

CT Developmental Disabilities Nurses Association Upcoming Virtual Educational Opportunities

Seizure Disorder in Adults/IDD Populations

Presented by Jennifer Wilbanks, PharmD

Aug. 17th, 2022

2 - 4pm

Join us virtually as we explore the delivery of epilepsy care to adults with intellectual and developmental disabilities (IDD). The session will cover epilepsy and seizure disorders, delivery of care to persons living with IDD and epilepsy and management and treatment options, including Aptiom®.

Serious Mental Illness in IDD Populations

Presented by Aaron Feyos MHA, PhD

Aug. 24th, 2022

2 - 4pm

Join us virtually as we explore topics on the treatment of BiPolar Depression in adults with IDD. The session will cover the burden of illness, treatment challenges, the importance of screening programs, cardiometabolic considerations, recent updates to evidence-based medicine and treatment options, including Latuda®.

Seizure Rescue Medication in IDD Populations

Presented by Nanette Wrobel, RPH

Sept. 13th, 2022

2 - 3pm

Join us virtually as we explore the use of seizure rescue medication in adults with epilepsy and IDD. The session will explore the use of Nayzilam®.

Please register separately for each session
