The Surgical Home: How to Leverage Opportunities to Improve Compliance with Surgical Site Infection Prevention Bundles and Improve Patient Outcomes

Join us for a free educational webinar on March 13, 2018, 2:00-3:00 PM (Central Time)

OBJECTIVES:

- Describe the 3 phases of the surgical home.
- List the 5 components of an SSI prevention bundle.
- Discuss 2 ways to coordinate SSI prevention activities to improve outcomes.

Kathleen Kohut, RN, MS, CIC, CNOR

Kathleen Kohut is the Director of Infection Prevention at Cape Cod Healthcare in Hyannis, MA. Kathleen has more than 20 years of experience in the field of infection prevention. Her clinical expertise includes maternal/child health and surgical services where she spent more than 10 years specializing in trauma and open heart surgical procedures. Kathleen is also an independent consultant providing services to the Operating Room, Labor and Delivery, Cath Lab, and Interventional Radiology. Most recently Kathleen has worked with Johns Hopkins Hospital and New England Baptist Hospital, an orthopedic specialty facility. She is the author of the APIC 2008 Guideline "Prevention of Mediastinitis" and the "Cardiac Catheterization and Electrophysiology" chapter for the 2014 revision of the APIC Text. Kathleen has been an invited speaker at local, national and international APIC and AORN conferences. She is certified in Infection Control and earned her MS from the University of Maryland, School of Nursing.
