

Basic Course for Principles of Infection Prevention and Control Spring 2026

The Northeastern Infection Control Educators (NICE) Are Excited to Announce this In-Person Educational Series.

This activity was planned and developed jointly by the New Jersey Department of Health (NJDOH) and the Northern and Southern New Jersey APIC (Association for Professionals in Infection Control and Epidemiology) Chapters.

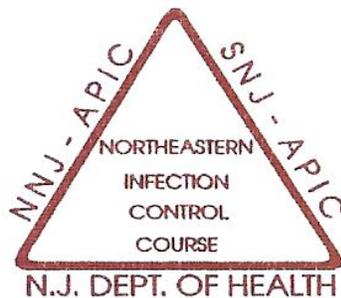

Dates: April 14-16, 2026
Daily Session times: 8:00 AM to 4:30 PM

Location: [New Jersey Hospital Association Conference and Event Center](#)
760 Alexander Rd., Princeton, NJ 08540

Description: This course is designed to provide basic information on a variety of infection control and prevention topics to help prepare the new Infection Preventionist, or person responsible for Infection Prevention and Control, to perform the duties required in various types of healthcare settings. Upon completion of this course, attendees will be able to identify the major components of an Infection Prevention and Control Program and identify at least three CDC-recommended infection prevention practices associated with reducing healthcare-associated infections as measured by a post-activity knowledge assessment.

Registration: February 16 (8:00 AM) through April 4, 2026 (11:59 PM)
Please click [HERE](#) to register for the course. Register early, seats are limited!
Registrants seeking nursing contact hours must also have an account with the [New Jersey Learning Management Network](#). Registration for nursing contact hours will be provided upon successful completion of the course. See below for details.

Payment: \$350.00 credit card payment **only** at the time of registration
PO and vouchers NOT accepted

Topics and speakers:

Antimicrobial Use and Stewardship – Jamie Desai, PharmD, BCPS, BCIDP
Application of Infection Prevention Across the Continuum of Care – Renee Fusco, RN, CIC, CSPDT
