

Dear Fellow Nurses,

Your voice matters. As frontline healthcare professionals, nurses bring invaluable insight into the challenges, needs, and opportunities within our healthcare system. This survey was created to better understand the experiences, concerns, and priorities of nurses in our community so we can advocate for meaningful change and stronger support for the profession.

Participation in this survey is completely anonymous. No names or identifying information will be collected, allowing you to share your honest thoughts, experiences, and concerns freely and confidentially.

By taking a few moments to participate, you are helping strengthen the collective voice of nursing and contribute to future initiatives focused on workplace conditions, professional growth, patient care, and overall nurse well-being.

Together, we can build a stronger future for nurses and the communities we serve. Thank you for your time, dedication, and commitment to making a difference.

Respectfully,

Taina Evelis Velez, MSN, APRN, FNP-BC

Director & Chair of Economic Welfare, VISNA
