“Making Surgery Safer: The Dangers of Surgical Smoke”

“The Journey to Advocacy and Legislation”

Vangie Dennis, MSN, RN, CNOR, CMLSO

Learn evidence-based strategies for smoke management and legislative advocacy.

Objectives:

- Review the hazardous components of surgical smoke.
- Describe smoke management initiative using the Evidence-Based Practice Process.
- Utilize strategies for moving toward legislation.

“Surgical Smoke Evacuation Legislative Update”

Jennifer Pennock

Understand the latest legislative updates and how to get involved.

Objectives:

- Provide an overview of surgical smoke evacuation legislation history and status.
- Review CA AB 1007 which directed Cal/OSHA to issue surgical smoke evacuation regulations.
- Explain regulatory process and how CA AORN members can get involved.
- Review AORN resources for smoke evacuation policies and policy compliance.

“Become an AORN Center of Excellence in Smoke Evacuation”

Hannah Campbell, MS, CSM

Discover how your facility can achieve the Go Clear Award.

Objectives:

- Introduce the Center of Excellence in Surgical Safety: Smoke Evacuation program & Go Clear Award.
- Review the benefits of enrolling in and completing the program.
- Review the components and steps to complete the program.
- Learn how to submit program materials and achieve the Go Clear Award for your facility.

Join us for a California statewide virtual seminar on surgical smoke evacuation, dedicated to enhancing safety in the operating room. This event aims to educate perioperative professionals and the public on the serious health risks posed by surgical smoke to both teams and patients. Learn actionable strategies to advocate for a safer OR and play a pivotal role in implementing California's groundbreaking AB 1007 legislation. Together, we can champion change and make surgery safer for all!

Target Audience:

- Perioperative Professionals in California
