***“WHYs help us navigate
the worlds in which we live
and work”***

2008 to 2013, clinical director of patient care services from 2008 to 2010 and a clinical nurse and clinical nurse specialist from 1997 to 2008. The Presidential Theme Keynote: Keeping our Promises to Patients: Guided by Why explores how our personal and professional WHYs help us navigate the worlds in which we live and work. We reflect upon real life experiences and why they influence the choices we make, the

work we do, and the paths we follow. Writings from Daniel Pink, Simon Sinek, Kevin Cashman, and Victor Frankl connect WHYs with personal mastery, drive, and excellence. Attendees will contemplate the ways in which their everyday WHYs influence their everyday pursuits of excellence.
