

Below is a map of the building. Park in the smaller parking lot on the south side of the building, marked with a blue arrow. (If you see an open gate at the end of the parking lot, **do not** go through the gate to park.) Enter the door **closest to Beam road**. The door should be unlocked but if it isn't, ring the doorbell and someone will let you in.

For those traveling from the South (Gastonia)--the bridge is being worked on and there is construction that has closed the road for through traffic (Shopton Road) so you will need to enter on South Tryon Street.
