

Sunshine Speaker Series!

Join the ANA-Vermont throughout the summer in celebrating the work and achievements of nurses!

Friday, April 14th, 12:00pm to 1:00pm EST via Teams

Melinda Pariser-Schmidt, BSN, RNC-NIC, IBCLC
The University of Vermont Medical Center

Specialty Sleeper Impacts on Neonatal Intensive Care Unit Admission for Neonatal Abstinence- Length of Stay and Eat, Sleep, Console Sleep Scores

- A nursing-led quality improvement project which sought to evaluate incorporation of novel, innovative technology into the non-pharmacologic treatment of infants with NAS in the UVMMC NICU. A pre/post retrospective analysis assessing average length of stay and “YES” scores for poor sleep for term infants admitted to UVMMC NICU for scheduled pharmacologic treatment of NAS. Quantitative analysis of LOS and YES scores as well as qualitative survey data of nursing perceptions of support and time-saved using specialty sleeper for eligible infants.

Upcoming Sunshine Speakers!

- **Cynthia Peterson, MSN, RN, NE-BC**, The University of Vermont Medical Center
- **Amy Martone, MBA, BSN, NPD-BC**, Yale School of Nursing
