

**NATIONAL ASSOCIATION OF NIGERIAN
NURSES IN NORTH AMERICA
(NANNNA)**

13TH

**ANNUAL SCIENTIFIC
CONFERENCE**

FLORIDA 2023

📍 5780 MAJOR BOULEVARD PARKING, ORLANDO, FL 32819

NOVEMBER 2-5, 2023

NANNNA

PROGRAM OVERVIEW / AGENDA

Increasing access to health in some of the hardest-to-reach corners of the world requires partnership/collaboration. This conference will unite health professionals worldwide in a collaborative learning environment to focus on building partnerships and investing in innovative approaches to improving health at the grassroots level. This “Think globally, implement locally approach” underscores this year's theme **Global Health Priorities: Clinical Excellence in Nursing Workforce**. According to CDC, disease knows no borders. In today's interconnected world, diseases can spread from an isolated, rural village to any major city in as little as 36 hours. No country in the world can protect its borders and the health of its citizens without addressing diseases elsewhere in the world. The conference is designed to bring new ideas, challenge perspectives, and facilitate the growth of nurses and other healthcare practitioners by providing new ways to catalyze change in advancing healthcare locally, nationally, and globally.

Speakers will be policymakers and global health experts who will showcase best practices and scientific evidence-based systems for sustainable global health initiatives. Participants will reflect and discuss the strategies to strengthen the health systems for emerging issues in healthcare.

CONFERENCE SUB-THEMES:

1. LEADERSHIP / COLLABORATION

- a. Health care resources (Private/Public)
- b. Infection Prevention / Control
- c. Nursing leadership

2. POPULATION HEALTH / ECONOMIC IMPACT

- a. Chronic Diseases
- b. Global Community health initiatives
- c. Health Disparities
- d. Mental Health Issues (Violence and Suicide)

3. ADVANCE PRACTICE NURSING

- a. Pharmacology
- b. Best Practices
- c. Collaboration

4. EDUCATION / TECHNOLOGY AND INNOVATIONS

- a. Telehealth
- b. Vaccine Innovation.
- c. Nursing Education

Target Audience

Administrators, Advance Practice Registered Nurses, Clinical Nurse Leaders, Educators, LVN/LPNs, Pharmacists, Physicians, Registered Nurses, and other healthcare professionals interested in **Global Health Priorities**.

PROGRAM OBJECTIVES

At the completion of this program, the participant will be able to:

- Describe activities and plans related to global nursing initiatives post-covid-19.

- Discuss the effect of chronic conditions on global health and the economy.
- Discuss educational strategies for preparing nurses for the future.
- Discuss the implementation strategies and identify challenges of strengthening healthcare systems for global initiatives.
- Identify opportunities for advancing nursing care across the lifespan.
- Evaluate strategies to promote the nursing care needs of families in a diverse population.
- Formulate strategies to respond to the Academy of Medicine (formerly IOM Report).

Continuing Education Units will be provided by Aaxess Consult Inc.

Aaxess Consult Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's (ANCC) Commission on Accreditation.

Participants in activities are advised that accreditation status does not imply endorsement by the provider or ANCC of any commercial products displayed.
