St. Louis Hemostasis Optimization Program

October 9th, 2025
6:00 PM to 9:00 PM CST

Fleming's
855 South Lindbergh Blvd
Frontenac, MO

Faculty

Grayson H. Wheatley III, M.D. FACS

Cardiovascular Surgeon
Founder and Chief Medical Officer
Wheatley Medical Consulting
Nashville, TN, USA

Professional experience/specialty/education/research:

Dr. Wheatley is an internationally recognized expert in aortic surgery, including endovascular solutions for complex aortic repair. He is an Associate Editor for the Innovations Journal of the International Society of Minimally Invasive Cardiac Surgery (ISMICS) and is on the editorial boards of several other leading cardiac surgery journals. An acclaimed educator, Dr. Wheatley is passionate about working with surgeons and operating room teams to advance their understanding of how the effective use of adjunctive hemostasis and wound closure products in surgical procedures can lead to improved patient outcomes and lower the overall cost of healthcare delivery.

Medical Degree | Thomas Jefferson University
Surgical Residency | University of Texas Southwestern
