

N.E.W. AACN Event

Date: October 20th 2025

Time: 6:00 pm

Where: Republic Chophouse

HEMODYNAMICS AND SHOCK

BARBARA MCLEAN will explore how predictive software helps us move beyond blood pressure and heart rate to truly “see shock coming.” By blending lab markers with heart and vessel signals, these tools provide earlier clues, clearer guidance, and support for timely, personalized care. Through real cases, we’ll see how this approach shifts us from reacting late to intervening early improving outcomes for our sickest patients.

NORTHEASTERN WISCONSIN CHAPTER

American Association of Critical-Care Nurses

Cost:

- Free for NEW AACN Chapter Members (\$25 for all year, must be a National AACN member)
