

WILD ON WOUNDS

NATIONAL WOUND CONFERENCE

PRESENTED BY: WOUND CARE EDUCATION INSTITUTE

SEP 11-14TH
2019

 Paris[™] HOTEL
LAS VEGAS

BROCHURE contents

CLICK ON THE BUTTONS BELOW TO VIEW.

WHO SHOULD ATTEND?

NURSES, PHYSICIANS, PHYSICIAN
ASSISTANTS, PHYSICAL THERAPISTS,
OCCUPATIONAL THERAPISTS, CASE
MANAGERS, DIETITIANS, ADMINISTRATORS
AND WOUND CARE INDUSTRY
REPRESENTATIVES – **ANYONE INTERESTED**
IN ADVANCED WOUND CARE.

IT'S WHAT I DO, WHAT I LOVE, WHO I AM™

FROM THE MOMENT YOU ARRIVE YOU WILL
FEEL THE EXCITEMENT AND WOUND CARE
VIBE THAT COMES WITH BRINGING LIKE
PASSIONATE CLINICIANS TOGETHER.

WOW WAS CREATED FOR THE NOVICE
TO THE EXPERIENCED HEALTHCARE
PROFESSIONAL PASSIONATE ABOUT WOUND
CARE. OUR SESSIONS ARE THOUGHTFULLY
DESIGNED ON THE “LEARN IT TODAY AND
USE IT TOMORROW” PHILOSOPHY. ENJOY
OUR HANDS-ON SESSIONS AND ENHANCE
YOUR KNOWLEDGE BY LEARNING MORE
ABOUT CURRENT STANDARDS OF CARE AND
USING EFFECTIVE INTERVENTIONS TO MAKE
A DIFFERENCE IN YOUR PATIENTS’ LIVES.

JOIN OUR FAMILY AND THE 1000+
COLLEAGUES AND BRING A FRIEND FOR A
UNIQUE CONFERENCE EXPERIENCE.

Difference

Conference Date and Location

Paris Hotel – Las Vegas, Nevada

- Pre-Conference: September 11, 2019
- Main Conference: September 12-14, 2019

Conference Objectives

- To provide participants current evidence-based education in skin and wound management and ostomy
- To offer programs that will enhance participants' current skin and wound care knowledge and offer optional solutions in achieving skin and wound management goals
- To provide participants with hands-on programs to immediately help the patient at the bedside.

Registration / Check-In Hours

Upon arriving at the hotel please locate the convention area and check in at registration desk to receive your conference materials.

- **PRE-CONFERENCE** Wed. 7:30 a.m. - 5:00 p.m.
- **MAIN CONFERENCE** Thurs. 7:00 a.m. - 6:30 p.m.
Fri. 7:30 a.m. - 5:00 p.m.
Sat. 8:00 a.m. - 4:00 p.m.

General Registration Information

Make checks payable to: **RELIAS LLC** and send with application to:

MUST be sent to one of the following for confirmation:

- **ONLINE** at WWW.WOUNDSEMINAR.COM
- **EMAIL:** ar@relias.com
- **MAIL** check and registration form to:
Relias LLC
Attn: Wild on Wounds Productions
1010 Sync Street, Suite 100
Morrisville, NC 27560

Questions? Call **877-462-9234**.

A confirmation letter will be emailed to you after your registration form and payment have been processed.

2019 Continuing Education

2019 Continuing Education. Can earn up to 21 CEs. (can earn up to 18 contact hours for main conference, up to 6 contact hours Pre-Conference).

CPE
Accredited
Provider

Commission
on Dietetic
Registration
an accrediting agency for the
Academy of Nutrition
and Dietetics

Relias LLC is a Continuing Professional Education (CPE) Accredited Provider (#ON001) with the Commission on Dietetic Registration (CDR). This is a level 2 course with suggested CDR learning codes of 2070, 3010, 5100, 5170, 5380, 5390, 5280, 5190, 6000 and performance indicators of (8.1.4, 8.1.5, 10.1.3, 10.2.7, 4.1.2, 8.1.4, 8.1.5, 10.2.7).

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, OnCourse Learning (a Relias LLC company) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Relias LLC approved by the California Board of Registered Nursing, Provider #CEP13791 for 21 contact hours.

Occupational Therapist

APPROVED PROVIDER of
CONTINUING EDUCATION
by The American Occupational
Therapy Association, Inc.

OnCourse Learning (a Relias LLC company) is an approved provider of continuing education for occupational

therapists by the American Occupational Therapy Association. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA.

Relias LLC is an approved physical therapy continuing Education sponsor, license number 216.000290 by the Illinois Department of Financial and Professional Regulation. Please check with your state for prior approval.

GENERAL INFORMATION

Meals During Conference

(Wearing badge is required for meals and to attend all events.)

- **WEDNESDAY** Pre-Conference
No meal is provided on this day.
- **THURSDAY** 11:30 a.m. - 2:30 p.m.
Exhibit Hall –Box lunch, Vendor Showcase and Poster Presenters
- **FRIDAY** 11:30 a.m. - 1:30 p.m.
Exhibit Hall -Box lunch, Vendor Showcase and Poster Presenters (Only vendors and registered conference attendees admitted to the exhibit hall. Must wear badge.)
- **SATURDAY** 11:45 a.m. - 12:45 p.m.
Lunch and presentation

Exhibit Hall and Poster Hours

Meet with exhibitors and industry experts, participate in hands-on labs at their booths and learn about new industry products. Vote on our clinical poster presenters. Each attendee has a chance to win a great prize just by attending exhibit hall presentations!

- Thursday, September 12th 11:30 a.m. - 2:30 p.m.
- Friday, September 13th 11:30 a.m. - 1:30 p.m.

Cancellation Policy

Cancellations and/or transfers must be submitted in writing to **coursesupport@relias.com**. Cancellations received per written notification by August 9, 2019 will receive a refund (less a \$100 processing fee). No refunds will be made after midnight EST August 9, 2019, No Exceptions. Pre-conference sessions are non-refundable.

Faculty Disclosures

All faculty participating in Continuing Education programs sponsored by the Wound Care Education Institute and Relias is expected to disclose to the meeting audience any real or apparent conflicts of interest related to the content of their presentation. It is not assumed that these financial interests or affiliations will have an adverse impact on faculty presentations; they are simply noted here to fully inform participants. The faculty has been directed to disclose if any unlabeled or off-label use of products is mentioned in their meeting presentation. Full faculty disclosure information will be noted in the conference syllabus.

Special Needs

In accordance with The Americans With Disabilities Act, if you are a person with a disability who needs any accommodations to fully participate in a course offered during the conference, please indicate the need for special assistance by emailing **coursesupport@relias.com**. WOW may be unable to accommodate certain requests for alternative formats made less than 4 weeks prior to the conference.

Hotel Accommodations

Paris Hotel
3655 S. Las Vegas Blvd.
Las Vegas, NV 89109
(877) 796-2096

Experience everything you love about Paris, in the heart of the Las Vegas Strip.

The Paris Hotel Las Vegas combines the old-world charm and style with all the same passion, excitement, and ambiance of Europe's most romantic city. Dine 110 feet above the Las Vegas Strip in the Eiffel Tower Restaurant Las Vegas or go all the way to the top and enjoy a stunning view of Las Vegas on the Eiffel Tower Experience.

The Paris Hotel is located on the Las Vegas strip and is a few minutes from McCarran International Airport.

LIMITED ROOMS AVAILABLE!

A limited number of hotel rooms have been reserved and are being offered to WOW 2019 conference attendees at special rates (\$155/night). Book your hotel rooms using our special code (SPWOW9) right away as the group rate is limited and only available through Thursday August 8, 2019. Please note, after this date any new reservations or extensions to existing reservations will be subject to hotel availability at the hotel prevailing rate. To make your hotel reservation online go to: **<https://book.passkey.com/go/SPWOW9>**.

You may also call 1-877-603-4389 and mention Wild On Wounds or use the group code **SPWOW9**. *(Note: phone reservations may have an additional fee)*

A daily resort fee of \$30.00 per room, per night plus the current Clark County room tax of 13.38% (tax is subject to change), will be charged in addition to the room rates set forth above. This fee includes:

- Unlimited local phone calls (no long distance or international calls)
- Two (2) guest admissions per day to the Fitness Center *(does not include use of the spa)*
- In-Room internet access to include two (2) devices per room per day (additional fee for Property-wide and inter-property roaming). Unless otherwise specified, the resort fee will be posted to the individual's room account.

WEDNESDAY
(pre-conference)

WEDNESDAY, SEPT 11TH

Pre-conference sessions

REGISTRATION HOURS
7:30 A.M. – 5:00 P.M.

8:30 a.m. – 12:00 p.m. **ADDITIONAL \$25 LAB FEE**

500 HOW TO: HANDS-ON WORKSHOP: Total Contact Casting – Redefining the Gold Standard

*Dr. Shaun Carpenter MD, FAPWCA, CWSP, CEO of MedCentris
(Limited Seating. No CE/CME offered)*

Total Contact Casting (TCC) is one of the most well recognized and documented successful treatments for the diabetic foot ulcer. At the same time, it is one of the most underutilized treatments. Understanding the different products can assist in increasing utilization and thereby increasing the number of healed DFU's. Technology has changed dramatically and the utilization of a TCC for proper offloading is easier than ever before. In this HANDS-ON session, you will learn how to apply a TCC in less than 20 minutes, from preparation to the patient walking out of the room, all while achieving proper offloading. Also remove a TCC in approximately one minute without the need or use of a cast saw. We will review the selection process of a TCC candidate as well as the indications and contraindications for using a TCC for proper offloading.

1:00 p.m. – 4:30 p.m. **ADDITIONAL \$150 LAB FEE**

501 HOW TO: HANDS-ON: Sharp Debridement

*Bill Richlen PT, WCC, DWC, WCEI Instructor, Infinitus, LLC
Theresa Ferrante BS, PTA, CKTP, WCC, Grandview Hospital*

Comprehensive presentation of wound bed preparation utilizing conservative sharp debridement. Session will include A&P, implications and contraindications, techniques, tools, documentation, legal issues and policy development. Hands-on lab practicum starts with all debridement instruments and supplies provided and ends with skills performance check off. Participants will receive documentation of competency in performing conservative sharp debridement upon completion of the session.

(This session repeats on Saturday)

1:00 p.m. – 3:30 p.m. **ADDITIONAL \$10 LAB FEE**

502 HOW TO: HANDS-ON: Practical Compression:

Wearing-Working-Wound Closure

*Christopher Miles OTR/L, CLT, CWCA, Senior Manager - Medi USA
Bryan Groleau COTA/L, CLE-LANA, WCC, LLE, National Senior Clinical Education Senior Manager - Medi USA*

(Limited Seating. No CME offered)

This hand-on class is aimed at the importance of compression. The session addresses the vital role that compression plays in wound healing and prevention of wound recurrence. Participants will understand the indications for various compression levels and different compression types and know the importance of choosing the compression that best stimulates venous return. During this portion of the workshop we will encourage clinicians to trial different compression systems and practice don/doffing so that they can best coach their patients in the life-long need for compression.

(main conference)

THURSDAY, SEPT 12TH

Main conference sessions

REGISTRATION HOURS
7:00 A.M. – 6:30 P.M.

8:00 a.m. – 10:15 a.m.

100 The Buzz Report

Donna Sardina RN, MHA, WCC, CWCMS, DWC, OMS, Co-Founder WCEI

The highlight of every WOW! This is your source for the latest breaking wound care news: What's new! What's now! What's coming up! Donna Sardina, WCEI co-founder, will bring you up to date on all things buzzable in wound care – new products, guidelines, resources, literature reviews, and tools. (Note: This session includes various brand name product reviews)

10:30 a.m. – 11:30 a.m. (Concurrent Sessions)

101 Ostomy Buzz

Joy Hooper RN, BSN, CWOCN, OMS, WCC, Clinical Instructor at WCEI, a Relias LLC Company

This is your source for the latest breaking Ostomy care news: what's new since last WOW, what's hot, and are there any new tools to help you and your patients. This session will bring you up to date on all things buzzable in ostomy care – new products, guidelines, resources and tools. (Note: This session includes various brand name product reviews).

10:30 a.m. – 11:30 a.m. (Concurrent Sessions)

102 Mythbusters 2019: "Taking on the Dabblor"

Michael Miller DO, FACOS, FAPWH, CEO and Medical Director at Miller Care Group

There are many commonly used and accepted treatments and techniques employed in current wound care settings that have little to no scientific evidence. Their anecdotal support has gained a myriad of followers who "drink the Kool-Aid" but in fact, are not aware of the unscientific, potential contraindications of these techniques. This lecture presents in humorous fashion, a hard look at some of these techniques that exist in myth and either have no scientific support or the science contraindicates their use.

10:30 a.m. – 11:30 a.m. (Concurrent Sessions)

103 Clinical Conundrums: Which Takes Priority-Weight Loss or Wound Healing?

Liz Friedrich MPH, RDN, CSG, LDN, FAND, NWCC, President, Friedrich Nutrition Consulting

Clinicians frequently face a dilemma when they are treating obese patients with pressure injuries or chronic wounds. To maximize wound healing, additional protein and calories are often required; however, calorie reduction is usually recommended to facilitate weight loss. This session will outline nutrition care issues related to this clinical conundrum and guide the clinician on how to prioritize treatment.

10:30 a.m. – 11:30 a.m. (Concurrent Sessions)

104 Oh Say Can You "C"? Differentiating Collagens in Clinical Practice

Catherine T. Milne APRN, MSN, ANP/ACNS-BC, CWOCN-AP, Co-owner Connecticut Clinical Nursing Associates, LLC

Collagen dressings come in a variety of sources. This session will discuss collagen dressings in clinical use and how they differ in both source, manufacturing and additive agents such as antimicrobials. Walk away from this session with increased knowledge to select the right collagen dressing for your patient's specific clinical requirements!

11:30 – 2:30 p.m.

Lunch / Vendor Showcase / Poster Presentations

2:45 p.m. – 3:45 p.m. (Concurrent Sessions)

105 OUCH! Assessing and Managing Skin Tears

Catherine T. Milne APRN, MSN, ANP/ACNS-BC, CWOCN-AP, Co-owner Connecticut Clinical Nursing Associates, LLC

This session explores the risk factors for developing skin tears and helps you classify their severity using accepted ISTAP guidelines. More importantly, you will learn the many interventions available for treatment and how to select the best one for your patient. Additionally, the role of MARS (Medical Adhesive Related Skin Injury) in development and treatment of skin tears is reviewed.

2:45 p.m. – 3:45 p.m. (Concurrent Sessions)

106 Microbiology and Wound Care Treatments

James B. Stiehl MD, MBA, Managing Partner at Stiehl Tech LLC

Treatment of chronic infected wounds requires dealing with bacteria and understanding the mechanisms by which these pathogens persist in the wound. Mechanical surgical debridement is the classic treatment for open wounds but must be combined with other important modalities such as antiseptic delivery with wound dressings, pressure relief, negative pressure wound therapy, and selective mechanical debridement with jet lavage irrigators. Important concepts include the application of these modalities in the context of the TIME and treatment step down approach. New technologies must perform in the context of cost, efficiency and efficacy. These will be reviewed.

THURSDAY
(main conference)

THURSDAY, SEPT 12TH

Main conference sessions

2:45 p.m. – 5:00 p.m. **(Concurrent Sessions)**

107 Wound Assessment

Bill Richlen PT, WCC, DWC, Clinical Instructor at WCEI, a Relias LLC Company, Owner at Infinitus, LLC

From the novice to the well-seasoned veteran, this session will provide a step-by-step approach for conducting the perfect wound assessment. Topics include tissue types, wound etiologies, documentation and much more.

4:00 p.m. – 5:00 p.m.

110 The Patient Perspective: Understanding Common Challenges After Surgery

(No CE/CME)

Collin Jarvis Vice President, Stealth Belt Inc.

This session will provide insight to the patient perspective from an elite athlete with Ulcerative Colitis and the resulting ileostomy. Tips and insight will be shared regarding common challenges post-op, importance of proper hydration, core strengthening, postural presentation and psychological well-being of the patient.

5:15 p.m. – 6:15 p.m.

111 Dressing for Dignity

Trisha Dubois RN, WCC, OMS, Wound Resource Nurse at Androscoggin Home Healthcare + Hospice

Every day, I challenge myself professionally.... “troubleshooter” is my middle name! Come join my session where I present a series of case studies demonstrating achievement of chronic and palliative wound care goals while providing efficient, cost effective and sometimes creative wound, ostomy and tube management solutions.

5:15 p.m. – 6:15 p.m.

112 Debridement Options: BEAMS Made Easy

Bill Richlen PT, WCC, DWC, Clinical Instructor at WCEI, a Relias LLC Company and Owner at Infinitus, LLC

The wound needs to be debrided...What do you do? A sharp clinician knows which debridement method is needed. But which methods are selective, and which are non-selective? This webinar will shed some light on the easiest way to remember which-is-which.

CLICK TO VIEW SESSIONS FOR SELECTED DAY

FRIDAY
(main conference)

FRIDAY, SEPT 13TH

Main conference sessions

REGISTRATION HOURS
7:30 A.M. – 5:00 P.M.

8:00 a.m. – 9:00 a.m.

200 Nutrition from A to Zinc

Nancy Collins PhD, RDN, LD, NWCC, FAND, Registered Dietitian, Light Bulb Health, Inc.

A, B, C, D, Zn, Arg, Glu, HMB, and so many more! It is alphabet soup when it comes to deciphering the nutritional components necessary for wound healing. This session will review the important macro- and micronutrients your patients need. An optimal diet will meet your patients' needs, but how many of them are consuming an optimal diet every single day?

8:00 a.m. – 10:15 a.m.

201 HANDS-ON WORKSHOP: Principles & Practice of Maggot Debridement Therapy

Dr. Ron Sherman MD, MSc, DTM&H, Director at BioTherapeutics, Education & Research (BTER) Foundation

(No CME)

Taught in two sessions, attendees will receive didactic and 'hands-on' teaching about maggot therapy. Learn about the history, status, mechanisms of action, indications, and contraindications for maggot therapy. Then put all that to use when you learn the technical aspects of applying live maggot dressings to mock wounds.

8:00 a.m. – 11:30 a.m.

202 Topical Wound Management

Nancy Morgan RN, BSN, MBA, WOC, WCC, DWC, OMS, Co-Founder of WCEI, a Relias LLC Company

Learn to "Dress for Success" with this BASIC but comprehensive review of topical wound management products. This session will focus on topical wound dressing categories and at the end there will be an interactive review of specific wound types where we will match up the proper treatment to the wound. (Note: This session includes various brand name product reviews)

9:15 a.m. – 10:15 a.m. (Concurrent Sessions)

109 Active vs. Resting? Neither Matter Without Compliance!

Dr. Jeffrey Lehrman, DPM, FASPS, MAPWCA, CPC, Podiatrist, Lehrman Consulting, LLC

This session consists of a review of the etiology and treatment options for chronic venous insufficiency and the poor outcomes and high recurrence rates associated with venous disease. Further attention will be given to the pitfalls of traditional treatment options and what can be done to improve outcomes.

9:15 a.m. – 10:15 a.m. (Concurrent Sessions)

203 Colostomy Irrigation: It's a No Bagger!

Anita Prinz RN, MSN, CWOCN, AnitaNurse.com

In this session we will describe what colostomy irrigation is and how this procedure is used in the acute care and home care setting,

and how it may improve the quality of life of a person living with a colostomy. We will cover which patients are the best candidates for colostomy irrigation and demonstrate how to perform the ostomy irrigation procedure and equipment used.

9:15 a.m. – 10:15 a.m. (Concurrent Sessions)

204 Symptom Control for Malignant Wounds: Drugs to Dressings

Joni Brinker MSN/MHA, RN, WCC, Clinical Nurse Educator at Optum Hospice Pharmacy Services

At the end of life, malignant wounds are a source of distress because they are associated with a heavy symptom burden. Pain, odor, bleeding, and heavy exudate are common. This session will examine the pharmacological and wound care strategies used to manage the symptoms associated with malignant wounds at the end of life.

10:30 a.m. – 11:30 a.m. (Concurrent Sessions)

205 Saving Lives One Angiosome at a Time

Dianna Dashner MSN, FNP-C, WCC, CLNC, LLE

This presentation will introduce the wound care nurse to the concept of angiosomes and their importance in healing lower extremity wounds. Angiosomes are an anatomical location supplied by a specific artery. The artery is the only means of healing the wound. It is critical to identify a patient with a non-healing wound of the lower extremity to prevent limb loss.

CLICK TO VIEW SESSIONS FOR SELECTED DAY

FRIDAY
(main conference)

FRIDAY, SEPT 13TH

Main conference sessions

10:30 a.m. – 11:30 a.m. (Concurrent Sessions)

206 Effective Wound Healing: Getting Back to the Basics

Bill Richlen PT, WCC, DWC, Clinical Instructor at WCEI, a Relias LLC Company and Owner at Infinitus, LLC

This presentation will review the importance of starting with management of the basics to wound healing before implementing adjunctive modalities which can be costly and less effective when wound healing fundamentals are poorly managed. We will also review each of the basics and effective strategies to manage them.

11:30 a.m. – 1:30 p.m.

Lunch / Vendor Showcase / Poster Presentations

1:45 p.m. – 2:45 p.m. (Concurrent Sessions)

207 Peristomal Skin Problems: Oh My!

Anita Prinz RN, MSN, CWOCN, Utilization Review Level II Nurse at myNEXUS

As many as 70% of ostomates will experience peristomal skin problems from time to time. This session will review the causes and types of peristomal skin complications and how to treat the most common problems.

1:45 p.m. – 2:45 p.m. (Concurrent Sessions)

208 What to Do When the Basics Aren't Enough: Adjunctive Modalities

Denise Richlen PT, WCC, DWC, CLT, Manager Paragon Rehab

This presentation will review the reasons why adjunctive modalities may be needed in healing some wounds and provide in-depth knowledge of what adjunctive modalities are available, what they do, and when they can and should be used.

1:45 p.m. – 2:45 p.m. (Concurrent Sessions)

209 Wet to Dry: Substandard of Care

Dr. Don Wollheim MD, FAPWCA, WCC, DWC, Clinical Instructor at WCEI, a Relias LLC Company

Numerous studies and healthcare guidelines have repeatedly deemed wet to dry gauze dressings as a substandard practice, painful, labor intensive and not cost effective. Despite all the

findings, wet to dry gauze dressings are still one of the most frequently ordered wound care dressing in the United States. We will review indications and contraindications of wet to dry dressings and offer options and alternatives for clinicians to utilize for wound treatment.

1:45 p.m. – 2:45 p.m. (Concurrent Sessions)

210 Stay Ahead of the Curve: Don't Become a Malpractice Case Study

David Griffiths Sr. VP at Nurses Service Organization

More than \$90 million was paid in indemnity and expenses for professional liability claims on behalf of nurses during the most recent 5-year analysis. This presentation will summarize and discuss actual nurse claims relative to wound care in an interactive manner to engage nurses in identifying whether the involved nurse managed risks properly.

3:00 p.m. – 4:00 p.m. (Concurrent Sessions)

211 Sherlock Miller - Exploring the Good and Bad Care, the How's and Why's

Michael Miller DO, FACOS, FAPWH, CEO and Medical Director at Miller Care Group

This session will present highly complex cases that will require the audience to identify the numerous factors interacting to create the case scenario and then synthesize a logical treatment plan. The cases will progress based on the audiences responses allowing them to identify alternative treatments. Other considerations will be reviewed as the case is drawn to its conclusion.

3:00 p.m. – 4:00 p.m. (Concurrent Sessions)

212 It's Just Not Fat: Lymph/Fat Connection

Andrea Brennan OTD, OTR/L, CLT-LANA, CI-CS, WCC, Lymphedema Specialist at Brennan School of Innovative Lymphatic Studies

Obesity-related conditions include heart disease, stroke, type 2 diabetes and CVI. However, there is another condition which does not get much attention, obesity-induced lymphedema. Excessive weight can have a negative impact on the return of lymphatic fluid from the legs; additional fluid volumes associated with obesity may overwhelm an already impaired lymphatic system. Decongestive lymphatic therapy may ameliorate this disorder.

FRIDAY
(main conference)

FRIDAY, SEPT 13TH

Main conference sessions

3:00 p.m. – 5:15 p.m.

213 HANDS-ON WORKSHOP: Ostomy Lab – Basic Ostomy Management for Reluctant Clinicians

Joy Hooper RN, BSN, CWOCN, OMS, WCC, Clinical Instructor at WCEI, a Relias LLC Company

(Limited Seating)

Are you a nurse who is reluctant to work with ostomies? Most clinicians don't enjoy every area of healthcare and ostomy management can be a particularly perplexing area at times. If ostomy management is not your bag – so to speak, this workshop is for you! The discussion will help you understand several common ostomy surgeries and the hands-on session will offer an opportunity to practice using common accessory products.

(Note: Hands-on session will use donated supplies from various vendors. This session repeats on Saturday.)

4:15 p.m. – 5:15 p.m. (Concurrent Sessions)

214 Diabetic Ulcers: Identification and Treatment

Dr. Don Wollheim MD, FAPWCA, WCC, DWC, Clinical Instructor at WCEI, a Relias LLC Company

Chronic foot ulcers in patients with diabetes cause substantial morbidity and may lead to amputation of a lower extremity and mortality. Accurate identification of underlying causes and co-morbidities are essential for planning treatment and approaches for optimal healing. This presentation will provide evidence-based approaches for identification and treatment of chronic neuropathic, neuro-ischemic and ischemic diabetic foot ulcerations.

4:15 p.m. – 5:15 p.m. (Concurrent Sessions)

215 So, You Want to Be the Boss: Starting Your Own Business

Michael Britton RN, NHA, WCC, DWC, Owner and CEO at Consult Us, LLC

Having started a small business 8 years ago, I've learned the ins, outs, ups, and arounds of starting and maintaining a business. In this session, the attendee will learn to determine what their business niche will be, steps to starting the business, choosing an appropriate accountant, pros and cons of working for yourself, understanding who your customers are and understanding the market, obtaining business licenses and permits, and determining your business limitations.

SATURDAY, SEPT 14TH

Main conference sessions

REGISTRATION HOURS
8:00 A.M. – 4:00 P.M.

8:00 a.m. – 9:00 a.m.

300 Diabetic Foot Exam Made Easy

Dr. Don Wollheim MD, FAPWCA, WCC, DWC, Clinical Instructor at WCEI, a Relias LLC Company

Clinical practiced guidelines recommend that all patients with diabetes should be screened annually at a minimum to establish their risk of foot ulceration and amputation. This session will provide step by step instructions and documentation forms for performing a comprehensive diabetic foot screening based upon the American Diabetes Association® Foot Care Task Force guidelines.

8:00 a.m. – 10:15 a.m. (Concurrent Sessions)

301 HANDS-ON WORKSHOP: Ostomy Lab – Basic Ostomy Management for Reluctant Clinicians

Joy Hooper RN, BSN, CWOCN, OMS, WCC, Clinical Instructor at WCEI, a Relias LLC Company

(Limited Seating)

Are you a nurse who is reluctant to work with ostomies? Most clinicians don't enjoy every area of healthcare and ostomy management can be a particularly perplexing area at times. If ostomy management is not your bag – so to speak, this workshop is for you! The discussion will help you understand several common ostomy surgeries and the hands-on session will offer an opportunity to practice using common accessory products. **(Note: Hands-on session will use donated supplies from various vendors. This session is a repeat from Friday.)**

8:00 a.m. – 10:15 a.m. (Concurrent Sessions)

302 HANDS-ON: Stretch Your Mind and Their Skin: The Role of Elastic Taping in Wound Management

Nicolle Samuels MSPT, CLT-LANA, CWS, CKTP, Director of Rehabilitation & Wellness, Hegg Health Center – Avera

This instructional session will introduce the concept of elastic taping as an adjunct modality in the treatment of swelling, mechanical impairments and related conditions that impact wound healing. After review of concepts, attendees will have the opportunity to participate in a hands-on laboratory session focused on elastic taping applications for various swelling and wound related impairment simulations.

8:00 a.m. – 11:30 a.m.

303 HANDS-ON LAB: Sharp Debridement \$150 Lab Fee

Bill Richlen PT, WCC, DWC, Clinical Instructor at WCEI, a Relias LLC Company and Owner at Infinitus, LLC

Theresa Ferrante BS, PTA, CKTP, WCC, Grandview Hospital

Comprehensive presentation of wound bed preparation utilizing conservative sharp debridement. Session will include A&P, implications and contraindications, techniques, tools, documentation, legal issues and policy development. Hands-on lab practicum starts with all debridement instruments and supplies provided and ends with skills performance check off. Participants will receive documentation of competency in performing conservative sharp debridement upon completion of the session. **(This session is a repeat from Wednesday)**

9:15 a.m. – 10:15 a.m.

304 Assessing the Whole Patient – Not Just the Hole in the Patient

Kerry Risco PhD, APRN, WCC, CNE, Assistant Professor at The Pennsylvania State University

This presentation will be a fast-paced review of the head-to-toe assessment of patients with wounds. It will focus on systems that impact wound care. In a systematic fashion, data collection will be discussed. This will include interviewing, observation and physical exam techniques. Relationships of findings to pathophysiologic principles will be reviewed. The session will conclude with a case-study approach.

10:30 a.m. – 11:30 a.m. (Concurrent Sessions)

305 Herding Insipid Cats – Teaching Wound Care to the Modern, Omniscient, Dabbling Physician

Michael Miller DO, FACOS, FAPWH, CEO & Medical Director, Miller Care Group

Recognizing that primary healthcare providers such as physicians write the orders for a given wound care patient, there can be no question that most of the time, the actual decisions emanate from secondary providers such as therapists and nurses. In far too many cases, the orders emanating from these primary healthcare providers are based on antiquated education and anecdotal evidence resulting in increased costs, poorer outcomes, a detrimental effect on staff confidence but most importantly prolongation of ineffectual care. In this program, Dr. Miller will review the spectrum of considerations on how to help your physicians modernize their care.

SATURDAY
(main conference)

SATURDAY, SEPT 14TH

Main conference sessions

WOW SESSIONS

10:30 a.m. – 11:30 a.m. (Concurrent Sessions)

306 Arterial Ulcers Identification and Treatment

Dr. Don Wollheim MD, FAPWCA, WCC, DWC, Clinical Instructor at WCEI, a Relias LLC Company

Peripheral arterial disease is a slow and often deadly disease process that affects an estimated 8 to 12 million Americans. This session will do an overview of the clinical characteristics, causes, assessment techniques and treatment of arterial ulcers.

1:00 p.m. – 2:00 p.m. (Concurrent Sessions)

307 Wound Patrol

Nancy Morgan RN, BSN, MBA, WOC, WCC, DWC, OMS, Co-Founder of WCEI, a Relias LLC Company

Back by popular demand! Official report from our Wound Patrol -crazy treatments, unusual wounds, unbelievable wound healing, law suits waiting to happen and much more. Join us to discuss and share wound and ostomy stories from the front lines.

1:00 p.m. – 2:00 p.m. (Concurrent Sessions)

308 The After Party: Providing Patient Care Post Wound Closure

Heather Collins PT, DPT, CWS, American Medical Technologies

Picture this: you've finally managed to close a chronic full thickness wound after months of treatment. Victory, right? Not so fast, these sites can reopen without the proper plan. This session will cover post closure care planning-prevention, identifying available medical devices and referrals needed for lifestyle modification, improve patient outcomes, and restore our patient's quality of life.

2:15 p.m. – 3:15 p.m. (Concurrent Sessions)

309 Antimicrobials – Are You Getting What You Paid For?

Bill Richlen PT, WCC, DWC, Clinical Instructor at WCEI, a Relias LLC Company and Owner at Infinitus, LLC

An in-depth look at the different antimicrobial agents used in wound treatments and found in wound dressings and cleansers. We will look at the evidence, their effectiveness and limitations, and review how to effectively analyze the products that contain these agents to determine how and when to use them.

2:15 p.m. – 3:15 p.m. (Concurrent Sessions)

310 It's a Bruise. It's a Stage 1. No, It's a Deep Tissue Pressure Injury!

Autumn Henson DNP, APRN, SNP-BC, WCC

This presentation will review deep tissue pressure injuries (DTPIs) and identify the different wound types that are like a DTPI. The presentation will discuss the importance of identifying and addressing DTPIs quickly to prevent further deterioration, the risk factors and options to prevent and manage DTPIs, including education for staff, patients, and loved ones.

3:30 p.m. – 4:30 p.m.

311 Paying it Forward

Nancy Morgan, RN, BSN, MBA, WOC, WCC, DWC, OMS, WCEI® Cofounder and Clinical Consultant

Donna Sardina, RN, MHA, WCC, DWC, OMS, WCEI® Cofounder and Clinical Consultant

As we grow and evolve in our careers, many of us want to find ways to "pay forward" the opportunities we've had and help to build the wound and ostomy community of the future. In this session, we'll explore ways to share our talents, exciting ways to inspire, educate, and heal, and how to make a positive influence in skin and wound management!

CLICK TO VIEW SESSIONS FOR SELECTED DAY

SATURDAY
(main conference)

SATURDAY, SEPT 14TH

WOW welcomes the International Conference On Skin Integrity and Infection Prevention!

This conference will offer participants: the chance to debate key issues surrounding wound infection, an understanding into the use of smart materials for infection prevention and management, an opportunity to link theory to practice when managing hard to heal wounds and an understanding of surgical wound dehiscence.

8:00 a.m. - 9:00 a.m.

Sponsored Symposium

9:00 a.m. - 9:15 a.m.

Break

9:15 a.m. - 9:20 a.m.

Chairs Opening Remarks

Dr. Rachel Webb, Editor Journal of Wound Care

9:20 a.m. - 10:15 a.m.

400 Biofilm Management – Myths and Reality

Dr. Gregory Schultz, PhD

Professor Obstetrics and Gynecology

Director Institute for Wound Research

University of Florida

Wound healing is a complex biological process that progresses through a sequence of phases (hemostasis, inflammation, repair and remodeling) that are regulated primarily by cytokines, growth factors, proteases and extracellular matrix components. Chronic wounds do not progress through these phases, and typically become “stuck” in an inflammatory condition that is characterized by elevated levels of proinflammatory cytokines and proteases, which impair healing by degrading extracellular matrix molecules, growth factors and receptors that are essential for wound cell migration, proliferation and scar formation. Recent evidence suggests that bacterial biofilms contribute to the chronic inflammation in a high percentage of chronic wounds. Bacteria in biofilm structures develop substantial tolerance to most antibiotics and antiseptics, which has led to the concept of biofilm-based wound care, which emphasizes starting with aggressive debridement techniques to remove biofilms combined with dressings that prevent reformation of biofilms. When biofilms and inflammation are adequately reduced, treatments can step-down to less aggressive options that simply maintain low inflammation and

bioburden (planktonic and biofilm bacteria) then step-up to advanced therapies (growth factors, cell and tissue products, skin grafts) that will actively accelerate healing.

By the end of the session participants will be able to:

- Review the four sequential phases of normal wound healing and recognize the beneficial effects of controlled inflammation and protease activities
- Establish the link between chronic inflammation caused by planktonic and biofilm bacteria and elevated proteases and reactive oxygen species that destroy proteins that are essential to healing (extracellular matrix, growth factors, receptors) leading to impaired healing
- Understand how biofilm bacteria develop high tolerance to most antibiotics, antiseptics and disinfectants
- Describe key principles of biofilm-based wound care that emphasize debriding biofilms and preventing reformation of biofilms as part of the step-down-step-up approach for effective therapies to treat biofilms and promote healing.

10:15 a.m. - 10:30 a.m.

Break

10:30 a.m. - 11:30 a.m.

Sponsored Symposium

11:30 a.m. – 1:00 p.m.

SATURDAY
(main conference)

SATURDAY, SEPT 14TH

International Conference on Skin Integrity and Infection Prevention Sessions

Understanding and Using Innovations: Effectively Managing Wounds and Preventing Infection

1:00 p.m. - 2:00 p.m.

401 Hard-to-Heal Wounds Consensus: What This Means in Clinical Practice

*Dr. Leanne Atkin
Vascular Nurse Specialist, Mid Yorks NHS Trust & Lecturer
Practitioner, University of Huddersfield, UK*

Hard to heal wounds are a challenge for the patient, the healthcare professional and healthcare systems. The incidence of hard to heal wounds is rising as the age of the population increases. Many factors influence a wound's ability to heal, however, ensuring the correct treatment at an early stage could prevent several hard to heal wounds. This session will introduce the new international consensus document on hard to heal wounds which aims to address some of the challenges faced when dealing with long term non-healing wounds.

By the end of the session participants will be able to:

- To identify non healing wounds
- Understand the pathophysiology of non healing wounds
- Have greater awareness of the importance of fundamental standard of care
- Be aware of when and how to use advanced and adjunctive therapies
- Understand the importance of managing patient related factors.

2:00 p.m. - 2:15 p.m. **Break**

2:15 p.m. - 3:15 p.m.

402 Smart Materials for Wound Management and Infection Prevention

*Dr. Mitch Sanders
CEO, FireFly Innovations LLC
CSO Alira Health Boston and WoundForce LLC*

In vitro and clinical evidence suggest that bacterial biofilms delay the inflammatory phase of wound healing through the inactivation of important genes, microRNAs, and the hyperactivation of host and bacterial proteases. This imbalance leads to tissue destruction of essential extracellular matrix components, which in turn further delays all phases of the healing continuum. Most antimicrobials including silver are less effective at treating biofilms and there is a critical unmet need to develop new advanced wound dressings that can destabilize the biofilm and restore healthy tissue. Our lab has been developing the next generation of advanced wound dressings using state-of-the-art approaches in 3D printing of biopolymers. Here we demonstrate the benefit of incorporating novel antimicrobials

into 3D printed fibers to enhance effectiveness at treating bacterial biofilms both in vivo and in vitro. The next generation 3D printed wound dressings will prevent wound infections, reduce odor management, and provide better patient outcomes for healing chronic wounds.

By the end of the session participants will:

- Understand the concept of smart materials in wound management and infection prevention
- Be able to describe the potential use of smart materials in managing wounds
- Understand the possibilities of 3D bespoke wound dressings.

3:15 p.m. - 3:30 p.m. **Break**

3:30 p.m. - 4:30 p.m. **Sponsored Symposium**

4:30 p.m. - 5:30 p.m.

403 Surgical Wound Dehiscence - Identification and Management

*Professor Karen Ousey
Professor of Skin Integrity & Director for the Institute of Skin Integrity and Infection Prevention
University of Huddersfield, UK*

Surgical wound dehiscence (SWD) is a significant issue that affects large numbers of patients and is almost certainly under-reported. The impact of SWD can be considerable: increased mortality, delayed hospital discharge, readmission, further surgery, delayed adjuvant treatment, suboptimal aesthetic outcome and impaired psychosocial wellbeing. It is imperative to raise awareness of SWD and improve identification, prevention and management. Prevention of SWD comprises excellence in surgical practice, prevention of surgical site infection, reducing risk of healing impairment and use of strategies such as single-use negative pressure wound therapy in appropriate high-risk patients. Management also involves a holistic approach that includes amelioration of impediments to healing, optimising conditions in the wound bed and using appropriate treatment modalities to ultimately close the wound.

By the end of the session participants will be:

- Aware of SWD
- Able to discuss holistic approaches to the identification, prevention and management of SWD
- Able to discuss SWD at risk tools
- Understand appropriate treatments to manage SWD

REGISTRATION FORMS

Please complete entire registration form. **YOU MAY ALSO REGISTER ONLINE AT WWW.WOUNDSEMINAR.COM.**

Things to do at Paris Hotel

FROM A SCINTILLATING VEGAS NIGHTLIFE EXPERIENCE AND THE CITY'S BEST ATTRACTIONS TO UNFORGETTABLE SIGHTSEEING OPPORTUNITIES, PARIS DRAWS YOU INTO ITS ENCHANTING WORLD OF FUN THINGS TO DO IN VEGAS. EIFFEL TOWER VIEWING DECK: TAKE A RIDE INTO THE SKY AT THIS LAS VEGAS ATTRACTION AT PARIS LAS VEGAS, THE EIFFEL TOWER VIEWING DECK EXPERIENCE.

Nightlife

CHATEAU NIGHTCLUB & ROOFTOP

Party under the tower! Chateau Nightclub & Rooftop at Paris sits right on the Las Vegas Strip. The two-level, 45,000 square-foot destination is popular among celebrities and offers a high-energy atmosphere.

NAPOLEON'S LOUNGE – Located off Paris' promenade

LE CABARET BAR – Le Cabaret is a charming, open, garden-style Las Vegas lounge featuring live music and DJs.

Salon/Spa

VOIE SPA & SALON

Bonjour. Take a sensory journey through France. At Voie Spa & Salon every treatment and product has been inspired by the French landscape. Mix therapies, scents, and tastes and let your mind wander creating your own unique path to wellness.

**CHECK YOUR CONFERENCE
BAG FOR SPECIAL WOW
SPA DISCOUNT PACKAGES.**

Pool

DIP INTO A RELAXING, PARISIAN EXPERIENCE THE RESORT'S TWO-ACRE SOLEIL POOL OFFERS A VIEW OF THE EIFFEL TOWER REPLICA.

Sunbathe or take a dip in the pool's quiet, serene atmosphere. Have a meal at the café or bask in the Las Vegas pool's amenities with a private outdoor cabanas or poolside massage.

Shopping

Bring a piece of Paris home! One final thing you must do before you leave Vegas is explore the shopping available at Paris. Take a piece of France with you: Le Boulevard shops carry unique finds like exquisite accessories, latest fashions, charming trinkets and souvenirs.

TRANSPORTATION

For cost-effective transportation service between McCarran International Airport and your hotel, book with LASxpress – an exclusive service with WOW. With LASxpress, you are eligible \$11 one-way airport transportation service or upgrade to non-stop express service for only \$18 one-way. Other benefits include:

- Significant saving vs. taxi fare
- Immediate boarding
- On-site airport staff

To arrange transportation, go to our secured website at: <http://bit.ly/WOW-Transport> or call (702) 878-4141.

Dining

Nationally recognized for its culinary excellence, the Rio built its reputation on award-winning dining. Their culinary team of over 200 chefs is one of the best in the country. Whether you're in the mood for upscale French cuisine, delicious crepes or savory comfort food with creative burger concepts, dining at any of the Paris Las Vegas restaurants will tantalize your taste buds. Paris Las Vegas radiates the spirit of France by featuring the country's most popular dishes.

GORDON RAMSAY STEAK - World Famous TV personality and accomplished chef Gordon Ramsay serves his famous dishes in an exceptional fine dining atmosphere.

BURGER BRASSERIE - Enjoy a true gourmet burger at Burger Brasserie, a lively Las Vegas restaurant offering a French interpretation of the meat-and-potatoes sports bar at Paris Las Vegas.

EIFFEL TOWER RESTAURANT - Acclaimed French cuisine by Chef J. Joho is served in a fine dining room with stunning views inside the Eiffel Tower at this Paris Las Vegas restaurant.

MONORAIL

The newly redesigned and expanded Monorail system is a state-of-the-art single rail train that runs parallel to and links properties on the East side of the famous Las Vegas Strip. Monorail stops: MGM, Bally's, Flamingo, Convention Center, Hilton, Harrah's / The LINQ Hotel.

WWW.LVMONORAIL.COM/
