

Vantive Worldwide Medical Education Program Presents:

AKI in the ICU: Volume to Perfusion October 23rd, 2025 at 7:00PM CT

Location:

Char Restaurant
931 Bob Wallace Avenue South West
Huntsville, AL 35801

Presented By:

Barbara McLean, MN, RN, CCNS-BC, NP-BC,
CCRM, FCCM
Critical Care Clinical Nurse
Specialist,
Grady Health
Atlanta, GA

Objectives:

- Discuss the importance of volume, pressure, and oxygenation to the glomerular-tubular apparatus
- Define the kidney risks with volume overload and underload
- Relate normal and abnormal indicator in AKI presentation
- Identify ways to test the potential kidney response to volume, vasopressors, inotropes and perfusion pressures
