

Do you work with New Hampshire children and families? We want to hear from you!

If you work directly with New Hampshire children ages 0 to 5 or with New Hampshire families with children in this age range, we invite you to participate in a voluntary 30-minute survey about your experiences.

- You must be 18 or older to participate.
- Your work must focus on young children from birth until they enter kindergarten (ages 0-5) and their families. This includes child care and early learning programs, home visiting programs, early intervention services, health services, or related programs.
- You can receive a \$20 gift card for your participation in the 30-minute survey.

To learn more about the survey, visit
www.education.nh.gov/pdg/wfsurvey.htm

or contact Meredith O'Shea (meredith.oshea@unh.edu, 603-862-2146)

The survey is supported by New Hampshire's Preschool Development grant awarded to the University of New Hampshire which aims to understand the state's early childhood system and to create a plan to improve outcomes for children, families, schools, and communities throughout New Hampshire.
