

Make your voice heard! Advocate for Improved **PATIENT SAFETY & CARE**

As emergency nurses, **you have firsthand experience** on how healthcare laws and regulations directly affect patient care. This knowledge gives you a unique perspective on healthcare policy. The ENA Government Relations team is **here to help you harness your expertise** to make our country's emergency departments safer and to deliver to our patients the highest quality of care possible.

Advocate for emergency nursing on Capitol Hill

Spend a day learning how to advocate effectively for ENA's legislative requests. You will have the opportunity to meet with congressional leaders and their staff to discuss how they can have a positive effect on the future of emergency nursing.

BE AN ADVOCATE

Join the EN411 Action Network

ENA established the EN411 Action Network to encourage members to cultivate relationships with federal and state legislators and communicate the legislative priorities of emergency nurses in an effective manner.

What does it mean to join the EN411 Action Network?

As a member of the EN411 Action Network, you will serve as a critical resource to strengthen the voice of emergency nurses in the legislative process.

EN411 Activities

We make it easy for you to participate and influence the legislative process.

- **Action Alerts — Advocate on Behalf of ENA**

ENA sends action alerts requesting you to contact your state or federal legislators about a specific issue, bill, or vote. We provide you with a sample letter and/or talking points that can be sent directly to the appropriate legislator or agency.

- **Washington Update**

Every month, the ENA Government Relations team will email you news and information related to health care policy and legislation. This includes status updates on ENA priority bills at the federal level.

- **ED Visits**

Invite legislators and their staff to tour your emergency department. This provides the legislators and staff the opportunity to witness, first-hand, the operations of an emergency department and the nurse's role in the emergency department. We are happy to provide assistance in making these requests.

If you have questions, please contact gov@ena.org.
