

MIMEDX
MEDICAL AFFAIRS

MIMEDX Sponsored: Pfiedler 2 CEs

Repurposing a Commonly Discarded Organ: The Benefits of Human Placenta Allograft

The session offers up to 2 continuing education (CE) credits and focuses on delivering relevant, real-world insights that can be directly applied to patient care. Through expert-led discussion and case-based learning, participants will gain valuable tools to support improved outcomes in their daily practice.

SPEAKER INFORMATION

Carol Devlin
PhD, RN, MSN, RNFA, CNOR

Dr. Carol Devlin is a PhD prepared Nurse Scientist outcomes researcher, expert healthcare provider with over 35 years of clinical and teaching experience. She first achieved a diploma in Nursing at Roxborough Memorial Hospital School of Nursing, then BSN, MSN, and PhD at the M. Louise Fitzpatrick college of Nursing at Villanova University in Pennsylvania. Dr. Devlin is a Certified Perioperative Nurse (CNOR®) and registered nurse first assistant (RNFA) and is very active with AORN and other professional nursing organizations. She is a frequent podium presenter and has served in leadership roles on multiple local, national, and international committees. She began her clinical career at the University of Pennsylvania Health System as a perioperative registered nurse then quickly transitioned to a private RNFA, first working with upper extremity patients, then lower extremity and spine patients. Dr. Devlin taught all levels of nursing, medical, and other allied healthcare students.
