Receive the information and resources you will need as a Michigan school nurse to train and support designated school personnel to administer medications as they support students with health and medication needs in school. You will learn about:

- Michigan Laws that affect medication administration in the school setting
- Roles and responsibilities of nurse, staff, Administrators, parent, & healthcare provider
- District policies and guidelines
- Required documentation
- Handling and storage of medication & supplies
- Purpose, Side Effects, and Allergic Reactions of medications
- Drug Classifications
- Routes and procedures of administering medications
- Practicum/Peer Education Session

Training is free for MASN members and Non-members

****MASN members have unlimited access to training materials the RN may use in training their own district staff.*
