

# CARDIO RENAL

## CONNECTIONS

Virtual Conference

January 28-30, 2021

*Cardio Renal Connections (CRC) is a unique conference bringing together clinicians and scientists to explore the complex relationships between the cardiovascular, kidney and metabolic systems. The goal of this program is to help foster education, research and discussion about the intersection of these pathophysiological systems.*

### HIGH IMPACT TOPICS

- ☐ Acute kidney injury and cardiovascular procedures
- ☐ Vascular and valvular calcium in renal disease
- ☐ Endovascular treatment options for vascular calcium
- ☐ Peripheral arterial disease in CKD patients
- ☐ Renal considerations in TAVR
- ☐ Antiplatelet therapy in CKD patients
- ☐ Device therapy for hypertension
- ☐ Renal considerations in LVAD and transplant
- ☐ Updates on lipid management
- ☐ Diabetes management for cardiologists
- ☐ Cutting edge updates on heart failure management
- ☐ The role of diet in renal and CVD
- ☐ COVID-19 and heart and kidney disease

January  
28-30<sup>th</sup>  
2021

Physicians	\$150
