2015, a new year to embrace the amazing roles we have to promote the health of our school aged children!

Also, time for a new issue of the MASN newsletter full of great information on how you can connect with other school nurses from across our Great Lake state!

Rachel VanDenBrink
MASN Newsletter Editor

President’s Report:

MASN Mission Statement
To provide leadership, education and support for School Nurse Practice. To promote and advocate for a safe and healthy school environment where all students can be optimal learners.

MASN Vision Statement
Every child will have a school nurse available daily, who is the expert in the provision of School Nursing Services.
The school year seems to be flying by and we are eagerly welcoming spring! We faced many new challenges as we began the school year and it is my hope that the work of both your MASN board and our national organization has made it easier to meet these challenges.

The Strategic Plan for MASN drives the work that the board undertakes. There are 3 goals that have been identified and you see these goals being addressed in all that we do. Our Fall and Annual Spring Conferences are the strategies for meeting:

**Goal 1: PROMOTE THE professional development OF SCHOOL NURSING PRACTICE.**

We are currently working hard to bring you another exciting conference opportunity on May 7 and 8 at the Kellogg Center in East Lansing. We hope to see you all there and are once again providing a good amount of continuing education specific to your School Nurse Practice.

In addition to MASN board representatives participating in statewide committee work, the MASN conferences function as strategy for meeting the other goals listed in the MASN Strategic Plan.

**Goal 2: PROMOTE THE HEALTH AND SAFE CARE OF CHILDREN AND YOUTH**

The speakers secured for the spring conference will provide updated education on topics like Anaphylaxis, Suicide and Self Harm, Human Trafficking and Sudden Cardiac Arrest in Youth. These topics have taken center stage over the past year. The MASN board has been working to respond to these center stage issues. The MASN Epinephrine Training Toolkit is a complete training toolkit to help Registered Nurses to train school staff members to identify and treat an undiagnosed life-threatening allergy. A Survey was conducted for the purpose of quality improvement. A workgroup will now be charged with meeting the needs identified in the survey and also aligning the toolkit with the new Anaphylaxis guidelines recently released by NASN. If you have not seen this new resource you should make a point of it.

Our website is a great source of information, opportunity and resources. The web resources made available to you on the MASN website, as well as the NASN website are just what you need to keep your school nursing practice current. The School Nurse Net opportunities easily connect us to other School Nurses who are facing similar challenges nationwide!

**Goal 3: PROMOTE THE STANDARD OF SCHOOL NURSING PRACTICE TO DELIVER QUALITY SCHOOL NURSING SERVICES TO MICHIGAN CHILDREN AND YOUTH.**

As you all know, from your own School Nurse Practice, you are the leader for Health in your school setting. We are so fortunate to have state and national leaders share their leadership expertise at this year’s spring conference. The work of the School Nurse Task Force and that of your board continues to focus on developing an evidence based standard of practice for Michigan School Nurses.

I have the honor of representing MASN at a number of organizational tables statewide. I continue to hear a common sentiment; that School Nurses are essential for our students to remain healthy, in school and ready to learn. There are many ways you can contribute to helping achieve the goals of our strategic plan. Consider joining in when you are approached by your Region Leader or a committee member. Any talent or passion you might have, can and will be put to good use! Get involved to help make our vision a reality and bring out the Leader in you. It is, after all our time!

Kind Regards,

Evilia
Membership Report

We currently are 174 members strong, with 21 new members since May 2014!

One of NASN’s strategic objectives is to increase the recruitment and retention of NASN/MASN members. A robust membership is needed to allow School Nursing to advocate for our state’s legacy; our children!

Unfortunately, with the state dollar reductions to schools many nurses have lost their position and/or been replaced with non-licensed personnel!

If you know a school nurse who is not a member please encourage them to join. Members receive VSP Sight for Students gift certificates, free or low cost CNE contact hours and “evidence based” resources to keep your practice up to date!

Have you visited the MASN Website recently?

In order to receive communication, members need to create a profile which takes less than 5 minutes. Create your profile now at www.michiganschoolnurses.org

We are consistently updating it with important information you don’t want to miss!

Click this link for more info: http://schoolnursesnet.nasn.org/nasn2015/home

Hope to see you there!
**NASN Delegate: Strength in Numbers!**

It is my honor to serve as your NASN Director. I am currently assigned to 5 different NASN committees: Governance, By-laws, the Mental Health Advisory Board, Nominations and the School Nurse Practice Advisory Committee.

**Membership growth:** NASN continues to promote its’ “Strength in Numbers” campaign. This is a word of mouth marketing campaign to promote the growth of membership for NASN. For referring a new colleague (or a colleague that is reinstating a lapsed membership) the member that refers a new or lapsed member will receive a $10 ecredit. Go to http://schoolnursenet.nasn.org/nasn/membercenter/strengthinnumbers to receive more information as to how you can participate in this program.

**Membership retention:** NASN is also promoting a membership retention initiative. I have been asked to make monthly retention calls to members who are due to renew and are at risk of their membership lapsing. If you get a phone call or email from me, it’s just a friendly reminder to say hello, to update your member contact information, and to remind you to renew your membership.

**Legislative Priorities** – NASN is advancing legislative priorities by promoting issues that improve the health and education outcomes of children guided by NASN’s mission statement. I had the pleasure of meeting with Senator Debbie Stabenow and the legislative aides from Senator Gary Peters and Representative Mike Bishops’ office to discuss NASN’s key 2015 legislative priorities on “Hill Day.” NASN 2015 legislative priorities include:

1. **Student to School Nurse Ratio Bill**
2. **Inclusion of Specialized Instructional Support Personnel (SISP) language in the Elementary and Secondary Education Act (ESEA)**
3. **Reauthorization of the Children's Health Insurance Program (CHIP)**

**Position Papers** – NASN continues to work on updating several of their position papers. The following documents were recently updated:

- The Complementary Roles of the School Nurse and School Based Health Centers
- School Nurse Workload: Determining Staffing for Safe Care
- The Patient Protection and Affordable Care Act; the Role of the School Nurse
- Unlicensed Assistive Personnel: Their role on the School Health Services Team
- Individualized Healthcare Plans: The Role of the School Nurse

**AmazonSmile** -- NASN is an approved charitable organization in the AmazonSmile program. If you shop on Amazon, you can have a portion of qualifying purchases donated to NASN. Go to https://smile.amazon.com/ch/52-0886492 to sign up!

Respectfully Submitted,
Julia Lechtenberg
NASN Director
Running along the beautiful Grand River Trail (starting at Kellogg Center) to raise awareness for Student Safety in Schools across our State!

Barb Flis, Founder of Parent Action for Healthy Kids, insists that every parent has the power to make a difference. Barb is a parent guru, a published expert in advocating for children’s health, and most importantly, a mother of two daughters. Her focus lies in connecting families, schools and communities on children’s social, emotional and physical health. Areas of work include asthma, diabetes, sex education, mental health, school wellness programs, physical activity and nutrition. She designs and implements training and workshops for parents, teachers, school administrators, public health professionals and community-based organizations. Barb is a motivational speaker whose passion makes her a sought after presenter throughout her home state of Michigan and across the United States.

Carla Wardin and her husband Kris are the owners of Evergreen Dairy. She is the sixth generation to be farming on her family's farm in St Johns. Carla and Kris milk 400 cows and grow crops to feed their cattle on 850 acres of corn, alfalfa, and pasture. Carla blogs about the farm at Truth or Dairy, goes into the schools to teach about farming, and enjoys giving tours. Before returning to the farm, Carla got her MA from Michigan State University in English literature, taught at Bradley University and Northern Illinois University, and worked in marketing for Caterpillar and TechSmith Corporation. She’s the author of two books. The couple has three sons - 7-year-old twins (Cole, Ty) and a 4-year-old (Max).

State Representative Tom Leonard was first elected to serve the 93rd District in the Michigan House of Representatives in November 2012. The 93rd District encompasses Clinton County and portions of Gratiot County including the city of Ithaca and the townships of Sumner, Arcada, New Haven, North Shade, Newark, Fulton, Washington, North Star, Elba, Hamilton, Lafayette and Wheeler. He was re-elected to a second term in November 2014.
Michigan Association of School Nurses
