

ARTIFICIAL INTELLIGENCE *in Nursing*

TRANSFORMING CARE, EDUCATION,
AND ADMINISTRATION

10/23/ 2026

8am-5pm MDT for In-Person

9am-5pm MDT Virtual

Graphic design elements and artwork were created using artificial intelligence (AI) tools.

Join nurses from across Utah and beyond as we explore how Artificial Intelligence is reshaping healthcare, empowering caregivers, and transforming the way we deliver care, educate future nurses, and lead healthcare organizations.

Tickets available at

una.nursingnetwork.com. Limited In-Person Seats. Register today!

Featured Topics Include

The Future of AI in Nursing

Ambient AI at the Bedside

How AI is Redefining Nursing Care

Transforming Nursing Practice

Ethics, Innovation, and the Human Side of AI

Why Attend?

- Earn continuing education opportunities
- Learn practical AI applications
- Discover tools that reduce documentation burden
- Explore how AI can improve patient outcomes and caregiver experience
- Network with nurses, leaders, educators, and students across the state
- Prepare yourself for the future of healthcare
