

SCHOOL OF NURSING

OAKLAND UNIVERSITY

Are you a critical care nurse who has cared for **COVID-19 patients that were **weaned** off of **mechanical ventilation**?**

Research Study Overview

The purpose of this research study is to describe the experience of critical care nurses weaning COVID-19 patients off of mechanical ventilation and explore their role in the weaning process.

Recruiting individuals who are...

- Critical care nurses
- Providing nursing care to COVID-19 patients being weaned off mechanical ventilation

Your time

A one-time 60-minute virtual interview with the researcher via Zoom.

Compensation

Participants will receive a \$25 Amazon gift card upon completion of the interview.

Interested?

If you have any questions concerning the research study or interested in participating in the study, please contact Nichole Patero, an undergraduate nursing student, at patero@oakland.edu or **248-840-9291** or Ellen Gajewski, Assistant Professor in the School of Nursing at Oakland University, the faculty advisor for this project at emgajews@oakland.edu or **586-876-505**
