNT 1005

CIS 1055
Introduction to Computer Crime
3 Credits 2 Class Hours, 2 Lab Hours
Provides an overview of criminal acts that can be committed with the use of a computer and the Internet, how computer related crimes are committed and how computer related crimes are investigated. The legal issues involved in the prosecution of computer related crimes will also be explored.
Prerequisites: DSPW 0800, DSPR 0800, AIS 1180 (with min. grade of C) or instructor permission

CIS 1060
Project Management
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the creation of dynamic, database-driven Web applications. Includes Dreamweaver, a Web authoring product to create robust pages, and develop dynamic applications using ColdFusion. Topics include site management, libraries, snippets, extensions, CSS, behaviors, CFML, scope, and charting.
Prior knowledge of SQL required
Prerequisite: CIS 2230 (With a minimum grade of C) and [COM 1000 (With a minimum grade of C) or CIS 2170 (With a minimum grade of C)]

CIS 2190
ASP.Net Applications Dev.
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to Web server application programming techniques using Microsoft’s Active Server Page (ASP).Net technology and the Visual Basic.Net language. Topics include: ASP and IIS concepts, CSS, Web Forms, HTML server controls, ASP WebForm controls, validation, XML control, database stored procedures, bound data controls, database application coding, Web services and mobile applications. Prerequisite: CIS 2270 (With a minimum grade of C)

CIS 2215
Basic Programming for Eng Tech.
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the Basic programming language. Topics include syntax of the Basic language, flowcharting and pseudocode, logical solutions, documenting solutions, output formatting and simple plotting techniques. Prerequisite: DSPM 0800

CIS 1070
IT Support Skills
3 Credits 2 Class Hours, 2 Lab Hours
Introduces the students to the basics of delivering support within an organization. The student will learn how to efficiently prepare, accomplish, document, evaluate, and present the research to the customer. Special emphasis is given to customer service soft skills. Prerequisites: DSPW 0800, DSPR 0800, DSPM 0800

CIS 2217
Visual Basic.Net
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the Visual Basic.Net programming language. Topics include basic concepts of programming, problem solving, and programming logic, and design techniques of an object-oriented language. Also includes business applications design and implementation, creating graphical user interfaces, objects, properties, values, events, object-oriented design concepts, class modules and database access. Prerequisite: CIS 2270 (With a minimum grade of C)

CIS 2218
Advanced Visual Basic.Net
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of CIS 2217. Delves deeper into the object-oriented approach to programming by creating and manipulating class objects and database manipulation using ADO.Net and web design using ASP.Net. Prerequisite: CIS 2217 (With a minimum grade of C)

CIS 2220
Intro to C++ Programming
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the various programming concepts of the C++ language using the Microsoft Visual C++.Net integrated development environment. Includes the basic syntax of the language and object-oriented programming properties such as encapsulation, inheritance, and polymorphism. Hands-on exercises will illustrate the above properties through the design and creation of C++ classes. Prerequisite: CIS 2270 (With a minimum grade of C)

CIS 2230
Database Concepts
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the concepts and syntax of relational database management systems for microcomputers. Topics include data modeling, database design concepts including normalization, and their application through the creation of tables, queries using both QBE and SQL, forms and reports using the tools provided in a relational DBMS. Prerequisite: CIS 1030 (With a minimum grade of C)
CIS 2240  
**Systems Analysis and Design**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to the concepts of Systems Analysis and Design. Topics include designing and prototyping a computerized business solution for the microcomputer platform, system development life cycle, and detailed systems specifications. Time outside of class for team projects will be required. **Prerequisites:** CIS 2270 (With a minimum grade of C)

CIS 2270  
**Java Application Development**  
3 Credits  
2 Class Hours, 2 Lab Hours  
Introduces the programming concepts of the Java application development language. Topics include Java compilers and interpreters, application development concepts, class methods, inheritance, objects, events, error handling, applets, database manipulation, and other concepts related to developing Java applications. **Prerequisite:** CIS 1030 (With a minimum grade of C)

CIS 2275  
**JavaScript Fundamentals**  
3 Credits  
2 Class Hours, 2 Lab Hours  
Teaches developers how to use the features of the JavaScript language to design client-side, platform-independent solutions. Students learn how to write JavaScript programs, script for the JavaScript object model, control program flow, validate forms, animate images, target frames, and create cookies. Also covers the most popular applications of JavaScript. **Prerequisite:** CIS 1030 (with minimum grade of C), COM 1000 (With minimum grade of C)

CIS 2300  
**XML Document Design**  
3 Credits  
2 Class Hours, 2 Lab Hours  
XML Document Design is a course that teaches developers how to create intelligent structured documents using the Extensible Markup Language (XML). Students will study the functions and relationships between XML and other members of the XML family of technologies, including Extensible Hypertext Markup Language (XHTML), Extensible Stylesheet Language (XSL), XPath, XLink, namespaces, schemas, and Extensible Stylesheet Language Transformation (XSLT). Students will create and apply styling to XML documents in a series of hands-on labs that focus on the development of coding conventions and compliance with the rules for well-formed XML. **Prerequisite:** GNT 1005

CIS 2320  
**Intro to C#**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to C#. Topics include fundamentals of Microsoft's Visual C#.NET. Exercises will build console-based and Windows applications. Illustrates use of the .NET predefined types, their member methods, data fields, and properties using an object oriented approach to application development. Covers techniques used to create user-defined classes and stand alone class libraries. **Prerequisites:** CIS 2217 (With a minimum grade of C)

CIS 2330  
**Oracle Database 10g SQL**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to the Oracle Database 10g relational database concepts and the powerful SQL programming language. Topics include essential SQL skills of querying the database, the meta data and creating database objects. In addition, the course also delves into the advanced querying and reporting techniques, data warehousing concepts and manipulating large data sets in different time zones. **Prerequisite:** CIS 2230 (With a minimum grade of C)

CIS 2340  
**Oracle Database 10g PL/SQL**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to Oracle PL/SQL. Topics include benefits of this powerful programming language. Students learn to create PL/SQL blocks of application code that can be shared by multiple forms, reports, and data management applications. Students learn to create anonymous PL/SQL blocks, stored procedures, and functions. Students also develop stored procedures, functions, packages and database triggers. **Prerequisite:** CIS 2330 (With a minimum grade of C)

CIS 2350  
**SQL Server**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to the Microsoft SQL Server relational database concepts plus the powerful SQL and Transact-SQL programming language. Topics include relational database architecture, database design techniques, and simple and complex query skills. Structured Query Language (Transact-SQL) in the Microsoft SQL Server environment, DTS packages and transformations; transact SQL queries; creating views; creating and tuning indexes; building transactions & triggers and creating stored procedures. **Prerequisites:** CIS 2230 (With a minimum grade of C) or CIS 2235 (With a minimum grade of C)

CIS 2370  
**Advanced Java**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to the Java 2 Enterprise Edition (J2EE) architecture and its Web services technology. Topics covered will consist of database concepts and the Java data object (JDBC/ODC), Java and XML, Java ServerPages (JSP), and Enterprise JavaBeans (EJB). Oracle's JDeveloper integrated development environment will be used to create applications using the above topics as well as its Business Components for Java (BC4J) features. **Prerequisites:** CIS 2270 (With minimum grade of C)

Civil and Construction Engineering Technology

CIT 1220  
**Materials/Methods Construction**  
3 Credits  
3 Class Hours  
An introduction to construction materials and procedures. Topics include responsibilities of the contract parties, the subsurface report, excavating, dewatering, earthworks, foundations, walls, and frames. Materials discussed include concrete, steel, masonry, timber, copper, aluminum, and glass. **Corequisite:** ENGL 1010

CIT 1230  
**Testing of Materials**  
2 Credits  
1 Class Hour, 3 Lab Hours  
An introduction to the standard tests used on construction sites. Topics include methods of testing soils and concrete and evaluation of test results. Tests include mechanical analysis, moisture content, Atterberg Limits, hydrometer analysis, unconfined compression, compaction, field density, concrete slump and cylinder. **Corequisite:** DSPM 0850 or equivalent skills

CIT 2110  
**Structural Mechanics**  
3 Credits  
3 Class Hours  
An introductory course on structural analysis to acquaint the student with the forces and loads acting on structures and how they are resisted by the structural system. Topics include components and resultants of forces; equilibrium equations; reactions for beams, frames, and trusses; centroids; moments of inertia; shear and moment diagrams; and analysis of trusses. Students analyze structures with both calculators and computers. **Prerequisite:** MATH 1730

Course Descriptions
CIT 2114
Construction Management
3 Credits 3 Class Hours
A comprehensive course designed to familiarize the students with all aspects of a light or heavy construction project. Topics include responsibility and authority, construction documents, contracts, construction law, safety, planning and scheduling, materials and workmanship, and change orders. Prerequisite: CIT 1220

CIT 2131
Surveying I
4 Credits 3 Class Hours, 3 Lab Hours
An introductory course in land surveying. Emphasis is on the basics of field and office work. Topics include errors and accuracy, layout, azimuths, leveling, coordinate system, traverses, topographic mapping, area, volume, construction surveys, radial surveys and introduction to use of data collectors. Laboratory exercises explore the use of the steel tape, automatic level, transit, theodolite, and electronic distance measuring devices. Prerequisite: MATH 1730

CIT 2200
Hydraulics and Water Systems
4 Credits 4 Class Hours
An introductory course in water flow and Environmental Engineering Technology. Topics include pressure and gravity flow in pipes, sources, treatment, storage, and delivery of potable water; sewer lines and collection of wastewater; and treatment and disposal of wastewater and sludge. Prerequisite: MATH 1730

CIT 2301
Hydrology and Site Design
3 Credits 1 Class Hour, 4 Lab Hours
An advanced course designed to use students’ prior knowledge of drafting, surveying, and hydraulics in the subdivision and development of property. Topics include storm water runoff and storm sewer systems, street pattern variables and intersections, site planning, utilities, and earthwork calculations. Students will be required to present work using AutoCAD. Prerequisites: CAD 1200 and MATH 1730

CIT 2311
Surveying II
4 Credits 3 Class Hours, 3 Lab Hours
A continuation of CIT 2131. Topics include horizontal circular curves, spiral curves, vertical curves, boundary surveys, construction surveys, slope stakes, celestial observations, state plane coordinates, triangulation, and resection. Laboratory exercises are on the layout of horizontal curves, slope stakes, celestial observations and introduction to GPS. Prerequisite: CIT 2131

CIT 2400
Structural Design
3 Credits 3 Class Hours
A continuation of CIT 2110. Emphasis is placed on the design and of elements of wood structural elements, structural steel elements according to the AISC Code and reinforced concrete buildings according to the ACI Code. Topics include the design of wood beams and columns, steel members, trusses, connections and splice concrete beams, columns, walls, slabs, foundations, and the detailing of steel members and reinforcing bars. Prerequisite: CIT 2110

Computer Networking Technology

CNT 1005
Intro. to Computer Networks
3 Credits 3 Class Hours
A broad-based course that provides an overview of computer networking. Topics include services, networks, voice and data communications, and equipment. Prerequisites: DSPR 0800, DSPW 0800

CNT 1010
Survey of Computer Networking
4 Credits 4 Class Hours
An introduction to Computer Networking Technology. Topics include clients, servers, communications media, network operating systems, communication protocols, bridges, routers, repeaters, hubs, wireless, and other networking components and procedures. Prerequisites: DSPR 0800, DSPM 0700

CNT 1050
NetWare Administration
4 Credits 4 Class Hours
An introduction to Novell NetWare. Topics include client configuration, server configuration, NDS, network printing, user administration, and security. Restricted enrollment: Degree seeking students only. Prerequisites: CNT 1010, CPT 1510, CNT 1170

CNT 1060
Cisco Routers I
4 Credits 4 Class Hours
CCNA 1: Networking Basics is the first of four courses leading to the Cisco Certified Network Associate (CCNA) designation. Introduces Cisco Networking Academy Program students to the networking field. Topics include: Network terminology, Network protocols, Local-area networks (LANs), Wide-area networks (WANs), Open System Interconnection (OSI) model, Cabling, Routers, Router programming, Ethernet Internet Protocol (IP) addressing, Network standards. Prerequisites: DSPR 0800, DSPM 0700

CNT 1090
Wireless Networking
4 Credits 4 Class Hours
This course focuses on the design, installation, configuration, operation, and troubleshooting of 802.11a, 802.11b, and 802.11g wireless LANs. A comprehensive overview of wireless technologies, devices, security, design, and best practices with a particular emphasis on real world applications and skills is covered. Prerequisites: CNT 1010 or CNT 1060

CNT 1110
Cisco Routers II
4 Credits 4 Class Hours
CCNA 2: Routers and Routing Basics is the second of four CCNA courses leading to the Cisco Certified Network Associate (CCNA) designation. Focuses on initial router configuration, Cisco IOS Software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Students will develop skills on how to configure a router, manage Cisco IOS Software, configure routing protocol on routers, and set the access lists to control the access to routers. Prerequisite: CNT 1060

CNT 1170
Microsoft Professional OS
4 Credits 4 Class Hours
An introduction to Microsoft Windows XP Professional. Topics include operating system installation and configuration, network administration tasks, user profiles, shared resources, network planning and implementation, and security. Prerequisites: DSPR 0800, DSPM 0700

CNT 2050
NetWare Advanced Admin.
4 Credits 4 Class Hours
A continuation of CNT 1050. Topics include advanced administration concepts, NetWare networks, upgrading from a NetWare 4 or 5 environments, executing Java-based utilities, network backup and configuring NetWare 6 for remote access. Restricted enrollment: Degree seeking students only. Prerequisites: CNT 1050
Course Descriptions

CNT 2130  Applied Networking
5 Credits  4 Class Hours
A capstone course in Computer Networking Technology. Topics include Novell servers, Windows servers, UNIX servers, all media types, switches, routers, hub, bridges, gateways, and network security. **Prerequisites:** CNT 1050, CNT 1160, CNT 2350, CPT 2425  
**Corequisite:** CNT 2450

CNT 2280  Network Infrastructure Design
4 Credits  4 Class Hours
An introduction to Windows Network Infrastructure. Topics include networking services infrastructure design, domain, DHCP, Internet Protocol (IP) address configuration support, Open Shortest Path First (OSPF), Routing Information Protocol (RIP), and Internet Group Management Protocol (IGMP), and IP routing scheme. **Prerequisite:** CNT 2350

CNT 2350  Windows Server Administration
4 Credits  4 Class Hours
An introduction to Microsoft Windows Server. Topics include operating system installation and configuration, network configuration, shared resources, network security, and network domains. **Prerequisite:** CNT 1010, CNT 1170, CPT 1510

CNT 2360  Windows Active Directory
4 Credits  4 Class Hours
A study of Microsoft Windows Active Directory. Topics include administrative tasks required to centrally manage large numbers of users and computers, multiple domains, and active directory. **Prerequisite:** CNT 2350

CNT 2410  Cisco Routers III
4 Credits  4 Class Hours
CCNA 3: Switching Basics and Intermediate Routing is the third of four courses leading to the Cisco Certified Network Associate (CCNA) designation. Focuses on advanced IP addressing techniques: Variable Length Subnet Masking (VLSM); Intermediate routing protocols such as RIP v2, single-area OSPF, and EIGRP; Command-line interface configuration of switches, Ethernet switching, Virtual LANs (VLANs), Spanning Tree Protocol (STP), VLAN Trunking Protocol (VTP), and students will be required to apply lessons from CCNA 1 and 2 to a network and should be able to explain how and why a particular strategy is used. **Prerequisite:** CNT 1160

CNT 2420  Cisco Routers IV
4 Credits  4 Class Hours
CCNA 4: WAN Technologies is the last of four courses leading to the Cisco Certified Network Associate (CCNA) designation. The course focuses on the following topics: Advanced IP addressing techniques, Network Address Translation (NAT), Port Address Translation (PAT), Dynamic Host Configuration Protocol (DHCP), WAN technology and terminology, PPP, ISDN, DDR, Frame Relay, and Network management. Students will be required to apply information from CCNA 1, CCNA 2, and CCNA 3 to a network and should be able to explain how and why a particular strategy is used. This course will also help students prepare for the CCNA exam. **Prerequisite:** CNT 2410

CNT 2430  Cisco Routers V
4 Credits  4 Class Hours
CCNP 1: Advanced Routing is the first of four courses leading to the Cisco Certified Network Professional (CCNP) designation. Introduces Cisco Networking Academy Program students to scaling IP networks. Students learn to use VLSM, private addressing, and NAT optimize IP address utilization. The majority of the course content related to learning how to implement the RIPv2, EIGRP, OSPF, IS-IS, and BGP routing protocols. Details the important techniques used for route filtering and route redistribution. **Prerequisite:** CNT 2420 or CCNA certification

CNT 2440  Cisco Routers VI
4 Credits  4 Class Hours
CCNP 2: Remote Access is the second of four courses leading to the Cisco Certified Network Professional (CCNP) designation. Introduces students to the implementation of Cisco routers in WAN applications. The course focuses on the selection and implementation of the appropriate Cisco IOS services required to build intranet remote access links. Students will develop skills with the specific WAN technologies of analog dialup, ISDN BRI and PRI, Frame Relay, broadband, and VPN. Stresses the design, implementation, operation, and level 1 troubleshooting of common WAN connectivity options. **Prerequisite:** CNT 2420 or CCNA certification

CNT 2450  Network Security
4 Credits  4 Class Hours
An introduction to network security concepts and application. Topics include securing a single computer, peer-to-peer networks, and worldwide client/server networks. **Prerequisites:** CNT 2350

CNT 2530  Cisco Routers VII
4 Credits  4 Class Hours
CCNP 3: Multilayer Switching is the third of four courses leading to the Cisco Certified Network Professional (CCNP) designation. Introduces students about the deployment of the state-of-the-art campus LANs. The course focuses on the selection and implementation of the appropriate Cisco IOS services to build reliable scalable multi-layer switched LANs. Develops skills with VLANs, VTP, STP, inter-VLAN routing, multi-layer switching, redundancy, Cisco AVVID solutions, QoS issues, campus LAN security, and emerging transparent LAN services. This hands-on, lab-oriented course stresses the design, implementation, operation, and troubleshooting of switched and routed environments. **Prerequisite:** CNT 2420 or CCNA certification

CNT 2540  Cisco Routers VIII
4 Credits  4 Class Hours
CCNP 4: Network Troubleshooting is the last of four courses leading to the Cisco Certified Network Professional (CCNP) certification. CCNP 4 Includes troubleshooting network problems and focuses on documenting and baselining a network, troubleshooting methodologies and tools, and Layers 1 to 7 troubleshooting. **Prerequisite:** CNT 2430, CNT 2440, CNT 2530

CNT 2550  Fund. of Network Security I
4 Credits  4 Class Hours
Focuses on security policy design and management; security technologies, products and solutions, installation, configuration and maintenance of a secured Cisco router environment. Security features such as AAA, IDS, NAT, and VPN will be implemented on a router. **Prerequisite:** CNT 2420 or CCNA certification
COM 1000  
Beginning HTML  
3 Credits  3 Class Hours  
A beginning course in HTML, providing instruction in creating Web pages. Students will learn to write HTML code by hand using a basic text editor. Topics include using HTML tags to format headings and text, to display images, and to create lists, links, tables, frames, and forms. Prerequisites: DSPR 0700, DSPW 0700, and basic computer and Web navigation skills.

COM 1010  
Basic Web Design  
3 Credits  3 Class Hours  
Presents the principles for planning and designing attractive and informative Web pages and Web sites. Explores the factors that affect Web layout and design, such as browser choice, screen resolution, navigation, connection speed, typography, graphics, and color. Prerequisites: DSPW 0700, DSP 0700, basic computer and Web navigation skills.

COM 1020  
Basic Web Graphics  
3 Credits  3 Class Hours  
An introductory class using a graphics program, scanner, and other digital devices to create and edit graphic images for Web pages. Projects will be included to allow students to demonstrate mastery of the use of a graphics program. This course is taught using Photoshop®. Prerequisite: COM 1000.

COM 1040  
Presentation Media  
3 Credits  3 Class Hours  
An introduction to the development of effective visual presentations and slide shows in the digital environment using Keynote® and other applications. Prerequisites: DSPW 0700 and DSPR 0700. Basic computer skills (see special requirements in program description).

COM 1111  
Graphic Processes  
3 Credits  2 Class Hours, 2 Lab Hours  
Acquaints the beginning student with graphic arts processes, techniques, and terminology. Topics in color, paper stocks, production workflows, printing operations, safety, and bindery systems are presented. Projects acquaint students with the use of design tools and techniques. Prerequisites: DSPW 0700 and DSPR 0700.

COM 1120  
Visual Communications Business  
3 Credits  3 Class Hours  
Explores the relevant ethical and legal implications of the normal activities and transactions in the visual communications workplace. Specific topics include organizational structures, careers, job sheets, time sheets, estimates, usage agreements, and copyright. Prerequisites: DSPW 0700 and DSPR 0700.

COM 1140  
Design Fundamentals  
3 Credits  3 Class Hours  
Topics include the principles and elements of design, basic drawing and media techniques and the design/creative processes for visual communications.

COM 1150  
Type Concepts  
3 Credits  3 Class Hours  
Topics include typestyles, terminology, type specifications, measurement, and type as a design element for visual communications. Prerequisites: DSPW 0700 and DSPR 0700.

COM 1170  
Imaging Technologies  
3 Credits  3 Class Hours  
A course that introduces students to current industry standards of digital file preparation for reproduction. Topics include terminology, digital fonts, file formats, scanning, and desktop systems. Prerequisites: DSPW 0700 and DSPR 0700. Basic computer skills (see special requirements in program description).

COM 1190  
Basic Digital Photography  
3 Credits  3 Class Hours  
An introduction to basic digital photography focusing on skills useful for a graphic designer. Topics include basic operation of a digital camera, composition, camera controls, exposure, and basic image enhancement for creative use.

COM 1200  
Electronic Media I  
3 Credits  3 Class Hours  
An introduction to the Macintosh® computer environment and operating system for desktop publishing. Topics include the use of word processing, database, spreadsheet, drawing, and painting components of an office software package. Prerequisite: Basic typing skills (see special requirements in program description).

COM 1210  
Digital Imaging I  
3 Credits  2 Class Hours, 2 Lab Hours  
An introduction to basic digital imaging using Adobe Photoshop®. Topics include navigation of the interface, the tools, using layers, adjustment layers, layer styles, filters, creating and manipulating selections, masking principles, cropping, image size and resolution, and image compositing of raster images. Prerequisite: Basic computer skills (see special requirements in program description).

COM 1300  
Site Building I - Dreamweaver®  
5 Credits  3 Class Hours  
An introduction to Adobe DreamWeaver® software as a tool for the construction and maintenance of Web sites. Prerequisite: COM 1000.

COM 1305  
Multimedia I - Flash®  
3 Credits  3 Class Hours  
An introduction to Adobe Flash® software. Topics include the integration of graphics, text, audio and video into animated and interactive Web presentations. Prerequisites: COM 1000, COM 1170.

COM 2010  
Digital Video Editing I  
3 Credits  3 Class Hours  
An introduction to Apple Final Cut Pro® software. Teaches digital video techniques for post-production. Emphasis on editing and integrating special effects for video, CD-ROM and the Web. Prerequisites: Basic computer skills (see special requirements in program description).
COM 2020
Storyboarding/Script Writing
3 Credits 3 Class Hours
Introduction to basic terminology, tools and media. Teaches the development of thumbnails, storyboards, scripts, and other conceptual presentation processes used in pre-production. Prerequisite: ENGL 1010

COM 2030
Digital Video Editing II
3 Credits 3 Class Hours
Continuation of digital video techniques for post-production using Apple Final Cut Pro® software. Emphasis on integration of special effects for video, CD-ROM and the Web. Prerequisite: COM 2010

COM 2120
Electronic Publishing I
3 Credits 3 Class Hours
An introduction to page layout software using QuarkXPress®. Topics include: page set-up, the use of text boxes, manipulation of text using basic typographic etiquette, and the use of picture boxes in a variety of print documents. Prerequisites: Basic computer skills (See special requirements in program description.)

COM 2130
Electronic Publishing II
3 Credits 3 Class Hours
A continuation of COM 2120. Topics include: use of style sheets and master pages, manipulation of text and images, and production of various print materials including a newsletter. Prerequisite: COM 2120

COM 2170
Portfolio
3 Credits 2 Class Hours, 2 Lab Hours
Topics include portfolio preparation, résumé development, job interview skills, and portfolio review by industry professionals. Prerequisites: COM 1170, COM 1220, COM 1230, COM 2130, and COM 2210

COM 2210
Electronic Illustration I
3 Credits 3 Class Hours
An introduction to executing vector-based illustrations using Adobe Illustrator®. Topics include navigation of the interface, the tools, drawing and manipulating basic objects, creating and manipulating type, drawing with the pen tool, applying color, using layers, and transformation and pathfinder techniques. Prerequisite: Basic computer skills (See special requirements in program description.)

COM 2220
Practicum
3 Credits 2 Class Hours, 2 Lab Hours
Topics include the design and execution of a variety of electronic publishing projects utilizing graphic design, computer-based drawing, digital imaging techniques, working with a client, and job-based work production skills. Prerequisite: COM 1170, COM 1220, COM 1230, COM 2130

COM 2240
Digital Imaging II-Photography
3 Credits 3 Class Hours
A continuation of COM 1230 using Adobe Photoshop®. Topics include manipulation of photographic images in a digital format, digital asset management, digital workflow, cropping, tone and color correction, selection techniques, masking, colorization, image enhancement, and sharpening techniques. Prerequisite: COM 1230 or program permission

COM 2250
Digital Imaging II-Design
5 Credits 3 Class Hours
A continuation of COM 1230 using Adobe Photoshop®. Topics include drawing with shape layers, creating custom brushes and patterns, advanced selecting and masking techniques, learning and utilizing photographic and illustrative techniques to execute projects appropriate for the graphic design industry. Prerequisite: COM 1230 or program permission

COM 2270
Electronic Illustration II
3 Credits 3 Class Hours
A continuation of COM 2210 using Adobe Illustrator®. Topics include logo re-creation, perspective and dimensional techniques, creating custom brushes, patterns, fills, the execution of complex vector objects, and the execution of a variety of design projects utilizing these techniques. Prerequisite: COM 2210 or program permission

COM 2280
Illustration with Painter®
5 Credits 3 Class Hours
An introduction to digital illustration and painting techniques using Corel Painter®. Topics include navigation of the interface, the tools, using brushes, and layers. Different styles of illustration and turning photographs into art are covered. Prerequisite: COM 1230

COM 2300
Site Building II-Dreamweaver®
3 Credits 3 Class Hours
Advanced topics in using Adobe Dreamweaver® software as a tool for the construction and maintenance of Web sites. Prerequisite: COM 1300

COM 2305
Multimedia II - Flash®
3 Credits 3 Class Hours
Advanced topics in creating interactive Web presentations. Topics include the creation of user interfaces, using external data sources, and advanced ActionScript using Adobe Flash® software. Prerequisite: COM 1305

COM 2700
Capstone - Multimedia
3 Credits 3 Class Hours
Provides opportunities to apply and incorporate skills learned from preceding courses in a Final Project. Emphasis is on problem solving and professional standards. Prerequisite: Instructor permission

COM 2800
Capstone - Web Design
3 Credits 3 Class Hours
Provides opportunities to apply and incorporate skills learned from preceding courses in a Final Project. Emphasis is on problem solving and professional standards. Prerequisite: Instructor permission

Computer Technology

CPT 1000
Operating Systems
3 Credits 3 Class Hours
Develops a foundation of technical support for diverse operating systems to include Windows, Linux, and Novell client. Technicians will install, upgrade, troubleshoot, tweak and optimize the performance of these software systems. Exposure to the Mac OS will develop understanding of a complex IT workforce environment, and allow a comparison and assessment of several operating system functions and features. Prerequisites: DSPR 0800 & DSPW 0800 or equivalent skills
<table>

<th>Course Title</th>
<th>Credits</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CPT 1010</td>
<td>User Support/Help Desk</td>
<td>3</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>An introduction to the role of computer technology in support of business processes and procedures. Concepts include computer user support, customer service skills, troubleshooting skills, common support problems, help desk operation and management, common helpdesk tools and procedures, and basic hardware and software installation and maintenance. Prerequisites: DSPR 0800 &amp; DSPW 0800 or equivalent skills</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CPT 1400</td>
<td>Digital Systems Interfacing</td>
<td>3</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>An introduction of concepts for digital technology leading to microprocessor interfacing. Incorporated topics consist of AC/DC electronic concepts, digital number systems, Boolean expressions, and integrated circuits. Technicians discover algorithm/flowcharting, Assembly language concepts, debugging, creating .com files, output port decoding of PCs, and basic parallel interfacing. Prerequisites: DSPR 0800, DSPW 0800 &amp; DSPM 0800 or equivalent skills</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CPT 1500</td>
<td>Microprocessor Sys. Principles</td>
<td>3</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td>An introduction to the architecture of a microprocessor and computer based system. Develops Assembly language instructions to manipulate a device’s input/output ports and design various programs ranging from industrial applications to games. Focuses on team building, strengthens written and oral communication, and engages critical thinking through project based tasks. It is highly recommended that this course be taken immediately following CPT 1400. Prerequisites: CPT 1400</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CPT 1510</td>
<td>A+ Computer Hardware</td>
<td>4</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>An introduction to basics of computer hardware in today’s technical society. Exercises highlight identification and installation of internal components, disk configuration, ports, cables, peripherals and networking concepts and connections. Hands-on and demonstrations allow technicians to delve into building, repairing and preventive maintenance. (This course replaces or substitutes for CPT 2410 Computer Peripherals and CNT 1015 Computer Hardware Fundamentals). Prerequisites: DSPR 0800, DSPW 0800 &amp; DSPM 0800 or equivalent skills</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CPT 2320</td>
<td>Telecommunications</td>
<td>4</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>An introduction to communications techniques and systems used for analog signals and digital data transfer. Topics include knowledge of digital transmission, various modulation techniques, error detection, data compression, encryption, protocols, ISDN and ISO standards. Presents telephone networks and characteristics, satellite communications, transmission media including copper, fiber, microwave, lightwave and the full range of electromagnetic spectrum of wireless technologies. Prerequisites: CPT 1010, CPT 1500</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CPT 2425</td>
<td>UNIX/Linux</td>
<td>4</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Integrates practical skills within the Linux environment. Analysis of open source software creates proficiency with utilities, applications and file system manipulation in both command line and graphical X Window environments. Technicians will utilize varied shells, design, compose and edit script files relating to startup configuration and perform administrative tasks such as process management, partition monitoring, command scheduling, permission assignment and user/group modification. Prerequisites: CPT 1000, DSPM 0850 or equivalent skills</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CPT 2430</td>
<td>Systems Troubleshooting</td>
<td>4</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Elevates computer system skills in areas of error detection, issue identification, technical research, solution development, and problem resolution. Develop an authentic perspective as an industry professional, interviews, simulations, checklists, community contacts, on-site visits and other interactions often occur to supplement class labs and group discussions. Prerequisites: CPT 1500, CPT 1510</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CPT 2450</td>
<td>Advanced UNIX/Linux</td>
<td>4</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Compares numerous Linux and UNIX distributions. Emphasis on configuring boot loaders and environmental variables, designing effective decision constructs in shell scripts, selecting window managers, and analyzing log files. Information regarding Linux installation, networking and hardware manipulation is detailed as well as kernel modules, troubleshooting, power tools, security, performance tuning and current industry trends within the open source community. Prerequisite: CPT 2425</td>

Culinary Arts

CUL 1010
Hospitality Management
3 Credits 3 Class Hours
An introduction to the hospitality industry and the chef as supervisor and manager. Topics include the organization of industry segments, services provided by the lodging, food and beverage industry, career opportunities, principles of supervision, communication, motivation, total quality, leadership, training, and team performance.

CUL 1015
Sanitation & Safety
2 Credits 2 Class Hours
An introduction to the sanitation and safety issues and practices involved in the food preparation process. Prevention of all types of food contamination and the Hazard Analysis Critical Control Point (HACCP) food safety system is emphasized. This course presents a manager's perspective on food safety, cleanliness standards, and work safety. This course is a pre/corequisite for the culinary food production classes.

CUL 1020
Baking Skills
3 Credits 1 Class Hour, 4 Lab Hours
An introductory course in the principles of baking, with emphasis on bakeshop ingredients, their function, measurement, and scaling. Scratch baked items to include quick breads and muffins, yeast breads, cookies, Danish pastries, and assorted pies. Prerequisite: CUL 1040

CUL 1040
Culinary I
3 Credits 2 Class Hours, 2 Lab Hours
The introductory food production class for culinary students. Topics include the theories and methods of cooking, vocabulary, and the development of safe and sanitary kitchen practices. Production items will include vegetable and starch preparation, stocks and soups, and egg cookery. Corequisite: CUL 1015

CUL 1045
Culinary II
3 Credits 1 Class Hour, 4 Lab Hours
A continuation of CUL 1040 Culinary I. Topics include stocks, soups, sauces, beef, pork and poultry items, vegetables and starches. Utilizing recipes and techniques as presented in class, students will prepare a number of buffets. Prerequisite: CUL 1040

CUL 1050
Nutrition & Menu Planning
3 Credits 3 Class Hours
An introduction to the basic nutritional principles and guidelines. Topics include nutrients, carbohydrates, lipids, proteins, minerals and vitamins. Students plan meals and menus based on the above principles using nutritional guidelines as the primary basis.

CUL 1020
Purchasing & Cost Control
3 Credits 3 Class Hours
An introduction to the food distribution system and purchasing procedures. Topics include, the function of the purchasing agent, product selection, purchasing procedures, inventory control, menu pricing, food cost, sales, inventory levels, spoilage, waste inventory values and menu analysis.

CUL 2020
Advanced Baking & Pastry
3 Credits 1 Class Hour, 4 Lab Hours
A continuation of CUL 1020. Topics include, tarts, cakes, and restaurant-style desserts, production and use of sauces and plate presentations. Students will be required to create a dessert menu and demonstrate baking proficiency through production of selected menu items. Prerequisite: CUL 1020

CUL 2030
Garde Manger & Catering
3 Credits 1 Class Hour, 4 Lab Hours
This course focuses on cold food preparation and presentation in buffet and catering applications, including appetizers, hors d’oeuvres, canapés, pates, sausages, terrines, and buffet salads, buffet design, layout and execution, and menu planning. Prerequisite: CUL 2050

CUL 2035
Table & Beverage Service
2 Credits 2 Class Hours
An introduction to the various styles of table service and service standards required of professional wait personnel. Guest relations, order taking, and organization of the dining room will be studied. Students will gain experience through practice within a simulated service environment. Beverage management issues include inventory & purchasing, proper use of glassware, types of wine and wine regions, and the pairing of wine with food.

CUL 2050
International Cuisine
3 Credits 1 Class Hour, 4 Lab Hours
A continuation of CUL 2050. Production will include French, Italian, Asian and other ethnic and regional cuisines. Discussion topics will include indigenous ingredients, flavors, cooking methods and techniques. Prerequisite: CUL 2050

CUL 2210
Internship I
1 Credit 300 Contact Hours
A 300-hour paid work internship in a food production environment. Students will prepare a report detailing their experience. Students are required to have the internship approved by the program coordinator. Prerequisite: CUL 1040

CUL 2220
Internship II
1 Credit 300 Contact Hours
A continuation of CUL 2210, this course is a 300-hour paid work internship in a food production environment. Students will prepare a report detailing their experience. Students are required to have the internship approved by the program coordinator. Prerequisite: CUL 2210

Developmental Mathematics

DSPM 0700
Basic Mathematics
3 Credits 3 Class Hours
An introduction to basic mathematics principles. Topics include whole numbers, fractions, decimals, ratio and proportion, percents, and topics in algebra that include signed numbers, exponents, algebraic expressions with sums and differences, and solving simple algebraic equations.
Learning Strategies

DSPS 0800
3 Credits 3 Class Hours
A course on how to succeed in college. Topics include managing time and environment, analyzing and mastering the content of lectures and textbook chapters, preparing for tests, taking tests, setting goals, making career and academic decisions, utilizing resources, and coping with anxiety. (ESL Sections Offered)

Developmental Writing

DSPW 0700
Basic Writing
3 Credits 3 Class Hours
A study of grammar and sentence skills, effective paragraphs, and essay organization. Computer-assisted laboratory may be used. (ESL Sections Offered)

DSPW 0800
Developmental Writing
3 Credits 3 Class Hours
A course in writing, research, and reasoning skills using narration, description, comparison and contrast, cause and effect, and persuasion. Topics include research methodology, paragraphing, and writing short essays based on observation, interviews, and written materials. Computer-assisted laboratory may be used. (ESL Sections Offered) Prerequisite: DSPW 0700 or demonstrated equivalent skills

Early Childhood Education

ECED 1010
Intro to Early Childhood Educ
2 Credits
An introduction to the early childhood profession with an emphasis on professionalism and developmentally appropriate practice. Topics include an overview of history of early education, theoretical program models, different types of early childhood programs, community resources, professional organizations, and contemporary trends and issues in programs for children ages birth to nine. Field experiences required.

ECED 2010
Safe, Healthy, Learning Env
3 Credits
A study of the basic principles and practices of safety, health and nutrition as they relate to the early childhood setting, home, and community for children ages birth to nine. Includes a study of the principles of creating appropriate learning environments for young children. Field experiences required.

ECED 2015
Early Childhood Curriculum
3 Credits
A study of developmentally appropriate practices and the teacher's role in supporting development of young children ages birth to nine. Emphasizes curriculum planning including goals, environment, roles of teachers and parents, materials, and settings. Field experiences required.

ECED 2020
Infant, Toddler, Child Dev
3 Credits
A study of the care and education of infants and toddlers, birth to age three in group settings (i.e. child care centers, family child care homes, Early Head Start). Topics include rationales and strategies for supporting the whole child including cognitive, language, social-emotional, and physical development in a safe, responsive environment. Emphasizes relationship-based care and education with special attention to the unique environmental aspects of programs for the child under three. Prerequisite: None

ECED 2030
Infant and Toddler Care
3 Credits
A study of the care and education of infants and toddlers, birth to age three in group settings (i.e. child care centers, family child care homes, Early Head Start). Topics include rationales and strategies for supporting the whole child including cognitive, language, social-emotional, and physical development in a safe, responsive environment. Emphasizes relationship-based care and education with special attention to the unique environmental aspects of programs for the child under three. Prerequisite: None

ECED 2040
Fam Dynamics & Comm Involve
3 Credits
An overview of the role of the family, community and the physical, cognitive, social, and emotional growth of the child in a diverse society. Includes benefits of and strategies for developing positive, reciprocal relationships with families in an early childhood setting ages birth to age nine. Field experiences required. Prerequisite: ECED 2015 or department approval
ECED 2060
Dev of Exceptional Children
3 Credits
A study of the practices that early childhood professionals can apply to develop a more inclusive and accessible environment for all children ages birth to nine. Provides students with skills to include children of all abilities through appropriate arrangement of the environment. Includes strategies for developing strong relationships with families and other community agencies. Field experiences required. Prerequisite: ECED 2020 or department approval.

ECED 2070
Developmental Assessment
3 Credits
A study of assessment for children from birth to nine years of age. Both formal and informal instruments will be discussed with an emphasis on tools that can be used by teachers of young children. Considerations in choosing, administering, and reporting results of assessments will also be addressed. Field experiences required. Prerequisite: ECED 2020 or department approval

ECED 2080
Language & Literacy in ECE
3 Credits
A study of the research-based principles and practices for providing young children, birth to nine, with a strong foundation in language and literacy within a developmentally appropriate approach. Field experiences required. Prerequisite: ECED 2015 or department approval

ECED 2085
Math and Science in ECE
3 Credits
A study of the standards, principles, and practices in teaching mathematics and science to young children, birth to nine. Emphasis on development of an integrated math and science curriculum that includes appropriate content, processes, environment and materials, and child-centered choices. Field experiences required. Prerequisite: ECED 2015 or department approval

ECED 2090
Creative Development
3 Credits
A study of the strategies for promoting creative development of the child ages birth to nine. Topics include the concept of creativity: what it is, why it is important, and how the development of creativity in young children can be encouraged. Emphasizes the development of creativity in relation to art, music, language, movement, and dramatic arts. Field experiences required. Prerequisite: ECED 2015 or department approval

ECED 2120
Admin of Child Care Centers
3 Credits
A study of organization and administration practices applicable to the child care center. Topics include leadership, enrollment and public relations, staff-management, facility management, policies, regulations, parent relations, and program development. Field experiences required.

ECED 2130
Clinical Practicum I
2 Credits 1 Class Hour, 1 Lab Hour
A supervised practicum with a minimum of 15 clock hours in seminar and 45 clock hours in early childhood practical experiences. Course includes a study of the physical and human qualities that combine to create an environment that is safe and healthy, and promotes optimum learning for young children ages birth to nine. Prerequisite or corequisite: ECED 2010 or department approval

ECED 2140
Clinical Practicum II
2 Credits 1 Class Hour, 1 Lab Hour
A supervised clinical experience with a minimum of 15 clock hours in seminar and 45 clock hours in an approved Clinical Site (NAEYC, NAFCC or NSACA accredited agency or Dept.-approved site). Emphasis on using reflective practice to examine components of quality, set goals, and design a plan for professional growth for the early childhood educator of children ages birth to nine. Prerequisite: ECED 2140, 2110, 2130 or department approval

ECED 2150
Clinical Practicum III
2 Credits 1 Class Hour, 1 Lab Hour
A supervised practicum experience with a minimum of 15 clock hours in seminar and 45 clock hours of approved early childhood practical experiences. Focus on the student’s demonstration of competencies that produce positive developmental outcomes for young children ages birth to nine. Prerequisite: ECED 2130, 2140 or department approval

ECON 1111
Principles of Macroeconomics*
3 Credits 3 Class Hours
This course introduces and explores a variety of macroeconomic topics, including: supply and demand, market equilibrium, Gross Domestic Product, employment, income, prices, major schools of economic thought, fluctuations, growth, monetary policy, fiscal policy, the national debt, international trade, and international finance. ECON 1111 meets the General Education requirement for Social Sciences. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills * This course is part of the general education core.

ECON 1121
Principles of Microeconomics*
3 Credits 3 Class Hours
This course introduces and explores a variety of microeconomic topics, including: supply and demand, market equilibrium, elasticity, decision making by producers and consumers, production cost, market structures, public policy, the labor market, distribution of income, environmental policy, market efficiency and government intervention. ECON 1121 meets the General Education requirement for Social Sciences. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills * This course is part of the general education core.

EDUC 2010
Foundations of Education
3 Credits 3 Class Hours
A study of the historical, philosophical, and sociological foundations underlying the development of American educational institutions. The role of the schools, the aims of education, and the role of state, local, and federal agencies will be included in addition to a required field experience. Prerequisites: DSPW 0800 and DSPW 0800 or equivalent skills

Course Descriptions
EDUC 2110  
Educational Psychology  
3 Credits 3 Class Hours  
A study and application of the principles of growth and development, learning theory, and assessment techniques in the classroom setting. Motivating and facilitating learning processes in school settings will be emphasized. Field experiences in an approved classroom are required. (This course is the same as PSYC 2110.) Prerequisites: DSPM 0850 or DSPR 0800 or equivalent skills

EDUC 2120  
Intro to Special Education  
3 Credits 3 Class Hours  
A study of the characteristics and needs of children with special needs and/or disabilities with an emphasis on legislation, programs, services, and best practices in the educational setting. Field experiences are required. Prerequisites: DSPM 0800 and DSPR 0800 or equivalent skills

Electrical-Electronic Engineering Technology

EETH 1110  
Electric Circuits  
4 Credits 4 Class Hours  
An introductory course for all Electrical Engineering Technology concentrations. Topics include voltage, current, resistance, and power in DC and AC circuits, series, parallel, and more complex circuits using Kirchhoff's laws and selected network theorems, capacitance and inductance, resonance, transformers and polyphase concepts. Prerequisite: DSPM 0850 or equivalent skills

EETH 1115  
Electric Circuits Lab  
1 Credit 2 Lab Hours  
A laboratory course that parallels the EETH 1110 lecture course. Lab exercises include building, measurement and analysis of DC and AC circuits containing resistance, inductance and capacitance. Corequisite: EETH 1110

EETH 1210  
Electronic Circuits  
4 Credits 4 Class Hours  
A continuation of EETH 1110. Topics include solid state electronics as circuit elements, including diodes, bipolar transistors, rectifier circuits, Zener diode regulators, power supplies, power amplification, junction and MOSFETs, applications in selected linear circuits and operational amplifiers in various feedback configurations. Prerequisite: EETH 1110

EETH 1215  
Electronic Circuits Lab  
1 Credit 2 Lab Hours  
Parallels EETH 1210 lecture course. Includes constructing and analyzing discrete and integrated analog transistor circuits. Corequisite: EETH 1210

EETH 1220  
Transformers/Rotating Machines  
2 Credits 2 Class Hours  
A continuation of EETH 1110 and 1115. Topics include transformer theory and application, single-phase and three-phase connections, auto-transformers, special instrument transformers, the development of horsepower, torque, efficiency as related to the operation of D.C. motors and generators, single-phase and three-phase motors, alternators, step-motors, resolvers, synchros, and comparisons in the performance of machines. Prerequisite: EETH 1110 and EETH 1115

EETH 1225  
Transformers/Rotat. Mach. Lab  
1 Credit 2 Lab Hours  
Parallels the EETH 1220 lecture course. Topics include construction of common single phase and three phase DC and AC motor, generator and transformer systems. Corequisite: EETH 1220

EETH 1260  
Electrical Technology  
3 Credits 3 Class Hours  
An introduction to the basics of electrical power for non-electrical students. Topics include DC and AC circuits, transformers, rotating machinery, electrical and electronic controls, and electrical energy. Prerequisite: DSPM 0850 or equivalent skills

EETH 1265  
Electrical Technology Lab  
1 Credit 2 Lab Hours  
Parallels the EETH 1260 lecture course. Lab exercises include building and measurement of DC and AC circuits containing resistance, inductance and capacitance and basic motor and generator exercises. Corequisite: EETH 1260

EETH 1400  
Digital Electronics  
2 Credits 2 Class Hours  
Advanced study concepts of Boolean Algebra and their applications to digital integrated circuits. Topics include binary and other number base systems and codes, logic circuits, A/D and D/A converters, counters, shift registers, adders, multiplexers, encoders and various memory devices and their operation. Prerequisite: EETH 1110

EETH 1405  
Digital Electronics Lab  
1 Credit 2 Lab Hours  
Parallels the EETH 1400 lecture course. Topics include the construction and analysis of 7400 series I/C circuits, A/D, D/A converters, counters, registers, and similar digital circuits.

EETH 2010  
Industrial Elec. Controls  
3 Credits 3 Class Hours  
Advanced study of control circuits and electronic devices used in operating machines and processes. Topics include design of control circuits using relay logic and solid-state logic, solid-state control of DC motors, AC motors, and stepper motors, power supplies, operational amplifiers, thyristors, transducers, timers, optical and thermal devices, and other components such as programmable controllers to show how automated equipment can be accurately controlled. Prerequisites: EETH 1210 or instructor permission

EETH 2210  
Circuit Analysis  
2 Credits 1 Class Hour, 2 Lab Hours  
A continuation of EETH 1210. Topics include application of previous training to troubleshoot solid-state electronic circuits and systems using basic tools and a review of two-port networks, filters, and transfer functions. Prerequisite: EETH 1210

EETH 2220  
Electronic Communications  
2 Credits 2 Class Hours  
An introductory course in electronic communications. Topics covered will include signal generation, amplitude modulation, transmission and reception, single sideband systems, angle modulation transmission, angle modulation receivers, FM stereo and two-way FM, television, transmission lines, electro magnetic wave propagation, antennas and waveguides, microwave communications, and satellite communications. Prerequisite: EETH 1210
Course Descriptions

EETH 2225  
Electronic Communications Lab  
1 Credit  2 Lab Hours  
Parallels the EETH 2250 lecture course. Lab exercises include construction, analysis and troubleshooting of communications systems.  
Corequisite: EETH 2220

EETH 2230  
Digital Communications  
2 Credits  2 Class Hours  
Advanced level communications course. Topics include optical fiber communication, digital communications, digital transmission, digital line coding, multiplexing, high definition television, satellite multiple-access, mobile telephone service and digital radio.  
Prerequisite: EETH 1210

EETH 2235  
Digital Communications Lab  
1 Credit  2 Lab Hours  
Parallels the EETH 2230 lecture course. Lab exercises include construction, analysis and troubleshooting of digital communications systems.  
Corequisite: EETH 2230

EETH 2240  
Instrumentation  
2 Credits  2 Class Hours  
Advanced course in the industrial transducer devices most commonly used by industry in Automated Process Control Systems. Topics include electrical and mechanical transducers and their application in measurement of temperature, pressure, flow and position, and exercises using computers and computer interfacing to give a realistic approach to the industrial application of these devices.  
Prerequisite: EETH 1210

EETH 2245  
Instrumentation Lab  
1 Credit  2 Lab Hours  
Parallels the EETH 2240 lecture course. Lab exercises include building bridges, and work with transducers and computer interfaces.  
Corequisite: EETH 2240

EETH 2250  
Fiber Optics and Cabling Lab  
3 Credits  3 Class Hours  
An introduction to optical fiber as another medium in which information can be transmitted, received, multiplexed, demultiplexed, and distributed. Topics include light sources, detectors, splices and connectors, coupler, fiber-optic systems, and installation and types of fiber-optic equipment. Horizontal and vertical cabling techniques (facilities, cable ways) are taught to BICSI and EIA/TIA standards.  
Prerequisite: EETH 1210

EETH 2255  
Fiber Optics & Cabling Lab  
1 Credit  2 Lab Hours  
Parallels the EETH 2250 lecture course. Lab exercises include construction, installation, analysis and troubleshooting of fiber optic systems and cabling.  
Corequisite: EETH 2250

EETH 2330  
Advanced PLC Programming  
4 Credits  3 Class Hours, 3 Lab Hours  
Advanced PLC instruction. Topics include shift register, bit and file manipulation, advanced logic and math instructions, remote I/Os, indirect addressing, communication to intelligent modules and developing diagnostic programs. Processor to processor communication is included.  
Prerequisite: EETH 2600 or IMC 2200

EETH 2340  
Programmable Motion Contr  
4 Credits  3 Class Hours, 3 Lab Hours  
Advanced course in solid-state controls for rotating machinery. Topics include programmable AC, DC drives, single and multi-axis controllers, and stepping motor controllers. Topics include the control of pick and place, continuous path robots, G-codes for programming of CNC equipment, encoders, resolvers, tachometers, synchros, accelerometers and motion transducers.  
Prerequisite: EETH 1110

EETH 2350  
Graphical Machine Interfaces  
3 Credits  2 Class Hours, 2 Lab Hours  
Advanced course in graphical user interface as used in the industrial control applications. Topics include the creation and configuration of graphical operator interface panels using the Allen-Bradley Panel View and Microsoft Visual Basic programming language, and simple graphical pushbuttons up to the use of multiple screen graphic interfaces with data monitoring and analysis options.  
Prerequisite: EETH 2600 or IMC 2200

EETH 2360  
Industrial Communications  
3 Credits  2 Class Hours, 2 Lab Hours  
An introductory course in data communication as used in the industrial environment. Topics will include the theoretical aspects of data communication such as bandwidth, channel capacities, error detection/correction, etc., setting up and configuring different types of networks, RS-232, RS-485, Ethernet, fiber optics, wireless networks, and several proprietary industrial networks.  
Prerequisite: EETH 1110

EETH 2370  
Programmable Process Contr.  
3 Credits  2 Class Hours, 2 Lab Hours  
An advanced course in closed-loop control systems and instrumentation. Topics include the modes of control and on the programming of intelligent controllers, PLC, application software used in the industrial environment for process control, and various process transducers for measurements of temperature, level, flow, etc.  
Prerequisite: EETH 1110

EETH 2380  
Computer Integrated Lab  
3 Credits  2 Class Hours, 3 Lab Hours  
A continuation of EETH 2360 covering the integration of intelligent controllers and devices into the manufacturing system. Topics will include PLC, robots, CNC machinery, intelligent motion controllers, and troubleshooting techniques.  
Prerequisite: EETH 2600 and EETH 2340

EETH 2390  
Robotics  
4 Credits  3 Class Hours, 3 Lab Hours  
An introductory application of robotics in the industrial environment. Adept AIM and V+ software will be used for the control of SCARA robots.  
Prerequisite: EETH 2600 and EETH 2340

EETH 2400  
Optical & EM Propagation  
4 Credits  3 Class Hours, 2 Lab Hours  
A study of optical, radio frequency and microwave transmission, propagation and reception. Topics will include causes of distortion, interference and attenuation and optimizing levels of emission and reception.

EETH 2600  
Automatic Control Systems  
4 Credits  3 Class Hours, 2 Lab Hours  
An introduction to a wide range of industrial automatic controls. The programmable logic controller is the base of study with the emphasis on programming. Included are the various types of transducers common to the industrial environment and the interfacing of I/O devices to the PLC. Modes of controls, process response, and the final correcting devices are discussed.  
Prerequisite: EETH 1210
ENGL 1010
English Composition I*
3 Credits (Honors Option Offered)
3 Class Hours
A study of style, syntax, and basic organizational patterns. Topics include various rhetorical devices, audience, purpose, diverse perspectives, writing, revising, and editing. Research paper required. Prerequisites: DSPR 0800, DSPW 0800 or equivalent skills.
*This course is part of the general education core.

ENGL 1020
English Composition II*
3 Credits (Honors Option Offered)
3 Class Hours
A study of argumentative and analytical writing. Topics include advanced methods of composition, analysis and explication of literature/essays, elements of persuasion, use of evidence, and advanced methods of research. Prerequisite: ENGL 1010.
*This course is part of the general education core.

ENGL 2010
Literature: Fiction*
3 Credits (Honors Option Offered)
3 Class Hours
An introduction to stories and novels. Topics include major literary themes, historical/social events that influenced the writers, literary terminology, characteristics of literature, interpretation of literature, and analysis of composition and style. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2010 meets the requirement for a Humanities elective.
*This course is part of the general education core.

ENGL 2020
Literature: Poetry and Drama*
3 Credits (Honors Option Offered)
3 Class Hours
An introduction to the works of major poets and dramatists. Topics include major literary themes, historical/social events that influenced the writers, literary terminology, characteristics of literature, interpretation of literature, and analysis of composition and major literary themes. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2020 meets the requirement for a Humanities elective.
*This course is part of the general education core.

ENGL 2030
Themes in Literature & Culture*
3 Credits (Honors Option Offered)
3 Class Hours
An analysis of significant primary texts as forms of cultural and creative expression. Specific topics are determined by the instructor and may include Gender, the Supernatural, Film, Comedy, Greek and Roman literature, mythology, Native American literature, and Southern literature. Students may register for this course multiple times as topics vary each semester. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2030 meets the requirement for a Humanities elective.
*This course is part of the general education core.

ENGL 2110
Survey of American Lit I*
3 Credits (Honors Option Offered)
3 Class Hours
A survey of American literature from the period of post Civil War regionalism through the present. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history which influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2110 meets the requirement for a Humanities elective.
*This course is part of the general education core.
ENGL 2133  
Multicultural Literature*  
3 Credits 3 Class Hours  
A survey of American authors and poets of various ethnic backgrounds. Topics include biography, essays, poetry, and short fiction by African Americans, Asian Americans, Hispanic Americans, and Native Americans. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2133 meets the requirement for a Humanities elective. * This course is part of the general education core.

ENGL 2140  
Introduction to Cinema*  
3 Credits 3 Class Hours  
An introduction to the basic elements of cinema. Topics include elements of classic films, techniques of analysis, and cinematic production techniques. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2140 meets the requirement for a Humanities elective. * This course is part of the general education core.

ENGL 2210  
Survey of British Lit I*  
3 Credits 3 Class Hours  
A survey of British literature from Beowulf through Restoration and the Eighteenth Century. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history that influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2210 meets the requirement for a Humanities elective. * This course is part of the general education core.

ENGL 2220  
Survey of British Lit II*  
3 Credits 3 Class Hours  
A survey of British literature from the period of Romanticism to the present. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history that influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2220 meets the requirement for a Humanities elective. * This course is part of the general education core.

ENGL 2310  
Survey of World Lit I*  
3 Credits 3 Class Hours  
A survey of world literature from the ancient world through the Renaissance. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history that influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2310 meets the requirement for a Humanities elective. * This course is part of the general education core.

ENGL 2320  
Survey of World Lit II*  
3 Credits 3 Class Hours  
A survey of world literature from the Age of Enlightenment to the present. Topics include the works of significant writers of fiction, poetry, prose, and/or drama, taking into account events in history that influenced them. Prerequisites: ENGL 1010 and ENGL 1020. Note: ENGL 2320 meets the requirement for a Humanities elective. * This course is part of the general education core.

Pre-Engineering

ENGR 2100  
Statics  
3 Credits 3 Class Hours  
An introductory, calculus-based mechanics class. Topics include vector algebra, resultants, equilibrium, friction, centroids, moment of inertia, trusses, machines and frames, beam shear and moments. Prerequisite: MATH 1920

ENGR 2200  
Dynamics  
3 Credits 3 Class Hours  
An advanced, calculus-based mechanics class. Topics include particle kinematics, relative motion; kinetics, applications of Newton's Laws, work-energy principle, impulse-momentum principle, and mechanical vibrations. Prerequisite: ENGR 2100

ENGR 2300  
Thermodynamics  
3 Credits 3 Class Hours  
An introduction to thermodynamics. Topics cover concepts, models and laws; energy and the first law; properties and state; energy analysis of thermodynamics systems; entropy and the second law; conventional power and refrigeration cycles. Prerequisite: PHYS 2110

Engineering Technology

ENTR 1600  
Entrepreneurship  
3 Credits 3 Class Hours  
An introduction to entrepreneurship. Topics include economic, social and political climate; demographic, technological and social changes; skills, challenges, and rewards of entrepreneurship.

ENTR 1700  
Business Financial Management  
3 Credits 3 Class Hours  
An introduction to the sources for funding a small business. Topics include terminology, financial statements, loan proposals, working capital, cash management, financing needs, credit policies, and sales forecasts. Prerequisite or corequisite: ENTR 1600

ENTR 2200  
Business Plan Fundamentals  
3 Credits 3 Class Hours  
An introduction to business planning. Students will assess business strengths and weaknesses; collect and organize market data; develop product, marketing, management, financial, and operating plans; and craft a final business plan. Prerequisites: ENTR 1600 and ENTR 1700.
English as a Second Language

ESOL 0121
Conversation I
3 Credits 3 Class Hours
This course is for high beginning students. Students will learn to talk about common topics, make simple conversation and engage in basic discussions.

ESOL 0122
Conversation II
3 Credits 3 Class Hours
This course is for low intermediate students. Students will discuss and react to listenings on American culture topics. Prerequisite: ESOL 0121 or equivalent skills

ESOL 0123
Conversation III
3 Credits 3 Class Hours
This course is for high intermediate students. Students will converse in more depth on social and academic topics and participate in academic discussions. Prerequisite: ESOL 0122 or equivalent skills

ESOL 0124
Communication Skills
3 Credits 3 Class Hours
This course is at the advanced level. Students will listen to and take notes on academic lectures as well as learn basic public speaking skills. Prerequisite: ESOL 0123 or equivalent skills

ESOL 0131
Literacy I
3 Credits 3 Class Hours
This course is for high beginners. Students will learn to write basic sentences and read paragraphs and short stories.

ESOL 0132
Literacy II
3 Credits 3 Class Hours
This course is for low intermediate students. Students will learn to write grammatically correct sentences and basic paragraphs, read and understand simple paragraphs, and respond to the readings in writing. Prerequisite: ESOL 0131 or equivalent skills

ESOL 0133
Literacy III
3 Credits 3 Class Hours
This course is for high intermediate students. Students will learn basic paragraph form, basic summarizing skills, and increase vocabulary and reading abilities. Students will read abridged novels and academic texts. Prerequisite: ESOL 0132 or equivalent skills

ESOL 0141
Spelling and Vocabulary
3 Credits 3 Class Hours
A study of English spelling rules and the Latin and Greek roots, prefixes, and suffixes which make up professional English lexicons. Corequisite: ESOL 0133 or equivalent skills

ESOL 0151
Grammar I
3 Credits 3 Class Hours
This course is for high beginners. Students will learn to form simple statements and questions.

ESOL 0152
Grammar II
3 Credits 3 Class Hours
This course is for low intermediate students. Students will focus on more complex grammar topics and apply them to speaking and writing. Prerequisite: ESOL 0151 or equivalent skills

ESOL 0153
Grammar III
3 Credits 3 Class Hours
This course is for high intermediate students. Students will study grammar topics that will provide a foundation for advanced grammar study. Prerequisite: ESOL 0152 or equivalent skills

ESOL 0154
Grammar IV
3 Credits 3 Class Hours
This course is an advanced grammar course that will complement higher level reading and writing courses such as DSPR and DSPW. Prerequisite: ESOL 0153 or equivalent skills

ESOL 0163
Intro to Amer Academic Culture
3 Credits 3 Class Hours
A beginning study of American culture and its effects on education.

French

FREN 1010
Beginning French I
3 Credits 3 Class Hours
An introduction to the French language. Provides a foundation in reading, writing, speaking, and aural comprehension. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills

FREN 1020
Beginning French II
3 Credits 3 Class Hours
A continuation of the reading, writing, speaking, and aural skills mastered in FREN 1010. Prerequisite: FREN 1010 or instructor permission

FREN 2010
Intermediate French I
3 Credits 3 Class Hours
A continuation of the development of the student’s knowledge of French. Builds aural comprehension, speaking, and composition skills. Includes study of French literature and culture. Prerequisite: FREN 2010 or instructor permission

FREN 2020
Intermediate French II
3 Credits 3 Class Hours
A continuation of the development of the student’s knowledge of French. Students build aural comprehension, speaking ability, and composition skills. Broadens study of French literature. Prerequisite: FREN 2010 or instructor permission

Geography

GEOG 1010
World Regional Geography I*
3 Credits 3 Class Hours
A survey of the geographic regions of the world, including studies of the physical character of the land, resources, economics, and cultures. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills. Note: GEOG 1010 meets the requirement for a Social Science elective.

GEOG 1020
World Regional Geography II*
3 Credits 3 Class Hours
A continuation of GEOG 1010. Selected topics and world regions, especially those with problems or situations of contemporary interest, to illustrate geographical points of view. Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills. Note: GEOG 1020 meets the requirement for a Social Science elective.

* This course is part of the general education core.
### Geology

#### GEOL 1040
**Physical Geology**  
*4 Credits 3 Class Hours, 3 Lab Hours*

This course is an introduction to the principles of modern Geology, emphasizing the origin, composition, and evolution of the solid earth. Rock-forming minerals, igneous, sedimentary, and metamorphic rocks, rock and hydrologic cycles, plate tectonics, earthquakes, landform development and geologic times are covered. The course includes identification and description of minerals and rock samples, and use of topographic and geological maps.  
*Prerequisite: DSPM 0800 and DSPR 0800 or equivalent skills*  
*This course is part of the general education core.*

#### GEOL 1110
**Earth Science**  
*4 Credits 3 Class Hours, 3 Lab Hours*

This course provides a background in the physical, chemical, and biological principles that shape our planet. Topics covered are geology, astronomy, meteorology, oceanography, energy, the environment, and basic chemical and biological processes.  
*Prerequisite: DSPM 0800 and DSPR 0800 or equivalent skills*  
*This course is part of the general education core.*

### History

#### HIST 2010
**American People To 1877**  
*3 Credits 3 Class Hours*

A survey of the social, cultural, economic, and political aspects of American life from the pre-Columbian period through the Civil War and Reconstruction.  
*Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills*  
*This course is part of the general education core.*

#### HIST 2020
**American People Since 1877**  
*3 Credits 3 Class Hours*

A study of the social, cultural, economic, and political aspects of American life from the Reconstruction period to the present.  
*Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills*  
*This course is part of the general education core.*

#### HIST 2030
**Tennessee History**  
*3 Credits 3 Class Hours*

A study of the history of Tennessee from the neolithic era to the present. Course themes include social, cultural, economic, and political activities throughout the state’s history.  
*Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills*  
*This course is part of the general education core.*

### Horticulture

#### HORT 1010
**Intro to Horticulture**  
*3 Credits 3 Class Hours*

A study of the principles of plant science and practices underlying occupations in horticulture. Emphasizes cultural methods affecting plant growth and provides a broad perspective of the horticultural industry.

#### HORT 1110
**Landscape Plant Materials I**  
*3 Credits 3 Class Hours*

A study of identification, culture, characteristics and use of landscape plants. Topics include nomenclature, identification, growth and cultural requirements, and soil preferences. Landscape applications are emphasized. Students acquire knowledge in proper selection and utilization of plant materials into landscapes.

#### HORT 1120
**Landscape Design**  
*3 Credits 3 Class Hours*

An introduction to landscape design principles and practices for residential sites. Topics include drafting, site analysis and common elements of good design, plant material selection, proper plant utilization, and design implementation. Students learn to read, plan, draft, and implement a landscape design.  
*Prerequisite: ENGT 1150 and HORT 1110*

#### HORT 1140
**Landscape Construction**  
*3 Credits 3 Class Hours*

An introduction to hardscape structures in the landscape. Topics include material selection, construction techniques, and fabrication. Students learn to design and construct common hardscape features such as walkways, walls, and decks.

#### HORT 1150
**Soils and Fertilizers**  
*3 Credits 3 Class Hours*

A study of the physical and chemical properties of soils, soil fertility, and management. Topics include soil formation, classification, testing, fertilizer application, and other amendments. Students learn to analyze, evaluate, and properly amend soils and media for horticultural use.

#### HORT 1210
**Turfgrass Management**  
*3 Credits 3 Class Hours*

A detailed study of turf grass. Topics include seeding, reproduction, growth and development, species characteristics, fertilization irrigation practices, pest and disease control, maintenance of golf courses, and athletic and recreational lawns. Students learn how to establish and maintain a high quality turf-grass area.

#### HORT 1310
**Horticultural Pesticides**  
*3 Credits 3 Class Hours*

A study of the identification and control of plant pests including insects, diseases, and weeds. Topics include pest identification and chemical regulation, pesticide application, and safety. Course work will satisfy re-certification point requirements and prepare students to take the Tennessee Commercial Pesticide Applicators License test and the test for certification in Ornamental and Turf (CO3).
HORT 1410 Arboriculture
3 Credits  3 Class Hours
A study of the identification, culture, and maintenance of landscape trees and shrubs. Topics include installation, fertilization, pruning, disease and insect control, and physiological problems. Students acquire knowledge in proper arboriculture practices.

HORT 1510 Principles of Mgmt/Horticulture
3 Credits  3 Class Hours
An introduction to a variety of topics from the areas of business management, customer service, and human resource management as they apply to the horticulture industry.

HORT 2010 Internship I
1 Credit
An internship that provides on-the-job experience and demonstrates mastery of horticulture skills through placement with an established business in middle Tennessee. Students will work with the program coordinator to spend time with a business best suited to their interests and career goals. Internships include the areas of landscape contracting and maintenance, plant retail/wholesale, garden center/ nursery, turf management, irrigation, pest control and others.

HORT 2020 Internship II
1 Credit
An internship that provides on-the-job experience and demonstrates mastery of horticulture skills through placement with an established business in middle Tennessee. Students will work with the program coordinator to spend time with a business best suited to their interests and career goals. Internships include the areas of landscape contracting and maintenance, plant retail/wholesale, garden center/ nursery, turf management, irrigation, pest control and others.

HORT 2110 Landscape Plant Materials II
3 Credits  3 Class Hours
A continuation of HORT 1110 and study of additional plants. Students acquire knowledge in the proper selection and utilization of landscape plant materials.

HORT 2120 Advanced Landscape Design
3 Credits  3 Class Hours
A study of residential and commercial landscape design, cost analysis, and installation. Topics include blueprint analysis, pricing, design implementation, and special projects.

Industrial Electrical Maintenance

IMC 1100 Electrical Maintenance Orient.
4 Credits  3 Class Hours, 3 Lab Hours
An introductory course in electricity that includes the basics physics and mathematics while developing structured problem-solving techniques along with basic computer skills. The primary focus is to prepare the student for following electrical maintenance courses. Topics include laws of motion, simple machines, basic thermodynamics, and the behavior of matter while reviewing algebra, simple geometry, and right angle trigonometry.

IMC 1155 DC and AC Circuits
5 Credits  4 Class Hours, 3 Lab Hours
A course in the basic principles of electricity. Topics include voltage, current, resistance, power, Ohm's Law, Kirchhoff's Law, and how they relate to DC and AC series, parallel and combination circuits, power factor, metering, and an introduction to transformers.

IMC 1200 Digital Principles
4 Credits  3 Class Hours, 3 Lab Hours
An introduction to components and systems used in modern electronic equipment. Topics include digital logic integrated circuits and components, applications, and system design fundamentals along with selected topics in diodes, transistors, and thyristors. Prerequisite: IMC 1155

IMC 2015 Hydraulics and Pneumatics
4 Credits  3 Class Hours, 3 Lab Hours
This course covers fluid mechanics with emphasis on the use of hydraulics and pneumatics for power transmission and control purposes. Basic theory and application covers the relationship between fluid flow and pressure, accumulators, actuators and the control of both fluid and air.

IMC 2105 Electrical Machine/Controls
3 Credits  2 Class Hours, 3 Lab Hours
This is an introductory course in electrical machines and transformers. Topics include DC motors and generators; single-and three-phase AC motors, alternators and synchronous motors; single- and three-phase transformers; instrument transformers and auto-transformers and their associated terminology and applications. Prerequisite: IMC 1155

IMC 2150 Control Applications
4 Credits  3 Class Hours, 3 Lab Hours
This is an introduction to various means of controlling A.C. and D.C. machinery through the use of relays and NEMA logic. Topics also include reading electrical drawings, troubleshooting circuits and interfacing programmable controllers with relay logic. Prerequisite: IMC 1200

IMC 2205 Programmable Logic Controllers
4 Credits  3 Class Hours, 3 Lab Hours
This is a continuation of IMC 2150. Topics include programmable controller history, application, memory organization, I/O configuration and programming, times, counter, storage registers, data transfer, data comparison, and maintenance procedures along with conversion of ladder diagrams to PLC programming. Prerequisite: IMC 2150 or consent of instructor

IMC 2255 Interpreting Tech Information
4 Credits  3 Class Hours, 3 Lab Hours
A comprehensive course in solving calculations as specified by the National Electrical Code (N.E.C.). Includes load calculations, service equipment, disconnect means, circuit protection, sizing of conductors, over current protection, feeder bus systems, panel boards, branch circuit design and calculations. Prerequisites: IMC 2150 or consent of instructor

Mathematics

MATH 1010 Math for Liberal Arts*
3 Credits  3 Class Hours
An introductory mathematics course for non-science majors emphasizing applications. Topics include problem solving, sets, logic, algebra, probability, statistics, consumer mathematics, and finance. Prerequisite: DSPM 0850

* This course is part of the general education core.

MATH 1075 Business Mathematics
3 Credits  3 Class Hours
An introduction to business mathematics applications presented with an algebraic base. Topics include discounts, taxes, logarithms, simple and compound interest, annuities, loans and investments, and descriptive statistics. Prerequisite: DSPM 0850
MATH 1130
College Algebra*
3 Credits 3 Class Hours
A traditional college algebra course for non-science majors. Topics include rational and exponential expressions, the concept of functions and their inverses, linear functions and equations including equations with radicals and absolute values, quadratic functions and equations, exponential and logarithmic functions and equations, graphs of basic functions, systems of equations, and inequalities. Prerequisite: DSPM 0850
*This course is part of the general education core.

Math 1130
Expanded College Algebra*
4 Credits 3 Class Hours & 2 Computer Lab Hours
An enhanced college algebra course for non-science majors. Combines DSPM 0850 Intermediate Algebra and traditional math 1130 College Algebra course content. Lectures include 3 hours in the traditional classroom and 2 hours in computer labs covering required supplemental material. Topics include rational and exponential expressions, the concept of functions and their inverses, linear functions and equations including radical and absolute value equations, quadratic functions and equations, exponential and logarithmic functions and equations, graphs of basic functions, systems of equations and inequalities. Prerequisites: DSPM 0800 or equivalent skills and instructor permission.
*This course is part of the general education core.

MATH 1410
Math for Elem Education I*
3 Credits 3 Class Hours
An introductory first course in math for elementary education which is restricted to students majoring in Elementary or Early Childhood Education. Topics include tools for problem solving, sets and operations in sets, functions, logic, numeration system, algebra-based study of properties of and operations with whole numbers, integers, rational numbers, and real numbers. Prerequisite: DSPM 0850
*This course is part of the general education core.

MATH 1420
Math for Elem Education II*
3 Credits 3 Class Hours
A continuation of MATH 1410 and the second course in math for elementary education which is restricted to students majoring in Elementary or Early Childhood Education. Topics include introductory elements of probability and statistics and the basic concepts of Euclidean geometry and coordinate geometry including congruence, similarity, measurements, areas, and volumes. Prerequisite: MATH 1410
*This course is part of the general education core.

MATH 1530
Probability/Statistics*
(Non-Calculus)
(Formerly MATH 1510) 3 Credits 3 Class Hours
An introduction to basic concepts and formulas for both descriptive and inferential statistics. Topics include the nature of data, uses and abuses of statistics, methods of sampling, summarizing data, pictures of data, counting techniques, measures of central tendency, measures of variation, measures of position, understanding probability, binomial and normal distributions, central limit theorem, confidence intervals, fundamentals of hypothesis testing for both one and two samples, ANOVA, linear regression, and a brief introduction to nonparametric statistics. Prerequisite: DSPM 0850
*This course is part of the general education core.

MATH 1630
Finite Mathematics*
(Formerly MATH 1610) 3 Credits 3 Class Hours
An introduction to mathematical topics applicable to a variety of academic areas. Topics include problem solving, set theory, logic, systems of equations, linear programming, finance, counting methods, and probability. Prerequisite: DSPM 0850
*This course is part of the general education core.

MATH 1710
Precalculus I*
3 Credits 3 Class Hours
A traditional college trigonometry or second course in precalculus. Topics include the trigonometric functions of the general and acute angles, right and oblique triangles, related angles, degree/radian measure, trigonometric equations, inverse trigonometric functions, graphs of the trigonometric functions, identities, vectors, complex numbers in polar form, the polar coordinate system, conic sections, parametric equations, and applications. Prerequisite: MATH 1710
*This course is part of the general education core.

MATH 1730
Precalculus*
(Formerly MATH 1085) 5 Credits 5 Class Hours
A single introductory course for the preparation for calculus. Topics include an overview of elementary algebra, element...
MATH 1840
Calculus for Technology
(formerly MATH 1095)
3 Credits 3 Class Hours
An introductory calculus course requiring some trigonometry and emphasizing technical applications. Topics include a survey of limits, continuity, differentiation, integration, related rates, maximum-minimum problems, and exponential growth and decay. Prerequisites: MATH 1720 or MATH 1730

MATH 1910
Calculus & Analytic Geom I*
4 Credits 4 Class Hours
An introductory first course in the traditional three-course calculus sequence. Topics include plane analytical geometry, function theory including limits and continuity, the differential and integral calculus of algebraic and trigonometric functions of one independent variable, curve sketching, maxima and minima, related rates, areas under and between curves, and volume. Prerequisites: MATH 1720 or MATH 1730
*This course is part of the general education core.

MATH 1920
Calculus & Analytic Geom II
4 Credits 4 Class Hours
A continuation of MATH 1910 and the second course in the traditional three-course calculus sequence. Topics include a study of the differential and integral calculus of exponential and logarithmic functions of one independent variable, further exploration of the trigonometric functions, further applications of the definite integral, integration techniques, infinite series, parametric equations, and polar coordinates. Prerequisite: MATH 1910

MATH 2110
Calculus & Analytic Geom III
4 Credits 4 Class Hours
A continuation of MATH 1920 and the third course in the traditional three-course calculus sequence. Topics include solid analytical geometry, the calculus of more than one independent variable, surfaces and curves in space, cylindrical and spherical coordinate systems, vectors and vector-valued functions, partial derivatives, multiple integrals, and applications. Prerequisite: MATH 1920

MATH 2120
Differential Equations
3 Credits 3 Class Hours
An introductory first course in differential equations. Topics include linear first-order differential equations, applications, homogeneous linear differential equations, second-order linear equations, systems of differential equations, and the Laplace Transform method. Prerequisite: MATH 1920

Marketing
MKT 1400
Customer Service & Sales
3 Credits 3 Class Hours
An introduction to the fundamentals of customer service and selling. Topics include developing and conveying a positive attitude, identifying buying motives and customer needs, developing and delivering a sales presentation, customer approaches, sales strategies, and cultivating repeat business through service. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

MKT 2220
Marketing
3 Credits 3 Class Hours
A study which presents information concerning the practices and basic principles of marketing from origin to the ultimate consumer. Topics include the marketing mix, buyer behavior, organization and planning, channels of distribution, and promotion. Prerequisites: DSPR 0800 and DSPW 0700 or equivalent skills

MKT 2221
Consumer Behavior
3 Credits 3 Class Hours
A study of how consumer behavior influences the marketing manager’s decisions. Topics include the social, physiological, psychological, and environmental factors. Decision-making processes that have an effect on the purchasing and use of goods and services by individuals and households are included. Prerequisites: DSPR 0800, DSPW 0700 or equivalent skills, MKT 2220

Music Technology
MST 1110
Fundamentals of Music
3 Credits 3 Class Hours
An introduction to reading and writing music. Topics include key and time signatures, song form, melody, harmony, chords, and the Nashville number system.

MST 1120
Mastering
3 Credits 2 Class Hours, 2 Lab Hours
Mastering is the final creative step in music production, before the manufacturing process. Topics include how mastering has evolved, the relationship of mixing and mastering, business responsibilities, and modern techniques and equipment. Prerequisite: MST 1240

MST 1130
Intro to Studio Recording
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the recording studio. Topics include microphones, analog and digital recorders, the recording console, signal processing, and recording techniques.

MST 1140
Intro to MIDI
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to basic MIDI (Musical Instrument Digital Interface) concepts and techniques. Topics include keyboard programming, sound modules, sequencing, and electronic music production.

MST 1210
The Business of Music
3 Credits 3 Class Hours
An introduction to the music business. Topics include record companies, management, promotion, publicity, and radio. Career opportunities are discussed.

MST 1220
Songwriting
3 Credits 3 Class Hours
An introduction to basic songwriting. Topics include lyric and melody construction, working with music publishers and performance rights organizations. Professionally written songs and students’ songs are analysed in class.

MST 1230
Advanced Studio Recording
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of MATH 1130. Topics include digital audio, tape machine alignment, mixing, stereo microphone techniques, and the creative use of signal processors. Prerequisite: MST 1130

MST 1240
Desktop Digital Audio
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the use of computers in recording, editing, and mixing digital audio. Topics include software based music production, sound design, looping, and mastering.
MST 1260
Advanced MIDI
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of MST 1140. Topics include computer based sequencing, editing, and advanced electronic music production techniques. Prerequisite: MST 1140

MST 1310
The Internet for Musicians
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to the Internet as a music promotion resource. Topics discussed include music marketing, Web design, and independent label and artist promotion.

MST 1320
Advanced Songwriting
3 Credits 3 Class Hours
A continuation of MST 1220. Topics include co-writing, demo production and writing for specialty markets. Prerequisite: MST 1220

MST 1330
Studio Maintenance
3 Credits 2 Class Hours, 2 Lab Hours
An introduction to studio maintenance. Topics include basic electronics, troubleshooting equipment problems, soldering techniques and the use of test equipment.

MST 1340
Music Publishing
3 Credits 3 Class Hours
An introduction to the music publishing industry. Topics include self-publishing vs. professional publishing, starting your own publishing company, song plugging, and performance rights organizations.

MST 1360
Advanced Desktop Digital Audio
3 Credits 2 Class Hours, 2 Lab Hours
A continuation of MST 1240. Topics include advanced recording, editing and mixing techniques, plug-ins, tuning, synchronization and audio for video. Prerequisite: MST 1240

MST 1410
Advanced Music Publishing
3 Credits 3 Class Hours
A continuation of MST 1340. Topics include getting songs to the right people, indie markets and foreign markets. Students write and issue licenses and agreements, and acquire new copyrights. Prerequisite: MST 1340

MST 1010
Materials of Music
3 Credits 3 Class Hours
An introduction to music notation and the basics of music theory. Topics include keys, scales, simple chords, and practice in listening skills.

MUS 1014
Class Voice
1 Credit 2 Class Hours
An introduction to basic vocal skills, such as breath control and tone production.

MUS 1020
Freshman Music Theory I
3 Credits 3 Class Hours
A survey of the grammar of music with emphasis on diatonic harmony, including the major and minor chords and their inversions and part-writing. Prerequisite: MUS 1010 or instructor permission. Corequisite: MUS 1025

MUS 1021
Freshman Music Theory II
3 Credits 3 Class Hours
A continuation of MUS 1020. Prerequisite: MUS 1020. Corequisite: MUS 1026

MUS 1025
Freshman Aural Skills I
1 Credit 1 Class Hour
A lab developing ear-training skills, including sight-singing and music dictation. Prerequisites: MUS 1010 or instructor permission. Corequisite: MUS 1020

MUS 1026
Freshman Aural Skills II
1 Credit 1 Class Hour
A continuation of the ear-training skills acquired in Aural Skills I. Prerequisites: MUS 1025 and MUS 1020. Corequisite: MUS 1021

MUS 1030
Music Appreciation*
3 Credits 3 Class Hours
A survey of music from the Middle Ages, the Renaissance, the 18th and 19th centuries, and modern times. Topics include folk music, popular music, world music, music theory, and cultural and historical influences. Prerequisites: DSPW 0800 and DSPR 0800 or demonstrated equivalent skills. MUS 1030 meets the general education requirement for Humanities.

*M this course is part of the general education core.

MUS 1040
Class Guitar
1 Credit 3 Class Hours
Basic instruction in guitar with emphasis on classical and popular guitar techniques and reading standard music notation and chord charts. Ownership or rental of a guitar is required.

MUS 1307
College Choir
1 Credit 3 Class Hours
The college choir is a mixed ensemble performing in a variety of musical genres.

MUS 2020
Sophomore Music Theory I
3 Credits 3 Class Hours
A survey of advanced music with emphasis on chromatic harmony, modulation, 20th-century harmony, part-writing, and ear-training. Prerequisite: MUS 1021. Corequisite: MUS 2025

MUS 2021
Sophomore Music Theory II
3 Credits 3 Class Hours
A continuation of Sophomore Music Theory I. Prerequisite: MUS 2020. Corequisite: MUS 2026

MUS 2025
Sophomore Aural Skills I
1 Credit 1 Class Hour
A continuation of the ear-training skills acquired in Freshman Aural Skills II. Prerequisite: MUS 1026. Corequisite: MUS 2020

MUS 2026
Sophomore Aural Skills II
1 Credit 1 Class Hour
A continuation of the ear-training skills acquired in Sophomore Aural Skills I. Prerequisite: MUS 2025. Corequisite: MUS 2021

MUS 2111
Hist Pop Music for Mus Majors
3 Credits 3 Class Hours
A survey of American Popular styles and their origins. Topics include jazz, country, ragtime, blues, rock, and soul. Prerequisites: DSPW 0800 and DSPR 0800 or demonstrated equivalent skills.

MUS 2131
Class Piano I
1 Credit 3 Class Hours
This course is an introduction to the piano for music majors and non-music majors. This class is the first course in the four-semester class piano sequence to prepare students to pass their piano proficiency requirements.
Office Administration

OAD 1000
Basic Keyboarding
1 Credit 1 Class Hours
A beginning keyboarding course with an emphasis on the development of speed and accuracy using the touch typing system. Topics include the alphabetic, numeric, and symbol keys.

OAD 1100
Keyboarding/Formatting
3 Credits 3 Class Hours
An introductory keyboarding course using computers with emphasis on technique, mastery of the keyboard, and speedbuilding. Students are guided through touch-typing and speedbuilding exercises with software that immediately calculates speed and accuracy. Also includes formatting of basic business documents. Note: For students with keyboarding skills, a credit by examination can be taken.

OAD 1116
Business English
3 Credits 3 Class Hours
A course emphasizing the rules and accepted practices of English grammar in the contemporary business office. An emphasis will be placed on grammar, proofreading, and editing documents. Prerequisites: DSPR 0700 and DSPW 0700

OAD 1117
Business Communications
3 Credits 3 Class Hours
A course focusing on the importance of developing good oral and written communication skills. Topics include verbal vs. nonverbal communication, cultural impact on communication, the writing process and techniques, communicating in the professional environment, writing effective correspondence, and formal reports with assignments to help improve writing, listening, nonverbal, and speaking skills. Prerequisites: OAD 1100, OAD 1116, and AIS 1181

OAD 1225
Word
3 Credits 3 Class Hours
A course designed to expand the student's skill with Microsoft® Word. Topics include tabs, manipulating text, formatting, sections, headers and footers, tables, columns, forms, mail merge, table of contents and indexes, styles, and basic graphics. Prerequisite: AIS 1181

OAD 1235
Excel®
3 Credits 3 Class Hours
A course designed to expand the student's skill with Microsoft® Excel®. Topics include formatting and customizing worksheets, building formulas and functions, creating and editing charts and tables, and exchanging data with other programs. Prerequisite: AIS 1181

OAD 2125
Access®
3 Credits 3 Class Hours
A course designed to expand the student's skill with Microsoft® Access®. Topics include creating and modifying tables, queries, forms, reports, and macros, as well as organizing and managing databases. Students will design and create an original database for the office. Prerequisite: AIS 1181

OAD 2600
Medical Transcription I
3 Credits 3 Class Hours
An introductory medical transcription course introducing students to the interesting and challenging world of medical transcription. Topics include medical terminology, reinforcement of English language skills, appropriate format, and production of medical documents, including history and physical, x-ray, operative, consultant, autopsy, and other medical reports. Prerequisites: BIOL 1000 with a grade of “C” or higher and AIS 1181

OAD 2610
Medical Transcription II
3 Credits 3 Class Hours
A continuation of medical transcription course with continued emphasis on medical terminology and the production of medical reports dictated from actual medical cases with real-life situations, i.e., background noise, foreign dictators, and newly-developed procedures. Topics include 15 medical specialties in a hospital or clinical setting. Prerequisite: OAD 2600 with a grade of “C” or higher.
OAD 2645 Coding Capstone
3 Credits 3 Class Hours
A second year advanced course that applies coding knowledge learned from preceding courses. Required for all coding students. Topics include ICD and CPT code assignments, application of coding guidelines to ensure accurate code assignment and correct code sequencing. Preparation for coding certification will be emphasized. Prerequisites: OAD 2630 and OAD 2635 with a grade of “C” or higher

OAD 2650 Medical Insurance
3 Credits 3 Class Hours
A study of insurance billing procedures. Topics include instruction for completing pertinent forms for third-party payers. Reimbursement methods for billing and reporting are discussed. Prerequisite or corequisite: OAD 2635

OAD 2660 Pharmacology
3 Credits 3 Class Hours
An introduction to generic and product names of a variety of medications, drug classifications, and general therapeutic applications. Topics include history of drugs, the drug approval process, applicable prescription and over-the-counter drugs for every body system. Prerequisite: BIOL 1000 with a grade of “C” or higher

OAD 2840 Office Procedures
3 Credits 3 Class Hours
A course designed to prepare students to meet the challenges and opportunities presented by today’s evolving offices. Students complete projects that require critical thinking, teamwork, interpersonal and leadership skills while applying appropriate procedures to manage the administrative functions of an office. Prerequisite: OAD 1117

OAD 2950 Office Professional Capstone
3 Credits 3 Class Hours
A second-year capstone course that emphasizes the integration of the student's knowledge and application of office skills. Topics include office-related assignments using word processing, database, spreadsheet, and presentation software, as well as appropriate office procedures. An exit exam will be administered at the end of the semester as a means of assessing program outcomes. This course should be taken during the last semester before graduation. Instructor approval required.

Occupational Therapy Assistant

OTA 1110 Occupational Human Development
3 Credits 2 Lecture Hours, 3 Lab Hours
A study of performance and growth in areas of occupation (social participation, ADL, education, work, play and leisure) in normal development from conception to death. Topics include developmental milestones in performance skills through the lifespan.

OTA 1120 Exploring Occupations
3 Credits 2 Lecture Hours, 3 Lab Hours
A study of the concept of occupation across cultures and lifespan. Topics include occupational analysis and selection, adaptation and sequencing of purposeful/meaningful activities.

OTA 1130 Foundations of OT
3 Credits 3 Lecture Hours
A study of the basic tenets of occupational therapy. Topics include the history and the role of occupation to health and human diversity, philosophy of occupational therapy, theories, ethics, standards of practice and professional associations.

OTA 1140 OT Doc with FW A
2 Credits 1 Lecture Hour, 3 Lab Hours
A study of the documentation of the OT treatment process and a Level I Fieldwork. Prerequisite or Corequisite: ENGL 1010 Composition I

OTA 1150 Med Term for OT
1 Credit 1 Web-Based Lecture Hour
Web-based course introducing the OTA student to the terminology used in the medical profession.

OTA 1160 FW A
1 Credit
Opportunity for the OTA student to apply academic knowledge of occupational therapy to practice through a Level I fieldwork experience.

OTA 1210 Group Process & Dynamics
3 Credits 2 Lecture Hours, 3 Lab Hours
A study of client-practitioner interactions. Topics include professional behaviors, therapeutic use of self, and group process & dynamics.

OTA 1220 Challenges to Mental Health
3 Credits 2 Lecture Hours, 3 Lab Hours
A study of individuals who are limited in their ability to engage in life activities due to challenges to their mental health. Topics include major DSM IV diagnoses with emphasis on symptoms, behaviors, cultural influences, and medical and social supports related to those diagnoses, OT evaluations and treatment planning for the mental health population are practiced. Prerequisite: PSYC 1111 Intro to Psychology

OTA 1230 Challenges to Physical Health
3 Credits 2 Lecture Hours, 3 Lab Hours
A study of individuals who are limited in their ability to engage in daily life activities due to challenges to their physical health. Topics include major medical, orthopedic, and neurological diagnoses, with emphasis on symptoms, physical conditions, and medical and social supports related to those diagnoses. OT evaluations and treatment planning for the physical health population are practiced.

OTA 1240 Human Movement for Occupation
3 Credits 2 Lecture Hours, 3 Lab Hours
A study of kinetics of human motion of the musculoskeletal system. Topics include evaluation procedures for range of motion, functional muscle strength and coordination testing, principles and techniques of body mechanics, transfers, and positioning, and neuromotor and myofascial treatment concepts.

OTA 1250 AT and Env Adaptation
3 Credits 1 Lecture Hour, 6 Lab Hours
A study of adapting, altering or designing environments that support participation and facilitate engagement in social, family and community activities. All levels of assistive technology will be reviewed and discussed. Topics include but are not limited to home modifications, driving evaluations, communication devices and community mobility. Students will evaluate participation limitations and facilitators for individuals and communities.
OTA 1260  
FW B  
1 Credit  
Opportunity for the OTA student to apply academic knowledge of occupational therapy to practice through a Level I Fieldwork experience. 
Prerequisites: Fieldwork A

OTA 2110  
OT Int and Tx: Peds  
2 Credits  
1 Lecture Hour, 3 Lab Hours  
A study of limitations and obstacles to occupational engagement (self-care, play, school) for persons from birth to age 22. Topics include Common diagnoses, evaluation methods and treatment environments and treatment for areas of occupation. (ADL, IADL, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and mental health and physical well-being: Prerequisites: OTA 1110, OTA 1120, OTA 1130, OTA 1140, OTA 1210, OTA 1220, OTA 1230, OTA 1240, OTA 1250, BIOL 2010

OTA 2120  
OT Int and Tx: Mental Health  
3 Credits  
2 Lecture Hours, 3 Lab Hours  
A study of mental health limitations and obstacles to occupational engagement for individuals and populations. Topics include common diagnoses and treatment environments, treatment for areas of occupation. (ADL, IADL, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and mental health well-being. Prerequisites: OTA 1110, OTA 1120, PSYC 1111 Corequisite: OTA 1210

OTA 2130  
OT Int and Tx: Adult  
3 Credits  
2 Lecture Hours, 3 Lab Hours  
A study of physical health limitations and obstacles to occupational engagement for individuals and populations. Topics include common diagnoses and treatment environments, treatment for areas of occupation. (ADL, IADL, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and physical well-being. Prerequisites: OTA 1110, OTA 1120, OTA 1130, OTA 1140, OTA 1210, OTA 1220, OTA 1230, OTA 1240, OTA 1250, BIOL 2010

OTA 2140  
OT Int and Tx: Geriatric  
2 Credits  
1 Lecture Hour, 3 Lab Hours  
A study of physical and mental health limitations and obstacles to occupational engagement for individuals and populations. Topics include common diagnoses and treatment environments, treatment for areas of occupation. (ADL, IADL, education, work, play, leisure, and social participation), considering performance skills, performance patterns, client factors and context will be reviewed. Students will be required to develop applications for enabling function and mental health and physical well-being: Prerequisites: OTA 1110, OTA 1120, OTA 1130, OTA 1140, OTA 1210, OTA 1220, OTA 1230, OTA 1240, OTA 1250, BIOL 2010

OTA 2150  
Mngmt Skills for the OTA  
2 Credits  
2 Lecture Hours  
A study of management skills with an emphasis on organization and professional communication skills necessary for team building, leadership and collaboration. Topics include program planning, marketing, advocacy and program quality improvement. Documentation, reimbursement, ethical and legislative issues will be addressed. This class will review requirements for Level II Fieldwork, certification and licensure. Students will prepare for future employment through resume and portfolio development. Prerequisite: OTA 1110, OTA 1120, OTA 1130, OTA 1140, OTA 1210, OTA 1220, OTA 1230, OTA 1240, OTA 1250

OTA 2160  
FW C  
1 Credit  
Opportunity for the OTA student to apply academic knowledge of occupational therapy to practice through a Level I Fieldwork experience. 
Prerequisites: Fieldwork A & B

OTA 2210  
Level II A  
6 Credits  
First eight-week fieldwork experience designed to provide the OTA student the opportunity to work in an OT setting, under the supervision of an OTR or COTA. Students must meet objectives designed by academic and clinical educators. Prerequisites: All academic coursework and program director approval are required. Students must earn a grade of "C" or better in all coursework and a satisfactory rating on the Professional Behavioral Competence document before approval for Level II placement.

OTA 2220  
Level II B  
6 Credits  
Second eight-week fieldwork experience designed to provide the OTA student the opportunity to work in an OT setting, under the supervision of an OTR or COTA. Students must meet objectives designed by academic and clinical educators. Prerequisites: All academic coursework and program director approval are required. Students must earn a grade of "C" or better in all coursework and a satisfactory rating on the Professional Behavioral Competence document before approval for Level II placement.

Health & Wellness

PHED 1010  
Intro to Health and Wellness  
3 Credits  
3 Class Hours  
An introduction to concepts and practices for developing and maintaining healthy lifestyles in order to achieve a balance for lifelong wellness including physiological, biological, and psychological processes. Students participate in health, nutrition, and fitness evaluations as well as identifying general individual risk factors leading to an individualized wellness plan.

PHED 1030  
Walking  
1 Credit  
2 Class Hours  
A study of and practice in maintaining physical fitness through walking. Studies the effects of walking on the body.

PHED 1060  
Weight Training  
1 Credit  
2 Class Hours  
An introduction to training programs with an emphasis on warm-ups, stretching, individual exercises, running, and the use of weight machines. Encourages the continuation and the self-discipline of exercise.

PHED 1100  
Karate  
1 Credit  
2 Class Hours  
A study in the fundamental techniques of Isshinryu Karate as well as beginning katas, sparring, and self-defense.

PHED 1210  
Physical Conditioning  
1 Credit  
2 Class Hours  
A study and practice in maintaining personal physical fitness through strenuous exercise and aerobic activities. Studies effects of exercise on the body.
PHED 1340
Beginning Yoga
1 Credit 2 Class Hours
Teaches students the basics of hatha yoga. Instruction emphasizes the basic knowledge and skills related to yoga postures.

PHED 1350
Bicycling
1 Credit 2 Class Hours
An introduction to the skills of bicycling, including practical experiences. Provides knowledge about fitness as it is related to bicycling activities.

PHED 1420
Karate II
1 Credit 2 Class Hours
A study in the intermediate techniques of karate as well as intermediate katas, weapons, sparring, and self-defense. Prerequisite: PHED 1100 or instructor permission

PHED 1430
Karate III
1 Credit 2 Class Hours
A study in the advanced techniques of karate. Prerequisite: PHED 1420

PHIL 1000
Critical Thinking
3 Credits 3 Class Hours
An introduction to the elements of critical thinking as a cognitive process. Topics cover thinking abilities and problem-solving related to issues and concepts drawn from academics, current events, and life experiences. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills

PHIL 1030
Introduction to Philosophy*
3 Credits (Honors Option Offered) 3 Class Hours
An introduction to the historical roots and basic problems of philosophy. Topics include metaphysics, epistemology, and value theory (ethics, aesthetics, social/political philosophy) along with the major figures of Western philosophy. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. PHIL 1030 meets the general education requirement for Humanities.
* This course is part of the general education core.

PHIL 1111
Introduction to Ethics*
3 Credits (Honors Option Offered) 3 Class Hours
An introduction to the study of moral reasoning and judgment. Topics include the meaning and importance of individual and social morality in human life, the major systems of ethical theory (ethics of virtue, ethics of duty) as they apply to the study of such moral problems as sexual morality, pornography, abortion, euthanasia, capital punishment, and job discrimination. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. PHIL 1111 meets the general education requirement for Humanities.
* This course is part of the general education core.

PHIL 2021
Philosophy in Movies
3 Credits 3 Class Hours
An exploration of philosophical themes in movies. Topics include philosophical issues underlying the dramatic action in films and a deeper philosophical understanding and intellectual appreciation for philosophy and film. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills

PHIL 2200
World Religions*
3 Credits (Honors Option Offered) 3 Class Hours
An introduction to the academic study of comparative religion. Topics include basic elements of religion and strategies for recognizing patterns of similarity and divergence among different religions, and the origins, development, and fundamental beliefs and practices of Hinduism, Taoism, Buddhism, Confucianism, Jainism, Sikhism, Shinto, Judaism, Christianity, and Islam, among others. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills
* This course is part of the general education core.

PHO 1110
Basic Photography
3 Credits 3 Class Hours
An introduction to the use of 35mm cameras and shooting color slide film. Topics include camera controls, films, lenses, flash, exposure, light metering, and composition. A film or digital SLR camera is required.

PHO 1170
Business of Photography
3 Credits 3 Class Hours
An introduction to creating a business in photography. Topics include business licensing, marketing, estimating and invoicing jobs, copyrighting, tax laws and deductions, stock photography, location scouting, and props.
PHO 1210  
**Black & White Photography I**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to basic black-and-white photography. Topics include exposure, film processing, printing, composition, and the study of black-and-white photography as an art form.  
*Prerequisite: PHYS 1110*

PHO 1230  
**Color Lab Techniques I**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to the color darkroom. Students learn to color correct and print using both traditional and digital darkrooms.  
*Prerequisites: PHYS 1110, COM 1230, and COM 1170*

PHO 1240  
**Lighting I**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introductory lighting course. Topics include lighting, with student's battery powered strobes, the use of light meters, stands, and umbrellas both on location and in the studio. A removable flash is required.  
*Prerequisite: PHYS 1110*

PHO 1270  
**Portfolio Practicum**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An advanced class providing instruction in the process of how to develop a professional portfolio. Topics include portfolio design, presentation, and self-promotion.  
*Prerequisites: PHYS 1110, PHYS 1210, PHYS 1230, PHYS 1240, and PHYS 1490*

PHO 1310  
**Black & White Photography II**  
3 Credits  
2 Class Hours, 2 Lab Hours  
A continuation of the skills learned in PHYS 1210. Students explore more advanced exposure methods, processing, and printing techniques as well as such topics as archival printing, toning, alternative printing processes, and print presentation.  
*Prerequisite: PHYS 1210*

PHO 1320  
**Color Lab Techniques II**  
3 Credits  
2 Class Hours, 2 Lab Hours  
Students use both traditional and digital labs to further explore the creative processes involved in color photography.  
*Prerequisites: PHYS 1230, COM 2240*

PHO 1330  
**Alternative Photo Processes**  
3 Credits  
2 Class Hours, 2 Lab Hours  
Students study and work with methods that pre-date silver-gelatin photography. The course is an intensive introduction to hand-applied emulsions onto various types of art papers.  
*Prerequisite: PHYS 1210*

PHO 1350  
**Lighting II**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An in-depth study of studio lighting with an emphasis on 35mm and large format cameras. Topics include tungsten lighting and studio flash, camera movements, lenses, exposure calculations, and commercial applications.  
*Prerequisite: PHYS 1240*

PHO 1410  
**Nature Photography**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to field techniques in nature photography. Topics include natural light, composition, close-up photography, and critiquing images created for class. Weather permitting, each meeting consists of a field session and a classroom session.  
*Prerequisite: PHYS 1110*

PHO 1430  
**Portrait Techniques**  
3 Credits  
3 Class Hours  
An introduction to portrait techniques. Topics include equipment, outdoor and studio lighting, client relationships, and business aspects of portrait photography.  
*Prerequisites: PHYS 1110, PHYS 1240*

PHO 1450  
**Individual Study**  
3 Credits  
1 Class Hour, 6 Lab Hours  
An in-depth exploration of still photography for the advanced student.  
*Prerequisites: All PHYS and all COM level Photography courses and approval of instructor*

PHO 1470  
**Photojournalism**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to photojournalism. This class covers techniques and equipment needed when shooting for publication and places an emphasis on producing digital images.  
*Prerequisites: PHYS 1110, PHYS 1230, and PHYS 1240*

PHO 1490  
**Digital Photography**  
3 Credits  
2 Class Hours, 2 Lab Hours  
An introduction to capturing and processing digital images. Topics include white balance, digital files, lenses, transferring images to a computer, working with a desktop darkroom, burning CD’s, scanning, and printing on inkjet and RGB printers.  
*Prerequisites: PHYS 1110, COM 1230, and COM 1170*

PHO 2190  
**Advanced Digital Printmaking**  
3 Credits  
2 Class Hours, 2 Lab Hours  
A continuation of PHYS 1490 and COM 2240 using Adobe Photoshop®. Topics include advanced color management, advanced digital manipulation of images, problem solving, and various printmaking techniques.  
*Prerequisites: PHYS 1230, PHYS 1490, COM 2240, and approval of instructor*

PHO 2200  
**Digital Color Management**  
3 Credits  
3 Class Hours  
Principles of digital image color management. Emphasis on creating a color management (CMS) for use in commercial and fine art applications. This includes intermediate to advanced techniques in color management applications as well as Adobe Photoshop®.  
*Prerequisites: PHYS 1230, PHYS 1490*

**Physics**

PHYS 1115  
**Basic Physics**  
3 Credits  
3 Class Hours  
An introductory course for students having little or no background in physics. Students are introduced to a variety of topics including motion, energy, fluids, electric circuits, optics, and waves. Intended to prepare engineering technology students to be successful in PHYS 2100 and 2120 and to provide a physical science elective without a lab for all students. Course does not transfer.  
*Prerequisite: Two years of high school algebra*

PHYS 2010  
**Non-Calculus Physics I**  
4 Credits  
3 Class Hours, 3 Lab Hours  
An algebra/trigonometry-based course in the concepts and principles of mechanics, fluids, heat, and thermodynamics.  
*Prerequisite: MATH 1730 or MATH 1710-1720*

PHYS 2020  
**Non-Calculus Physics II**  
4 Credits  
3 Class Hours, 3 Lab Hours  
An algebra/trigonometry-based course in the concepts and principles of wave motion, sound, electricity and magnetism, light and optics, and elements of modern physics.  
*Prerequisite: PHYS 2100*

*This course is part of the general education core.*
PHYS 2110
Calculus Based Physics I*
4 Credits 3 Class Hours, 3 Lab Hours
A calculus-based course in the concepts and principles of mechanics, fluids, heat, and thermodynamics. This course is intended to serve students who plan to major in science or engineering at the four-year college level. Prerequisite: MATH 1910
* This course is part of the general education core.

PHYS 2120
Calculus Based Physics II*
4 Credits 3 Class Hours, 3 Lab Hours
A calculus-based course in the concepts and principles of wave motion, sound, electricity and magnetism, light and optics, and the elements of modern physics. This course is intended to serve students who plan to major in science or engineering at the four-year college level. Prerequisite: PHYS 2110
* This course is part of the general education core.

Political Science

POLI 1111
Intro to Political Science*
3 Credits 3 Class Hours
An introduction to classic thinkers in political science, as well as essential concepts in Western political thought; topics include democracy, rights, sovereignty, republicanism, majorities and minorities. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. Note: POLI 1111 meets the requirement for a Social Science elective.
* This course is part of the general education core.

POLI 2010
American National Government*
3 Credits 3 Class Hours
An introduction to foundations and principles of American national government; Constitutional principles, functions, and administration of American national government, Congress, the Presidency, the Supreme Court, and the U.S. political system. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. Note: POLI 1111 meets the requirement for a Social Science elective.
* This course is part of the general education core.

Physical Science

PSCI 1030
Survey of Physical Science*
4 Credits 3 Class Hours, 3 Lab Hours
This course is a conceptual introduction to physical science using a minimum of mathematics. Topics discussed include Newtonian mechanics, gravitation, waves, sound, electricity, magnetism, heat and optics, and an introduction to modern physics. Prerequisites: DSPR 0800 and DSPM 0800
* This course is part of the general education core.

Police Science/
Law Enforcement

PST 1000
Intro To Criminal Justice
3 Credits 3 Class Hours
A study of the administration of criminal justice and its purposes, goals, and functions. Topics include evaluation of law enforcement responsibilities, techniques, and methods of how police patrol is conducted. Provides a basic understanding of the criminal justice components, including history of law enforcement; DUI enforcement; officer survival; police corruption; sects, cults, and deviant movements; police administration; firearms; and defensive tactics.

PST 1005
Intro To Criminology
3 Credits 3 Class Hours
A study of societal problems including deviant behavior, its causes, patterns, treatment, and prevention.

PST 1010
Criminal Law & Procedure
3 Credits 3 Class Hours
A study of trial procedures, history of constitutional rights, rules of evidence admissibility, types of evidence, and laws of arrest, search, and seizure.

PST 1020
Police Administration
3 Credits 3 Class Hours
A study of the principles of personnel management functions and organization of the police agency. Topics include policy procedures, evaluation of the research, planning, and development processes, and operational duties and commands.

PST 1030
Criminal Evidence
3 Credits 3 Class Hours
A study of the types, proper treatment, and disposition of criminal evidence. Examines the problems of admissibility in court proceedings. Other topics include types of evidence, rules for obtaining the evidence, principles of exclusion, evaluation and examination of the evidence, proof, competence of witnesses, hearsay rule, opinion, pre-trial discovery, and testimony in court.

PST 1035
Report Writ for Law Enforce
3 Credits 3 Class Hours
A study of the objectives of effective police report preparation as it specifically pertains to law enforcement. Emphasizes how to present information in an organized, clear and chronological manner. Topics include the three categories of law enforcement documents, incident, administrative, and affidavit.

PST 1040
Defensive Tactics
3 Credits 3 Class Hours
An introduction to basic police defensive tactics system through practical physical practice of uncomplicated movements and control of distance. Basic defensive tactics include hand and foot strikes, pressure points, control tactics, impact weapons, handcuffing techniques and use-of-force plans to include various policies on deadly force. Studies mental conditioning for survival and use-of-force continuum.

PST 1043
Investigative Photography
3 Credits 3 Class Hours
A study of the basic concepts of photography through an understanding of aperture, shutter speed, and film speed. Emphasizes principles of the 35 mm camera and digital cameras and their application of recording and reconstructing crime scenes. Also prepares the student for the Evidence Photography that takes photography into the laboratory. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills
PST 1050
Tactical Shotgun
3 Credits  3 Class Hours
A study of operating skills for “tactical response shotgun.” Special emphasis on safety, gun handling,ammo selection, position shooting, marksmanship, and tactical movement. Upon completion, the student will be able to explain and demonstrate the safe and proper use of the “tactical shotgun” and have a working knowledge of weapon function, ammunition selection, shotgun wounding characteristics, and various applied shotgun techniques, and basic mechanical troubleshooting for the shotgun.

PST 1055
Intro to Computer Crime
3 Credits  3 Class Hours
Provides an overview of criminal acts that can be committed with the use of a computer and the Internet, how computer related crimes are committed and how computer related crimes are investigated. The legal issues involved in the prosecution of computer related crimes will also be explored.

PST 1060
Basic Surveillance Techniques
3 Credits  3 Class Hours
An examination of basic police surveillance and counter-surveillance procedures and methods, including foot and vehicle; one-, two- and three-person or ABC surveillance; aerial platform; and electronic and stationary surveillance operations. Hands on training includes topics: definition and history of surveillance, four basic methods of surveillance, foot surveillance operations, vehicle surveillance procedures, stationary surveillance methods, aerial platform surveillance, counter-surveillance operations, detecting and eluding surveillance operatives, and presentation of surveillance evidence in court.

PST 1070
Officer Survival
3 Credits  3 Class Hours
A study of the basics of police work needed to survive both mentally and physically. Topics include basic officer survival tactics and techniques, proper survival techniques used during field interviews, unknown risk calls, and traffic stops. Provides a working knowledge of survival skills used during domestic calls, crimes in progress, and high risk traffic stops.

PST 1080
Interv/Interrog Techniques
3 Credits  3 Class Hours
A study of the techniques utilized in interviewing victims, witnesses, and subjects of interrogations. Topics include preparation and strategy, legal aspects, interpretation of verbal and physical behavior, causes of denial, interviewing, establishing credibility, reducing resistance, obtaining the admission, and the use of video equipment.

PST 1085
Basic Fingerprint/Pattern ID
3 Credits  3 Class Hours
A study of ridge pattern identification and the physical aspects of fingerprints. Provides the basis for developing techniques for the taking of presentable and classifiable inked impressions. Emphasises hands-on application of these techniques.

PST 1086
Latent Fingerprint Development
3 Credits  3 Class Hours
A study of the fundamentals of fingerprint development from the history of fingerprints to the most advanced techniques of modern day technology. Other topics include the use of Automated Fingerprint Identification System (AFIS). Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills.

PST 1087
Basic Crime Scene Invest
3 Credits  3 Class Hours
A study of the principles of crime scene investigation. Topics include scene assessment, photography, diagramming, evidence collection, processing of evidence, crime scene preservation, and the presentation of the evidence into a court of law. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills.

PST 1090
Traffic Accident Investigation
3 Credits  3 Class Hours
A study of traffic collisions using scientific methods of vehicle speed calculation, timed distance speed, report writing, and diagramming. Explores the legal, statistical, and professional aspects of this interesting field. Includes dynamic vehicle experiments and practical exercises in gathering facts for traffic investigators.

PST 1095
Tactical Talk
3 Credits  3 Class Hours
An interpersonal communications course for police officers. Provides officers the necessary tools to diffuse verbal confrontations as well as persuade contacts to obey legal and lawful orders. Topics include the goals, objectives, and visions of law enforcement and field interviewing techniques and neurolinguistics.

PST 1097
Surface Skel & Buried Bodies
3 Credits  3 Class Hours
A study of techniques in locating clandestine bodies and graves. Topics include visual search indicators of burials, disturbances in nature, soil compaction, soil gas detection, cadaver dogs, and scavenging patterns. Also includes many hands-on exercises. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills, PST 1087.

PST 2000
Drug Identification & Effects
3 Credits  3 Class Hours
A study of the fundamentals needed for identifying both the appearance and effects of controlled substances. Students receive guides to controlled substances: their color, trade names, and drug codes. Topics include a critical examination of the physiological, sociological, psychological, and legal aspects of drug abuse and many complexities that have developed as a direct or indirect result of their abuse in society.

PST 2010
Criminal Investigation
3 Credits  3 Class Hours
A study of the fundamentals of criminal investigation including crime scene search and recording; collection and preservation of evidence; a survey of related forensic science; interviews and interrogations; and methods of surveillance. Emphasizes the techniques of case preparation and presenting the case to court.

PST 2014
Advanced Crime Scene Techn
3 Credits  3 Class Hours
A study of crime scene techniques that takes the student beyond the classroom and into the field. Students will work mock crime scenes and apply all the skills acquired from previous studies. Simulates reality for the students and requires the student to photograph, diagram, and preserve crime scene evidence. Other topics include casting techniques and blood presumptive applications. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills, PST 1086 and PST 1087.
PST 2020
Police Firearms
3 Credits 3 Class Hours
An introduction to police combat firearms training, firearms tactics, deadly force policies and shoot/don’t shoot decisions. Emphasizes practical, safe operation and firing of handguns. Students learn how to safely operate and fire a handgun and make use-of-force decisions in firearms. Students must furnish weapons and ammunition.

PST 2023
Advanced Fingerprint Techn
3 Credits 3 Class Hours
A study of the comprehensive application of development of enhancement techniques for physical evidence using forensic chemicals to develop latent fingerprints from crime scene evidence. Utilizes a forensic laboratory using ninhydrin, cyanoacrylate, chemical powders, and many other forensic chemicals. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills, PST 1086

PST 2030
Seminar In Police Science
3 Credits 3 Class Hours
An opportunity for Police Science students to study the role of law enforcement and corrections in a seminar setting. Also includes off-campus experiences, which involve supervised field activities, field site visits, and extensive research activities.

PST 2031
Seminar in CSI
3 Credits 3 Class Hours
An opportunity for the CSI student to study the role of the crime scene technician in the crime lab work setting. Includes off campus experiences involving supervised activities within local police departments, field site visits, and extensive research activities. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills, PST 1086, 1087, 2014, 2023

PST 2035
Juvenile Procedures
3 Credits 3 Class Hours
An introduction to the concepts of youth crimes and techniques practiced by police and courts in prevention and control. Topics include the development and trends in juvenile court procedures.

PST 2045
Intro To Criminalistics
3 Credits 3 Class Hours
A study of the scientific evaluation of physical evidence in the crime lab; firearms examination, comparative micrography, toxicology, serology, polygraph, and microanalysis of hair, fiber, paint, and glass; and legal photography applications.

PST 2050
Police Tact Training (SWAT)
3 Credits 3 Class Hours
An overview of the historical development of special weapons and tactical teams. Studies the techniques of urban and rural movements, breaching techniques and forced entry methods. Methods of surreptitious and dynamic entry and clearing and hostage rescue are practiced with tactical diagramming and aid planning.

PST 2055
Gangs Cults & Deviant Movement
3 Credits 3 Class Hours
An examination of gang problems in the United States. Topics include precepts and current philosophies of Paganism, Neo-Paganism, Witchcraft, Satanism, Santeria, and Brujeria. Examines ceremonial and magical rituals, signs, symbols, secret alphabets, ritualized abuse, and Cult-Occult crime investigation. Explores psychological and sociological effects of media on adolescents.

PST 2060
Evidence Photography
3 Credits 3 Class Hours
A study of the photographic aspects used in criminal investigation with emphasis on types of cameras and lighting for purpose of recording evidence.

PST 2064
Bloodstain Evidence
3 Credits 3 Class Hours
A study of bloodstains, bloodspatter, and bloodstain pattern. Focusing on surface texture, direction of travel of blood striking an object, determining the impact angle of blood, the origin of bloodspatter and an examination of a blood drop in a two-dimensional configuration. Other topics include the collection and preservation of bloodstain evidence. Prerequisites: DSPR 0700, DSPW 0700 or equivalent skills

PST 2065
Prevention & Control Of Crime
3 Credits 3 Class Hours
A study of the police function as it pertains to the analysis of crime prevention and control. Addresses the major problems and needs of police agencies to fulfill their roles within the criminal justice system.

PST 2070
Business & Industrial Security
3 Credits 3 Class Hours
A study of the functions and concepts of security personnel forces of industrial plants, airports, hospitals, and commercial stores.

Psychology

PSYC 1111
Intro to Psychology*
3 Credits (Honors Option Offered) 3 Class Hours
An introduction to the fundamentals of human behavior. Major topics include biological bases of behavior, sensation and perception, motivation, learning and memory, maturation and development, personality, and social psychology. On completion of the course, the student should be able to utilize basic psychological principles to achieve a better understanding of self and others. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills Note: PSYC 1111 meets the requirement for a Social Science elective.* This course is part of the general education core.

PSYC 1115
Psychology of Adjustment
3 Credits (Honors Option Offered) 3 Class Hours
A study of personal and social adjustment in modern society. Topics include maturing self-concept, healthy interpersonal relationships, constructive management of emotion and stress, and prevention of maladjustment. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills

PSYC 2111
Psy of Human Growth & Dev*
3 Credits (Honors Option Offered) 3 Class Hours
A survey of the biological and environmental factors influencing the physical, intellectual, social, emotional, and language development from birth until death. Explores causes and results of interruption in or interference with the developmental process. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills Note: PSYC 2111 meets the requirement for a Social Science elective.* This course is part of the general education core.
PSYC 2113  
**Social Psychology**  
3 Credits  3 Class Hours  
A study of the individual in society. Topics include social behavior, socialization, perception, interaction, ethnicity and prejudice, effects of media and mass communication, attitude formation, altruism, and aggression. The methodologies of social psychology are also studied. (This course is the same as SOCI 2113.) Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.

PSYC 2120  
**Child & Adolescent Development**  
3 Credits  3 Class Hours  
An examination of children from a developmental perspective. Focuses on how children change as a result of age and experience. The underlying themes include: the interplay of biology, experience, and current level of development; how early experiences affect later development; and self development. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.

PSYC 2110  
**Educational Psychology**  
3 Credits  3 Class Hours  
A study and application of the principles of growth and development, learning theory, and assessment techniques in the classroom setting. Motivating and facilitating learning processes in school settings will be emphasized. Field experiences in an approved classroom are required. (This course is the same as EDUC 2110.) Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.

PSYC 2125  
**Abnormal Psychology**  
3 Credits  3 Class Hours  
A study of major patterns of abnormal behavior and their description and diagnosis, interpretation, treatment and prevention. Prerequisites: PSYC 1111, DSPW 0800 and DSPR 0800 or equivalent skills.

Industrial Process Control Technology

PTEC 1010  
**Technical Chemistry**  
3 Credits  2 Class Hours, 2 Lab Hours  
Technical Chemistry utilizes basic chemistry concepts and equipment to instruct prospective process control technicians and chemical operators in proper sampling methods, laboratory techniques, and process monitoring. This is an applications based course that emphasizes hands-on, practical exercises and experiences both in the laboratory and in an industrial environment. Prerequisites: DSPM 0850, CHEM 1030 and instructor permission.

PTEC 1020  
**Orientation to Industrial Safety**  
1 Credit  1 Class Hour  
An introduction to the field of Safety, Health and Environment within the PTEC industry. Topics include the roles and responsibilities of Process Technicians, the environment in which they work, and the equipment an systems in which they operate.

PTEC 1030  
**Tools/Processes of Technology**  
2 Credits  1 Class Hour, 2 Lab Hours  
An introduction to problem-based case study using the learning cycle as defined in the case files (www.theisafes.org). Students will be introduced to problem solving techniques, teamwork, computer usage, internet research, and delivery of a technical presentation. This class will also introduce the student to technical lab reports in preparation for IMC 1150 and CHEM 1030.

PTEC 1050  
**Intro to Process Technology**  
3 Credits  2 Class Hours, 2 Lab Hours  
An introductory course for students entering the Industrial Process Control program. Students will be introduced to physical science topics including solids, liquids, heat transfer, thermodynamics, electronics, and electricity and their significance in Process Control. This class is intended to provide a scientific background in the physics of plant operations, while preparing the students for PTEC 1060.

PTEC 1060  
**Process Technology I: Equipment**  
4 Credits  3 Class Hours, 2 Lab Hours  
An introduction to PT I: Equipment within the PTEC industry. Topics include PTEC industry-related equipment concepts including purpose, components, operation, and the Process Technician’s role for operating and troubleshooting the equipment. Prerequisite: PTEC 1020, PTEC 1050.

PTEC 1070  
**Process Technology II: Systems**  
4 Credits  3 Class Hours, 2 Lab Hours  
Study of the interrelation of PTEC equipment and PTEC systems. Students will arrange PTEC equipment into basic systems; describe the purpose and the function of specific PTEC systems; explain how factors affecting PTEC systems are controlled under normal conditions; and recognize abnormal PTEC conditions. Introduces the concept of system and plant economics. Prerequisite: PTEC 1060.

PTEC 1080  
**Process Technology III: Operations**  
4 Credits  3 Class Hours, 2 Lab Hours  
An introduction to operations within the PTEC industry. Students use existing knowledge of equipment, systems, and instrumentation to understand the operation of an entire unit. Study of concepts related to commissioning, normal startup, normal operations, normal shutdown, turnarounds, and abnormal situations, as well as the Process Technician’s role in performing the tasks associated with these concepts. Prerequisite: PTEC 1070.

PTEC 1090  
**Programming/Process Control**  
2 Credits  1 Class Hour, 2 Lab Hours  
An introduction to basic application programming. Topics include understanding structure, making decisions, using counters and arrays. This class is intended to provide a basic understanding of computer programming, logic, and structure.

PTEC 2020  
**Quality**  
3 Credits  2 Class Hours, 2 Lab Hours  
Helps students understand customer expectations in a manufacturing system and continuous improvement methodology. Demonstrates procedures and policies to ensure operating consistency, reduce variability in the process, reduce waste, and prevent safety incidents. Students use Quality Tools and team problem solving techniques.

PTEC 2050  
**Instrumentation I**  
4 Credits  3 Class Hours, 2 Lab Hours  
Topics include PTEC variables and the various instruments used to sense, measure, transmit and control these variables. Introduces the student to control loops and the elements that are found in different types of loops, such as controllers, regulators and final control elements. Concludes with a study of instrumentation drawings and diagrams and a unit on troubleshooting instrumentation. Prerequisite: PTEC 1060.

PTEC 2060  
**Instrumentation II**  
3 Credits  2 Class Hours, 2 Lab Hours  
An introduction to switches, relays and annunciators systems and moves on to discuss signal conversion and transmission. Controllers, control schemes and advanced control schemes. Covers digital control, programmable logic control.
and distributed control systems, instrumentation power supplies, emergency shutdown systems, and instrumentation malfunctions. Prerequisite: PTEC 2050

Sociology

SOCI 1111 Introduction To Sociology* 3 Credits 3 Class Hours
An introduction to the study of society, social groups, and social interaction. Topics include culture and society, socialization, social stratification, minorities, education, religion, and social change. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. Note: SOCI 1111 meets the requirement for a Social Sciences elective. * This course is part of the general education core.

SOCI 1112 Social Problems* 3 Credits 3 Class Hours
A study of issues and topics identified as social problems in American society, such as crime, drug and alcohol abuse, environment, changing family and gender relationships, poverty, and violence. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. SOCI 1111 is suggested as a prerequisite. Note: SOCI 1112 meets the requirement for a Social Sciences elective. * This course is part of the general education core.

SOCI 1120 Intro To Cultural Anthropology* 3 Credits 3 Class Hours
An introduction to the study of human culture. Focuses on human adaptation and diversity, development and variety of economic, political, religious, family, and expressive institutions. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. SOCI 1111 is recommended as a prerequisite. Note: SOCI 1120 meets the requirement for a Social Sciences elective. * This course is part of the general education core.

SOC 2112 Marriage And Family* 3 Credits 3 Class Hours
A study of the social, cultural, and personal factors relating to mate selection and family life. Assists students in understanding the values, marriages, and families of contemporary America. Topics include human intimacy, family relations through the life cycle, kinship, child rearing, sources of strain and violence, and sources of bonding in family life. Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills. Note: SOCI 2112 meets the requirement for a Social Sciences elective. * This course is part of the general education core.

SOC 2113 Social Psychology 3 Credits 3 Class Hours
A study of the individual in society. Topics include social behavior, socialization, perception, interaction, ethnicity and prejudice, attitude formation, altruism, aggression, effects of media and mass communication. The methodologies of social psychology are also studied. (This course is the same as PSYC 2113.) Prerequisites: DSPW 0800 and DSPR 0800 or equivalent skills.

Social Services/Social Work

SOC 1010 Intro to Social Work 3 Credits 3 Class Hours
An introduction and orientation to the field of social work. Topics include professional values and ethics, diverse population groups served, and the historical development and present structure of social services.

SOC 1011 Human Behavior Social Environ 3 Credits 3 Class Hours
A study of human motivation and the impact of the social environment on human behavior. Topics include development of socialization skills and coping mechanisms necessary for effectively functioning in social contexts.

SOC 1020 Soc Svcs for Children & Youth 3 Credits 3 Class Hours
A study of the special needs of children and youth. Topics include the social services that are available to meet those needs.

SOC 1025 Survey of Counseling Theories 3 Credits 3 Class Hours
A comparative analysis of the major theoretical approaches to the practice of counseling and psychotherapy. Topics include psychodynamic, behavioral, cognitive behavioral, gestalt, transactional analysis, and rational emotive and family systems therapy.

SOC 2035 Alcohol & Drug Abuse 3 Credits 3 Class Hours
A study of the social issues involved in alcohol and drug abuse and the assessment of sociological theories of alcohol and drug abuse, its prevention, and remediation.

SOC 2045 Family Systems 3 Credits 3 Class Hours
An examination of the interpersonal interaction patterns existing in families and of the problems experienced by families in contemporary American society. Topics include the examination of emotional and physical abuse, drug and alcohol addiction, alternative life styles, and changing gender roles.

SOC 2048 Field Practicum 5 Credits 5 Class Hours
An opportunity for the student to have direct professional experience in the field of social services. Students complete a minimum of 150 clock hours of field work in a social service agency approved by the Department and will be supervised by both an on-site mentor and a college practicum supervisor. Students are also required to attend all scheduled seminar meetings. Prerequisites: Completion of 30 hours of major core courses or instructor permission.

SOC 2055 Field Practicum 5 Credits 5 Class Hours
An opportunity for the student to have direct professional experience in the field of social services. Students complete a minimum of 150 clock hours of field work in a social service agency approved by the Department and will be supervised by both an on-site mentor and a college practicum supervisor. Students are also required to attend all scheduled seminar meetings. Prerequisites: Completion of 30 hours of major core courses or instructor permission.

Course Descriptions
Spanish

SPAN 1010
Beginning Spanish I
3 Credits
3 Class Hours
An introduction to the learning and usage of Spanish. Students acquire proficiency in hearing, speaking, reading, and writing elementary Spanish. Prerequisite: DSPW 0800 or equivalent skills

SPAN 1020
Beginning Spanish II
3 Credits
3 Class Hours
A continuation of learning and using Spanish. Students improve proficiency in hearing, speaking, reading, and writing elementary Spanish. Prerequisite: SPAN 1010 or instructor permission

SPAN 2010
Intermediate Spanish I
3 Credits
3 Class Hours
A continuation of the development of the student's knowledge of Spanish. Students build aural comprehension skills and speaking ability, write compositions, and study Spanish literature and Hispanic culture. Prerequisite: SPAN 1020 or instructor permission

SPAN 2020
Intermediate Spanish II
3 Credits
3 Class Hours
A continuation of the development of the student's knowledge of Spanish. Students increase aural comprehension skills and speaking ability, expand their compositions, and broaden their study of Hispanic literature. Prerequisite: SPAN 2010 or instructor permission

SPAN 2025
Conversational Spanish
3 Credits
3 Class Hours
A study of grammar and vocabulary acquired in previous Spanish courses by focusing on listening and speaking skills. Students will be able to discuss a variety of cultural, social and academic subjects. Incorporates a range of practical activities to help students gain proficiency in expressing and defending their opinions/positions. Prerequisite: SPAN 2020 or instructor permission

Communication Studies

SPCH 1010
Speech*
3 Credits
(Honors Option Offered)
3 Class Hours
An introduction to the fundamentals of public speaking. Emphasis is on preparing and delivering informative and persuasive speeches. Prerequisite: ENGL 1010

*This course is part of the general education core.

SPCH 1112
Fundamentals of Speech Comm
3 Credits
(Honors Option Offered)
3 Class Hours
An exploration and practical application of communication theory in various contexts: interpersonal, small group, and public speaking. Prerequisite: ENGL 1010

Surgical Technology

SURG 1001
Intro to Surgical Technology
3 Credits
3 Class Hours, 3 Lab Hours
An introduction to principles, techniques and issues in the operating room environment. Topics include patient care concepts, equipment and instrumentation, job responsibilities, sterile technique, professional management and self-management. Prerequisite: Program application, interview and instructor permission, completed health and program documentation including background check. Corequisites: SURG 1002, SURG 1004

SURG 1003
Intro to Clinical Experience
2 Credits
1 Class Hour, 3 Lab Hours
An introduction to the operating room environment. Topics include patient care concepts, equipment and instrumentation, job responsibilities, sterile technique, professional and self-management and visits to the operating room. Prerequisite: Program application, interview and instructor permission, completed health and program documentation including background check. Corequisites: SURG 1002, SURG 1004

SURG 1004
Advanced Skills Lab
1 Credit
3 Lab Hours
A study of advanced sterile technique and basic techniques necessary to function as a Surgical Technologist in the Scrub Role. Topics include principles of sterile technique, surgical scrub, gowning and gloving self and others, case setup, medication handling, counts, draping and proper instrument handling. Prerequisite: Program application, interview and instructor permission, completed health and program documentation including background check. Corequisites: SURG 1002, SURG 1003

SURG 1005
Microbiology for Surgical Tech
2 Credits
2 Class Hours
An introduction to basic microbiology, immunology and disease processes with emphasis on antimicrobial techniques used in the operating room. Topics include historical microbiology, pathogenicity, the immune response, sterilization, and antisepsic and disinfection techniques, wound healing and wound classification.

SURG 1006
Basic Chemistry/Pharmacology
2 Credits
2 Class Hours
An introduction to basic chemistry and pharmacology with emphasis on drugs and techniques used in the operating room. Topics include medication measurement and delivery, types and actions of medications, routes of administration and medications used in surgery. Prerequisite: DSPM 0700

SURG 1010
Surgical Procedures
6 Credits
6 Class Hours
An overview of the relevant anatomy, pathophysiology, preparations, instrumentation, purpose, and expected outcome for surgical procedures covered in the course. Topics include procedures in General, Gynecologic, ENT, Orthopaedic, Urologic surgery, as
well as procedures in other common specialties. Prerequisites: Program application, interview and instructor permission, completed health and program documentation including background check. Also BIOL 1000, BIOL 1004, SURG 1001, SURG 1002, SURG 1003, SURG 1004, SURG 1005, and SURG 1006. Corequisites: SURG 1011, SURG 1012

SURG 1011
Clinical Practicum I
5 Credits 5 Lab Hours
Course consists of one eight-week supervised clinical rotation (33.5 hr/week) during which students will complete comprehensive orientation to clinical practice, practice the skills necessary to perform the duties of a surgical technologist in the scrub role, develop professional behaviors while in the operating room environment, and learn to adequately document their experiences in their Practica. Prerequisites: Program application, interview and instructor permission, completed health and program documentation including background check. Also BIOL 1000, BIOL 1004, SURG 1001, SURG 1002, SURG 1003, SURG 1004, SURG 1005, and SURG 1006. Corequisites: SURG 1010, SURG 1012

SURG 1012
Clinical Practicum II
4 Credits 4 Lab Hours
Course consists of one eight-week supervised clinical rotation (33.5 hr/week) during which students will practice the skills necessary to perform the duties of a surgical technologist in the scrub role, develop professional behaviors while in the operating room environment, and learn to adequately document their experiences in their Practica. Prerequisites: Program application, interview and instructor permission, completed health and program documentation including background check. Also BIOL 1000, BIOL 1004, SURG 1001, SURG 1002, SURG 1003, SURG 1004, SURG 1005, and SURG 1006. Corequisites: SURG 1010, SURG 1011

Surgical Assisting

SURG 2012
Perioperative Bioscience
5 Credits 5 Class Hours
An introduction to perioperative bioscience. Pharmacology will cover standard perioperative drugs, such as pre-op medications, antibiotics, and drugs affecting blood clotting and fluid balance. The anesthesia component focuses on general inhalational methods, neuroleptic anesthesia neuromuscular and other blocking agents, alternate methods of anesthesia and complications of above.

SURG 2014
Principles of SA
1 Credit 3 Class Hours
An introduction to the principles of surgical assisting. Is designed to teach the hands on techniques used in perioperative patient care. Perioperative skills involve: bladder catheterization; tourniquet placement, positioning, prepping and draping. Interoperative skills are learned, such as: knot tying, suturing techniques, stapling techniques, and wound exposure. Proper use of electrocautering is also taught.

SURG 2016
Applied Bioscience
5 Credits 5 Class Hours
An introduction to applied bioscience. The course is designed to provide the student with the understanding of diagnostic testing including lab tests, patient monitoring, use of blood replacement, and the proper care of surgical specimens. It will discuss disorders in tissue growth (cancer) and the methods of treating, such as: surgery, chemotherapy, and radiation. It will also cover lasers and laser safety and orthopaedic power equipment.

SURG 2026
General Surg Class/Clinical
4 Credits 4 Class/Clinical Hours 4 Mandatory Class Sessions
An introduction to general surgery. The course will consist of assigned clinical experiences as a surgical first assistant in General Surgery a verbal Grand Rounds presentation, and a written independent study or attendance at a Grand Rounds presentation at a local hospital. The class will meet for four on-campus class sessions.

SURG 2032
Ortho Surg Class/Clinical
4 Credits 4 Class/Clinical Hours 4 Mandatory Class Sessions
An introduction to orthopaedic surgery. The course will consist of assigned clinical experiences as a surgical first assistant in Orthopaedic Surgery; a verbal Grand Rounds presentation, and a written independent study or attendance at a Grand Rounds presentation at a local hospital. The class will meet for four on-campus class sessions.

SUG 2035
Specialty Surgery Practicum
4 Credits
An introduction to specialty surgery. Assigned clinical experiences as a surgical first assistant in Specialty Surgery to establish competencies in such topics as patient positioning, wound visualization, wound healing, wound closure, wound drainage and wound dressing. Prerequisites: Surgical First Assisting lectures and labs, instructor permission, completed Clinical Preceptor Agreement Form, all health, CPR, professional liability insurance, and background check documentation.

Theater

THEA 1030
Introduction to Theater*
3 Credits 3 Class Hours
An introduction to the basic artistic, social, and technical elements of theater. Topics include contemporary and classical styles of presentation and dramatic structure, and contributions of the playwrights, designers, directors, actors, and audience to the theatrical process. (THEA 1030 is a humanities elective.) Prerequisites: DSPR 0800 and DSPW 0800 or equivalent skills

* This course is part of the general education core.
ADMINISTRATION, FACULTY, AND STAFF
ADMINISTRATIVE, PROFESSIONAL AND SUPPORT STAFF

George H. Van Allen, President
B.S., Appalachian State University, 1970
M.A., Appalachian State University, 1971
Ed.D., North Carolina State University, 1981
Rebecca A. Abu-Orf, Manager,
Payroll Services
John E. Adamson, Computer Operations Specialist, Computer Services
B.S., University of Tennessee, 1971
A.S., Nashville State Technical Institute, 1984
George E. Aldridge, Security Guard, Safety and Security
Bill Archer, Laboratory Technician, Information & Engineering Technologies
A.A.S., Nashville State Community College, 2005
Joyce M. Baker, Secretary II, Admissions
Bernice G. Batchelor, Account Clerk
Supervisor, Accounting
B.S., Lane College, 1975
Suzanne S. Belcher, Receptionist
Valerie S. Belew, Dean
English, Humanities and Arts
B.A., Union University, 1982
M.A., Tennessee Technological University, 1985
Z. Dianne Blankenship, Account Clerk
Supervisor-Cashiering and Registration,
Bursar's Office
Betty P. Broz, Coordinator, Workforce and Community Development
Certified Professional Secretary, 1994
James W. Bryant, A/C Heating Mechanic III,
Operations and Maintenance
Certificate/HVAC, Tennessee Technology Center, 1973
Melanie J. Buchanan, Budget, Travel and Special Contracts Manager
B.A., Trevecca Nazarene University, 1997
Villa Ann Buckingham, Grants Fiscal Clerk
Accounting
Barbara Carr, Custodian,
Operations and Maintenance
Ntianu Carter, Records Clerk, Records
A.S., Draughons Junior College, 2005
Donna Joan Christopher, Assistant
Director, Cookeville Campus
B.A., Oachita Baptist University, 1966
M.S., Vanderbilt University, 1978
Tracy H. Collins, Coordinator of
Veterans' Services, Records
B.S., University of Nevada—Reno, 1984
Judith I. Cook, Administrative Secretary,
President's Office
Certified Professional Secretary, 2004
Daniel Cottone, Computer Lab Technician, Computer Services
Eileen Crane, Executive Assistant to the President
B.A., Trevecca Nazarene University
Brenda S. Davis, Maintenance Worker,
Humphreys County Center
M. Elaine Davis, Controller, Accounting
B.A., Belmont University, 1972
A.S., Nashville State Technical Institute, 1983
James T. Dawson, Director,
Operations and Maintenance
Janet S. Dennis, Personnel Assistant,
Human Resources
Fernando Diggs, Lead Cashier,
Bursar's Office
Elvira Dikhytar, Testing Technician I,
Testing Center
B.S., Trevecca Nazarene University, 2007
Christina Dismore, Secretary III,
Social and Life Sciences
A.A.S., Nashville State Community College, 2004
Certified Professional Secretary, 2007
Certificate in Office Administration,
Nashville State Community College
Mary Sue Dixon, Security Guard,
Cookeville Campus
Ed Dubell, Graphic Arts Technician,
Creative Services
A.A.S., Nashville State Technical Institute, 1997
B.F.A., Middle Tennessee State University, 1999
Julie H. Duel, Graduation Analyst I/Lead Worker, Records
Carl G. Dury, Director, Computer Services
B.A., Rhodes College, 1972
M.S., Virginia Polytechnic Institute and State University, 1975
Ph.D., Virginia Polytechnic Institute and State University, 1977
Sharon R. Dyer, Secretary II,
Cookeville Campus
Kathy S. Emery, Director,
Distance Education
B.S., St. Mary's University, 1968
M.S., East Texas State University, 1969
Post Graduate, University of Memphis, 1983
Mark T. Farmer, Security Guard I,
Safety and Security
Deborah A. Finney-Webb, Library Assistant II, Learning Resource Center
Certificate of Computer Operations,
Nashville State Technical Institute, 1981
A.A.S., Nashville State Technical Institute, 1986
Lisa Fletcher, Secretary III,
Career Employment Center
A.A.S., Nashville State Community College, 2006
Keshy G. Ford, Testing Technician I,
Testing Center
Michael A. Franklin, Lab Technician,
Cookeville Campus
Carolyn O. Frye, Office Supervisor,
Learning Center
B.S., University of Tennessee at Knoxville, 1970
M.S., University of Tennessee at Knoxville, 2002
Pamela R. Gadd, Library Assistant, Library
Rebecca Girgenti, Cashier, Bursar's Office
Carol A. Golden, Programmer Analyst I,
Computer Services
A.S., Nashville State Technical Institute, 1983
Adriane D. Gordon, Admissions Supervisor, Admissions
A.S., Nashville State Technical Institute, 1997
Certificate of Career Advancement,
Accounting Clerk, 2002,
Certificate of Career Advancement,
Microcomputer Application Specialist, 2002
Delphia L. Green, Office Supervisor, Southeast Center,
Certificate of Career Advancement,
Nashville State Technical Institute, 1999
A.A.S., Nashville State Technical Community College, 2003
Ruth L. Green, Secretary II,
Business and Applied Arts
John Gresimer, Technical Systems Coordinator, Computer Services
Evelyn T. Hadley, Director,
Special Projects
B.A., Trevecca Nazarene University, 1996
M.S., Tennessee State University, 2005
V. Nichole Halliburton, Technical Clerk,
Records
Elvis E. Hamrick, Security Guard I
Robert Hankins, Jr., Internal Auditor
B.S., Middle Tennessee State University, 1968
CPA, 1976
Brenda K. Harriford, Technical Clerk,
Operations and Maintenance
A.A., Western Kentucky University, 1976
Reva Harris, Custodial Foreman,
Cookeville Campus
Certified Refrigerator Technician, 2006
EPA Certified as UNIVERSAL Technician
Brandi Hill, Admissions and Records Clerk,
Cookeville Campus
A.A.S., Nashville State Community College, 2005
Janice M. Hines, Security Dispatcher,
Safety and Security
Stephen Hooks, Coordinator of Recruitment, Admissions
B.S., Western Kentucky University, 2003
S. Lee Housley, Electrician,
Operations and Maintenance
Phillip E. Howse, Systems Specialist,
Computer Services
M. Wylie Hudson, Security Guard I,
Safety and Security
Herbert E. Hunt, Manager,
Property Management, Purchasing,
Shipping and Receiving
A.S., Draughons Junior College, 1972
Cecil H. Ivy, Jr., Clerk,
Shipping and Receiving
Deanna M. Jackson, Payroll Assistant III,
Payroll
A.S., Nashville State Community College, 2006
Doug C. Jameson, Coordinator,
Distance Education
A.A.S., Nashville State Technical Institute, 1996
B.A., Trevecca Nazarene University, 1998
M.S., Cumberland University, 1998
Carolyn S. Jeans, Personnel Assistant III,
Human Resources
A.A.S., Nashville State Community College, 2003
Certified Professional Secretary, 2005
James H. Jenkins, Jr., Custodian,
Operations and Maintenance
Delisa C. Johnson, Financial Aid Counselor, Financial Aid
James R. Johnson, Dean, Information and Engineering Technologies
B.S., Wisconsin State University-River Falls, 1965
M.S., University of Wisconsin, Milwaukee, 1969
Ed.D., Baylor University, 2000
Malcolm H. Johnson, Maintenance Scheduler,
Operations and Maintenance
A.E., Nashville State Technical Institute, 1982
Wilma R. Johnson, Secretary III,
Computer Services
A.A.S., Nashville State Community College, 2005
Certified Professional Secretary, 2004
Margaret F. Jones,
Dean of Learning Resources
B.A., University of Alabama, 1981
M.A., University of Alabama, 1985
M.A., Tennessee State University, 1992
Ph.D., Indiana University of Pennsylvania, 2003
Tiffany N. M. Stevenson, Secretary III, Student Services
A.A.S., Nashville State Technical Institute, 2000
B.A., Trevecca Nazarene University, 2001
Certified Professional Secretary, 2004
International Associates of Administrative Professionals, 2004

Jennie L. Strobl, Director, Humphreys County Center
B.B.A., Austin Peay State University, 1982
M.Ed., Austin Peay State University, 2002

Billie J. Sullivan, Secretary I, Career Employment Center/Extended Programs
Donna M. Svolto, Evening Secretary, Clement Building
B.S., Tennessee Tech University, 1978

Dennis D. Tennant, Director, Cookeville Center
B.S., Tennessee Technological University, 1996
B.S., Tennessee Technological University, 1998
M.A., Tennessee Technological University, 2003
Educational Specialist, Instructional Leadership, 2004

Mary V. Thomas, Secretary II, Social and Life Sciences

John W. Thompson, Custodial Lead Worker, Operations and Maintenance

Ronnie L. Thompson, Custodian, Operations and Maintenance

Tammy Thorne, Administrative Assistant, Finance and Administrative Services
A.S., Nashville State Technical Institute, 1984

Priscilla D. Tibbs-Moody, Assistant to Director, Student Services
B.A., Tennessee State University, 1987
M.S., Tennessee State University, 1995
Paragale Certificate, 2000

Terina Tinch, Custodian, Cookeville Campus

Susan L. Tucker, Secretary III, English, Humanities and Arts
Grammar Professional Secretary, 2006

D. Keith Turner, Financial Aid Counselor
B.S., University of Tennessee, Martin, 1995

Troy L. Valentine, Academic Systems Specialist, Computer Services
Edna F. Vaughn, Microcomputer Lab Technician, Learning Resource Center
A.S., Nashville State Technical Institute, 1985

Ted M. Washington, Associate Vice President, Planning and Assessment
A.S., Nashville State Technical Institute, 1977
A.S., Nashville State Technical Institute, 1980
B.B.A., Belmont University, 1987
M.B.A., Tennessee State University, 1993

A.J. Watson, Web Developer, Creative Services
A.A.S., Nashville State Community College, 2005
Web Authoring Technical Certificate, 2006

Katherine Watts, ESL Testing Specialist/Advisor, Student Services
B.A., Furman University, 1993
M.A., Northern Arizona University, 1996

Ken R. Waugh, Computer Operations Specialist, Computer Services

Ellen J. Weed, Vice President, Academic Affairs
B.A., University of Michigan, 1963
M.A., University of Michigan, 1971
Ph.D., University of Michigan, 1973

James D. Wharton, Custodial Supervisor, Operations and Maintenance
Stephen F. White, Director, Financial Aid
B.A., Campbellsville College, 1980
M.Div., Southern Baptist Theological Seminary, 1983

Evelyn S. Wilkerson, Office Supervisor, Workforce and Community Development
A.A.S., Nashville State Technical Community College, 1997

Polly Wilkerson, Account Clerk II, Payroll

Ernestine Williams, Lead Data Entry Operator, Accounting
Joy H. Williams, Testing Technician II, Testing Center

Kimberly Kollar Wood, Director, Career Employment Center
A.S., Sacred Heart University, 1986
B.S., University of Tennessee, 1998
M.S., Cumberland University, 2006

Lance L. Woodard, Director, Records and Registration
A.A.S., Nashville State Technical Community College, 2003
A.S., Nashville State Community College, 2007

LaDonna Yarborough, Director, Southeast Center
B.S., Trevecca Nazarene University, 1978

Brent O. Young, Executive Director, Development and Public Affairs
B.A., Lee University, 1995
CFRE, 2001

Kimberly Zills, Technical Clerk, Humphreys County Center
A.S., Draughon's Junior College, 1996
A.S., Nashville State Community College, 2005
B.S., Bethel College, 2007
Certified Professional Secretary, 2006

Ellen L. Zink, Director, Creative Services
B.F.A., Louisiana Tech University, 1981
M.A.M.S., University of Illinois at Chicago, 1995

FACULTY

D. Michelle Adkerson, Associate Professor, English, Humanities and Arts
B.A., Middle Tennessee State University, 1986
M.A., University of Sussex, Falmer, England, 1988

Jeanne A. Altstatt, Associate Professor, English, Humanities and Arts
M.A., Middle Tennessee State University, 1977
M.Ed., Middle Tennessee State University, 1978

Eleonora Alvarado, Assistant Professor, Office Administration
B.A., Wright State University, 1982
M.H.A., Medical College of Virginia, 1986
Certified Professional Coder, 2005

Bernard M. Anderson, Instructor/Program Coordinator, Mathematics and Sciences
B.A., Hamline University, 1998
Ph.D., Montana State University, 2004

Jennifer C. Anderson, Instructor, Mathematics and Sciences
B.A., Knot College, 1999
M.S., Southern Illinois University, 2000

Barbara E. Baker, Associate Professor, Social Sciences
B.S., Tennessee State University, 1981
M.Ed., Vanderbilt University, 1986
Ed.D., Vanderbilt University, 1990

Paul H. Balch, Instructor, Surgical Technology
A.A.S. Columbia University Presbyterian Hospital, 1985

Tracy Bankley, Instructor, Culinary Arts
B.S., Judson College, 1997
M.A., Jacksonville State University, 2001

René W. Bataille, Instructor, History and Geography
B.A., Lyon III University—France, 1981
M.A., Lyon III University—France, 1982
French National Certification for Teaching, Lyon III University—France, 1984

Michael R. Bates, Instructor, Computer Networking Technology
A.A.S., Nashville State Technical Community College, 2003
A.A.S., Nashville State Community College, 2004
CompTIA A+ Certification, 2002
CompTIA Network+ Certification, 2002
Cisco Certified Network Associate, 2004

T. Van Bates, Associate Professor, Surgical Technology
B.A., David Lipscomb University, 1990
Certified Surgical Technologist (CST)

Kimberly Pace Becker, Instructor
M.A., Northern Arizona University, 2004
B.A., Millsaps College, 1999

Karen E. Bourg, Associate Professor, Social Sciences
B.A., Emmanuel College, 1964
M.A., Northeastern University, 1966

Beverly E. Bradley, Assistant Professor, Computer Information Systems
A.A.S., Nashville State Technical Institute, 1992
B.M., Middle Tennessee State University, 1977
M.B.A., University of Phoenix, 2006

Stacy Brown, Instructor, Cookeville Campus
B.S., Tennessee Technological University, 1989
M.S., Tennessee Technological University, 1991
Ph.D., Tennessee Technological University, 1999
Ed.S., Tennessee Technological University, 2005

Michael L. Christensen, Instructor, Mathematics and Sciences
B.A., William Jewell College, 1979
M.S., Kearney State College, 1982

B. Alice Church, Associate Professor/Program Coordinator, English, Humanities and Arts
B.A., University of Tennessee, 1972
M.A., Vanderbilt University, 1973
Phi Theta Kappa Leadership Instructor Certification, 1998

Anthony P. Cicirello, Assistant Professor, Computer Networking Technology
B.S., Valdosta State University, 1988
M.P.A., Valdosta State University, 1990

Emily Clark, Instructor, Mathematics and Sciences
Ph.D., Vanderbilt University, 2007

Rhonda Coffelt, Instructor, Biology, Humphreys County Center
B.S., Austin Peay State University, 1984
M.S., Tennessee State University, 1988

Laurea N. Connor, Instructor, Mathematics and Sciences

Robin Cooper-Wilbanks, Instructor, Humphreys County Center
B.S., Union University, 1998
M.A., Middle Tennessee State University, 2000

Yvonne Cornelius-Thompson, Associate Professor, Social Sciences
B.A., Belmont University
M.L.A.S., Vanderbilt University

Nanci S. Cross, Instructor, Office Administration – Medical
A.A.S., Volunteer State Community College, 1994
B.A., Trevecca University, 1996
M.Ed., Tennessee State University, 2005
RHA, 2003

Brian K. Curtis, Instructor, English, Humphreys County Center
B.A., Austin Peay State University, 1991
M.S., Texas Tech University

Amy Davis, Instructor, Early Childhood Education
M.Ed., Mississippi State University, 1999
B.S., Mississippi State University, 1999
Early Childhood Add-On Certification, 2003

Administration, Faculty, and Staff
Joel T. Lavalley, Associate Professor, Electrical Engineering Technology
B.S., Kentucky State University, 1983

Nancy E. Ledbetter, Associate Professor, Early Childhood Education
B.S., University of Tennessee at Knoxville, 1972
M.S., Peabody College of Vanderbilt University, 1979

Philip K. Lee, Associate Professor, Computer Accounting
B.A., Freed-Hardeman University, 1983
B.B.A., University of Memphis, 1987
M.S., Middlesboro State University, 1995
Certified Public Accountant, 1999

Holly LeMay-Cranor, Instructor, Occupational Therapy
B.S., Eastern Kentucky University, 2000
Thermal Agent Certification, 2001

Michelle C. Lenox, Associate Professor, Computer Information Systems
B.S., Tennessee State University, 1979
M.S., Southern Illinois University, 1982
M.B.A, Owen Graduate School of Management, Vanderbilt University, 1988

Thomas N. Loisli, Instructor, Culinary Arts
A.A., Nashvile State Community College, 2003

Leda Longwood, B.A., Earlham College, 1992
M.A., Northern Arizona University, 1998

Dorothy Lynn Lozier, Associate Professor, Developmental Studies
B.S., East Tennessee State University, 1966
M.A., University of Northern Colorado, 1978

Sheri L. Lozier-Bentley, Program Coordinator, Social Work
B.S., University of Tennessee-Knoxville, 2000
M.S.W., University of Tennessee-Nashville, 2002
Licensed Clinical Social Worker, State of TN, 2002

Beverly K. Lyle, Associate Professor, Office Administration
B.B.A., Belmont University, 1994
M.B.A., Middle Tennessee State University, 1995
Microsoft Office® Specialist Certification, Powerpoint and Access® 2003

Linda R. Lyle, Associate Professor, Learning Resource Center
B.S., Austin Peay State University, 1962
M.A., Austin Peay State University, 1965
Certification in Legal Assisting, Southeastern Paralegal Institute

Devora D. Manier, Assistant Professor, English as a Second Language
B.A., University of Pennsylvania, 1990
M.S., Georgia State University, 1995

John M. Mantle, Instructor, Mathematics, Cookeville Center

Linda H. Marable, Professor, Mathematics and Sciences
B.A., David Lipscomb University, 1967
M.A., Vanderbilt University, 1971
Ed.D., Tennessee State University, 1994

Frank R. Martinez, Instructor, Spanish
B.A., The University of Florida
M.Ed., The University of Memphis
Professional Secondary Certification, 2007

Ami R. Massengill, Instructor, English, Cookeville Center
B.A., Tennessee Technological University, 2000
M.A., Tennessee Technological University, 2005

Krista K. McBride, Instructor, Mathematics and Sciences
B.A., Florida Southern College, 2000
Ph.D., Vanderbilt University

Annette R. McCready, Professor, Developmental Studies
B.S., Middle Tennessee State University, 1986
M.A., Middle Tennessee State University, 1989
Ed.D., Peabody College of Vanderbilt University, 1998

Richard G. McKinney, Associate Professor, Electrical Engineering Technology
B.A., Middle Tennessee State University, 1979
M.S., East Tennessee State University, 1999

L. Scott McRoberts, Instructor, English, Humanities and Arts
A.A.S., Dutchess Community College, 1990
B.F.A., Middle Tennessee State University, 1993
M.F.A., State University of New York—New Paltz, 2000

Agneta Mendoza, Assistant Professor, English, Humanities and Arts
M.A., Elizir College, Madras, India
M.B.E., Madras Christian College, 1985

Edward M. Mummet, Associate Professor, Computer Networking Technology
B.S., Austin Peay State University, 1972
M.M.E., Austin Peay State University, 1974
Certified Novell Engineer, Master Certified Novell® Engineer, Microsoft® Certified Professional, Microsoft® Certified Technical Trainer, Certified Novell® Instructor

Paul E. Myers, Associate Professor, Law Enforcement/Coordinator of Police Science Academy
B.S., Florida State University, 1970
POST Certified Police Officer, State of Tennessee POST Certified General Deputy Instructor and Training Officer POST Certified Firearms Instructor Member - TN Division, International Association for Identification

Emily R. Naf, Instructor, Photography
B.S., Middle Tennessee State University, 1997

Priscilla K. Nall, Assistant Professor, Visual Communications
B.F.A., Mississippi State University for Women, 1974

D. Wayne Neumann, Instructor, Music Technology
B.A., Troy State University, 1973

Thomas Norman, Instructor, Cookeville Campus
M.A., Trevecca Nazarene University, 2006

Robert S. Overall III, Assistant Professor, Computer Information Systems
A.S., Nashville State Technical Institute, 1988
B.A., Trevecca Nazarene University, 1993
B.S., Middle Tennessee State University, 1994
M.C., Middle Tennessee State University, 2001
A+ Certification, POST Certification, CPP Certified Computer Forensics Examiner, 2005

Jim D. Pack, Associate Professor, Mathematics and Sciences
B.S., Middle Tennessee State University, 1966
M.S., Southern Illinois University—Carbondale, 1968

Charles W. Pardue, Instructor, Business Management, Cookeville Center
B.S., Tennessee Technological University, 1990
M.B.A., Tennessee Technological University, 1992
Specialist in Education, Tennessee Technological University, 1995

Mary Elizabeth Parker, Associate Professor, English, Humanities and Arts
B.A., Rutgers University, 1987
M.A., Middle Tennessee State University, 1990

William D. Parr, Instructor, Mathematics and Sciences
A.S., Nashville State Technical Institute, 1990
B.U.S., Middle Tennessee State University, 1996
M.S., Middle Tennessee State University, 1998

Holly H. Paulus, Associate Professor, Developmental Studies
B.A., Case Western Reserve University, 1971
M.Ed., University of Delaware, 1984
Certified Reading Specialist

Donald R. Pelster, Professor, Electrical Engineering Technology
B.E., Vanderbilt University, 1966
M.S., Vanderbilt University, 1976
Ph.D., Vanderbilt University, 1980
Registered Professional Engineer, 1983

Marla A. Perry, Instructor, Social Sciences

M.A., Michigan State University, 1978
Ph.D., University of Memphis, 1995

Janusz A. Polanowski, Assistant Professor, English, Humanities and Arts
B.A., University of Georgia, 1995
M.A., Vanderbilt University, 2000

Quenton Pulliam, Associate Professor, Business Management
B.S., Belmont University, 1975
M.B.E., Middle Tennessee State University, 1977
State of Tennessee Teachers Certificate

Kevin D. Ragland, Instructor, Mathematics and Sciences
B.S., University of Tennessee, 1994
M.S., Iowa State University, 1996
Ph.D., Iowa State University, 1998

Eric A. Richardson, Instructor, Music Technology
Master Recording Certification, Conservatory for Recording Arts and Sciences, 1992
A.A.S., Nashville State Community College, 2006
Digidesign Pro Tools HD 7 Operator Certification, Digidesign, 2006

Clifford A. Rockstead, Instructor, Business Management
B.S., Utah State University, 1968
M.B.A., University of Tennessee, 1979
Certificate MR Management, University of Alabama, 1977

Sondra B. Roddy, Associate Professor, Mathematics and Sciences
B.S., University of Memphis, 1971
M.S., University of Memphis, 1974
M.M., University of South Carolina, 1999

Dale R. Rogers, Instructor, Visual Communications Program Coordinator, Multimedia Concentration
B.S., Alabama A&M University, 1989
M.Ed., Jones International University, 2006

Mary Rosenthal, Instructor, Mathematics and Sciences
B.S., University of Missouri—St. Louis, 1996
M.S., Southern Illinois University—Edwardsville, 2000

Randy W. Rudder, Associate Professor, English, Humanities and Arts
B.A., Mount Union College, 1980
M.A., Tennessee State University, 1989
M.F.A., University of Memphis, 2005

Tammy L. Ruff, Associate Professor, Social Sciences
B.S., Belmont University, 1980
M.Ed., Middle Tennessee State University, 1991
David A. Sellars, Associate Professor, Developmental Studies
A.A., Henderson Community College, 1969
B.A., Murray State University, 1971
M.A.C.T., Murray State University, 1973
S.C.T., Murray State University, 1973

Terry D. Sellars, Associate Professor, Spanish
B.A., Murray State University, 1971
M.A.C.T., Murray State University, 1973
S.C.T., Murray State University, 1973
Certified Developmental Specialist, Appalachian State University, 1992
Corinmaid Spanish Certified Instructor, 2003

Peggy A. Sharpe, Associate Professor, Early Childhood Education
B.S., Harding University, 1967
M.A., Ohio University, 1989

Necly Ann Sheuercraft-Scelza, Associate Professor/Program Coordinator, English, Humanities and Arts
B.A., Western Kentucky University, 1993
M.A., Western Kentucky University, 1996

Michele Singletary, Assistant Professor, English, Humanities and Arts
B.A., University of Arkansas, 1990
M.A., Tennessee State University, 2002

Alex F. Smiley, Instructor, Manufacturing Engineering Technology
B.S., University of Kentucky, 1974
M.E., University of Louisville, 1983
Registered Professional Engineer, 1981
Registered Engineer, Tennessee and Florida, 2007

Derek K. Smith, Associate Professor, Mathematics and Sciences
B.S., Manhattan College, 1995
M.S., University of Tennessee, 1998
Ed.S., Florida State University, 2001

Joseph C. Smith, Instructor, Computer Technology
B.S., Belmont University, 1999
Certification in Project Management, 1995
Certification in ISO Electrical Standards, 1995
Certified Six Sigma Master Black Belt, 2005

Marla Smith, Instructor, English, Humanities and Arts
B.S., Tennessee Technological University, 1977
M.A., Tennessee Technological University, 1979
Ed.S., Middle Tennessee State University
Ed.D., Tennessee State University, 2001
Certified English and Educational Administration

Forest D. Sponseller, Program Coordinator/Instructor, Sign Language and Physical Education
B.A., Freed-Hardeman University, 1994
NAD Certified Interpreter, 1995
RID Certified Interpreter, 2005

Valerie J. Stroop, Associate Professor, Business Management
B.S., David Lipscomb University, 1981
M.B.A., Tennessee State University, 1994

Laurie Lea Swanson, Assistant Professor, Computer Accounting
B.S., Tennessee Technological University, 1986
M.B.A., Tennessee Technological University, 1988
Certified Public Accountant, 2005

Donald L. Turner, Instructor, English, Humanities and Arts
B.A., The University of the South—Sewanee, 1993
M.S., University of Tennessee-Knoxville, 1995
Ph.D., University of Denver, 2005

Ford J. Turrell, Instructor, English, Humanities and Arts
B.A., Aquinas College, 1998
M.A., Antioch University, 2001

Innocent I. Usoh, Professor, Electrical Engineering Technology
B.S.E.E., Mississippi State University, 1980
M.S.E.E., Tuskegee University, 1982
Ed.D., Tennessee State University, 2003

Arthur J. Ward, Professor, Mathematics and Sciences
B.S., Texas Western College, 1964
M.S., Vanderbilt University, 1978

Jack Wallace, Instructor, Architectural Engineering Technology
M.A., Miami University—Hamilton, 1984

Mary M. Warner, Instructor, English, Humanities and Arts

David M. Weilmuenster, Assistant Professor, Visual Communications
B.F.A., Middle Tennessee State University, 1993

Bridgette E. Weir, Instructor, English, Humanities and Arts
B.A., Middle Tennessee State University
M.A., Southern Methodist University, 1998

David Welch, IT Program Coordinator/Associate Professor
A.A.S., Nashville State Technical Institute, 1996
B.S., Middle Tennessee State University, 1983
Microsoft® Certified Professional, 1998

William Claude Whittaker, Instructor, Automotive Services Technology
A.A.S., Nashville State Technical Institute, 1988
GM Certified Master Technician, World Class Technician 2007

Donna G. Whitehouse, Associate Professor/Program Coordinator, Health and Life Sciences
B.S.O.T., University of Tennessee at Memphis, 1990
M.A., University of Missouri—Columbia, 1996
Occupational Therapist, Registered, NBCOT; Current TN license

Jack L. Williams, Associate Professor, Mathematics and Sciences
B.S., University of Tennessee, 1971
M.S., University of Tennessee, 1988
Registered Professional Engineer, 1979
Certified Quality Engineer, 2002

Sandra E. Williamson, Instructor, Education
B.S., University of Tennessee at Knoxville, 1970
M.E., University of Memphis, 1982
Administration/Supervision Certification, 1991
Elementary Education Certification, 1982
Secondary Education Certification, 1970

Michael A. Wright, Assistant Professor/Program Coordinator, Law Enforcement
A.A.S., Austin Peay State University, 1991
B.S., Columbia Southern University, 2002
POST Certified Police Officer, State of Tennessee, 1998-1995
Advanced Tactical Certificate, Austin Peay State University, 1990
Certified Police Instructor, FDLE, State of Florida, 1993 to present

Application for Admissions

Please send application and official transcript(s) to: Office of Admissions
120 White Bridge Road
Nashville, TN 37209-4515

Applicants must complete every item on this form, sign and date, and return it with a $5 non-refundable fee, unless previously paid. All credentials provided to the college become the property of the college and cannot be forwarded or returned. All credentials will be maintained in an active status for a period of 12 months. After this period, if you do not register for classes, all credentials will be relocated to an inactive status and must be submitted again before an admissions decision will be made. Application must be submitted in blue or black ink.

Student Social Security Number:

If U.S. social security number is unavailable, a student identification number will be assigned. The applicant must retain this number for access to his/her file.

Full Legal Name:

Last                      First                      Middle

Permanent Home Address: Length of residence at permanent address: ______ yrs.

Number                        Street/Apt. #            P.O. Box

City                      State               Zip Code               County               Country (if not U.S. Citizen)

Email address

Local Home Address (If different from Permanent Address):

Number                        Street/Apt. #            P.O. Box            Telephone Number

City                      State               Zip Code               County               Country (if not U.S. Citizen)

Date of Birth:

Place of Birth:

City                      State               Country

Emergency Contact Information:

Name

Relationship

Address                     Telephone Number

We request your completion of the following for reporting purposes only. This information will not be used to discriminate against any applicant in the admissions decision: ☐ Male ☐ Female

Check One: ☐ Asian or Pacific Islander ☐ American Indian ☐ Hispanic ☐ Alaskan Native

☐ African American, not of Hispanic Origin ☐ White, not of Hispanic Origin ☐ Other

All male U.S. citizens and non-citizens who take up residency in the United States of America before their 26th birthday must register with Selective Service prior to registering for classes at NSCC. This requirement does not apply to veterans and others exempt by federal law. Indicate whether or not you have registered for the United States Selective Service:

☐ Yes ☐ No ☐ Exempt ☐ Military Veteran: ☐ Yes ☐ No

Check One: ☐ U.S. Citizen ☐ Foreign Citizen, non-immigrant ☐ Foreign Citizen, permanent U.S. resident

If non-U.S. resident, in what country do you hold citizenship? ___________________________ Visa Number ___________________________

What type of visa do you hold? ___________________________ What is your native language? ___________________________
No student will be classified as an in-state resident at NSCC by his/her mere presence as a student in the state of Tennessee.

Have you lived in Tennessee continuously since birth? □ Yes □ No
If no, when and why did you move to Tennessee?

Employment (for resident classification purposes only):
Are you currently employed? □ Yes (___ Full-time, ___ Part-time) □ Currently not employed

Please indicate the semester and year you plan to attend NSCC:
Fall/Year________ Spring/Year________ Summer/Year________

Have you previously applied for admission? □ Yes □ No

Under which classification do you wish to enroll? Check one:

**Degree/Certificate Student:**
- □ First Time College Student (no prior college attendance)
- □ Re-Admit (previously attended NSCC)
- □ Transfer [previously attended college(s)]
- □ Certificate Program

**Non-Degree Student:**
- □ Transient (transferring courses back to another institution)
- □ Seeking College Level Courses
  - (Math) □ (English) □ (Other)
- □ Continuing Education (CED) (Workforce and Community Development Courses Only)
- □ ESL Courses Only

**Present High School Students Only:**
Applications should be submitted to the office of Extended Programs located in W 62.
- □ Dual Enrollment

Nashville State
APPLICATION INSTRUCTIONS:

First-time College Student
(No prior college attendance)
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Submit Official ACT Report (Not required if 21 years of age or older. Applicants 21 or older will be required to take the COMPASS Test). Official ACT report can be requested by writing to American College Testing Program, PO BOX 414, Iowa City, Iowa 52240. ACT scores on official high school transcripts are acceptable, as are SAT scores.
4. Students will be placed in Developmental Courses based on sub-scores of 16 or below on the Math, English, or Reading section of the ACT, or below 450 on the Critical Reading or Math portion of the SAT.
5. Request high school to forward official transcript to Office of Admissions.
6. If eligible by GED, have official copy sent directly from reporting institution to Office of Admissions.
7. Complete Hepatitis B Waiver Form and Proof of Measles, Mumps, and Rubella Immunization.

Re-Admit
(Previously attended NSCC)
1. Complete Application for Admissions.
2. Applicants who have attended other institutions since attending NSCC must have an official transcript forwarded from each institution.

Transfer
(Previously attended college(s))
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Request an official transcript be forwarded directly to NSCC from each college, business, or technical school attended.
4. Transfer students without previous English or Math course work will be required to take the appropriate portion of the COMPASS placement test prior to registration. Students who took the placement test at another Tennessee Board of Regents institution should have COMPASS scores sent to the Office of Admissions.
5. Complete Hepatitis B Waiver Form and Proof of Measles, Mumps, and Rubella Immunization.

Transient Student
(Transferring courses back to another institution)
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Submit an official transcript from each institution attended. Applicants under 21 will also need to submit an official high school transcript and may also submit ACT/SAT test scores.

Non-Degree Seeking
College Student (Not pursuing a degree, but taking college level courses)
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Submit an official transcript from each college attended.

Continuing Education (CED) (Workforce and Community Development and ESL Courses)
1. Complete Application for Admissions.
2. Submit $5 non-refundable application fee to the Business Office.
3. Applicants under the age of 21 must submit official high school or GED transcript.

College Credit for ACT English Subscore/SAT Critical Reading Score
Applicants who have a valid ACT English subscore of 27 or higher or a valid SAT Critical Reading score of 610 or higher may receive credit for English 1010. ACT/SAT scores must be less than three years old to be considered valid.

Dual Enrollment and High School Programs
The office of K-12 programs handles application procedures for all Dual-Enrollment students. For questions regarding Dual Enrollment, please call 615-353-3269.

Regents Online Degree Program (RODP)
Go to www.tn.regentsdegrees.org for instructions. Complete the student profile and follow application instructions for First Time College Student or Transfer Student. For questions regarding RODP, please call 615-353-3461.

International Student
The Office of Admissions handles application procedures for all International Students. International students with questions should call 615-353-3219.

Information for Students with Disabilities
If you have a learning or physical disability and want information on the types of services that are available, please call 615-353-3721.
Degree and Certificate Programs
Please refer to this page when filling out the Intended Major portion of the Application.

Associate of Science (AS), Associate of Arts (AA) Degrees, Associate of Science in Teaching (AST)
University Parallel Degrees
Students planning to earn a baccalaureate degree at a four-year college or university can complete their first two years at Nashville State Community College and receive an Associate of Science (AS), Associate of Arts (AA) or AST degree. The primary goal of these degrees is to prepare students to successfully pursue the baccalaureate degree.

Nashville State
Hepatitis B Immunization Health History Form
All Students Must Complete Top Portion

Name: ____________________________________________________________________________

Last First MI

Date of Birth: ___________ Social Security Number*: ________-____-____ Phone: (______)_______

Month/Day/Year

(TO BE COMPLETED BY NEW APPLICANTS ONLY)

The General Assembly of the State of Tennessee mandates that each public or private postsecondary institution in the state provide information concerning hepatitis B infection to all students matriculating for the first time. Tennessee law requires that such students complete and sign a waiver form provided by the institution that includes detailed information about the disease. The required information below includes the risk factors and dangers of the disease as well as information on the availability and effectiveness of the vaccine for persons who are at-risk for the disease. The information concerning this disease is from the Centers for Disease Control and the American College Health Association.

The law does not require that students receive vaccination for enrollment. Furthermore, the institution is not required by law to provide vaccination and/or reimbursement for the vaccine.

Hepatitis B (HBV) Immunization
Hepatitis B (HBV) is a serious viral infection of the liver that can lead to chronic liver disease, cirrhosis, liver cancer, liver failure, and even death. The disease is transmitted by blood and/or body fluids and many people will have no symptoms when they develop the disease. The primary risk factors for Hepatitis B are sexual activity and injecting drug use. This disease is completely preventable. Hepatitis B vaccine is available to all age groups to prevent Hepatitis B viral infection. A series of three (3) doses of vaccine are required for optimal protection. Missed doses may still be sought to complete the series if only one or two have been acquired. The HBV vaccine has a record of safety and is believed to confer lifelong immunity in most cases.

I hereby certify that I have read this information and I have had the entire series of the Hepatitis B vaccine.

I hereby certify that I have read this information and I have elected not to receive the Hepatitis B vaccine.

I hereby certify that I have read this information and I have elected to receive the Hepatitis B vaccine and/or I am in the process of receiving the complete three dose series of the Hepatitis B vaccine.

Signature of Student: _______________________________ Date: ____________________

(Parent/Guardian must sign if student is under 18)

For more information about the Hepatitis B disease and its vaccine, please contact your local health care provider or consult the Center for Disease Control and Prevention Web site at [www.cdc.gov/hepatitis/default.htm].

*In accordance with the Privacy Act of 1974, please be advised that the requested disclosure of your Social Security Number is voluntary and optional. Your Social Security Number will not be disclosed to individuals or agencies outside of the institution except in accordance with the institutional policy on student records.

120 White Bridge Road * Nashville, TN 37203 * 615-353-3333 * 1-800-272-7363 * www.nscc.edu * A Tennessee Board of Regents College

Application Agreement, Signature and Disclaimer (Please sign in blue or black ink).

If you are accepted as a student at this institution, there are certain performance tests you will be required to take during your academic career. It is a requirement of admission that you agree to accept any tests deemed necessary by this institution. In those instances where tests are administered by an external entity, you hereby agree for the result of such tests to be released to that institution. The purpose of this agreement and requirement is to comply with the legislature's expressed intent that institutions regularly evaluate and improve instruction at all levels. Any test scores obtained under this agreement by Nashville State Community College will be treated with the strictest confidentiality as required by law.

The federal campus Sex Crimes Prevention Act and the Tennessee State and University Campus Sex Crimes Prevention Act of 2002 require that whenever a sex offender becomes employed, enrolls as a student or volunteers at an institution of higher education in the state of Tennessee, he or she must complete or update the Tennessee Bureau of Investigation (TBI) sexual offender registration/monitoring form and deliver it to TBI headquarters in Nashville. Students may obtain Tennessee Bureau of Investigation (TBI) Sexual Offender of Safety Offender Registration Monitoring forms in the Office of Safety and Security, Office A-70A.

I understand that withholding information on this application or giving false information may make me ineligible for admission to, or continuation in, Nashville State Community College. Accordingly, I certify that all of the information and statements provided by me on this application are correct and complete. Further, if I am admitted to Nashville State Community College, I agree to abide by the rules and regulations of the institution.

Signature: _______________________________ Date: ____________________

In accordance with the Family Educational Rights and Privacy Act of 1974, as amended, applicants for admission and enrolled students are advised that the requested disclosure of their Social Security number by the Admissions Office is voluntary. Students who do not provide a Social Security number will be assigned a special nine-digit number. This special number or the Social Security number is used (a) to identify such student records as applications for admission, registration, and course enrollment; (b) to maintain and release grade reports, transcripts, requests for credentials, and permanent academic records; (c) to answer federal and state financial aid programs; and (d) to determine eligibility, certify school attendance, and report student status. Students are notified, however, that only the Social Security number may be used as an identifier for grants, loans, and other financial aid programs according to federal regulations. The student's Social Security number will not be disclosed to individuals or agencies outside Nashville State Community College except in accordance with the institutional policy on student records.

Nashville State Community College is a Tennessee Board of Regents institution and complies with nondiscrimination laws. Title VI, Title IX, Section 504 and the ADA. NSCC 12-06 Revised: 3-31-08.cbl
