Ten Key Benefits of Attending

'Well organized, interactive, great, useful information! Also a wonderful opportunity to meet and exchange ideas with other school nurses.

– ROZ BALWIN,
SCHOOL NURSE, RN, BSN

Who Should Attend

School Nurses, District Nurses and School Health Coordinators serving grades K-12

1. What Every School Nurse Should Know When Responding to School Medical Emergencies

Know the very latest research-based recommendations on interventions during hypoglycemia, traumatic brain injury, acute bronchospasm, and more!

2. Be Better Prepared for the Unplanned During Life-Threatening Situations

Sudden cardiac arrest, anaphylaxis and seizures are occurring more frequently in schools and preparation is key

3. Be Better Prepared with New Assessment Skills

Apply new assessment skills according to the Pediatric Assessment Triangle (AAP) to determine your response during a medical crisis

4. Recognize the Critical Symptoms of an Opioid Overdose

Implement and administer Naloxone as appropriate to your practice ... Why, when and how

5. Be Better Prepared for Students with Special Needs and Chronic Health Concerns

Examine health care and emergency plans for our most vulnerable students during lockdowns and evacuations

6. Incorporate the Best Assessment Techniques for Common Injuries and Provide for Smooth Transfer

Review new splinting materials and application skills to get students safely to the next level of care

7. Improve Trainings for Lockdowns, Evacuations and Your Emergency Teams

Understand triage from the school nurse perspective and prepare for 72 hours of emergency supplies

8. Learn the Key Components for Smooth Ambulance Transfers

Examine medical transfer forms and get practical tips from first aid and safety organizations to document critical details of school emergencies

9. More Effectively Address Issues Surrounding the Use of Unlicensed Personnel

Use checklists and apps to increase the safe collaboration of others who work with school nurses

10. Receive a Detailed School Medical Resource Handbook Complete with Handouts and Forms

Each participant will receive an extensive resource handbook full of ready-to-implement materials that will streamline and increase efficiency in your school nursing practice on a daily basis

Outstanding Strategies You Can Use Immediately

What You Will Learn ...

- Gain hands-on experience using **the latest products and supplies for first aid and medical treatment**
- **The best practices** from FEMA, American Red Cross and Heart Association on recommended school nurse response to medical emergencies
- **Learn advanced skills in assessing the major life-threatening medical emergencies** and current guidelines in nurse interventions ... Learn from real-life scenarios for sudden cardiac arrest, seizures, hypoglycemia and more
- **The most useful apps for mobile devices** to make training school staff easier
- **The latest equipment and products** to deliver first aid for emergencies
- **Hands-on experience for splinting common school injuries** ... Learn about products that keep your practice relevant in the changing practice of today's school nurse
- **New timesaving tools and supplies** to treat student health issues

Practical Ideas and Strategies

If you are looking for current, best practices and evidence to support your school emergency medical interventions, this is a seminar you won't want to miss! During this intensive, interactive and collaborative seminar, outstanding school nurse of more than 30 years, **SANDRA MORITZ**, will share dozens of the most current practices, strategies and practical tips to help school nurses better respond to medical emergencies in a school setting. As a school nurse, Sandra can relate to the seriousness of the daily health and medical challenges in your practice. Your ever-changing role as a school nurse will be examined from a perspective of how you can best respond when medical emergencies occur in your school setting. Gain greater confidence in your practice, discover new products that are now available to make daily interventions more effective and become better prepared for the unexpected. Realize your full potential by addressing the stress of your career choice, and learn ways to be more proactive with stress-reducing tips to survive and flourish as today's school nurse.

A Message From Seminar Leader, Sandra Moritz

Uniquely Qualified Instructor

SANDRA MORITZ is a nationally recognized and experienced school nurse and coordinator with more than 30 years of hands-on school nursing practice. As her state's School Nurse of the Year, a recent National Association of School Nurses (2017) presenter and a national speaker, she is a frequent presenter at conferences, in-services and seminars. Sandra is the author of *SCHOOL NURSES: Best, Current Practices for School Medical Emergencies*, the extensive resource handbook participants will receive at the seminar. She has authored many articles in professional journals, including *Advance for Nurses* and NASN's *School Nurse*. She passionately interacts with other school nurses, supporting their personal challenges in dealing with medical emergencies in the school setting. As one school nurse to another, she understands the changing role of the school nurse.

The often solo role of the school nurse transforms into the sharing world of school nurses as a result of the interactions with others at Sandra's seminars. Sandra's participants find her seminars to be a knowledge-gaining experience and leave energized with new ideas and strategies and a personal connection to the world of school nursing.

Dear Colleague:

As a fellow school nurse and colleague, I understand the unique challenges we face in our changing role as today's school nurse. We are the first responders in schools, assisting students who need us the most. As a school nurse and health services coordinator of more than 31 years, I can relate to your daily concerns. To stay current in our roles today we must be prepared for the unexpected. As the first set of medical eyes in the school setting, planning for the unplanned is now another function of our role. We must respond quickly with assessment skills and knowledge based on the latest research. My ability to relate to other school nurses gives me a unique opportunity for a great day of sharing, as only one school nurse to another can understand. As your professional colleague, we will explore the current challenges in our career choice of school nursing.

Enjoy a day of sharing with other school nurses who also understand today's challenges. Learn practical new strategies to keep students safe while in your care. Get the latest information so that you can respond with confidence during the increasingly common school medical emergency. Be prepared for life-threatening situations by creating best practices during evacuations and lockdowns. Take care of yourself so your energies will be ready for our daily challenges. I believe you will leave this seminar refreshed, renewed with professional energy and better prepared to handle the stressors of your job. You will excel as the healthcare provider in your school setting and be confident in your skills as the school nurse! You'll gain practical information to use immediately in your school nurse setting and an extensive resource handbook written by your professional colleague—another school nurse!

Sincerely,

Sandra Moritz

P.S. You will receive **an extensive school medical emergency resource handbook** containing a summary of all the information and resources presented in this seminar.

'To stay current in our roles today, we must be prepared for the unexpected. As the first set of medical eyes in the school setting, planning for the unplanned is part of our role today.'
