Three Rivers Takes on NTI

Three Rivers Chapter members Jamie Swedron, Emily Rorick, Carolyn Zaffino, and Michele Tzanakis recently attended the National Teaching Institute for Nursing (NTI) conference in San Diego, where they participated in three days of educational sessions, networking, and leadership development. The conference featured presentations on topics including neuroplasticity, emerging medications, illicit drug emergencies, end-of-life care, and evidence-based practice, while research posters and vendor exhibits highlighted the latest innovations in critical care nursing. A dedicated chapter leadership session provided opportunities to collaborate with nursing leaders from across the country on membership engagement, leadership transitions, and chapter growth. Beyond the conference, Jamie, Emily, and Michele enjoyed exploring San Diego together, making the experience both professionally enriching and personally rewarding, with valuable insights and renewed inspiration to bring back to the Three Rivers Chapter.
