Clinical Nurse Specialist
ECMO Specialist
Legal Nurse Consultant

This one-day course provides a review of AACN's core content for adult critical care nurses (CCRN) and adult progressive care nurses (PCCN).

The course combines central knowledge-based lectures on all testable content according to the AACN exam blueprint for CCRN and PCCN certification exams, plus exam-style multiple choice questions.

This review is not an introduction to the environment of the ICU or PCU, but a comprehensive update for the professional already in practice at the bedside and preparing for either or both certification examinations
