Conference Outcomes

The Learner will be able to...

- ◆ Understand variations of care for the ambulatory total joint patient vs inpatient total joint patient.
- ◆ List the special perioperative considerations in caring patients with sickle cell anemia.
- ◆ Discuss considerations for safely managing an active shooter in the perianesthesia environment.
- ◆ Understand how the NC Board of Nursing is collaborating with other Healthcare organizations to address the Nursing shortage.
- ◆ Identify patients who are at risk for postoperative cognitive dysfunction.
- ◆ Understand how to utilize aromatherapy for PONV safely.
- ◆ Discuss the implications and care of the patient who is experiencing neuromuscular blockade in the perianesthesia setting.
- ◆ Discuss the perioperative challenges in caring for a patient with chronic suboxone and/or methadone therapy.
- ◆ Understand the process for evaluating the pre-existing nutrition status in order to optimize the patient for surgical readiness and recovery.
- ◆ Discuss the latest perioperative management of the pediatric battery button ingestion.

This activity has been submitted to the North Carolina Nurses Association for approval to award contact hours. North Carolina Nurses Association is accredited as an approver of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.

Target Audience: RNs, Nursing Students, Surgical Technologists, and Anesthesia Techs
