OVERVIEW

Hands-on workshop on Friday, August 25, 2023

This interactive workshop provides participants with a practical and immersive learning experience in various advanced GI procedures. Participants will experience hands-on learning at ten interactive stations, including but not limited to endoscopic mucosal resection, Barrett’s ablation, clipping and hemostasis, EUS, biliary stenting, esophageal manometry, TIF, ESD, and POEM. These active learning stations allow participants to develop practical skills and knowledge in a controlled environment under expert guidance. By participating in this workshop, attendees will have the opportunity to stay up-to-date with the latest advanced GI procedures and enhance their skills in upper and lower GI endoscopy, advanced endoscopic therapy, and more.

Live Endoscopy course on Saturday, August 26, 2023

This course provides innovative updates in diagnostic and therapeutic endoscopy for healthcare professionals in the Greater Midwest Region. Distinguished faculty will present cutting-edge topics in Gastroenterology and Hepatology, equipping attendees with the latest skills and knowledge that can be applied in clinical practice. Basic and advanced techniques in therapeutic endoscopy will be covered through a series of engaging didactic lectures, video forums, and live endoscopy cases presented by expert practitioners. By attending this course, participants will stay current with the latest advances and techniques in the field, expanding their knowledge and enhancing patient care.

TARGET AUDIENCE

This course is designed for gastroenterologists, gastroenterology fellows, gastroenterology nurses, GI nurse practitioners and health technicians.

OBJECTIVES

At the completion of this course, participants should be able to:

- Apply new treatment options in patients with Irritable Bowel Syndrome
- Recognize and achieve the metrics for high-quality colonoscopy
- Discuss new treatment options in Inflammatory Bowel Disease
- Use manometry and endoluminal functional lumen imaging probes for the diagnosis and management of esophageal motility disorders
- Recognize the advancements in screening and surveillance of Barrett’s esophagus

- Implement the different therapeutic options for gastroparesis
- Practice therapeutic options for Non-Alcoholic Fatty Liver Disease
- Understand the different aspects of liver transplant evaluation
- Describe the endoscopic options for PSC and post-transplant biliary complications
- Practice latest techniques for hemostasis in GI Bleeding
- Implement optimal treatment modalities for pancreatic fluid collections
- Recognize the current and future impact of Artificial Intelligence in GI

# Kansas City Live Endoscopy Course & Update in Gastroenterology and Hepatology 2023

Kansas City sits on Missouri's western edge, straddling the border with Kansas. It's known for its barbecue, jazz heritage and fountains. Downtown, the American Jazz Museum shares a building with the Negro Leagues Baseball Museum in the historic 18th & Vine Jazz District. The Nelson-Atkins Museum of Art, with giant shuttlecocks out front, houses nearly 40,000 works of art, from ancient to contemporary collections.

The National World War I Museum sits under the Egyptian Revival Liberty Memorial Tower, an icon along with the 1914 Union Station down the street. There's nightlife in Westport, the Crossroads Arts District, the Power & Light District downtown and upscale shopping at the Spanish-style Country Club Plaza. The strikingly modern Kauffman Center hosts performing arts.
