

**The 2022 Diabetes Update:
Care for the Next 100 Years**
Save the Date!

Monday, November 7, 2022

Registration: 7:30 – 8:00 am

Conference: 8:00 am – 4:45 pm

Auditoria E and F, Dartmouth Hitchcock Medical Center, Lebanon, NH

OVERVIEW

2022 marks the 100th anniversary of the discovery of insulin. A lot has happened to improve the care of people living with diabetes in the past century. Developments in diabetes medications and technology continue at a boundless pace as we look forward to the hope for a cure. We'll present what's new and also emphasize the essential tenets of diabetes care: healthy diet, regular exercise, and motivation to sustain good glycemic control every day. Together we'll strive to make sure that each of our patients becomes the world's leading expert in personal diabetes care.

LEARNING OUTCOME

At the conclusion of this learning activity, (at least 75% of) participants will be able to describe at least three evidence-based changes to be utilized when caring for a patient with diabetes.

REGISTRATION

The registration will open soon! If you have any questions regarding this learning activity, please contact amanda.e.sanchez@hitchcock.org for assistance.
