

PA LYME MEDICAL CONFERENCE 2018

NEW FRONTIERS IN LYME AND RELATED TICK-BORNE DISEASES

Conference Description and Goals:

- Provide an update on evolving perspectives and research on Lyme/Tick-borne diseases.
- Discuss critical challenges in addressing the epidemic of Lyme/Tick-borne diseases in PA.
- Share the latest in diagnosis and treatment strategies.
- Explore less recognized manifestations of Lyme and other tick-borne diseases, including neuropsychiatric and cognitive and CNS/neurological with case discussions.
- Explore common co-infections in PA, including Babesiosis and Bartonellosis.
- Enhance knowledge-sharing between researchers, tick-borne disease medical experts, with front-line practitioners, and foster development of networks for improved patient care.

A collaboration of ILADS, PA Lyme Resource Network and the Drexel University College of Medicine.
