Registration will open late February

MAINE NURSING PRECEPTOR
EDUCATION PROGRAM

Inspire. Teach. Guide. Invest.

Available to
RN preceptors,
clinical educators,
nurse managers, and
school nurses working
across the
continuum of care

2019 Program

We're excited to share plans underway for launching our 2019 preceptor program. Interest in The Maine Nursing Preceptor Education Program continues to grow and at the recommendation of the Preceptor Program Advisory Team, we continue to expand our learning audience. This year, we're looking forward to welcoming **nurse managers** and **school nurses** to the learning audience. Nurse managers and school nurses will be joining the cohorts of **registered nurses** interested in obtaining the knowledge and skills to assume the preceptor role and **clinical nurse educators** interested in further developing their knowledge and skills, to work in partnership with RN program attendees from their organizations, to guide and support the on-going development of new preceptors.

To learn more, visit www.lunderdineen.org/preceptorship for more information about the program, criteria for participation, workshop dates, and to register!
