INDICATION

BRIVIACT® (brivaracetam) (CV) is indicated as adjunctive therapy in the treatment of partial-onset seizures in patients 16 years of age and older with epilepsy.

IMPORTANT SAFETY INFORMATION

BRIVIACT is associated with important warnings and precautions including suicidal behavior and ideation, somnolence, fatigue, dizziness, disturbance in gait and coordination, psychiatric adverse reactions including non-psychotic and psychotic symptoms, and hypersensitivity reactions (bronchospasm and angioedema). BRIVIACT is contraindicated in patients with a prior hypersensitivity reaction to brivaracetam or any of the inactive ingredients.

The most common adverse reactions (at least 5% for BRIVIACT and at least 2% more frequently than placebo) are somnolence and sedation, dizziness, fatigue, and nausea and vomiting symptoms.

BRIVIACT is a Schedule V controlled substance.

Please refer to full [Prescribing Information](#), and visit www.BRIVIACTHCP.com.

This event is conducted in accordance with the PhRMA Code on Interactions with Healthcare Professionals and is limited to Healthcare Professionals. Attendance by guests or spouses is not permitted. Federal and state laws restrict and/or require disclosure of items UCB provides to Healthcare Professionals, including meals, refreshments, and transportation. UCB is committed to complying with all legal requirements. If you are subject to a restriction based on your practice location or institutional affiliation, UCB kindly asks that you not attend this event.

Attendees from Minnesota and Vermont, please identify yourself as you check in and you will be seated to accommodate your state regulations.
