Disaster Health Services Volunteers Needed

Are you passionate about helping those in need? Join other compassionate professionals who volunteer their considerable skills and training to the Red Cross. You can help create conditions where people, families and communities can rebuild after devastating events.

Our Disaster Health Services (DHS) volunteers help address the unmet disaster related health needs of impacted individuals and families. They provide direct care within an RN-led model, conduct health assessments, and assist with replacement of medical supplies. DHS volunteers also support individuals with disabilities, functional and access needs.

To qualify as a DHS volunteer, you must be a current, active, and unencumbered licensure or certification for the following healthcare professionals:

- Registered Nurse or Licensed Practical Nurse/Licensed Vocational Nurse
- Nurse Practitioner/ Advanced PRN
- Certified Nursing Assistant or Physician Assistant
- Medical Doctor or Doctor of Osteopathy
- Emergency Medical Technician or Paramedic

Interested in the American Red Cross? Use Camera or QR code App to scan code to apply. Or call our chapter office on St. Croix Office at (340) 778-5104, or St. Thomas Office at (340) 774-0375.
