

April 1-2, 2023

The Hershey Lodge
325 University Drive
Hershey, PA 17033

A photograph of a paved road with yellow double lines, curving through a dense forest of tall evergreen trees. The road is bordered by a metal guardrail on the left and a rocky cliff on the right. The scene is set in a mountainous area with more trees visible in the background.

**PASNAP 2023:
Moving Forward**

Meet the Speakers

Keynote Speaker

Kate King, DNP, M.S., RN, LSN
President-Elect, NASN

Kate King has practiced School Nursing for 21 years. She received a Doctor of Nursing Practice from Otterbein University in 2019 and is currently working as a school nurse at World Language Middle School for Columbus City Schools. Dr. King is a strong advocate for supporting School Health Services through practice and legislation, creating Voice in School Nurses, and promoting and providing healthcare to children. Dr. King has clinical experience in Adolescent and Community Mental Health. Her professional interests focus on increasing self-efficacy in School Nurses and Mental Health for school- aged children. She currently serves as the President elect of the National Association of School Nurses, is the immediate Past President of the Ohio School Health Services Association, a founder of the Big 8+ Health and Safety Coalition and is a past Director for NASN and OASN.

Robert P. Olympia, MD

Professor, Penn State College of Medicine

Dr. Robert Olympia M.D. is a pediatric emergency medicine physician with over 20 years of experience, currently working in an emergency department in the Sweetest Place on Earth (Hershey, PA). He is a Professor in the Departments of Emergency Medicine and Pediatrics at the Penn State College of Medicine. His research interests include emergency and disaster preparedness for children in the setting of schools and school-based athletics, as well as in sport-related illness and injuries. He has presented his research both regionally and nationally and has lectured on a variety of topics pertaining to pediatric emergency medicine, such as fever and infectious diseases, trauma, sports-related injuries, and disaster preparedness.

Erin D. Maughan PhD, RN, PHNA-BC, FNASN, FAAN

Associate Professor, George Mason University School of
Nursing

Erin D. Maughan PhD, RN, PHNA-BC, FNASN, FAAN is an associate professor in the School of Nursing at George Mason University. She has over 22 years of experience working in school health as a frontline school nurse, the state school and adolescent school nurse consultant for the Utah Department of Health, and as a school nurse researcher. As the former Director of Research at the National Association of School Nurses she co-led the development of a national uniform data set for school nurses, identification of school nurse indicators, and the creation of NASN's Framework for 21st Century School Nursing Practice TM. She also is the CEO of Center for School Health Innovation & Quality. Throughout her career, Dr Maughan has studied and provided consultation on issues related to school-age children and school nurse staffing. Dr Maughan is a Fellow in the National Academy of School Nurses and American Academy of Nursing. Dr. Maughan is certified as an advanced public health nurse; was a Johnson and Johnson School Health Fellow and is a Robert Wood Johnson Foundation Executive Nurse Fellow alumni (2013 cohort). Her career is dedicated to children's health, especially those living in vulnerable situations.

Maureen J. Callas M. Ed., BSN, RN, NCSN

Pennsylvania State liaison, NBCSN
PASNAP, Board of Directors

Maureen J. Callas M. Ed., BSN, RN, NCSN is on a mission to inspire and educate school nurses to embrace the challenges of the day while bringing their best to the school communities they serve. Maureen is a proud graduate of the University of Pittsburgh '89 BSN (Hail to Pitt) and obtained her master's in education with a specialty in School Nursing from Cambridge College '14. She has been a practicing Certified School Nurse in the Pittsburgh, PA area for the past 13 years with an additional 10 years as a school district RN. She currently serves on the PASNAP Board as the Secretary and Pulse Editor; she is the PA State liaison for the NBCSN and is the SW Region CSN Representative for PSEA. Maureen is an active student in Mindfulness, Emotional Intelligence, Motivational Speaking and has recently taken up an interest in Manifesting. She volunteers as a Life Coach and is a graduate of the Facilitator In Transformation Program where she presented her capstone project "Choose Joy: Awaken Your Passion and Purpose" and went on to present at Virtual NASN 2021 presenting "Cultural Inclusivity: Creating Health Office Impact within the District Approach". Maureen's presentation style is experiential, interactive and joyful!

Jacquelyn M. Buige Raco
MSN, M.Ed. CSN, CSSHS, RN

PASNAP, Board of Directors

Jacquelyn has been as registered nurse for 30 years and a CSN for 17 years. She has experience as a pediatric bone marrow transplant nurse, certified school nurse, district nurse coordinator, university lecturer, and university school health education program director. She has been honored as PASNAP's 2010 SE Region School Nurse of the Year, PASNAP's 2021 SE Region School Nurse Administrator of the Year, PASNAP Conference 2022 Keynote Speaker, and NASN's 2022 Pennsylvania's School Nurse Administrator of the Year.

As former director of School Health Programs at Eastern University in PASNAP's SE region, she now has returned to Pittsburgh and her school nursing roots as a long-term substitute CSN for the Mt. Lebanon School district for the 2022-2023 school year. She also co-serves as PASNAP's SW region rep. Her passion of nursing and education fuels her to establish improved statewide school nurse education programming and professional development opportunities.

Julie Cousler Emig, MSW, LSW

Executive Director, Pennsylvania School-Based Health Alliance

Julie Cousler Emig is the Executive Director of Education Plus Health and also the Pennsylvania School-Based Health Alliance. Both non-profit organizations are working to advance health equity in Pennsylvania.

Ms. Cousler has spent her professional career working in Philadelphia to improve the health and social outcomes for the city's most vulnerable citizens. As the Executive Director of Education Plus Health, she is working to bring the non-profit's successful school-based health center model to scale, with sustainable revenue models for growth and expansion. She grew the organization from one school-based health center in 2013 to more than a dozen in 2022. She has led Pennsylvania's collaborative vision for the growth of school-based health centers across the state establishing Education Plus Health as the Pennsylvania Affiliate to the national School-Based Health Alliance. In 2020 she took the necessary steps to found and incorporate a new non-profit organization to serve independently as the Pennsylvania School-Based Health Alliance.

Sandra J. Delack, M Ed, BSN, RN, NCSN, FNASN

NASN, Former President

Sandi graduated with a BSN in Nursing from the University of RI. She began her nursing career at the Miriam Hospital in Providence, where she worked as a post-surgical nurse and nursing supervisor. In 1992, Sandi earned a Masters in Health Education and became a certified school nurse-teacher. She has 31 years of experience in that role and served as District Coordinator for a suburban school district, overseeing the school health services program. In 2009, Sandi was elected President of the National Association of School Nurses (NASN), and in 2015 she served as President of the National Certification Board for School Nurses (NBCSN). Sandi has received numerous awards as RI School Nurse of the Year and RI Monthly's Nurse of the Year in a non-traditional setting. She also was employed for several years as an adjunct faculty member at Providence College. Currently, Sandi works as an independent school health consultant and educator, delivering national presentations to school nurses, education students, and other professional groups. During the Covid-19 pandemic, Sandi jumped into the public health arena as a clinical nurse investigator with the RI Department of Health. She has held numerous leadership positions at the state and national level and currently serves as vice-president of the Accreditation Board for Specialty Nursing Certification (ABSNC). Sandi is a passionate advocate for children's health and the important role nurses can play through public health interventions.

Christian Boyer

Manager,
Tick Surveillance and Testing Program
Pennsylvania Department of
Environmental Protection

Christian Boyer is the manager for the Tick Surveillance and Testing Program within the Pennsylvania Department of Environmental Protection. He develops statewide tick surveillance strategies and guidance to be conducted by PADEP and by county vector control staffs across the state. Previously, he worked in mosquito surveillance and control for 13 years for PA DEP and for another four years at a county level mosquito control program.

Boyer currently is President Elect of the Pennsylvania Vector Control Association and is the Pennsylvania State Director on the Mid-Atlantic Mosquito Control Association Board of Directors. He received a BS degree in Biology from Messiah College in 2002. He and his wife live in Selinsgrove with their three 12 year old daughters.

Brian Parker

Director of Education, Taylor Hooten Foundation

Brian Parker is a member of the most sought-after Foundation in North America on the subject of Appearance and Performance Enhancing Substances, the Taylor Hooten Foundation. Brian serves as the Director of Education for the Foundation which was founded in 2004, the year following the loss of the Hooten Family's youngest son Taylor. After studying at Elon University and working in baseball, Brian has spent the past 11 years with the organization speaking directly to thousands of people raising awareness about the widespread use of these substances. This program provides a pragmatic view of these substances – What are they? Who is using? Where are they coming from? What are the social issues and pressures driving their usage? How do we navigate dietary supplements? What are the dangers? The program will provide factual information about the world of Appearance and Performance Enhancing Substances so that together we can provide a crucial conversation to our students about properly achieving their goals while living and competing the right way.

Richard A. Goldberg DO, FAOCRM-D, FAAPMR

Physical Medicine and Rehabilitation Shriners Children's Hospital Philadelphia

Richard Goldberg, D.O., is a doctor of physical medicine and rehabilitation (PM&R) at Shriners Children's Philadelphia and New England in Springfield, Massachusetts. He has more than 30 years of experience caring for patients with many conditions. He attended medical school at the Philadelphia College of Osteopathic Medicine and held his residency at the Robert Wood Johnson Rehabilitation Institute in Edison, New Jersey. He has served in a few different leadership roles with the American Osteopathic College of Physical Medicine and Rehabilitation, most notably being past president after serving two times.

Since he was young, Dr. Goldberg wanted to go into rehabilitation medicine because of gripping experiences in childhood. When he was 14, his brother passed away from osteogenic sarcoma, a pediatric bone cancer that used to have a very high fatality rate. During this time, Goldberg was introduced to many aspects of pediatric care that he now provides today. From seeing the rehabilitation his brother had, to the care his brother received for a prosthetic limb, Dr. Goldberg started on his path to loving pediatric orthopedic care.

During medical school as he completed his degrees, he needed to find which aspect of care he'd focus on, especially considering Goldberg's hand condition. According to Dr. Goldberg's anecdotal observations, most physiatrists have some rehabilitation-related condition themselves, which influences them to go into rehabilitation. For Goldberg, it's a nerve palsy in his right hand, which makes it difficult to manipulate surgical instruments well, making his choice of rehabilitation medicine even easier.

"This is always where I wanted to end up – devoting my time to children," said Goldberg, speaking about his career in orthopedics and why he joined the team at Shriners Children's. "The mission statement is outstanding, and everyone knows that I agree with it."

His other career highlights include working as the sports physician for Hatboro-Horsham High School, Upper Moreland High School, and Wissahickon High School for approximately 30 years, all of which are in the suburbs of Philadelphia, in southeastern Pennsylvania. As part of the position, he would attend the school sporting events with his family on the weekends, roaming the sidelines and making sure the players stayed safe.

He also ran the infirmary at Camp Nock-A-Mixon in Bucks County, Pennsylvania, for around eight years. He provided orthopedic care to the campers throughout that time, but he noted that there was always something else going on, too. One year there was a swine flu outbreak, and then another, there was a lice infestation. "There was always something going on, so it stayed interesting," said Goldberg.

Morgan Plant

Lobbyist, PASNAP Morgan Plant & Associates

Morgan Plant has been a registered lobbyist in the Commonwealth of Pennsylvania since 1981. Prior to that time she worked in Washington D.C. in a variety of positions that afforded her the opportunity to become familiar with the workings of the Federal government and the U.S. Congress. In 1989 she founded her own firm, Morgan Plant & Associates, and has been advocating and lobbying successfully for her clients, most of whom are health and human service organizations or associations, ever since.

Colleen Schultz, M.Ed, RN, BSN

Director, Division of School Health
Pennsylvania Department of Health

. Colleen Schultz, M.Ed., RN CSN is the Director of the Division of School Health for the Pennsylvania Department of Health with a decade of experience in school nursing focusing on the K-5 population. Colleen is a Certified School Nurse and has a Masters in Health Education from Penn State. As Director, she plans, directs, and implements statewide consultation and reimbursement programs for health services performed in schools. Colleen develops program policy and goals, serves as a liaison with school districts, private organizations and external stakeholder groups. She collaborates with the Department of Education regarding standards for school personnel and recommends student health assessment policies to the Advisory Health Board. Within her first months of the position, Colleen was forced to confront a worldwide pandemic and the impact on schools and school nurses. Over the past year, Colleen has been an advocate at the state level for the school nurse role in health and safety planning in school reopening and mitigation efforts. She has presented to both small and large groups on a variety of health topics including hand washing/infection control, nutrition, and dental hygiene.
