

Considerations in Cannabis Nursing

A virtual CE offering provided by ANA-Vermont in partnership with the NEMSD*

Tuesday, November 28, 2023
at 7:00 pm EST via Teams

Participants will learn about Cannabis Nursing as a specialty practice, consider how cannabis is an alternative medicine option, understand practice considerations when caring for patients that use cannabis, and receive additional resources that are available.

Fee: \$10

Jessilyn Dolan, RN, CMT, CLD is a cannabis nurse, researcher, educator, cultivator, and advocate with a passion for cannabis as an alternative medicine option. She is certified as a Ganjier and is an active consultant for retail, regulatory, and academic industries. In addition to consulting, Jessilyn is dynamic speaker and has presented her work around cannabis nursing internationally, most recently at Cann Tel Aviv. Jessilyn founded the Vermont Cannabis Association and currently operates the Cannabis Nurse Hotline that offers clinicians, consumers, and patients free consultations about the use of cannabis.
