

GOALS and OBJECTIVES

To network with Occupational Health Nurses and discuss best practice

To describe the *AHA Workplace Achievement Index*, measuring continuous improvement of your organization's culture of health

To describe the *Total Worker's Health Project* and define comprehensive approaches to improve the health of workers in our communities.

To describe elements of *Zero Harm Initiatives* that are contributing to a culture of safety and reducing workplace injuries.

To describe a comprehensive approach to evaluating and treating the dizzy worker.

To discuss the theory and health benefits of implementing a *Grateful Work Culture* and create a personal gratefulness strategy.
