Handouts for speakers sharing their presentations are below. They are available in two formats: 4 slides/page or 6 slides/page to allow for easier viewing or paper-saving...whatever your preference may be. Additional handouts MAY be added right up to the day of the conference, so please check back again.

Note: Not all speakers share their presentations and/or handouts. Also, some presentations utilize dark backgrounds which may use up lots of ink if printing them out. If printing them out you may want to utilize the gray-scale mode.
