Wellness Starts Here

We’ve been outfitting medical and service professionals with the best gear possible for almost 60 years. Today, the Nurse Mates name has become synonymous with comfort and wellness for all. Our fashion forward footwear designs are comfort-proven and deliver feel-good results. As the experts in compression legwear and accessories, our products have become the go-to essentials for all professions and active lifestyles.

We look forward to continuing the Nurse Mates tradition of innovation, quality and dependability.

Nurse Mates

The Ultimate Brand in Healthcare.

Nurse Mates Align™ Technology is an innovative ergonomically designed orthotic that helps place the foot in a more optimum position to assist with proper alignment, stability and support.

Built into every Align™ style, this firm yet flexible orthotic gently stabilizes and supports the arch and heel from the ground up, assisting with the proper alignment of the foot to reduce pressure on tendons and joints.

FEEL THE COMFORT
The position of your foot as you walk and stand every day can directly impact several other areas of the body. Proper foot positioning can help reduce the following:
- Ankle & arch instability
- Knee & hip pain
- Posture & back problems
- Neck & shoulder strain
- Muscle & joint fatigue

“Dr. Dorothy H. Kurtz Phelan, D.P.M.
Podiatric Physician and Surgeon

“I was thrilled when Nurse Mates approached me to be a part of the research and development of ALIGN™. Throughout my years of practice in podiatry, I’ve seen firsthand the struggles that my patients experience with heel and foot pain. I’m an advocate for proper foot alignment because it can benefit not only foot health, but overall health as well.

I highly recommend Nurse Mates ALIGN™ footwear for anyone who is concerned with comfort, stability and support, especially those that work on their feet and are on the go throughout the day.”
**BREAK IN PERIOD**

The firm, built in Align™ orthotic most often requires a break in period, especially for those with fallen arches or other foot problems. We recommend wearing Align™ for only a few hours each day, and gradually working up to all day wear. Once you are comfortable for a full day, you won’t want to live without them!

---

**TABOR**

Slip-Resistant Ratings

Slip-Resistant Testing is performed on unglazed quarry and standard vinyl tile in accordance with ASTM F 1167, using Mark II equipment. Results are based on a scale where 0.0 is the absence of friction and 1.0 is high friction.

Industry Standard for Slip-Resistance is 0.5
