CONFERENCE OBJECTIVES

At the completion of the conference, participants will:

1. Increase their knowledge of chronic health conditions that occur in the school setting.
2. Improve their understanding of current school health issues.
3. Enhance their ability to network with colleagues and identify valuable school health resources.

*The annual basket raffle to benefit the legislative efforts for school health issues will begin during the morning break. Basket/gift donations to this cause will be accepted during registration on Friday. Items will be on display during the breaks and during meals. Winners will be announced following the Awards Dinner. Winning ticket numbers will be posted at the registration desk.*
**Poster Presentations will be available to view throughout the conference.**

**PRE-CONFERENCE - FRIDAY, April 13, 2018**

(F01) 1:30 pm - 5:00 pm

“Recognizing and Responding to Children at Risk: Suspected Child Abuse & Neglect Education for School Nurses?”
Donna Balewick, MD  
Medical Director of Acute Care Services, Emergency Medicine, Indiana Regional Medicine  
Mary Ann Zimmerman, BS, Agency Liaison, Centre County Children & Youth Services

As legally mandated reporters, school nurses are often the only voice for abused and neglected children. This American Academy of Pediatrics program models collaboration between health care providers and child protective services and takes an in-depth view of Pennsylvania law, risk factors, abusive vs. accidental injuries, the implications of truancy, reporting procedures and what to expect after a report is made. Presented by a pediatrician with expertise in child abuse evaluations and a Child Protective Services professional, the program also looks at the importance of having a child abuse protocol in the school setting. A Child Abuse Office Kit is provided to each participant. This program is approved for both Act 31 and Act 126 and is eligible for Act 48 and Act 58 credit.

(F02) 1:30 pm - 3:00 pm

“Adolescent Sleep: What Controls It? What Does It Impact? How Can We Improve It?”
Jessica C. Levenson, PhD, Licensed Psychologist  
Assistant Professor of Psychiatry  
University of Pittsburgh School of Medicine

This lecture will review the definition of sleep, the factors that control sleep, the amount of sleep that adolescents need and the contributors to insufficient sleep among adolescents. Discussion will include an explanation of how to assess sleep and how can school nurses can identify insufficient sleep in students. The cognitive-behavioral treatment of sleep problems as well as available resources to nurses and families will also be included in this presentation.

(F03) 3:30 pm - 5:00 pm

“AEIOU and sometimes TIPS. The approach to the student with altered mental status”
Robert P. Olympia, MD, Professor  
Department of Emergency Medicine and Pediatrics, Penn State College of Medicine

This presentation will review how to perform an initial assessment and develop of differential diagnosis of a child presenting with altered mental status. The mnemonic AEIOU TIPS method used to identify common causes for altered mental student in a student will be demonstrated. Several cases, focusing on chief complaint, physical examination, differential diagnosis, and disposition, in children presenting with anoxia/hypoxia, epilepsy, hypoglycemia, intoxication/ingestions, renal/liver disease, head trauma, central nervous system infections, psychiatric disorders, and shock will be presented.
EDUCATION SESSIONS END FOR THE DAY

After 5:00 pm  DINNER ON YOUR OWN
5:00 pm – 8:00 pm  Vendor Displays
8:00 pm – 9:00 pm  Region Meetings-

IMPORTANT UPDATES

SATURDAY, April 14, 2018

“School Nursing for a Hierarchy of Needs”

6:15 am – 7:00 am  Morning Walk/Run
6:30 am – 8:00 am  Registration
7:30 am – 1:30 pm  Vendor Display
7:00 am – 8:00 am  Breakfast; Legislative Auction Display

General Sessions

8:15 am – 8:30 am  Conference Greetings

(S01)  8:30 am – 10:00 am.  Keynote Address:

“School Shooters: Pathways to Violence”
Peter Langman, Ph.D., Licensed Clinical Psychologist
Langman Psychological Associates

Safety and security, two of our basic needs, will be addressed in this timely presentation by Dr. Peter Langman, an internationally renowned expert in this field. The presentation will identify and describe three psychological types of school shooters. It will cover warning signs of violence and explain the concepts of attack-related behavior and leakage, and how they are used in threat assessment. A distinction will be made between reactive emergency response procedures such as lockdown drills that are utilized after an armed intruder has entered a building or campus, and threat assessment as a proactive approach to identify a potential violent attacker before he shows up armed and ready to kill. Topics covered will also include warning signs of school shooters in order to improve efforts at preventing mass violence in schools.
10:30 am – 12:00 pm. General Session

“School Safety: A Parent’s Perspective”
Michele Gay M.Ed, BS
Co-Founder/Executive Director Safe and Sound Schools.

The presenter will share her personal story and recount the lessons she learned on December 14, 2012 and in the aftermath of the Sandy Hook Tragedy. Her perspective provides unique insights and inspiration for safety and school professionals and community members who strive to make their schools safer.

12:00 pm – 1:30 pm - Lunch; Vendors; Legislative Auction Display; Special Needs School Nurses Group Meeting

BREAKOUT SESSIONS I - 1:30 pm – 3:00 pm (SO3 – S10)

(SO3) “Slipping Through the Cracks...Children with Migraine”
Nathan L. Bennett, MD
Founder and Director, Preferred Headache Center, Pleasant Hills, PA

An estimated 10% of children and adolescents in the United States suffer from migraine. About 2% have chronic migraine (15 or more days of headache per month). Headache is the third ranked illness-related cause of school absence. This presentation will examine the burden, pathophysiology, diagnosis, and treatment of migraine. A brief overview of migraine variants and common comorbid conditions that are common in children with migraine will be included, as well as tips for keeping these children in school.

(SO4) “Vaping: What Every Professional Needs to Know”
Rebecca Kishlock BA, CTTS
Tobacco Cessation and Program Associate
Breathe PA

This session will include a description of the prevalence of electronic cigarette use among teens and adults including available types of electronic nicotine delivery systems and their functions. Safety standards and regulations of electronic cigarettes will also be covered in this presentation. Discussion will also include the known health hazards associated with electronic cigarette use.

(SO5) “Marfan Syndrome: For the 21st Century School Nursing Professional”
Janice Petrella Lynch, MSN, RN
Director of the Help and Resource Center
The Marfan Foundation

This presentation begins first with history and basic facts of Marfan syndrome. It will include a review of all body system involvement including the musculoskeletal, cardiovascular, neurological, pulmonary and ocular systems. Attendees will learn identification and determination of diagnosis of Marfan Syndrome. In addition, interventions for school nurses such as care coordination, leadership and community health interventions will be addressed.
(SO6) “Hot Topics of Vision and Eye Care”  
Marla L. Moon, O.D., FAAO  
Director-Vision Rehabilitation Center, Nittany Eye Associates

This session will present what’s new in research guidelines as it relates to vision. Students with potential vision problems will be identified, along with cutting edge research that can affect and benefit students with visual deficiencies. “Hot Topics” that will be discussed include the latest myopia summit information, updates on NIH convergence insufficiency research, new research regarding blue light exposure and visual consequences, and updates on concussion and visual consequences.

(SO7) “Take a BREATH...the approach to the student with shortness of breath, chest pain, and syncope”  
Robert P. Olympia, MD, Professor  
Department of Emergency Medicine and Pediatrics, Penn State College of Medicine

This session will review how to perform an initial assessment of a child presenting with shortness of breath, chest pain, and syncope. The mnemonic BREATH method used to identify common causes for shortness of breath in a student will be demonstrated. A cardiac and pulmonary assessment, as well as a demonstration of an evidence-based medicine approach to the assessment of children presenting with syncope plus sample cases will be included in this presentation.

(SO8) “Pediatric Bowel and Bladder Dysfunction: Treating the typically and atypically developing child with a conservative approach”  
Amy Vandermark DPT, BS  
Physical Therapist, UPMC-Susquehanna

The prevalence of pediatric pelvic floor dysfunction is quite high, with one to two children in a classroom of thirty being affected with symptoms. We know that symptoms are increased with behavioral health issues, as well as any child who is atypically developing (the premature child, downs syndrome, autism etc.). There is more to offer these children than medication. This session will include a description of the pelvic floor and types of pelvic floor dysfunction. Treatment options that Physical therapy can provide including behavioral strategies, flexibility and strengthening in lower extremities and abdomen, as well as the use of biofeedback computer based system will be presented.

(SO9) “Protecting the Hearts of Students”  
Darren Sudman, J.D., BA  
CEO, Simon's Fund

Thirteen years ago, Darren Sudman lost his son to an undetected heart condition. He and his wife founded Simon’s Fund to raise awareness about sudden cardiac arrest and death in children. This course will explore the conditions and warning signs of sudden cardiac arrest and the measures that nurses and schools can take to prevent it. Conditions and warning signs of cardiac arrest will be reviewed. Discussion will include the SCA (Sudden Cardiac Arrest) related legislative efforts pending in Harrisburg plus the pros and cons of youth heart screenings.

(S10) “Animal Assisted Therapy: The Basics for Nursing”  
Sharon Katz, MS,RN

This presentation will explain the difference between a therapy animal, a service animal, an emotional support animal, a household pet and a lab animal. The basic rights of persons with and without disability under the ADA (American with Disabilities Act) will be discussed as well as the fundamentals of focused AAT (Animal Assisted Therapy) for practitioners. A review of Nursing literature, available data/Evidence Based Practice on the use and outcomes of support animals will also be included in this session.
BREAKOUT SESSION II  3:30 pm – 5:00 pm (S11 – S18)

(S11) “Scoliosis Screening”  
Emily Stankoski, MSPA, PA-C  
Physician Assistant, Shriners Hospitals for Children- Philadelphia

This session will include a demonstration on how to screen for scoliosis, an interactive instruction on scoliometer use and indications for referral to an orthopedic physician. Scoliosis and types (congenital, neuromuscular, and idiopathic) will be defined as well as a review of radiologic findings on spine xrays. A discussion of both non-operative and surgical treatments will also be included.

(S12) “Beyond Seizures: The Implications of Living with Epilepsy”  
Yazmin Pena, BS  
Community Education and Transition Coordinator  
Epilepsy Foundation of Western/Central PA

Epilepsy is a very diverse condition that can be classified as a spectrum disorder. It affects many facets of day to day life, whether it be the direct result of a seizure, the side effects of anti-seizure medications or how a combination of these things can affect social issues. Another, more frightening issue, that can potentially occur with epilepsy is SUDEP. In addition to SUDEP, deaths can occur as the result of seizure related accidents as well as suicide because of the condition and/or medications. This presentation will focus on all of these issues providing information on not only the mechanisms behind these implications, but will also focus on strategies that a school nurse can use themselves as well as teachers to help a child deal with some or all of these issues in a school setting.

(S13) “Emotional Trauma in Children: Indications for School Nurses”  
Kimberly Blair, PhD  
Associate Professor of Psychiatry, University of Pittsburgh School of Medicine  
Director of Matilda Theiss Early Childhood and Behavioral Health and Trauma Treatment Centers, Western Psychiatric Institute and Clinic of UPMC

This session will provide attendees with an understanding of childhood trauma and the effects it has on students, so that school nurses can strategize to remove barriers to learning that are associated with childhood trauma. The presentation will also include an explanation of traumatic stress, the stress response system, and the effects of trauma on the developing brain. It will further discuss behaviors associated with that trauma and strategies that can be utilized to manage the behavior.

(S14) “Social Media and the Health Office- Jump in!”  
Charity Istone, MSN, CRNP, CSN  
Leslie Vrotney, BSN, RN, CSN  North Allegheny School District

Effective Health Services in the 21st Century must include digital communications. This workshop will provide a relaxed environment where School Nurses can work with their peers to learn available social networking tools. Social media trends will also be discussed. At the conclusion of this presentation, the attendees will list two web applications available for social networking and one communication promoting a Health Office activity.

(S15) “School Nurses Caring for Students with Tick-Borne Illnesses. The Role of the School Nurse in Educating the School Community about Lyme Disease and Other Tick Borne Illnesses”  
Julia Wagner, MBA  
President, PA Lyme Research Network (PALRN)
In the school age population it is imperative that the school nurse be aware of the signs and symptoms of Lyme Disease and other tick-borne illnesses. Undiagnosed tick-borne illnesses can profoundly affect a student’s physical, social and academic life. This session will include the signs and symptoms of Lyme disease and other tick-borne illnesses and the correct method of removing a tick. The cognitive, neurological and physical symptoms that a student may exhibit with a tick-borne illness will also be reviewed as well as the role of the school nurse in caring for these students.

(S16)  “Pennsylvania Department of Health STD Services”
Kristine King, BS
STD Program Administrator, PA Department of Health

The presentation is an overview of reportable STDs, including symptoms, medical consequences and disease trends. The role of the Pennsylvania Department of Health in providing testing and treatment of STDs as well as the department’s efforts to encourage the private medical community to screen/test patients of at risk ages (15-25) will be discussed. Information will be provided regarding education and services that can be used as resources for student populations.

(S17)  “Physical Assessment Skills & Interviewing Techniques Review”
Cheryl Jackson, DNP, FNP-C
Assistant Professor, Bloomsburg University

This hands-on presentation will include the basic information to obtain a complete review of systems for common complaints (i.e headache, earache, stomach ache) presenting in the school health setting. A discussion of potential urgent problems with similar presentations and the differences will be included in this session. In addition, a review of landmarks, auscultation, percussion, and examination techniques for general examinations and these common diagnoses will be a part of this presentation.

*Participants are asked to bring their ophthalmoscope and otoscope as practicing the use of these instruments will also take place.

(S18)  “Common Dental Emergencies in the School Setting”
Karen Buis, RDH, MEd, PHDHP, CSDH
Certified Dental Hygienist, East Stroudsburg Area School District
Past President of PSEA/ DPS School Dental Hygienist Section

This presentation is designed to guide school nurses in their recognition and identification of dental emergencies. Topics to be discussed include dental disease, infection, broken tooth, avulsion, intrusion, mobility issues, eruption patterns, orthodontic problems, TMJ/jaw dislocations and fractures in the school setting. Treatment and referrals for these issues will also be included in this session.
SATURDAY EVENING, April 14, 2018

5:00 pm – 6:00 pm  Legislative Auction Display
6:00 pm – 7:30 pm  Awards Dinner
7:30 pm – 8:00 pm  Legislative Auction Drawing

SUNDAY, April 15, 2018

7:00 am – 7:30 am  Inspirations Session (Nondenominational)
7:30 am – 8:30 am  Breakfast
8:30 am – 9:30 am  Annual Business Meeting

(SU1) 9:30 am – 10:30 am  General Session
“Legislative Update 2018”
Morgan Plant, Lobbyist – PASNAP
Morgan Plant & Associates – Government Affairs Public Relations

This session will include a review of legislation on PASNAP legislative tracking list, inform audience of PASNAP efforts to support positive legislation and change legislation that may not be in the best interests of students or CSNs. An overview of political climate and budget implications for school health will be included in this presentation.

(SU2) 10:30 am – 12:30 pm  General Session
“Pennsylvania Department of Health – Division of School Health Update 2018”
Jill Clodgo, AA, RN
Acting Chief, Division of School Health
PA Department of Health

This session will provide PA's Certified School Nurses with the latest information on a variety of topics. An overview of several Department of Health initiatives as well as resources available to support healthy students and families will be included. Two new laws affecting nursing services to PA students and two common concerns related to school health will be included in this presentation.

12:30 pm  WRAP UP AND GOODBYE

HAVE A SAFE JOURNEY AND SEE YOU IN 2019!

MARK THE DATE:

2019 PASNAP CONFERENCE – MARCH 29 – 31, 2019

PENN STATER CONFERENCE CENTER

### 2018 PASNAP Service Project

This year PASNAP is proud to support Penn State’s THON.

“THON is a student-run philanthropy committed to enhancing the lives of children and families impacted by childhood cancer. (Their) mission is to provide emotional and financial support, spread awareness and ensure funding for critical research - all in pursuit of a cure.” Donation cans will be available throughout the conference.

https://thon.org/
NASN 2018- “Power of the Past, Force of the Future”
Join the PA delegation June 30-July 3, 2018 in Baltimore, MD at the 50th Annual Conference.
