SCRN

Earned and maintained by more than 1,300 nurses, the Stroke Certified Registered Nurse (SCRN®) credential formally recognizes the attainment and demonstration of a unique body of knowledge necessary for the practice of stroke nursing.

Benefits

The SCRN certification will distinguish you from your colleagues and give you a sense of professional accomplishment. The purpose of certification in stroke nursing is to promote excellence and professionalism as well as provide assurance to health care employers and the public that individuals possess the necessary skills, knowledge, and experience in stroke care to perform competently.

Accreditation

The SCRN certification program is accredited by the Accreditation Board for Specialty Nursing Certification (ABSNC), the only nationally recognized accrediting body for specialty nursing certification programs.

Suggested Study Text

AANN Comprehensive Review for Stroke

The AANN Comprehensive Review for Stroke Nursing is a comprehensive resource for nurses preparing for the SCRN exam and those looking for a review of current best practices for providing stroke care.

Course Objectives

At the conclusion of this program participants should be able to:

- Describe basic anatomy and physiology of the brain.
- Summarize primary prevention for stroke.
- Compare the hyperacute, acute and post acute phases of stroke care.
- Discuss various diagnostics for stroke.
- Describe medications used for stroke.
- Explain systems and quality of care related to stroke.

Course Agenda

Agenda: Review Day 1

- Anatomy and Physiology
- Preventive Care
- Hyper-acute Care
- Acute Care

Agenda: Review Day 2

- Stroke Diagnostics
- Medications
- Post-acute Care
- Systems and Quality

Breakfast & Lunch will be provided on both days.
